### FROM THE EDITOR-IN-CHIEF

Verifying some international broadcasters has become more difficult, due to the fact that the United States Postal Service has discontinued the sale of International Reply Coupons, which DXers and Amateur Radio operators have sent to selected radio stations as return postage for verifications. I bought my last 25 earlier this month. Unless a private company like FedEx is allowed by the International Postal Union to be allowed to sell them, IRCs will never be available in the United States again. I'm sure you're wanting to do something new for IRCA; there are still a few openings left. Contact Lee Freshwater for details.

### LEARNING AND SHARING: 2013 - TWIN CITIES

The NRC and IRCA, the Minnesota DX Club and the Worldwide TV-FM DX Association will convene in Minneapolis August 1<sup>st</sup> through the 4<sup>th</sup>, 2013.

The hotel selected for the 2013 Convention is the **Holiday Inn Bloomington South Airport Mall** in Minneapolis. The hotel provides free transportation to and from the airport and the Mall of America and will host the Saturday night joint banquet. All hotel rooms have microwave and refrigerator, HD cable. Free WiFi, and a Business Center are available. There's a great pool area where we'll have a Hospitality room. Breakfast is provided each morning and there's a Green Mill Restaurant and bar area.

Make your hotel reservations *right now*, to get the special convention rate. Call the Holiday Inn at 952-884-8211. Use the registration code "NRC" to obtain the special convention rate of \$79.00 per night. This rate *includes tax*.

Cost for convention registration is \$45 for members and guests. This includes the Saturday night banquet, as well as the amenities at the **Museum of Broadcasting** and the Friday evening "Pizza-fest" at the Museum.

Your check or Money Order for registration should be payable to: "**The National Radio Club**". Send to **Skip Dabelstein** at 8008 North Iron Ridge Drive, Tucson, Arizona 85743. ### FROM THE PRESIDENT (Lee J. Freshwater)

Volunteers are needed for the following:

**AWARDS** : Not much to do here except for printing out the HEALD award every year. . No one has applied for the DX awards for many years.

**PUBLISHING** : Get address list from Lynn. Create labels and envelopes. Send (email) PDF file from the EIC to the printers, Pick up, Staple, Fold, stuff, then mail. It takes me about an hour to do the labels and envelopes. I usually do the envelopes on Wednesday morning before leaving for work. I pick up the DXM at the Printers on Wednesday night on my way to dinner. I staple, fold and mail on SATURDAY AM. It takes about an hour to fold and staple. It helps when you have a wife that assists you. You can set your own schedule as long as the issues go out on or before the masthead date. You will also need to send out sample issues as needed.

**E.D.X.R.** : Take email and mailed in DX reports and put in proper form for publication. Usually takes me about an hour to 90 minutes per issue.

I will be giving up these duties at the end of VOLUME 50. If no one comes forward during VOLUME 50, these features WILL go away. I will NOT extend my club duties past VOL 50.

 + Poor-fair KK music in Vancouver splatter at 1554 1/15. (GDB-WA)  
 + Poor-fair KK YL speech at 1421 1/16 in and out of Vancouver splatter. (GDB-WA)

#### PAN AMERICAN DX ROUNDUP

- 540 **MÉXICO**, XETX, Nuevo Casas Grandes, Chih. 0642 1/15. "La Ranchera de Paquimé" frequent ID fired within a minute of tune-in, ie XETX, listed by Cantú as only 250 watts at night, and no problem from any XEWA SLP listed as 150,000 watts. BTW, the "250,000" full-time non-directional watts from 900, XEW are also obviously passé, as there is no dominance whatsoever of XEW at night; lucky to hear some SS amid the QRM. Has W Radio allowed its super-power outlets to fall into disrepair, or deliberately cut down the power levels? (GH-OK)  
 610 **MÉXICO**, XEBX, Sabinas, Coah. 0639 1/17. Music and soon ID as "La Primera," which means it's XEBX, 500 watts at night, as IRCA, WRTH and Cantú all agree is the only such Mexislogon on 610. (GH-OK)  
 620 **MÉXICO**, XEBU, Chihuahua, Chih. 1418 1/16. YL in SS with Chihuahua weather, in null of R Disney Dallas-Fort Worth. The usual XE dominant on 620, XEBU. (GH-OK)  
 640 **MÉXICO**, XEHHI, Hidalgo del Parral, Chih. 0701 1/11. Mexican NA very long multi-verse choral version, finally ends at 0706, full ID with powers, street address, phones, etc., for "Los 40 Principales," Hidalgo del Parral, Chihuahua, AM & FM, XEHHI on 640, and XHHHI on 99.3; 0707 timecheck as "son las 12" – not exactly! Then rock song en inglés. It's not hard to get past KWPN 640 OK, which BTW is still running IBOC, but only sporadically in the daytime. (GH-OK)  
 660 **MÉXICO**, XEACB, Ciudad Delicias, Chih. 0639 1/11. Romantic music in SS, "La mejor estación, La Lupe, 98.9" dominating frequency at the moment, ie XEACB, 5/1 kW per IRCA Mexican log but not off the air after 0600 as listed there. Name is presumably in tribute to La

Virgen de Guadalupe. I used to live in Guadalupe county, New Mexico, too young to be conscious of virgins per se, but no doubt inadvertently associated with some in grade school. (GH-OK)

- 710 **MÉXICO**, XEDP Ciudad Cuauhtémoc, Chih. 1428 1/12. M&W with crime stats, "delitos," 7:28 timecheck, state news mentioning Delicias' water shortage; poor signal but way atop KGNC and KCMO still, half a sesquihour after Enid sunrise, ergo XEDP, which is also the dominant XE at night. A.k.a. La Ranchera de Cuauhtémoc but departing from that format for a morning newscast. (GH-OK)  
 720 **MÉXICO**, XEJCC Ciudad Juárez, Chih. 1444 1/17. SS talk fades in mixing with UnID "Jew's harp." But it's not sports talk. 1447 "El Extremo 720" and timecheck sure sounds like 8:47 = CST, not 7:47 = MST. Mexican federal PSAs, 1448 "regresamos, 7-20 Extremo," into music, "Quizás3" on piano. This slogan applies to XEJCC, 1/1 kW per IRCA. (GH-OK)  
 730 **MÉXICO**, XEHB, Hidalgo del Parral, Chih. 1410 1/14. Mexican music and "Ke Buena" ID before succumbing totally to 740 KRMG Tulsa 50 kW splash. So XEHB, surely also running 50 kW, has held up longer than most lowbanders, a semihour past sunrise here. (GH-OK)  
 770 **MÉXICO**, XERFR, 0658 1/16. String of phone numbers in SS, ID as XERFR, R Fórmula. Therefore it is that network's affiliate in Monterrey NL, XEACH, which IRCA Mexican Log 2012 lists as only 200 watts at night, 5 kW day. WRTH 2013 and current Cantú show 25/1 kW, which I find more credible. (GH-OK)  
 800 **UnID**. 0659 1/16. The extremely distorted signal is here again, looping somewhat west of due south and separable from 800 KQCV OKC to the SSE. Prime suspects remain XEZR in Zaragoza, Coahuila, and XEDD in Morelos NL. I wonder if Steve Wiseblood, back in Harlingen TX, can hear this in the daytime and get a fix on it? Or at night. (GH-OK)  
 860 **MÉXICO**, UnID. 0701 1/16. Mexican NA under CBS News from KKOW in KS, not separable as close to opposite direction, WSW. Very likely from an MST station where it's midnight, but three are in Cantú: XEZOL 860 Noticias Cd. Juárez, Chih. 1,000 500, XENW Máxima + FM 103.3 Culiacán, Sin. 1,000 250, XEHX La Mía + FM 101.7 Cd. Obregón, Son. [no powers given.] IRCA shows XEHX also as 1000/250; WRTH as 5000/250. XEZOL is closest to here and more likely. The NA did not last long, but any following ID could not be heard vs QRM. (GH-OK)  
 870 **MÉXICO**, XETAR, Guachochi. 1358 1/16. With remnant WWL nulled, SS talk about local indigenous matters, 1402 mentions Tarahumara, 1403 PSA from gobierno del estado de Chihuahua, then federal IFE PSA, and some rustic music, obviously XETAR 10 kW daytimer. (GH-OK)  
 960 **MÉXICO**, XEFAMA, Cd Camargo, Chih, R Fama, La Grandota. 0601 1/15. During local KGWA Fox-hole of dead air, mainly Mexican music; 0603 part of ID mentioning "Chihuahua, México," so it must be the only station in that state per Cantú: XEFAMA + FM 97.5. 10,000 1,000 which I have heard before. The precise null of KGWA carrier is more favorable for this than for also-heard XEK in Nuevo Laredo. (GH-OK)  
 1050 **MÉXICO**, XEG, Monterrey, NL. 1413 1/17. SS from N/S assumed to be XEG until the DJ mentions Kansas a couple times! Could there be an SS up there I haven't noticed? But then mentions Nuevo Laredo, plays a canción from 1991/92y, CST TCs, more music, 1421 "La Ranchera 10-50," clincher being SEP PSA from the Mexican federal government, so it really is XEG in broad sunlight. (GH-OK)

Welcome to another edition of SportChannels IRCA. This edition is dedicated to the memory of Stan "The Man" Musial, the longtime St. Louis Cardinals outfielder-first baseman and model citizen of the St. Louis community, who passed away at age 92 on January 19, 2013. It was only fitting that the St. Louis Blues won

their opener 6-0 that night against their arch-rivals, the Detroit Red Wings. In this edition, we continue with the NHL network lists with the Pacific Division of the Western Conference, the division in which the reigning Stanley Cup champions, the Los Angeles Kings, play in, as well as the Southeast Division of the Eastern Conference, where most of the clubs in the Deep South and the second Winnipeg Jets (formerly the Atlanta Thrashers) play in. We're also starting in on the NBA lists with the Central Division of the Eastern Conference (which the Chicago Bulls play in) and the Pacific Division of the Western Conference (which features all four California teams). The NBA is the only one of the four major professional sports leagues that does NOT have a franchise in Missouri. English language network flagship stations are in **boldface** type, Spanish language network flagship stations in **boldface italics**, Spanish language affiliates in *italics*.

**ARRL Hamfest Calendar**

As you may know (and I can say this from experience-EIC), a Hamfest is a great place to find good deals on new and used receivers, wires and cables for antenna projects, and other hobby-related needs. The American Radio Relay League has a Web page to help you find a Hamfest near your home QTH or while you're traveling to other parts of the country. You can search by Zip Code, select from Hamfests within 25, 50, 100 and 250 miles of your home QTH, as well as city and state. (Searching by ARRL division and section is only for the Ham-savvy, hi.) To find a Hamfest in near your home QTH, visit <http://www.arrl.org/hamfests-and-conventions-calendar> and plug in your location or Zip Code. You'll be able to find upcoming Hamfests in your local area.

**IRCA Facebook Page**

The IRCA's Facebook page is now online! This is a new feature of IRCA, featuring photos of transmitter sites (many of which provided by our Chairman, John C. Johnson), members' shacks (your Editor-in-Chief included) and plenty of information. If you have a Facebook page, enter "International Radio Club of America" into your Facebook search engine, then click the "Like" icon. Many thanks to Mike Sanburn (KG6LJU) and John C. Johnson for setting this page up.

The IRCA is a non-profit organization devoted to the hobby of hearing distant stations on the Broadcast Band (510-1720 kHz). **DX Monitor**, the official publication of the IRCA, is published in "soft" form 35 times a year (weekly from November through March, twice monthly from April to November) and in printed form 30 times a year (weekly November through March, monthly April to November). **DX Monitor** contains members' loggings, articles on radio stations, receiver reviews, technical articles, DX tips, and other material of interest to Broadcast Band DX hobbyists.
