**WNNY-WATERTOWN & Y W** All this station has agreed to come on again this season, with a DX for your club. How about getting up and tuning in and reporting. Let's show them just how many of us can send a real report that will enable a station to determine how far they are getting out. Your CPC Chairman must have gotten his dates mixed as he failed to send in his usual write ups, so I hope I can fill in, not knowing the Chief Engineers name or the Station Manager. However let's report to em all.

**WMRF-LEVIStONE PA** Well here is Mr. Bopp again and we will be looking forward to tuning in WMRF over the very loud program on WJBER. However in the past we have done it and no doubt we will be able to do it again. The time is as you know from 6-7 AM and that is no reason for anyone to miss this DX. Remember to you who have entered the BCB Contest, these stations count and help boost your total score, when the prizes go out, it might mean that you are just a little higher than if you did not report to all the special DXes.

Again this season we are trying to keep our list of up to date Verity signers in order. So please send your list to Marshall Blanchard, 4035 Prairie Ave., Brookfield, Ill. By doing this you can help yourself to getting those hard to get Verities by asking Marshall for the list signer. All you have to do is to write him and enclose a stamp or plain card.

How about entering the 1944-1945 BCB Contest sponsored by your Club. Remember you have until November 1st 1944 to get your entry into the Contest Manager. So it to-day, create a little more interest in your DXing. Competition helps a lot. Norm Magnifre, 609 S Walter, Albuquerque New Mexico.

The N.R.C congratulates the Newark News Radio Club on its 18th season.

1420 W6JLB Detroit, Mich, their new sched is from 6:30-7:30 AM (E Cooper)
1420 W6JAC Johnstown, Pa s/on at 7:45 AM SUN, hrd 10/15 (Nichols)
1420 W7HD Hartford, Conn, new call, new owned for WNBC (EC-DC-Gabriel)

(Continued on next page page 3A)
PAT REILLEY-JAMESTOWN N Y I'm still plugging away for the new ones but have been busy. Finally received CJRL after a follow up. CKEX for afternoon reception. Reports to WINK-KEX-KODY. Log reads 1293 verified now. WSLB and WATW verifies back from NRC programs and KORN reported to. Missed out on WISE because of burned out tube. KODY not hard for NRC but received them on test of 10/16 and XEX also caught on 1230 kc at 2:30 AM on 10/16 with English announcements. Not a think hard from WCBI on 1340 for NRC. Up at 3:30 on 10/16 and missed WJBO. Several times I've noticed that WNOE signs off about 4 AM. Hope they keep it up. (Well Pat they go you one better and sign off at 3AM new-But WHLC now on-tay) Ro; Joe Lippincotts telling about reply cards...Do you know that you can send OUR Double Post Cards to Canada (plus extra 1p stamp on each side) and have it returned to you according to section 37, page 13 of Canada's Official Postal Guide. On 10/17 KAVE was a new one hard here. To those I owe letters, will answer as soon as possible.

CHUCK BENDER-PITTSBURGH PA I am going into the service tomorrow so that finishes DX for this year. I dont know what branch I will be in, but as soon as I get settled, I will drop you a card. I havent reported any more stations since my last report. Verics have been received from KICD and WDS with cards and WJBY with a letter. Outstanding delinquents are WWSR WNBF and WCG, all out since Sept 11th. (Will Good luck Chuck and lets know of you QRA as soon as you know it.)

EDGAR A KOOP-KODNEY Mich Latest verie received is a nice blue card from XEX, its a printed one. (Will Edgar better send in that Verie signer as I know a lot of boys want XEX's verie-Ray) Reported to XELO also.

JAMES MCNAMARA-CLAREMONT N H Verics in from WWSR (Say better send along that verie signer too Jim as that has been a delinquent for many of the boys) Reports out to KDOX-KVOR-KDYL-KPO-MONT-WFVA-WHBC and WMBG. Tried for WJBO but no soap. (No Jim they were not on so wait until info is received and it will be in the DX NEWS.) Don't see anything from Sterns.

PFC S HENRY FRANKEL-PT MONMOUTH N J Got up for KODY but all I could get was a carrier on 1240. Didn't waste the night as I got enough for a report to VITH. I had just a bit of natural CRM but otherwise they came thru fine. My antenna set up is a horizontal loop of switchboard wire interwoven thru half of my bed spring. But for night use I work in the latrine and use the water pipe. I also have coupled the leads to my RF tube grids and I get fine regeneration making the set hard to adjust but extremely powerful.

HANK WILKINSON-BALTIMORE MD I am a DXer from way back to 1933 but havent been able to keep at this hobby all the time as I traveled too much and it was impossible to do anything whatsoever in certain localities. However in February of this year I moved to a fine spot in a suburb of Baltimore and thats when I got started again. After a lay off since the 38-39 season I was able to purchase a new Hallicrofters SX-28 and have had fine results. Actually my DX days have been so scattered its a wonder I never gave up altogether. But the bug seems to be always with me. At one time I was one of the 6 Distric Managers for the IDA and a DX LPO for the Radio News. My interest in DX has always been on the BBC and strictly foreigners. I have DXed on 5w but not much interest there. Have hopes of getting some foreign veries this year. My veries are HIK-ZNS-Trisest(111T) Turin(1110) Milan(1111)-LH8-CX26-Radio Normandie-10-AB-YV1RC-LR5-WKAC-TGW-LRI-L52-CP4-Postes Parisiens-WP,RA-WNLI-HIK-Hollarsburg-V9EJK-10BQ-10BP-KPWX-VK4CG-VK4KH-VK30H and WIAC. This year I've already heard Rabat Morocco-Radio Algiers-several BBC stations at H9 plus and several French stations. I believe the TAs will be in earlier than usual. (OK Hank and this issue of the DX NEWS & freq frolic column should interest you-Ray)
NATIONAL RADIO CLUB DX NEWS

PAGE 4 | FREQUENCY FROLICS | October 21 1944

KCS | CALL | REMARKS
--- | --- | ---
1420 | WSME | Noted, Brazil "Service Mens Station" is on the air from 6AM until MDT mostly with retransmissions and records, 250w (Van)
1440 | KGNC | Amarillo, Tex testing 2:45-3:15 on 10/16. This was heard between this time. (Bristow)
1450 | KLBA | LaGrande, Ore cannot DX according to manager, the former c.e. Murry Durham is now at KTKN at Ketchikan, Alaska (Nichols)
WNOE | New Orleans off as early as 3AM. (Nichols) Heard them announce as S/off every AM at 3AM EWT (Edge)
WRLC | Toccoa, Ga hard 10/19 at 4:15 and announced as being every AM at this hour with Sterling Hospital Plan as sponsor, well it looks bad, WNOE goes off then WRLC comes on. (Pop Edge)
WAFY | Daytona Beach, Fla testing at 8:03 on 10/10 (McLeod)
WGNC | Gastonia, N.C. checks 2nd TUES 4:30-5 AM (E Cooper)
WTBO | Cumberland, Md checks 2nd MON 5:40-6:00 No music (Gabriel)
1460 | KTYW | Yakima, Wash evidently on reg sked now. Runs dance music from 2-2:55 AM, nows 2:55-3AM when they S/off, signal rather weak behind noisy noise level on 10/18 (Nichols)
KTYW | Yakima, Wash is definitely on the air (D Cooper)
1470 | HISC | Trujillo City, D.R. will be a good one. Hrd him on testing the morning of 10/8 from 4:430 AM in Spanish. (Van Voorhees)
1480 | VOUF | o r VAUF Gonder Lake, Nfld, 500 watts with reg service pro(Van)
1490 | EAJ43 | Santa Cruz de Tenerife, Canary Islands, 8 KW puts in a grand daytime signal on west coast of Africa. (Van Voorhees)
1500 | EAJ50 | Les Palmas, Canary Islands now here with 250 watts, fair daytime signal on west coast of Africa (Van Voorhees)
EAJ59 | Cadiz, Spain hrd with what sounds like about 10 KW (Van Voorhees)
1550 | ZYC2 | Caxambu, Brazil recently with CP is now on the air from 4 to 10 PM daily with 100 watts.
WEXQ | Kindley Field, Bermuda on the air, but do not know freq (Van)
1570 | CFPL | London, Ontario hrd at 10PM out here (Yernes)

Well boys there is your Freq Frolic column, boys Fred Van Voorhees certainly sent in some swell dope for you tuners of foreign stations, now lets see you get out and get them. Good luck and many should be heard and you will have a little better knowledge of what you are hearing. OK Fred.

To PAT: - Hello Pat- It was a swell dream, all off. How about a letter-Bill.

ROB GORSUCH-THREE RIVERMICH Verified this season are WISH-KEY-WAJR-WFNC-CJBC-KDMA-WATN-KEEP-CURL and WOSH. Reports out to WJOB-WMEX-WGGA-WKBB-WHOT (strong here, a daytime station regular only 50 miles away)
WINK-WGAC-KGAB-WTPA-KOBY-KFBI-KAVE hrd this morning during freq check program with strong signal on 10/17/ XEOM strong this AM on 1470 with recorded program. Can, or has anyone verified this station recently (Well Bob I reported but still waiting for Varie, over 6 months-Rey) If any one has a verie, the signer please. Who was the strong Mexican on 1150 this AM? (That was KXJP on every AM-Rey) KFBC was hrd and dope is in the freq folries, may be good for Western DXers, no good here in East.

BILL STONE-TORONTO ONT. Well it looks as if DX is out for me. For some time, at least until I get out of the hospital. Anyway have received these veries:- WHOP-WKLA-WIND-WFCI-WJO. No kick et all, sent out 20 reports and received 20 veries, thats 100%. Its now 800 hrd end verified.

ERIC BRIE LOW-CHICAGO ILL It took me just 4 years to get a verie from WBBM. Hrd KODY OK. Friday was a jinx to me, but alarm but clock went running and almost late for work. Working hard as soldiers will is really heavy. Working overtime.
Well from way down here in Panama, Hello to all youse guys. Don't get in the bulletin much anymore, but sure enjoy reading all the DX you boys drag in. Just keep up the good work, but watch out for us guys in the Service when we get back. Will really show you up—Hi. Would enjoy hearing from any of you and I promise to answer. Was swamped for awhile but am all clear now. So how about it? Good luck to you all and good DX.

FRED VAN VOORHEES-WHITESTONE N.Y I just got back this week from a 2 week trip to North Africa via the West Indies and South Brazil. I had the pleasure of visiting WSMC and ZYB5 in Natal, Brazil, WVDI in Cocos, Trinidad, WKBQ in Bermuda (Forgot to ask what freq he is on) and CNE in Rabat, Morocco. That last station is really famous for DXers. He has long been the one African BCB station in the logs of many DXers. Of course I don't have any Africans, but it's a good idea. The C.E. there speaks English fluently, in fact was educated in England. He is a swell person, French but really OK. He thinks a lot of his reports from the US and Canada and says he hopes CNE will get across again this winter. Says he had ten reports from across last winter which wasn't so bad. He also does some work down on the Casablanca station. Says the antenna down there is directional toward the US, so—maybe we'll hear them on 1080 kc this winter. I have been up a couple times this week with no success. The hurricane blew my antenna down, and I don't like to bother to put it up since we are to leave here by the 15th of next month. I went a good one at the new place.

GRANT RATSON-VESTFIELD N.Y. No DX here since last April but maybe the gang would like to know that I am still around Ox Bow Hill. I have been on a night shift (7 to 7AM) as formen for over a month and may have another week of it. So will likely be slow in getting back to DX. Just got the electric motor back from being rewound, burned out during an Electric storm Labor Day (Did Edge falling out of bed at Kittening cause that too??) So my water carrying is over. Still have most of our crops to get in. On 10/12 got home about 7:30AM and tuned the radio for some news and at 7:40 AM still heard KNX on 1070 kc. Wanted Sarnia, Ont but seems Calif is better. Will have to try again.

HEDLEY SIMMONDS-HAMILTON Ont. Have received veries from KODY-KVFPD-KTOK-WHOP-KLO-WIA-WB-KEW-KWBW-WFNY-KROG-WTO-WKAT-WLDS-WLOG-WMBQ-YAGA-WAOV-WPRA-WHC-CME-WTRY-CJRL (on last DX of Sept 23rd) Had considerable trouble in logging CJRL terrific static and carrier interference by some unknown station on 1220 kc who did not send out any music or make any announcements but kept putting on their carrier which was plenty strong here (closing or rather darkening the tuning eye on my set and as soon as they cut their carrier the eye brightened considerably and CJRL came thru stronger) too much static to be enjoyed. Who ever the station was they must have been fairly close to here or they would not have made such a decided change in the color of the tuning eye on the set. Have also logged in past few days the signals of CBV on 980 kc and WBC who are now on 1230 kc. Am looking forward to hearing from them in near future. Have not had much success with the freq checks so far for this season—too much WTH on 1230 and WBBK on 1490 with other 24 hour stations at other points covering the frequencies that I need stations on. Even our local CHML has joined the crazy loons clogging the airways, they have been operating 24 hrs a day for several months and for the life of me I cannot see the good they are doing especially as we have been requested by the powers that be to conserve electricity for the use of war industries and radio equipment is supposed to be hard to get—(W'll Hedley looks as if CHML is off as I haven't heard them the last 2 mornings-hay) (Me to Hedley on your sediments on the allnighters, but WNOB is off at 3AM)
NATIONAL RADIO CLUB DX NEWS
October 21, 1944

**TIPS and LPO REPORTS**

**NEXT MC** LEBOD—WEST PERU MI Have a beaut of a cold but did get in some listening last week and the first of this. New varies from WATW—V9LB—WAGM on last springs special. They didn't have much luck but they may run another. (Yes Newt Phil has contacted them) TO LARRY YARNES—Tax for dope on K9D. W9NF announces return to the air as 10AM to 11:30PM NFLP time which is 8:30AM to 10PM EWT or 5:30AM to 7AM PWT. For this reason I don't think it is V9NF that Botzum hears. V9NF does rebroadcast BBC news at 9PM EWT but they do not use EWT time. They have a quiet period during the day but I never heard them before 5:30PM so couldn't tell you. Incidentally I guess I should explain that it is only my mail QRA which has changed, I am still in the same house as last winter and with the same setup except for the aerial. I now have about 100 ft of 7x22 wire strung WNW—ESE about 30 ft high with a 50 ft lead off the west side. That is as close as I could get to "Pops" suggestions and it works fine. It brings in western stations that never caused a whisper on the set last year. (Glad it works so good) Ray I am getting almost nightly reception of CFCY now that W9RO hasn't a good antenna. Maybe some of the others can hear this P.E.I. Kilowatt while W9RO is down. Tuesday 10/10 netted a fair zipped bunch of TAs, first of the season but they were about all gone by 2:30 AM. BBC on 668 kc—767—804—877—1013 and 1149 kcs. Another station on about 760 kcs which I think may have been Katowice, Poland. It had the usual cherry sound, you hear on SW but wasn't very clear. Several promising howls but couldn't seem to break out in the clear. A very weak station on about 660 kc that I could swear was using English but it disappeared about the time the TAs, so it couldn't have been KFAR. Did catch CJOC s-off at 1:36 under terrific noise but not enough for a report. KICD is one of the new ones I never got before and it came in very well. (They think so too Newt as on their DX 10/17 they announced several times about getting a report on their last DX from 61 miles north of Portland Maine—Ray) However I think conditions are much better this year. Am getting better stuff then at any time last winter, even on the old doublet which is still up. Had planned to make an all-night session but went to sleep about 3:15. What I need is a clock that rings about every 15 minutes.

**JAMES McNAMARA**—LEPBURG, ST-CLARKE MONT N.H. First of all note the NEW QRA. Reports out to W9BR—V9SR—CHS—KORN—W9LX and W9LB. "No various in as I sent the first report out Wednesday the 11th. Had a hard job to get KORN thru W9LB, though after W9LB went off at 2:30 everything was clear except K9VQ once in a while would horn in. Could not hear W9BI at all. Were they on?"

**STANWOOD R. MORRIS—BRADFORD, MASS** Not much time for DX here yet. Various from W9BC—W9XY and W9AC. Hope to get going soon and report some of the specials. The CPC is sure doing a swell job this year, and to think they are only beginning the season. (OK Stan and let's hope you can get in there soon)

**DR JOHN W. KINCAID**—PT-PLEASANT W.WA The following is a Quote from a letter received from Mr. Jose Carrasquillo Jr. As regards my mystery Cuban on 540 here is his Quote: "There is not any Cuban station on 540 kcs. GMW broadcasts on 550 kc and maybe they have crystal trouble sometimes. I feel more than glad to enclose the complete list of Cuban stations and their addresses and skeds in EWT. About the best way to get a verification of Cubans it is my suggestion to write a short letter in English or Spanish enclosing return postage and a detailed report of items heard. There is no special way of getting a verification card, except on your own luck. You mention that many Cuban stations have ignored your reports and requests for verifications. Guess you are right. Many stations are not able to verify and just imagine I am awaiting for a verie from COK since 3 months ago! End of Quote" (OK Doc I will get the list in either this one or next for sure, however I will omit the phone numbers—like to hear from you any time, but during the weekly session don't expect an answer.)
JOE ENZ—BROOKLYN N Y Was up at 3 AM to try for KODY, if they were on I didn't hear them, all I heard was a carrier from 3:45-4:15 AM, then gave up. Hope I'll hear KOIN this AM. To BOTZUM, your station on 640 kc could be CFYC, Charlottetown, P.E.I. on till late as 10 PM. Also would like to let you know that CBK-Watrous, Sask is banging in R-8 from 8 PM on 540 kcs. Did try for ZMS but all I hear is CFYC. Sent a US Govt post card, self addressed and report of reception on last March DX from KWSC. It came back signed by R.E. Baird, C.B.

JOHN D. LONG—DALTON GA Just received my CJRL varie yesterday and it certainly was a nice letter from Mr. Sends. Their call in large red letters at the top. Said he was pleased to send me the letter as a verification. Also, he said he would DX again Monday morning November 27th from 3-5 AM EWT and hoped the signal would be stronger down this way. He's at best wishes to all the members of the NRC. KOIN was hrd the 13th on its DX the first 15 minutes being good then very bad fading. They dedicated it to the members of the NRC. Hrd yours and Phil Nichols dedication on it. They had an hours DX instead of 30 min. WCBI very poor, didn't get report to them. Tried for WGBI this AM but they were out. Hope to heard em this AM.

CPL LEO AND KRUZIE—PT MONMOUTH N J Among my newest logged stations at this location was Buffalo's WBEF and also WGBI. I'm keeping on the alert for WCAN, Scranton that is on the air less than 1 hour a day. Several days ago I visited with Pvt. S. Henry Frankel, also of this camp and from his conversation he's out for some big DX. He tried hopelessly for the NRC Special KODY recently. The CPC is really getting some fine specials. I believe, as Ed Schlechter suggested, a complete list of Freq Checks would be appreciated by the members. It was reported to me that the new Yakima station KYWM was testing last week. Am trying to log as many eastern stations as possible, while out here so we would greatly appreciate the sign-on and sign-off times of the following stations which are mostly DAYTIME ONLY. Please specify Sundays, if possible. VKCU—VHLD—VMBZ—WHJB—WEDU—WCAN—WDEY—WTVF. Thanks Fellows. Logged completely all stations from Conn. Del—Wash D C—R.I. and N. Jersey but from Maine, I need 7, that's bad.

CHARLES ROBINSKIE—SAN FRANCISCO CALIF Well this is my first report to the NRC. DX around here is very good but I just do not have the time to twirl the dials. Only 3 varies so far this season, CJOC—KFXM and WJR. A report is out to KGB and also to KOB, so you can see I haven't done much. Naturally all the 50 kw stations in the East are good but I have them all verified by all the mean babies like WJR—VHO—VBZ—WAF—KDAA—WCAU—WIAS—WBB—DMX which seemed to be humming in here really swell and is starting up again for the last DX season. Also KGMB who came in in mid-evening thru all the QRM like a ton of bricks was verified last season. Most of my DXing was done last season but I hope to get in something this season. I heard HJAN a few months ago and because I didn't verify foreign stations at the time I missed out, but I'm gonna work on all the ones I missed and get on this season by cracky. I'm going to try to verify all Alaskans and Hawaiians. Incidentally during the latter part of last season in fact guess it was around May—June I was hearing a Chinese station on 1450 kcs, this while I was in Los Angeles. After informing the general public in VRC I finally found it was XGOA in Chungking, China, 10,000 watts I'll bet. I never get another catch like that in ten thousand life times.

RALPH JOHANNES—BUFFALO 3 N Y Reported to WDSU and received veries from WATW and WTM, the one that interfered some. Then got a letter from CJRL and complete log for one day and its very interesting, and mentions he will DX again Nov 27th 3-5 AM. Guess I'll enter the veries contest. OK Ralph, I'll give you a call soon, getting over a lousy cold and haven't done much outside the bulletin. Gay)

Boys remember send your Varie signers to March Blanchard. Keep em up.
NATIONAL RADIO CLUB DX NEWS

October 21 -- 1944   TIPS and LPO REPORTS   Page 2

DICK COOPER-KEITANNING IA Only now verie is a letter from WINK. Reports out to WMOH and WHOT. The latter hrd testing 10/13 at 2AM. (Correction it was WMOR hrd at that time* yea Lefty your daffy thats not news but WMOR has been s/ff early. I heard them leave the air at 3AM EWT. KGNC testing on 10/16 until 3:31. Aurora Borealis has been causing considerable interference the past week. Who was testing on 1380 kes on 10/16 at 3:20? without asking any identification. CJRI were pleased with the results of the Sept DX which netted them numerous reports despite the short notice. I have sent Norm Maguire my contest entrance fee and hope a lot more of you fellows have also. I wont be much competition this year since I am not planning to re-verify with the exception of the stations running Special DX programs for us and a few of the check dedications. I appreciated Joe Lippincotts tips on tuning the TAs but to be honest about it, I cant get much kick out of foreign DX. The USA and Canada hold most interest for me and you dont have to worry so much about getting veries from them. In addition to the lists of Stations Logged and Verified as compiled by Frank Wheeler, I'd like to see the lists of Stations Needed by our various members who have large logs. How many of the boys have all the USA verified? How many need 10 etc. Maybe one of our boys that likes to compile figures and facts will volunteer to handle this. In addition to being of interest to the members, it would be of benifit to the CPC in that we could tell various stations such as KGFX that 96% of our membership would like to have the chance to tune in their station. Just an idea--lets see someone develop it.

LEFTY COOPER-BROOKLYN NY Veries in from WJLB-WATW-WKLA and CBJ, the last 2 being new and making my total now 1035. 10/12 Terrible morning for DX and WCOL seemed to be silent. I tried for 31 minutes before KODY finally broke thru the heavy QRN and they then showed thru only in spots but I got a small report on them. KQOS tested 4:15-5AM which is why we advanced KODY to 3:45-4:45; 10/13 KORN had plenty of trouble trying to get thru WJLB and WHBQ but they stayed on until at least 3AM and WJLB signed at 2:30 after which KORN was pretty good. WCOL was absolutely impossible. WHAT was coming in like a local and WEXL could hardly be copied behind them. I didnt hear WJBS Sunday or Monday. Monday morning only a spick could be heard. I hope Wilbur Golson is going to be with us this season. Follows please dont let me down on those reports.

"MR UP PAUL KNIGHT REPORTS AGAIN"

After reading that bit of verse by member Carroll Seth, who also poses as a DXer, we couldnt resist reviving our column in the DX NEWS. Perhaps if Roy can appropriate a little space for us, we'll be in each week with a little "off the record" dope just to keep things in order. Now as to this fellow Seth, they tell a story back in his home town something like this.

Neighbor, Lady: "My son was such a brilliant lad that he read all of Shakespeares works before he was ten years old!"

Mrs Seth: "Ahh, and thats nothing. My Carroll read them before that age in the Original Greek!"

Congratulations are in order for Sid Steele and his newly acquired bride. Sid is a most considerate husband. He advised his bride, dont make any more of those biscuits, dead. The better half queried, "Why not?" and Sid answered, "Your too light for such heavy work!"

Mrs. Nichols: "Its strange your always like this after one of those DX Conventions, Phil"

Phil: "Its the food they give you to drink, dear!"

Well boys things are going swell, all except the 3rd class mail, but that is no big deal, lets put up with it awhile. When those reports in.
Again this week no write ups, no program occurring until October 25th. (Yes, Lefty but this bulletin is October 21st, only 4 days from the 25th.) I have something else for you, though, and I refer you to something below in regard to my opinions and here it is:

DEAR FELLOW MEMBERS:- Mr "Johnny" Walker Wicks, of WATW says in letters to Phil Nichols and to your CPRC Chairman that he received a GRAND TOTAL of 8 reports from his Frequency Check. Mr Cliff Moore of WSLB got 6. Now I'm asking you fellows, do you want DX programs this season? If you do, you will have to do better by these stations. WATW, it was expected was to have dedicated to us every month. They have now changed their minds, and Mr Wicks is wondering if he didn't do right by us on his program. It isn't that it was difficult to hear, it came in almost as strongly as WHBO. So this is a final appeal. Please report to every station which DXes for us. If it is impossible, then send along a THANK-YOU CARD. So come on, neither WSLB nor WATW mentioned receiving any of these. Let's save our hobby. I know you want to do this, and to do it we will have to send reports to all stations who are good enough to dedicate to us. Remember IT COSTS THEM MONEY AND TIME—IT COSTS US JUST POSTAGE.

To all, this sheet will be left out of the bulletins that are sent to the 2 stations that are on for us this week, namely WMNY and WMHP as it is felt that they need not see how many reports NOT TO EXPECT. I too feel that many of us are getting lax in reporting to the specials. It is believed that many feel as if they do not want to report and verify stations, they already have in their logs, but it must be remembered that we do have new DXers who do not have these stations and want to hear them. It is up to us older fellows to keep reporting them or sending at least a thank you card, and it is my idea that when sending that card tell them that you did not bother to report as you already have their station verified but believe that they should know that you did enjoy it. It may be a little on the baloney side, but after all it makes the station think that they were not on in vain. However if at all possible send a report. It must also be remembered that no club can exist without new members, and we are no different as if you follow the top page of "DX NEWS" you will note that new members are joining right along. I am going to suggest one thing, I personally believe it would be a good idea to drop WGEI a line asking them to discontinue dedicating their checks to us account of being next to impossible to hear them on 1340. That channel really is a mess, with WEXL-WHAT-WEMP-KCKN all on at once. If you fellows feel the same way drop a card to Lefty Cooper 438 East 21st St., Brooklyn 26, N.Y. telling him so. Your Editor too has been lax so far this season, but I guarantee to change my tune right here and now, how many of you will do the same, report if at all possible and if not then make up your mind to send that THANK YOU CARD. Thanks a lot—Ray
