You will get a chance to hear from Ray Edge, John Kalmbach and Tom Carberry, so let's all see what the boys have to say.

A short note from HQ, to all you members! That I owe letters will try an get them out this week, there's been so many Club details that came up in the past two weeks that I haven't had time to write, of course not saying anything about the news you boys are sending in. This keeps up we will need a printing press to take care of the news. In the January 30th bulletin under the Summary of the DX(NRC) activities I had a SOS that we needed 15 more members to make up 100 members to report into the NRC since October, well we need 10 more new members that have not reported so far this year to make the record, what about it boys can't we hear from some of you that hasn't reported yet, send one in for the next issue. LET'S make that 100.

ERLIN N. STEIN-Decorah ,Iowa. Well DX on the FCC tesths hast been very good. To noisy and plenty static and Eastern stations sure didn't come in well at all. On that card that was blured by rain the verice received should be KGBR not KBGR, also I asked if KFM verified. (Rader says no.) Feb. 3 WPPS testing 3-30, KOMO R7 3:45. WLEN DX program 4:09. Feb KFYL DX program 3:30, Feb. 10 reception no good. Feb. 11 KEC R4 3am, KDFB testing 3:42, WPRC FCC test 2:45, WFOR test 3:45. Feb. 12 caught up some sleep. Feb. 13 KVEC off 3:04am EST. DeRosa, Carl Forestieri, Larry Lundberg, Warren Routzahn, Carlo Sperati Letters from Joe Brauner, Peter Clarinius, Ray Edge, Nick Boytan, Harold Burstrom, John DeRosa, Robert Blanchard, Fred Alfred and Ike Davis. So we have enough news here for another bulletin. Hi. You boys will hear from me this week I hope.
FRANCIS KLINE-Quakertown, Pa. Received a card from CMGE stating they would be on the air on Feb. 25 instead of Feb 26 because listeners asked them to broadcast the program on Sat morning instead of Sunday mornings. On Jan. 25 I received a verification from LRA. On Feb 12 Sunday mornings I heard LR3 Buenos Aires around 1:05 A.M. R6 signal I noticed in the last bulletin, some of you got XED back unaclaimed, my letter too came back unaclaimed. I look forward to the bulletin every week, keep up the good work. (We will do our best OK Ed)

RANDOLPH HUNT-Leucadia, Calif. Letter recd today Feb. 14 from Chief Clerk Railway Mail Service, Los Angeles who tells me that NRC Bulletins are now handled first class out of Erie. Chief Clerk has been working on this several months for me. My bulletins will arrive Tuesdays. They have been for the last several weeks. (Thanks OK that was a big help for me at this end, Ed) XELO has broken records for space-on-dial, they use 17 channels in early mornings, WAAM 560 kcs stops them on one side and KXME 840 on the other, at night XELO seems satisfied with 3 channels. KGAA dedicated frequency check to NRC all OK, mention Club five times, I sent letter of thanks and report and have verie. Caught WSYR coming on air Sunday Feb. 5th, verie has been received WOI sends verie and they are clearing new 400 foot antenna tower to better cover mid-west and then I probably will not be able to hear them. Have been sending reports to KGNF North Platte, guess they like them as they dedicated "I Love You California" to me Friday Feb. 3rd at 8:41 am EST and following Friday it was "L2th St. Rag" at 8:10 am EST. This is a daytime station. WAAM KMBD and KGQ use EKGO stamps.

PAT BEILEY-Jamestown, N.Y. Feb 8 WWSW 245 AM for NRC, W6MN at 1225, W6PS at 3:26, KOME on check at 3:45 to 4:00 for a new one. Feb 9 and 10, to noisy to DX. Feb 11 CMCA at 2:55 on 1350, KERN 2:52, CHWJ on 1070 at 3:06 for new one, WSTP on check for second new one in one morning. Feb 12 KID at 3:02, W6AU at 3:25, XECL on 1100 at 4:11 giving QRA as P.O. Box 1414 in Calif (Calexico). Feb 13 WFTC on test at 2:31, a carrier on 1420 all A.M. Zellers started to come on as early as 3:30 today, LA2 XA 4YA and 3YA heard, with 4YA the best, how about Ted and Bill Stone can you catch them now. Feb 14 WFTC on test at 2:33, KTSW at 2:40 on test. Feb 15 KTSW at 2:33, WFTC at 2:40, XEM on 1350 at 3:25 and quit because of the bad noises. New veries are CKCA KVNU KOME for 1041 verified log. Station CJGX changed to 1410 kc now. Station CKNX will DX again on Feb 27th at 3-4:30 am, so their verie says. Station CKCA will DX again on Monday 14th at 4:50 am but they didn't say whether CST or EST as they are in Central zone. KVNU is on 2nd Thursdays at 6:15 EST on check.

TOM CARUZZI-Buffalo, N.Y. DX has been very good here for the past two weeks. I've logged around 25 new stations. Reports out to CKTB W6MN WJG0 WJLG WS6X WS6K W6TS W6DK WC6C W6EX W6VX W67Z and W6NS. We believe all DX'ers and SWLs will find these useful as using the exact postage on your mail will save you money and will also bring more replies because few stations will take the time to answer your report if they have to pay postage due. While speaking of mail your Editor would like to remind you to always put your return address on the envelope and always write addresses clearly. Not heeding such simple rules may be the reason you failed to receive answers to certain reports.

DX CHATTER

The ARRL DX contest are to be held as follows: Radiotelegraph contest, March 4th to 12th. Phone DX contest, March 13th to 26th. We would advise you not to miss these periods as some really F3 DX can be had. During last year's contest we really logged some exceptional stations. Even meters was really swarming with stations so we would advise trying your hand on ten as much as you can over this period. Notes from G1T: HS1EBJ is suppose to be only ham in Siam. The Second All-continent Round Table anniversary clicked on schedule, W4DLH, VU2CQ, HK5AR, VK4JU, SULAM and 35ML all checking in within 1 minute and 50 seconds which is some time for the 54,000 miles covered. (Note the time last year on this same Round Trip was 3 minutes 20 seconds, the time made this year means they covered about 534 miles per second AMG). Some of the Hams report the following phone DX: VS7GJ (14,100) CN1AP (14,270) PK6XX (14,000), ZEBL 14,110 and IINQ (14,275) TF3C (14,130) Iceland, VK7LZ (14,045) CX2C0 (14,100) and the following between 14,050 and 14,100: ZS1EL ZS3F ZS2X ZS6ER and ZS6EB.

--160 METER FONE--

Hal Dutells of Aurora, Illinois. One of our newer members sends us an interesting report on 160 M Fone. Hal who uses an 11 tube RAC Victor set, listens quite often to the 160 M.hams and gets quite a kick out of them. Although there is not much in the way of DX on this band there is plenty of entertainment and you'll get plenty of laughs also. Hal says the 160 M.hams over his way have formed what they call the "Razzberry" Network. He has been in on several transmissions from W9CEQ-W9DFY. One or more of the stations is on daily from 8 to 11 pm. The Network consists of W9CEQ, W9DFY, W9LOE, W9YRB W9MMW W9DEO W9RB W9QYO all of Aurora, and W9PCH and W9TMS both of Batavia Ill. Maybe your local 1 hams such a network
Hal Buttels-Aurora Ill. Reports cards from WR6AY VP3THE W1OXAB OX2QY and a card from VP4GA, Trinidad which he says is a sort of belief or not card. It has a mailed on high seas postmark, also a Boston Mass postmark, a 2¢ Canadian stamp and all from a station in Trinidad, Hi.

PHONE CALLS HEARD

The reporters this issue are: Leo Herz, Chicago, who I hope is recovering from his cold, and two new reporters whom I hope will send in amateur reports regularly. They are Hal Buttels, Aurora Ill. and Robert Blanchard Brooklyn N.Y. Stations marked (*) are on 10 meters all other heard on 20 M.

Beginning with this issue the CW column will be edited every other week. This is necessitated through lack of reports. I heartily urge any CW members to send in a report on what they are hearing if they want the column continued. A column cannot endure without support from the members. A new method of presentation has also been adopted. Under the new arrangement, which is not unlike that being used by the SWCC and the Amateur Dpt., the stations heard will be listed according to the continents in which they are located. Frequencies, time, location and member reporting will also be given wherever possible. Now for DX.

Those reporting for this issue are: George L. Brode, W3HS, Philadelphia, Penna; Nick Woytan, Syracuse N.Y.; and Your Truly.

Well fellows, that's all for this issue. See you again March 6th.

(GOSSIP OF THE MEMBERS) Stan Bruh thanks your Editor for his NOLPO assignment and says he hopes he can live up to its expectations. (By his report he already has. Hi) Stan uses a 1938-9 Tube Zenith with a Zenith doublet antenna which is 60 ft long, 40 ft high and pointing North to South. Stan reports that DX in Pa has not been at its best lately. Eldon Addy says conditions have been fair in Iowa & wants to know why the midwestern fellows cant get together this summer for a get together like the Eastern members of the Nl&Hi. Your Editor has already invited Eldon to the Minnesota DXers Picnic which will be held in July sometime & we do have fun. Just come and find out.
