MEMBER CONTRIBUTIONS

Mike Sanburn of Bellflower CA sends along the following dated 11/28/19:

KNZR-1560 Bakersfield CA is stunting. They are playing hits from the 1960s.

Mike also sends along the following from **David Hochfelder** via the IRCA IO List dated 12/5/19:

(RE: WNJC-1360 New Jersey-ye ed): the new format is classic/80s rock, if I'm remembering correctly. They ID every couple two three songs. (I can confirm that also, they are my 1360 dominant here in Laurel MD-ye ed).

Mike also sends along the following license cancellations from **Dennis Gibson** of Salinas CA dated 12/13/19:

Subject: [irca] License cancelled, 12-9-19: WSEM-1500 Donalsonville, Georgia

Well, I got myself a new car after my 2011 Ford Fusion was totaled on the DC Beltway on 11/13/19. I had bought a 2020 Ford Fusion at a local dealership in Laurel east of my apartment. However, that car had the battery die FOUR times on me in the span of one weekend, so I took it back. They replaced the battery but the electrical system appeared to still have issues, so I told them they can have it back. They wouldn't do a buyback however. Instead I went to another Ford dealership in west Baltimore near where I-70 ends, and I bought a 2018 gold-colored Ford Focus and that dealership took the 2020 Ford Fusion in as a trade-in. Car runs great, I need a reliable car for when I move to Albuquerque NM in late January 2020 (starting to get things set up for that). Haven't had time to DX to my busy schedule but some good stuff still out there, conditions have been good. Flying to Albuquerque between 12/25/19 and 12/31/19 to look for a new house there, already have a real estate agent and I'm already pre-qualified for a mortgage loan. Have several homes already bookmarked to look it, primarily on NW side of town. Looking forward to going there over the holidays. Hope everyone has a great Christmas and New Years, wow, the end of another decade, starting off fresh in 2020! 73's. **Bob Wien**

Thank you for the WDXR reports. Please note that the deadline for WDXR reports has changed to Thursdays! There have been so many reports being sent too late in the day on Friday that I've had to move the deadline to Thursday. Wayne Heinen sent along a note that the KOBY 940 license was cancelled back in 2012 so Mike Sanburn's tentative 940 logging last week could not have been KOBY. – Nancy 12/13 1200

ACROSS THE DIAL

- 560 WVOC **SC**, Columbia – 12/12 2145 noted with national ads, local ads including one that started: "Hey Columbia..." at 2148 into *The Buck Sexton Show*. Missed legal ID at 2200 into Fox News Radio. An almost fair, degrading to very poor signal, mixing with CFOS and maybe WJLS; confirmed via iHeart Radio Web stream, although it was two minutes behind. (PS-ON)
- 640 WOI **IA**, Ames – 12/11 2210 barely audible; able to match snippets of an interview between a male and female on the Simple Radio Web stream, a few seconds behind the broadcast. A very poor signal was noted under CFMJ and a probable WMFN. (PS-ON)
- 940 WGRP **PA**, Greenville – 12/8 0009 noted with Classic Hits format featuring a tune by Cyndi Lauper, "92.7 FM, AM 940 WGRP" ID at 0012 into another music set. A poor to very poor signal under WCND, XEQ and an unidentified talk station (possibly WMAC); first time heard in London. (PS-ON)
- 1090 WCZZ **SC**, Greenwood – 12/12 0010 on after sunset with a Sports Talk format, Fox Sports Radio promos, PSA, ad cluster including spots for Helzberg Diamonds and Fisher Investments, mention of "Fox Sports Greenwood weather" at 0022. A fair at times to very poor signal was noted, mixing with WBAL; first time heard in London. (PS-ON)
- 1370 WVLY **WV**, Moundsville – 12/13 2250 noted with Sports Talk format, national ads, plenty of SB Nation promos, heard a mention of WKXX 1600 Wheeling, WV at 2300 (part of The Watchdog Network) into *The Gold Standard* sports talk program. An occasionally fair to poor signal was noted, mixing with WSPD and WTAB; confirmed via Tune-In Web stream. First time heard in London. (PS-ON)
- 1440 WGVL **SC**, Greenville – 12/13 2215 noted with a Sports Talk format, Fox Sports Radio promos, national ads, PSA for the National Guard with a clear mention of the South Carolina National Guard. A fair to very poor signal was noted, mixing with WMKM and an unidentified Oldies station. (PS-ON)
- 1470 WNYNY **NY**, Ithaca – 12/7 2334 noted with an Oldies format featuring music by Petula Clark, Freda Payne and The Beach Boys, a few "AM 1470" IDs, finally heard "AM 1470, 94.1" mention at 2358. A fair at times to very poor signal was noted, mixing with WMBD and WVOL; first time heard in London. (PS-ON)
- 1560 WAHT **SC**, Clemson – 12/6 0600 noted with "WCCP FM 105.5 Clemson/Greenville... We Are the Roar" mention by a male announcer. The signal was noted mixing with WFME and unidentified stations with Gospel music and vocal music in Spanish. (KK-VA)

- 1580 WWTF **KY**, Georgetown – 12/6 0701 noted with "...Five, this is WWTF... Rocks WTF" mention by a male announcer. The signal was noted mixing with CKDO, WJFK, WPJK and unidentified stations with a Talk format and Spanish language programming; a new station in the logbook. (KK-VA)
- WJFK **MD**, Morningside – 12/6 (no time noted) no sports or sports talk noted during the entire time I was listening; just a male and female announcer exchanging humorous banter and vocal music in Spanish. The signal was noted mixing with CKDO, WPJK, WWTF and unidentified stations with a Talk format and Spanish language programming. (KK-VA) (ESPN Deportes, the network that WJFK was affiliated with, shut down this past summer. They probably couldn't get the only other Spanish language sports talk network, Tú Deportes, operated by Univision, so they must have changed to music – eb)
- WPJK **SC**, Orangeburg – 12/6 0609 noted with Adult Standards format, featuring "Stranger on the Shore" by Mr. Acker Bilk, "1580 WPJK" ID by a male announcer. It seems like a strange song for an Urban Gospel station to play; no Urban Gospel music or Christian talk was noted during the time I was listening. Has WPJK changed from Urban Gospel to Adult Standards? This isn't CKDO, as the station has an Oldies format. The signal was noted mixing with CKDO, WJFK, WWTF and unidentified stations with a Talk format and Spanish language programming. (KK-VA) (Your Spanish programming may be either WHLY South Bend IN or WTCL Chattahoochee FL; your talker may be WCCF Punta Gorda FL – eb)
- 1590 WGGO **NY**, Salamanca – 12/6 0633 noted with "That's your Accu-Weather forecast from WGGO" mention by a male announcer. The signal was noted mixing with WAKR, WCSL, WHGT and unidentified stations with vocal Christian music and rock and roll music. (KK-VA)

- 531 **ALGERIA** Jil-FM, F'kirina. DEC 10 0332 – Jil-FM quite separable from weak 530 signals, and some talk modulation, presumably "Algerian Arabic" as in WRTH which also shows F'kirina is location, 600 kW, 24 hours, and by-the-way this is in AM, not FM! Could this be the grandest AM station in the world which has lost its identity to FM? 2X the power of WSB. Weaker het though same power on 549 I can't separate so well from 550s; by-the-way, nothing much on 576 which was an Algerian sensation a couple weeks ago; is it off again? [GH-OK]
- 621 **CANARY ISLANDS** Tenerife, RNE1. NOV 20 0601 – Poor with woman speaking, deep in 620 splash, but //855 with a slight offset. [NHP-BC]
- 855 **SPAIN** Murcia, RNE-1. NOV 19 0320 – Poor to fair with man and woman in likely Spanish talk; at 0325 was IDed //1107 which had poor audio at best. Best audio for 855 was at 0337-8 with fair level pop music, but no parallels available then. [NHP-BC]
- 954 **TURKEY** Trabzon-Delikitas, TRT 1 Radyo Bir. NOV 21 0312 – Fair with middle Eastern vocal music followed by man talking, delayed about 40 seconds on webstream <http://radyo.trt.net.tr/AnaSayfa.aspx> (radyo 1). [NHP-BC]
- 1026t **IRAN** Azarshahr, Radio Tabriz. DEC 14 0141 – Poor with Middle Eastern male singing, then stringed music, all under domestic splash. Suspect Radio Tabriz, which has observed offset of 1026.007, and was identified here last season. [NHP-BC]
- 1386 **LITHUANIA** Viesintos, Radio Baltic Waves. 14 DEC 0331 – Quite poor, but with enough of a fade up to hear the NHK World theme and man in apparent Russian, quite poor and gone quickly. At 0427 and 0434 there were also brief moments of man in Russian(?), but always poor and faded fairly soon. [NHP-BC]

*** TRANS-PACIFIC DX ***

- 531 **AUSTRALIA** 4KZ, Innisfail. DEC 11 1527. Poor, with man talking, seemed to match the 4KZ webstream, soon taken over by NHK1 which was at least as poor level. Minimalist DXing at its best... what it would be like with no domestics. [NHP-BC]
- 576 **JAPAN** NHK1 synchros, (likely JOHG). NOV 21 1424. Poor to fair with woman talking, into saxophone jazz ballad //594. [NHP-BC]
- 621 **CHINA** Heilongjiang RGD Xinwen Guangbo synchros. DEC 5 1527 – Fair to good with soft instrumental music //900 which was much poorer but sufficient for a parallel. [NHP-BC]
- 639 **CHINA** CNR1. DEC 6 1500. Good with usual routine across the top of hour, but by 1503 had pretty much wiped out any splatter; very good level. Only at poor level by 1650, but easily //6125 with woman talking. [NHP-BC]
- 756 **JAPAN** JOGK, Kumamoto. DEC 11 1433 – Poor with woman talking //594, maybe some Chinese traces there also; JOGK is rare here. [NHP-BC]
- 819 **DPR KOREA** Pyongyang, KCBS. DEC 7 1520 – Good at //2850 with the usual opera, and by 1525 was giving 820 fits even in AM mode enveloping both 820 and 819. [NHP-BC]
- 855 **DPR KOREA** Sangwon, Pyongyang Bangsong. DEC 6 1524 – Fair at times with female operatic signing //657; 657 was good. 819 was in at same time, with similar, but different programming. [NHP-BC]
- 864 **REP KOREA** HlKR, Gangneung, KBS1. DEC 6 1714 – Poor with woman talking //711 on Korean KiwiSDR; amazing for 90 minutes after local sunrise. [NHP-BC]
- 918 **CHINA** Jinan, Shandong RGD. DEC 5 1526 – Fair strength with female ballad //web <http://v.iqilu.com/radio/main/xinwen>. [NHP-BC]
- 1017 **CHINA** Changchun, CRI. DEC 5 1556 – Fair to good with woman in Korean, oriental flute music, then into the lead-in music for the CRI chimes and fanfare at the top of the hour. However, the music just ended at 1600, no chimes/fanfare, just dead air. [NHP-BC]
- 1035 **CHINA** CNR1 synchros. DEC 12 1538 – Poor with man and woman //945 which was fair to good. It's rare to get audio on this one and rarer yet to hear just one signal; usually it's a jumble of out of sync transmitters. [NHP-BC]
- 1089 **CHINA** Fuzhou, CNR6. DEC 8 1543. Poor to good with lively music, almost central European oom-pah sound, but with oriental singing, //CNR6 web on CNR.CN site. [NHP-BC]
- 1098 **CHINA** CNR1. NOV 19 1511 – Fair with woman talking //1593 somewhat delayed, but that didn't last long. Then a man faded up, peaking 1514, sounding vaguely Korean, but suspect Tibetan?, then some oriental sounding music from another station, neither were //6010 or 7350, but those channels were in worse shape than 1098. [NHP-BC]
- 1098 **CHINA** Golmud, CNR11. DEC 8 1600 – Good with sign off sequence until 1605. This had been dominant for the better part of half an hour, often with very good strength.
 +DEC 11 1554 – Also noted //6010 on the Bengaluru KiwiSDR. Often the strongest overseas signal on the band with man talking Tibetan?, with good readability. This was just before local sunrise. [NHP-BC]
- 1107t **JAPAN** JOCF, Kagoshima. NOV 19 1533. Fair to poor with man talking, then woman, //1287 and 1278. Not sure what network this is, or whether it's really JOCF (more power, better located) or JOMR. [NHP-BC]
- 1116 **CHINA** Harbin, CNR2. DEC 8 1532 – Good with woman talking //7285, but faded down soon afterwards. [NHP-BC]
- 1188 **JAPAN** JOKP, Kitami, NHK1. DEC 6 1645 – Poor with woman //594 but not heard at all earlier this morning. 594 was thunderous and 567 doing reasonably well at this time, 60+ minutes after local sunrise. [NHP-BC]
- 1215 **CHINA** Heihe, CNR1. NOV 25 1503. Poor to fair with man talking //945; a less common CNR1. [NHP-BC]

- TAIWAN** Taizhong/Wanhua, Educational BC System. NOV 19 1531 – Poor to fair with man talking, could have been English, sometimes echoey, particularly a woman talking at 1537, but the channel was generally a mess anyway. But closer listening seemed to get it to line up with the BBC World Service archive program at this time (British time) <https://www.bbc.co.uk/sounds/play/w172wx8zsy9fnc> "Could we all work a four day week" eg woman answering "no" and laughing followed by "some of your employees" "how did you get..." man asking at 1539 etc. Definitely new here. [NHP-BC]
- 1512 **JAPAN** NHK2 synchros. DEC 6 1542 – Fair with sign off music box. [NHP-BC]
- 1521 **JAPAN** NHK2 synchros. DEC 6 1543 – Poor with sign off music box, but creeping through bad 1520 splash. [NHP-BC]
- 1539 **CHINA** Zhejiang/Golmud, CNR1. NOV 19 1530 – Poor with the low and high pips, and what sounded like the Beijing time check, then discovered that this was parallel to 1593, though delayed for the better part of a second. Serious DX given the rated powers and locations. [NHP-BC]
- 1539 **JAPAN** NHK2 synchros. DEC 6 1540 – Fair with sign off anthem and music box. [NHP-BC]
- 1566 **REP KOREA** HLAZ, Jeju, FEBC. NOV 19 1700 – Poor to sometimes quite good with "this is the Voice of America, in Korean" by man. Very unusual to hear this so well, so late (local sunrise 1540). In fact there was still some degree of audio on this one at 1737.
 +DEC 6 1659. Very good level with Radio Teos ID by man in Russian, then faded a bit at 1700 for VoA ID and jingle, and program in Korean, again at very good level. [NHP-BC]

1584 **JAPAN** NHK1 synchros. DEC 6 1545 – Poor with man mumbling but //594; someone else there also? [NHP-BC]
1593 **CHINA** Changzhou, CNR1. DEC 6 1703 – Poor with female ballad //6125, but over an hour after local sunrise for heaven's sakes. [NHP-BC]

The opinions expressed in the following programme are those of the host and their guests, and do not reflect the views and opinions of the management and staff of CHLO AM 530." - KCKK **CO**, Littleton. 10/26 0209 – Huge signal as usual, with classic rock and ad for Town Center Auto (repair) in Littleton. Not quite as much of a pest as they have been in recent years. Noted referring to themselves as "15-10 the rock" instead of "93.7 the rock" this year. Did they lose their translator? 482 miles. Relog.
- KOAZ **NM**, Isleta. 10/26 0358 – Odd light music and ID "KOAZ Isleta 103.7 the Oasis" under KGA and KCKK. Listed 25w nights. 483 miles. Relog.

- KMND **TX**, Midland. 10/26 0059 – "You're listening to Fox Sports 15-10, KMND, Midland-Odessa." **This was 45 minutes after the station's FCC sunset time for October, and they were still on at least a full hour after this. As far as I know, they have no PSSA.** Some IDs also mention FM 99.5. 830 miles. Relog.
- KGA **WA**, Spokane. 10/26 0100 – Faded up under KMND and over presumed KOAZ with ID and slogan "103.5 the game." Half an hour later, they were falling on and off the air randomly, leaving KFNN on top. Noted overnight with bizarre hip-hop format and same slogan. 606 miles. Relog.

- KZMP **TX**, Fort Worth. 10/26 1130 – Appeared suddenly, blasting over KXEL with end of program from Centro Espiritual in Dallas 214-943-5292, followed by jingle "la ranchera me gusta mas." **They definitely switched to day rig one hour too early.** Another station still stuck on pre-2007 daylight saving time schedule? 1039 miles. - KDCC **KS**, Dodge City. 10/26 0058 – On top of channel with PSAs and ad for B&E Waste Systems in Dodge City. **Once again this year they were audible on every wire all night, so it's hard to believe they're running 90w night power.** Station is mostly staffed by college students, and top-of-hour IDs often seem to get missed, or at least mumbled. Station cuts away from Fox Sports feed for a minute or two at the top of each hour to run a minute or two of Fox news. 762 miles. Relog.
- KESJ **MO**, St Joseph. 10/26 1128 – Good signal with classic rock, a slogan I couldn't quite make out, then a nice clear mention of "Joe Town 107.5." The signal was so strong I could easily have assumed it was KKCL (which was much less of a pest this year, since they were presumably still on 200/87.5w STA). 1025 miles. New, MO #20.
- KICS **NE**, Hastings. 10/26 1159 – "There's no crying in baseball!" clip from movie "A League of Their Own," followed by ID "KICS Hastings, KXPN Kearney" into ESPN Sports Center. - UnID **UnID**. 10/26 0133 – Regional Mexican music, slogan "La Mexicana, lo que se siente bien" (or something similar). The only "La Mexicana" listed on 1560 is KIQS, still needed here, which would be on the air a few minutes late at this time.

- UnID **UnID**. 10/28 1230 – Appeared suddenly under XERF on E wire with regional Mexican music. This was almost surely needed KTUZ right as they switched to day rig, but I couldn't get any identifying details, just a bit of random talk from a male announcer after the song ended.

This was followed by SRN Town Hall news. Working with another DXer who had also heard this same malfunction earlier in the week, we determined it was coming from KZLS.

 KFSG **CA**, Roseville. 10/26 0100 – Way under KDMT as usual, with pre-recorded ID spliced into top of hour. It was preceded by some obscure contemporary Christian music and was followed by what sounded like a children's religious program. 400 miles. Relog.
 WPTX **MD**, Lexington Park. 10/26 0211 – ID by male announcer: "Real music and real ____, 16-90 AM, WPTX." Western DXers please note they are usually //KYBC-1600. 2006 miles. Relog.

PAN-AMERICAN DX:

- 530 **CUBA** CMBQ, Villa Maria, Ciudad de la Habana. 10/26 1105 – Radio Enciclopedia, good signals with usual nice music and low-key female announcer. Over Rebelde stations as usual. Relog.
CUBA CM-, (multiple locations). 10/26 0059 – Rebelde interval signal, mixing with Enciclopedia as usual. Relog.
- 540 **MÉXICO** XESURF, Tijuana, BCN. 10/26 0133 – Radio Zión with Spanish sermon under CBK. Relog.
MÉXICO XETX, Nuevo Casas Grandes, CHIH. 10/26 0100 – La Ranchera de Paquimé fading up under KYAH with ranchera music and full FM/AM ID. Relog.

MÉXICO XESRD, Santiago Papasquiaro, DUR. 10/28 1201 – La tremenda, under KBLU and KMON with orchestral version of Mexican anthem (full 4:40). Soon lost to XEYO. Relog.
MÉXICO XEYO, Huatabampo, SON. 10/28 1204 – Appeared suddenly over XESRD, KBLU and KMON with announcement beginning with "Buenos Días!" and including ID/slogan "XEYO, Radio Lobo." Relog.
- 570 **CUBA** CM-, Santa Clara, Villa Clara. 10/26 0206 – Radio Reloj faded up under KVI with usual pips and news. Relog.
UnID 10/28 1157 – Full (4:40) children's choral version of Mexican anthem under KLAC. Announcement was read by a "Sonora-style" (deep growly-voiced) male announcer. Almost certainly unneeded XEJJB, but needed XEOA also uses this version of the anthem.
- 590 **CUBA** CM-, La Julia, Mayabeque. 10/28 0400 – Radio Musical Nacional with Cuban anthem in progress, about 10 seconds ahead of the Rebelde channels. Noted several times throughout the weekend with classical music and female announcer. //1140 not noted this year. Relog.
- 600 **CUBA** CM-, San Germán, Holguín. 10/28 0400 – Cuban anthem //many other Rebelde channels. Relog.
- 610 **MÉXICO** XEGS, Guasave, SON. 10/28 0138 – La G-S slogan, full ID by male announcer. Relog.
- 620 **CUBA** CM-, Colón, Matanzas. 10/28 0400 – Cuban anthem //many other Rebelde channels. Relog.
MÉXICO XENK, México, DF. 10/28 1157 – Radio 620 with children's choral version of Mexican anthem under KTAR and KTNO. Faded out for a few minutes, then barely audible during gaps in the other 2 stations' talk/music with start of "Por El Campo" rural affairs program at the top of the hour. Relog.
- 640 **CUBA** CM-, (multiple locations). 10/28 0358 – Cuban anthem //many other Progreso channels. Relog.
MÉXICO XEJUA, Ciudad Juárez, CHIH. 10/26 0057 – Regional Mexican music, slogan "la caliente 6-40 AM" followed by jingle. Relog.
- 650 **MÉXICO** XETNT, Los Mochis, SIN. 10/28 1200 – Radio 65 appeared suddenly with a huge signal in the middle of an ad for local concert in Los Mochis sponsored by Grupo Chávez Radio, then into usual "Buenos Días Yardero" program. I'm never really sure about the night power of Mexican stations, but I guess it's safe to say that XETNT does power down substantially at night, and returns to day power at 5am local time (Los Mochis was already back on standard time, unlike the US and some border towns). Relog.

- 670 **CUBA** CM--, (multiple locations). 10/28 0400 – Cuban anthem //many other Rebelde channels. Relog.
- 690 **CUBA** CM--, (multiple locations). 10/28 0358 – Cuban anthem //many other Progreso channels. This station has been quite weak in recent years. Relog.
MÉXICO XEWW, Rosarito, BCN. 10/26 0133 – Huge signal on top of channel with Chinese programming, interrupted by Spanish and English IDs, which they run fairly often these days. Mexican government PSAs in Spanish, as well as government-produced programs in Spanish (such as the Suprema Corte program, which was heard later on this Friday night), can be inserted at any time. Relog.
UnID 10/26 0145 – Liga MX fútbol Monarcas Morelia vs Santos Laguna. I thought I had heard W Deportes stations (or at least XEX-730) carrying this game, but there is no W Deportes affiliate on 690. I was hoping this would turn out to be needed XERG, but I heard no ID or local ads, and the broadcast was //720, implying this was unneeded XEN, relayed on unneeded XEJCC-720.
- 700 **MÉXICO** XEGD, Hidalgo del Parral, CHIH. 10/28 1157 – Gruperá/AC music, "la poderosa" slogan and FM 90.3 mentions. Relog.
MÉXICO XEDKR, Guadalajara, JAL. 10/28 1202 – Faded up under KALL and over XEGD with nice slow call-letter ID, studio address, mention of 24h/d schedule, and new "Radio Centro" slogan (since XERED-1110 is currently silent, they now simulcast XERC-FM 97.7 México City). Relog.
- 710 **CUBA** CM--, (multiple locations). 10/26 0208 – Radio Rebelde with long speech about Cuba //530, 1180. At least 3 stations noted echoing. Relog.
+10/28 0400 – Cuban anthem //many other Rebelde channels. Relog.
CUBA CM--, La Palma, Pinar del Río. 10/26 0401 – Radio Guamá with Cuban anthem //990. Relog.
MÉXICO XEDP, Cuauhtémoc, CHIH. 10/25 1302 – La Ranchera de Cuauhtémoc with AM/FM ID and local newscast. Nice to have them back on frequency after many years of being about 150Hz low. Overall audio quality and signal strength seem to have improved quite a bit too. Relog.
UnID 10/27 1214 – On the E (TX/OK/KS) wire, children's choral version of Mexican anthem in progress, followed by a lengthy jingle. Hard to imagine this would be anything other than unneeded XEDP, but I have to wonder why any station would be running the anthem at this odd hour.
- 720 **MÉXICO** XEJCC, Ciudad Juárez, CHIH. 10/26 0158 – ID and "Fonógrafo" slogans, followed by Chihuahua state anthem and fast adult choral version of Mexican national anthem, as if they were signing off... but instead, they segued into "Radio Centro Deportes" Spanish coverage of baseball world series. In the past they have always signed off by 8pm local time. Special schedule for World Series broadcasts, or is this permanent?
+10/27 1143 – Older Mexican music and "Fonógrafo 6-90" slogans. Either they are also signing on earlier now (having signed on at 6 am MDT in the past) or they just stayed on all night after last night's baseball coverage. This is not helping me log XEJAGC!
+10/28 1206 – Appeared suddenly with "Fonógrafo" jingle and directly into the anthem (which went beyond the end of my recording). Prior to this, there was a very weak station playing older Mexican music which may have been needed XEJAGC. Relog.
UnID 10/28 1201 – Adult choral version of Mexican anthem, very weak under KDWN. This could be needed XEJAGC or unneeded XEDE. So far I can't hear any of the musical tones which accompany XEJAGC's time checks, so perhaps it was XEDE.
- 730 **MÉXICO** XEX, México, DF. 10/28 1159 – Adult choral version of Mexican anthem. Signal faded for a few minutes under KDAV, XEHB, etc., then faded up strongly with Chicago's "25 or 6 to 4" and "W Deportes" slogan. Relog.
MÉXICO XEHB, Hidalgo del Parral, CHIH. 10/28 1157 – Regional Mexican music and "La Mexicana" slogan under XEX, KDAV. Relog.
- 740 **MÉXICO** XEQN, Torreón, COAH. 10/26 0159 – Radio Fórmula programming way under CBX and KIDR. Relog.
UnID 10/26 0402 – Unidentified chimes way under KCBS on ESE (Cuba) wire. Same instrument as used by Radio Angulo, but not the same musical notes.
- 760 **MÉXICO** XENY, Nogales, SON. 10/28 1203 – Radio Gény with children's choral version of Mexican anthem (one verse). ID trampled by KFMB but could easily make out "desde la ciudad de Nogales, Sonora, México." Relog.
UnID 10/28 1157 – Adult choral version of Mexican anthem way under KFMB and presumed XENY. Soon faded. Most likely unneeded XEABC, but could be needed XEZZ.
- 770 **CUBA** CM--, Las Tunas, Las Tunas. 10/26 1130 – Radio Rebelde outlet with Reloj pips and ticks under KKOB and CHQR. I was initially unsure if this was a new station, or one of the two known transmitters (normally used for Rebelde and Artemisa) that I've already logged on this frequency. Per Steven Wiseblood in South Texas, the Rebelde transmitter often runs Reloj programming overnight, putting a good signal into his area. Relog.
UnID 10/26 0358 – Cuban anthem, very weak under KKOB. This was about 4 seconds ahead of the Rebelde stations, and 12 seconds ahead of Artemisa on 1020 kHz.
UnID 10/28 1202 – Very weak signal way under KKOB and CHQR with children's choral version of Mexican anthem in progress, followed by what sounded like a man praying and preaching in a loud voice in Spanish.
- 780 **UnID** 10/28 1200 – Children's choral version of Mexican anthem (one verse, starting exactly at top-of-hour) way under KAZM. Announcement after the anthem finished was rather subdued (not the boisterous ID I hear on XELD's web stream). It was followed a short orchestral piece with a somewhat indigenous influence (similar to, but not identical to, what I heard on XEGLO's web stream when I got home), then some instrumental music resembling older romantic ballads. Both XEGLO and XELD run this version of the anthem. XEGLO seems to run it very close to the top of the hour, and XELD a few minutes after. I'm strongly inclined to think this was XEGLO, but XEXY's web stream has been down, so I can't rule them out. A listener in Tampico has confirmed that the new station there is not on the air yet.
- 790 **CUBA** CM--, (multiple locations). 10/26 0148 – Radio Reloj with usual pips. Relog.
MÉXICO XENT, La Paz, BCS. 10/28 1158 – Under KABC and KBET with Radio Fórmula sounder and children's choral version of Mexican anthem (from Fórmula feed). Relog.

- 800 **MÉXICO** XESPN, Tijuana, BCN 10/28 1158 – Extremely faint signal under XEROK and KDDD with Mexican anthem from Radio Fórmula feed. Only audible when the Laboratorios Camacho announcer was talking on XEROK, never when any music was playing on XEROK. Eventually heard slogan "ESPN Radio Fórmula." Relog.
MÉXICO XEROK, Cuidad Juárez, CHIH. 10/26 0057 – Radio Cañon with Spanish religious programming and ID. Relog.
NETHERLANDS ANTILLES PJB, Bonaire. 10/26 0057 – Radio Transmundial under XEROK with Spanish Christian programming, into "Cruzada con Luis Palau" as listed in the broadcast schedule on TWR web site. Tuned in again about 45 minutes later and heard telltale Spanish religious programming read by people who were clearly not fluent Spanish speakers (this is true of many of TWR's programs). Relog.

MÉXICO XEMIA, Guadalajara, JAL. 10/28 1158 – Pop music, children's choral version of Mexican anthem, and back to pop music (//XEOK-900 with Mexican Radio Disney feed; checked 710 for the Acapulco Radio Disney outlet, but no such luck). XEZP and XEMIA are the last 2 Mexican stations left on 850. Relog.

- 930 **UnID** 10/26 0359 – Doorbell chimes (3 descending, followed by 2 descending) on ESE/WNW (Cuba) wire.
UnID 10/28 1200 – Children's choral version of Mexican anthem way under KSEI and KCCC, then clobbered by KAFF before it ended. For the last few years, the only station on 930 has been XETLA, but this anthem does not seem to match the version I recorded from their web stream. Either XETLA has a new anthem, or the CP for XESAME must be on.

- 940 **MÉXICO** XEMMM, Mexicali, BCN. 10/28 1157 – On top of the channel over KGMS and KIXZ with US oldies and disco hits, and new jingle "9-40 AM" (sounded like "9-40 la M" at first). Slogan in "Spanglish:" "9-40 oldies, donde tocamos tus *requests*." Relog.

MÉXICO XEJ, Ciudad Juárez, CHIH. 10/26 0059 – Mexican AC music, and back to old slogan "la jota Mexicana" as recently reported by other DXers, but still uses "Radio México" at times. Relog.
- 980 **CUBA** CMCK, El Sapo, Ciudad de la Habana. 10/26 0400 – Presumed (certainly not the other station on this channel, Radio Reloj) with Cuban national anthem. Suddenly appeared over KWSW and an unidentified station that was running the US national anthem. Relog.
- 990 **CUBA** CM--, Pinar del Río, Pinar del Río. 10/26 0400 – Male announcer "Radio Guamá..." followed by 3-note ascending attention signal, then continuing with time check "12 de la noche" and into Cuban anthem, followed by some more doorbell tones. Noted on other nights //other Guamá channels. Relog.
MÉXICO XECL, Mexicali, BCN. 10/28 1157 – On top of the channel with older Mexican hits, full ID, "rocola 9-90" jingle and "Radorama Mexicali" jingle. Relog.

- 1040 **CUBA** CM--, Güines, Mayabeque. 10/26 0359 – Radio Mayabeque mixing with WHO. Choral version of Cuban anthem (quite different from the version used by Progreso and Rebelde) and ID "Esta es Radio Mayabeque, transmitiendo las 24 horas del día, por las 1040 y 1140 de la onda media, y la 104.7 de la frecuencia modulada, desde la ciudad de Güines..." Relog.
MÉXICO XESAG, Salamanca, GJTO. 10/28 1200 – Radio Lobo Bajo with children's choral version of Mexican anthem, into morning newscast from Grupo Informativo Así Sucede Guanajuato. Relog.
MÉXICO XEBBB, Zapopan, JAL. 10/28 1159 – Esne Radio with children's choral version of Mexican anthem, then back to Esne Radio music program //KHPY-1670. Note that this station is //KHPY and other US Esne Radio affiliates (including KURS-1040!), except when running the Mexican national anthem, and for a few hours on Sunday nights when the US affiliates run some bilingual and English programming while XEBBB runs the Mexican national hour and other related programs. Relog.
- 1050 **MÉXICO** XED, Mexicali, BCN. 10/28 1207 – Faded up above XEG with slogan "96.9 FM la poderosa." //XHMUG-96.9. Relog.

- 1080 **UnID** 10/26 0359 – Cuban anthem under KRLD and KSCO. Probably unneeded Radio Cadena Habana. No //noted on 1140.
- 1090 **MÉXICO** XEPRS, Rosarito, BCN. 10/28 1157 – Ultra 104.9 still running an odd but interesting collection of American and Mexican rock music, usual pre-recorded IDs and liners, bilingual announcers, and promo telling listeners to dial the Ultra hotline. Still relaying KJAV-104.9 Alamo TX. Relog.
MÉXICO XEAU, Monterrey, NL. 10/26 0058 – Milenio Radio with ID by female announcer: "Escuchas XEAU... desde Monterrey, Nuevo León, México." +10/28 1200 – Mixing with XEPRS and KMXA with second hour of Milenio Noticias morning news block. New, NL #14, México #198.
- 1100 **UnID** 10/28 1200 – Mexican anthem (probably the children's choral version, but too weak to be sure) way under KFNX, KWVN, et al. Most likely unneeded XETGO.
- 1110 **MÉXICO** XEWR, Ciudad Juárez, CHIH. 10/28 1157 – Loud signal, relaying WACA-1540 "Radio vida en abundancia," a commercial Spanish Catholic station in Maryland, complete with local Maryland ads! Then they broke away for local programming, gave their usual Cristo Rey Radio slogan and segued into a traffic report for El Paso. Relog.
- 1120 **MÉXICO** XEMX, Mexicali, BCN. 10/28 1202 – Faded up under KANN and KPNW with MVS Noticias slogan/format. Relog.
- 1130 **MÉXICO** XEHN, Nogales, SON. 10/28 1203 – Faded up under CKWX and KSDO with "Los 40" top 40 format and ID which only mentioned 89.9 FM. Relog.
- 1150 **MÉXICO** XEAD, Guadalupe, JAL. 10/28 1159 – Metrópoli under/over KEIB with uptempo adult choral version of Mexican anthem, followed by 3 slow pips (long tone every 2 seconds) and into Notisistema news. Full ID almost 4 minutes after top of hour, followed by "Buenos Días Metrópoli" program. Relog.
UnID 10/28 1157 – Once again I had bits of classical music overnight, but by the time I could restore my Wifi hot spot and check XEUAS' web stream, the signal was gone.
UnID 10/28 1200 – Children's choral version of Mexican anthem on SSE (Central México) wire. Could either be needed XEBF or just KNRV picking up the anthem from the Radio Fórmula feed (although it was about a minute late for the Fórmula feed).
UnID 10/28 1205 – Yet another children's choral version of Mexican anthem on SSE (Central México) wire. When the anthem ended, all I heard was KCKY's "Radio Casa" slogan and multi-station ID (but I checked //KSZ-580, and there was no Mexican anthem). Needed XEBF seems likely.
- 1160 **MÉXICO** XEQIN, San Quintín, BCN. 10/27 0131 – La Voz del Valle with good signal under KSL //web stream. Relog.
- 1170 **COLOMBIA** HJNW, Cartagena. 10/27 0504 – Solid signal on top of channel with "Caracol Radio" slogans. Relog.
MÉXICO XECD, Puebla, PUEB. 10/28 1207 – Appeared suddenly over KFAQ and KYET with animated female announcer "Amigos de la Romántica 92.9, muy buenos días!" Relog.
UnID 10/27 0504 – Mexican anthem very weak under HJNW and KFAQ. Seemed to be the children's choral version, which would seemingly not be XECD (they use an adult choral version). The other station remaining on 1170 is XERT, still needed here.
- 1180 **CUBA** CM--, (multiple locations). 10/28 0400 – Radio Rebelde with Cuban anthem //many other Rebelde channels. Noted often, on almost every wire, with varying numbers of echoes. Relog.
MÉXICO XEUBS, La Paz, BCS. 10/25 2357 – Radio Uaas way under KLPF with BC Sur PSAs. Relog.
MÉXICO XEFR, México, DF. 10/28 1157 – Radio Felicidad under KLPF and KOFI with Mexican recuerdos (oldies) music, children's choral version of anthem (starting abruptly, as heard on web stream). New, DF #23, México #200!
- 1190 **MÉXICO** XEWK, Guadalajara, JAL. 10/28 1158 – Faded up over KNUV with adult choral version of Mexican anthem (one verse) and slogan "W radio." Clobbered by KXKS which appeared in mid-sentence (KXKS seems to be switching to full day power at 6am instead of 30.3w PSRA). Relog.
MÉXICO XECT, Monterrey, NL. 10/28 1201 – Contacto 11-90 with adult choral version of Mexican anthem (multiple verses, slightly fast) and seemingly directly into a newscast. Third Mexican anthem heard on this channel in 2 minutes, the others being XEWK and a partial anthem from KNUV. Relog.
- 1200 **MÉXICO** XECPAC, Jalpan, QRO. 10/28 1200 – RTV Querétaro appeared suddenly, mixing with WOAI and KPSF. Fast adult choral version of Mexican anthem. Faded out for a few minutes, then returned with morning program of Huapango music, "Que Suene el Huapango." Ex-XEQJAL. I did not hear a call-letter ID this time, but the call change was apparently mandated due to a lapse in their license. Relog.
- 1220 **MÉXICO** XEB, México, DF. 10/26 0159 – Faded up over KSLM with long AM/FM ID and slogan "la B grande, con la música de México, una emisora del Instituto Mexicano de la Radio." Relog.
- 1240 **MÉXICO** XEWG, Ciudad Juárez, CHIH. 10/28 0045 – Promo for La Hora Nacional, jingle "la mas prendida," which is a secondary slogan after "Bengala 12-40." Relog.
- 1260 **MÉXICO** XEMW, San Luis Río Colorado. 10/28 1158 – Old/romantic Mexican music, full FM/AM ID now giving the FM as 91.1 (meaning XHMMW and XHLBL have swapped frequencies yet again!). "Río Digital" slogan used often. Relog.
- 1300 **MÉXICO** XEP, Ciudad Juárez, CHIH. 10/28 1157 – Older Mexican music than I'm used to hearing on this station, and back to old "Radio Mexicana" slogan. Also heard a new slogan, "información contundente" ("blunt information"), seemingly in reference to the news programs they have added during the day. Also noted Morse Code "S" (three quick "dots") during news promos. National anthem ran at this hour, because Ciudad Juárez was still on daylight saving time with the US. Relog.
MÉXICO XEXW, Nogales, SON. 10/28 1201 – Garbled ID under XEP, mentioned FM 90.3. Format has changed twice this year. Relog.

- 1310 **UnID** 10/26 0204 – Tropical music on SE wire. Sounded South American. Maybe needed XEVB with vallenata format? A few Colombians were actually coming in at this time.
- UnID** 10/28 1200 – Appeared suddenly with banda/grupera music. Soon faded under KIHP. Possibly a domestic station, as this format doesn't seem to fit the surviving Mexican stations on 1310.
- UnID** 10/28 1201 – Appeared suddenly with children's choral version of Mexican anthem, mixing with the banda/grupera station. This is almost certainly unneeded XEHIT.
- 1350 **MÉXICO** XEQK, México, DF. 10/28 1200 – Tropicalísima with full (4:40) children's choral version of Mexican anthem, ID including studio address as found on station web site, into tropical music. Relog.
- MÉXICO** XELBL, San Luis Rio Colorado, SON. 10/27 1330 – Radio Centro sign-on with full ID. Relog.
- 1370 **MÉXICO** XEHG, Mexicali, BCN. 10/28 1157 – On top of channel with light Mexican music, "vida 13-70 AM" slogans. I was expecting a slogan change to "Ecos del Valle" based on some new web pages they posted this summer, but they were still using the old slogan. Relog.
- 1380 **MÉXICO** XECO, México, DF. 10/28 1157 – Romántica 13-80 under KLPZ and KHEY with children's choral version of Mexican anthem already in progress, ID by female announcer. Relog.
- 1410 **MÉXICO** XEBS, México, DF. 10/28 1157 – On top of channel with brisk adult choral version of Mexican anthem (very similar to the one used by XEKB) already in progress, followed by the Núcleo Radio Mil group's theme song, "Somos NRM." Still using "bandolera 14-10" slogan. Relog.
- MÉXICO** XEKB, Guadalajara, JAL. 10/28 1202 – Alfa 99.9 FM (new slogan) faded up under XEBS with brisk adult choral version of Mexican anthem. Relog.
- 1420 **MÉXICO** XEXX, Tijuana, BCN. 10/26 0000 – Fading up over KTOE with Tu DN sports programming. Relog.
- MÉXICO** XEF, Ciudad Juárez, CHIH. 10/28 1157 – Activa 14-20 with fast adult choral version of Mexican anthem already in progress (Ciudad Juárez was still on daylight saving time with the US), followed by full ID. They seemed to run the same anthem again at 1204 (which is when I usually hear it), preceded by an ID and followed by time check (6:06). At first I thought one of these anthems might be coming from the other remaining station on 1420 (XEEW, still needed here), but I know from web stream monitoring that XEEW's adult choral anthem is at regular tempo or maybe even a little bit slow. Relog.
- MÉXICO** XEH, Monterrey, NL. 10/28 1159 – Antología Vallenata appeared suddenly under XEF on SSE (Central México) wire with instrumental version of Mexican anthem, matching web stream. New, NL #15, México #201.
- 1440 **MÉXICO** XEABCJ, Tonalá, JAL. 10/28 1202 – Rock 101 GDL (new slogan) with children's choral version of Mexican anthem faded up way under KAZG. XEEST was still silent until December 2nd, so this would have to be XEABCJ. Both have already been logged here.
- 1460 **MÉXICO** XEYC, Ciudad Juárez, CHIH. 10/26 0057 – Radio Fórmula sounder, Mexican government PSAs, and full ID, then into Fórmula Financiera program. Relog.
- MÉXICO** XECB, San Luis Rio Colorado, SON. 10/28 1202 – Faded up under XEYC and KENO with local announcements, "Radio Ranchito" slogans, and older ranchera music. Relog.
- 1470 **MÉXICO** XERCN, Tijuana, BCN. 10/26 0259 – "RCN 14-70" slogan and ID, followed by promo for La Hora Nacional. Relog.
- MÉXICO** XEAI, México, DF. 10/26 0058 – Radio Fórmula sounder way under KYW and KSMM. Relog.
- 1480 **MÉXICO** XEZJ, Tonalá, JAL. 10/26 0205 – Suplemente Superéte rose above KBMS with Spanish motivational talk format. Announcer referred to the 8 pm program which had just ended, "Zona de Retos" with Javier Rosario Figueroa. A check of Figueroa's Facebook page indicates his show airs on XEZJ (Mon-Fri 8 pm Central Time) and occasionally on XEP-1300. Listed 20kW days, 1kW nights. Antenna was aimed SE, not SSE, so I have to wonder if they left the day rig on late tonight. New, JAL #17, México, #199.
- UnID** 10/28 1201 – Children's choral version of Mexican anthem faded up way under KHQN and assorted mush. This is almost certainly unneeded XETKR.
- 1490 **MÉXICO** XECJC, Ciudad Juárez, CHIH. 10/28 1201 – Radio Net 14-90 very weak with adult choral version of Mexican anthem. Relog.
- 1500 **MÉXICO** XEDF, México, DF. 10/26 0059 – Radio Fórmula sounder way under KYW and KSMM. Relog.
- UnID** 10/26 0358 – Way under KSTP and another station on ESE (Cuban) wire with classical music. At the top of the hour, the announcer made a brief announcement (he may have mentioned the name Junípero, then he referred to "amigos que nos visitan en 1500 AM.") After a few more seconds he said what sounded like "Primera del Sur" (as if it were the name of the next hour's program) and the classical music resumed. Definitely not XEDF (no Radio Fórmula sounder or canned top-of-hour ID), and it sure doesn't sound like anything I've heard on YVRZ.
- 1510 **ECUADOR**, HCIO2, Guayaquil. 10/26 0205 – Radio Naval time station noted under KGA with solid time pips, with a ten-second gap at the end of each minute where the time is read by the announcer (not clearly audible) then a slightly longer pip at the beginning of the minute. Exactly matches Mark Connelly's recording at <https://app.box.com/s/3d09mnqzir1d31cktx97fsrjj0w6qc28>. Listed at only 500w, but I can't imagine that's still true. New, Ecuador #1, Country #16!
- MÉXICO** XEQI, Escobedo, NL. 10/28 1205 – Opus 15-10 AM faded up under KGA with slightly uptempo instrumental version of Mexican anthem, into weekend music program. Relog.
- 1530 **MÉXICO** XEQR, México, DF. 10/26 0145 – Classic rock, "Éxtasis Digital" slogan and Mexican government PSAs. Good signal tonight. Relog.
- 1550 **CUBA** CM--, (multiple locations). 10/26 0100 – Rebelde interval signal with very obvious delay between at least 3 transmitters. The third one is new, Cuba #77.
- 1560 **MÉXICO** XEJPV, Ciudad Juárez, CHIH. 10/26 0204 – W Deportes coverage of World Series baseball in Spanish.
- +10/28 1201 – Appeared suddenly with children's choral version of Mexican anthem (one verse), followed by several minutes of truly bizarre "music..." – it basically sounded like a drunk trying to improvise a rap. Not sure how this fits their regular sports format, or the romantic AC format they have been relaying overnight. Strong signal over KNZR was more than enough to block the more interesting stations that sometimes come in on 1560. Relog.
- 1570 **MÉXICO** XERF, Ciudad Acuña, COAH. 10/26 0204 – On top of channel with lots of IDs. I can still hear smaller stations through XERF on some wires. Relog.
- 1580 **COLOMBIA** HJQT, Bogotá. 10/26 0207 – Faded up over KQFN and KGAL for nice clear slogan "Candela 8-50 AM." HJQT is a relay of HJKC-850, which has been logged here before. Listed 5kW. New, Colombia #13.
- 1620 **CUBA** CM--, (multiple locations). 10/28 0400 – Radio Rebelde with Cuban anthem //many other Rebelde channels. Relog.
- UnID** 10/26 0400 – Barely audible with opening fanfare of Cuban anthem. Must be unneeded Radio Bayamo, since the Rebelde stations (which were still audible on top of this signal) had aired their anthem two minutes earlier tonight. Checked 1150 and 1160 (where I still need the Bayamo stations) for //, but found only a possible trace of Cuban anthem two minutes after this one.
- 1630 **MÉXICO** XEUT, Tijuana, BCN. 10/26 0135 – Over KRND with "UABC Radio" slogan and multi-station IDs.
- 1640 **UnID** 10/26 0401 – Noted some simple 2-note descending doorbell tones on the ESE/WNW (Cuban) wire.
- 1660 **PUERTO RICO** WGIT, Canóvanas. 10/26 0358 – Faro de Santidad with Spanish ID including a nice clear mention of "Canóvanas, Puerto Rico" followed by call letters in accented English. This was followed by a program of fairly boisterous worship music in Spanish. 3197 miles. New, PR #1, "Country" #17!
- 1700 **MÉXICO** XEPE, Puerto Nuevo, BCN. 10/26 0159 – Mixing with KKLK. Still relaying XESDD-1030, using "la tremenda" slogan and promoting XESDD's web page. The Tijuana politician who operates both stations (and a few others) was recently elected governor of Baja California. Relog.

TRANS-PACIFIC DX:

- 567 **JAPAN** JOIK, Sapporo. 10/26 1328 – NHK1 very weak with Japanese music //594. Relog.
- 594 **JAPAN** JOAK, Tokyo. 10/26 1359 – NHK1 very weak with time pips. Relog.
- 693 **JAPAN** JOAB, Tokyo. 10/26 1359 – NHK2 poor-fair with time pips. Relog.
- 738 **UnID** 10/26 1359 – Solid carrier with 3+1 (maybe 4+1 or 5+1) time pips about 2 seconds early, about the same as last year. I don't think it was the KBS station, because KBS on 972 kHz (which was not audible at this hour) usually runs its time pips at the same time as NHK. The big 150kW station in Changchun, Jilin, China would be right on the main beam of this antenna, but I don't know if they use this type of time pip, and could not find a //.
- 747 **JAPAN** JOIB, Sapporo. 10/26 1359 – NHK2 poor-fair signal with time pips. Relog.
- 774 **JAPAN** JOUB, Akita. 10/26 1359 – NHK2 fair signal with time pips. Some audio noted later, sounded like usual language lessons, but TPs in general were much weaker than last year. Relog.
- 828 **JAPAN** JOBB, Osaka. 10/26 1259 – NHK2 poor signal with time pips. Relog.
- 873 **JAPAN** JOGB, Kumamoto. 10/26 1359 – NHK2 very weak signal with time pips. Relog.

Receiver: Perseus SDR-IQ v4.1/Lenovo W540 laptop with eSSD drive (a very small drive, but also very fast and quiet).

Antennas: Beverages on ground, as follows:

1. **NNW/SSE** (~333°/153°) 715 foot unterminated (first 3 nights only).
2. **N** (~355°) 950 foot terminated (2nd and 3rd nights only).
3. **ENNE** (~30°) 910 foot terminated (2nd and 3rd nights only). Moved it to become antenna #10.
4. **NE** (~50°) 1260 foot terminated (first 3 nights only). Broke at 150 feet the 1st night (seemingly between evening and morning loggings) and at 575 feet the 3rd night.

This was my 9th visit to this location. I have DXed here a total of 27 nights over the last 17 years (2002-2003 and 2013-2019). So far this year I've added 55 new catches, raising my totals from 1576 stations heard to 1631. I haven't added any new US or Mexican states or Canadian provinces, but I did add Ecuador for country #16, as well as Puerto Rico for "country" #17. This preliminary report was based on a full review of just over 10% of the recordings, plus a quick review of top-of-hour ID windows (:59:50 to :00:00) from some of the remaining recordings.

This year I was able to schedule my visit to combine the end-of-October sunset/sunrise conditions with the tail end of the high school football season. I made more recordings this year than in any of my previous sessions. It will definitely take me all year to review the remaining recordings.

Conditions seemed very poor during my live listening. The space weather reports looked pretty awful (SF 65-69, A index 15-34, K index 1-6). But as I reviewed my recordings, I found there were some very good openings, especially at the high end of the band. Sadly, there was no repeat of last year's really nice TP opening, but conditions to Cuba and Colombia were occasionally pretty good. Conditions to Mexico were fair. High school football night was good. No wires broke that night, and although the regular season was already over in MN, ND and UT, and many games had been moved to other days of the week and/or earlier start times, I've already identified 115 stations running high school sports this year (113 football, and 2 other sports) with many more recordings left to review. On the third night, we had wind gusts up to 40 MPH, resulting in breakage of 3 wires as noted above.

As in previous years, antenna bearings are approximate. Once again I tried to use my dad's navigational protractor to achieve more precise antenna angles by plotting them against the known angle of the highway (95°), but found this only slightly helped my accuracy.

Sandy Neck Beach DX 12/7-8/19 (Roy Barstow via IRCA eGroup)

12/8. Last night was a cold night to DX at a beach and it was suppose to be with light winds.

But at any beach the winds can be stronger. They said up to 10 MPH but when the truck is going up and down it was more like 20 MPH. But what the hell I will persist.

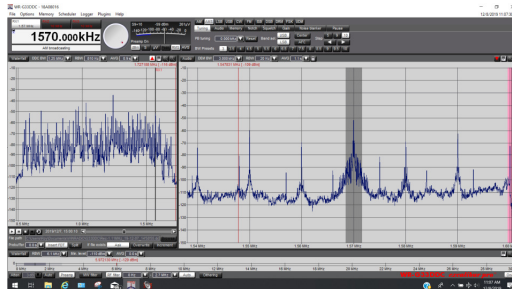

With an abundance of stations coming in I have to do this in parts.

Top Ten Asian Blasters in Hawaii (Gary DeBock via IRCA eGroup)

Asian propagation is obviously enhanced in Hawaii – not to mention DU propagation, South American propagation and that from many other areas. The "big gun" blasters are different from the Japanese and Korean regulars in the Pacific Northwest, however. The Taiwan-directed Chinese propaganda stations on 549, 783 and 909 test out your radio's crunch resistance every sunrise, along with a completely different set of big guns like 558-JOCR and 918-RNK in Cambodia. For those who would like to experience these Hawaiian beach blasters, recordings from the top ten Asians at Poipu, Kauai last month are posted below.

- 549 **CHINA** CNR5 (Zhonghua zhi Sheng), Fujian, 1200 kW. This propaganda mega-station is only 1 kHz away from 550-Maui, but the Hawaiian pest is little more than cannon fodder for the Taiwan-directed female speech at 1520 UTC on 11/5 <https://dreamcrafts.box.com/s/gfzalx9gc3z3isdjlkfinit3oprjhiy0>
- 558 **JAPAN** JOCR, Kobe, 20 kW. Overwhelming S9 strength is typical from this Japanese commercial blaster, such as at 1523 on 11/5 <https://dreamcrafts.box.com/s/6mki3j53ywj8z8ye2kuuk1n6xnfwymy7>
- 603 **CHINA** CRI, Dongfang, 300 kW. The Vietnamese program's Chinese lessons are presumably beamed south, but a listener in Hawaii could have armchair reception on most mornings, such as at 1603 on 11/3 <https://dreamcrafts.box.com/s/msey1vpfj7ns1o4rkw78139u5zktxhv>
- 630 **PHILIPPINES** DZMM, Quezon City, 50 kW. Depending on propagation, this Tagalog blaster on our domestic frequency could make you wonder if Hawaii has a new local pest, as at 1623 on 11/2 <https://dreamcrafts.box.com/s/jwcaltkpa4pipy27z5rkvnotqek9iooq>
- 666 **JAPAN** JOBK, Osaka, 100 kW. Southern Japanese stations like this one and 558-JOCR got a major boost from Hawaiian propagation while the others seemed to take a hit. This NHK1 outlet made up for 594 (typically plastered by Honolulu) at 1631 on 11/4 <https://dreamcrafts.box.com/s/22gs75g6tbb75u8x4p9ayb0h0r99mpyu>
- 738 **TAIWAN** BEL2, Penghu, 100 kW. Hawaiian local pest on 740 doesn't slow down this super station at all with its Indonesian program at 1545 on 11/3 <https://dreamcrafts.box.com/s/uua43tjehvixla46x6idudjepy00ngo0>
- 783 **CHINA** Voice of the Strait (Haixia zhi Sheng), Fujian, 600 kW. Another Taiwan-directed propaganda blaster with S9+ strength every sunrise session, such as with Chinese pop music, 5 + 1 pips and the sign off message at 1556 on 11/6 <https://dreamcrafts.box.com/s/1dvk49ftqey4cng7385qhafz3k915nft>
- 909 **CHINA** CNR6 (Shenzhou zhi Sheng), Fujian, 100 kW. One more Taiwan-directed mega-station with various Chinese ID's prior to sign off at 1603 on 11/3 (with sign off at 1605). This station, 783 and 549 typically wipe out their frequencies in Hawaii until they sign off <https://dreamcrafts.box.com/s/61tny0opnqasy5x1zqwec9kwxc3pn2ans>
- 918 **CAMBODIA** RNK, Phnom Penh, 600 kW. Elusive catch on the west coast is a powerful big gun in Hawaii, blasting in every morning with distinctive Cambodian music prior to its 1702 UTC sign off. This S9+ signal at 1652 on 11/3 is apparently a news wrap up before the sign off routine starts (heard on other days as well) <https://dreamcrafts.box.com/s/ljvxv1bha2307wvj244ol82t140hvg0>
- 1575 **THAILAND** VoA, Ban Phachi, 1000 kW. The VoA's Bengali program sounds a lot better without the Iranian Jammer plastering it (like it did last year, at the same beach). This overwhelming signal was at 1605 on 11/2 <https://dreamcrafts.box.com/s/dupsdnoee00zbw7fnd9yvqaqkkghevv>

Going on a DXpedition was something I wanted to try after hearing lectures on this subject at the 2018 St Charles Convention. It is now fifteen months later as I write this, and I've been on ten same-day DXpeditions to seven different sites. One of the determining factors I had in selecting DXpedition sites is distance from high-powered St Louis stations like KMOX-1120. Babler State Park in Wildwood MO (off Missouri 109) was selected due to the distance from downtown St Louis (about 25 miles) and not having transmitters within a few miles of the park. It is far enough away so that I could reduce the sidebands on the last remaining digital AM in St Louis KFUE 850. Marais Temps Clair State Conservation Area (off Missouri 94) in the agricultural community of Black Walnut MO (20 miles from St Louis) has a 12 Kw AM (KHOJ 1460) transmitter site five miles southwest, but only gave 1450 and 1470 fits before sunset. After the power was cut to 210 watts after set, I could put a tight null on the signal to pull in DX. KFNS 590 and WBGZ 1570 are heard at local strength day and night. A similar situation exists at Sioux Passage County Park located north of Florissant (about 15 miles from St Louis) and across the Missouri River from Marais Temps Clair KHOJ 1460 also gives 1450 and 1470 fits on 12 Kw day power but I can hear DX when they cut to 210 watts at sunset. Babler (11/24/18 and 11/25/19), Marais Temps Clair (12/29/18 and 9/6/19) and Sioux Passage (5/17/19 and 9/14/19) are the ones I did two DXpeditions from. On each of the first two DXpeditions, AM reception conditions favored the Midwest and Great Lakes in late afternoon while on the first Marais Temps Clair, I also heard stations in the Northeast at sunset. On the first Sioux Passage DXpedition, AM reception conditions favored the Midwest at sunset. In October, 2019, I checked out three different locations: Lincoln Shields Recreation Area along US 67 at the southern foot of the Clark Bridge in West Alton MO, where I took the radios on October 4, is very close to KFNS and WBGZ. It turns out to be an excellent area for AM DX despite this fact: being at river level helps with signal propagation. Late afternoon conditions favored the Midwest, noting three Midwest X-banders (KWOD 1660, WVON 1690 and KBGG 1700) in WSDZ's null. The digital sidebands from KFUE 860 were not as strong as at my home QTH. On October 19, I took the radios to James S McDonnell County Park near St Ann MO. The park was about six miles from KFUE's transmitter; the digital sidebands covered 820 to ?? kHz. McDonnell Park was chosen because it was where the St Louis and Suburban Radio Club (of which I am a member) has set their Field Day site the past two years. Late afternoon/early evening AN reception conditions favored the Midwest, the Carolinas and the Mid-South that day. The biggest surprise of his DXpedition was hearing WSCO 940 over other stations, along with KFTI and WSCZ mixing on 1070. On October 25, I took the radios to Creve Coeur County Park (northeast to Missouri 364 and Missouri 141), setting up near Creve Coeur Lake. Late afternoon and sunset AM reception conditions favored the Midwest on this DXpedition. A bluff behind the parking lot attenuated several lower-powered St Louis AM stations, allowing me to pull in WBEL on 1380 nulling out KXFN, KGYM on 1600 nulling out KATZ, and hearing KTTR 1490 taking out KFTK, KVGB 1590 was noted before 1700 ELT. On November 14, I took my radios to the Land of Lincoln for the first time, setting up in the marina parking lot at Pere Marquette State Park on Illinois 100 north of Grafton IL (about 40 miles north of St Louis). The first thing I noted was that the area is in a KFNS 590 null towards KXSP 590 (Omaha NE) and WMT 600. I heard WILL 580 at better strength than KFNS 590. Before 1700 ELT, I got a big surprise when I pulled in WBT 1110 with Jim Bohannon filling in on the afternoon drive show. The adjacent channel interference from KMOX 1120 was minimal. AM reception conditions favored the Midwest and East on this DXpedition. November 25 was the second Babler DXpedition. Conditions in late afternoon and at sunset favored the Midwest and Mid-Atlantic. I got two surprises when WKNC 890 Fairlawn VA as taking out WLS at 1629 ELT with a "Joy FM" ID and Southern Gospel music, and WFIR 960 Roanoke VA taking out KZIM 1631 with a Virginia Tech basketball pre-game show. Before shutting down around 1745 ELT, I noted two Nebraska stations in WJAG 780 and KRVN 880. The shutdown times vary with location; St

Louis County parks close 30 minutes after sunset while Lincoln Shields shuts down at sunset. Babler State Park stays open until 1900 ELT while Pere Marquette closes at 2200 ELT, and Marais Temps Clair State Conservation Area stays open until 2300 ELT; they open at 0500 ELT so that would be a great place for a sunrise DXpedition. Total AMs from each site: Babler – 36, Marais Temps Clair – 19, Sioux Passage – 18, Lincoln Shields – 13, McDonnell – 14, Creve Coeur – 21 and Pere Marquette – 23 for a total of 144 AM stations logged on DXpeditions. In 2020, I hope to look at more DXpedition sites like Queeny County Park in Town and County MO, Castlewood State Park near Valley Park MO and Two Rivers National Wildlife Refuge in Calhoun County IL. 73 and good DX in 2020 from the Florissant Valley Dial Twister.

CANADA. 317 kHz, December 15 at 0226, dash and VC, 1000-watt ND beacon at La Ronge, Saskatchewan. 326 kHz, December 15 at 0230, dash and VV, 133-watt NDB at Wiarton, Ontario, which <http://www.dxinfocentre.com/ndb.htm> says is among those to be decommissioned 2020-03-26. I was tuned to 325 USB. When tuned to 326 instead hearing AAA, supposed to be on 329; see USA.

USA. 326? kHz, December 15 at 0727, ND beacon ID as AAA; only such call listed is supposed to be on 329 kHz, 25 watts from Lincoln IL = 'Abraham Lincoln'. Not unusual to tune something 1 kHz off, but 3? The town of Lincoln is on I-55 NE of Springfield, halfway to Bloomington IL. When tuned to 325, I heard VV in Ontario, listed as 326; see CANADA.

OKLAHOMA. 341 kHz, December 12 at 1428 check, yes, our only local NDB, EI, 25 watts at Woodring is JBA on the air.

CANADA. 350 kHz, December 12 at 0728, dash and NY, 400-watt ND beacon at Enderby BC, 2313 km = 1437 stmi from here. I rarely hear any from that area. But where's RG from WRWA, OKC? Not noted. 356 kHz, December 12 at 0727, dash and ZF, 3800 watt ND beacon from Yellowknife NT – new good catch for me; dozing off I wrote down 366 instead but also noted a mix with ODX, Ord, Nebraska, and both of them are really on 356. YK is 3113 km from Enid = 1934 statute miles. 362 kHz, December 12 at 0726, dash and SB, 500-watt ND beacon from Greater Sudbury, Ontario. 366 kHz, December 12 at 0721, dash and YMW, 500-watt ND beacon from Maniwaki, Quebec.

USA. 365 kHz, December 12 at 0722, ND beacon HQG mixing with something else; 25 watts from Hugoton, Kansas. I was tuned to 363-USB.

UnID. 475 kHz, December 9 at 0715, continuous weak CW as I am dozing off; did not notice any DE definite ID, but could be this as logged 11 months ago: "USA. 475 kHz, January 13 at 0701, WA4SZE/BEACON on CW from Dave Frantz, of WWRB, Manchester TN".

USA. 475.1 kHz, December 10 at 0319-0328, very slow CW beacon, JBA but as previously reported it is indeed the one Dave Frantz runs at WWRB, Manchester TN. The message roughly twice a minute is: WWW WA4SZE COM WA4SZE/BEACON K. Not sure what the COM mean amid. And WWW, not VVV? Here's an interesting discussion about this from 2+ years ago: <https://www.eham.net/forum/view?id=topic=117878.0> I wonder if this beacon be recently reactivated? Can't say I pay much attention to "630 meters", but ran across this on the way to or from the NDB band.

USA. 560 [non]. Replying to my query about Roman-numeral frequency calls other than KLVI Beaumont: Carl Dabelstein: "At one time, the station in Phoenix on 1400 had the call KXIV." Rick Dau: "Glenn, at least one other example comes to my mind immediately – WXVI-1600 in Montgomery, Alabama. The "XVI" portion, of course, is the Roman numeral for "16", an affectionate reference to WXVI's position on the AM dial. This is a station for which I have a soft spot – it was the very first to which I ever sent a reception report. On February 13 1988, while I was a student at the University of Iowa (in what would turn out to be my final semester there), I did a report on WXVI, which was airing Alabama State University men's basketball that evening and identifying as "Sunshine 16". Being somewhat new to serious DXing (my Iowa City AM logbook was just a month old at that point and NRC member and Iowa City resident Earl Higgins was still helping me get my feet wet), I was rather naïve about reporting pertinent (and verifiable) details of their programming. In fact, my letter to them simply stated that I had heard their broadcast of ASU basketball and IDs as "Sunshine 16", but it included nothing solid, like local ads. As you can imagine, I did not get a QSL for the report, but WXVI was at least kind enough to send me a "Sunshine 16" bumpersticker. Fortunately, my 2nd report mailed, this one for a reception of WOWO-1190 two weeks later, DID include mentions of commercials, and I did get a nice QSL card in early March signed by then-CE Eric Culp for QSL #1. 73, Rick Dau, South Omaha, Nebraska" Well, well, I also got an earlier QSL when it was WAPX; call changed to WXVI in the mid-1970s.

USA. 750, December 14 at 1331, PSA about [529plan.com](http://www.529plan.com) in Missouri, fade-out and in, more PSAs, one about skin cancer; song "Sock it to Me". So it's KBNN, Lebanon MO, 5 kW daytimer with 500-watt PSRA, rather than KMMJ or WNDZ. That website doesn't work but this is it: <https://www.missourimost.org/>

UnID. 1520.7 approximately. December 15 at 1912, het upon KOKC; not SAUDI ARABIA which would be exactly 1521.00, and probably KRHW Sikeston MO previously off-frequency. Would be nice if someone nearby or elsewhere in mid-America would measure what's off. By-the-way, after Saudi closes at 2230*, DXers in NE America have been getting on 1521 the 500 kW CRI relay in EAST TURKISTAN, land of Uighur brainwashing by the ChiCom.

SAUDI ARABIA. Re my November 30 log: "UnID. 1521, November 30 circa 1840 UT = local mean noon, ~1 kHz het upon 1520 KOKC, on caradio, but it's fleeting. IIRC last winter there were signs of this in broad daylight, and it seemed not inconceivable that with low winter suns, the two megawatts from Sa'udi Arabia could be skywaving such a trace this far, this early. But then there's that other off-frequency American, much closer "This report at almost exactly the same time is a nice correlation: "Saudi on 1521 at 1344 local time (EST) November 30 – Fair Arabic talk on 1521 at 1344 local. Hoping for a promising afternoon! (Sylvain Naud, Portneuf, QC, Perseus + 290m/950ft @ 55 degrees, IRCA iog via DXLD)" Distance from to Enid measures: 12,278 km = 7,629 stmi – but looking at the map, that's to somewhere in central SA! NOT Duba near the NW corner just down the coast from Aqaba. Maybe there is another Duba, perhaps with a different Arabic spelling? We have always thought the 1521 transmitter is at the NW corner Duba, and indeed that's the one linked from mwlist: <https://www.google.com/maps/place/Duba+Saudi+Arabia/@27.3251367,35.6459635,12z/data=!3m1!4m1!4m5!3m4!1s0x15ac30ffe49c9adf:0xb3627ff4b721a662!8m2!3d27.346154!4d35.7247925> Or via Wikipedia: Coordinates of the town: 27°20'57.3"N 35°41'46.2"E/27.349250°N 35.696167°E. The great circle path to Enid crosses UK and just south of Greenland, across Labrador, distance 11,422 km = 7,097 st mi – 175 watts per km, or 281 watts per mile. Assuming 1521 really be running full 2,000,000 watts, which I could easily believe, but WRTM 2019 says not all of them may be. In that case it would be even greater DX! For comparison, with 10,000 watts ND, KOKC 1520, Moore OK to Enid, 122 km or 76 miles: 82 watts per km, or 132 watts per mile. Anyhow, now's the time for those in deep North America, perhaps even beyond me, to check for that carrier on 1521.0 at midday (but beware of something else not exactly 1 kHz above 1520 stations). Quick check for 1521 December 1 at 1849 and 1911 on home-rig R75 with longwire: not heard.

REP KOREA. 1566, December 6 at 1343 I am concentrating on the JBBBA carrier from FEBC Cheju Island, fading somewhat, but seems to be gone at about 1344.5, expected time for their beam change from Japan to China. In another month this will be easier right at our own sunrise.

UnID. Trans-Atlantic JBA MW carrier search, December 15 at 0256-0300: 531, 558, 576, 675, 684, 693, 711 (stronger), 738, 747, 774(2), 837(2), 882, 909, 999(2), 1008, 1017, 1026, 1053, 1062, 1089, v1179, 1215 and 1431.

USA. WORLD OF RADIO 2012 monitoring: Confirmed Saturday December 14 at 2050 on WA0RCR, 1860-AM, 3 minutes into so nominal 2030 started at 2047. R4 almost completely readable vs local hi noise level; thanks to low winter sun allowing skywave this early. Without the HNL it would have been fine.

USA. WORLD OF RADIO 2012 monitoring: confirmed Sunday December 15 at 0427 on WA0RCR, 1860-AM, MO, VG S9+20/30! About 12 minutes into so started circa nominal 0415 despite late start on first airing.

UnID. 3240, December 11 at 0744, JBA carrier with flutter, as if something from E Asia rather than a local artefact or harmonic; but nothing listed in EiBi, Aoki, or HFCC.

BRAZIL. 4875+, December 15 at 0144, Brazuguese talk and music, S8-S9, very slightly on plus side, i.e. Rdif. Roraima, Boa Vista.

BRAZIL. 4925, December 15 at 0021, JBA talk at S8 vs noise level of S9. Presumably the only known station on frequency, Rádio Educação Rural, Tefé, Amazonas; not anything from Asia as first suspected.

UnID. 5006.0, December 14 at 0653, JBA carrier. Have also noted it around sunrise. The only known station on 5006 is per Aoki/NDXC: "5006 0000-2400 J HFD Radio Station H3A Tokyo-Chofu 1-7" EiBi is more explicit: "5006 0000-2400 J JG2XA Propag.Studies FE f" Seems a bit early, almost 16 local for this low-power thing to be propagating, but maybe. Ron Howard has reported it several times; 200 watts, HFD means high-frequency Doppler; but there was also something else on 5006 in CW.

UnID. 5010-, December 8 at 2308, again unexplained LAH on the minus side of WRMI; see yesterday's speculation.
 MADAGASCAR. 5009.923V, December 11 at 0248, music weak off-frequency after WRMI 5010 0200*, no doubt RNM signature. Is also slightly unstable, wavering. Now if we could pinpoint the LAH to WRMI after 2300 when RNM is not expected to be on.
 CUBA. 5025, December 8 at 2309, Radio Rebelde modulation during music is cutting off and on, S9+25/30.
 CUBA. 5025, December 14 at 0654, Radio Rebelde music is S9+20 but distorted.
 CUBA. 5025, December 15 at 0020, Radio Rebelde, S9+10 of dead air; and still so at 0246 recheck. Is no one paying attention at the studio or transmitter?

CUBA. 5040, December 10 at 0028, Radio Havana Cuba English is distorted and squealing; and no parallel alternative at this hour. By-the-way, to mark Human Rights Day, December 10, Radio Havana Cuba English has mailed out a quotation from Fidel Castro Ruz, huge violator of human rights as multi-sesquidecade Commie dictator.

USA. 5085 and spur carriers 5072+, 5088-, Saturday December 14 at 0128, theatre organ while a few minutes earlier it was still ham stuff, so must have just variably started on WTTW-2. Christmas music with comments from Bob Heil; lasts until 0157 when closing he remarks, "from our new studio in Belleville, Illinois". But is this really new or an evergreen show? Is he still calling it "Theater Organ in the Ozarks"? No doubt about Springfield MO area, but Belleville would really be pushing beyond Ozarks. I soon had switched to \$tereo webcast which has a new URL: <http://wtww.us/pages/listen-live/tx2.php> but don't click on any link on that page or you'll lose it.

OKLAHOMA. My hi local noise level is building up again, maybe blameable on Christmas lighting in the neighbourhood, although unseems from as I approach some with a portable. At 0100 December 14 as I am trying to hear AAAWWW on 7490+v, the worst peak is 2.5-9.0 MHz, lesser around 12.0-13.8; later abated somewhat but likely to be problematic the rest of the year.

Until the next, Best of DX and 73 de Glenn!
