the erie nrc got to gether made possible through the generous hospi-

tality of harry gordon, mrs. gordon, ed feichtner and max demuling
open its dx fest at harry's home 2:19 with the arrival of the buffalo

members at 2:30 pm. harry passed a few letters around and these were

thoroughly discussed. around 4 p.m., the boys from kittanning arrived

and the discussion then centered on dxing, receivers, varieties were passed ar-

round for discussion, and etc. a delicious supper was then served, after

which all dxing subjects were again discussed. harry presented the mem-

bership list for observation. ed feichtner and a few of the boys decided
to go over to ed's house and get ed's few varieties...numbering over 1000.

upon arrival of the varieties everyone examined and passed comment on

ed's unique collection...we looked at varieties until 11:30 p.m., at which
time we adjourned.

those who attended were harry gordon, max demuling and ed feichtner

of erie, dick cooper, bob cooper and dan yap of kittanning, ray edge

tom carberry jr., hans jacobsen, kay thomas and john kalaback jr. from

buffalo.

any of you fellow members who haven't met harry, max or ed per-

sonally are missing a real treat....thanks a million fellows.

1420 kc., feb. 26 on.

joe becker-hamilton ohio, (fcc editor). rock hill s.c. does not get a radio

station as much as i read in variety.

goldsboro n.c. get a new station on 1370 kc., 100 watts no call letter

yet assigned to them. east carolina broadcasting co.,

kdnc or wegl not listed in latest release of usa stations by the fcc.

for you short wave members "radio mondial" was sent into headquarters

by: fred alfred-london ont. i notice that i fail to give him credit in

the molo reports.

summary of the past month of the nrc activities has been very good

in the honor roll we have over 50 individual reports, with some new nrc

reports, not new members, but just new on sending in reports, which

brings our total reporters up to 92 this year, cant we get some of you

other nrc members that have not reported to send a report or two so

that we can make that 100 mark, how about it fellows.

one more point of interest, our wjbo program and wilbur gelson sure

bought in the replies to the club this past week, we had six dx inquiring

about the nrc through wjbo program of the 19th, this makes i bel-

ieve around twenty so far this year, with two of of new members which

joined the nrc, so lets all give wilbur and wjbo a big hand on his next

dx program.

sorry boys but this will have to be called the end this week i have tri-

ted to get all the news in but it is impossible, have a very nice letter

here from my friend carlo spatari i wanted you to read, but no room.
CARL FORESTIERI-Braxes N.Y. (Last week's report) Reception here has been lousy with a very heavy blowing noise similar to the discharge of compressed air by a locomotive that at times even local reception is badly affected. So no DX at all with exception of a few moments of quite. CAVL on Feb. 11, at 2 am on with an R9 gave the old NRC a good send off at every selection announcing in Spanish and English, KUTA R6 at 4:15, Feb. 12 WFC testing at 4:45cm R9, WMDO R8 at 5:00 cm, WJHL and CHGB both signed on at 4:45 am a good fight with a draw, at 5:00 WJHL signed off and CHGB came in R8 with one selection after another, but announcing at every 10 to 15 minutes with CHGB St Anns. Of the eight stations in the U.S. that operate on 900 kc., only two are further from here than KSEI. According to Feb. Radex I have the following stations completely verified: Ark., Colo., Conn., Del., D.C., Ill., Ind., La., Mich., Minn., Miss., Mo., Nebr., Nev., N.H., N.M., N.Dak., R.I., S.Dak., Vt., and Wyo. As far as I know I have the following stations completely verified, as to active stations: Fla., Idaho., Iowa., Mont., N.C., Ohio, S.C., Va., W.Va., and Wisc. Also according to Radex, 70 of the listed stations are not in my verified log. Of these, 31 are not active (at the time) reducing that to 39 stations needed. Of these 39, I have reports out to 12, so that leaves 27 active stations that I have verification from, or reports to. Incidentally I just got a report out to my first TP in two years. 2YC day before yesterday (15th) Got a report out to an Aussie this morning, and to WLTH on a special test, so maybe DX will pick up a little.

ERNEST COOPER-Brooklyn N.Y. DX was swell all week except Feb. 14/Feb. 17 17 deg, clear. Hrd KFOR on until 2:R7 QMized by KDON and KFBR. Reports out to KOL KMJ KFUR. WNYC testing at 2:24, WGGI at 3:11 R7, XERA now on until 2:30 am. Brooklyn station on 1420 testing no announcements. Overmodulated. Unannounced test on 1430. Feb. 15, Hrd WCOL testing at 4:30 R6. KSUB with beautiful signal on DX from 4-5, during second half hour another 1310 station had their carrier on but still KSUB came thru. No sign of CMAB and CMKS. Feb. 19 DX still swell. WJHL at 1:30 plenty QRV from our friend WIL, mystery station with no announcements at 2:30 on 905 kc between KHJ and KENT. Signed off 15 seconds after playing "Begin the Beguine" and then came back with "Home on the Range" and after finishing that he signed off for good. Anyone any idea on this one. Spanish on 1030 R4 at 2:45, could not identify. Added country #18 on BCB with Colombia HJLABN on 1190 R6-7 until after 3:15. (It was HJLABN, "La Voz de la Victor in Barranquillo Om) Spanisher on 1310 at 3:55 was ruined by WEVD and WHEA, latter testing R7. It always gives me a lot of pleasure to hear some one ruin WJEK and that is what WRA at 1240 on 3:46 R5, then off without announcement. I wonder if anyone can hear CW stations on about 732 kc every AM sending "NIS" and the letters "FB". Probably a harmonic of Radio beacon at Floyd Bennett Field, hence letters FB. It ruins 730 most of the time but I manage to pull KEHE thru it this AM. Also hear WDI's harmonic on 1400 when they are broadcasting facsimile, also WGR's on 1420. To Pat Reilly, the station you heard was WV and it is located in Beltsville Maryland. I didn't know they operated on BCB. Usually transmit standard pitch on 5,000, 10,000, and 15,000 kc. Verbies in from LRA CMGE WMA. WGAU did not hear XEFC as per tip sent by card.

DICK COOPER-Kittanning, Pa. Took a little trip up to Erie way last Sunday and had a wonderful time with the Buffalo and Erie boards of NRC who were gathered at headquarters. Messrs. Ray Edge and Tom Carberry were now acquaintance for me, the rest old ones. A great big "thank you" to Mr. Gordon for a swell dinner. Verbies in from KSAH KGMC KEPY WHAI and KGMC. Reports off to KRE and KSUB for new ones. KSUB hrd well on their DX and KRE was a positive R6 during last half hour of Feb. 18. No sign of CMAB and CMKS also hrd CW signs on 710 which might have been CMKS. Have written to both inquiring as to whether they were on if they stood us up. KPPC was too poor to verify on account of high noise level. Hearing a Spanish station on 905 kc testing in the AMs but no identification. Still hear the one on 835 kc occasionally and think it a Costa Rican but cannot identify. (Had to cut a little OM Ed)
JOE BRAUNER-Williamsville N.Y.Feb.18th.DX good,KSUB received very FB during first half hour,QSA5 R7 QRM from a weaker station at first,later QRN from strong,unmodulated carrier much of time. Air noise level was quite high and this carrier seemed to help KSUB along,blocking a lot of the noise for them.Late KSUB sound like a station with low modulation level. Signal weakened during final part,so did other coasters, during same period.Still audible at 5:09 however. No sign of CMKS on or near 710. Feb.19 KJLABN Q5 R6 until about 3:AM with popular music. As usual no sign of CMAB on the 13th.(or 19th) XEPC QSA3 R6 west of the way, on about 1345 kc. Not very good announcing plan for a DX. Not so hot signal either, as they go now days. But we sure was glad to hear him. Feb.21 KVNU hrd Q4 R6-7 between 5 and 5:30am.Hope you was there OK. New verity, Nifty form reply from KSAM. Nice letters from WOAI WNYC & WHIP, previously verified by card only, also a rather odd card from KVC, not much a veri at best.

RANDOLPH_HUNT-Leucadia_Calif.Feb.21st: Morning paper reports that FCC has ordered license of KJLL,Yuma Arizona revoked. This was my first station verified. KJLL has had in the plumbers since my last report and now they are back to a spread of about 50kes, much better than 17 channels. A bit of a breeze last week and KPVD lost its 250 ft aerial, they were off the air less than six hours. Verity in since last rpt:Are:-KSO KGY KHA KFJI KSUN KGK KFDB KDFW KROY KF10 KOOS WAAF WAJX All but four letters. KDFN verified 3 rpts on one card and join JOHK and JOFF 3 in one letters, JOHK holds record with four rpts, verified on one card. The KOOS letter of verification is from chief Engineer who is W7FJN. KFJI Klamath Falls sent letter verity, they were only N.A. holdout, first reported in 1932 or 33, third report was Jan. freq check, no answer up to time for Feb.check, sent another report and received nice letter in just a few days. Have three 1939 reports out to J0's not easy to keep them coming in for station announcements and call which come when they leave "The Empire Chain" about 3:30am EST.

PAT REILLY-Jamestown N.Y.(The Irish Setter)Feb.15-KELU 1-1:20, KHBC KGU KGMB all good. KFXA off at 3, KORP at 2:57 KXA all am, KEMO on test at 3:40, KITE tested 4:35 but lots of noise. Feb.16 bad buzzing-W0PI at 3:10, KFOX thru W0EJ at 2:50 till 3. W0SC at 3:25, KTMJ on test at 4:10. The three Hawaiians were good. Feb.17 WNYC at 2:50 with auxiliary xctr. KFIR all night because of brd wind storm, LAYA at 3:30 but got noisy after 4am. Feb.18 KUSB at 3:30, W0GL at 3:57, KSUB at 4:06, KIDO at 5:00, 2YC and 4YA good. Feb.19 WJHL at 2:10, KOK at 2:20, KTLA at 2:30, CVTH 2:46, KAMI at 2:50, W0GA at 3:07, W0DO good. CJCH at 3:09, KJLABN on 1190 at 3:10, CFCT at 3:27, W0EP at 3:45, W0N at 4:15 auxiliary xctr. CKNY at 4:20, KGFJ at 4:25, KXA at 4:30 all the Hawaiians good. Feb.20 KVNU on check again 3:02-3:30, KOMA lost all night, KPC at 4:01, 3GI 3YA 1YA 2Y. 2YC 2NR and 2BL were coming thru. Feb.21 Too noisy to DX. Feb.22 Too lousy to DX. Feb.23 Coldest day this year. KFDY tested at 4:15, CFRC tested on 600 kc after 5. All Hawaiians were good. Aussie's and Beckers too weak to copy.

NICHOLAS_HUNT-Syracuse_N.Y.Haven't done hardly any DX here but would like to know what Spanish Speaking Station operated on 1190 kc last Sunday AM from 2 to 3AM playing recordings of Spanish and closing with a waltz selection. (KJLABN OK.) In other reports. ED) Also what station on 1050 and 390 after 3am same morning. (Chuck Nick's report Ed) Intend to make up on DX this week end here. 4 New stations logged are WLT0 WTL2 WOSU MGPC. Verifies in from WSPR and KFDY in card form.

Reception was found to be the best on the east coast judging from the quantity of reports from that section. The furthest point of reception reported was from Seattle, Wash. The station was also hrd in Coral Gables Florida. (Art also sends some info about KVAK, so watch for this announcement later. Ed)

MAX DEMULING-Erie, Penna. NRC Headquarters at Erie was the scene of DX activities Sun. 19. Very successful meeting and a genuine verification gab fest was the order of the day. Buffalo & Kittanning were represented. Feb. 19 Unable to hear XEFC. HJLabN 1YA KMO put in their appearance. Wbur Golson sure has a good word for the NRC and is to be complimented for his generous club spirit. Feb. 20 1YA again. Listened to KPPC from 4:02-5:30 and never pulled away from his freq. TOM CARBERRY-Buffalo, N.Y. Just a short line to let you know that we arrived home OK. Sure had a fine time and some day soon I will be back to finish looking over Ed's veries. The Convention in September is going to have to step some if there going to have as good a time as we had Sunday. A swell bunch of members. Not much in the line of DX this week. WBZBZ writes that they are on the First Mondays each month from 4:30-5:00 AM, Second Monday 3:40-3:55 AM CST.
JOE BECKER-Hamilton_Ohio_How many of you members listen to our special
from WGAU on the 19th, hope that you all did.
Yes Joe I heard our pal Wilbur dedicate a number to you and I the other
AM. (This last broadcast of WJBO bought in 6 replies about the NRC not
so bad, I am saving all that I receive this year and will send them to
Wilbur later. HMG) Hrd KSUB first half hour with pretty good reception,
2nd half was very noisy. They had a wonderful program. Feb. 24 Hrd KELA
this AM but very hard task to get much data, sent them a report and thank
ed them for the NRC dedication.

HERBERT TUCKER-Akron_Ohio_My time has been taken up so much in CPC work
for the IDA that haven't had time to send in a report. (You have did a wonderful Job this year OM.Ed.) However some of
the best verifications are: KEAC WILF CMAK WCOV CPAC and TGMA. Along the
line of CPC, I would like to hear from anyone who hrd the following
programs: EAJ-7 Dec. 18th; Radio-Strasbourgh” on Jan. 8th and CMAB on Jan
2nd (I was unable to try for CMAB on Feb. 18th for the NRC wonder if they
came through then. No OM no one reports hearing them. HMG) Would apre-
ciate if you would try for KGHI on Feb. 26th. (This includes you too
Harry OK will I be there.) and see if it is possible for KGHI to over-
power WIL. It looks as if it will be an impossibility, but that is one of
the purposes of this program. Instead of writing your report direct
station KGHI, I suggest you write to: Mr. B.F. Nallyett, P.O. Box 982
Little Rock Arkansas, probably get a quicker answer this way. Hi. Don't
forget Feb. 26th 5-6am EST, also check-up KOB on Feb. 27th, and KGGM on
March 5th. I also heard KITE WRGA WCPO and HIT yesterday Feb. 19.

PETER A.CLARIUS-Port_Richmond_N.Y. Well here it is this time for another re-
port, but before I get started has any of you guys received veries from CKCV for their NRC special of Jan. 21
and if so who signed them. Recent veries are in from: WIBL WIBM KJR WPEN
WNBF WPG WOGM KLAL LEXL WHDF WHAI all in letter form. Would appreciate
it if some body would tell me how to extract veries from CJRC & WOJO.
((CJRC verified my report of September 4th 1938 OM, on just a thank you
card, that didn't require a reply, Signed by M. Mitchell, the reply was not
mailed till Nov. 7 1938, two months after I sent them a thank you card.
HMG) Rev. Wolfram tells me that WAWZ will be using 1000 watts on their NRC
Special March 15 because they have been operating with 1000 watts night
and day since Feb. 4. As I expect to be pretty busy with arranging for
other specials for the NRC and other club work this will probably be the
last report before the WAWZ broadcast so I am looking forward to receiv-
ing many reports from you NRC members and dont forget those two prizes
. Wonder if our dear old president heard Wilbur Golson (WJBO) dedicate
"Stu" to himself and Joe Becker sunday AM, Feb. 19. (Yes OM I did I never
miss that program, have reported every program there this year. HMG) Hi to
you. For Merlin Steen: WBIL is on each evening Mon. to Sat from 6:00-8:00
PM and on Sundays evening from 8:15-9:15 PM EST this is the only time
they broadcast. WNYC sign's on at 7:00am EST: every morning except sun-
da.y.

ARTHUR BRACKBILL-Lancaster_Penna. I heard KSUB this morning for # 1040
They came in excellent at times, but
most of the time they had severe interference from another station put-
ting their carrier on and off the air. Nothing heard of CMAB. A faint
signal on 710kc who might have been CMKS. Too faint to get any dope of
any kind. Art has 1040 veries so far and expect to make the 1050 this
year. (Good luck OM, hope you make it. Ed).

---LPT-REPORTS---

IKE D.W.I.S-Elkhart Texas: Yesterday permit me to elaborate, was the best morning I've ever experience with reception of the Zedders-NOT Aussies" Yes it was the best I've ever had during my DX career. 4YA & 4YA had R9 signals from 3:00am CST until 5:15am. (This was on the 10th) when they signed off. I dont believe they faded below an R7 a time while I was listening (and I tuned through them and stopped very often during that time). I have heard 15 Zedders in all and could probably of heard more if I had done diligent searching. They were 4YA R9, 4YA R9, 2YC R8, 3YA R7-8, 2YA R7, 2ZB R7, 4ZB R6, 3ZB R6, 1ZB (heard under KJBS R9 sign) 4XZ R5-6, 4XH (heard under X5OK and almost as strong) 2YB R2-6, 2ZA R2-4, 1ZM (heard under W6EWS R9 sign) and 4YO R2-4. Australians heard yesterday (Sat Feb.18) Morning were not up to their usual strenght but here is a list of the strongest (Which were never above an R6) 3AR R4, 4CN R6, 5CK R4, 2CO R5, 2NR R5, 5CL R3-4, 2BL R6, 3L0 R5, 4AO R5, 5RM R4, 3GI R4, 2CY (the new station in Canberra about the best of the Aussies, he reached an R7 on one or two occasions) 2GR R4, (J0AK2 on 870 whipped 2GB most of the time) 5A1N R3, 3VZ R3, 4R R5, 2UE R4, 5DN R3, 2CZ R5, 3HA R3, 2KY R6, 3DB R3, 8CA R6, 4SB R6, 3LK R3, 4LG and 7LA (I suppose) were fighting on 1100 kc 2HZ R6 2NZ R4, 3KZ R3, 2CH R3, 2NC R6, 3TR R6, 3SR R5, 2BM R5, 3BA R3, 4BV R3, 2LF R3, 3GI R5, 4BH R6, 2KO (Hrd under CKwoos R9 signal) 2WL hrd battling 32B and both of them were being batted on both sides by WBN0 and KXYZ: 5MU R2, 7UV R3, and 2MN. That is about all I hrd yesterday morning all heard between 4:00am EST & 6:30 EST, of course you realize I did not hear all of these call letters yesterday morning, but I'm positive of their identity for after all a fellow that has tried to specialize in TP reception should know or be reasonablg certain of an identity of an Aussie, Zedders or Jap., even if he does not hear the call on a given morning, most of these stations and many others besides, I've heard innumerous times, some of them are daily Visitors or almost with some kind of a signal. Any signal below an R6 is difficult to get anything worth verifying.
Hey! What are you fellows trying to do? Hi. If this keeps up OM Harry will have to make 2 bulletins a week 1 for SW and another for the BCB. Boy 0 Boy. I don't now where I can get all the news for this week in this bulletin but I shall try. Might have to leave some of it out though. Pls excuse the slight delay in answering your letters but I received 93 letters in 3 days. Hi. Keep up your fine work Gang. It's a pleasure working with you.

The Story of Radio Ankara

Station TAP, Radio Ankara located at Ankara, Turkey operates on 9,460 mgs using a power of 20 kw. This Asiatic signal is heard penetrating the either every day from 1-5 pm EST. From 1-3 pm there is Native music followed by 1 3/4 hours of International Selections played from recordings. At 4:45 pm a lady announcer reads a series of News Bulletins & at 5 pm the station signs off with the Turkish National Hymn. Practically the same routine is followed daily. Send all reports to "Radio Ankara, Ankara Turkey. This info was supplied by Carl Forestieri, NOLPO # 6. Thx OM.

Mel Oliver-W2XQO (Letter): Bob Hoynes-(Card): Leo Herz-HCJB PKLJR and Radio Martinique: Larry Lundberg-GEJL ICY & 2R04: Joe Brauner-OAX4J: Merton Hiatt-W9XH: Cy Will-IRF: Carl Forestieri-YV1RD & H13X: Fred Alfred-CDI18C & H1LPA...HCLPA verifies with a VFO card. On the right hand side of the card is a fellow sitting on an antenna which is leaning on about a 45 degree angle & he is holding an umbrella in one hand & a wireless bug in the other. Then their are flashes across the card to the left hand side & here is a Hindu standing on a ladder & he is being held up by a monkey. A little farther up the card is a chinsman sitting on an antenna & it is leaning over to. At the top of the card on the right hand side is Uncle Sam: sitting in an antenna as if it were a hammock. It is a very funny card & a very fine addition to the collection (Alfred)

QTA4J sent a MB 15L on a card made up of double postcard type printed in red & black on a white card & signed by Antonia P. Yuzquez, Mgr.

(Joe Brauner)

IRF verified with a white card with blue letter(Cy Will)

SP48-sent a white card with great big letters signifying their call (Bob Hoynes)
Italy is verifying IRF & IXY with the same type of card with only the calls changed on it. The 2RO stations are all verified with the same type of card with the station verified checked. (Lundberg)
