 1580 KKTS WY, Evansville is now here, ex-1600. Very strong at 0800 on 12/1, surely operating on day power. Ended spirited vocal that could suggest kids' format, then ID "Turn it up loud...107.3 FM in ???, 89.3 FM Douglas, KKTS-FM, KKTS-AM 1580 Evansville-Casper," followed by NBC news. Wikipedia says format is hot adult contemporary and already registers the frequency as 1580, although I haven't seen this in DXM. When did this change take place? (LG-MT)

It looks like DX has slowed down this week. Thank you to Bill and Larry for reporting their catches. Nancy 12/6 2100

### DX TESTS

- 1150 (WNDB) FL Daytona Beach – 12/7 0100-0123 DX test tried, not heard. I had a station topping the frequency carrying John Denver's "Feels Good to Be Back Home Again" and "White Christmas" performed by Kenny G, then a mention of the slogan "One Great Song after Another, W???" (I heard what I thought was a K in the calls), then faded out. No sign of any Morse Code IDs; checked WNDB's Internet feed, and they were carrying "Coast to Coast AM" online; no idea if the test was even on? Oh well...frequency was a graveyard, basically. (RW-MD)

### EDITOR'S NOTES

I also did not try for the WNDB test...it came on the same day as Skywarn Recognition Day at the National Weather Service (I'm a volunteer severe weather spotter). With CKOC and KSAL usually dominating the frequency, I might not have had a chance to hear it.

Trivia time: The call sign WAMV is mentioned in this edition. For several years in the 1950s, the calls were assigned on 1490 kHz in East St. Louis, IL, changing calls from WTMV. The station later used the calls WBBR before going silent sometime in the 1960s. The frequency was revived in 1972 with the calls WESL (for East St. Louis), and flipped to WFFX (for Fox Sports Radio) around 2007. The

station once again has Fox Sports Radio (with Fox News Radio at the top of the hour) with the call sign WQQX.

DX Worldwide East is taking the week off.

73 and good DX from NØUIH.

- 279 **RUSSIA**, Yuzhno-Salhalinsk, Radio Rossii. Man in Russian 1417 11/03, fair to good. Good strength on 11/04 at 1300, 6 pips on hour, Radio Rossii ID by man, then woman in Russian. Appeared to sign off at 1500: Radio Rossii mention by woman just before the hour, fairly weak by then, then silence, no pips, and carrier cut at 1500:20. (NHP-BC)  
+ 0735 12/2 weak signal with music. Active whip. (DV-WA)
- 529 **ALASKA**, SQM, Level Island. 1453 12/6 very weak signal with weather forecast. NW ewe. (DV-WA)
- 531 **JAPAN**, JOQG, Morioka. Man in Japanese talk //567 1405 11/03, poor at best, but it's a relatively quiet channel. (NHP-BC)
- 549 **CHINA**, Putian, CNR5. After IDing it earlier with parallel with 1116, at poor strength, this hung in until nearly 1500 11/23, peaking to fair w/man in Chinese at 1458; brutal splatter from 550. (NHP-BC)
- 558 **REP KOREA**, HLQH, Yeong-il. Quiet ballad 1423 11/2, poor strength but //603; someone else was on the channel as well. (NHP-BC)

- 603 **REP KOREA**, HLSA, Namyang. Very good signal w/man in Korean 1448 11/04; slightly less strength but very readable at 1500, and still plenty left for a lovely round of KBS IDs and a jingle (never heard those before), and NHK style pips, except there was a pause between the three short, then the long that was quite catchy. Briefly at good level //558 w/female ballad and Korean talk by deep voiced man 1523 11/22; had actually been around since 1445 at lower levels, and distinctive syncopated pips poked through at 1500. - 639 **CHINA**, various locations, CNR1. Man and woman in Chinese //6030, 1419 11/05, fair to good strength. Tuning to 640 showed mostly just a het from 639 by now. (NHP-BC)
- 648t **RUSSIA**, Ussuriysk, VoR. Likely this 1440 11/4, with woman talking, then man, um... DU English sounding? VoR supposed to be English at this time per one source: <http://www.shortwaveschedule.com/index.php?station=9>, but hiring Aussies just isn't fair. (NHP-BC)
- 693 **JAPAN**, JOAB, Tokyo, NHK2. Woman and man in Japanese, little musical interlude and pips 1300 11/06, followed by weather report, fair signal. Surprise of the morning, how clear it was, until I realized that CBU-690 was off the air, and only XEWW was IDing on the hour. I could learn to like that situation. (NHP-BC)  
+ Best of the Japanese this morning, but only at a decent level from about 1440 to 1450 12/2. (NP-AB)

- 738 **FRENCH POLYNESIA**, Papeete, Radio Polynesie/France Inter. Female vocal mx 1415 12/3, good strength, and into man in French as level dropped slightly, hung in for the better part of 10 minutes. - 750 **ALASKA**, KFQD, Anchorage. Atop Portland w/PSA, jingle ID, CBS news 1400 12/6. (bp-WA)
- 765 **CHINA**, Fuzhou, CNR5. Snatches of instrumental mx //1116 1439 11/23; extreme minimalist DXing at its finest. (NHP-BC)
- 774 **JAPAN**, JOUB, Akita, NHK2. 0740 12/2 weak signal with man/woman in Japanese. NW ewe. (DV-WA)  
+ Time pips 1300 12/2, mostly faint-nil after that, but surfaced for briefly with talk 1312. (bp-WA)

- 1134 **REP KOREA**, KBS. Time pips and Korean talk 1300 12/6. (bp-WA)
- 1143 **TAIWAN**, Baisha, BEL3. Man talking then woman //738 1449 11/2 poor at best. (NHP-BC)
- 1170 **REP KOREA**, KBS. Very faint pips during several-second pause in KPUG audio 1300 12/6. (bp-WA)
- 1206 **CHINA**, Yanbian. On 1205.96 with woman in Korean, no pips at ToH 1300 12/6. (bp-WA)
- 1269 **JAPAN**, JOFM/JOHW, Esashi/Obihiro. Man in Japanese //1287 1526 12/2, poor at best. (NHP-BC)
- 1287 **JAPAN**, JOHK. Traces of audio around 1445 12/2. (NP-AB)  
+ Japanese talk briefly rising above the splatter 1521 12/2. (bp-WA)

- 1314t **JAPAN**, JOUF, Osaka. This was one of the stronger stations this morning woman in Japanese, pop mx 1523-1528 12/2, fair to good signal. (NHP-BC)  
 + Pop songs 1526, Japanese talk 1529-1531 12/2. (bp-WA)
- 1323 **JAPAN**, NHK1 synchros. CRI was likely w/woman in Russian 1528 11/27, fair strength, but female vocal mx from someone else at 1526, faded into piano mx //594; maximum power on these NHK1 synchros is 1 kw, most are 100w. Catch of the morning. (NHP-BC)
- 1359 **CHINA**, CNR1 synchros. Woman and man in Chinese sounding talk 1526 11/25, snatches //1593, poor strength. (NHP-BC)
- 1377 **CHINA**, Zhengzhou, CNR1. Woman talking 1530 11/22, poor strength //6125 and 1593; there was someone else there trading places with this w/female pop mx, western style. (NHP-BC)
- 1386 **JAPAN**, NHK2 synchros, JOQC Morioka most likely? S/off chimes finishing 1514 11/24, fair to poor level, then man in apparent Korean took over, presumed HLAM, never logged here before. Light mx //774 at 1521, but at 1530 there was choral mx mixing with it, sounding somewhat Christian. There is a Filipino Catholic station on this channel. (NHP-BC)
- 1404 **JAPAN**, JOQL, Kushiro. Man talking 1524 11/25 //1287, poor level, but a new one at home I'm pretty sure. (NHP-BC)
- 1413 **UnID**. Bits of talk 1254 12/7. Slightly better 1530 w/talk possibly in Chinese, but hard to say for sure. (bp-WA)
- 1422 **JAPAN**, JORF. Japanese talk 1516-1525+ 12/2 sometimes good enough to be understandable (I think.) (bp-WA)
- 1494t **JAPAN**, JOYR, Okayama. Woman and man in Japanese, fair to poor strength, not //1287, better on N Flag, 1520 11/24. (NHP-BC)
- 1494 **UnID**. Talk 1530-1534+ 12/7, deep voiced man and sometimes woman, too weak to ID language. (bp-WA)
- 1503 **JAPAN**, JOUK, Akita. Man talking //567 1525 until past 1540 11/25. Very good strength at times. (NHP-BC)  
 + Japanese talk sometimes at listenable level 1509-1514 12/2. (bp-WA)
- 1557t **TAIWAN**, Kouhu. "1557 Music Interactive Network." Female pop mx and woman in Chinese at 1534 11/22, followed by man in Chinese, fair strength. (NHP-BC)  
 + Pop music and Chinese talk 1521 12/2. (bp-WA)  
 + Bits of music 1513 12/5. (bp-WA)  
 + I'm assuming Taiwan, weak with pop music & time pips 1500 12/7, brief Chinese-like talk, more pop music in & out for next half hour. Chinese woman peaking at reasonably OK level 1529-1532, the back to pop music. (bp-WA)
- 1566 **REP KOREA**, HLAZ, Cheju, FEBC. Woman in Chinese at 1539 11/25 very good level, but another carrier about 33Hz high was messing it up, man talking, maybe China? Hubei RGD is listed at around that offset. Also 11/26, woman in Chinese at 1532, "Amazing Grace" sung at top volume, then thundering in at 1542 with two women in Chinese. Rest of the band pretty dead however. (NHP-BC)  
 + 0743 12/2 fair signal woman in Korean? Followed by woman singing. NW ewe. (DV-WA)  
 + Was the strongest TP signal morning, quite consistent from 1430 to 1500 12/2. (NP-AB)  
 + Briefly good w/Chinese talk at 1516 1534-36 and 1540 12/2, otherwise poor today. (bp-WA)  
 + Briefly fading up with announcements in Chinese 1527-30 12/5, otherwise fair-nli. (bp-WA)  
 + Signal peaking at about 1332 12/6 with man in Japanese, before and after that it was fair-nil. (bp-WA)  
 + 1426 & 1432 12/6. Good signal with woman in Chinese. NW ewe. (DV-WA)  
 + Lousy signal until 1408 12/7 when it faded up to fair level w/usual Chinese talk and occasional music. Signal took a dive after 1430, but then resurged in a big way 1520, and was still going strong when the recording ended 1534. (bp-WA)
- 1575 **THAILAND**, Ban Phachi, VoA. Couple of VoA IDs at 1530 11/25 at lower strength but readable. By 1540, it was strong w/man in SE Asian language, but also someone else with mx, possibly AFN? (NHP-BC)  
 + Faded up w/talk in SE Asian language 1521-26 12/2, otherwise weak at best. 2 other carriers visible on SDR display 1525, one of which had pop music, possibly AFN. (bp-WA)  
 + Just traces of VOA now and again 12/2. (NP-AB)  
 + Talk in SE Asian language fading up 1525 12/5. A couple of English IDs 1530, then switched to a different language. (bp-WA)  
 + 1428 12/6 assuming station with very weak signal briefly. NW ewe. (DV-WA)  
 + 1530 12/7 ID "Welcome to the Voice of America in Burmese", then man and women in Burmese. Mediocre signal before 1530 but rose up to nice level 1531. (bp-WA)
- 1593 **CHINA**, Changzhou, CNR1. Man and woman in Chinese 1521 11/25, very good level, noted //6125 various times. (NHP-BC)  
 + With fair audio for a few minutes around 1450 12/2. (NP-AB)  
 + Had a decent carrier but the audio was getting mercilessly bashed by my 1590 local. I caught a few syllables now and then between 1305 and 1331 12/4. (bp-WA)  
 + Occasional syllables in the 1590 splatter at 1503 12/5. (bp-WA)  
 + Bits of Chinese talk 1302 12/6 in the usual 1590 splatter. (bp-WA)

- + 1445 12/6 nearly good signal with woman in Chinese. NW ewe. KOHI splatter. (DV-WA)  
 + Man in Chinese 1531 12/7, would have been in the good category if not for KLFE-1590 splatter. (bp-WA)
- 1593 **JAPAN**, Matsue/Niigata, JOTB/JOQB. Woman talking //828 1521 11/25, poor strength, but little CNR1. (NHP-BC)
- 1602 **JAPAN**, NHK2 synchros. Man and woman talking, just briefly 1535 12/2, poor, //774. (NHP-BC)  
 + NHK time pips 1500 12/7, Japanese-like talk fading up 1530-1533. (bp-WA)

#### PAN AMERICAN DX ROUNDUP

- 530 **CUBA**. 0125 11/30 on car radio I am getting two stations in Spanish, mixed with the fast SAH from presumed remnant of K530AM Vance AFB Enid, which has ceased modulating. One is obviously Enciclopedia, mostly music, and the other is continuous talk, sounds Cuban too; think I hear "Radio Angulo" mentioned, but surely only a passing reference rather than ID. One other is listed, a Radio Rebelde in Guantánamo, which is a long way from here. When I get home, I can't hear it on the DX-398. (GH-OK)
- 660 **MÉXICO**, XEEY, Aguascalientes, Ags, La Kaliente. 0711 12/5 as I tune in, ID amid banda music as "La Kaliente 102.9;" dominant signal at the moment vs IBOC noise from 670 WSCR. Let's see, which one uses that slogan, which I naturally assume must be misspelt with a K instead of a C, in an effort to appear "kool," just like with Ke Buena instead of Q? Cantú reveals immediately: XEEY + FM 102.9 50,000 10,000. It's running ten times the night power of any other XE on 660 if the listings can be believed, tho one other has a 50 kW daytime transmitter, XEDTL in the DF. (GH-OK)
- 730 **MÉXICO**, XEHB, Hidalgo del Parral, Chih, Ke Buena. 1254 12/5, very good dominant signal with Xmas songs in Spanish, "La Ke Buena 107.1" ID, ie XEHB. IRCA Log 2012 had this as only 1000/300 watts from San Francisco del Oro; while Cantú is much more like it: XEHB + FM 107.1. 50.000 1,000. (GH-OK)
- 780 **MÉXICO**, XESFT, San Fernando, Tams. 0125 12/1, Spanish music looping North/South, over WBBM as that can be only heard with this partially nulled. Music stops and starts again; 0128 SHVA ID as "La Poderosa," as already linked to XESFT, despite that slogan lacking in the main references. (GH-OK)
- 950 **MÉXICO**, XERN, Monterrey, NL, Radio Naranjera. 0123 12/1, song in Spanish, segué to ranchera, on top for a while. If looping SSW can be relied on, most likely XERN. (GH-OK)
- 1300 **MÉXICO**, XEP, Ciudad Juárez, Chih. 0116 12/1, romantic music in Spanish from WSW is dominant signal, as if XEJ is still on 38 kW day power; 0117 ID as Radio Trece seems undermodulated by comparison to the music but signal is also suddenly weaker, as if they just got around to switching to night power 500 watts (per IRCA; WRTH says only 50 kW); into ads under too much QRM now. (GH-OK)
- 1570 **MÉXICO**, XERF, Ciudad Acuña, Chih. 1249 12/5, XERF is still playing "Mañanitas" at this hour, heartfelt song, a tradition to gently awaken a child at sunrise on its birthday; and still following at 1251 with "servicio social" segment as frequently repeated, missing persons as far away as California, with phone numbers to call, and lost-and-found items such as documents. (GH-OK)

#### TROPICAL BAND DX ROUNDUP

- 2910 **MÉXICO**, XEVT, Villahermosa, Tab. (970 3x harmonic.) 1215 12/5, JBA talk, 1217 music probably part of ad, back to talk. Surely the oft-heard but always-weak third harmonic of XEVT. (GH-OK)

#### THANKS TO THESE REPORTERS

### ARRL Hamfest Calendar

As you may know (and I can say this from experience-EiC), a Hamfest is a great place to find good deals on new and used receivers, wires and cables for antenna projects, and other hobby-related needs. The American Radio Relay League has a Web page to help you find a Hamfest near your home QTH or while you're traveling to other parts of the country. You can search by Zip Code, select from Hamfests within 25, 50, 100 and 250 miles of your home QTH, as well as city and state. (Searching by ARRL division and section is only for the Ham-savvy, hi.) To find a Hamfest in near your home QTH, visit <http://www.arrl.org/hamfests-and-conventions-calendar> and plug in your location or Zip Code. You'll be able to find upcoming Hamfests in your local area.

### IRCA Facebook Page

The IRCA's Facebook page is now online! This is a new feature of IRCA, featuring photos of transmitter sites (many of which provided by CDXR Editor John C. Johnson), members' shacks (your Editor-in-Chief included) and plenty of information. If you have a Facebook page, enter "International Radio Club of America" into your Facebook search engine, then click the "Like" icon. Many thanks to Mike Sanburn (KG6LJU) and John C. Johnson for setting this page up.
