KITTANNING Get-to-Gather By:-Bruce Button-Kittanning Penna. A get-to-gather of several members of the club was held at the home of Dick Cooper's on Sunday, Nov. 12th. Fred Van Voorhees arrived on Saturday and in the evening he, Dan Yapp and Dick visited the home of the writer, Bruce Button. The balance of the crowd, consisting of Ed Feichtner, Max Demulning and Harry Gordon, arrived about ten o'clock Sunday morning and found Cooper out as usual. When Cooper returned he found a bull session going in full swing and this continued until dinner time. Peg (Dicks Wife) had a fine dinner of baked ham, scalloped potatoes, corn, pickles, etc., topped off with pie and cake. (Mrs Dan Yapp was Pegs assistant in serving the meal) O yes! I almost forgot; there was a special dish for Harry: "Masked" Potatoes. In the afternoon the gang went out to the Crooked Creek Dam Project and had a look at that and took pictures. After supper at Dick's we went up to Dan's place to have a look at his receiver. While there Freeze Crum blew in and met the bunch. About nine o'clock the gathering broke up and everyone started for home. I know I speak for all of us when I say that we had a wonderful time. Thanks again Dick. As an after thought: The meeting netted two new members, Fred Van Voorhees and the writer.

NOTICE:-To you boys and Gals in the NRC, if your report does not appear in this issue please do not blame me, but the reason why is this, in the four years that the NRC has been running this is the first time that we have every had so many reports, and every report carries all A-1 news. In the future make all reports as short as possible, and please place all LPO reports on separate paper, do not send in your LPO reports in your personal letter, this will make it easier for us here at Headquarters.

At this time I want to thank each and every member for their support in the VIS/VIC ratings, sorry that so many of you new members came in late and will not be able to make the PRIZE offer of Randolph Hunts in this contest. Maybe Randolph will set up that Date to November 27th and give you boys a chance to get your VIS/VIC ratings in. Also want to thank all you New Members that has entered the S & E Contest, it goes to show that each and every one of you have the interest of the NRC to Heart. Only hope the Short Wave boys get a break in their Dept and the ole band open up. To you SW boys get them reports into the Editor at once. Fill your section next week, lets make this bulletin a bulletin for every one. Note the New Section this week. And note the Editor a real DXer and a real friend.

FRED BURLEIGH-Meriden, Conn. Worked the freq checks in earnest this month for the first time in about four years, and reported to 72 stations (24 replies in so far) The TA's put in an appearance on Sunday morning with Rennes (1040) reaching R8 at times, and English station on 1149 R7-8. Hrd a half dozen more but the signals were not as strong as these two. Sunday afternoon long before dark the TA's were strong on the long wave band also with Paris on 180 a good R8 and with some fine music. Have heard VONF on 640 during the late evening (R8) and they ask for reports. TIPG 625 also hrd well at times but does this bird ever reply ???

RAY EDGE-Buffalo, N.Y. Been doing some more DXing the last little while, have reports out to 60 stations and have received the following veries in form of letters WBTM WOKO WFLB WTCO WAVE WDGY WHEK WBBR WIOD KGWU WDAY CPFJ KFEM. I have 74 reports since the convention at Erie. That ought to be a record of some kind. Sent out 46 for the Nov. freq check. Total veries 322. Boosted it up since August 30th 1939.
RANDOLPH HUNT—Leucadia Calif. Nov.15th-bulletin arrived yesterday on time, I note. Editors remark about me crawling out, hi! I crawled or fell out both yesterday morning and this AM, and I found just what I was looking for, No Australians or New Zealanders coming in, they skip this location when being well heard on the east, been this way for years! Steve Mann made suggestions that might help me get my five missing states and D.C. and I was able to get report off to WJSV for another VIS if verified, that was yesterday, today only J0!'s heard from across the Pacific about 15 of them, stayed up to listen for early eastern U.S. and found them getting out of Ohio with good signals, heard WING WADC and reported to WBSN the last ten selections on the "Early Edition" program, also a fair report to WSPD which came in OK up to 16: seconds before 7:15, never heard a station split a second before! My thanks to Brooklyn Cooper for his kind remarks re my prize for the newcomers to the S & E, NRC has good club spirit. A note for Reilley, intended answering yours of Nov.6th on last Sunday but a bunch of in-laws arrived and blocked the channel od something.

WARREN ROUTZAHN—York Penna. Dxing improved quite a bit so just need some time to get at it. Since last report I logged KVNC and verified WGNR, CMBK WEDC WRWA WJBC and WBBR. Thursday Nov.2 A spick was R7 on 370 at 3:05, WENY R8 3:15 testing new station, KFFY R5 3:45 and a spick on 1190 R6 maybe LSE. Wed Nov/8. Fee. FRED VOORHEES—Grove City Penna. Wonder if you had any luck receiving WMGA or if it just wasn't there. Dick and I didn't get it Monday morning, and I missed again Tuesday morning. Nov.14 I added four more in the hour I was able to be up this AM, KEKD WRDM WRCR and WLOK. I'll be up for about an hour again this coming night to see if WMGA is anywhere around. Will also take a peek at ZPL4, but I know that it is impossible. I sure wish I was home where I would have half a chance for it, but here it just can't be done.

To all you new members that have written in about the VIC/VIS rating. Drop a list of your Countries and count up how many states you have verified, in USA and send a list of all Foreign Verifies to the Editor in charge and he will list your ratings. Maybe Randolph Hunt will extend closing Date to November 27 to give you time to get your list into the Editor. This is not a contest but a Method of listing your BCB Rating, in this way each and every DX will list under the same plan as where in the past few years, there has been many arguments on how to list the ratings of the members. On the old plan one DXer would count his stations different than the next one, one would list New Calls or should have said change in calls, another one would list a station if they change Frequency and Bct. It seems as if some DX would always dislike the total amount of verifies some other DX would have. So we have been looking for a Uniform Method that all DXers could use and Rate their points the same method and way. We have Steve Mann and the Cleveland boys to thank to making this method workable. Also want to thank all you members for the fine co-operation you have given the NRC in the VIC/VIS Ratings. With this type of co-operation we will have a real DX club, as its the members that make a DX club not the Officers. The Officers are a guiding hand, but regardless of how good your Officers are if the members do not report and co-operate the club is not worth a great deal to DXers. So keep up the good work and keep your reports, news and that have you to interest your brother members.

November:

First a little explanation might be in order as to just what this column is for. Well, several of the members have expressed an interest in the stations that come in between 1600 kcs. and 4000 kcs. We believe that enough members are interested to make this column one of benefit and interest to the club members. This week is, of course, built entirely by the editor, but he expects plenty of reports in time for the next bulletin. A glance over this column will give you an idea of just how it will be set up.

2100 WEC RCA Communications Station at Rocky Point N.Y. heard testing 11/8/39 (FVY)

As mentioned, because this column is new, the above information except for the one otherwise credited comes from the editor's set. It will be future practice to list the tips by frequency at the beginning of the column, and then to include members reports at the end much as is done by the Broadcast Band Editors. The location here at Grove City Penna is a college dormitory and is not very suitable for DX but we're doing the best we can. Now fellows, the address is at the head of the column. The rest is up to you.

Mel Oliver reports receiver trouble and also poor DX due to the war. John Brimmer wants to know if there would be any interest expressed in a CW veries contest or having CW veries count as countries verified. Let us have your opinions on his suggestion. Jack Quintrell says as a supplement to Mel Oliver's tip on 160 and 75 m fones. Have heard W1, 2, 3, 4, 5, 6, 8, and 9 on 160 and W1, 2, 3, 4, 5, 7, 8, 9 and K6 on 75 meters. Jack wonders if anyone is interested in a contest to get VaS on 160, 75 20 and 10 phone in one season. Last year he needed only Arizona and UTAH on 160. Got 75 complete; 20 except W, Va and 10 M except Vermont.
