CHED-630 changes Night Pattern (may be temporary)

CHED-630 Edmonton AB has evidently changed their Night Directional Pattern, with more power to the South, West and East (see pix following the last page). This may be temporary since there has been no mention of it by Industry Canada or the CRTC, and tower work has been observed at the transmitter site. Much stronger signals have been reported at night by DXers in Vancouver, Ontario and the US Southwest. (11/13 via **Jon Pearkins**)

Yucatan Radio Project

I'm on a journey to see how many Yucatan Peninsula (YP) stations have been logged. To say they're rarer than the proverbial hen's teeth, is an understatement.

So far I have found 20 of the 50-odd YP stations logged somewhere from 10 states, Ontario and Finland.

Have you personally heard any? I never did including the 4 years I lived in S FL (1972-1976), though there were far less YP stations on then. My friend Ron Schatz in Miami heard XEZ-600 but I never could (30 miles north of him) even using similar equipment (R388 vs R390A).

Tim Hall has logged 5 on his FL travels early this century but none from his annual treks to the NV/UT border (I met him there 2 years ago: Perseus, multiple beverages).... no YP. Hauser, a prolific Mexican DXer has only 1 that I know of – XEA-1370. Says he DOESN'T keep a log!

When done, I'm planning to write an article with my findings.

I have seen the coverage maps for all of the more recent YP stations: all radiate from NNW to ENE. A couple of the interior stations are omnidirectional, but none seem to throw their signal either due West or due South.

Bottom line, compared to, say Florida stations, most YP stations DON'T "get out well". Despite being on or near WATER!

I'm no engineer but the whole area is bedrocked in Limestone, a lousy conductor. I wonder how much of a factor that is?

ACROSS THE DIAL

- 700 KHSE **TX**, Wylie – 11/8 2230 noted with Adult Contemporary music, repeating this legal ID between songs: "You are listening to KHSE 700 AM Wylie/Dallas/Fort Worth and K281CS 104.1 McKinney/Lucas/Garland/Plano/Frisco/Richardson/Dallas/Fort Worth", followed by information on leasing the station or buying air time on the station and contact information before playing another musical selection. A poor to very poor, but readable, signal was noted under WLW. (PS-ON) (This could be on day power/pattern – eb)

- 850 WYLF **NY**, Penn Yan – 11/5 2052 noted with “This is WYLF” ID into an Adult Standards format. A fair to very poor signal was noted, sometimes over WKNR. (PS-ON)
- 990 WISK **GA**, Lawrenceville – 11/3 2220 on after sunset with a Regional Mexican format, “La Brava” ID in Spanish at 2223 between selections. An occasionally fair to very poor signal with a dominant CBW, along with WDCX and WNTY. (PS-ON)
- 1140 KSOO **SD**, Sioux Falls – 11/17 2304 noted with a Country format, possible ID at 2307, “Real Country Variety, KXRB” ID at 2312, mention of upcoming songs, promo for the Sioux Falls Skyforce NBA Developmental League team. A poor to very poor, but readable signal was noted under WRVA, confirmed via the Web stream at KXRB-dot-com, although the stream was a bit behind. (PS-ON) (There could be three possibilities behind this log: 1. KSOO was simulcasting KXRB, listed on 1000 kHz 10,000 watts day/100 watts night DA-2 with common ownership, 2. KSOO and KXRB traded places on the Sioux Falls AM dial, or 3. KSOO moved its News/Talk format to 99.1 MHz in nearby Lennox SD, and KXRB took over 1140. I’m sure Robert Wien will have more information on this in coming weeks in *Broadcasting Information – eb*)
- 1510 KCKK **CO**, Littleton – 11.9 0140 noted with a Classic Hits format, ad for the sales department at 0141, “You are tuned to The Rock, 93.7 and 1510 AM” ID at 0142 into “In the Summertime” by Mungo Jerry. A poor to very poor signal was noted under WLAC, confirmed by Tune-In Web stream. (PS-ON)

EDITOR’S NOTES

KHSE 700 seems to be getting out all over North America in recent weeks; I’ve also been noting this under WLW. The situation involving KSOO and KXRB is surprising to me; 1140 is a sunset regular at my shack when KMOX 1120 is in analog format. When I lived in the Atlanta area in the late ‘80s and early ‘90s, WISK was in Americus; I did not log them in Woodstock or Marietta. WEIS Centre, AL was the regular on 990 in that time frame. Thanks to Paul for his logs! 73 and good DX from NØUIH (The Florissant Valley Dial Twister)
