SOS-SOS-Who was the station on 765kc/s from 3:00 AM ON, faded away at 4:15 AM December 14th, 1939. Also who is the station on 605kc., every evening, signs at 12:00 (midnight) Spanish.

WCAR-1100kc/s, Pontiac Mich., is now on the air, was testing December 14 and signed at 3:00 AM EST. Watch for this station as they are planning on a SPECIAL program from 1:00 AM to 5 PM in the very near future.

WTRY-Troy N.Y., informs us that the courts have not completed their judgment in the case. They promise us to let us know in the event the way is cleared for their construction.

KHAS Hastings Nebr., through their Chief Engineer Walter Ely, tell us to look for tests sometime in latter February or early March 1940. They too will advise us of an exact time at a later date.

KUIN Grants Pass, Oregon overlooked our letter of Nov. 17th and didn't get a reply back until Dec. 10 which was just five days after they took the air with their first tests. They give us a schedule that may help a little. Untill Jan. 10th, they will operate until 12:15 AM which I presume is PST. That means we in the east might hear them from 3:00-3:15 AM EST. (The above information was sent in by: Dick Cooper)

So many of you members wrote into HQ about the December 11th bulletin being late. I am sorry about this there's very little I can do about the matter. the Dec. 11 bulletin Left Headquarters at 2:00 PM on Saturday Dec. 9th, The postoffice tells me that the Xmas mail is holding up the bulletin. It leaves the Erie office on time.

D.H. Skotliff—Cheyenne Wyo. (Say there pal is that fair telling me about all that swell fishing out your way, Hi. Yeah I fished out at Rock Spring Wyo. and was in your town for the Rodeo in 1928 EMG.) On with the report:— Local conditions generally poor due to abnormally warm dry weather. Have been able to log a few in the east. Static killed the TP's this fall. Veries seem very slow this season. Latest received being WATL (5 days) KARM KWFT WPRA KTKC (890) WRNL CKCK KTEL WING WDBQ WCAE WKDB and KSD (this completes Missouri for me) Quite a few reports out including KCRJ KGPV KGB WJSV WWAI CFHN WBTM WRAM WBTH WDMJ (apparently new call for WBEQ) WEIO SEEMS TO BE A Beast to all of us practically ruined KVOO for me. Heard WTMA several times coming on the air at 6:30. WSKB can be hrd here very well at 7 AM on Sunday mornings. 10/12/39 New Cuban on 1110kc call heard was Say Emly Kah Ackay—CMKH. CKNX really came thru in fine style for the NRC. KARM came thru fine. KCRJ Jerome was on from 4 to 4:30 testing. WESX came on the air at 6 EST they come in swell. Anyone know where CMKH is located.

HARRY HAWKINS-Manchester N.H. So far this season, reports have been ma-
filed to the following stations (underlin-
ed are verified): MAWZ WHOB XEDH WORC WIP KOR XEX WEGB WBZ WATR KDN
KT WCBX KNOA KV WSEX TGL WAB CMBY TAF CBA ROV XEXM WBAT WJGC WPX
KIUN WJEN CMH GCO BG WPSA WOBK (for second report) KBAR KFRO WHJ
LRA WHB CBL KVOG WAZL WBOY WHG KID WAB, If anyone has recent veri-
fications from WBZ WEX WATR KDN WDPK KROA KVOG WSEX TGL CMH XEXM
WJEN WPX KIUN CMHG KCO, I would greatly appreciate a card giving the
signatures. Of course I would be very glad to do the same for the few
stations verified above, while not as many as I would like or could
have reported, I think there are a couple good ones, anyway. DX is and
has generally better this season than any experienced since 1926. The
TA's are breaking thru, especially the French stations on 742 and 767.
Also the French station on 1040 was heard one morning coming in like
control. But reception is with deep fading and usually they drop out of
the picture about a half hour after sign on. Regarding the Cubans, it is
very evident they are on the move again. Here are Cubans now on 570
640 660 670 740 860 870 kc., of those stations the ones on 640 and 870
sound as Havana. It is either CHCH or GHB on 640 and I am inclined
to think it is the former. Anyway the station must use at least 5000
watts by their signal. The 640 670 740 and 870 kc stations surely are
from 1000 to 5000 watts. Changes noticed are CMG to 690 and CMBC to 780,
just a swap of frequencies... XEFU remains on 935, TIX on 608, ZIPG on
625, will someone please help me on reports to TV596, HJAB, TIXD
XEDA XEFK CMBC GCB XELO CMG XEM???. A Spick is on 648 kc during en-
avings and is expected to be a Central American. The DX Calendar surely
is a honey this year and we really have some good DX to work. About
some of those programs already past, ZPI9 was not tried for because of
terrible man-made QRN at Concord N.H. couldn't get up to hear WBC; same
for WRAL; LS11 wasn't attempted because od QRN, KOVO and CMBL could not
be heard at all; XEDC was too weak; CFPG was completely out of the pic-
ture, not a squawk out of them; missed KFQZ; CFRO (canceled Oct) PRI3
was probably the station heterodyning WAZ-GBZA Charity Program on this
date, Dec 10: CHX was N7 for NRC & Bill Stone/ Speaking about new
stations, WBSX and WMAN have been testing, in early-morning. WOCB isn't
ready yet. WBAX is not operating from Kane N.H., yet. How many of the
boys remember the original WMAN back around 1931. The station was in
Columbus Ohio and used 1210 kc. . .

Kermit Geary-Walnutport Penna. Two kisprints were made in my last report
CMCB is on 1253 kc. and CMAB was located
on 1233 kc. CMKH Guantamana is a new one on 11.0kc. The following addi-
tional frequency changes have been discovered here: CMBC to 780kc; CMG
to 690; and CJK was herd on 995kc., don't know which way he goes prob-
ably to 1000kc., because CMKH is holding forth on 990kc., Cubans near-
ly all seem to be on Chains now. The following Cubans were heard but cou-
l not be identified because they were on the band 670 680 740 870 900 and
950 kc. the station behind WMAN evenings is not L5Z, as might be im-
agined, but another Cuban on the CJK R.H.C. -Radio Havana Cuba chain,
same as CMKH on 680 kc., So Americans can hardly be heard anymore because of
Cubans pounding in on practically every frequency, Since CMKH has
left 1020 kc., another Cuban has been heard there behind KWN. Latest
varies are; letters, WADC WCON(all in green) WBCB WJJD WPSA and WSB; Cards
KVOR WEGA and WNYL Card and letter by air-mail from HJ3ABD. The
wave on 1400 is definitely XEXM. Who is on 1245 kc. every mor-
ing, every morning. (Answers to SOS: Station with Fog-Horn on 750 kc. is defin-
tively on for that time, that's why I thought it was HAG.

No sign of PH3 on 980, but friend Jack Biringer tells me he logged them on 880, the frequency to which they've always been assigned according to him. and that though he didn't hear the call, he heard them dedicate to the NRC. Cubans have been very good evenings. The following frequency changes have been noted: CBIZ is on 1150; CMBZ is on 1010, CMBZ is on 760; CHC on 690; CBBC on 1290; CH?? on 640. The one on 640 is, I think, CKB, but I'm not positive. No sign here of CKL or XEDL this morning. QRM was to bad last Monday to get either CKDI or CMBZ.

RANDOLPH HUNT-Leucadia Calif. New Station starting regular broadcast on Dec. 10th. XEY 1440 kcs. address for mail is P.O.Box 4, Yuma Arizona, station location is San Luis, Rio Colorado Sonora Mexico. The theme is "South of the Border" on air from 7:00 AM to 10:00 PM Mountain Time. Tried to pick up points in S &E out of Northwest during frequency checks, stations were checking with Portland and channels not clear of eastern stations, only reported to KORF and KAST. At times Alaskan KGBU was supposed to check, Florida WJAX was being hrd here. KTOC Visalia on 890kcs. was testing while Arkansas KARK was having frequency check. Honolulu KGMH has been given boost in power to 5 kw when they start to use it they may be heard as well as KHBC with 250 watts. Hi! These two stations took frequency checks on the same old frequencies. Hrd KRBA Lufkin, Texas on check, when reporting this one send self addressed stamped envelope. Al long last got report off to WING. NOTE for Al Bartholomew, have asked KVCV for sked.

FRED ALFRED-London Ontario. (The very capable SW editor makes the issue with interesting dope from the Newfoundland stations sent him by the engineer at VONF-VONG. Tx. Fred) VONF on 640 uses 10 kw transmitter located at Mt. Pearl, five miles from St. John, crystal controlled Canadian Marconi Co., High Fidelity Equipment. Sked is daily except Sunday from 8:30 AM to 1:30 PM and from 4:30-9:30 PM. Special transmissions are sometime given at signoff periods. The Station first commenced broadcasting on March 13 1939 with inaugural programs rebroadcast throughout Canada and Great Britain. They give this authoritative dope---VONF 1195, VOGY 840kc., VOAS 940 kc., which are listed in several magazines are definitely closed down and dismantled and it is doubtful if they will ever be heard again. The Corporation welcomes reports, of which they have received hundreds from all parts of North America and Europe.

HARRY M. GORDON- Erie Penna. Couldn't get CKBQ and KQAN to sucute static and local QRM. Dec. 14 WCAH-1100 kc/s signing off at 3:02 AM EST. LHA-750kc. at 3:20 AM EST. WTH 1400kc., at 3:30 signing off. KHBC-1400kc., came in after WLTH signed. KQAN-1400kc., wss and R6-8 at 3:35 AM EST. SOS--Who was the station on 765kc/s from 3:00 AM on faded after 4:00 AM. 1YA-650kc., at 3:45 AM. KQJ-750 at 3:40 R7-4. KGMB-1320kc/s at 4:15 AM with the best signal I have ever had from them. Nothing heard of KQAN. DX weather here have been very good so far this season, have manage to land a few good ones. Veries in from OAXA4, and several from the states. Hope that we get good weather for the FQN and other DX programs. VONF-640kc., was heard here Dec. 14, but not good enough for report. Watch for that spick on 605 and give us some help.
KERMIT GEARY-Walnutport Penna. Late news... Here's something you might put in the Bulletin for the benefit of the boys who can't understand Spanish. The Mexican station on 1244 kc, on Thursday morning Dec.14 was not XEDL as scheduled but XEAI Mexico City. Call was announced twice at 4:45 AM. XEAI has been on this frequency all night for several weeks now. No trace found of XEDL. XEAI was broadcasting a National Commercial, not a DX program. He did not verify last year.

DICK COOPER--Kittanning Penna. Still hammering away with an occasional new catch. Latest veries are letters from KGBX KXOX WSPB WMAN WTLH KWFT WPRO and WJMOB. Cards from KGHL(foto) WATF WTSP and WAGA. Reports out the last week or two are KGDE KGFL KARA WSOY WMNL WCAR XEHR CHAB KVEC WKBH CKSO WEMP and WCAT. W3AJ gave nice program and I hope Ranny Hunt was listening! What say you West Coast Crab?? Hi. Tnx Jim Walker for helping me out with unidentified station. Regards your Mex. I wouldn't swear that it was XEHR or K. I sent my report to XEHK in Guadalajara as listed in new Radex. It was positively XEH something or other but I couldn't be sure of the last letter. I'll tell you when the verie comes back. Hi. Nothing hrd of CKLN. CFGP was very weak here and I couldn't get a log on them. Thanks to CPC who are already doing a fine job.

MAX DEMULING-Erie Penna. Dec.3 XEFC identified as 3:45. Dec.8th-YV5R4 at 9:30 also a Spanisher on 605, which I am quite positive is a Costa Rican. Dec.10th-LRA on 750 kc announcing at 2:15 followed by his "Fog Horn Stuff" and musical selections. Spicks on 1245 kc which is thought to be XEAI. TG1 at 1:30. Not a sign of PRI3 on 980kcs, but plenty of KDKA. KTBG can be hrd in the clear at 7:21 on Sunday mornings. Also watch for WESX who has the 1200kc clear Sunday morning from 7:00-7:07. Dec.11 Unidentified Spick on 665 kcs at 8:20 PM. Dec.13th WSAJ and WDGM on frequency check. Dec.14 No luck with XEDL or CKLN--Does WGRM verify from Greenwood Miss. Dec.15 Couldn't find KVAN Had to be content to hear WSTH who also intend to broadcast daily on 1370 from 3:00-5:00 AM blocking another channel. Seems to be another Cuban operating on 640 kcs who messes things up prett well there but nevertheless difficult to identify other than being a Havana station. Veries received from: KWFT WPTL WTSP and KOVO.
JOE LIPPINCOTT-East Vassalboro Maine. SOS—What station tested on 990 on Dec.8 with Beer Barrel Polka at 2:44 and again at 3:17 signs were quite good but not good enough for WBZ may have been WBZA. Think of it a dozen TP's were heard this AM Dec.12. 1LYA played "Beer Barrel Polka" and Umbrella Song. Wish I needed its verl. TIP:—TIGHP 605 good evenings along with TIPG 625.
