let's not write them for a verification excepting on their frequency 
check!! Don't give them any false ideas. DEC.18 Believe I hrd LH4 un-

program back in October with the excited announcer was a description of 
the national Auto Races. WNLC saying they will dedicate next months FCC 
check to the NHC. KOVO saying they "will hash out the WDEC trouble" 
I hrd them on Nov.30. Also veriy from WAOB. May I wish everyone a very 
"MERRY CHRISTMAS" and good luck.

DICK COOPER-Kittanning Pa. Recent veries are letters from CHAB KSHO WCAT and WBTM. A typed card finnally from KGFL.

Only new catches of the past week were KVIC on 19th and FCN who broke through for a few minutes on NRC program of 19th. KCRC gave excellent program. CHAB say they dedicate a program each Friday evening (Sat AM in EST) to DXers. Unfortunately this program ends at 3 AM EST and unless they run over a few minutes, they are usually buried beneath the QRM of W11 etc. If anyone needs CHAB, I suggest a look for them each Sat. AM at 3:00. Note that Hawkins came to life again. Hi Harry. The stations you have trouble getting verified that have verified for me recently are KIUN always reply with printed card signed by H.G.Cotten Eng. WAAT sent me a nice twocolor card (no sig) a couple weeks back. Eventually recent veries from any of the others. Have report outstanding to KWVC however. To Max Demaling--yes WGRM do verify from Greenwood Miss. They sent typed card bearing that postmark and didn't mention Grenada. On frequency check they announced Grenada. To Merlin Steen-LDEV do not check as listed in FCC list. I too would like to know when I might hear them Hi. That pile of junk in Scranton Pa. (WQAN) doesn't carry out of their backyard. Rather imagine they still have omthly checks but suppose they aren't getting out your way Hi.

ENRIQUE HIDALGO-Cienfuegos Cuba. Recently appointed instructor of Sports at the local High School (Instituto de Cienfuegos) having nearly 1000 students. This takes most of my time. Also studying by correspondence at the University of Havana and will have to go there to take exams in January. Have arranged for two DX programs from CMHJ 1160 kc., first on Jan. 14 (Sunday morning) from 2-6 AM EST. The other on Feb. 18 same hours. If I am in Cienfuegos I will broadcast them both and if not Sr. Ugalde will take charge of them/ I hope a lot of the NRC members will listen in and send reports. (NOTE: Enrique has been a good friend of NRCers and DXers in the past and is severing a lot of reports. CMHJ is one Cuban station that will never fail to verify your reception if you have a worthy report and enclose the ten cents they ask for. Let's give him a lot of reports. RHC.)

ELDON ADDY-Marcus Iowa. Here is my first report of this DX season. Due to a car accident Oct. 1 I was laid up for two months and didn't do any DXing during Oct. and Nov. Latest catches are KBTM WSOY KIRK WAJL KDLR WGST CBK and WOI. Stations that have verified for me are QA24A WGL WDWS WAGB KOBH KFVO WTLA KLKC and WKBN. Can any help me on XEAI XEAI CFCT XEMO? Follow up reports have failed to gain a answer. Had fine DX programs for the club from WSAJ CKBX CBK CJCY and sent reports to them. CKLN KNAV KBPS failed to show up here on their specials. This AM the 19 heard WBTH KVIC and KOVC, FCN failed to show up here. I over slept for KCRC and so didn't hear him. Cubans sure pound in here evenings but on Specials they fail to come in. Wishing everybody a "Merry Christmas" and A Happy New Year.

ROBERT BOTAUM-Reading Penna. Having trouble with my 9 year old AK. Looks like it shot its bolt. Very poor results with TA's and TP's so far. New stations heard recently CMKZ KAOX KBNB KRBM KVIC WPVW WHIZ WMSL WCAR WJAF WMMG (1100 kc) New veries WHOB WFTL WIWP WSPB KFTT KOIV. Veries now at 1091. Max Demaling (WGRM does verify by letter from Greenwood Miss. QRA to Chas H. Perkins Chief Eng. (Merlin Steen) WDEW does not test on Freq check Skcd. WBBL verie signed by M.A. Sitton (Agent) Those Spicks have me NUTS trying to identify them in early evening. Have been hearing one on 760. I would like to know his QRA. "Merry Christmas" and Happy New Year to all the boys.
BERNARD DUFFY- Staten Island N.Y. This is my first report to the bulletin this season/ The best catches my Admiral Midget brought in since October of this year are: LS11 LR6 LS2 and KGHL. I found reception to be excellent Tuesday morning Dec.19 but although most signals were strong that occasion FN didn't come thru for me. A strong carrier beam on and off on 600 kc., that morning and apparently blocked St.Pierre. I logged the following good catches that morning. CJRC Winnipeg signing off at 1:30. KTTV Phoenix at 1:30 and 2:03. KVOD Denver 2:00. KQMB Mexico asked for reports 4:07-4:30/KCRC DX program came in R7 but faded somewhat at 3:22-. KJES found its way into my log 4:35 that morning. Now for the important part of my report I heard two unidentified stations on 1310 that morning which I trust some member also heard and will be able to identify them for me. I have sufficient data on both to warrant a "veri" so I hope that anyone having the requested information will send it direct to me as soon as possible. (68 Watchogue Rd., Staten Island, N.Y.). The first of those stations was heard at 2:23 to 3:15 AM with an R8 signal that faded badly (and most inopportune) during every station announcement especially all I could understand was that the last of their 4 calls was "c" The other mystery station on 1310 that AM was heard at 4:11-4:16 coming in R3 playing Baby Me 3 4:11-4:14 Memories 3 4 4:14-4:17.

RANDOLPH HUNT-Leucadia Calif. Date of this rpt is Dec 19th so it is not too late to extend 'Season's Greetings' to fellow members of NRC. consider it done! Tried to pick up the 500 envelopes from WSAJ kindly donated by Cooper of Kittanning no luck. On the CKLN NRC DX not much doing, CW from some place was on them over half the program, but did get out a report. Notice a bunch of you'lds heard KUIN Grants Pass testing, I sent air mail report on Dec.5th, no reply! If Dec 11th Bulletin was posted on Saturday the 9th it got here in 9 days. Vernon Steen asks, is KMTR in Los Angeles or in Hollywood, out here we consider KMTR KFUM and KNX in Hollywood, the fact is, Hollywood is part of Los Angeles, the post office is branch of L.A. you no doubt hear KNX announce as KNX Los Angeles, or Columbia Square, Los Angeles or 'The Voice of Hollywood' Recent varies, and number of days it took! KOAC 4, KEUB 5, KQVH 6, KWTQ 6, KORE 6, WBIG 7, WPEL 7, WDAF 10, WJAX 10, WSAI 29, and KVOD 30. Rpts out to WSPD and WDNS since Nov.15, rpt to WDNS went air mail, came than 26 items, inc times, station calls etc.
JOE BRAUNER-Williamsville N.Y. New veris, Letters from WMAN and WMJ, card from WTSP. Long overdue veris, for this season are WING, two reports, XERH WISE WENY WPVA WQMI WKBK & a few Mexicans carried over from last season. Newest stations, WEGX testing at 3:30 on the 7th. WSOY WMJ formerly WBEO WSPB testing on the 16th. CMKZ heard Q5 R5 through the R9 signal of a "radio newspaper" transmitter. CKKX heard Q5 R8 on an NRC DX dedicated to the club and to Bill Stone on Dec.10th. Notice that WBTH is considering an all-night program the schedule to be determined after obtaining their listeners opinion. With all channels now tied up by all-nighters (local channels) except 1370, now threatened by WBTH, and a few clear hours each night on 1200 and 1310, the chances to get small stations on DX test steady becomes less, as the number of all-nighters slowly but steadily increases.

KWIC-testing 1st time, 12/13/30 3:30 Q5/R7... WCAR regular program 12/13 at 7:00 AM.

A weak carrier was on 880 awhile after 3:00 but couldn't identify anything, so don't know if that was KVAN or not. DEC.17 WKRC R7 2:00 sign-off, CBK 2:15 fine NRC DX program. WCKY R9 2:30 with a DX program and mentioned many NRC members names. CMKZ R7 with DX program for the club 2:30-3:00 but a station operating with facsimile garbled it up plenty. WBTH R3 on again. WOL R9 3:33 ending a special broadcast. DEC.19 KJRC R7 3:15 with DX program. Coasters and all nighters coming strong. FQN R5 3:50 but mostly all carrier. Must have poor modulation or something.

MAX DEMULING-Erie Penna. DEC.17th., CMKZ on 1430, through quite a bad jumble. (facsimile) Station with decided English accent on 767 kc... Unable to dig out that station on 1310 at 3:09 to 3:15... SCOTT REID—Wingham Ontario. (Scott writes that there were 39 reports received on the CMKZ DX up to December 17th)
QUOTE:-Up to day we have had 39 reports ranging from 50 miles to 1200 miles. The 1200 miles was Regina, Sask. The report from there dont give any real rating but says"fairly speaker volume with excellent tone and excellent readability some interference at times from a West Coast station. We have had three reports from Kansas, one from Oklahoma, three from Iowa, the others from there east to Rhode Island. All in all that's not too bad for 100 watts and then the temperature was by no means cold. We may have more reports yet of course.

JOE BRAUNER—Williamsville N.Y. Hrd my first long wave BC station this AM, a French station on about 180 kcs. He came in Q5 R5 most of the time untill 7PM, his sign off time. Program dance music. Notice that WCAR signs on at 6 AM daily, has a clear Channel until 7AM and comes in here like a local during this hour. 12/21/39 KORN testing on 1370 until 4:30 Q5 R7. WMGA on at 6 AM coming thru everything on 1370. No luck with FQN on DX here, heard a few long classical numbers on their freq, but no announcements, too much test-
