We wish to acknowledge the following renewals with us for another year: Clarence Lee Mustoe; Alan E. Arnold; Carroll Seth; Ted Weiser; Dr. John Kirk; Herb Campbell. We thank you all and wish for you the very best of DX.

**IN THIS ISSUE**

We give you the new frequency check list, latest out, and most accurate ever. Next week we will have more additions to it, also a few deletions, for they keep changing, even as it is being prepared.

The above information came to us from Ray B. Edge and Erick Johnson. We wish to thank both for their courtesy in sending this information in, so that we might give it to you first. Its original source, is, of course, "Broadcasting" magazine, which in turn gets it from the F.C.C. a lot faster than we receive the F.C.C. releases.

Well, here we go, back to regular weekly issues again. Your co-operation is requested again, for without your reports, we wouldn't have much to give you. So let us all keep this in mind, and keep sending those reports in every week. Especially those of you who haven't written in lately, let's have something for the next issue. The deadline as you no doubt know by now is every Wednesday in Brooklyn, and every Friday in North Girard. So, let's know what stations you are hearing, and how you are hearing them, and DX News will always be chock full of the latest and most interesting information. We want to thank our regular reporters for their continued support, and we only wish that the others would follow suit. Will you? Thanks, and read on.
Try to be an active instead of a silent member this season, including my entry in the DX Contest. The past year managed to increase my varis total by 25%. So far have 20 reports out for the month of September. The last 3 or 4 days has seen a big improvement in atmospheric conditions and West Coast stations are being heard well. Recent reports out to WTNS WDBR WBMF WSGC KHBB KJAJ WBAC WREX FINA WOFI KVOD WPTR WJUL & KGFR. Latest varis in from KCMC WFMN KOLN WABN KOKC WFBG WJMB WGNR KEWE WERD & WYVE. My wife, who is getting a little DX-minded, heard a news report on CHML to the effect that some Eastern Canadian cities will remain on daylight savings time until early part of December, which should give us a chance to increase our Canadian log. Noticed last night that WSWW still hasn't moved from the 149Q spot. They put a powerful signal into Milwaukee and unless another all-nighter starts here, should be a good frequency this season. All for now. (Thanks for the fine report, Alan, and we will welcome your reports all season! -Ed.)

Joe Branner - 23 Howard Ave., Williamsville, N. Y.

Since last report, there's been a big improvement in reception conditions. New stations being as follows: 9/13 - WFBB, 1290, on ET and KOP, 1220, on ET; 9/14 - WMMU, 1250; 9/15, WSSB, 1490 on all-night Fido Drive program. 9/17 - WBBQ on f/c and WSSB on regular schedule. 9/18, WBUU, 1570 on regular; 9/20 - WQOR, 900; WGGH, 1150; & WINA, 1290, all ETs; 9/21 - KGLC on regular (thanks, Ralphie) and CBX, 1010, at s/off at 2:40 a.m. 9/22, KSDN, 930, with special late program, KNUZ, 1490 on f/c, and KCHI, 1490, on ET. 9/24 - WECN on f/c and KERO with special late program. Varies came from WSSB WORL WBUD WYXT WGTN WULL FSBR WEDR; all letters, also card from WULL and plain typed card from WBNM. On 9/22, 1490 was a hot spot with several on all morning, heard WSSL after WJED off at 2:00 a.m., also traces of commercial program, maybe WTTT, KHUU on f/c between 2:00 and 2:15, WVWE and WAFG on tests, an unidentified VVHIG and lastly KCHI fairly clear through VWSW just before the next one came on at 5:00 E.S.T. At 5:00, heard CBX and WSKJ, both on regular at that hour now, WDAY, and several more.

This morning, 9/24, was one of the best for coast in nearly two years, all regulars easily heard, a few hatter cases quite clear. WJED left 1490 at 2:00 and then KICS went off, so loud he nearly equalled WSSW. Later KERO came out from behind the persistent Pittsburghers and was quite easily logged at times. The new WSSB is fairly well heard here in daytime, not nearly as good as WJED but better than WQOA. WBUU can be heard now and then most every night some time between 5:00 and 5:40, plenty of WFTQ QRM though. CBX was a powerhouse when heard here with regular s/off at 3:00 a.m. Just lucky to catch WCBS, by next month (?) WSSW may be on 970, and in times of EST here, WSSB will probably be on 970 until 2:00 a.m. WBER finally pulled his carrier at 1109 this morning and WCBS rolled in 5-7 for the last part of his 15-minute f/c. All times given here are EST, all radio records being kept in EST, EST being used for confusion only, in DXing, hi 75.

Leo Hargrave - 720 Barry Avenue, Chicago, 14, Ill.

It seems that being at the Convention and meeting the fine DXers that make up the NDC always sharpens up your appetite for DX. Last year with no convention I did hardly any DX in September, but this year have already sent out 6 reports and would have more but did not feel too good for a few days and had to lay off of DXing. One varis received, card from WBNM. Reports sent out to the following stations: Sept. 12 - WGGH, 1260 on sign/on, Sept. 16 - WFTQ, 1280, s/on. Sept. 18 - WYBE, 1280, on ET - the new Wytheville, Va. station. Sept. 19 - WTVT 1490, s/on. Sept. 20 - WGGH, 1150 kc/s., the new Marion, Ill. station on ET. All sign-ons were at 6:00 a.m., E.S.T. I have started on my CFC assignment with the help of Mrs. Wharton - she typed 13 out of the 23 odd letters, five went out already, the others will go out 2 weeks before the requested program date. If they come through we will have some swell programs. I logged WYBE after coming from the Whartons at 2:00 a.m. last Sunday morning. I completely endorse the proposal that each member contribute $1.00 towards a new mimeographing machine - in fact, I will contribute $2.00, and don't believe we will have any trouble in raising the required amount. Enjoyed the convention resume by Pop and Lefty - Only one mistake - I did not sing "Tura Lola Lure" - it was "Galway Bay." Must have been a bad rendition if Lefty did not recognize the song, hi. Lots of DX to all.
I have just been looking over the last edition of "DX Down the Dial" and noticed the request for reports and decided it was high time that I contribute my meager offerings to the "Musings of the Members" section. First of all I was truly sorry that I could not have attended the NRC Convention at Buffalo; however, September is a poor month for finances. You see I had to pay tuition at Junior College for the coming semester and I also purchased a reconditioned National RCE Senior which set me back a few bucks. I will be interested in seeing how my HRC operates on the BCB band. I sent to Iowa for it and it hasn't arrived as yet. Up until now I have been doing all my BCB DXing on a General Electric E-51 receiver of 9 tubes which I judge was built around 1937 or 1938. I only paid $20.00 for it and it sure has given me great service. BCB during the summer months is what you might call on the skimpier side. During the months of June, July, and August, I only sent out 9 reports. Reported to were (those underlined have verified) WMAY WCCTA WHEW WENT WDKA KSMK XXLR WELO V FXXZ. This summer I did most of my DXing on the 20 meter band. I sent reports to 110 stations and have received QSL cards from only 43 stations, which is down-right awful. I have now DXed only stations for the last 2 summers and my score stands 71 stations QSLed with 186 reported to - SAD - VERY SAD. I think I will stick exclusively to BCB DXing from now on. My average on the BCB band stands at 82.5% confirmed of those reported. My QSL total on BCB stands at 356 stations from 21 countries which include 4 stations in Hawaii and one station in Argentina (LH1 on 1070 kc/s.) I have confirmed stations in 47 states with Wyoming being the only state in which I have not received or confirmed a station. My goal for the coming DX season is to raise my total to 300 stations confirmed. The following stations have been reported to this month: (those underlined have verified) WAGW WMJU WLAG WYVE WTFS WMMN. I sent one follow-up report to WP4RD which I received last January 18. This year's DX contest looks very interesting and I think I shall join the foreign section. I will try to improve my status as a reporter and will endeavor to write more often. Guess that's all for now. 73's and good DXing during the coming season. (Thanks, Hank, and we surely hope for lots of reports from you! - Ed.)

Ted Weiger - 159 Fairview Avenue - Schuylkill Haven, Pa.

Enjoyed reading about the Convention, was really disappointed that I had to miss it. Due to change in job and 40 hours a week now for the Railroad made things quite upset, put in for two jobs, got one, but was claimed off, so I had to claim another job myself, did some night work for a while, but made another claim and it looks that this is it for a spell. It's a day job and excellent for DXing because I don't start until 10:30 a.m. Some DXers received lately are WCES WCRW WTLT WHEL WGOO WSGO WSHS KROM WCRW WREW WPSE WBCX WTKI WMMN, and the following with a follow-up on own prepared card - WMMK, Dorothy M. Pope, WMNE, William B. Dailly, Chief Technician; WHEC, David J. Holt, Gen. Mgr., and C.E. WENK - Clarence E. Pugh, Eng/Dep't; the letter also sent a very nice letter. I gave them enough time to verify before follow-up - WMMK two years, the rest, 1 year or over. 8/27 - Logged WRFU for report, WMMK also along with follow-up, WMMK on ET/# 9/7 - WFRM, 1340 kc/s, on ET. 9/8 - WJMA again, WSCP now 24 hours, 9/9 - logged WEMF again for another try, WJNX on best test 1150 kc/s., 9/10 - CKK at VMBN heard at sign/on in the clear with the News, till QRM 1340 kc/s., PT and WJNX carrier. Logged WGES with 15 minutes of regular schedule, ditto on WMMK, 9/13 - KOFO on ET - very good signal on 1220 kc/s, 9/14 - logged WPTR on regular schedule 15 minutes after sign/on, caught KOA with f/c in the clear till WMYC s/on. 9/15 - WYVE on ET. 9/16 - WCBX, 1150 kc/s., with ET, 9/19 - WJMA on ET, 9/24 - a very good morning for the far west, just missed KID and CJOC - just a word or two heard at s/off, needed these two - a little sooner I could have sent a nice report. This took the alpeness out of me but I didn't get anything worthwhile the rest of the morning.

Bob Dayman - Box #13 - Georgia Tech. - Atlanta, Georgia

New Cuban being heard well here in the evenings until around 12:15 a.m. on 890 - FMing WLS-WENM. It's CMHD, "La Union Radio en Las Villas," Santa Clara. (I've not heard CMHD, Calabairon, Cuba, 655, in quite some time - maybe it's deleted.)

Did ya know that - WERD and not WEDR is the only Negro-owned station in the U.S.A.? J. B. Blairton has bought out WERD, Atlanta, while WERD is owned by white men, but operated mostly by Negro personnel. Similarity of calls is purely a co-incidence.
I only wish that "Daylight Time" would last another week or more, so that I could keep up my "fast pace" of logging Eastern stations on regular schedule, in the Daylight Time Zone. Really logged some nice catches, in my estimation, the last two weeks of Daylight Time, in addition to others logged before that time. The latest catches included WENE (1450) Enid, Okla., on 9/13, on regular 5:00-5:15 a.m., signing on shortly before WWDC returned to the air. The morning of 9/13 at 5:00 a.m., found WAEP (930) Scranton, Pa., in the clear for their first half-hour of regular programs. On 9/14, WPRO, Providence, R.I., was "out" on 630, and easily copied for a new one in my log. Station WQX, Atlanta, Ga., also logged on 9/14 with regular schedule 5:30-6:00 a.m., fighting it out with WPIC on 790. Incidentally, WQX now uses 5 kw. The monthly f/c on the 15th of the month, from KINE, (1330) Kingsville, Tex., was logged that morning from 5:45 to 5:55 a.m., with TT, and heavy QRN from WBEC. ET's from WVYE (1230) Waynesville, Va., and KOFO (1220) Ottawa, Kansas, logged on 9/15, station WORK (1330) York, Pa., logged on regular schedule 5:30-6:30 a.m., beneath WADC on 9/15. The new WDSD (1300) Kensington S.C. s/o regular schedule daily at 5:45 a.m., and heard good till 6:00 a.m. for a nice report on 9/20. The new Marion, Illinois station on 1150, WGGH, heard on ET on 9/21 at 4:30 a.m., while at 5:30 a.m. that morning heard the "Stars and Stripes Forever" being played to open the "Famers' Almanac" program from WWKG (1590), Hornell, N.Y., listened to for 15 minutes, although QRN from WAKR. Then possibly the best morning in September was on the 23rd, when WOR (900) Lebanon, Tenn., was on ET with a good signal. Then amazed to find WMAW (660) North Adams, Mass., s/o at 5:30 a.m., and in the clear for 15 minutes, and a surprising signal for just a 250-watt at this distance. Followed at 5:45 a.m. by the station I've longed for, none other than WHCU (870) Ithaca, N.Y., s/o and in the clear 5:45-6:00 a.m. when WWL s/o to erase their signal. The same morning at 6:00 a.m., logged the morning the "Cuckoo Club" from WXSA, Kenmore, N.Y. (1030) with little QRN from WPCH. How was that for a morning at the dises? On the last "Daylight" morning, I again addied 3 new stations to my log, all on regular schedule, namely WCHS (970) Portland, Maine, completely covering the 970 spot, even though WWDC was on the air at the time. Then at 6:00 a.m. found WKBS (710) Miami, Fla., atop WOR, with their "All Florida Hour," and then copied for 15 minutes the regular schedule of a station very few DXers have in their logs, none other than WAP (1050), Owosso, Mich., from 7:00 to 7:15 a.m. Station KRLD, 50 kw. station on 1080 must have cut their power down to 1 kw., as usually KRLD controls this spot, at this hour, as I've tried a number of times before. To some of the Eastern DXers, a number of the above-mentioned stations may be heard regularly, but to a mid-western DXer, they are "toughies." On Sunday, 9/25, logged KCON (1490) Broken Bow, Neb., on ET's, and sent a nice signal the 500 miles east. At the same time, Station KGU (1540) Fort Worth, Texas, was also ETing, but the signals were anything but good, possibly directional to protect local KXEL the 50 kw. on the 1540 spot. Verification letters received since my last report in the bulletin were letters from WERE KCON WBNO WBNR WXOW Wenne WWEB WJLW. While WBBI sent me a card with their "verification seal" there on. The most unique verie of late came from WBPI, in the form of an 8 x 11 inch card, of blue and white, which could certainly be framed. Station WPIC, La Salle, Ill., reported again on regular schedule, to replace poor postal verie, and this time a nice letter verification came back signed by L.J. McKinnon, C.E. It might interest some of the boys to note I have logged exactly 29 new stations to my log since September 5th, my first morning of DXing this season.

"Pat" Ralley - 11 Irving Place - Jamestown, N. Y.

New veries are WXYV WWSL WPPA WAFB WBNR WZAP WCNU WTCN WSSR. New ones heard are KFBI on ET, on 9/13, WPPA & WWSL and WZN on the 14th, WHTY, KSBG and WYVE on the 15th, WIER (ex-WCCG) on the 17th, WGGH on ET on 18th, WNMA on ET on 19th, WPPF and WGBK on 20th, WOR on ET on the 21st, a f/c on one on 1490 that sounded like WC or WDPF, 3:29 to 3:41 on 22nd, CBJ on test 2:39 to 2:45, no English used, on 23rd; Who signs off at 2:30 a.m. daily on 1490, who sounds like WBDS, Mutual station, and gives WBOB a bad tussle - heard several times here. (KHTH -E4) 9/24, heard WROW on test at 11:50 on 680, WCDN on test after 3:00, KOOL on f/c 3:44 to 4:00 to be back at 5:00 a.m. 9/25, no DX to a party. 9/25 XWAN on test at 3:45 in English, WGR at 4:13, test - WAKR test at 4:32, unknown one on 940 until GMR came on at 5:00. Radio has been very noisy.
DX has been excellent here since last report with these new ones logged - KOFK, 1220, Ottawa, Kan., on ET and now on regular schedule. Heard west around 6:00 p.m. C.S.T. here. Also heard on the 13th was KWBB, 1450 kc/s., Hutchinson, Kansas on f/c. On Sept. 14, WDDC, 960 kc/s., Salisbury, Md., on regular s/o on at 5:30 E.S.T. WDQK, 1300, Kingstree, S.C., also on regular s/o at 5:45 a.m., 1490 kc/s. newest all-nighter was logged on the 14th in KFAS, Banning, Cal. Really a nice signal here. Over WWSW all the time with his "One O'Clock Special." What happened to KNX? Perhaps he has given up the all-nighter. Sept. 15 - KDAY, 1450 kc/s., Santa Cruz, Calif., on regular till 3:00 a.m., easy here, though QRN from KIMA. WAVE, 1280 kc/s., Wytheville, Va., on ET and easy over KNAC all-nighter, asking for reports. On Sept. 16th, WBBI, 910 kc/s., Scranton, Pa., in cleat at 5:00 a.m. Also WOLF on top of 1490 kc/s. at 5:30 a.m. next report even though I have heard he is a non-verifier. The 17th brought me WGGH, 1150 kc/s., Marion, Ill., on ET from 4:00 on. Sept. 19th, WKRT, 920 kc/s., Cortland, N.Y., on top of WMME from 5:00 on. Also WESC, 660, Greenville, S.C., topped WNEC for 10 minutes for a report. Also heard on the 20th was KORF, 1050 kc/s., Garden City, Kans., on test. This new station is using same equipment as old KORF that was deleted on May 1st. Same call, but new owners. On Sept. 21st - KWBB, 1490 kc/s., Walla Walla, Wash., was on f/c from 3:15 to 3:30 a.m. with Point Reyes for report. Sept. 22 brought me the three new stations in: KCON, 1430 kc/s., Broken Bow, Neb., on 4th ET, WCOG, 900 kc/s., Lebanon, Tenn., on ET and KCUL, 1400 kc/s., Fort Worth, Tex., on ET 5:00 a.m. on, heard here. New varies in from WMKK, KCMU, KTWM, WBGC, WYWE, WGBI and WQXI. Lots of reports out but no veries. Looks like a hot season this year as DX has been remarkable to date. Let's all enter the contest. FROM ROBERT GORBACH, CEDAR RAPIDS, IOWA - WOKX, 1450 kc/s., Cedar Rapids, Iowa has been in operation since August 14th and to date has received only two DX reports. Jim Dickens in the DE and their f/c 36 set for the second Sunday 1:30 to 2:00 a.m., E.S.T. Tone modulation with station identification every 3 minutes. Jim wants reports on these tests. Bob also says that plans are under way at KIOA at Des Moines to start around-the-clock operation at least six and possibly seven days a week. OUCH. That will fill up 940 kc/s. Also WCGQ, 1320 kc/s., Greensboro, N.C. plans allnight broadcasting on Friday and Saturday nights according to word from C.E. Eric at Pate. Soon to start.

Ray Edge - 325 Shirley Avenue - Buffalo, N. Y.

Well boys, the convention is now history, sorry that more of the boys were not on hand, however we did have a swell turn-out as you saw in the bulletin of September 17. We are here at 325 certainly enjoyed having the pleasure of having that DX gab-fest on Saturday and we all hope that all of you enjoyed it too. Mrs. Edge and I drove to Detroit for the week-end of Sept. 10-11 to visit her dad. On the way we stopped off at Steve Walbridge's for a short visit. Matt Steve's lovely wife and his 2 children. We want to thank them for their swell hospitality, it was greatly appreciated. Steve certainly has an ideal DX spot except for just too many trees in the way for a real good antenna, but he cannot cut them down, too bad. He has the most beautiful view of Lake Huron from his rear porch with the beach at his back door. How Pop would love to own that spot! Well, no DX as yet and of course, no veries. Last one to come in was a letter from WGOO to make my total 1,617. Walbridge is still wondering how in heck Wyman got that car for only 50 bucks. Yea, it brought Wyman from New Hampshire and I believe it got him back again - anyway, he left here in good shape. Still no correspondence from this QRA so all of you to whom I owe letters, please excuse me for a while longer, I'm still on my vacation. Well, it rained today 9/15 so tuned to 1350 kc/s. and copied WCHA in Corning, N.Y. Have them verified when that call was at Scranton, Pa. WCIL, 1000, Chicago, begins 24-hour schedule Sept. 28 - phooey. (Report arrived one day too late for previous issue, Pop - Ed.)

* * * * * * * * * * * * * * * * * * * * * * * * * * * * * * * * * * * *

We believe that the National Radio Club is the best DX Club anywhere. We want the various station to know this, too, so when you send reports in to a station, be sure to mention the fact that you are a member of the NRC, and of course, don't forget that little courtesy item of a 3¢ stamp for return postagage. It means a lot. Thank you.
Static has ruled the roost since Convention week-end. Only two new ones aided for four trips to the dial. Sept. 19th brought KGOA, Sacramento, on 1470 kc/s., after quite a struggle with XESM. Sept. 11 brought WSOC, the all-nighter on 1390 in Anniston, Ala., another channel plugged. Can't complain, though; things will pick up soon! I thoroughly enjoyed meeting the boys at Buffalo. It's been a long time since I have met another of the species face to face. Then yesterday, Ray and Mrs. Edge dropped in for a very pleasant call. Two reminders - Ed Wyman, when you have a minute to spare, would you please check on the schedule for VAS, and drop me a card. Ray Edge, verie-singer from KUAM, Hannibal, Mo., please. Thanks a lot. Do I understand that a revised F/C list is under way, Lefty? (You've got it - hi - Ed!) (Second report) As I didn't see my report in "DX News" I guess I didn't allow enough time for it to get to Coigertown. So we'll send this one airmail, and see what happens. Here's for the latest from Sarnia: What DX is lacking in quality so far this season, it makes up for in quantity, with 17 logged in 16 days. Some of the latest are WETC on ET 9/15 at 3:47. Verie in already. 9/16 - At 3:109 F/C WMAC, 1240. 9/17, WYVE on 1280 with one of their other ET's. Logged. WREL, a daytimer on 1280. WHLD on 1390 9/18 for another daytimer at 1 p.m. 9/18 brought WJEL 1520 at 2:00 with f/c followed by WJEL on 1500 at 2:13 on f/c with Peterkin Labs., Detroit until 2:16. Then WONT, 1340, on f/c at 3:36 through WEAC. 9/22 brought KRAM on 920 for half a minute only at 3:23 a.m. on ET just before WMMN came on for regular schedule. I'm going after KRAM next month earlier, and see if I can land him properly. Caught WOR 900 at 3:31 on one of their series of ET's. Have heard KWOE on 1480 signing off at 3:00 several times lately. One of these days, I'll get him earlier for a report. 9/24, WVCN on 1500 after several tries. DX? I heard the club get a nice boost from WREL at 14:18 when they read a whole report from Mrs. Wachtel, Cedar Rapids. Heard WERE 1240 for a new daytimer at 4:23 p.m. through WCOL. Also WABJ on 1500 at 4:43 p.m. same day. 9/25, WDVA on f/c 1290 at 1:50 with Riverhead. Then listened from 2:07 to 2:55 to a football game, which eventually announced as KCLA, 1400, right through the all-nighters. What a time of night to play football! Log Nov 1421. Recent varies from WHLD and KXOA for a total of 1096. A suggestion follows, to aid those of us with poor memories, how about always mentioning frequency in your reports so that we won't have to search the log book to check the tips on calls that particularly interest us? S'all for now. I'm in favor of Pop's suggestion for a little cash for a new printing outfit. (First report missed by 1 day, Steve, and air-mail got here on Wednesday, dead-line day all OK. - Ed.)

_Vince Stassen - 5347 Priscilla Street - Philadelphia 44, Pa._

Have not started to DX as yet. Might get started, and then I might now. Don't recall the last time that I did send a report in. Best of the varies for the last season that I can recall right now is the four-in-one from CNO, CNQ, CNKJ & CNUL. Heard them all one early sign-on last season so got the four of them verified on one card. Also got a veerie letter and some postal cards from CNOU. Also one Mexican aided last season, XESM. Think the best one though was my getting the 46th state in the veerie of KYSR. Also received about 150 varies from Canada last season. Varies now stand at 776. See that everybody had a swell time at the Convention. Would of liked to have gotten up there. Might make it one of these years. I was supposed to have been at the NNEC convention but I fouled things up there also, so I missed out on that. Say there is a Spanish-speaking station on 890 every evening but I cannot catch the station break at times it runs over WGS or WEMR, whichever one is on at around 8 p.m. Have you noticed it? (See Bob Duggan's report at the foot of Page 3, Vince, and glad to see your reports again. Let's have some more, eh? - Ed.)

_Kenneth Geary - R.F.R. #2 - Paltourport, Penna. Ivanila_ 

Variates have arrived from WJLP, WOSG, WYVE & WHEL, all nice personal letters. No real DX is in evidence as yet, so reports since the last bulletin were limited to the following locals - 9/15, WJLP on f/c 2:02 to 2:32 a.m., & WYVE, Wytheville, Va. 1290, on ET from 2:59 to 3:31 a.m. 9/19 - WOSG on regular schedule from 5:10 a.m. s/on (now 6 a.m.) until 5:30, 9/20 - WJLP on regular schedule from 5:32 a.m. s/on until 5:38 a.m. 9/22 - WOR, Lebanon, Tennessee, 900 kc/s., on equipment test from 3:08 to 3:34 a.m. 9/27 - WSPC, on all-night show from 3:10 to 3:31 a.m. 73. _

"DX News" is back on weekly schedule. Dead-line for this section is every Wednesday.
October 1, 1949

"Dẍ.News"

_Meetings of the Members_

Bernie Duffy - 63 Watchogue Road - Staten Island 14, N.Y.

True to form, I've added a few catches and varies since my last report. They are: 9/14, when Pennsylvania's elections gave me long-lamented-for WJPA and a re-hearing of WJAC. WHTA, WUBK & WPPA - they were on almost all night. 9/21 - WYVE 1280 kc/s. Etted most all night, WWFR's engineer on with an overtime morning test till 3:00. KVOA local-like till its nightly sign/off at 2:30 a.m. KTMU describing a night baseball game between El Paso and Phoenix teams till 2:15 a.m. An unknown on 1570 with another game till 1:30. 9/23 - Three new ones added on the occasion in logging KWNJ and WOR, 900 kc/s, WINX 1280 kc/s, 2:30-3:130, also KXLY and KUGA quite loud. 9/24 - WSFO, Alabama's only 24-hour-a-dayer heard through bad QRM on 1390 kc/s, at 2:30. Heard list now number 1740. All time mentioned is EST. Late varies are: a postal from KMKL and letters from WDEE, WMU, WYVE, WJAC, WJPA & WHTA - the latter wants reports on its midnight to 1:00 a.m. daily program.

Clarence Mustoe - Box # 22 - Coeur d'Alene, Idaho

Since I returned, I have tried a little DXing and heard two new stations testing - KDFM and KELB. Static still seems to ham in the distance. I have some forty reports out, do wish they would come in, but it looks like I'll have to write a second report to them. My longest hold-out is WGEA in Columbus, with a good description of program and still no reply, I even sent them a registered letter so I know they got my letter. In the last 12 months, I received about 225 new varies, with two Australian stations as my greatest distance. (Glad to see your reports once more, Clarence, and I do recommend the DE-22-A RME pre-selector highly! - Re.)

Stanwood Morse - R.R. #1 - Braintree, Massachusetts

9/10 - KMER to 12 midnight s/off, through WBER. 9/12 - WKBH, on regular schedule, WNEF off as usual second Monday. WRSF on f/c, QRM WGBH, Spanish-Speaker on 1600, als for Canada Dry. 9/14 - WJAG, with station returns, also on - WPPA and other Pennsylvania stations. WMMU with f/c. KOFO ET at 3:30. 9/15 - WMAX on test 1:14. Variations from WMJA, 4125. 9/16 - WYVE on ET through WOR test, 1:15, WFRG at 2:05, too weak to copy. 9/17, WUEC on f/c at 1:05, WMEF to 2:00, P.W. Fink, KITF f/c, 2:10. Variations from WYWE. 9/18 - WHAY regular schedule 7:39 a.m., QRM, WARE, 9/20 - WAEB on TT. 1:37, WHX, TT. 1:48, WINA, Charlotteville, Va., ET. 2:19, WCHG, Marion, Ill., ET. WOR 8:30 - music and lots of announcements. 9/21 - KTSN, in regular schedule to 1:05 a.m., E.S.T. WKY carrier and announcements to 2:45. KGA on again on 1050, 2:10 a.m. Sounded like KSM until 3:00 a.m., through KMEV QRM on 1430 - too much static to be sure. Variations from WYVE.

Herold Wissens, R.D. #1, North Girard, Penna.

Got the Super-Pro back and the repair man never touched the alignment at all. So I borrowed a signal generator and an output meter from a ham at work and set to work. One finger following instructions in the manual and the other hand twisting a screwdriver in the set's inners. The calibration is on the nose now but I'm not satisfied with the pick-up yet and will go over it again, probably this morning when I can tune in a weak signal and use it instead of the signal generator. Also tuned up my surplus EC-314 too and what a difference it made! It was bringing in CEK last night better than the Super-Pro. So today I decided to see about the Scott. Got it unpacked, been packed up for a year and at least, and turned it on. Expected fuses to blow, etc., but all that happened was that one electrolytic condenser got hot enough to boil and after I turned it off and let it cool it healed over and has been working swell for the past five hours. Will try to tune it up tonight. I have instructions here on it too. At least, I can't make it any worse than it is, hi.

Swell work, fellows - we got a swell bunch of reports for this first of the weekly issues, and I hope you all enjoy this big issue a lot. Now it can be this way every time, and even larger, if those of you who have reports in this number will keep them coming, and those not having one in this time, will begin to send them in. We certainly would like to hear from more of you members, especially those of you who have not reported very regularly. Remember, every report received is always published in the very next "DX News," so let's have them, and we can continue to have a swell issue like this.
Receiving conditions improved since last issue. Have overhauled receivers and antennas in readiness for new season. We go back to E.S.T. Sept. 24. Summer listening has boosted my verified to a total of 564. On Sept. 14 - KVGH-WJPD KGLU all on f/c as listed in "Down the Dial" Sept. 17th. KOFO on ET all morning. JFSB s/off at 3:30, announced all mail verified and KGLU twilight. On Sept. 15, KOFO again on test. KOTW, f/c, 3:45 4:00. KICM, f/c, 3:30-4:00 with "Organ Music." Sept. 20, WLOF testing with tone, 4:00 to 4:15. WJER f/c, WHEE f/c, 4:45-5:00 with voice only. WFTW, f/c 4:45-5:00. WSIP, s/o at 5:00 and WQCH s/o at 5:00. On Sept. 21, KZAC, 7:30 p.m. w/off, still on 1570. WLOF, WJUR, WIKD & CJY all early twilight. On Sept. 24, WHEE s/o and new WCOB, Lebanon, Tenn., on 900 kc's. ET all morning till 6:00. QRM from CHMA from 5:00 on. It pays to watch "Down the Dial" as lefty listed WCOB as due soon in Sept. 3 issue. On Sept. 25, KGW-f/c, KPHO f/c, KHJ regular, KTRT, f/c, KGHS f/c and test, KTBE regular, WCOB on ET, KRAM, regular. WGNQ, special test, KKKF f/c, WADK, f/c. Verbal in are KICM, WBBR WJVA WJPD WATO WUNN, all letters. A swell letter varie from WLRP from Roy L. Hickox, President and General Manager says, "We thought so much of your report that we read it over the air on Sept. 13th." Caris in are WGAU WFTW. Received swell card from Gene Allen. He supplied me with the information on all KENG of Coldwater, Miss. Have entered the Domestic Contest and hope to give the boys some competition. Have been working out on a new projects for membership. Think I'll have him soon.

That's all for now. (Good luck on that last, Sid - El.)

_Levi Cooper - 430 East 21 Street - Brooklyn 25, N.Y._

Well, time is short here, as I still have some of the f/c lists to do, so will omit the verifications received, so as not to have to go digging for my books. Latest DX here has been: 9/15 - KOFO, 1220, Ottawa, Kansas, on ET, and coming in quite well for a 250 watt that far out. WYVE was heard on 1290 with an excellent signal, and from in already. 9/17, late evening, I caught WERL's last program of the night for a new report tried for a letter varie instead of my report back marked "Verified" as they sent on their New ET's. It too is already back. Also bagged WERL on 1240 for another try at a varie just before his sign/off, at 11:15 p.m. Morning of 9/18 got/me reports to CKNY all-night show, WGCH, 1150, Marion, Ill., on test, and having a tough time here with the Cuban and WAGA side-wash. 9/19 - I logged KICM on f/c, behind WHEE f/c and WADK carrier. They call themselves the "Voice of the Mother of the West," but I could not fathom that out even though I heard them say it four times. 9/20, a very noisy morning, netted me the new WCOB, Lebanon, Tenn., on 900 with an ET, and also WIMA on ET - second Virginian on 1280 in a week. Even though the same power and nearer, WIMA was only about half as strong as WYVE had been. On 9/21 I got a little of WBNW's f/c at that early hour, and I hope it's enough for a verification. On 9/28, recent DX News tip, I believe from Ralph Johns, I got KICM behind WBNW 1430-1480 a.m., and their in-the-clear s/off them. WABZ was testing on 1010 for a new one, and because WINS has quit the all-night show, I could hear them. On 9/28, managed to hear faintly KSPN, Santa Paula, Cal., on f/c, but no information for a report, alas. It's good to see all these reports, boys, and I hope you'll all keep them coming, especially for these first few of the weekly bulletins. Thanks to all of you and good DX to all.

* * * * * * * * * * * * * * * * * * * * * * * * * * * * * * * * * *

NEW STATIONS ON THE AIR SINCE LAST ISSUE

730 - WAF Charleston, S.C. (ex-WFAK) 1240 KNE M Navas, Missouri
900 - WAF Lebanon, Tennessee
920 - WAF Phoenix, Ariz. (ex-1230) 1280 WVE Springfield, Ill. (250 watts)
1000 - WAF York, Pa. (ex-900) 1290 VDEI Wytheville, Virginia
1000 - WAF Oklahoma City, (ex-1340) 1290 VDEI Providence, R. I. (ex-WKAF)
1150 - WAGH Marion, Illinois 1340 SPRD Springdale, Arkansas

NOTICE

An advance shipment has just arrived from the printers and we now
have on hand for immediate shipment Club Letterheads at 75 cents per
hundred postpaid. This is the first Letterheads we have had to offer
for over a year. They are an excellent job and printed on beautiful
paper. Report Forms are still available at 85 cents per hundred postpaid.
Let's have your order promptly. SAVE by buying 100 of each for a total
price of $1.50.

With this issue, provided we can get it all in the envelopes, you
will receive the new Frequency Check list. May we ask that you check
this list before sending in your tips so that we can mark in the tip
section as to how the tip you send in affects the listing. It will make
it easier for the members in keeping the listing up to date and by
omitting items already correctly listed we will be able to avoid
repetition in the "DX DOWN THE DIAL" section and thereby, keep it short
and easily read by you. I'm sure you don't want two pages of tips, only
to find half of them repeats, when by proper editing, one page would do.
Let's have your comments on how you think it best to keep our tips brief,
to the minute, and yet cover all the necessary information.

This is written later, much later, than the above and as we feared, we can
not present the entire Frequency Check list this time. We would run over
the postage limit, for one thing, even if I had the strength at this hour
to bend that many pages, hi.

Telegraph just in, (11:30 PM, Sept. 30) from Ed Wyman stating that the
New Hampshire primaries will be on October 4th. Sooo, watch for the
New Hampshire stations with election returns on the morning of October 5th.
Thanks, Ed, for thinking of us.

Well, the contest starts in just a few minutes and I had hopes of picking
up some Hawaiians this morning. But, altho CEK is 99 plus, static is right
up there too. Northern Lights showing up tonight as they have every clear
nights this week, that probably explains the static and freak conditions noted.
The following items were recently voted upon by your Board of Directors. The results are shown along with the vote of each Board Member;

1st. That the Board Chairman cannot succeed himself. (This means that anyone elected as Bd Chairman, cannot run for re-election the following year) Submitted by Board Member Fred Van Voorhees.
"YES" Edge-Johanns-Van Voorhees;
"NO" Addy-E Cooper-R Cooper-Kruse-Maley-Carberry-Wagner.
The above was defeated by a 7 to 3 vote. So no change in present Rule.

2nd. (a) The Club President shall vote on all matters;
(b) The Club President shall vote on all matters, EXCEPT his vote will be kept unopended and only used in cases of a tie.

For (a) "YES" Edge.
For (b) "YES" Johanns-Addy-E Cooper-R Cooper-Kruse-Maley-Carberry-Wagner-Van Voorhees.
(b) carried over (a) by 9 to 1 vote.

3rd. During the convention the question of what to do with the office of Vice President was discussed. The following was then submitted to the Board for a vote in 3 sections.
(a) Keep our Vice President rule as it is.
(b) Revise our Vice President rule to state that the Vice President shall be any member, however he cannot hold any other office.
(c) Abolish the office of Vice President.

For (a) None.
For (b) "YES" Edge-Van Voorhees-Wagner-Carberry-E Cooper-Addy-Johanns.
For (c) "YES" R Cooper-Kruse-Maley.
(b) carried over (a) & (c) by a vote of 7 to 3.

MEMBERS: Please change Rules 9 to conform with the above.

4th. Your permission to ask member for a donation, or what ever you wish to call it, of $1.00 to purchase a new mimeograph machine is asked.

so Shall each member be asked to donate at least $1.00 to be used toward the purchase of a new mimeograph machine which will become the property of the National Radio Club.
The above motion was carried by a 10 to 0 vote.

The Board along with members attending the convention discussed the Verified-Heard listing and it was thought the following procedure was best. That the list be published 3 times a year, In October-January and April and be known as the VERIFIED-HEARD List. Your Board Chairman has written Frank Wheeler regarding the above and if he again accepts the job of compiling it, and if he will, the dates for listing will be published and if no listing is received, your name will not be among those them as an entirely new listing will be published. So watch for the deadline.
