ARTHUR L. ROBER-Topeka, Kansas: Sends in a Red Hot Tip. I have just received a letter from K.W. Trimble, Manager of KTSW and the Emporia Broadcasting Company, Inc., located in the Broadview Hotel Building, Emporia, Kansas, which reads as follows:

"We expect to go on equipment tests the morning of January 15th from one (1) AM until six (6) AM and to continue throughout the week. Our inaugural is tentatively set for January 25th. Our early morning programs as part of our equipment tests will be heard, we hope, from coast to coast. We plan to acknowledge reports sent us through the usual confirmation or C.S.L. card."

WILBUR T. CULLEN-Baton Rouge, La.: Wilbur says that the members that did not receive their verbi's from WJBO should drop him a line and that he would check back in his DX mail file and will see that you get yours. He says the mail piled up on him so fast, and with the Xmas rush and football etc., that he fell behind in his mail. WJBO had a swell program on for the Club on New Year's Eve but due to so many stations on the air at that time it could not be received here in the East. Wilbur also says that the list of DX'ers reporting in for WJBO are 90% are NRC members, so you really do have an active club. (Thanks Wilbur for the swell programs that you are dedicating to the NRC. HAG)

W9KH-26.450 kc.((Commercial Radio Equipment Company-7134-36 Main Street Kansas City Mo.)) (Quote from their letter: Please be informed that we will read DX tips supplied on this station by your organization each Tuesday morning at 11:45 AM, 12:45 PM, EST and possibly will carry over some material on our DX tip period Thursday morning at the same time.

We wish to thank you for your copy of National Radio Club DX News Bulletin which makes this possible. Signed By: Everett L. Dillard.

We of the National Radio Club thanks Mr. Dillard for the courtesy that he has showed the Club and our Club members.

KSL-DML pronounced DOMILA

KSL, 1130 kcs. 265.3 m. Vermont Building, Salt Lake City, Utah U.S.A.
The program of Station KSL is scheduled to start on January 5th, Thursday Morning) 1939 at 2:45-3:00 AM and continue weekly every Thursday until further notice. One program each month will be devoted to SPATARI, and each DX program have some parts of it in SPATARI. (This is a special TIP period for all DXers, in which the NRC takes part in furnishing part of the DX news, along with the IDA, and other clubs. HAG)

This week you will find the BULLETIN in two sections the SW and BCB. The reason of two sections I have been over crowded with news here at HAG and tried to clear my desk of it this week. But sorry that I didn't have enough room then, so I want to acknowledge letters from George Luther, Merton Hiatt, Joe Becker, Hal Buttells, Art Brackbill, Ray Edge, John Curgan, J.W. DeRosa, Harry Hawkins, George Brode. (Cont Page 4)
Hello again youse guys and gals. We have an item or two that may be of interest to some of youse, so here 'tis. TA reception seems to be picking up and the reports will probably carry accounts of TA reception. We are informed of a frequency change for Radio Normandie from 1411 kc. Can any of our members tell us the new frequency. (NOTE-Carl Forestieri's report, Radio Normandie has changed to 1090 kc.)

Another new station, this week it's for Williams, West Virginia. The Williamson Broadcasting Co. have FCC permission to erect a station to operate on 1370 kc channel, with 100 watts day's.

WHBF, Rock Island joins the Mutual network and changes frequency on January 14th. Power increase to 1000 watts.

KFBJ, one of the oldest stations in the country, first started by our pal John Brinkley of the goat-gland fame, will probably move from Abilene to Wichita Kansas. The FCC has indicated that they will not object so youse guys in Wichita will have KFBJ in your city shortly.

Finishing touches were placed last week on the allocation pact which assures Central American stations of frequencies necessary to overcome engineering difficulties common in the tropics. The State Department announces final agreement has been reached with governments in the hot zone where operation on the standard broadcast band is impracticable.

Bill Stone: "Does Frank Schmidt belong to the 400?"
Pat Reilley: "Yes, he's one of the ciphers!"

WJSV, has been granted permission to jump from 1 kw to 50 kw, to install new equipment including directional antenna for all time use. In addition the transmitter will be moved locally.

KSTP, St Paul Minn. has likewise been given the nod to jump to 50kw and to install directional antenna for both day and night use.

CBA, Sackville, N.B. will go on the air during the early part of April. Additional Canadian news has it that CBK, Wetroux, Sask will not be in operation before mid-summer. CBA will use 1050 kc while CBK will be on 540 kc, both will use 50,000 watts.

--A GRAMMATICAL ERROR--

The other day the New York Herald Tribune received a letter from a Brooklyn school boy calling attention to what he said was a grammatical error on the Martha Washington 1 1/2 cent stamp. The youth enclosed one of the stamps in question and called attention to the fact that the legend on it reads "1½ cents." He wrote that he was taught in school the plural of "cent" can be used correctly only when two or more cents are involved. It is now admitted by the Postoffice Department that, technically, a grave grammatical error was perpetrated on millions of Americans who sent out seasonal greetings recently under 1½-cent stamps, and promise to consult a grammar before another series of 1½-cent stamps is designed. What he might have said is that the latest series of United States postage stamps was intended to teach history, and not to teach grammar, but that would have been both flippant and impolitic.

Well that's all we have this time. Here's hoping that you will have some red hot news for youse and we will try to get something cooked up for next week. In the meantime vy 73.
W/4-6 until WCOU (Darn then I couldn't hear CKBE) Check Art Robb's report OM on CKBI-Ed.. came on at 2am. The one on 1040 bdly (k7med by CKOC spreading. New comes XERA. The 959 Frenchie faded under the LN at 2:32 am. That makes it about 7:32 over there or do they have fast time. That would be 8:32. Heard a new Cuban yesterday CKCB "La Voz de Reporte" 1050 kc 5:20-?? still on at 7:00am. Heard I'm sure XEBC on for the NHRC this am 1/9/39. Hrd 3:45-4:20. Sent reports to XEBZ and XEC. They were both returned: Unclaimed and no Existest. Does that mean there are no such stations. (There's a XEQ OM as to the XEBZ-????). Ed). 1/10/39 I couldn't hear any of the Mexicans on this am. I did hear XEM on until 4:05 with their regular DX program. The announcement said they would be on each Monday night until then, it is Tuesday EST. He also announced the power as 500 watts. They acknowledge reports at 3:00 EST. To Dick Cooper--milk Shakes don't mix up like that, it's XEM P.0.Box 233, 1390 kc., Chihuahua, Chihuahua, Mexico. Go easy on them there Milk Shakes OM. Yesterday 1/9 KKA XERE KFPY WPGC KJ7J WBRK LRA KGU all heard between 2:30 and 3:20 EST. 1/11/39 YV1RF was putting a swell sig in here this morning at 6:15 EST. WMA came on at 6:25 with carrier and spread all over. 1120 kc. Only other new one heard was XEPE. Thats all the Mex I could hear this Am. The others must have had Flea power...I would like to swap SWL cards with Western Members only.

CARL FORESTIERI-Bronx N.Y.EXTRA: Tell the boys not to fooled by Radio Normandie on a new frequency with an English program daily as I was for one full hour, finally at 2:45 came the announcement: This is Radio Normandie and the Time quarter to 8. The freq is 1090 kc not 1411 any more. The announcement says that they are these programs Monday to Friday at the same time. But that particular program was on a SATURDAY. Jan. 5 CBR 1100 for a new one at sign off 2am. WMFR 1200 R9 test. All coasters R7 to 9, N9R clicks test effects over 40 freq on each side. At 2:45 heard KSL with NRC tips and IDA SW tips, R9 LRA 756 R6. The coasters heard were KFI R8, KPO R5, KJR R8, KG6 R9, KFBK R8, KEX R7, KNX R8. Jan. 6 WMJX 900 testing at 1:55. WOR on with tics clicks again and no reception for me from 640 to 750 kc., and WLW seems to be using all of their 500kw on its test. Jan. 7 the best of the season for TA's and for many season's also. Lilie 1213 was R7 at 1:45 to 2:00 when WCOU took the air. Poste Parisien 959 R9 at 1:50 and up to 3:30 he was still R4. Seems impossible at first to be Paris, so loud and clear. English speaking station on 1090 at 2:00am, thought to be XERB, but was fooled, at 2:45 he announced: This is Radio Normandie, and these programs are broadcast Monday to Friday—-or Saturday—-at same time. Rennes was R7. At 3 WNEW off the air, Hope he busted, P.S. 3:15 WNEW is on again. WOPI and WJBK having a cat fight on 1500 all morning. At 4 WHN and WEVD went to bed, so did I. Jan 8 No TA's this am, Coasters very strong KGLO 1210 at 2:30 R9, WATL 1370 all morning R7, XERA 750 R4 at 3:30 for new one and 1010, XEBP 1150 R6 at 4:30 for #1011. Log Verifies 995. Jan. 9th Rennes R9 at 2am, PP 959 R8 at 2:05, Strasbourg R6 at 2:15 Jan. 10 Radio Normandie 1090 R8 at 2:10, Rennes R7 2:15, Lilie 1213 R7 2:15. P.P. 959 R8 2:20, Strasbourg R7 2:20, Toulouse 776 R6 2:20, Bordeaux 1077 R8 2:25. A grand total of seven French is one Morning. I have ten verified from that country, the other three I did not hear this am.
NATIONAL RADIO CLUB DX NEWS

Broadcast Band News

RANDOLPH HUNT-Leucadia, Calif. On Jan 7th Tijuana station XELO changed frequency from 570 to 730 kc. Listened to some frequency checks on Jan. 10th KGBE came on a little late. KNAC came on air before KTOK signed, KIUP ran a little overtime into KC's program. During time that KC and KNAR were being checked, some other station was on 1500 kc, with regular program. The reception of KTOK in Oklahoma City was 100%, but the Shawnee, Okla. station KGFF was barely audible. Sent KFEB report on March 1st 1938, heard nothing in reply, sent carbon on Jan. 5th received correctly 9th.

TOM CARBERRY Jr. Buffalo, N. Y. John Kalmback and I had an informal get to gather here, the night of the 5th, and went over the various and had a general Dx discussion. Received a swell verie from WOW this past week. They sent their station magazine, a personal letter on special holiday stationary along with their verification card. They also returned the postag that I had put in with the report. Other verie's received here this week are WMSU WIP WNB, and WHE. Newest stations logged are KSOO KOMA KSO KRVV and CHNC. The last one mentioned is in New Galile, Quebec, and they have moved from 960 to 610 keys and can be received here most any time of night.

NICHOLAS WOYTAN-Syracuse, N. Y. (Seems like old times to hear from you Oliv for you to send your report as you did this time, Ed) On the Tuesday of the Jan freq checks I logged 10 new stations as follows- WLFD WJNO KALB KTOK WTQK KELD WACO KGIK WSGN and KTOK. Other new stations logged were KY5K at 2:05am and KTRI at 2:10 am on the 5th. CBV logged at 6:45pm on 950 on the 4th. WSKST and WGN on 1250 and 640 resp. logged at 5:15 and 6pm on the 3rd. LSII still coming in on 1310 kc on CW with an H7 signal. TGW coming in swell these days at 11:00pm. WJSN was heard testing the past two Tuesdays at 2:15am. KIDO heard testing on 1350 on the 3rd at 3pm. CHNC was heard on its new freq of 610 kc at 10pm on the 5th, stations on 1040 and 1090 heard at 2:45 am (???) (Check Forestieri's report Ol. Ed.). Also station on 890 at 3:05 am (???) What stations were on 980 at 2:45 and 1360 at 3am on the 10th (NFC I think would be the station on 980 kc Ol. Ed.) Received a letter verie from KTRI signed by Dietrich Dorks.

DICK COOPER-Kittanning, Pa. DX is suffering down here. Been fishing around almost every morning 'til 2am but nothing new. Plenty of static, that's almost come thru for me several times but not enough zip to get a log. Heard a mysterious one on 835 kcs. the morning of the 9th from 1:00-1:20. Program was pinno music and I got a nice report but could not catch either call or location when announcement was given. Sounded like Spanish speaking one, but it might have been something else. I think it was a Cuban or maybe a Cost Rican, Heard them again signing at 1:00 am following morning but no idea as to who it is. Was up for the NWRC Mexican programs but XEOZ was the only one that I heard. Was the others on or is my receiver going back on me???

(Cont from Front Page) On our January 2nd bulletin, so many of you members say that you received the January 9th a head of the January 2nd, wish that each one of you would write a letter to me and sign your name to it, as I have turned all the letters that I received over to the postal Dept this week and they will check and find out why we get such slow service at times. I cannot understand why we should get such service at times. Our members on the west coast are getting the bulletins not later than Thursday and our Buffalo members gets theirs in about 12 days Hl. Good service.
BOB BOTZUM—Reading, Penna, Jan 5. KTRI at 2:10am, WMFR testing 2am on, WRDW testing 2:45am. Jan. 6. Reception very poor. Static bad. WCSC testing 2:16am. Jan. 7th. WCBO at 2:01 on DX program. WBST testing 2:04, WBNS testing 2:07, KVGB at 3am, KSL 2:54. KFPY off at 3:07. WOPI testing 3:10. KGBR 3:05, KGKD 3:12, KGB 2:24, XEL 3:30 P.P. 2:0-2:23am R/5-7. Toulouse Ptt 776kc 2:34-2:52am R/4-5. Another French one on 859 kc but XEBW too much for obtaining data. West Coast excellent this am. Jan. 8th. Between 2-2:30am stations heard KGLQ WAMAL WCGU WVLA KIWC XELG KITE. "30-33am stations heard KOH XERB KFWD KRIC KTHW WDUS KEX XEL KYSH KFPY CJRC off 3:00am. KID 3:07 CICA 3:15, WAEF 3:40. No sign of CFJC or the Mex specials XENX XEBX XEDA XEBP. Reception very good till after 3am. Thent Static and buzzing noise started up. Jan. 9. West Coast stations again very good. MGRC testing 2:15am. LRA at 3:20am. Mystery station on 540kc heard this am. Station came on with announcement only at 3:51-3:56-4:12am. After announcement would shut down again announce mention (X) CBK or CBK not quite positive, but last 2 letter BK identified plainly at 3:56. Also mention etc. Omit and Chicago. Now who the dickens could that be. KVMS heard 4:10 to 4:15am on test R/7/. Jan. 10th. This again heard PP-Bordeaux-Toulouse—also weak signals on 750kc. Rennes broke thru for 4 minutes but KLRM-KXN signals proved to strong and Rennes wasn't heard anymore 2:21am. Also some station QRMed by WDN0 may be of been Radio Horandie (Bob check Forestieri's report. Ed.) P.P. seems to be the best signal strength around here. WIP-610 kc stayed on air thru WIOQ test. Who was the station testing on 1200kc during FCC checks. They ruined WAM WJNO WAXY between 3-3:35am EST. Music and no station call. Heard 2 stations sign off on 1500 kc at 3am this am. Another positive one was KVOK both sounded like giving a schedule of next days program. But couldn't separate them. (Bob that station that interfered with WBN0 on 1120 Jan. 10 might have been KLRM as they were testing a few days this week. Ed. Check Feichtner's report.)

NICK EVANDELLI—West Hamburg, Pa. Jan. 6th, 42 degrees bad thunder storm, went back to bed at 3:00am. On Saturday Jan. 7th temp 40, cloudy. I heard a French station on 960 kc of which I didn't hear any calls, at any time. I heard them between 1:35 and 2:05am. Radio Rennes 2:15 R/3-4 1040 kc. WGY 2:35 R/9, WCBO 2:45 R/8, KFPY 3:00 R/8, KGGB 3:25 R/7, KSHL 4:20 R/7. On Sunday Jan. 8th 28 deg. clear, and a heavy frost, with plenty of noise at times then again it would disappear. CKY R/8 12:45, KOH R/5 2:15, KTHW R/7 2:25, KGLO R/3 2:47, WSUS R/7 2:50. KFPY R/7 3:05. CICA 6 R/6 3:10. KID R/5-6 3:25. KLS R/4 3:30. CICL R/9 5:20. CKMS R/6 6:40. Station CICL is a new station or has its call letters changed, they were still on the air at 7:00am, they played American music and announced call letters after every selection in Spanish and English. I didn't hear anything of CFJC or CKBI, CKBI could not be heard on account of WCBO on for the NRRC. On Monday Jan. 9th temp 30 deg. clear, and plenty of static, but West Coast stations coming in with a bang. XELO R/3-5 1:50am 730 kc. KOIN R/7 2:15, WBKX R/8 3:08, WAI R/9 3:28, WBBZ R/7 4:42, WIL R/9 5:30. Here's a list of my latest verify with signatures. (The Signatures on I will hold over and run them all at Once Ed.) WSAH WMBL WDRC WJAS KFDP WBBC KIJD WCOP WSTP WBOE CJRM

HARRY E. GORDON—Erie, Penna. Well heres a little hole for me to fill out. HI Jan. 8th CJRM on 540 1:00am R/4 2:540am. French station on 1185 at 2:20 R/4 2:33, CICA on 730kc at 3:00am with extra strong signal. CKMO 1410 at 3:30 R/5, KCA 760 R/7 at 3:45. CKX 1010 kc. at 4:15 R/6. Jan. 9th French on 775kc extra strong sig at 2:15am. Also one on 959kc at 2:15 Jan 10. Only two hex logged here in the 5 days. heard two more sig's but have my doubts as to who they were.
NATIONAL RADIO CLUB DX NEWS  January 16 1939

Broadcast Band News

ED_FEIGHTNER-Erie Penna. New stations heard XECZ WLI KPLM WPRP XEFE.
New varies CBO WSTP-CJBR-WLAF KITX WARD. I heard
KPLM on the 10th testing for RCA in Calif at 3:00-3:35am. The DX program
put on for the ID by WTHI was very fine also the talk by Herb Tucker.
XEL0 is on 730 and signs off at 3:00. CKCV came in very fine business.
CKBI was not heard here due to a DX program by WCOU dedicated to another
DX club. It seems a shame too because I think they would have came in
very well that morning, as the North West stations were extra strong, and not
much static. Veries are coming in too slow.

ARTHUR_L.ROBB-Topeka_Kansas. Art sent in some real news and its on the
front page but no also sent in a short report, here it is. Heard WCOU for ten minutes after CKBI signed off on the
DX program and before WCOL came on with a test program on Jan 7th.
Reception was poor on Jan 8 but somewhat improved this morning Jan 9th.
The only Mexes heard were XEAK and XECZ. (Thanks On for the tip on KTSH)

WARREN_ROUTZAHN-York_Penn. Veries received this week from WCLL WJAS WADB
Logged LSII as number 1100 in my log Sun.

on during WIOD check. Who was the spick on 1100kc at 6am EST. Jan 11 XEBE
WIBG. Latest varies: CKY CKCK KVER KFG3 QFJB CPAM CKY XWIC WJU WJBO
CKLV and WLEU.....
Herman Bensdorf-Harvard, Ill. Did manage to hear WKST through WNEW this
All good enough to get a report off incidently they tested this All 3:25-3:40 AM EST for frequency test purposes
(3245-415) kcs Second Wednesday 3:35-3:40 AM EST) haven't seen them listed in any list befpre so why ace this will be of some help to some of the follows ,(It sure will be OK.....) I also heard XEM on 1390 kc Jan 3rd when they signed off at 4:10 EST, they mentioned they would be on next Monday with another DX program, But as I heard them on Tuesday (Jan. 3rd) maybe they mean Monday Ph when they said they would be on with another DX next Monday. (they could start Monday Ph or and run into Tuesday AM Ed) heard only TWO of the Mem's that NNRC arranged for (one All to go yet) no doubt very much that they all were on I sure lost enough sleep trying for them Here is something I ran into this AM WHIS 141 kc were on with a DX program and were rendering it in some foreign language, which might have fooled some unless they stayed with them until they signed off at 4:40 EST, they also mentioned when they were going to be on with another DX program which is to last until 5:00 AM EST. (Check the DX calendar OK)

 Eldon Addy-Marcus Iowa here is my report for the last two weeks, New catches are WAMR WCOI, DRAD WTMW WCCU for my first Maine Station, HJLWBN XEL I XET XEM P.O. Box 233 XEPE CKBI CKCV on for the club. For Peter Claruxus Don Wirth signed my WOWT Yerie, Receiver here is a New Howard Model 450 12 tubes so I am sending a SW report also. There has been quite a bit of static lately due to spring weather here around 30 degrees most of the time makes CBC DXing rotten.

 Max Demling-Erie Penna. Jan. 8th Signals at a low ebb during past week generally, Jan. 9th KRBC WBRE WHAI KHBR who was the spick in back of XEL between 3 and 4:30 am. Jan. 10 KIIO signing at 3:15 am Jan. 11 XEPE and KUW. Jan. 12 WFOR KFYT and CKCV with NRC special unidentified station on 630 3 to 4am Veries reaid XETI WILA WHA in four days TGI with fire card (21 days) TGF personal letter Lt Col Julio Maza Caballero-Director general of Electrical Communications evidently has super vision over both TGI and TGF as he signs the veries. Incidentally I heard the Picoo selection Turkish March on 3 different occasions from TGI. He dedicates this self same selection to me Sat. Jan. 14 at 2:30am EST Jan. 14 WHAI with temporary antenna due to tropical storm Heard WSTP fall out of the air with FCC test W-william S.-Sugar etc at 5:40 this All So it looks like 2nd Saturday from 5:25-5:40 am EST.

 Frank Schweitz-Pittsburgh Pa. DX work here has been mostly on Commercial CW among those heard are PZC Gurnean S. America HPG HPE HPC in Panama, TIV and TIO in Costa Rica, OCA2 and OCOA in Peru, JAS and JMD2 in Japan, TGA7 CWA OTO OLP OLG SUY in Egypt PDC PPM LSI HA12 BJ02 LCP LCG and probably the best of all FXJ in Beryouth Lebanon Asia. Tried ten meters on the Super-regenerative receiver one morning and brought in GM6RG G8TD G8SA and LA4K in Oslo Norway. Foreigners on 20 meter CW are practi cally nil only station heard on CW outside the US was K4DTH. The above ten meter stations were heard on AM I'm interested in knowing if any of the members are in on the CW end of things. If enough members take an interest in CW DXing perhaps a CW column might be started in the bulletin. If any members are interested in a column of this sort they might drop a card to Hb and mention the fact (OK OK if you CW wants a corner in the bulletin I guess we can dig out a place for you, You will need an Editor for this, will you handle it. Hi, Your suggestions may give you some work, Hb.0)

Educational Stations

By

Peter Clarus

Well here we are out in Minnesota, Northfield to be exact the home of St.Olaf College and also Radio Station WCAL 760 Kc., 1000w this station was founded in 1921 and is valued at $25,000. WCAL shares with WLB one third going to WCAL and two-thirds going to WLB. Some of WCAL's outstanding programs are: Divine Services, Vespers, Time signals from goodell Observatory, Choral Hour and "A pause with the Poets". Its annual appropriation is $2,500. The Station is also supported by free-will contributions from listeners. WCAL has become a window through which fathers and mothers can look and see how their sons and daughters live at college. The Sunday morning services in the Norwegian language have found a distinct place in the religious life of the Minnesota people. Many letters of appreciation have been received, especially from the old, the sick and the shut-ins. This in the opinion of the directors, is one of the greatest services the station is rendering to-day. WCAL was granted a power increase and word was passed that it will be put into service very soon.

REPORTERS FOR THIS ISSUE--

NOLPO # 6 Carl Forrestieri-New York City N.Y.
NOLPO # 7 Herton Hiatt-Dryden Washington
NOLPO # 8 Cyrus Will-Kenilworth Illinois
NOLPO # 9 Fred Alfred-London Ontario Canada
NOLPO #15 Keith Kilton-Monticello, Illinois
Hans Jacobson-Buffalo New York

Assn SW Editor-Leo Herz-Chicago Illinois.

Thanks a lot fellows & it seems good to see so many of you taking
and active part in this SW section each week. Keep up the fine work.Cy-
rus Will sends us some VFB information that was sent direct to him from
Luc D'Helft-Lafore of Belgium and this information really is a SCOOP for
the NRC as it will clear up a few questions that are in the minds of DX-
ners throughout the entire country. Txn a lot Cy Oh and thank your friend
for us too.

Special Notes

On the special IDA program from YL2CD there will be a description of
Ham Radio in Latvia & this is an excellent chance for everyone to increase
their VIC ratings. Send all reports with a IRC to Arvigs Vitalins,
Miera isla 52-3, Latvia.

NOTE PLEASE:-W9XA-26,450 kc.,1,000 Watts, Kansas City Mo., will broad-
cast Tips, news items and other features over W9XAn each Tuesday morning
at 11:45 AM EST (12:45 PM EST) and will carry any news is not broadcast
on Tuesday over to Thursday morning's same time. This is a National Radio
Clubs Special Broadcast, so lets have all the HOT news, and any other
special tips that you have sent direct to HQ so that we may have them
into W9XA in time for this broadcast.

---ANSWERS & QUESTION DEPARTMENT---

Last week Fred Alfred was wondering where HILS on 6.425 megs in D.R. was
located at. Your Editor has been wondering if Fred didnt get his calls
mixed up a bit & maybe he was hearing HILS at Antiligo, D.R. On 6.430 megs
who operate daily except Sunday from 5:40-7:10pm.

Carl Forrestieri heard a mystery station on about 9.520 megs from 4-5cm
with R9 signal. Lady did most of announcing & Carl says it sounds like
a Russian Station. (RAN Moscow Russia is now operating on 9.520 megs irr-
regularly. This may be the station. However Radio Addis Ababa, Addis Ababa,
Ethiopia is operating on 9.525 megs from 2:30am till 10:30am so maybe
it is this station. If you heard the station on Sunday morning I would
say it was LKC at Jeloy, Norway on 9.522 megs but most likely it was RAN
you heard as Radio Addis Abeba and LKC are seldom heard here. Editor.)

Fred Alfred heard the Deutsch Freiheits Sender again from 4-5:30pm with
R7/44 sigs on a freq of 10.150. He wants to know who this station is. ?,
Fred Alfred also wants to know where HRK 5,975 mags in Honduras is located. He had them several evenings with fair sigs around 9pm.

Your Editor and Fred Alfred both want to know if Radio Guadeloupe on 7,450 mags "is the former FG8AA?" We believe this station has now moved to this better freq where it is much better heard. They sign off at 7:15 pm giving news in French & sign on at 6pm with a R6?Q4 signal.

SOS-S.O.S.--WHO can give HQ this information, a ham operator living in Lynn Mass. by the name of R.E. Pierce--what wavelength he uses to broadcast to South Africa on, and what is his calls, please some one give me this help, to locate this HAM. Give me all the details you can find.

--SPECIAL NOTICE--

Station VUD2 at Delhi India was heard by your Editor on Jan. 5th 1939 coming on the air at 9:30 pm EST on a brand new freq of 9,600 mags where they were logged for 1 1/2 hours with R7-9/Q5 signals.

--SUGGESTION BOX--

Hans Jacobson-Buffalo N.Y. says he would like to see every member who sends in reports on SW reception to state what make of radio & Antenna they are using. (Not a bad idea OM. Editor)

Leo Herz says his idea for a SW contest is the same as your Editors. Give a grand prize for the one verifying the most countries over a years time. This would include all SW stations of the world.

--GOSSIP OF OUR MEMBERS--

Hans Jacobson of Buffalo N.Y. uses a 23 tube Scott receiver. However at the present Hans has no antenna because of some construction work going on around his place $ which he thinks will last all winter. We were glad to hear from Hans though & I would suggest that Hans use his radiator for an antenna until the time presents itself where he can again erect his doublet doublet again. Lets hear from you again Hans OM.

Thanks to Cyrus Will for forwarding that VFB information of the Finland & Belgium SW stations to us. That was a real scoop OM.

Carl Foresieri says he has done very little DXing during the holidays because of local QRM from the hundreds of Christmas trees flashing lights in the neighborhood. Carl says reception sounded like fireworks display than Radio reception. However Carl sent in a fine SW report & tnx a lot OM.

Tnx to Kerton Hiatt for his VFB articles on UHF DXing. Leo Herz is now interested in this sort of DXing. Hi.

Leo Herz expects to get a Taco Selective Beam Antenna for his New Howard receiver soon.

Fred Alfred sent reports the last week to JIB ZHP FG8AA YDB HH2s CB-970 CB-960 and SBP which is a good weeks DX in any mans country. Fred says one must have his antenna pointing East & West for South America, N.W. by S.E. for Europe, S.W. by N.E. for Asia, Africa and the fur East. Fred has also completed a 1/4 wave beam antenna and as soon as weather permits will put it up and try it out. FB we call it. Fred says he has 47 QSL cards from stations over 5,000 miles away from London. Next week we shall publish these vories of Freds and they are about a nice a bunch of QSL cards that your Editor has ever seen.
FAJ43-7.500 Apartado 225, Cruz de Tenerife, Canary Islands was heard by your Editor as early as 8pm and signing off at 9:35pm EST. Entire program was a relay of Radio Nacional. During the program Radio Nacional DE Espana is mentioned several times. Also France-Franco-Franco Viva La Franco is mentioned several times. Gongs are used for station identification. At the end of program it can gives call FAJ43 in English and their freq as 7,500 mgs. Lady gives news several times during program. Station is received R7-9/Q3-5 depending on the amount of CW interference.

TPZ2-8.960 Alger, Algeria was heard calling Paris at 12:30am and uses a 4 tone signal. Received R3/Q5.(Fred Alfred)

VUD2-4.905 Bombay India comes on the air daily at 7:30am with a native program and has a better signal than VUB2 on 4,880 mgs (Alfred)

VUC2-4.880 Calcutta, India also comes on the air daily at 7:30am with a native program but is received with poor to fair signals. (Alfred)

VUD2-4.995 Delhi India has best signals of the India stations also coming on the air at 7:30am giving news in English usually by a lady and followed by a native program. (Alfred)

VUD2-9.600 Delhi India hrd from 9:30-11pm EST on their new freq with a R7-9/Q3-5 signals. (Lundberg)

VUD3-15.160 Delhi India hrd the latter part of last week R7-8/Q5 from 9:30-11:30pm and giving news in English from 10:20-10:30pm. (Herz) Hrd at 10:40pm with news in English R7-9/Q3-4 (Lundberg)

VUMS-4.950 Madras India also comes on air at 7:30am daily with a fair signal broadcast a native Program. (Alfred)

JVT-6.750 Tokyo Japan heard calling KEL on 6.860 mgs with a R7/Q5 signal at 12:40am. (Fred Alfred)

TAP-9.465 Ankara Turkey is on the air daily from 11:30am-4:00pm daily and not till 5pm as most clubs state. They use 20kw and QRA: - Ankara Radio W?1/ Tap, Ankara Turkey Asia. (Cyrus Will)  

TAQ-15.195 Ankara Turkey is on the air daily from 5:30am-7:00am EST on only this one sked. They also use 20kw power and have the same QRA as TAP.

--OCEANIA--

VLR-9.580 Melbourne, Australia was received R9 from 4-6am. (Forestieri)  
VK3ME-9.500 Melbourne Australia was hrd R8 from 4-6am. (Forestieri)

--EUROPE--

ORK-10.330 Ruvsselede, Belgium is the Belgium Short Wave station which has 15kw power and relays NNR or TNR of Brussels, Belgium from 2:30pm-4:00pm EST for the Belgian Congo. The Antenna of ORK is erected between 8 masts of more than 300 m. high. One of them was knocked down by a plane a few years ago. Others smaller antennas are erected all around. (Cy Will)

OLR2A-6.910 Praha Czech was hrd with fair signals on Thurs from 4-4:30pm and at times still later. (Fred Alfred)

GBS-12.150 Rugby England was hrd calling WGC 17.860 mgs at 8:30am with R9/Q5 signals. (Fred Alfred)

GSC-9.580 London England hrd R9 from 7-9pm. (Forestieri)

GSJ-21.530 R7-9 signals at 11:00am (Carl Forestieri)
NATIONAL RADIO CLUB DX NEWS

January 16 1939

GSB-9.510 London England Hrd R9/Q5 with News in English at 10:30pm. Announced that GSC 9.580 and GSL 6.110 mgs were on same program (Hiatt)

GSL-6.110 London England R8/Q5 on Trans # 6 from 10-10:15pm. (Herz)
OIE-15.190 is now used to broadcast the Lhata Finland trans and was hrd with a special program from 1:15-2:00pm R7-8/Q5. (Herz)
TPA2-15.243 Essarts France hrd at 8:30am R9/Q5. (Alfred) R8 from 7-10am (Forestieri)

TPA3-11.885 Pontoise, France had news reports in English at 3:00pm and received R7/Q4. (Merton Hiatt)
TPB7-11.885 Essarts France hrd R9/Q5 at 4pm. (Alfred) R8/Q5 from 11-45pm till midnight, (Leo Herz)
TPB-11-9.550 Essarts France hrd daily till 5pm R8/Q5. They give news in English at 3:00pm. (Fred Alfred)

DJA-9.560 Berlin Germany has a very weak signal from 4-7pm. (Forestieri)
DJN-9.540 Berlin Germany R7 from 3-7am and R9 from 4-7pm. (Forestieri)
DJQ-15.280 Berlin Germany R9 signals from 9-11am. (Forestieri)
DZC-10290 Zeesen, Germany hrd daily from 4:50-5:00pm or later. They call Buenos Aires and Brazil and then gives news in Spanish with a R8/Q5 signal. (Fred Alfred)

DJM-6.080 Berlin Germany hrd R7/Q4 from 4:50-11:00pm. (Leo Herz)
HAT4-9.125 Budapest, Hungary now hrd daily from 7-8pm and often relays the National Network program from Denmark. (From announcements. (Fred Alfred)

PCJ-9.590 Hilversum, Netherlands hrd signing off at 3:37pm with the announcements that they would be returning to the air at 7:30pm. This was on Wed. Received R8/Q5 (Fred Alfred) IGY-11.68J Rome Italy hrd daily from around noon to 1:30pm or later with an oriental program which sounds like the music from the India stations. They also give talks which sounds like Arabic Signals. Station was received with fair to good signals. (Fred Alfred) Editors note IGY has a program daily for the Arabian countries from 12:10pm-1:00pm.

IRF-9.850 Rome Italy received R8-9/Q5 on North American Program. (Hertz)

R9 from 6-9pm. (Forestieri)
2R0-9625 Rome Italy R7-8/Q5 on North American program. (Hertz) R8/Q5 every evening. (Keith Kilton) R4 at 3pm, R7 at 5pm and R9 from 6-9pm every evening on North American Hour. (Forestieri)

2R04-11.830 Rome Italy received R3 at 5am, R5 at 8am and fades around 10am. (Forestieri)

2R05-15.300 Rome Italy is the best of the Rome stations hrd during the daytime. Their signals range from R4-9 until noon. This station seems to be on all the time. (Forestieri)

RAN-9.530 Moscow, U.S.S.R now hrd on this freq nightly in parallel with R8/Q5. R8 has the best signal as there is too much QRN on RAN. (Alfred) RAN received on 9.520 mgs. (Lundberg)
RIE-15.050 Tiflis U.S.S.R. hrd calling Moscow at 12.05am with R7/Q4 signal and lad y does most of announcing. (Fred Alfred)
LKC-9.530 Joloy Norway hrd R6 at 5am. (Forestieri)
RADIO SALAMANCA-6.670 hrd with war news from 3-10pm with a R8 signal when not bothered by CW QRN. (Forestieri)

RADIO NACIONAL-10.370 Salamanca Spain hrd signing off at 10pm with a R 6-8/Q4-5 signal. (Lundberg)

---SOUTH AMERICA---

LHX-9.660 Buenos Aires, Argentina hrd at 9:20pm with R6-8/Q4 signals with plenty of QRN from W3XAL on 9.670 mgs. (Lundberg)

HJ1ABP-9.618 Cartagena Colombia received R9/Q5 at 9:05pm. (Lundberg)
HC2CW-9.135 Guayaquil, Ecuador now back on their old freq of 9.130 again (Fred Alfred)
SW-Page:5  NATIONAL RADIO CLUB DX NEWS  January 16 1939

YV4RB-6.520 Valencia, Venezuela received R7-5/Q5-5 at 9pm with some CW QRM. Received call very distinctly. (Lundberg)

YV5RC-5.973 Caracas Venezuela 8:45-9:60pm with a VFB program and received R7/Q4 (Herz)

YV6RB-6.545 Bolivar, Venezuela received at 9:05pm R6/Q3-4 with very much CW QRM. (Lundberg)

---CENTRAL AMERICA---

TIEP-6.690 San Jose, Costa Rica hrd at 8:30pm with musical program with a R9 plus signals. Uses slogan "The Voice Of The Tropics" (Lundberg)

TIJPH-5.825 San Jose, Costa Rica hrd till 11:45pm with very good signal (Fred Alfred)

TGWA-9.680 Guatemala City, R8/Q5 from 10-10:30pm. (Herz)

TGWA-15.170 Guatemala City Guatemala has this transmission beamed on Europe and also works in parallel with TGWB 6.490 mgs. This program is QRM'd a great deal by OZK 15.165 mgs. (Fred Alfred)

TGWB-6.435 Guatemala City, Guate. R7/Q5 from 10:30-11pm. (Herz) Hrd them relaying TGW 1520kc from 10:39-12:15am at which time they signed off. They announced that TGWA 9.685 was on with same program. The announcement were in English every ½ hour with an occasional musical selection announced in English. Can in R7-7/Q4. (Hiatt) R9/Q5 with a musical program at 8:50pm. (Lundberg)

YNLG-6.610 Managua, Nicaragua R6-8/Q4 at 8:45pm. (Lundberg)

YNRF-6.740 Managua Nicaragua R8-9/Q5 at 8:25pm with a musical program and QRM'd at times with CW. Some think this station is YNRS.

HP5A-11.700 Panama City, Panama hrd daily from 7-7:30am R7-8/Q5. (Herz)

HP5J-9.610 Panama City, Panama R7-3/Q4-5 at 9:15pm with a musical program. Must club list them on 9.590 but they are received always on 9.610 mgs. (Lundberg)

---WEST INDIES---

COCH-9.840, 10-10:30pm R8/Q5. (Herz) Always received either on 9.800 or 9.810 mgs. (Lundberg) They are at Havana Cuba.

CMA5-15.550 Havana Cuba hrd testing with N.Y. with a R8/Q5 signal (Alfred)

HII-6.775 San Pedro D.R. R4-5/Q3 with musical program at 8:30pm. (Lundberg)

HIN-6.243 Trujillo City, D.R. R9/Q5 at 9:30pm. (Lundberg)

HILL-6.430 Santiago de los Caballeros, D.R. hrd with a good signal at 8:45pm. (Alfred) Think this station is HILL received R6-7/Q3 at 9:10pm with CW QRM bad at times. (Lundberg) May I chip in on this one. I heard a station, according to my dial it would be 6.450, the other night about 6:45pm and they announced as I took it it HILLS, more fading to make it out clear. (Gordon)

HT7P-6.673 Trujillo City, D.R. R6-7/Q3-4 at 8:15pm. Signed off at 8:40pm. Sundays at 10:40pm. (Lundberg)

HIB-6.670 Santiago D.R. was still hrd at 8:30pm with a musical program on Sunday. Received R8-9/Q5. Skeds say they are on from 6:40-7:40pm daily. (Lundberg)

HIAE-6.455 San Francisco de Macoris, D.R. hrd with a good signal at 8:45pm. (Alfred)

HH3W-9.645 Port-au-Prince, Haiti heard with a lot better signal and gives call and location in English at 9pm. (Alfred)

RADIO MANTHINIKEEP-9.700 Fort De France, Martinique received at 5:50pm R9/Q5 with a musical program. This station is being heard earlier than their usual sked & received with VFB signals. (Lundberg)

---NORTH AMERICA---

XEWN-9.500 Mexico City, Mexico R9/Q5 from 9-midnight. (Herz)

CJCX-6.010 Sydney, Nova Scotia, Canada hrd at 7am with R7/Q5 sig. (Alfred)

WNB-10.675 Lawrenceville N.J. hrd calling Bermuda at 10:45am with a R9/Q5 signal. (Alfred)
I have bought a new receiver. It is the Howard Communication Receiver Model 430. It is a 6 tube superhet and the price is real PB for the pocket book too cost only $29.95: I purchased the set on the recommendation of one of my Ham pals W9LLX of Chicago. In future issues of the bulletin I will give the results of Listening Post Test which I think will be of interest to the NRC members who are interested in a good receiver in the lower price class. The set is housed in a Drawn Steel Cabinet finished in Black silver trimmings. The set is constructed for Doublet or L type antenna connections. It has headphone and Connections for an R meter. The tubes used are 6K8G 6C5 6X7 6Q7G 41 and 5U4. I will give you more news on this set as soon as I have tried it out.

Editors Note

I am sure we are all interested in Leo's experiment with his new set. We all wish him the best of luck in his DXing.

ULTRA HIGH FREQUENCY NEWS

W9XUP-25.950 St. Paul Minnesota R9/05 from 1-1:30pm broadcasting NBC programs and relaying KSTP. They desire reports on reception and all correct reports are verified. (Merton Hiatt) This station has changed its frequency to 26.160 mgs OK this past week. Please take notice. (Editor)

W9XU-26.450 Kansas City Mo. rebroadcast programs of KITE and KOI. On Saturdays at noon EST they have an interesting talk on Televisions and a mail bag program every day at 11am and 4:30pm EST. (Noon and 5:30pm EST) They are heard better here than any other Ultra High Frequency station. (Merton Hiatt) Please note OK about their Tip period on Tuesday.

W9XUY-31.600 mgs 100 watts Omaha Nebraska was heard relaying KOIL and testing for local coverage. Came in R9/05. Although they announced their freq as 31.600 mgs they were received far enough away from the rest of the stations on that freq to not be bothered by any QRM. They were heard from 2-2:40pm EST and they announced they would present selective programs from Mutual and NBC Networks beginning Jan. 1st. Send all reports to Central States Broadcasting Co. Omaha Nebraska.

W2XJL-26.300 New York City R4/03 from 4:30-5:30pm and relaying WOR and Mutual Network programs. QRA for reports is "The Engineering Department Bambergem Broadcasting Service, 1440 Broadway, New York City, N.Y. (Hiatt)

W9XHW-31.600 Minneapolis Minnesota heard from 5:40-6:00pm EST R7/04-5 At 6:00pm W9XHW fades out and W9XP6 St Louis, Mo. can be heard.

-GOOD WILL BROADCASTS (Including Spatari), to be given over W6XKG 25.95 mgs, 1417 South Figueroa, Los Angeles, California.

WEDNESDAY, February 8, 3:00 EST. The Consul for San Salvador will speak. Earl G. DeHaven will be the Master of Ceremonies and Commentator and Hal Klein will send greetings from the IDA, and will also read messages in SPATARI.
To any of you new members interested in DXing on the amateur bands. Don't forget to mail your reports when ever you have any news to me. We want to know what stations you are hearing, what QSLs you are receiving and any amateur news will be appreciated.

---QSLs RECEIVED---

LEO HERZ-Chicago_Ill. Reports two F3 verifications. OX2QY, The McGregor Expedition, Greenland, a VFB QSL as pictured in All Wave Radio last spring, making Leo's 61st country; XZ2DX, whose QRA is F.J.Mustil, Minto Lodge, Hayon, Burma giving Leo his 62nd country.

EARLE HICKIE-Norwood_New York Also reports receiving the nice card of OX2QY, the MacGregor Expedition.

---NOW QSLING HAMS---

LEO HERZ:--Reports that from the latest issue of the Amateur callbook there are a few hams listed as not QSLing to SWL's. They are:

LU4BC, LU7AZ, and VPIBA, so save your IRCs on these.

---CALLS HEARD---

KEITH KILTON-Monticello_Illinois Reports DX to be rather poor there, but he reports several good catches. Hope you will report again Keith.

SWL Hi-Lights

By: Cyrus Will-Editor ------------ 651 Brier St.,-----------------Anniburg, Illinois

---SWL COIIONER---

Well here we are starting another year, so to begin with I want to wish all of you a very happy new year. I hope that during the coming year that I may also count on many letters from all of you members who exchange SWL cards and also those of you who listen on the amateur bands. The more reports and letters I receive the better those columns will be for it is only with every member’s help that I can keep these pages up to date.

---LETTERS FROM MEMBERS---

Robert Botzum, 633 Moss St., Reading Pa. Writes that he QSLs 100% both local and foreign SWL cards, so those of who do not yet have Bob’s card in your collection don’t forget to send yours now. Bob also will swap photos with SWLs in foreign countries only.

Larry Lundberg, 1020 Lowry Ave., Minneapolis Minn. Our very fine SW Editor QSLs 100%. Larry will also exchange photos. If you exchange photos with him try to get him to spell the names of those gals whose pictures are on his wall Hi. Larry sure is putting out a fine column now so send along some SW news when you exchange cards with him.

Peter A. Clarius, 11 Marianne St., Port Richmond N.Y. One of our FB Bob Editors drops me a line saying that he still QSLs 100%. To date Pete has 154 cards from 43 states and 24 countries. He also sends two QRAs from two hard to get states. Both cards are in his files. I have sent both cards. Have not heard from the Arizona one, but the South Carolina one QSLed promptly but requests that his QRA should not be passed any more. Here are the QRAs anyway.

Charles Perkins, Box 350 C, Route 4, Tucson Arizona

Joe Berly, Jr., 107 N. Clemens Ave., Clemson S. Carolina

J. W. Brauer, Williamsville N.Y. Dropped me a line also. He says he does not exchange SWL cards but has received about 15 unsolicited. He says if he ever gets some himself he will answer them, but he doubts if he will ever get cards himself. Thanks for writing anyway OM.

Merlin M Stoken Route 6 Decorah Iowan. Writes that he QSLs 100% on all SWL cards both US and foreign. Merlin would like QRAs from Arizona, Alaska, Florida, Idaho, Wyoming, Delaware, Mississippi, N Carolina, R Island and Puerto Rico. If anyone has 100% QRAs from those states why not send them in so we can publish them in this section. Many of the readers are working to get cards from all 48 states and some of the hard to get states. Your Ed would like to know how to get a card from Nevada.

Merlin also sends some FB QRAs.

Burton W Bostad, 2322 Thomas Ave., N. Minneapolis Minn

Ruxton Reid, 1340 Penn Ave., No., Minneapolis Minn.

Ken Munn, 419 W. Granite Ave., Albuquerque N. Mexico

Wm. P. Miller, 116 Woodhull Ave., Riverhead N. Y.

Harold Pfitzer, 1636 Sutton St., Cincinnati Ohio

R. A. Goodship 171 Kingston Road, Ewell Surrey England.

Sergio Gonzalez, Calle 21 No. 552. Vedado Havana Cuba. Sends a VFB letter and I am sure glad to hear from you Sergio. Sergio QSLs 100% and has a very fine card. He has cards from all states but Nevada and Mississippi and would like very much to have QRAs from these elusive states also. He has sent three cards to a SWL in Nevada but he did not answer. Sergio has a collection of 626 cards from 46 states and 37 foreign countries.

In closing I want to remind those of you with whom I have not exchanged cards that I also QSL 100% anywhere. So send along your card.
