***** IRCA Mexican Log, 19th Edition (Winter 2014) *****

The **IRCA MEXICAN LOG** lists all AM stations in Mexico by frequency, including call letters, state, city, day/night power, slogans, schedule in UTC/GMT, formats, networks and notes. The call letter index gives call, frequency, city and state. The city index (listed by state, then city) includes frequency, call and day/night power. The transmitter site index (listed by state, then city) tabulates the latitude and longitude of transmitter sites. This is an indispensable reference for anyone who hears Mexican radio stations. Size is 8 1/2" x 11".

Prices: **IRCA/NRC members** – \$9.50 (US), \$11.00 (Canada) \$12.50 (México), \$14.00 (rest of the world). **Non-IRCA/NRC members** – add \$2.00

IT'S TIME FOR A CHANGE

When I took over as Editor-in-Chief of DX Monitor in 2010, my mother was in a little better health and my oldest brother was still alive. I also had to prepare two different versions; one for SDXM subscribers and a hardcopy edition to send to Fresh. My mother's health is not as good now as it was four years ago; my oldest brother lost his battle with cancer in April 2011, and IRCA has transitioned to an online-only bulletin. Now, with an increasing amount of time being dedicated to helping my father take care of my mother, who has been battling Primary Lateral Sclerosis, a slower-progressing form of Lou Gehrig's Disease, since May 1997, it's gotten to the point where one of my IRCA activities had to go. The activity that has to go is that of Editor-in-Chief of DX Monitor. This issue will mark my last one as Editor-in-Chief of DX Monitor. During the last full week of September, I tendered my resignation as Editor-in-Chief to Phil Bytheway. I will continue on as Editor of Eastern DX Roundup, SportChannels IRCA and putting together the IRCA Ham Radio List. I will also be contributing to Central DX Roundup, DX Worldwide West and the other columns as logs come in. I'd like to extend my thanks to the IRCA Board of Directors for giving me the opportunity to gain experience with putting together a club bulletin, to Lee Freshwater and Phil Bytheway for helping me along the way, to the editors for their hard work, to the column contributors for keeping our columns going, and to you, our membership, for reading DX Monitor every week. It's the membership who makes IRCA the club we are now. Phil has been Editor-in-Chief of DX Monitor before, so he brings extensive experience to the job. He will be acting in this role until a suitable replacement is found. Thanks to all in IRCA for your help and support...the very best of 73!

IRCA PRESIDENT'S REPORT – Phil Bytheway – 9705 Mary NW – Seattle WA 98117-2334

E-mail: phil_tekno@yahoo.com

Due to Eric's resignation as **Editor-in-Chief**, I am taking over as EIC (I am the backup) until a new one can be found. I will stay with Eric's published schedule for the rest of the volume (should I last that long, hi). Further announcements in the next DXM (which will be my first as EIC).

With the publication of this year's **Mexican Log** (see plug elsewhere in DXM), **Martin Foltz** is retiring as Compiler/Editor. We are also looking for a **Slogan's List** Compiler/Editor.

Both the **Mexican Log** and **Slogan's List** are done in MS Access, so a reasonable knowledge of Access is required. Anyone interested in taking over either one of these projects, contact me at the above address or email. Phil B

Well, in process of signing a lease for a new 55+ retirement community brand newly built 2-bedroom apartment townhome in Laurel, MD 20 miles NW of my current house, we're selling our current place and moving out of Bowie due to some neighbor noise and area-in-general issues. I'll let you know the new address at the top of the column (I am also getting a new phone number) when we move, moving on October 17th. I'll provide all updated information in the next BI column in 2 weeks. The 50th IRCA convention occurred last weekend in Billings, MT, and judging by the reactions was a rousing success, John and Nancy did a great job, wish I had been there. Hope John and Nancy have a great time in their new home state of Arizona! Fall is here so DX should improve!! 73's. Bob Wien

EDITOR'S NOTES

Thanks to Kraig and John for their contributions this week! Congratulations to John for adding a Sangean ATS-909X. I have an earlier Sangean (ATS-803A) which I use to DX the shortwave broadcast bands.

By the time you read this, you might have a few new DX possibilities if you live in a market where a Radio Disney affiliate has been taken silent. If you live in a market in which a Radio Disney affiliate has gone through a format change instead of being taken silent, report it to Bob Wien. He'll appreciate your business.

After this week, I'll just be doing this column, SportChannels IRCA and the IRCA Ham List. It's been fun putting together DX Monitor for the last four years. Good luck to Phil as our returning Editor-in-Chief.

73 and good DX from NØUIH

PAN AMERICAN DX ROUNDUP

- 540 **MÉXICO**, XETX, Nuevo Casas Grandes, Chih. 0535-0537 9/27, three full IDs within two minutes from "XETX y XHTX, ¡¡La Ranchera de Paquimé!!" Listed by IRCA as 5/1 kW, dominant signal although when nulled, pop music is probably XEWA SLP, allegedly 150 kW ND. IRCA Mexican Log also shows XETX closing at 0400, but not so. Such frequent canned IDs are great for DXers but must be rather tiresome for local listeners. (GH-OK)
- 650 **MÉXICO**, XETNT, Los Mochis, Sin. 0512 9/25, Los Mochis ads, mentioning Grupo Chávez, Radio Viva, but this is Radio 65, XETNT. Mutually nulloable with talk station in English, no doubt KGAB in WY – and hardly any sign of WSM Nashville, unusual as it's usually dominant. (GH-OK)
- 870 **UnID MÉXICO**. 1158 9/28, Mexican music, presumably not XETAR which is a daytime starting at 1200. This one loops further south; remnant WWL easily nulled. 1200 SEP federal PSA, then PSAs for the state of Zacatecas! 1203 AM & FM ID for 89.1 and 870, Radio [two syllables]. No 870 Zacs in WRTH 2014 or IRCA 2013, but Cantú shows a newish entry still lacking any power info: 870 XEXM Radio Jerez + FM 89.1 Zacatecas, Zac. (Desde

Jerez). IRCA cross-reference shows this call was previously on 1150. WRTH agrees it was 5/1 kW there, so 870 is presumably an upgrade; and full name of place is Jerez de García Salinas. It would have been the very last entry as ZC08 but the state-by-state station info ends with ZC07! Via Cantú the closest thing to a website is FB for the Zer Group, <https://www.facebook.com/GrupoRadiofonicoZer> but in which I find only a passing reference to Zacatecas in Sept 2013. Apparently the group has been growing, adding new outlets, mostly FM, over the past year. Header mentions these states only: Aguascalientes, Zacatecas, México DF, Jalisco, Colima, Sonora. In the DF, Zer has the 1650 X-bander which still eludes me. By 1203 a SAH is showing, and by 1209 XETAR is taking over 870. (GH-OK)

- 920 **UNID MÉXICO**. 1205 9/29, choral Mexican anthem, heavy QRM but roughly from SSW, 1207 full ID but unreadable. Two from Coahuila and one from Chihuahua most likely. (GH-OK)
- 980 **UNID MÉXICO**. 1212 9/28, kids choral Mexican anthem at odd hour, maybe overslept, loops WSW, 1213 instead of full ID, right into "Buenos días" by live announcer, but no details, into music. Chihuahua or maybe Sonora likely. At 1217, not necessarily same station, 5-letter call which would only be XEDCH in Delicias, Chihuahua; and another call tentatively XENR which is Melchor Múzquiz, Coahuila. (GH-OK)
- 1050 **MÉXICO**, XED, Mexicali, BCN. 0535 9/17 "10-50 La Gran D de Mexicali" slogan, mentioned Recuerdos and Radiorama. Mixing with KTCT. Slogan change. (MF-CA)
- 1420 **UNID MÉXICO**. 0553 9/15 tune by, Mexican federal PSA, then auto time-check in Spanish for 8:53!! But that would be in the UT-9 zone where there's little but Alaska, certainly no part of México. Some station's clock is upscrowed. Possibilities: XEF in Juárez, XEH in Monterrey, XEEW in Matamoros; furthest out but only UT-7 is XEXX Tijuana. Then I have doubts: did they say "once" instead of "ocho" which I thought I clearly heard? That would be in the UT-6 zone, ie XEF (GH-OK)
- 1430 **MÉXICO** XEWD, Ciudad Miguel Alemán, Tama. "Radio X, Catorce-Treinta", "La mas autorida en radio". 0816 9/14, I heard the following - "Radio X, 14-30 AM." Well, all my scribbled notes from past DX sessions over a six-month season tell me this should be XEWD, Ciudad Miguel Aleman, Tamaulipas, but their "short ID" of "Radio X" doesn't match anything I have. (SP-TX)

Gabriola Island DX report
Nick Hall-Patch, Victoria, BC

A quick trip to Gabriola Island on 17 July while Gary and Chuck were working the cliffs at Rockworks, with completely different results.

I was monitoring the DX Fishbarrel in Victoria while DXing on Gabriola; Victoria was hearing Tahiti 738 at audible levels, while Gabriola was barely getting a carrier using a westerly KAZ antenna with a FLG100 amplifier, so I expected that Zedders might be missing, and I was not surprised. Although there's about 6 km of water path along that direction, there is a further 90 km chunk of Vancouver Island before the Pacific Ocean, and that seemed to be killing any hope of NZ reception there.

Things faded out fairly quickly after 1200UT, and before that, it was all Asia.

HLAZ 1566 had two women in Chinese at 1152 at completely readable levels, and 1287 had a man in Japanese. NHK pips were barely heard at 1200 on 594 and 828, plus, even more barely, 1503. Otherwise, lots of carriers in the usual spots, 774, 972, 1053, 1179, 1269 etc., but little audio. And no audio and few carriers at all from DU as sunrise approached.

On 18 July, Asians were weaker, again from 1130-1200 mostly, though HLAZ faded up briefly again with the pattern change to the Japanese program at 1230UT. Otherwise only weak audio from 1287 and 1503, with NHK pips at 1200 from the latter.

Interestingly, there was a little Aussie action after 1200, but only above 1600kHz, with 1611, 1629 and 1701 delivering weak audio and off channel hums.

- 3385 **PAPUA NEW GUINEA**. 1118 9/23, Radio East New Britain, Rabaul is back on the air, very poor but some talk audible; Ron Howard says this resumed 9/22 when he heard it at exactly the same hour. "Had been off the air since Aug 29, the day of the eruption of the Tavurvur volcano." Also VP carrier here on 3260 which would be Madang. (GH-OK)
- 4055 **GUATEMALA**. 1138 9/20, Radio Truth with dramatic reading in Chinese, presumably Biblical, accompanied by dramatic music. I guess their ID in Chinese would be Zhe-nxiang Diàntái (e- rendering high level tone over the e). (GH-OK)
- 4755 **MICRONESIA**. 1159:24.5* 9/19, PMA The Cross carrier cuts off but too weak to hear DTMF tone cues if any. Then up to SOLOMON ISLANDS. (GH-OK)
+ 1158 9/20, PMA The Cross is very poor with some contact info (phone number?) in English, probably of a syndicated program, marred by MARS(?) SSB and digital QRM almost co-channel (but no time to measure to usual 4755.55 area), until cutoff at 1159:26.5* after which I retune quickly to 5020 where I capture SOLOMON ISLANDS [qv] doing its own autocutoff 27 seconds later. (GH-OK)
- 5020 **SOLOMON ISLANDS**. 1200* 9/19, SIBC carrier cuts off just as I tune in within a couple seconds of 1200 sharp, just after MICRONESIA. (GH-OK)
+ 1156 9/20, SIBC very poor with some 'island music'. After timing the MICRONESIA [qv] cutoff I hurry back here and catch 5020 itself cutting off at 1159:53.5* compared to WWW. (GH-OK)
- 5040 **CUBA**. 0520 9/22, RHC English frequency has wobbling transmitter, while 5025 Rebelde is OK, as are the other four overkill of The Cuban Five. (GH-OK)
+ 0547 9/24, RHC English still with wobbly carrier on this frequency (and some degradation of modulation), while the other four are OK. (GH-OK)
0511 9/25 check, this RHC transmitter is still with wobbling carrier, also audible without BFO, now amid English. (GH-OK)

Greetings! Just back from Billings, where John and Nancy put together a stellar convention. I enjoyed visiting with old friends and meeting new ones. Phil was in top form conducting the auction. I have news of four old-timers I've been privileged to contact during the past month. Dave Johnson, one of the "Founding Six," now lives in Owatonna, MN, and just rejoined IRCA. He sent a greetings message to those of us in attendance at Billings. Welcome back, Dave! Dallas John, another of the "Founding Six," lives in Denver and fondly recalls helping Bill Nittler publish the DXM. Ed Krejny, first DXWW editor and a member of IRCA's first Board of Directors, lives in Strongsville, OH, and still uses the typewriter he employed to prepare stencils for his column in 1964. Dave Gleason, also one of the original Board members, does part-time consulting for Univision Radio and spends most of his time working with www.americanradiohistory.com - check him out at www.davidgleason.com. One of the discussion topics in Billings was where we old-timers can leave our verification letters and QSL cards when we pass on. The Maryland-based Committee to Preserve Radio Verifications (CPRV) has archives filled with thousands of QSLs but, unfortunately, is no longer accepting collections on a general basis, limiting its intake of additional material to QSLs that have special historical significance and do not duplicate material already in the collection. Wayne Heinen kindly answered my inquiry and wrote that NRC has been archiving some members' collections to pdf, but unless CPRV is interested in the originals of these, NRC simply recycles the paper as they have no other repository. Some at Billings spoke of soliciting a liaison with a radio industry group, perhaps the National Association of Broadcasters (NAB), to establish a museum of sorts to house our QSLs. Is anyone in the club willing to take on this project? If so, contact Phil Bytheway. 73 to all.

No tips were submitted by the August deadline, so there was no August column. This column was prepared on 9/29/14. 73, SSH.

Welcome to another edition of SportChannels! It's been a while since I put a column together, but I've been busy with other things. Hopefully I will have more time to tackle this column and the other column I'm doing, Eastern DX Roundup. It's football season once again, and in this issue, we'll look at the networks from the NFC North and AFC North. Flagship stations are in **boldface** type.

ARRL Hamfest Calendar

As you may know (and I can say this from experience – EIC), a Hamfest is a great place to find good deals on new and used receivers, wires and cables for antenna projects, and other hobby-related needs. The American Radio Relay League has a Web page to help you find a Hamfest near your home QTH or while you're traveling to other parts of the country. You can search by ZIP Code, select from Hamfests within 25, 50, 100 and 250 miles of your QTH, as well as by city and state. Those of us who are Amateur Radio operators can also find Hamfests by their ARRL section. To find a Hamfest near your QTH, visit <http://www.arrrl.org/hamfests-and-conventions-calendar> and plug in your city, state and/or ZIP Code. You'll be able to find upcoming Hamfests in your area.

IRCA Facebook Page

The IRCA's Facebook page is now online! This is a new feature of IRCA, featuring photos of transmitter sites (many of which provided by CDXR Editor John C. Johnson), members' shacks (your Editor-in-Chief included) and plenty of information. If you have a Facebook page, enter "International Radio Club of America" into your Facebook search engine, then click the "Like" icon. Many thanks to Mike Sanburn (KG6LJU) and John C. Johnson for setting this page up.

The **IRCA** is a non-profit organization devoted to the hobby of hearing distant stations on the Broadcast Band (510-1720 kHz). **DX Monitor**, the official publication of the IRCA, is published in "soft" form 35 times a year (weekly from November through March, twice monthly from April to November.) **DX Monitor** contains members' loggings, articles on radio stations, receiver reviews, technical articles, DX tips, and other material of interest to Broadcast Band DX hobbyists.
