Well here we are again, time to get started on this week's Bulletin and we hope that we can keep our mind off of ol' Santa Claus long enough to give you a bit of interesting DX news.

First of all we feel that we should take this opportunity to express our sincere thanks to all those stations that so graciously presented DX programs for our club this past week. The only thing that provoked us was that old man static forgot to go and chase himself with the result that our catches were limited. We heard the following of the stations that consented to give us programs here in headquarters: CRCV, CHNC, IOAK, CHNC, 1OBQ, CKTB, WHA, CJCA, CRCS and OMJK. We certainly regretted not being able to hear the others especially when there were some among them that we could have used as new stations ourselves. We might mention that at the last minute CJOR wrote our hard-working Brooklyn CPC man, Howard Schlobohm and informed him that they would be on this past Sunday from 3:00 to 4:00 A.M., but we were unable to hear them here in headquarters. However we hope that all of our members were lucky enough to pull in HIX who were operating on about 597 kvs until 6:00 A.M., this past Sunday morning. We are pleased with the showing that our club made in this party, although we are a trifle disappointed at the fact that the weather was bad. Well, this is about enough comment on our party for the present time.

We want to take this opportunity to list our S&E's for this past week. We received them last Wednesday night. They had been held up by a slight railroad accident that delayed most of the mail coming into York that day. We want to apologize to Keith Fress at this time for in reading over last week's Bulletin, it seemed as though we were placing the blame for the failure of the S&E's not arriving on him, however, Keith old timer, we had no such thought in mind. Keith has never failed us and we know we can always count on him.

SINGLETONS HELD:
Frank Busteed - CKCD, CKOC, XMLE.
Art Collins - OMED, CJKR, OMED, WRED, WSAY, V89ET, JOCA, 3AR, 2KX, 3LO.
Bill Garrison - XHL.
Charles Huber - CKCB, CHGQ, CMQ, XDAD, RXOR.
Ray Lewis - CJCJ, 5FQG, KGXK, KPPC, KSUN, WAMC, WDAH, KOWR, XFB, XFO, LVI
Jack Thompson - CQOC, CRCA, E27, XSTF, XSTR, X5X, JOAK, 4BC, 1YA, 2YA, PPF

ELIMINATORS:
Charles Huber eliminated Collins! WABO, Busteed's CJOC.
Art Collins " Reilley's WNR.

Note: Keith Fress has informed us that he already has three eliminators on hand for V89EX so please don't bother to send him any additional one.

We will run another S&E list next week, in order to get on regular schedule once again. Also we will run another Possible Singleton list with the next report.

We might mention that while tuning for some stations that were to be on for us on Saturday morning we ran across three European stations which reminded us to tell you that Poste Parisien and Pe contribute, France come on the air daily morning around 2:15 A.M., E.S.T. We would advise you all to watch closely for these two stations for they both come in
very clearly when the weather conditions are right. The other European
station that we were fortunate enough to hear is Frankfurt, Germany
who operate on 1157 kilocycles. They too come on the air very early in the
morning and can be heard now and then around 1:30 A.M., or earlier
in the United States. We thought that we might as well call your attention
to these stations for they are the ones that seem to be heard the most
frequently here in the states. We might also call your attention to the
London Regional station operating on 845 kilocycles this station generally
signs off at 7 P.M. E.S.T. and can be heard when weather conditions permit
behind CNN with good old Big Ben striking off the hour of midnight.

We have some FRC news to give you at this time. WCCM has been grant-
ed a construction permit to move transmitter from American to Albany,
Georgia and at the same time make changes in equipment. KDEN, Casper, Wyo,
granted license covering local move of station and making changes in eq-

duipment. WMBR Tampa, Fla. granted permit to move transmitter from Tampa
to Jacksonville, Fla. We understand that a new station has been assigned
to Mass. but as yet we do not have anything definite on this, outside of
the fact that it is to take the place of WLBK who were recently deleted
by the FRC.

Our advisory chairman, Mr. G.C. Huber advises us that Mr. Nuckin
our other Greenville, Penna. member received a verification from VEED
which reads in part as follows: "TUNE in Sunday morning, December 31st
5-4 A.M., E.S.T." It is quite evident from this that VEED intends to
run a DX program that morning hence we would advise you all to be on
the watch for this station. Mr. Nuckin and Mr. Griswold both of whom are
members of our club advise us that they have heard a station on 1370 kilo-
cycles on the morning of December 12 that said they were on a Government test
that used call letters that sounded like WHEC and their location as Oak-
man, Ala. and what is more when they signed off they said they were on
1370 kilocycles by the authority of the FRC. Have any of the rest of you heard
this station and who are they????? Can it be that this is some old sta-
tion that has been re-activated.

We have a letter on hand from Art Deeter who is on the CPC of the
NNRC in which he advises us that he has arranged a special line-up of sta-
tion on 1200 kilocycles for Sunday morning, January 21st. We shall list them
for you now so that you will have them well in advance, WQBO 1:00 to 1:45;
WJBC 1:45 to 2:30; WJHE 2:30 to 3:15; WJEM 3:15 to 4:00; WCGO 4:00 to
4:45; WBLB 4:45 to 5:30; and WCAT 5:30 to 6:15 we do not know for sure
yet whether this is Eastern Standard Time or Central Standard Time, how-
ever we expect to hear from Art in a few days again with the information
as to which is which.

We want to thank Mr. F.J. Hauss our Indianapolis member for the
following tip. He advises us that KGFL will be on the air on Christmas
morning from 3:00 to 3:30 A.M., E.S.T. Those of you that still need this
New Mexico station had better watch closely for them that morning.

The morning mail also contains a letter from WHC Norfolk, Nebraska
in which they inform us that they too plan to run a DX program on Chris-
tmas morning from 1:00 to 2:45 A.M., E.S.T. They ask that our club record
reception of this program.

Mr. F.P. Bosteed, gives us a suggestion which may prove helpful
in verifying some foreign stations. He says that he takes a post card,
which evidently is unaddressed, types out a verification, self-addresses
it and does everything to it that a verif should be, excepting to sign
it, he leaves the station. So that. We might try this on some of the Mex-
ican and Cubans that are so hard to verify, sending them a Reply Coupon.
Page three NATIONAL RADIO CLUB DX NEWS DECEMBER 20, 1933.

We are indebted to Mr. Leakin for some additional information this week. He advises us that CHCA will be on the air with a DX program on Saturday morning, Dec. 23 from 1 to 2 A.M., E.S.T. Thanks for all of this information Mr. Leakin.

Through Radex and the CDAR we learn that there has been some more startling changes made in the Canadian broadcasting situation. We list these changes at this time.

540 kycs. CJRM Moose Jaw, Sask. 1000 watts (power increased)
500 " CPOO Chatam, Ont. 50 " (power decreased)
600 " CJOR Vancouver, B.C. from 1210 kyc. (Freq. change)
690 " CJGJ Calgary, Alberta to 100 watts (power decreased)
730 " CJCA Edmonton, Alberta to 1000 " (power increased)
780 " CBRF Ft. William, Ont. to 50 watts (power decreased)
930 " CFAC Calgary, Alberta to 100 watts (power increased)
1100 " CRCV Vancouver, B. C. to 1000 watts (power increased)
1120 " CHSD Summerside, P. E. I. to 50 watts (power decreased)
1200 " CRCB Hamilton, Ont. to 500 watts (power decreased)
1200 " CAGA Trail, B. C. to 100 watts (formerly 10AT & power incr.)
1200 " CKIB Prince Albert, Sask. to 100w. (1051 & power incr.)
1210 " CMC Cobalt, Ont. to 50 watts (power decreased)
1310 " CKCB Charlottetown, P. E. I. to 50 watts (power increased)
1310 " CJKL Kirkland Lake, Ont. 100 watts (new station)
1310 " CJLS Yarmouth, Nova Scotia 100 watts (new station)
1370 " CHP St. John, N. B. 100 watts (new station)
1390 " CJGQ Middlechurch, Manitoba 100 watts (new station)
1420 " CKIB Timmins, Ontario 100 watts (new station)
1450 " CFCT Victoria, B. C. from 1430 kycs. (Freq. change)
1510 " CFRC Kingston, Ont. from 915 kycs. (Freq. change)
1510 " CKOR Kitchener, Ont. from 845 kycs. (Freq. change)
1580 " CRCO Ottawa, Ont. to 1000 watts (power increased)

Eddie Grant our Nova Scotia member sends us a card with the tip that Radio Normandie, Fecamp, France will broadcast a special DX program to all Nova Scotia members of the J.B.C. on Christmas day at 8 P.M., E.S.T. He says they will verify all correct reports the address being Emissions, Radio Normandie, Fecamp, St. Hilaire-d'Intermet, France. Thanks for the tip Ed.

Art Collins advises us that he heard CJX and FQH on Sunday morning, congratulations Art, we were not able to hear either of these stations on Sunday. John S. Taggart, Jr. also reports hearing FQH, it seems as though they must not have come very far South on their broadcast for none of us around here could hear a whisper out of them.

We advised several of you that 30DX was to read our tips last Friday afternoon. We tried to get them ourselves and didn't hear them and we feel sure that they weren't on, until yesterday we found out that they were read during the morning. We are sorry that we did not know of this ourselves. We believe that we could make this a weekly feature over the York station if enough of you boys wrote in, asking them to give us this time each week, we want to take this opportunity to thank the station for this courtesy last week.

We have quite a few orders on hand for International Reply Coupons from you fellows and just as soon as our York Postoffice gets a new supply we shall send them to you. We purchased the last they had about a week ago. We are sorry about the delay but guess it just can't be helped.

We want to take this opportunity to wish you all a very very Merry Christmas and we hope that old Santa brings you all of those presents you've asked him to bring. MERRY CHRISTMAS TO ALL OF YOU.

LAST MINUTE TIPS WHICH JUST CAME IN THE MAIL A FEW MINUTES AGO.
Saturday morning, December 23, KGCR 1310 kyes Watertown, S.D. 4 to 6.
Saturday morning, December 30, WTAM 1130 " C.Station, Tex. 2 to 4.

This seems to be all the tips that we have for this week, we suppose that our mail has been rather slow this week owing to the holiday season.

We want to thank all of our members who have so kindly sent us the season’s greetings. We deeply appreciate your sending us this little token of remembrance at this time of the year for it shows that you have not forgotten us and that we have done something in a small way towards making your past year a little bit more cheerful. Again we wish to wish all of you the happiest and merriest Christmas that you have ever known.
