**DX CALENDAR**

**DATE----CALL----LOCATION-------------------KCS---CLUB------TIME ALL EST-----**

MAY 1 CB-138 Santiago   Chill  1330 NRC  3:00 - 4:00 AM

CB-138 SANTIAGO, CHILI. The write up for this DX appeared in last issue but we want to remind you again that all reports should be addressed as follows L.E. Brain, Gerente, Radio Estacion El Mercurio CB-138, Santiago, Chili. In case you are not able to hear this DX remember send a Thank you Card.

At this time it should also be remembered that if you did not send a Thank You card to Station WW5W for staying off the air from 4:15-4:30 on for our KWOR DX, do it now. KWOR had clear channel from 4-4:30 by this.

KGFLL

The following information was received from S/Sgt Al Maley regarding the new policy of verifying by station KGFLL. Mr. Unger has finally attained Mr Whitmore's consent to verify reports on his frequency check signal, provided the following provisions are complied with. Please do not send any reports that do not come up to specifications for they will not be acknowledged and may later result in some unsavory correspondence, that will in turn once again revert KGFLL back to the ranks of "NON-Verifier". The provisions are admittedly rather difficult to meet as it would require practically 100% reception to meet them, but at least we do have KGFLL turning in the right direction. I would suggest sending a letter of thanks to Mr Unger for his efforts in making a verification from KGFLL something more than an impossibility. **The provisions are:**

1. All requests for verification must give the following; a. A general idea of the content of the announcements, particularly the first and last.
   b. A description of the "fill" between announcements.
   c. The program identification number.
2. A reply card prepared for signature, should be sent.
3. Reports must be postmarked not later than midnight of day following the frequency check.
4. Reports should be addressed as follows; Melvin E Unger-511 West 16th Street, Roswell, New Mexico.
5. A special DX Frequency Check will be designated as the next regular check at 2 AM Mountain Standard Time, SUNDAY MAY 5 1946. ($ AM EST or 5 AM EDT)

In letter from Norman F Kriebel to Maley, The station CMJM in Ciego de Avile has been deleted an according to notification CMJM at Camaguey is licensed on 1270 kcs at the increase power of one KW, however, the usual accompanying notification of the prior frequency(1340) being deleted was not given. Hence, the dual entry. I am unable to check by actual listening on which freq CMJM is really transmitting but would imagine it is 1270 kcs. Although CQ is transmitting on 1460 kcs, no notice has been received that it has abandoned 760 kcs. Many times these have been experimental and they after a time gone back to previous channel. A Cuban on 720 kc, no info here.
HILDING GUSTAFSON—ROCKFORD ILL Many thanks for the kind words of sympathy from the Officers and Members of NRC. The passing of my Mother was about the worse shock I’ve had in my life. Doing no DX not but veries are coming in good now. Latest are KSAI, Saipan—BLA 1—LZB—HCJB Ecuador and Radio Algerie. Radio Algerie operates on 941 kc from 10:30 AM—12:45 PM and from 4:45—6:30 PM on 2nd Wed, 30 AM—4:00 AM EST. The Algerie verie made my 2nd African and still have one more African report out.

JACK QUINTRELL—WASHINGTON D C Was discharged last Tuesday from Uncle Sam's Army. Will send a complete report soon. (OK Jack and next issue May 18th) Wonder if veries from WCMA—WKZ—WGV—WFOY—WLAT have been coming thru? Last 3 are my worse offenders. Have verified a few new ones, WAGC—WMCL—WTBN—WMOX—WCMA—KNE—KTH—WNVA etc. My worst 2 offenders are WLAT—WAD cant get a reply out of any of them. Trying to buy a good receiver—any ideas Boys?? Best of DX and will try to make Labor Day Convention. (OK Jack and make a good try as we expect it to be the biggest yet—Pop) ERA 1912 "M" St N W.

ARNOLD GERRARD—MISANSBURG O Veries not in yet from KENO—WPPG, KDTH yes. WHIT—WRLC others this week. No WBOR—WNVA here either. Watch KGVL are still on after 3, also watch 1490 for WFXY, Frankfort, Ky, hrd 3/2 and on 1450 kc for WXL (guess you mean KXLR Arnold) 7 Rpts out since Mon, all new to log. Glad to get list of new stations.

TED SALTING—ESTACADA Ore The list of new stations is swell. I have 10 of em so it looks more like a full years DX than just a summer job for me. I do look the band over most every week thru the summer and find some good DX especially from the North. I'll let you know of it. Pleased to hear CMHK verified as I have a report out to them on their 1/28 DX. Was unable to pull in WWFG DX, did hear KVAK now and then when the Northern Lights would permit. KINY was testing and asking for rpts at the same time. Will be interesting to note who heard them. May be well to note that they were on 4/1 or first MON. Out here Alaska reception best in Spring and Fall and good in summer too, but seldom hrd in winter. Have not hrd KFQD since last fall and KFAR only once this winter. I now have a total of 229 veries with 35 rpts out. Some with whislers but I get a surprise from an old one now and then. KVMV testing at 4AM on 4/4 and KFLW testing and asking for rpts since 3/25.

NORM MAGUIRE—STAMFORD Conn DXing has been at a stand still for some time. But a few veries have trickled in, some of them are Algerie—WNVA—Hilversum—WSTC—CJAD—WFIN—KDTH—CUCA—WRH. Got WFIN and KDTH on Specials. Hrd CMKY with difficulty over week end, also KFUSO. However have been listening mostly to 10 meters. We are planning to be on hand for that Labor Day Convention. (OK Norm and we will be looking for you two, so be on hand—Pop)

STAN MORSS—BRADFORD MASS Veries from WPOR—KMAC—CMHK for NRC DX and a letter a swell one from Emsora Nacional I Lisbon, Portugal and signed by Manuel Bivar, Technical Director, also sent sked of stations. (They are in Freq Frolics) The letter was in Portugeese and was for a January report.

BOB BROWN—GOSHEN IND Received card veries from KVFL—KHC—WCHS—KDTH—KSL who say they now verify and no restrictions are on. Signed by Rollow C Kimball (Operation's Eng) also sent a book put out by the State of Utah and on their new studies. Letters by KDTH—KNA—WINK—WRL—WJAG—WMC—KICD—CMKY—KSCJ—Reports out to WMVG—KBX—WHKY—KFJ—KODY—XEB—XEO—KHAS. 3/25 WMVG at 2:30 AM WINK 2:40; KBX 3:05 and WHKY 5:05, this is my 3rd rpt to WHKY—3/28 KFJ at 4:30; Unknown on 1570 kc 4:40; WJHO 5:05; 4/1 KODY 2:10; XEB 2:20; XEO 2:35 and KHAS 5:35.

S HENRY FRANKEL—BROOKLYN NY now have veries from CKNM—WSTC—WTOP with reports to WGBB—WFL—WIP—WWVA. Built myself a doublet antenna on roof with 2 conductor shielded leadin wire for my S—41. Getting excellent results on SW and bob also shows great promise, been too lazy to try for early AM reception. And keep those trigger fingers off shotgun, I'll find Lefty soon

JACK FORBES—ALBERNI B.C. Was to the studios of CJAV and chatted with the owner, Harold Warren, seems quite a few of the boys have been in contact with them for a test but they never got around to it during the construction period in which they only tested with tones, except on one occasion when Portland Ore was their farthest report on a recorded test. Rpts should be sent to Station CJAV—Box 1140 Port Alberni, BC and they sign off 4 AM EST. Mr. Frank Eckersley is chief engineer. They may broadcast a test next fall and if I am around this part of the country will try to arrange date. (OK Jack and your bulletins will be coming to your new QRA—Good luck—Pop)

BOB HETZEL—MILWAUKEE WISC Not much DXing account of not receiving my new receiver, dont expect it till early part of June. In meantime I am using a small 5 tube set to log some of the local stations and than I will have more time for real DX next season. Now have rpts out to WGES—WLAQ—WEMP—WJIN—WBBQ—KLFM—WORLD—WWDP—XEG—WNW—KPG—WSUS—WJBB. KFUO came thru good—CMKY was hrd but were jammed even after WSMB s/off from station on both sides of band. WOI came back with a card—KDTH a nice letter. 2 Cards verifying 12/20 and 2/24 and I have letter for 1/28 from CMMK. Guess they were waiting for the cards to be printed. The Overture over stamps says in Sp and Eng "Buy Cuban Sugar" I would be glad to buy 10 pounds, but who's got the stamps?

Nice letter from HCJB and verie for SW program. Sent out 65 rpts and rec 48 veries, a lot less than last year in both columns. Hold outs are TGW—CMZ—KGHL—WDWS—KECA—XERB—SW TGOA—WLOG—KFRZ—WGBK—KSG—KFUO last 2 are later ones, also WKLA—KOTA but I dont need them.
