"WRITE UPS"

WKRS-Waukegan, Ill. Quote" We are Happy to schedule a Test on
Jan.14 -4:00-4:30 Saturday AM Jan.14th on 1220 Kc and in
addition we have our FM outlet also on
1220Kc. 106.7 Mc. the air,Reports of reception on both the
AM and FM will be greatly appreciated and
will be verfified promptly. So says Mr. M.D. Hunnicutt Jr. the CE of
WKRS and so lets not disappoint him fellows. Info. - Addy
WDEV-Waterbury, Vermont
Jan.14 4:30-5:00 We will be very pleased to broadcast a
Charles M. Currier-Engineer DX Program for all the DX Boys all
550Kc. 1000 Watts over the country. Our Program will consist
of transcribed and recorded Music with
frequent station breaks and also words of dedication to all the
DX Boys. End. Mr. Charles Currier of the Engineering Staff will
be looking forward to receiving your DX Report. Arr.- Leo Herz.

***************
Not quite a month since last report but here goes anyway. My mistake, it was exactly a month ago my last report. Nov. 28 added WNAT on ET, WSJ on 1340, KHMO & KXMO on f/c and KAFF on 1490 - 3 new Californians for the morn - not bad. Then no DXing here till Dec. 1st, up once more to land WQMN WIER KHNN & WUSJ all on sked. f/c. Sat. Dec. 3 gave me KXYL on reg. sked till 3:00, WPSC testing. Dec. 4, KNJS on reg. sked; WTOR & KMSM testing. Dec. 5 only added a very little on KXYL on reg. f/c through 2 locals also on f/c. Dec. 10 up for KOWI DX program and found them tough with WATM also adding station to the list. It was a tough period but managed to copy enough for a verie. Prior to adding KOWI I added KVIC on reg. sked. at s/off; KVON ditto through KFWO. KVON s/off at 2:00, then WIBR testing to complete morn, gave me 2 more Calif's. so was satisfied. Didn't DX San, but was up Mon. to catch only KIQA on wked. f/c for a 2nd report. Copied them solid this time. Nothing heard of any of the scheduled Montana DX programs. One on 550 open channel but not a sign. Next DX morn for me was Thu. Dec. 12 which was a swell morn for west coast. Started off with adding KSTN on reg. sked, then KPGN added solid for 2nd report till 2:55 s/off. EMOM through WIND but heard very station announcement on their f/c, ditto KHUS on f/c, then copied off morn by copying KWIW on 1490, the week all-nighter. On yes; also added WWLL. Didn't DX again until Mon. 12/19. Copied KCNI who was on 1490 about all morn, KOST easy on DX. No sign of KJDK here due to local carrier. Up again Wed. 21st to add KWDB solid on sked f/c & KIFE on whch ET begging for reports on 1230. One more in Cal. for me. Up next morn to give KERG a try on sked f/c. They were a power-house, steady 5-6 signal & copied solid. KMBW finished up morn. Dec. 24 finally caught KVOI through the Mex. just before s/off at 3:00. Stayed with 'em over for an hour for them to break through sufficiently. Too lazy here to get up Christmas so can't help anyone from this point. 12/26 finally landed KOMJ on f/c last Mon. 2:10-2:26 a.m. copied solid; then found KTKE on 1490 with all-reg. program easy to copy most of the time but at times blotted out by KWIW. They announced seldom. Heard station anns, only twice in an hour. KINJ also heard on f/c, music heard fairly but no positive station call so did not report. Some day they will break through, I hope. That brings us up to date on DX. Not too much quantity but quality better. 1490 is wide open every morn from 2-5 but as you can see from above I, like Joe Brauner, haven't added very many. Anyway have caught a few mostly on f/c. KWIW has been heard morn after morn, sometimes weak & others easy to copy. Verie since last report are (mostly letters) KPTM KXOA KROE KAFF KANF KINS KWIW WFBW WWDJ WUSJ KXYL WATM WFUR KRTN KNDY KGLO KNOM KHUS. Cards were ECON KFWM KODN & KZBR. KZBR was heard on DX 11/21, still no KEDO. WIBR through. Now for some information which may be helpful to fellow members. On 1490 KXYL heard daily here except on Monday mornings when KAFF has been heard on consecutive Mondays till 3:00 s/off. Don't think KXYL is on that morn. On other mornings till 3:00. After 3:00, KXYL is the all-nighter heard. Usually weaker than other two. Have noticed KGIL having an open channel free from Mex. of late from around 4:30 till 4:55 local throws their carrier on. Am still watching my verie for a report through the Mex. but guess I'll copy again when I find 'em open. Have heard WWLW take the air for reg. sked several mornings of late at 3:45 a.m. EST of course. I too received my verie back from KNER, San Bernardino, signed on my own report and of course not being satisfied I promptly wrote the G.E. who was the signer explaining that on that morn WEDC had kindly scotched for DX programs from Colorado stations & in all probability would never have the opportunity of hearing KNER again and would be very pleased to receive a verie on station's letter-head. Sent follow-up air-mail both ways and received a swell verie in. CE who said it wasn't because they didn't appreciate our reports that short staff etc. was cause of those replies. My follow up brought a swell verie letter. In checking through unverified reports, have found that only 1 'K' station has ever turned me down on a verie up until present season & that was EXAR last year. Will try again this season. Have several 'F1' calls unverified that I reported but really didn't go after a verie like I did on the 'K' calls. Majority of 'W' stations I didn't even send follow-up. Canadian stations everyone verified that I reported except CF21 years ago & they didn't think my report sufficient. (Have CKY out now since Nov. 13) So I think my success had been good down through the years. Perhaps part of this is due to my report.) Recently in bulletin have noticed members asking for type of report to make(con't.)
NEW MEMBER - ALAN R. P. GOLDING, PICTON, ONTARIO (ROYAL CANADIAN ARTILLERY SCHOOL)

RENEWALS - ROBERT BROWN - SULLY SULLIVAN - JOE ENZ - GEORGE HOTTON - RAY EDGE - FRANK WHISTLER - EDGAR COPE - EYAN ROBERTS - SID ROSENBAUM - HERMUT GEARY - HEDE LEY SIMMONS.

Meetings of the Members -

Hedley Simmonds - 145 Fairfield Avenue - Hamilton, Ont.

(Hedley sent his report to Wagner, who misplaced it, but I just now sent it on. It was dated 11/29/49. DX fair here. KVOE KFLF KBID KMAR KAS 23 KURG KVRA KYOU were all N5 here. Did hear WMAF on 11/36 and WMR and WMT on the 27th, with KAJO on the 24th and this AM. (11/29) heard WTRF s/on 5400 a.m. on 1250 k.c./ and followed at 5145 by WRED on 1300, a.m. until 6100 when WOSC, also 1300, came on the air. Others heard since Oct. 10 are: KFRO wapc WITY choy KGAY WROG KGLO WCSC WNAW ktrm WIBL WAIW kWCR WMAE WYVE wvog kve (refused to verify two day's reports with music and sign-off identifications - wants SPONSOR's name or final score of ball game or some such - says some other station might be broadcasting the game (that we heard for first report but could not get score). I don't see where any other station on 1480 k.c./a. could give call letters of KVOE with time they were on the air from 9/5 to 4 0'clock and owners' and operators' names given, do you?) Oh well, such is life - too bad they don't keep a LOG as other stations do - Listing MUSICAL NUMBERS used! will have to try again. Then there has been WROM, WPK, WPAL, WTVJ, WFRB, WPM, WONT, WHER, WIBL, WMJN, WIBW, WIBL, WIBL (on test of 11/24) rose, wrap, want, WREO, etc. as already mentioned. All in capital letters are verified, others still out. Total log = 2155, with 209 verified to date. (Thanks for report, Hedley - we'd appreciate some more of the Brooklyn address. Also thanks for pledge.)

Joe Brauer - 23 Howard Avenue - White Plains, N. Y.

The final report of 1949 from here. Latest reports come from KAGH KJWZ KFLF WFLQ & 800J, all nice letters, and a signed card from WLET. New stations, WACA on 5150 a.m., sign-on, through tip in "DX Down the Dial." He gets over WAKR at times until re-enforcements join Akron at 6:00 0'clock. KIME on FT on 12/30 and 12/29, which netted me four new stations - WPAF on FT to 4100 a.m. KFAR, my second Alaskan and the first in 10 years with present radio, KSPI, a welcome one on test at 4:45 and 5:45. WABY when knocked WSAI etc. into a spin between 6100 and 6:30 a.m. with regular scheduled program DX continues good, but new ones few. WIK evidently signs on later than 5:30 on Saturday's, permitting WOSC to really go west then. He was perfect again today, 12/23. Both WARC and KBOC tested on 650 this morning with tone and easily heard voice occasionally. DX on 550 is rare for this set of mine. Anent the home-made reply card, I fully agree with the opinions of those who expressed themselves on them. I thought 1/2 and 2/2 of my log is verified by that means, mainly fairly easy-to-log stations, and even then only after 3 or 4 reports, at least one with self-addressed reply envelope enclosed, have gone unanswered. I'd rather have my own card, than the messy cards a few stations send. They may have individuality I'll admit, but one like the mess WARD sent me recently does not compare with the average home-made card that I've seen. The worst thing about these cards is that they get encourage stations to demand this easy way to verify, and a big collection of such cards would hardly be attractive. On the other hand, if they won't answer any other way, we either carry them on the log as heard but not verified, or use this method. So what? 7/3 and a big, successful DXing New Year to all NERGS.

Ego Here = 720 Barry Avenue - Chicago, I1.

Reports going out were: Dec. 25 - WLCX, on s/off at 3:05 a.m. Dec. 26 - KBX on t/c. KIJF on/off and last but not least WWGG, on DX Test with really a swell signal, the 3 of us here agreed it was a fine test. Dec. 30 - WJRB on test. Verifies slowly up last week. Only 1 received - WOCN DX. Verifies now stand at 34 with 34 reports out. Of the 65 ver- ies received so far this season, only 16 were cards and one of the cards received was already replaced by a letter-head. I usually take what I get but get a high percentage of letter-heads. Best wishes to all of you.

Hi gang - hope everyone had a Merry Christmas and a Happy New Year. Ralphie, it's good to see you in the game again with a little quip here and there - Donald Frey is just a young fellow who bubbles over and I believe his chatter helps very much to enliven the bulletin - a slight variation by one or two members never hurts. It gets quite dry to read consistently reports - reports - reports - without a lively quip or two. Anyway, Don started in May and now has over 300 logged with close to 250 verified. He came into the radio shop and I got started on DX & he took it hook line and sinker. He's a good DXer. The only one who has a verie from WMWN. Hi, Bob, Cheerio! First, veries in since Dec. 12: WGAN KIMO-ET WYOT-FC from May 10, 1949, possibly new CE who is answering backlog. FAPO nice slick card green on white, WARK KOGX-DX. Underlined, letters. Since Dec. 12 new stations XEAO WSAE reg sked (???) 4:35-5:30 a.m. on the 12th, WAFJ f/c TT, WDUN f/c TT, WABY music f/c, WAML f/c TT, KOGX DX, XEW ET, KCHI ET, KGST test, 7TPDJ A.M. a/on, WJKE over WOR, WGNF f/c DX, Dec. 27, A.M., KVVC reg. sked., 11:28-1:00, KRRN 1490 kc/s., New f/c TT with Kansas City 2:00-2:30, KPHO f/c TT 1:20-1:55, time-change, KADA reg sked: and tough, KBX f/c TT, 3:16-3:15, WDNF f/c music 2:40-3:00 through WEDG, WEDC transmitter 12 miles south of SAN and they were knocking 'em around, KXL reg. sked. tough here, WWHG test excellent 3:45-4:08, KAYS f/c music on top 1400 mess 3:27-3:30, WECF TT-ET, 1404, on top of mess 3:37-4:02 no short identity at 3:50, WPAT regular, 4:45-5:00. Dec. 27, P.M., all reg, sked, 78DN 4:45-5:15, KJYF 5:15-6:00 on top, XERF, KDAT 6:10-6:30 on top XERF, WOC 6:30-7:43 very tough here, XEW 7:30-7:45 for another nice photograph, lefty, WPAT 7:50-8:00, WDEJ 7:40-8:00 over WS67 90 miles away - Cubans and Mexicans all over the dial - GMW chopping up KED for a change - wide open evening, hope the A.M. of the 28th is as good. Well, this will be all for now, best of DXing to everyone in the New Year. 73's.

Frank Gravelly: 201 Starling Avenue - Martinsville, Va.

Now that I have begun to settle down between Christmas and New Year, I've decided to try to catch up on reports and correspondances. Hope everyone had a very Merry Christmas with plenty of QSL's and best of DX. I have done very little DX during the Holidays with too much holiday distraction keeping me from the dials. I can't DX during vacations and holidays. Today's mail, first since December 24, brought nice letters from WMGR WHIN WDAN, cards from WJWM and a card on follow-up report to KPBO. Also a pretty QSL card from SW CXA-12 in Uruguay. They also included some data on their BCB stations: CX-14 "El Encantador" 810 kc/s, 15 kw, 6:00 a.m. - 10:00 p.m., EST. CX-18 "Libertad Sport" 890 kc/s, 5 kw, 8:00 a.m. - 9:00 p.m. Like reports. They seem to welcome reports and send attractive post-card verie. Also received nice letter from Sid Rosenbaum. He seems to feel the way I do on the reporting situation. Says he uses a personal letter report and it brings back friendly veries. He also enclosed a sample of the type report he sends out. Would appreciate a sample from other members. Maybe I can finally devise a "sure-to-verify" report. Have received several interesting letters from Bob Brown. If anyone is having trouble with KVOE, I suggest they send reports to Mr. Wallace Wiggins, pro. dir. He signed my nice letter verie. DXed couple of AM's, on 12/18, WMGR on with ET 2:30-3:15, WREB top signal on 860, WFTM s/off 3:07, WSRM f/c per list, WJOD f/c 4:00 a.m. 12/19 - WVOP f/c, WGNF on WNRC special with QRM at first from WVOP & WASE. Will this count for the contest, as they dedicated to NBC also? KGST could have been heard behind two-tone noise on 1560. Wasn't able to identify very weak signal heard, XEW on with test in English at 3:45. Asked for reports. Well, hope after 1/1/50 to get back on the DX grind. Best of DX to all.

Al Bartholomew, continued from Page 2.

& although I'm not by any means an authority perhaps a sample of rpt I use might be of interest & aid to some of our newer members. Above doesn't of course hold true with sub- and etc. & SA's. If you get veries from them consider yourself lucky. Europeans & Australians will verify 100% if your report is correct. Some form of return postcard should be sent with all rpts. Personally in my opinion a personal letter will get better results than any kind of a form letter. For example, how do you DXers like to receive form verie letters? Isn't the personal letter more appreciated? 12/29 - Added WMWN & ERMT on reg. f/c, KICK on DX, KOSE on ET. (On another page, if space permits in this is sure, you'll find Al's sample report. Thanks, Al, for sending it along. -Ed.)
January 7, 1950

"DX on the Mend"

Evan D. Roberts - Danvers, Massachusetts

As you doubtless know, the Trans-Atlantic DX stations have been really getting across to us here on the East Coast for the last 10 days or so. This period has been almost as good as any I have experienced the past 15 years. I felt that possibly the fellows might be interested in what I have been able to bring in here. This is the first report that I have sent to NRC although a member for two years past. I am enclosing a list of TA stations, all of which have been heard well enough to log. Of course, I have the largest percentage already verified, so logged only the balance. There are a few which I felt were rather good catches. Norway, 1,000 watts on 1294 kc/s, was S 6-7, only Stavanger on 850 was better in strength. Engelo, Holland, on 1222 kc/s, was S 7-9 at peaks. Ithaca, Jugoslavia, 500 watts on 1377 kc/s. I can truthfully say is one of my better TA catches. It is a difficult station to hear. The most difficult of all to log was Tangier on 1288 kc/s. I really had to work to get this one. Terrific interference, both from 3240 and 1230 kc/s. I wanted Tangier very much for a new country. Tangier will be my 2nd country on BCB and is my 10th African station. All this stuff will further my bag to the tune of nearly 400 foreign broadcast band stations from all over the world. As far as interference is concerned, they are a darn nuisance, although they don't bother reception of TAs very much, especially during those periods when reception from other countries is really good. A real upheaval of frequencies allotted is due for the European stations, next spring, with most stations on new wavelengths. Should make it possible to log a few not now audible, due to interference. With above in mind, suggest lock-out for testing on new frequencies, during next 2 months. For anyone interested, VOUS, Newfoundland, on 1485 kc/s, signs on at 5:00 a.m. Heard here several times lately. Going to the European stations, just a little surprised, a few nights ago to find Bucharest, Romania, on 823 kc/s, coming through very well in the clear and all S 6-7 at 11-05 p.m. No QRM and practically no fading. This was the third time only, that I have heard this station over 16 years. I am still using the SP-400-X. It does very well, I think. Antenna is 400' long and directive. Here is something for you to try, and any other BCB-DXer using SP-400-X. I do DXing with head-phones; but don't plug into phone-jack on front of panel. My phones are connected to phones on rear strip, not on PHONES. If you try this you will find audio gain inoperable; it will be necessary to advance R.F. gain, to get volume. A great reduction in noise, and local QRM will be noticed. Consequently, greater ability to hear weak signals and separate them. It is necessary to break this above hook-up, however, for loud-speaker volume. Let me know if you try this. Best wishes for the New Year.

Harb Campbell - Athens, Pennsylvania

Santa Claus stuffed a brand new, latest model Smith-Corona Silent in my stocking, and I feel a bit inspired to produce a report, even if it is much ado about nothing. The season doesn't seem to have been a very active one, so far. Well, I'm sure, looks like a very active one, so far. Well, follow-ups to WACO & WCB, on last year's DXs, have been ignored, and reports outstanding are WCBA WFGH (2) WBUX WRK1 WFSF K2ST & WWWW. Veria have been received from WOSW W hạn WSAW W2AW KCO KGLO KXQH WASHINGTON W5SS WQAN (via Pop Edge) WTM WVVE and a few dupes, including KVCV on 600 kc/s, heard poorer than I once logged them on 1230. WFX was heard on the November DX, but I couldn't seem to find them in December. During the DX from K2ST, I had all kinds of trouble from the two-toned signal which you mention, on 1600 kc/s. It was very loud here, and acted as though it came from the west. It sounded exactly like that old internal signal the French used on their ship-to-shore phone, in pre-war days. No CW QRM was noted here. A new report form had been worked out by me, and will be put into use on New Year's. It is a radical departure from conventional ideas, and while I will not go into particulars here, I will gladly send a sample to anyone who would care to see it. Just drop me a card, if interested. And Happy New Year to all!

Bernie Duffy - 88 Wake, Alabama - Statin Island, N.Y.

Only additions to my log during holiday week is K2KC's DX (heard with difficulty) and WHKL, that I caught at its weak-day s on at 5:00 a.m. Veria of the same period are letters from WVCO WKO WCSS WIDAS & WNOC, as well as a "hat-check" type card veria from WGIQ, and a swell letter for my previous report! KVOC's is quite attractive; it's green, orange & white. They are very strict in having reporters quote at least part of their call, and wouldn't have the objection WNSR sent a fine big picture calendar.
January Was quite a surprise Thanksgiving morning. The 46...
Nothing much heard here first portion of the week as I was working night turn. The Holiday DX was a flop as far as I am concerned, as I don't go in for the foreign stations unless they are in English. The channels were loaded with stations Christmas & New Year's mornings. Hardly anything intelligible on most frequencies. On the morning of Jan. 1, I was only able to land one new station, WGST. "The Georgia Tech. station on 920. WNK fooled me completely the same morning, they carried an M.B.S. New Year party from Honolulu. Thought I had KHON with an S-9 signal 'til they announced. Anybody else fooled? Veries in are slow. Letters from KVEK KWWB WFCB CFGS and a card from KCNI. The latter says, "You birds really swamped me on test of 12/19." The follows up in Panama, and N.Y. especially." Bud Crawford is the C.E. Had a swell letter from Frank Gravely which contained some excellent dope on the perpetration of successful reports. We were both interested in that very important angle of DXing. A very interesting letter from Len Kruse and his goings out in the Midwest. His tips usually productive here. On Jan 2, "WKXZ f/c TT 2:00-2:20, identifies with voice and code, WMOH f/c: TT, 2:15-2:30. WLAG regular f/c TT 3:00-3:10, KCLO on ET all A.M. *WEBB f/c, KREO WRIA WOLS WSIP all f/c, KPAC regular. *WAPAX on 5:00, S-8 here. Had a nice log on a station on 1270 from 3:30 to 4:00 with "Musical Almanac" show. Along came a tone tester and smt.out. identification. Who? The mysterious double tone. I heard this A.M. on about 1598. Signal weak to moderate. Sounds like an automatic signal of some sort. WBS still on at 5:30. This win's up very poor period here. Will make a try for voice on WOTT and WRIA, but it will probably be wasted effort. While listening to the double tone at about 5:30 WKNK came on with their f/c 5:00-5:10. By slightly detuning could still hear tone. Don't seem to be exactly on 1600, but 1597-8 approx. The tones have a musical sound here. This was a hard luck morning for me, had the identification blocked out for about 6 stations just at the opportune moment by undetected tone testers. Especially bad on 1450, 1490. I am sure most of them were Pacific Coasters. While I did not need KREO. They came in nicely here on a 30-minute musical test. KCLO on ET was 8-8 here and KINN easily copied for last 30 minutes. The latter has been a cinch here on Monday. Didn't need either one however. *KVEK heard as listed, on with organ selections, but faded deeply at intervals. WOTT came in as usual S-8. Going to make more try for this bird, Maybe a little of the Dale Carnegie stuff will get him." - Lefty Cooper, 438 East 21 Street, Brooklyn 25, N.Y.

Veries at 1450 now with the arrivals of letters from WMOH KWWB WENK (rather indefinite) and verie letter from KOO. Well, move over, super DXers - Cooper has joined the ranks of the "I have heard Africa on GCE Club!" The year started a day late (Wagner says: a week, hi?) with the loggings of CBX Rabat-601, Frankfort-1438, WHCC, WQPB & WHEL. WQPB's on in clear Mondays at 5:00 with hill-billy show. WHCL is tremendous at 6:00 on Mondays with WVOM still off till 7:00 a.m. and rule the roost until 6:30. Then I felt like my Kittanning namesake as I sat back and listened to the "Bar-Room Polka" over WKNK, rolling in swell here. Was pleased to get a phone call from Steve Mann yesterday and was enthused over his GCE European reception. Said to watch especially for 850, Stavanger, Norway. Erick Johnson caught Monte Carlo on 510, so be watching there. The easiest German is Frankfort-1438, and might be getting west by the volume he showed here Monday. Frenchman on 1456 is even stronger. These European signals have been coming in here with plenty of zip. Hilversum on 995 is quite good shortly after 11:00 a.m. I wish the British stations would verify - just one is all I ask, to add a new country. I wonder if any result would be forth-coming if I were to send a report direct to one of their transmitters? It couldn't do any more harm, anyway. I may try it. It was quite a thrill to listen to Rabat on 601 kc/s. They were so good that KEFD on 600 was reduced to a mere whistle. A slight slip-over from annoying WIP was the only other interference. They were still in there at 3:20 a.m. KDL, I believe it is, can be heard behind WIP when west is good, signing off at 1:00 a.m. ESB is on top on 600 kc/s, from 1:02 or so to 1:09 s/off, now using 5,000 watts. WHC's f/c is shorter than listed - they didn't start till 3:50 and finished at 3:42. But their carrier was on much of the hour from 3:00 to 4:00. WRHA heard on 1450 with wavy TT, with a weak one behind him probably. KVEK, but couldn't raise him here to identify. We are all hoping enough new pledges will come in this week so we can get a modern mimeograph machine. How about you?
In re: 12/21, 1490 kW, I believe Karm Geary is more right than others who say it was WHDD for Fajardo has no such doing but how did you get all this info on Venezuela. Any? Did VYMP have the same program? Received WFBC (1410) letter by C.E. Perley W. Tribou who verifies that I was listening to that station on the time as specified in my letter. Well, I don't want to paste my report on back of 'that' and so went to Dunkirk, N.Y. and got my own v/letter by Mgr. Al A. Schmidt, Dunkirk Broadcasting Corp., 315 Main Street. Had a nice visit in studio, etc., Sked is 6:00 a.m. (Sunday 8:00) to midnight, no test date known, as pretty well set, opening day was 12/24 2:00 p.m. I cannot hear 'em due to WBNY (1400) but Joe Brauner seems to manage, their 3 towers 202 feet are beam directly north. Veries are being sent although at 3:00 p.m. 12/31 Sec'y to Mgr. had no breakfast yet as they're so busy, suggest reports to Mr. A.A.S. Nice v/letter by WFDF (910) for 12/21 I heard 'em again 12/23 T*ating 2:45-3:00 etc.) enclosed a coverage map by 3 1/2-wave towers 255 feet, sked 5:45 a.m. (Sunday 8:00) to 1:00 a.m., Elmer E. Knopf, Proc. Dir. The Trebit Corp., Mott Foundation Bldg., Flint 3. I never was able to get a good address of this 1922 station. WYCM (1600) sent printed v/card on follow-up for 3/5/49, Ben Bartzoff, Gen. Mgr., added 1 Harvard Street, Brookline, Mass., 24 hours, silent Sun. from midnight to 7:00 a.m. Monday. On 12/31 - heard WPAH (930) 4:00-5:00 etc. said, 19 hours on air, 12/30 - KCM (1490) strong with nice program 3:00-5:35. (Did you, Lefty?) (Nole - Ed.) 12/29 - WPAW (1380) first ET program 3:00-4:00, etc., 12/28 - KPCW/c TT/fair. KICK special with Jack Rhea mentioning Wagner, Edge, Lefty, Joe Enz, etc., had strong QRM. 12/27 - WDEF (1370) regular s/on $27 and OK till 5:45 etc. WGEZ (1490) again, then WAIT f/c-TT 4:30-5:0. 12/26 - KOJM (720) M/c s/off at 2:37. CBK (540) strong 2:01 s/off to return at 6:35 MST. KIRO (710) OK through WN 3:30-3:00 s/off to return at 6:00, PST. WYBC special OK and first time I've been able to hear 'em. 12/24 - KPAC again, no-call and long test on 920 (WVEA). AUB (1490) TT/c fair. 12/23 - WSUT (1480) regular 7:30-8:00 a.m., then WCMN on top till 8:15 a.m. s/off. KCMN (800) regular/c M 4:10-4:28 managed, as KNRC s/off at 4:00 to return at 5:00 PST and WPTF TT and carrier continued. CQVI (900) till 3:23 with a fund program O’Ming KVNY regular/c. M/c 2:30-3:02 and continuing with TT till 3:20. 12/22 - WBWJ (1540) TT/c poor 4:15-4:35 and WOH on 1490 clicked in with a M/c after WHFO s/off 2:03-2:18 to return at 8:00 a.m. regular and WOTM continued music and program asking reports so to have program to 3:30 a.m. KOPR (550) got WBS with test. WBAR (1160) after news 1:07 s/off then WISN took over. WMJN (not listed) TT/c 5:45-4:05 etc. 12/29, believe WBWJ had a M/c and DX program 4:30-5:01. With WWSW now 24 hours and WEBR till 2:00 a.m., then a 2-hour test usually, except Monday A.M. s/off at 1:00 a.m. and 5-minute test, this will take only April and July as a Monday A.M. for the 24th day, WRCB, Ahoskie, N.C. test in 350 with only WWSW for QRM then. And so for other up-to-the-minute DX News, read the RC bulletin, if mine is a Musings, then send yours also. (Thanks for picture, Ralph!Ed.) (When DST comes, WRCB'll be clear of WFFA, Ralphie - Ed.)

I haven't had time to DX this fall and winter but still read the paper. Here is a bit of news I thought you would like to hear. "If you wait long enough you're bound to get it." On Feb. 17th, 1947, I sent a reception report to Radio Station WAIT in Chicago, Ill. I waited for a while and no reply so I sent a follow-up card on April 7, 1947, and still no answer, so after a year I gave up hopes for a verification from WAIT. On Dec. 24, 1949, I received an envelope from WAIT and in it was the report letter and the card both stamped "VERIFIED" in a big bold rubber stamp. So I say if you WAIT long enough you will hear from WAIT, Chicago, I., Ill. Happy New Year, 1950 and I hope to get back on DX next year. (Good to see you're in again, Ed - grab those dials and get going! -Ed)

Veris in from KEGE WAKC KURA WSPF WCNE WRID KXIN WHAT WMBI WABZ WATU WNEW WBBM WCBS KGO. Received 42 veris in Nov., and 50 in Dec. Sent out 75 reports in Dec. DX does - 12/12- KILO logged on late s/off for a new one here, KYCA with music on f/c, WJBC topping 1230 kc/s. with their test of new 400' tower, KYOR on 1490 kc/s, for another new one: 12/13- A nice report on KEXY, 1490 kc/s., giving up another one. 12/16 logged a bit of KDA to replace old veris card received very nice veris letter from Gen. Mgr. Lloyd E. Yoder, 12/19- KXII out in front on 1350 kc/s., a nice report near s/off, WREL on f/c, they sent nice veris letter to replace a Thank-you note, heard carrier and voice in the clear on 1400 kc/s, which was WHOR in Greensboro, N.C. on FT (letter back with address unknown) The KGST DX was heard in the clear with fairly good signal here. 12/20 - KSAE logged a few minutes before s/off with good signal, a new one here and no overlap from WIF. WPAL logged on f/c; WXXY heard push going around WPTP f/c for a good signal on their dx test. 12/21 - KDA logged for a new one 2:45-3:00 a.m. s/off, WMAK heard on brief carrier and voice 3:10 a.m., a good A.M. on 1490 for me, with KWBE in the clear on test with music, at their s/off I logged WXXY in the clear on their all-night show, they interviewed Paul Brenner (WACO) disc jockey at 4:00-4:10 a.m. - 12/22 - KWJN on f/c with terrific signal here, best heard yet from out in Dakota way. A log on KXII was taken before WPAT (24 hour show) WPAT got too strong in this section. 12/24 - WHK testing new transmitter with music, local here: KALD heard at s/off 2:58-3:02 a.m., KCHO logged on f/c to replace, thank-you, KOLO in the clear at times (KDLN QRM) for a new one heard near s/off. 12/28: WBBG on ET, KLO and K-A heard with good signals, both verified here, WWLO, good on test, twilight DXing netted me WLAQ, heard very weak in the clear on 670 kc/s, 5:00-5:15 p.m., s/off, this gave the mood to log WHAS for the first time. 12/28 - KEPE out in front on 940 kc/s, nothing heard of KICA or WING (WHTE copyable at times on 1230 kc/s). ET reports wanted on 12/27) - KXXY really tops on "House Party." WMH heard on 600 kc/s, with ET, KICK logged through WHPH-WBEE very good at various intervals, WEKR tops on 1240 kc/s, f/c with YL announcer, 12/29 - WWAB terrific signal on test, KZMS, made at 2:00 a.m., WPAT on ET, sounds very friendly towards DXers. KFLY topping 1390 kc/s, with their first ET. 12/31 took a log on WWCA 3:00-3:05 a.m., KAKC was copyable through WWSW a few musical selections logged to verify; KSPT heard on test, wants reports of 4:30 A.M. KWB heard through WWSW reg sked 5:00-5:15 a.m, copied WPAT for the first time for a veris, WCMP was heard through WWF on reg. sked late s/on 5:40, logged till 5:48 a.m. KHLW with very good signal here on 1600 reg. sked, 6:00-6:30 a.m., thanks to DX, Down the Dial tip from Tewell. 1/1 - WING with musical show logged 4:30-5:10 a.m. - Swing with WIng Ginn Barry now off at 1:30 a.m., so it's the last of WING for a while. WKNK now 24 hours except Monday A.M., C.L. Myers, C.E. WBAY in the clear 7:00-7:15 a.m. Sunday till WBEW f/c, then WBEW f/c, then WME Miami, pushing WBNP away, copyable all the way 5:05-5:30 p.m. thanks to my DX friend Robert Ditzum for this WIEE tip. He mentioned it a while back with no luck till recently on WIEE. As for my record collection here Derek, just started it around 1940 so not many collector's items, I have wing and sweet, I do lean towards the Swing with lots of good Count Basie, Duke Ellington, Louis Jordan, Lionel Hampton stuff. WHAT working night and day to complete new studio, was to go full time on 12/27. They expect 24-hour schedule. They stole our WPNA announcer Jerry Gaines. WNEE making quite a jump to 50,000 watts to go on 1060 kc/s., I hope soon so I can log some back of WNEE.
New Year’s Eve, 12/29 — Those reports went out to the following: 12/28
They were
which some
3:00 am., over-riding the 1340 kc/s. QRM, and WMRY, New Orleans, La., 600 kc/s, on its first
12/29 — WPAN, Pawtucket, R.I. on 1380 kc/s., concluding its first ET from 4:38 to 4:50 a.m. On New Year’s morn-
ing, 1/1, I didn’t get back from Times Square (hi, Lefty) until 4:00 a.m., so had time
to log only HIL on approximately 780 kc/s. Which was coming in with S-9 signals from
4:22 to 5:02 a.m. 73.

_Donald Gray_— 3511 North Halsted — Chicago, Ill. —
Happy New Year, and this week was a darned good new year for DX what with 37 stations
logged from the A.M. Dec. 25 to A.M. Jan./ 1. 12/25 — WPAA 820 kc/s. reg sked 2:27-2:35, WLCX reg sked 4:34-4:50, CPLP reg sked 5:09-6:32, WHJQ reg sked 5:45-6:05, WRIA reg sked 6:00-6:12, 12/26 — WNEC test M: 4:12-4:32, 12/27 — WSCC reg sked 3:30-3:45, WEZZ test M & V 4:07-4:23, WMDE reg sked 4:30-4:38, WDBJ reg sked in TM, 8:00-9:00, 12/28 — KTNC reg sked s/off 9:00-8:00, KCWJ reg sked in TM 7:30, 12/29 — WPAN, Pawtucket, R.I. on 1380 kc/s. with 600 W.,... will be day-
timer and will be on air regular Friday. They are owned by the Roger Williams Broadcast-
ing Co. WMJL test M: 4:43-4:46, WPAN reg sked 5:00-5:14, 12/30 — CKRM reg sked 1:20-
1:31, WMKJ test M: 3:23-3:42. They are in New Orleans, La., and are on 600 kc/s. with 500 w.
The address is Court of Two Sisters, 614 Bourbon St. (Yum-Yum-Ed.) New Orleans, La., and the phone is Algiers 5994. CKRM reg sked s/off 3:45-3:01, WHER test T & f/m 3:52-
4:03. In the PM I got CBM reg sked 9:59-10:14. 

12/31 — WPAA 570 kc/s. reg sked 12:26-
12:30, KCWJ reg sked s/off 2:55-2:57, 1/1 — KFYR reg sked 2:59, WPQO reg sked 3:00-3:09
WHJQ reg sked 3:10-4:01, WJRP reg sked 4:55-5:00, and my first Hawaiian station, KPOA reg sked 5:35-6:01, WDEQ reg sked 6:15-6:28, WMVA reg sked s/off 6:29-6:30, WFN reg sked 7:14-7:32, WPBC reg sked s/off 7:30, WPAP reg sked 7:34-7:44, and only one verie in this
week, that was from WNNK on 12/30/49 and it was a very nice letter, and by the way, I
while I think of it, WNNK went on 24-hour sked on Dec. 25. Well girls, must s/off for
now so ’73’s and best of DX.

_Stan Morse — R.R. 3 — Bradford, Massachusetts —
12/26 — WNNK s/off 2:00. CFRA 2:20. TA’s very good and locals spotty. Stavanger and
the 2 Hilversum stations all better than WOR. WWHG OK on test. 12/27 — TA’s everywhere,
Stavanger an S-4, Leipzig S-3 Sottens, Copenhagen (Russian Zone) S-2, BBC &
French stations all over the band, Falun an S-4. Reported Berlin (Russian Zone) on 841, and
tried to copy Hannover but they wavered in and out too much. TA’s held till around
3:00 a.m., WNEG at 4:00 a.m. Temperature at 54°. Veriﬁs — KHZU WERC KC11 WBCU and a
thanks from WMEG. 12/28 — KVMA test to 2:20. (QRM by TA) WMRY ET-1:20. A third station
on 950 from 6:30 a.m., couldn’t identify as both WARC & KTFL were louder. KICK vs. tough
thru WNEC-WHMM. WHEE is ofﬂine, would have been easier then, got what I consider a poor
rpt on them. CBM reg s/off 6:30 p.m. Veriﬁs, EDD & thanks to tip from Ken Murphy, WMWJ 12/29
WPAN ET all AM. KFYJ ET. Lots of QRM on them. ETTT 3:15, f/c. WMWJ test -3:30 12/30
WNNK ET all AM. KFYJ ET. Lots of QRM on them. ETTT 3:15, f/c. WMWJ test -3:30
Stan Morse, cont'd. © Radio Lisbon, 12, 3:30 on 629 kc/s. WJHO f/c 3:45. 12/31 - An all night show on 1490, after 3:00, so not KTYL - much weaker. KWIK? Verses, WFCB CJMT WKEY. Verses from KVOW, Littlefield, Tex., their regular f/c 3rd Wed., 6:15-6:30 a.m. and KBA verses for 1610 on EOB as of 1/1/50.

Pat Reiley - 11 Irvine Place - Jamestown, N. Y.

New verses received are KBCN WBCB K'DON WGEZ WFCB KXWB KEIO KVOW, 12/27 - WHTB on ET at 3:02, unknown TT most all morning on 1400, no voice heard. WGEZ on test at 3:57, seems as though KXIK is another all-nighter on 1490 with KWIK. Unknown heard behind WVO on 3rd, WLSI, 900, at 4:32. WALD on f/c at 4:30 - WPCF f/c at 3:50-3:50. 877 Englishman better than the 26th at 3:00 with 9:00 a.m. newscast. KPOA after 4:00. 12/28 - 877 EBC good with news after 3:01. WEO at 3:30. KICK heard but badly messed up by a herd or block of others. KTTI after 4:00, KPOW and KYA battling a also WCL, all on 1290 at 4:17, very noisy today. 12/29 - Very high noise level. WBA on f/c for EMA 3:19 - unknown station on 1390 with WCO & KXJ at 3:32 - KET7 at 3:30 using Emisora EMA or ACE a lot all A.M. WGEZ say they use 100 watts. 12/30 - WJHO on ET at 3:54 - who is very weak on 680 after KBCB sign off at 4:00? May be image. Bad noises today.

T. T. McFadden, C.E. at KXWS says f/c as in NAV list of checks. 12/31 - Last day of year and finally landed KOA at 4:30 to after 5:00 after years of chasing. KTVL over all on 1490 at 3:00 a/off, EBC on check; 3:00-3:15, finally landed enough on KTVL for report before 4:00 a/off. XEAS, 910, was very strong today through KFO test at 3:48, WJEH on test at 4:19, WKM on test at 4:24 - 11/1 - No DX, house full of relatives. 1/2 - KTVL off at 3:00 - WJHD f/c at 3:12 - CKNU, 1320, at 3:17. Were auxiliary transmitter test at 3:40, WJHD heard signing off at 3:40 - KENO all A.M. WSP on f/c at 4:01 - Who was California station on 1400 today through KENO? No town but call was KIEL, heard 4:25 until WJAP at 4:58. 460 here and very noisy today.

E. Brown - 721 South 9th Street - Goshen, Ind.

New Year's Eve - I still haven't gotten all the reports out from Christmas week reception. I still have some Spanish letters to write. The latest verifiers received here were WHIT WJHO WJMS WJNA WCNA WJSAL WANS WMFJ ECKY WCNU KDON XETW KPCO WJWPO WJWPO KCNI KJTYA KWO WJWPO WANG. The three fellows must not have gotten the same verification from XETW or there would have been some comment. She's a seniorita! (That should get them some reports, huh?) I won't go into recent tuning in detail but I have to comment on reception of TAs. In several letters to other DXers I've advanced the theory of poor reception because of the maximum of the sun-spot cycle we've been going through recently. I no more than get the words out of this typewriter and the TAs start rolling in with the strongest signals I've ever heard. The following got reports from me: BBC on 877 & 977, Frenchies on 648, 913, 1040, and 1077, Hamburg on 904, FBN on 1095, and LHS on 850. KKS set a new record for signals/strangeness being much stronger than some of our popular all-nighters like WLK etc. I was able to copy every item from a news broadcast even though I don't know a word of Morse. I hope they all verify but I will settle for 2 of the 4 French stations and LHS. I've been trying for any North African station but the most likely prospects (Algeria on 941 and Rebot on 501) are only 1 kilometers from strong domestic stations and Scott didn't develop a set with 1 M. selectivity. (I copied Algeria during the war but then there wasn't any KFEE. I'll go along with Kermit Geary's comment on the quality of verse although my experience doesn't go back quite 15 years. Just to check Kermit's statement I picked my first 100 verses and my last 100, and compared them. Back when I started verifying, the verses were 40-50 letters and now they are 75-80 letters. Not as great a difference as Kermit found but it still is significant. Of my first 10 verses only 2 (KSL & KFI) were letters. Of the last 10, only XETW, KDON and KRD sent cards. And a card like the one XEW sends is OK by me. Well I think I'll drop a line to Ray with some contest entries before the deadline. 73s and a Happy New Year.

Heard of late on the air:

600 WJHO New Orleans, Louisiana
860 XETW Palm, California
1220 WJHO New Orleans, Louisiana
1300 WJHOF Reading, (new transmitter)
1400 WFO Panama City, Florida

Heard on WOR 11 p.m. news-cast 1/5/50: A primary election in New Jersey was on January 24, and a special election in New Jersey on Feb. 6, 1951.
Hope I get this one in on time. Seems Dec. 19th missed up. Veris overwhelmed me. WPAL KCOI, KASB KYNO KWBD KEB KOMJ (first report from east coast since last April). WOHI. Quantity poor. Quality - Wow! DX fair. Hope the fist three aren't repeats, last copy of your letter and can't remember if I mentioned 12/26/49. KOJM, Hayre, 2:15-2:30 f/c as per list. KYNO Fresno 1300, reg sked. 2:45-3:00. KSPA, Santa Barbara, Cal. 1400 3:20-3:35 f/c as per list. 12/27, No DX. 12/28 - Lopik I 999 - 1:00-1:30, PAU 968 1:30-2:00. Tried from 2:00 to 3:30 solid for KICK - no luck. 3:30, WMRY New Orleans, 600, ET. 4:00, KICK signong off special program. 4:15-4:30, WPOW, 1320, TT through strong tone, 12/29 - To 3:45, WPAW, 1380, Pawtucket, R.I., ET. H. Gue Magnuson, was it Viga on 529 you were hearing? Quite a phone call, 12/30 - Frankfort 1430 1:30-2:00. Lima 661, 2:15-2:45. 12/31 - Tunis 822 1:45-2:00. Milan 814, 2:00-2:20. Stavanger 2:25-2:50. 5:03-5:30, 1485 kc/s. (VOHF?) Newfoundland. Quite a pleasant week of DX. Once again Quality poor. Quality Wow! Or am I wrong? Heard signals from Europe and expect to add more ere the end of January rolls around. Better make it short this time - more next week. (That's VOUS, Ft. Pepperrell, Monty -Ed)

Len Krueger, 817 Wilson Avenue, Dubuque, Iowa

Now that the "Holiday Rush" is over, I hope to get back at DXing at my regular pace. Since my last report I have added several stations to my DX log. On 12/19 KGST, Fresno, Calif., logged with a nice DX program, and a nice signal, too. The WXXY DX scheduled the same date, was one date late on coming on the air, and we of the CPC hope to schedule another DX from WXXY before many weeks pass. Also 12/19 A.M. added WHBR (1400) Greensboro, N.C. with an ET at 5:30 p.m., with RM from WQAP on reg sked. My reception report of WHBR was returned by Greensboro P.O. marked "Unknown - Insufficient Address." On Christmas morn, WHJH (1260) East Point, Ga., heard on ret sked 6:00-7:00 a.m. with "Merry Christmas in Dixie" program. To end the year of DXing, four stations were added on 12/31. KTGY (1490) Tucson, Ariz. new all-nighter now heard good after 3:00 a.m., WMRY (500) New Orleans, La., heard with first ET at 3:30 a.m., KIRE (1220) Palo Alto, Calif., heard with ET 4:12004:45 a.m. with a surprising signal. Then added WETR f/c 4:45-5:00 a.m. Most recent verie letters arrived from WWRL WATM WWQA KMCD KTAS WCUN WNIR WWOL ESAL. Many stations on with late programs on New Years morning, but nothing new in the DX log.

A SAMPLE PERSONAL REPORT TO ANY RADIO STATION AS USED BY AL BARTHOLOMEW.

Radio Station KMON
Great Falls, Montana
Dear Radio Friends,

On the above date and time I had the pleasure of hearing your station testing (or transmitting) on 560 kilocycles and would be pleased to receive a verification of reception if the data given below is correct.

Reception of your signal was S 3-6 on meter with slow deep fading and some static. Your quality was good and readability fair to good. The weather here was cloudy and cold with temperatures at 25 above zero.

I operate a 1937 Hallicrafters Super Skyrider receiver of 10 tubes and meter and use an inverted L antenna of 70 feet in length running east and west. My ground is of copper tubing.

My location is in the south central part of our state and is very near to the border of Pennsylvania. (You may add distance from some well-known large city in your vicinity and your location from that city.)

Here is what I heard:

1:03 a.m. - Man announced station call KMON in Great Falls, Montana.
1:05 a.m. - "Body and Soul," (female vocal) Dance orchestra.

E TC. (up to 1:31 a.m.)

Thanking you in advance for your reply and wishing you and your staff (anything you wish be it a merry Christmas or what have you) - Cordially yours.

Addison, N.Y. R.F.D. #3  Member of National Radio Club.

Now if anyone uses a different type of letter, let's have a sample. Make it a fictitious report, please. If yours is similar to Al's above, no need for submitting it to us,

"cont'd on next page"
A mistake as usual, I left out Bob Spencer and he should be No. 14 on the other sheet. So from No 14 to 22, each should be 1 more. to read Herz 15 and on to 23. * * * * * 

A few notes regarding the both contests. First off all milages are computed on maps that were received from the National Geographic Society so each contestant gets an even break. (However on the Specials and in the Foreign Contest I do appreciate your milages as it helps at this end. So continue to send them with your entries)

As for the Special programs; A few have submitted stations that were on as a DX Special but they were not on for the NRC. As stated before, a station to be eligible for Specials must have been arranged by an NRC CPC Man and must be off at least 30 minutes in duration. In so far as the DX from WPAK. This station was on OK but it was not arranged by a NRC CPC man, in fact the one arranging it was or is not an NRC Member.

The following stations are eligible for Special DX points if they were reported and verified on the dates listed. Nov 1 KVNI; Nov 6 WNAW-WFEC; Nov 13 WIL; Nov 26 WMAP; Nov 27 WRXO-WNNT; Nov 28 KWR0-KCLO-WGDI-WQAN Dec 1 WTTM; Dec 11 KDET-WWPF; Dec 12 KAWL; Dec 19 HJLK-HJDE-WKXY; Dec 26 WWHG and those listed so far in the Dec 31st bulletin marked * also on Dec 19th KGST. If a stations comes on at a different date or time than listed and no advance notice has been received by the majority of our members, it will not count as a Special.

It has been suggested that your Contest Manager list along with the names, the city and the kind of receiver used. If you lads will be so kind as to include the kind you sue I will gladly include that info in the next listing published. That will be Feb 5th and the DEADLINE for that issue will be Feb 2nd here at 325 Shirley Ave., Buffalo 15, N Y

If I am not mistaken we have promises of prizes from Sully Sullivan-Leo Herz and Sid Rosenbaum. Any more ?? Also have a couple from the Foreign, a little extra money had been sent in by a couple of the boys when they entered. A full list of prizes will appear in the March bulletin, Sullys prize will be for the winner, and Herz's will be for something else, he and your Contest manager have that info, so that will not be known to anyone until the end of the contest when it is awarded.

To make such a mess of this page but did get in what I wanted to say. Thanks to you all for your splendid cooperation in sending in your entries, it has helped me compile them with the least effort. One member wondered why I asked for the date the verie is received, well thats just to be sure that each station sent in was verified, by doing that there can be no mistake of sending in one just heard and not verified. Well no veries arriving here so nothing to send Lefty in the form of a rpt.
