It is suggested that all members who desire their Bulletin as soon as possible send 5 - 3½ stamps to Club Headquarters so that their bulletin can be sent FIRST-CLASS MAIL starting Dec 5 and including Jan 2nd issue. With not enough help in the P.O. Dept your bulletin will probably be a few days late during the holiday season. It will be mailed as usual on each Saturday morning from Buffalo.

KWON-Bartlesville Okla. Miss Martha M. Boucher of KWON has promised to dedicate KWON's December frequency check to us. WMBR unfortunately will be on during this time but KWON usually come in well enough anyway. Let's all listen for them and send a report to Miss Boucher. Most of us have heard this station but please don't let that stop you from reporting. They are dedicating this program to us - that's the way we can show our appreciation.

Both Len Kruse and Ernie Cooper asked for this dedication.

WALL-Middletown N.Y. Here is one most of us still need. WALL has consented to this half-hour program for our club. Since it was arranged we have learned that WAGL is off on the 2nd Wednesday, so this time may be changed to Dec 9th. If so you will know about it in time, let's hope. This will be a regular DX program. We thank Mr. Martin Karig of WALL for this program and reports should be sent to him. This will be the 4th DX program this year from New York State.

Arranged by E. Cooper

KVAL-Wallace Idaho. We still fasteners if you thought KSL and KBON were tough here is one to tickle your whiskers. Mr. C.J. Crane the chief engineer of KVAL has offered to dedicate this check program to us. We will make every effort to get WHOB to stand by for 15 minutes of this program. Probably the last 15 if they are willing. KVAL is a station most of us can use in our logs so let's not forget them. Reports are very much desired. This is the first Idaho dedication in many a moon. If you aren't successful in logging this program please send along a thank-you card so Mr. Crane will know you tried.

Arranged by Joe Becker.

WHIT-New Bern N.C. Here's one of the new stations and comparatively few of us have heard it. Mr. Glen Neuvile their chief engineer is quite interested in us DXers so let's show him we can make his efforts worthwhile with plenty of reports. It is hoped that WHOB will grant us a 15 minute stand-by. They have been asked but their reply will arrive too late to include in this issue. However if WHIT is hard to log at your location stick around as they may sign off for a while. We appreciate Mr. Neuvile's gesture and thanks to Len Kruse for arranging it.

Remember if it is impossible to tune in our specials, send a thank you card.

Please turn to page 2 as there is an important notice to all members.

All mail received here Friday Nov 27th has been included in this bulletin.
Dave Thomas suggested that something be done for our members who are in the armed forces in regard to when their dues expire. He feels that they who are giving their all in order that those of us who stay here at home might enjoy all the good things we have. The following proposition was submitted to the Board of Directors and was approved by them.

That all of us here who are members remit 25c or more (whatever can be afforded) to the Club Headquarters to be kept in a special fund and to be used only for the renewal of memberships of those members who are in the Armed Forces when their membership expires. This fund will be listed once a month and all those who contribute will be listed along with their contribution. When ever 2.00 is taken from it to renew one of our members who are in the service, that too will be listed so that all members will know at all times just how much is in this fund and how much is taken out. It is hoped that every member who is at home will not hesitate to send in their contribution as it is the least that we can do for those swell fellows who are deprived of their DXing along with many other pleasures that we have at home are enjoying. It must be understood that these must be funds in this before it can be put into action so send your contribution as soon as possible. Dave Thomas has agreed to start it off with 4l. and your editor is matching it, so send in what ever you can afford. You all know that our men in service do not get the pay that we here at home do and 2c. means a lot to them. You can be assured that they too enjoy reading our bulletin which keeps them informed of what is going on in Radio. ACT NOW! DON'T DELAY.

The following is information from Mr. Hobbs who took time off to stop in and see Mr. Legletter of station KVGB in Great Bend Kansas. I found the engineer of KVGB, Mr. Legletter a most genial and friendly person and after presenting as best I could our plight he requested that I write the club informing them of KVGB's side of the case and if you saw fit to publish it in the bulletin. In the first place Mr. Legletter stated he desired to remove any idea that KVGB is not friendly toward its listeners. KVGB does appreciate getting our reports and considers them of much value to the station. But a flood last spring and loss of personnel which cannot be replaced has made it difficult for KVGB to make ends meet. There are only 2 engineers, I believe left on the staff and the station manager is working the controls at the studio. The station has no stenographic or clerical help available to answer DXers mail so it falls upon the engineer to answer such mail if it gets answered. Last spring you recall the FCC gave KVGB a construction permit to move their Aitmitt some 36 ft and a few odd inches. The reason was the flood. Mr. Legletter said it was necessary to move everything out ahead of the flood and that he had taken all unanswered D* mail to his house where it is now stored. He has answered none of that mail and little of the mail since. However if he can find some extra time within the next month he will run through his mail and pick out reports from NRC members if the writers had so identified themselves and give those reports first preference for reply. This was not a gilt edge promise but if nothing interferes he thinks he can do this within the next month. He intends to answer all mail eventually but is nearly a year behind on it right now.

So if you NRC members will have patience there is a pretty fair chance that KVGB will verify for them within the next month or so. It will be appreciated if members will not write Mr. Legletter as he will do what he can without further urging. SO DON'T WRITE ASKING FOR YOUR VERIFICATION.

Under the above conditions us DXers should appreciate that KVGB has other things to worry about right now and I am sure it is the wish of every NRC member that KVGB get a break for the better in the future.

BETTER SEND IN YOUR REPORTS A DAY EARLIER DURING THE HOLIDAY SEASON.
BILL GABRIEL JR.-LAKEWOOD O. Little DX here.reports to KKKK-WHNS~WGST-WJEDX
WTRY-WBAL-WGFC-KOL-XEH-KXYZ-WRC-WJAX-WJBC-WFBC-WJFF-WDBK-WKPT-WKNN-
WEED. Vories in from WTRY-WBAL-KOL-XEH-KXYZ-WJAX-WJBC-WFBC-WJFF-WDBK-WKPT on follow-up.
KXYZ wrote back saying they are located in the Gulf Bldg 5th Floor and
want reports. I asked them about the KXYZ-KTHH situation and the Ch Op
said that KTHH has finally completed their 50Kw job and will install it
soon-as soon as that takes place KXYZ will take about 2 months to move
to 1320 kcs. XEH verified by card,"La Voz de Monterrey" and operates from
6AM-10 PM CWT but can be hrd as late as 1:30 or 1:25 AM on Sunday AMs.
They want US reports very much and all should be sent to P.O. Box 147 in
old Monterrey. To JIM WEDEWER-Yep I hrd HJAI instead of KGNO but thought
it was a mexican till you reported it in the bulletin. Came in R4-5 1/2 and
faded badly. WHRF hrd s-off at 2:57 on 11/22. Just missed it. KTTS
has been testing on 11/20-21-22 of this month. WFMJ-WEED-WNOE and some
other station all hrd 11/21 around 4 or before. WKNN hrd swell on 1st
15 minutes of DX. No KBUR-KBON, guess those westerners just want come thru
that muddle anytime. WJFF hrd on 3rd Mon test 3-3:30 completely covering
WXAL. Hrd a French station on 950, loud for a minute and then faintly
every 10 minutes or so on 11/21 at 4AM and am sure they were a Canadian

LEFTY COOPER-BROOKLYN N.Y. Reports to KXOK-WADB. Vories in from WFLY sig-
signed by Garland Burt, its # 1003. 11/21 Listened to see if KXFL would say
anything about cancelling our tip program but they signed off with not a
mention of it,after-spendng 6½ hrs on the script last Monday night. Do
any of you know of any station which we could all hear that you think
would be willing to take a program like this? I have several in mind-I
wont say anything yet a while want back to bed and set the clock for the
KBUR & WKNN programs and it didn't go off. (you still have to wind up the
alarm Lefty) 11/21 Evening-XFLO over everything on 850 signing at 7:45PM
(7:30 during Dec) WJFL also behind them. Dee sked Sundays 7AM-7:30PM. &
week days 6AM-7:30PM. They should be easy at 6, 11/22 KVOD off at 2AM
KXOK testing carrier at 2 later. They may soon be on nightly until 4AM.
KGVO didn't come thru-were they on? (Say what the matter Lefty, guess
you need a good pair of ears-Ray) Images on R90 of WALT & WNBW very an-
noying/ I get images of WJZ on 650 and WXKR on 1300. I cant understand
this. The difference of the images from the reg freq are all different
so its not the I.F. of the set. WRDW test at 4:05 on their new freq-4180
kcs. WRNL test still with 500 w on 920 at 4:20. WFLY muscle Shools ALA
letterhead gives them as Sheffield and the postmark was Tusculum, What
gives. To ED WYMAN-who were the other 2 you hrd on 1490? blocking KBON
LEN KRUSE-A postoffice Box, I received 1 report and Ray also got 1.
(look at the 3 line above the BCB reports on SW page 2 of Nov 21st.)

JOE BRAUNER-WILLIAMSVILLE NY New DX. WAYS good for a few minutes on 6:30
sign-on 11/17. WPDX 45 R8 at 6PM on 11/18 blocking WXYZ perfectly. KEVE
on regular sked 11/18. Also KFFA on monthly check 3:30-3:45 on 11/19.
Very poor thru WMW-WJKB due WKNN on DX and WSBM R9 at 8AM 11/22. Vories
from WFLY & KICD both letters. No sign of KBUR on DX, sent thank you to
KBUR & KHYN,they desire it for trying under such conditions, had a hard
enough time with WKNN, but they came out on top now and then.

HERB CAMPBELL-ATHENS PENN This AM 11/22, 1290 seemed to have 2 stations
I advertising Fox Furs and couldn't get a single announcement through on
other in 20 minutes. Yesterday couldn't drag anything from KBUR thru WMW
WJKB-former was dedicating numbers to individuals as of yore. Have to go
work at 5:20 and could give WKNN only 4 R9 on what seemed to be one
swell program. Am wondering what Spick put the KO on KPI just after 7AM
Very loud for a few minutes 11/22, (Darn it) I cant seem to find those
Spick lists anymore) W'll Herb guess no one else can keep tract of them
either, they are still looking for XEBN, no one seems to be coming back
with that info since XEAN took over 1050 kcs-Ray)

NATIONAL RADIO CLUB DX NEWS
BCB Page 3 TIPS and LPO REPORTS November 28 1942

The page contains text discussing various radio stations and their frequencies, including
mentions of KBUR, WKNN, WCBW, and others. It also references a Mexican station,
La Voz de Monterrey, and discusses the difficulty in receiving certain programs.

The text is a mix of radiograms and notes from a radio enthusiast's observation log,
mentioning various stations' signals and the challenges in receiving them due to
interference and varying test schedules.
JOE BECKER-HAMILTON O. My sincere thanks to all who are helping make the NRC a success, all members of the NRC should be proud of it, the National Radio Club is the top ranking of the nation. We should have a few more workers to help make it easier on those who are now doing such splendid work. Do not put the whole burden on the few who are keeping the NRC on top, every one should help even if it is only a little. Remember your President has had quite a lot of experiences regarding Radio Clubs, to hold together we must all work together for cooperation. Members of the NRC do not take this little sermon in the wrong attitude, because all that I say is for the good of the club. Sincere greetings to all the members and may all have a lot of good DXing.

Now for my report—Received a card from WJRM saying they are off until after the duration. WALL will play Band selections. They are on from 8AM-MDT 7 days a week and expect to go on at 7AM again. KTTS according to Frank Barker et. al., was to have dedicated their check on Nov. 25th but the engineer on duty jumped the gun and put it on Nov. 11th. Hrd W9BA today at 12:19 PM got the call and 1 selection then a lot of QRM. KWAL will dedicate on Dec. 4th 4:30-5:15. Hrd K9VO this AM, gave the NRC a swell program but faded badly at times. W9NY Hrd very good at times despite W9SW-KJSK. WRHP supposed to dedicate on their Dec check. K1CH comes in here swell in evenings, also hear CHAM real swell at times. I now have heard 1487 and have 1473 verified, looks like tough going for the old Hamilton Nite Owl as I look over my book I have only about 35 to look forward to and quite a few of those have been angling for from 3-12 years especially KBPS and KVOS.

Norm Augurine-Abiqua OR. A little DXing was accomplished on some days before I turned in. Here are the results. KORN test 11/14 2-2:30, copied solid. KTTS also solid on 11th 3-3:20. KJO on the 10th on regular sked, also KABC-KVO. Hrd the KBOON special and copied solid, every announcements and selection for the entire hour. Was bothered here by K9AM in Huntsville testing the list 10 minutes. In other words K9AM tested 11/14 from 3:55-4:15. The KBOON program really rolled tight down this way. Am hoping for some of the other specials for the remainder of the month. However with all the work and taking a vacation over Thanksgiving I wont have too much time. Hope to do plenty of DXing over Xmas. I see in the bulletin that CK3O never verifies, I have 2 veries from them in the past couple years, came in promptly too. Cant get TIBAS very well here this year without the Scott. Sure do miss that Radio. Picked up KICD this am just as they were s-off a test program. Tnsks for starting the Kilo Comments. It sure is a great help here. Can not get any Alakan on 660 but I know that KINF in Juneau was changing freq this year from 1460 to 1060. They might have changed to 660. Will take a careful look and see if that is what happened, if not look for them on other channel. Some of you out East ought to be able to pick them thru KPI which I cant do here. (Hey Norm KPI is on 640 not 660. List of West Coasters on the grave yard channels which are on unote are KGFX-1230; KVEC till 3:30; On 1240, KROY till 3AM not every morning however; On 1340-KPRE till 5AM most AMs, if not WEXL is blocking channel here. On 1400 right now there is no one. This is the best DX channel for us out this way at present. Occasionally KRE is on. On 1450 KSAN is on until about 4:30 or later. It just blocks all stations on that one. Other times WNOE holds forth. WMBK was on 1400 every morning for several weeks but hasn't been heard here in quite some time. (They change weekly with WJAX) Try for KMCL until 3AM on 1400, they just pour in here. KYOS-KDB hold down the 1490 channel here, until 3 and 2 AM respectively. Sometimes W9SW and other eastern stations pick their way thru here. However the most disturbing station is KSTP which always covers this channel from 6AM on, wonder if Art Robb could help me with the verie signar of KPDA. Several reports brought no reply. For ART-KWBD do not share time with KTM. Each has full length xmission. Received Bulletin from KPAS Chamber of Commerce, nothing in way of a veire though.
BCB Page 5

November 28, 1942

J. HARRISON ROUTZAHN-YORK PA. Since my last report I logged WLAY-HJAI-KICD-WKRF-WTAJ. Varies in from WLOG-WTRN-KIDK-WDLK-WLAV. Nov 14 WMBG was testing at 3:20; WBCW at 3:45; WJNC at 4; WLBC at 4:15 and WLAY at 4:20, all these freq checks 2nd Saturday. Could not get KSPN thru 1490 kcs. 11/17 maybe KHJF testing behind WJAL but too poor to log here. KICD were testing up to 3:30; WLOF freq ok 4-4:15 and a call on 1450 kc sounded like KLW, but believe it was a dream and couldn't get KBK thru 1490 kc, but WKNY got thru OK and a thank you card for program on ZST. WJNC test 4-4:15, WJMF at 4:55. On Nov 22 WKRF tested from about 2:30-3:15 with KHJF right on her heels. KMO CLEAN before 3AM s-off, KGVO came in swell.

ED RHODES-HORNELL NY Not much doing but I got a couple of things to ask about. 1st where is WPBC? I heard them this morning 11/23 from 2:30 on. At 2:45 they said This is the Voice of America over WLOH-KXK & WGBK, & this is WPBC and standing by. Then they had humanist same thing at 3AM as at 2:45. Then in English about the African second front. What the heck is it all about? They were Hwy plus. Also what is the uRA of XEWA? And WPBC was on 1410 kcs. How about some info on this puzzle?

LEN KROSJE-KROON 532-Y 8 C A-DBS MAINES IA (NOTE NEW uRA MEMBERS) Very little DX done the past week. What happened to the KBK special? KGVO's special came in swell with a swell show, sent report. WDKW now with 5KW on 1480 kcs with early morning show 4-5AM. on 11/24. The WHT special promises to be swell program, be sure to be on the alert. Only verie in was WLAY. On Dec 1st all stations will cut their power 20%, will it effect DX at all? (Don't think so as it really won't amount to much-hay)

DAVE THOMAS-FRUCTUKVILLA O KBK not hrd on NRC DX but thank you card was sent anyway and asked for a repeat in the future. WKNY and KGVO both hrd on NRC DX. who was station who tested carrier on LBY during and after KGVO's program? XISL was in the background and also KJOA. To Steve Mann The station on 840 is Berlin #2 (841 kcs to be exact) Often hear him after 12:30AM. Berlin #1 and Berlin #2 alternate with English propaganda. Both 100 kW out at present use 60 and 70KW respectfully. ZTE-808 KC; CNR-868; Tunis-868 also; ZTCZ-880. These all the Africans in 800 kc block. WLOF may DX Dec 3rd 1-1:30AM. (Dave why not drop Turner a line, and other is in this issue. Also KAAL was asked about an idea as yours)

JIM CLENERER-WASHINGTON DC-1619 MASSACUSSETTS AVE N.W. No DX yet fellows. My set is due to arrive soon and then I will verify all those easterners I couldn't hear out in Cornland. On another set here I hrd WJAC on 330 at 8PM all over others and WINC-CMCM excellent, WA3A a local here & also WDBJ-WAVA and the NY stations. Letter from my folks say 20 veries at home but they didn't send them yet. I'm anxious to see them. I hope KGU is among them. This is a beautiful town. Am working for Foreign Broadcast Service in the broadcast recording unit as is Roger Legge. Say Jack quintrell how about coming down to see me. Have lots of my veries here and the phone no is National 0084.

ERIC BRISTOW-CHICAGO III. I have received the following veries, KPDN-KGCU KLP-M-HEF-KFCM-HATP-WASG-WJWM-WSB-LACEK-KEAL-KRTT-ILMB-KRTT. Leo tells me that he is leaving for Fort Sheridan on Dec 4th. Our wDC is getting smaller right along. (Yes Leo is going)

BOB HETZEL-STEVE MATUM-WKFL WROUGHTON-CAMP SHIPT TEX. A short turn across the country and here "we Three" still are here at Camp Swift. Finished our radio schooling several weeks ago with really swell graduation exercises. Writing this from the radio truck from which we are now carrying on communications with vehicles in San Antonio. Do little DXing but all three of us manage to hear some of the old favorites on both BCB & Sw. All three of us pretty happy as its the work we like. Radio.

LEO HERZ-CHICAGO ILL well boys I was accepted in the Army and I leave on Dec 4th for Camp Sheridan. I will send my new address as soon as I know it. I am real happy and will try to make a real good soldier. All mail can be sent to my regular QRA until my new QRA appears. (well Leo you can be assured of all the good wishes from all of us any)

It will also be noted that Jack Eiringer has a new QRA which appears at the bottom of page 5. Jack too can be assured that he has the best wishes of us all in his new undertaking.

**Ww NOTES**

Nothing was received from Fred Van Voorhees so far and it is not 6:45 PM Friday evening, Nov 27th. Evidently the mail is slowing up and so it might be wise to mail letters and reports a day earlier so as to be sure they arrive in time for publication. Your editor at Club headquarters doesn't like to hold up the mailing of the bulletin. Saturday is the regular day and having connections with 2 men at the PO makes you bulletin go thru much faster. This method should not be changed as it would delay the arrival of your bulletin.

Here are a couple notes received from Gil Harris of North Adams Mass

4700 ZLJ Kingston, Jamaica hrd coming on the air at 6:13 PM with music and near 6:15 has news in English
