Well here it is time to begin work on the July issue, the summer months surely are passing very quickly and before any of us realize it we will once again be back at the old radios trying to hear those distant stations during the wee small hours of the morning.

The 1935 Get-Together is now a thing of the past and we hope that those of you that had the pleasure of being here for it, enjoyed the Get-Together just one half as much as we here at headquarters did. Ye editor feels that he never had a better time during his whole life than he spent with the bunch that were here for the Party.

We were a trifle disappointed that more of you couldn't have been with us but we tried our best to entertain those folks that were here. We want to take this opportunity to express our deepest gratitude to our very loyal member, Miss Ida C. Henninger of Allentown, Penna. who so graciously presented us with a large beautifully decorated cake bearing the inscription "Second Anniversary". We certainly do appreciate the wonderful expression of thoughtfulness and the loyalty behind this fine gift. The NRC certainly owes you a rising vote of thanks!

We discussed our plans for the coming season and we are about to get things ready for next year. However most of the discussion centered about the membership contest which we are going to run next season. Each and every member of the club is eligible to enter into this contest. The prize for this contest will be a set of tubes for the winner (not more than 10 tubes) which will be awarded to the person getting the most members for our club from Sept. 1, 1935 to April 1, 1936. Rules for this contest will be drawn up by Keith L. Freas who will be the judge of the contest and will be printed in the August Bulletin. Standings of the Contestants will appear from time to time so that you can see how you all stand in this contest. Incidentally the tubes to be awarded will be Raytheon Tubes. So get busy now and line up those prospective members so that you will all be ready to enter into this contest as soon as it begins. We wish you all the very best of luck in the winning of this very desirable prize.

Another subject under discussion was the Courtesy Programs Committee, just who will be Chairman of this Committee during the coming season has not yet been decided, but we hope to be able to announce whomever it will be in our August Bulletin. We want a bigger CPC this year than we had last year, for some of the assignments were too large to handle due largely to the fact that there were only about 10 members on this Committee. This season we would like about 15 members on this committee, if any of you are at all interested in gaining this experience and making many fine friends through your personal contacts with the various stations, please drop us a line, for we will want to have CPC stationary printed in the very near future and will therefore want to include all the names of the members serving on this committee. We will appreciate hearing from quite a few of the members in regards to working on this Committee throughout the coming season.

We were entertained by some very fine piano selections by our Secretary, J. Warren Routzahn, who certainly does know his stuff when it comes to tickling the Ivories. We certainly appreciate the fine entertainment which he rendered during the course of the Get-Together. We also want to take this opportunity to wish him the best of luck in his latest
venture, a journey on the Sea of Betrayal; we certainly want you to have nothing but "smooth sailing".

Here are the answers to last month's Brain Teasers. It really looks as though that were one list that was ahead of most of you for there weren't more than 2 or 3 correct answers on each reply we had to it and it hardly seems to be enough to merit the stickers which we promised the winner.

WQX Chicago, Ill.
WDM Washington, D.C.
WMU Pittsburgh, Pa.
KDZQ Denver, Col.
KFBE San Luis Obispo, Calif.
KZV Salt Lake City, Utah
KDYS Great Falls, Mont.
WHD Morgantown, W. Va.
WSU Chicago, Ill.
WLAY Fairbanks, Alaska
WEAS Washington, D.C.
2XB New York, N.Y.
WWAX Learedo, Texas
WGM Norfolk, Va.
WRAY Scranton, Pa.
CHCV Toronto, Ontario
CFVC Courtenay, B.C.
CFZC Montreal, Quebec
CKZC Winnipeg, Manitoba
CJOI St. John, N. B.

Alfred W. Oppell of Irvington, New Jersey sends us the news that WAPD 1370 kycs. Wilmington, N. C. conducts frequency checks the first Thursday morning of each month from 2:20 to 2:40 A.M., E.S.T. We hope you will all add this information to the list of checks which we sent you about two months ago.

We are in receipt of a letter from KWYO 1370 kycs. Sheridan, Wyo. who have informed us that they are planning to put on two DX programs this month, one of which will take place on the morning of the 9th from 12:00 to 5:00 A.M., E.S.T. and the other on the 10th from 12:00 to 4:30 A.M., E.S.T. The first one will be known as "Know Wyoming Program" there will be music galore along with a typical western program during which time they will present some Tales of the West dramatized. They have promised to bring us a program of the West as it really is. The second program will be in commemoration of the first year of broadcasting. We know that many of our listeners will welcome this opportunity of hearing this fine station from Wyoming. Still another angle about the program which will be of interest to our club members is the fact that they have promised to dedicate a portion of each of these programs to the members of our club, so that we do hope you'll all make an effort to hear these programs and send in your reports out of appreciation to them. We hope that this station will have favorable weather conditions for these programs so that they may be well heard all over these United States and Canada.

WCAU 1170 kycs. Philadelphia, Penna. presented a program for Radio News on the morning of July 2 from 1:00 A.M., E.S.T. on, we hope that some of our members had the pleasure of hearing this broadcast.

Art Foerster who is the head of the new AFPCO Stamp Co., has asked us to inform you that he is in no wise connected with the Ekko Stamp Co. These stamps will be ready to distribute by Sept. 1. Be sure to mention
that you are a member of the National Radio Club for we want Art to know that our club is backing him on his new enterprise.

From CDXR we learn that the Canadian Radio Commission is to be continued for at least another year. They feel that within the next year there will be some High-Powered Commission stations taking the air.

We have been informed that beginning about the 9th of this month that KIUL 1210 kcs. Garden City, Kansas expect to begin a regular weekly DX program on every Tuesday morning from 2:00 A.M., E.S.T. on. No doubt this will be good news to many of our members that haven't as yet been able to pick up KIUL.

We have also learned that KIUL conducts a frequency check on the first Wednesday morning in each month from 3:00 to 3:20 A.M., E.S.T. Please add this tip to your lists also.

WPEN 920 kcs. Philadelphia, Penna. will also dedicate a program to Radio News on Wednesday morning, July 10 from 1:00 to 1:30 A.M., E.S.T. Members are requested to listen in and send in their reports.

Mr. S. Gordon Taylor, Broadcast Band Editor for Radio News sends us some information regarding an antenna tuning device which is described in the July issue of that magazine. Those of you that are interested in increasing the selectivity of your radio sets may be interested in building this device. This issue will only be on the news-stands for a short while, and if it is already gone by the time you inquire about it, a copy may be obtained by writing the Teck Publications, Inc. 461 Eighth Ave., New York City.

FEDERAL COMMUNICATIONS COMMISSION NEWS:

Applications granted:

The Aussie Class A & B stations will all be reallocated and assigned new frequencies in September.

From the above list of Australians, it surely does begin to look as though the DXers were going to have a real opportunity to hear some of those stations from down under. We feel certain that those stations which will be on the air with 10 KW power this fall ought to be heard quite readily around these United States and Canada, so we can only say now that we would advise you to have your sets in tip-top working condition and have plenty of patience in store and we feel sure that you'll all have thrills aplenty this season.

Next month's Bulletin will be the last of the Summer Bulletins.
Dear DXer:–

We desire to inform you that with the next issue of the National Radio Club DX News that your membership will have expired.

If you feel that we have benefited you with our tips and if our efforts have pleased you we would suggest that you renew your membership in our club immediately, in order not to miss any of the future issues of the DX news.

The membership fees for the National Radio Club are $1.25 a year which entitles you to receive our weekly Bulletins for a year from the date that you renew your membership in our club.

We assure you that we shall continue to put forth our utmost efforts to please you even more so than we have done in the past.

Thanking you for giving us the opportunity of having served you and hoping that you will give us the opportunity to continue serving you, by renewing your membership in our club as soon as you possibly can, I beg to remain

DXingly yours

Robert H. Weaver
President
