KPOF-DEERIVER, COLO. Again this year, as last, we are having a brief series of DX programs from religiously owned radio stations, dedicated to our thoughts of our members in the Service. We have asked that the programs be as non-sectarian as possible, for we do not wish to offend anyone, certainly we want these programs to be inspiring. This program will in all likelihood be on from 3:30 to 4:30 AM for KUOA will be on at 4:30 AM and we do not want these two programs to conflict. We wish to thank Mr. Wesley C. Tomlin for agreeing to this dedication and we believe the program will be a live one. WAWZ, KPOF's sister station is also scheduled to DX Dec 24th, see below. This program was arranged by Sully Sullivan.

KUOA-SILoAM SPRINGS, Ark. Last season this station, owned by John Brown University, gave us a very fine half hour of Christmas carols, and we are looking forward to another such program this season. Mr. Storm Whaley will be looking for your reports and let us all listen to this and the KPOF program. KUOA, being in almost the middle of the country, should be very easy to hear for all of us, so let us be tuned to 1290 at 4:30 AM on Dec 22nd for the John Brown University station KUOA. Arr by Phil Nichols.

WAWZ-Zarephath, N.J. This is also a repeat program, they having put on a splendid live program of hymns and prayer last year for our boys in the Service. WAWZ should be in the clear, clear across the country, so you boys out west ought to hear this program with not too much difficulty. Even though almost all of us have this station verified, please send them a report, and let them know their efforts have been appreciated. Their choir will probably sing for us, as well as other groups, so don't miss this program, which like the others, is to be as non-sectarian as possible. Arranged by Ernest Cooper.

WMBH-Joplin, Mo. Here is a real Christmas morning DX party. Mr. R.P. Meek, the chief engineer has agreed to broadcast this DX Program throughout the entire morning. It will be dedicated to the members of the N.R.C. so boys its up to you to send in those reports. This station too is located very near the center of the US, so all members, both on the east and west coasts should have no hardship in hearing at least part of this program. It being an all night affair you can pick your time to tune in. So that can be used as an excuse for not reporting reception for some part of this DX. If possible you will hear PFC S. Henry Frenkel, as he has promised to be on hand if he can obtain a pass. Mr. Meek is looking forward to this broadcast and many thanks for his swell cooperation. WMBH's studios are located on the main floor of the Frisco R.R. Bldg, in the heart of Joplin. Send your reports to Mr. R.P. Meek, Chief Engineer WMBH. Arranged by PFC S. Henry Frenkel.
NATIONAL RADIO CLUB DX NEWS

KCS CALL REREMARKS
174 . . . . Moscow heard 12/11 at 1:35 AM (Doc Kirk-Pt Pleasant W Va)
191 . . . . Germany hrd well at s/on on 12/11 at 1 AM (Kirk)
200 BBC Drottich hrd very well at s/on 12/11 at 1:30 AM This is my best and most consistant long wave station. I can get him virtually any AM He has a fine signal. (Kirk) / (D Cooper-Kit-
556 . . . . TA showing weakly here after 3AM, is it beromunster? (tenning Pa.
630 C Kov Kelowna B C hrd at s/off 2:06 AM 12/11 (Kirk)
648 . . . . Lyons, France hrd 4:?? AM on 12/11 (Kirk)
. . . . Limoges, France is on this freq, not Lyons (latest FCC info)
658 . . . . German hrd at 4:50 AM on 12/11-(Cologne?) (Kirk)
668 BBC Hrd on reg sked program anytime (virtually) (Kirk)
680 KPO San Francisco, does anyone know the silent period of KP0?? They used to be off Mondays but not at present (D Cooper)
730 . . . . Who is the German speaking TA showing here with excellent signal (D Cooper)
731 . . . . The TA being heard on this freq is probably Soldatensender West, which operates here (Latest F C C Info)
850 . . . . Sofia, Bulgaria hrd 2:15 AM on 12/11. I do believe this has not been reported before this year (Kirk)
877 BBC A beautiful signal any AM. Have hrd as last as 5:30 AM and as early as 2AM. Best BBC this year (Kirk)
. . . . Graz, Austria hrd on 12/11 about 3AM (Kirk)
895 . . . . Lyons, France now operating on this freq, having changed with Limoges who are now operating on 648 Kcs (Latest F C C Info)
995 . . . . Hilversum, Netherlands hrd at 4:00 AM on 12/11. (Kirk)

W/Sgt Al Maley-HIGHLAND FALLS N.Y New veies from WLOL-WBPT-WPIC-WHC
k reports out to KLBC-KABC-WLOP-CKDM-CLUL-ABAH-KTAR-CJUX-KMIR-CLKX-
KTVN-KGMB-WMOH-KHC-CKOV-KEHR-KAPE-VOKS-1WBC-WM-1WKM-WPDC-KPBB-1CKX-
VOX-WOLS and WIMA. About WLOL, I was led to believe they would not verify
as Lefty said they were unfriendly but my prepared post card was signed
and returned to me in 5 days with a remark thanking me for my letter.

Also veies in from KQDY-

JUL ENZ-BROOKLYN N.Y TO LOC KIRK-Guess I am wrong on the BBC on 1149 kc
the announcement is that we've got a new wave set to try out
your methods. TO K COOPER THOMAS-SLIGHTLY, tonks on dope of KGLU, the
other station was KVOA according to a friendly letter from Paul Merrill,
manager of KGLU who said KVOA s/off with "America the Beautiful". Reports
out to KSBW-WIMA-WMOH-CVDC-CKRM-CRN.M. Overseas on WSOB, woke up 4:10 AM
and heard them sign 4:20. WKLA a new one for me, where is it? (Its located
in Ludington, Michigan-Fay) CFRM weak behind XLL, also WFPB testing on 1260
at 4:30 AM. "ISO tx in to Newt McLeod on info on WOB.

RALPH JOHANNES-WUFAO N.Y On Sat Dec 9th heard WOAT-KPAC-KLPM-KWLC-KXYSK
on 1230 kc (not 1340 kc) on 12/13 KLAG-WOOG and got WLOL at 4:11-4:15 when
all of a sudden WBBR came on for a 15 minute check, also got WCCO 4:25-
4:40 on check, also KPHO from 3-4 was rather musty, fading at times but
WBBR came thru WJKK pretty good 2:30-3:30; TO MAGUIRE, TX, WIND crosses
out Gary and types in Chicago, under its signed Victor Voss, c.e.; XEMO
signed off at 2:58 to return at 5:30 AM WPT in English. P.D. made error
and sent my report to Hamilton Ontario instead of Ohio. Received cards
from WBT-WWLC-KMA-WITH and CPMB with Canadian map in back of Toronto
view. Letters from CHMG-KSM-POAC-WBZX-WKLA-KABC-1MHR-WHKN-1WKS(Albany)
KOHM on NRC, then WBBR returned my report with a blank letterhead. Also
letters from WAIN on NRC DX and KLPM. XBO sent blue card and had Box
2-299 as their CIA. C. W. Baker signed KLPM veies, is c.e.

BOB SPENCER again told reports out to KPHO-1WCA-1WFC-KPAC-KLPM-KFVD-CFCO
WIEB. I'm listening to KTHP, that is what I hear under the static which
is very bad last 2 mornings. 12/11 I forgot about the DX and missed CFRP
and KGBC, both of which I have tuned to near, thats twice now done it.
Yesterday I tuned for KSJB on 600 but didn't hear them from 2:15-3AM,
some station was very low and metronormal too, static bad. WIEB came in
for 1st part, second part too much static. "Contact time for KXNE, well they
are coming in 1-9 and very clear so far. SWell program, Hrd you call Ken.
No veies received since last report. (What the better with KSJB, I
get them OK although they were not too loud. -Key) (OK bob any time-Boy)

CONGRATULATIONS TO DR. & MRS. KIRK ON ARRIVAL OF JOHN THOMAS KIRK 12/3
GRANT LATSON-WESTFIELD N Y Not so many reports this time but hope some of these get a verie. 12/4 KICA 3:30-3:45, 12/5 KSAN 3:31-3:54, KVCV on Club DX very enjoyable and at times blocked WCIO, other times not, but only missed about 2 selections from 4-4:58 when WITH signed on. 12/6 Hrd KWJZ 3:39-4:00, at s/off easily logged and to cap the climax, hope its true, KFAR 4:07-4:55 with no static to speak of, the fading rather bad at times. It wasn't London either because it was a that type of program, nor was it a TA I am certain. I'll know if I get a verie. 12/7 2ds 7-7:30PM with R 7-9 signal. 12/8 KORN thru a mess on 1400 at 2-2:30 and here is news, one of the NRC members was speaking, said he had been in the service about 4 months, couldn't get the name but from what I heard he had conducted freq checks. Who was he? (Couldnt have been Harold Hardy from KVGB-7 Ray) 12/9 KPAC testing and asking for reports 5,055-5,20; 12/10 NOTE SW fans, TAP radio Ankara on 9,465 kcs has program for fans 4:25-4:40 PM and hrd here 5-9, so a report to Turkey, hope it gets there. Didn't use any report form, just ordinary paper and no technical data. Next Sun program No 8. Verie's last week from NRC DXes VINN-KORN for 11/10 and KTYW a peach of a letter head; WKLA-KFRO with letter about Longview. Also card verie from KOCA. Al Mason, c/e said a new card should be ready about Jan 1st in case you DXers are interested. Hope CRMA is good in the AM of 12/11. Thought I couldn't DX for a while as my alarm clock went haywire, but my brother fixed it up, Oh boy. TO LEFTY COOPER-Does WHN on 1050 kcs verify ?????????????

WILLIAM H STONE-148 WINCHESTER ST-TORONTO 5 CANADA Please note my new address and here's hoping that you will never have to put Christie St., Hospital on my mail again, for all times, boy I've sure had my fill of hospital. (Swell B, 11 and you can be sure all of us feel the same way) I'm out on 3 months, out Patient, having to report back at the end of every month for reexamination of course should I take a turn for the worse, or not feel I'm progressing as I should, I have to return immediately. I'm just taking it easy although the past 2 days are no cinch with moving. It has played me out, no fooling. So no DXing for the present but I will be looking forward to each issue of DX NEWS. (Good luck bill from us all)

PHIL NICHOLS-E HARTFORD CONN Recent verie's are from WHTO-WRBI-WHHC and WBBB to make me 1170. Complete CBAs in freq frolics. WHTO was caught on a test the AM of 11/4 around 2:10-2:20. What time does Bob Gorsuch use?? I note he said KTKC signed at 1 AM. I heard them same morning from 2:30 to 3AM when they signed. Hrd s/off very plainly. But note he mentions KSAN in clear on 1450 kcs at 1:15 which would be right for Mountain WT. Weekend of Dec 2-5 inclusive best have ever heard. 12/2 INOH hrd very well and Joe Becker did a swell job there; 12/3 KIKC logged definitely from 2:30-3, rather weakly tho; 12/4 Caught WHR testing, logged KYUM-KLDM which was covered by a bad whistle here on its reg freq; check (Hi-Phil, I have my verie back from KLDM on that test-Hey) and WHHC during daytime on reg sked; 12/5 Absolutely best AM have ever seen. Wrote KPAS, got 1/2 hour on that, I believe was KFAI on 660 kc from 3-3:30 AM, wrote KSAN 3:30-4 and finally was successful in getting enough for a report on KVCV's special for NRC altho WCIO nearly ruined my ears. Hope all of you had good reception on WHC special and PLEASE everyone REPORT to em or at least a THANK YOU CARD; In answer to query, Frank Susenery is now a Lieutenant in the AAF and is spending a few days at home before new assignment. Says he will report to DX NEWS shortly. Hope letter from WHTD is last bulletin answers various queries. They absolutely want DX but their reg sked is 7AM to MDT weekdays and 8AM-MDT Saturdays. My thanks to Malley for that swell freq check sked. Know we appreciate all his hard work on it a lot.

December 16 1944 - TIPS and LPO REPORTS

PETER CLARK - STATION ISLAND, N.Y. Well since we go on the Christmas Schedule in the Post Office next week I will get off a little report. Starting Dec 10th my hours will be starting at 8 PM and lasting until 8:30 or 10:30 AM. Depending on the mail-Hi. Well new stations logged since about six months ago are: KILO-CBZ-CHARK-CH-MO-WATW-KGBS-WWVA-CMBK-WFNC-KTTS-CKWS-WHTB-WLDS-ABSBIE-PRL-8 and KGLU-LEOPOLDOVILLE; Latest Verities are from KGLU-KILO-WATN-4KM-WASK-WKLA-WINK-CBRY. On Thursday afternoon Dec 7th I logged WALL in Middletown thru WNHC and was able to send them a half hour report and that same evening at 9 PM I heard a Spanish station on 900 kcs coming in R-7-8 and when they identified it was XEX so I was able to send them a report also for half hour. I do not know if they still verify or not but I sent them a dime any way-Hi. S/Sgt Al Maley did a very fine job with that new freq check list. This brings my BCB log to 929 with 815 verified. As I am writing this I am listening to WAPO on 1150 kcs coming in R-6 at 7:30 PM. Well I guess that this is all for now so I want to wish each and every MERRY CHRISTMAS and a most HAPPY NEW YEAR. (OK Pete and its good to see a report from you. -Ray)

JOE BRAUNER - WILLIAMSVILLE, N.Y. DX continues very good here, but nothing unusual heard beyond the wonderful TA reception which continues. Only new reply is a reprint of the article published in the Watertown Times, regarding WNY's NRC DX Program. KJYW and WELO are overdue. Nothing new added except over the weak end when unusually good results came from the northwest, for the first time in a long time CBK showed a good signal here and was copied for a report and later CKLM was copied thru WRC etc. WLOL-hard at 1:15 thanks to Al Maleys tip in the news, this is one I've been wanting very badly a long time. Had very poor reception with plenty of interference from west coast. And later copied parts of CKCO's sign off at 2AM making 3 nuevo ones and a report to one hard, but never for a report before. CFRN added for the fourth new one in 2 days on the DX. Very poor results here thanks to WFDL whose R-9 carrier blocked CFRN without Mexican aid, during all but the first 5-10 minutes when CFRN's program could be heard with the opening dedication to Joe Becker etc.

HILLING GUSTAFSON - ROCKFORD, ILL. Well here is my second report, this week DX has been one of its best and remarkable I have ever seen in all my 10 years of DX. On own 12/3 the TPs were hard here with unusual strength and imagine they could be well heard over all the static. 4CR on 940 kc was loud and clear and almost could be mistaken for a local. There was another TP on the same freq interfering just a trifle. Believe he was 3ZRF New Zealand, 4CR was the strongest TP on this AM. 1YA was very strong on 650 kcs; 200 was fair on 670 kcs; 2CY was good on 850 kcs; 4GR was coming thru good on 860 kcs but 7HO bothered some and at times was just as strong as 4GR; 2GB was strong on 870 kcs; 880 kcs sounded like 1240 does here in the evenings, yes 4WK-3UJ-1YX all were nashed up on this freq. First one would be fairly good than the other would have the best signal. 5AN was fair on 890 kcs, a clear signal. 2LM was fair on 900 kcs, only 7AD on the same freq had almost an equal signal. They both took turns coming thru with a louder signal; 4RK coming thru with a loud signal on 910 kcs; 2VE good on 950 kc; 5DN had a weak signal on 960 but could be copied OK; 4CA-4MB and 7EX all were coming thru on 1000 kcs but believe it was 4CA that had the better signal strength of the 3; 2KY good on 1020 kc; 2NZ good on 1170 kc; The Aussies and Zedders were really pounding thru on this AM and we heard a easlly as 3 AM EWT; Tuesday Dec 5th was best AM for TAs that I have ever heard. They were loud signals over the whole dial and many heterodynes from weaker TAs. Hrd from 1:30-4 AM EWT, Lyons on 648 kc was loud and clear very good; SVB, Sweden on 1086 was loud and clear. Was actually R-7-8. Boy what a signal, almost like a local. (Continued on BCB Page 6)
LEFTY - COOPER - BROOKLYN N. Y. Verities in from CKVG, INC - CRPV, total now being 1037 verities. 12/5 Up at 4 to try for KVCO, but too sleepy to battle it out with WCOL, so I gave up (Party Line) 12/9 Reception fine again - KGMB coming in R-5 and heard KGGM, WCAZ and WCBC as in freq frolics. A carrier on 660 must have been KFR, but the signal just wouldn't break through. The BBC station on 668 was coming in and after reading bulletin, I'll try to verify him, 12/11 Up for CFRM and KGBS and I got em both. Somebody was interfering with KGMB on and off but I logged him for a new one and it was a tough struggle to log CFRM, but I did it, for another new one. WPL even tho' they are silent on Monday All seems to leave its carrier on and CFRM managed to get thru it some of the time and XRM was in there too. The first 3 minutes of the CFRM program came thru best, during the time KFR was scheduled to check, maybe they acted as a booster, altho I didn't hear. KFRG. I imagine you all heard CFRM in spite of WPL, (Say Lefty the boys say it was WFM's carrier that was on - Hey) Coming shows from KTHA and KTHB along with WAGA look inviting.

ERIC BRISTAN - CHICAGO ILL. I heard the following new stations lately-KRCC-KVSN-KXUB and KUGA. Got a special card from WJAH, should show up in the next listing as I sent in some stations who have verified.

HILDING GUSTAFSON. Cont. Tuned him in at 2:35 AM EST. He still had a weak carrier when tuned in at 6 AM. On 660 he heard a mystery TA. He was weak, have no record of any TA on 660 kc. He seemed to be right smack on this freq. Can anyone help me on this one?? (Are you sure you didn't pass up KFRG?? - Hey) Moorhead Edge on 668 kc had good signal and Marseilles on 749 was weak. On 758 kc a weak TA came thru at times. 767 kc the BBC was good, Brookmans Park was loud on 877 kc. He heard a station on 880 kc, another mystery station. Brussels was weak on 932 kc. SBB, Gotemburg, Sweden on 941 kc had only a fair signal. Poste Parisien was fair on 952 kc. Belfast on 977 was hrd with good signal. Dortmund on 1013 kc had loud signal and was very good at times. Stephenson on 1122 kc was hrd with fair signal. On approximately 995 kc another mystery station was hrd. Had a loud signal at times. A woman announcer was used, her English was like a woman from this country. She didn't have any accent. Does anyone know who this station could be? (Let's hear more)

(Put chuck BENDER - CAMP CROFT A. C. Finally have enough time to take a deep breath, so here goes. I haven't done any DXing since I entered the Army. Have my little Philco with me, but am too busy to lose any sleep. Was home on furlough due to the death of my mother and picked up two more verities. One was a letter from WED and the other a folder from WADC. It (WADC) sent a very nice printed pamphlet but verified by merely scribbling across the bottom of my report "Verified CJS." The bulletin usually arrives on Sunday or Monday and is always welcome (Lot of Good Luck - Hey)

PFC LEO HERZ - ENGLAND Howdy Boys; MERRY CHRISTMAS and a HAPPY NEW YEAR to all the members of the National Radio Club and their Families. May the coming year bring the long awaited peace. As ever your pol, Leo Herz.

THOMAS CARBERRY I3/C IN THE PACIFIC A MERRY CHRISTMAS TO YOU ALL, on a "W" mail showing an Eagle with a Sling Jap in its Claws.

ENSIGN STEPHEN A MANN OGAR A MERRY CHRISTMAS and HAPPY NEW YEAR to all USA ATLANTA the NRC. Please note my new address, we are on the east coast and this is a brand new ship. Expect to be here for a while. I do miss those NRC Gatherings and get to gethers. Where in the heck is that guy, Stringer, anyone know his CHA??

PLEASE REMEMBER WHEN SENDING YOUR ENTRY'S TO NORM MAGUIRE. ALL THAT IS NECESSARY IS CALL-LOCATION-DATE HEARD AND POWER USED. HE'LL DO THE REST.
ELBERT TANGELAND- JUANITA N. E. Quite often listen to Gabriel Heatter in eyes over WGN and I have been hearing a Spick language behind mentioning Cuba. Tonight I heard the voice of WGN, according to lists it has 1000 watts. Not clear enough to verify. Once this station seemed to cover WGN, couldn't even read it.

BOB SPENCER- BUFFALO N. Y. Received the check list and it sure will help out here. We all owe Al Maley a vote of thanks for his efforts. No dice on KQCV here altough WOOL wasnt very loud but the feed was a mess of CIAM and static. First 15 minutes WMHO was perfect but something happened at 4:04, both music and announcements too a crop altough the carrier didn't seem to fade?? Anybody else notice it? (Guess you heard WKLA's carrier-Ray) WKLA came on at 4:15 with their test and covered WMHO right up altough WMHO is just as near. Also reported WKLA. Verifies since Dec 1st include CKPC, CKOC &amp; WKNP on NRC DXes. I heard KPHO and WHS for reports on the 5th. Now I have a mystery station, a Spick on 790 kc. I got 40 minutes of material, recordings in Spanish & English with Spanish announcement, used a 4 tone chime and signed at 4 AM on sun 12/3. Quite sure call started with XR. Could this be XERG??

FRANK JOHNSON- PITTSFIELD N. H. Been so busy I haven't had time to DX much. Since October have verified WSPA finally after 3 years of trying-WNY-WBML-WKAT-WHNP-WGBK-CKPC-WFMD-WNOS-CMKW-WHDE. 12/9 heard KGX-WOMP-VOA-WOL-CBKY so sent reports. Hope I can get CFPN and KFGR. Also received newspaper clipping from WNY as probably you all did. How about DXes from WPAS-WHBC-WBQC? I know there's on a tough channel but they are a lot of DXers in the east and they ought to be heard well enough there. KOH comes in very faint here. I verified them last year, but lost or mislaid it so I've got to get them again to make my 48 states. Is the station on 1149 kcs London? and if it is who do they talk entirely in French & German?

PAT BULLER- JAMESTOWN N. Y. Not much DX this week for me. 12/5 WGR tested at 2:20; 877 kc was good also 1149 kc. Carrier on 895 kc but wouldn't break thru to copy, 668 kc with classical music at 2:50 but too weak to copy. On 941 kc a carrier also too much KJR and KAJ; KPI off at 3:05 AM 12/7 just the foreign language chain of the BBC goes on at 1AM with 977-1052-1123 and 1149 kcs or 307-285-267 and 261 meters as announced at or 2:10; 373 meters or 804 kcs goes on with some program, German-Polish-French-Norwegian-Dutch and Danish used, 12/10 CKRC and CKOV heard for new ones, thanks to tip by Jim Krueger. Noisy today. WKAT tested at 3:05 for Macky radio, 12/11 heard CFPN for a new one and KGBS, both for the club. KNJZ tested at 4:20 on 1240 kcs, but very noisy because of a sleet storm here. No verities back in over a week now.

NORM MAGUIRE- ABBEY, M. C. Heard KORN testing Sat AM and dedicating to NRC. Had a wonderful Christmas program. Who is the station on 650 kcs? Its a Spick behind WGN. Its not TIBAS as I have heard both stations the past 2 nights and TIBAS is still about 655 kcs, even the Wilkinson reported hearing them on 650 kc. This Spick does not sound like a Cuban or Mexican. My logs give neither of these countries as having a station on 650 kc. I believe its a South American, how about it?? (FCC Lists CX-6 in Montevideo, Uruguay as being on 650 kcs with 10,000 watts. -Roy) Set my alarm this morning to try for some TAs but woke up, shut it off and lay in bed for a couple hours, when I got up the TAs are all disappeared, however did have fine reception of TPs. The first time I've heard them since Pearl Harbor, Dec 1st 1941. Aussies and Zedders. Also KFAR is coming thru evenings after XKBZ goes to bed. No sign of KTKN tho and I need them badly. Heard KPBB for first time in over 3 years to get enough for a report. Find in checking over my logs that there are only about 15 stations operating off the Graveyard channels that I haven't verified.

NATIONAL RADIO CLUB DA NEWS

WORM MAGUIRE, Capt. Those left are daytime stations and it's going to be rough receiving them. I suppose the check sheet is going to be put to use and see if I can hear some stations. Have been working nights and day the last week on inventory down at the plant. It's been more than keeping me busy. That is the reason I'm late in getting in the contest standings. I'm now working for another outfit, still as an engineer. I'm with Eton Metal Products Co of Albuquerque. We're making items for the Navy. My only gripe is that my antenna is directed at 2 hospitals about 2 blocks away and they sure kick out the G&M. Also listened this morning to some unknown station on 950 kcs only to find it was KPI's harmonic. Wonder who I am hearing on about 877 kcs? Maybe a harmonic, but I doubt it. Couldn't quite make out the announcements but heard them from 495 AM WMT. Couldn't be a TR at that hour. The station was between 870-880 kcs about 877 kcs, as I said above. (Probably a BBC with 70 Kw. - Ray)(As they are heard here at that hour - Ray) OK norm and its swell to see you are back DXing and have your receiver working, looks as if there are a few more who need their receivers fixed as nothing has been heard from them especially Al Bartholomew - Carroll, Seth, Sullivan and me-Ray)

DOC KIRK - PT. Pleasure W VA. Have just returned from an overnight visit with Dave Thomas. Sure had a swell time there and if any of you ever get a chance to visit him, by all means do so. Here I had only some 4 hours sleep the night before I went down, so I must admit that I had to plead off and go to bed about 3:30 AM. However Dave stuck it out till 5:30 or so. In general noise was bad (static) but the stuff was really coming thru. Long wave Moscow was hrd on 174 kcs with just barely the carrier being heard. Germany was good on 191 kc with some static cutting in once in a while (hrd him s/on at 14 AM then at 1:30 hrds s/on of BBC on 200 kc with a really good signal at least as good as I have sometimes heard due to noise. After that we switched to the BBC where the following were noted. BBC on 668-887 (we listened to this one for half hour or so while we had some coffee and pie about 2:30) and 1145 end perhaps a few others of no major importance as we had both heard them all before and we weren't copying them for verities. Then hrd KTKC s/off at 2 AM for a new one for me. About 15 seconds after s/off of KTKC hrd s/on of Algiers on 941 kc with really beautiful signal. Then we swung over to hear s/off of CKOV at 2:06 again a beautiful signal. Using Beverage Waves could almost completely cut out K6Q and leave CKOV practically in the clear. Again a new one for me. Then down for a tough one (as yet I think no one else has reported this one) Sofia, Bulgaria on 850 kc. This perhaps was the best catch hrd. It really gave one a thrill. Again a new one for me. Then to Graz, Austria or on 887 kc for a few minutes, then to Frankfurt, Germany on 1195 kcs who was just breaking thru enough to give us a few words once in a while. About this time I quit for the night. However Dave kept on for the BBC specials from GFRN etc. Also logged were Hilversum, Netherlands on 995 at 4 AM, German on 658 kc (Cologne?) at 4:50 AM, Lyons, France on 648 kc was also poorly heard about this time. Also A.F.I.A. Algeria on 1176 kc. If any of you fellows have a chance be sure to go to see Dave as I can promise you that you will really have a swell time. This morning left the farm to start back and had to skid in the road and get bogged down in the mud. Dave was with me and he got his car and got me out, next time I will remember to stay in the ruts and not try the smooth spots. So take heed. Have done only a little DX since last report. Tuned but nothing super-special. Hrd WJLS Beckley W Va using 560 kc. I and Dave wonder if the station he hrd on 1240 kc could have been WJLS getting ready to test their new 560 kc station. That's when Dave hrd the WT560 announcement he reported on issue or so ago. Got one verie in what I think record time. KGMB for my report of Nov 17 1944, received by them on Nov 24 and they mailed my verie Nov 24, 1944. (OK on tube dope, when it gets here OK)

WPAG 1050 kc Ann Arbor, Mich will take the air in February.

LICENSEE CHANGE

KVBU to John F. Easley from Ardmorite Publishing Co.

NEW STATION

LEOM-V PERU ME Not a great deal here and I have been catching up
on sleep. Hrd KGBU at s/off on Dec 3 with quite a signal for one that
has to buck WBZ. Tried for KVCH and got nothing, tried again Sat but things
still hadn't opened up. This AM things were a little better and I got
KBFIK nicely for a new one. Took a shot at CJVI but I think they signed
with KEBM. Not a trace of CJOR, just CNR when I could get anything. Man-
gaged to fish KGLU out on 1450 but somebody probably KSAN sure makes a
mess of KGLU. Whole flock of CB's on and most of them loud. The usual ones
one on 635 plus-720-730-740-750 and another in back of the NALZ on
758, one on 767, 2 on 785 plus one on 905 and one on 1040-1085-1113 and
one I believe on about 1105. In addition hotels were behind KPO and WHAS.
2 on 3 others that I couldn't make anything of. Most of the latter fre-
cuencies are approx, but identified. Also heard his KQY-WINK-KALb-KGAB with
nice signals and really plugging NRC. No luck with KFBN except one station
break. Somebody had a carrier on that blocked CFBN; WPIM I think.
Only verie is a card from WAJR, just in.

SGT ARTHUR KOBH-ITALY Sends a Christmas Card to me for all N R C ers.

Announcing the re-opening of our BLOCK LETTER CALL SERVICE, also all
kinds of printing done, letter notes-OWL CARDS. For info write to..
Has NRC mat. Key La Rocque 15 Ellismore St., Worcester 5, Mass.

THRU AND LPO REPORTS
December 16 1944

TOP BGBS-BUFFALO W Y V will finally your editor did some DXing, have reports out to KTHB-KKBS-KRBC-CJKL-KABE-KGBS- CFBN not too good on this one WHFD. Verbs in from KLPM and WMOH. DA really swell this past little while even though some static. Heard KTHB swell the also VKNS including our friend Phil Nichols. He like Joe Becker would make a swell announcer. Joe Becker says WMOH received about 40 reports which isn't too bad but it could be better by a good margin. VKNS and KTHB should receive a good number of reports because I believe they could have been heard easily on either coast. Total verbs new 339. Will be up for CFBN this AM so another report. Looks as if I took a drop in the contest. Well the verbs should start to roll in soon, don't expect to finish up on top but I will try to get higher than eighth, so look out you lads that are now ahead of me, or should I look out for those below me?

Congratulations are also in order for Lt Frank J Susorney of the Army Air Force. Frank you can be sure of the good wishes and good luck from all of us in the NRC.

To Doc Airk, looks as if we might have another DXER in the Kirk family with the arrival of a son. But guess we will have to wait a few years at least until he can turn the dials. Good luck to John Thomas Kirk.

To all the other boys who have gained promotions in our services, you too have the best wishes and lots of good luck from us all. Sorry that in our quest for a good BGB Bulletin we passed some of you up, but it was done intentionally. Will try to keep up with you boys from now on.

Well this is every thing that has come in, including Thursday. I waited a day longer this week account of a big snow storm here around Buffalo thinking it might have help up part of the mail. Remember the WEDNESDAY.
