**RENEWALS** - Joe Becker - Murray Lamont - Harold Williams.

**DANDY REPORTS; BEST DARN BULLETIN!**

"The boys are sending in some dandy reports to "DX News" this season. These nice reports are the added spice to the best darn DX bulletin of them all." - Sid Rosenbaum.

* Asterisks indicate programs counting for bonus points in N.R.C. DX Contest.

# Sign indicates TENTATIVE_PROGRAMS ONLY - MORE NEXT ISSUE IF RECEIVED IN TIME.

The Tentative Panama DXes will NOT go on as listed last issue. The owner is in the U.S. at the present time and wishes to be there when they DX - in APRIL; more later.

W I L M - Mr. H. Edwin Kennedy, Chief Engineer, says in part, "This is to confirm a DX program which will be run by W I L M on March 15, 1951, from 3:30 to 4:30 a.m. EST. The two disc jockeys will be Ron Kaesis and Maurie Sims. The program will be dedicated to various members of both the National Radio Club and the Newark News Radio Club. I would appreciate receiving any bulletin pertaining to this schedule."

W C R O - Another of the Pennsylvania DXers for our club, arranged for us by Charlie Conley. Again we do not have a clear channel to look forward to, but we feel W C R O should do as well as W C D L did two weeks ago. We do not have the information at hand here as to what type of music W C R O will carry, but they will make station identifications after each selection, and will mention good old N.R.C. Good reception to all.

PFC Charles J. Heifer - AF 13559450 - 3587 Tuq. Sgn. - Box 87 - Keesler AFB, Miss.  

Fellows, time is scarce for DX with me so I don't have much to contribute. The season was half over before I got around to getting a receiver down here - the little S-38. Although it's kinda hard to go back to it after using the bigger set, I am getting cut a little. WACB was the first special picked up with an S-7 signal on a 25-foot piece of wire for an antenna strung around the barracks. On 2/4 KUMS WASK KSVP WHCC were heard/ 2/12- KSFO KLEJ KSUE-DX and WWVA. 2/19 - KSMW WNFC-f/c CHML regular, WAPX-DX. They played "A Million Miles Away" and they sounded it too. Power must be beamed the other way as they are not so far away. KSVG. 2/20 - KGiL-f/c, 2/22- KXOL WRON. 2/25 - HCL good signal, KUDG regular, WWDC & WENT regular. Verifications from KSUE WWVA & WACB. Now have 90' of wire tied to this thing but obstructed on east side. I am trying to verify the stations which were locals to me back home, WWVA being a starter, also WWDC. Anybody having any late information on TTs or f/c/s from WHAW, please send me a card. WWAI WLOC & KEBB the base station are the locals here. Some day I am going to get on the highest hill in West Virginia with the biggest receiver and biggest antenna made and - oh, enough of that. Right now I gotta battle with Morse Code, radio operator school. Good DX to all.

Hal Stein - 432 Butter Street - San Francisco, California

DXing has been a little slow lately due to the crazy QRM that certainly hints of that early spring. Since my last chat varieties received have been rather scarce and uninteresting (from the side of distance) being from WKBW WBBM KOOL KEKO CMCF KPOA KANS KFJZ WJEB KFJO KOY KSPF KSIL & FPRL. KFJZ was a funny one. I've sent them about 5 reports from over a year ago. Finally received a home-made QSL with the note "Something must be wrong with your mail for I have answered you before." Believe that is the answer to many of our so-called non verifiers - either our reports get lost or their veries could happen, eh? 2/13 - KSPT on f/c at 4:17 a.m. 2/14 - Heard WKAQ on f/c at 4:31 a.m. In case anyone else heard bagpipes playing right after WKAQ here's a possible hint. From my SWL days I remember the VL stations in New Guinea, part of Australian interstate programs, used them as s/off. Probably heard 2XP on 1370 at 5:58 a.m. on 2/16, also my regular Spanish friend at 1300 kc/s at 6:00 a.m. 2/19 - WNO at 3:00 a.m., f/c, KFJ at 3:15 f/m, KPRB heard regular schedule at 3:35 a.m., WWTQ, A.F.R.S. in Japan at 4:35 a.m. and then QRMed by VDXI 5:00 s/on. Also unknown Spanish at 4:15 on 1330 with usual chimes, this time only 2. BCC Japanese #16, in a year was JOHC, 500 watts on 1190 kc/s. at 5:24 a.m. (I'm getting to enjoy their programs now, especially the news. It's wonderful not being able to speak their language for I make up my own words. For instance, JOHC's news cast said, "The entire membership of the UN has outlawed all wars! (might be a fool's paradise but it sounds nice, huh?) 2/19 - Several unidentified Spanish, WOC at 6:00 a.m. 2/21 - KTLL g/c at 5:50 a.m., CFRE at 6:00 a.m. s/on. 2/22 - CFRE regular sked at 3:14 a.m., 2 Spanish on ether 900 or 910 kc/s, probably KXW and PRB-7, both at 7:30 a.m. without other QRM. Please excuse lack of detail in reports but since the quality isn't much to speak about I am assuming I am about the only non-logger of 50 kw. CFRE, hi! Sorry for making this longer but must remark on wonderful Sunday afternoon I spent with Mr. and Mrs. Critchett and the hospitable Gene Allen. Was wonderful being with veteran DXers though I'm afraid that I, like all young college fellows, dominated the conversation. Say Jim, when I said you must have the itch for DXing, I didn't mean to take it literally, hi (73s to all & an aspasin for Lefty. (Would you say Jim's DXing is up to scratch, Hal? - hi - Ed.)

Harold E. Schrock - R.R. #1 - Paxton, Illinois

WEOL made its appearance OK on Feb. 21 but not WJW or WBLW. KITO seems to be going all night. WSOY frequency check per list. Feb. 22 - No KFIM or KGLN but KOLL was testing and WEMA frequency check at 3:15 a.m. Feb. 25 - HCL had nice program for NRC. WICA had enjoyable program. WDSC not heard at 4:00 but station signed on at 4:00 on 800 kc/s. but not sure who. Did not check for WKRC or CKCH as have them. Feb. 26 - KOLO sign off at 3:00 a.m. KVEC sign off at 3:03 a.m. Did not hear KRLZ KVMV WICH and KXLO but did log WQAO WSNX WTOR WCDL & WLEE OK. Also KTII was testing. WWNF frequency check 4:30-4:45 and WBON frequency check to 4:45 a.m. QAX4U was received and a new country and very welcome. Other frequency check schedules as per varieties received were KELD, second Tuesday 3:15-3:30; KSIL, second Monday 5:00 a.m., WDUN second Monday 3:15-3:30 a.m. Recent verifications were WSFR WATA CBW KWSC CFBN KSWI KSIL KSRA WVLA WQCB WLOW WJMG.
MUSINGS OF THE MEMBERS

MUSINGS OF THE MEMBERS

Charles Conley - 368 Market Street - Lemoyne, Pennsylvania

I knew I was sounding off too much when I bragged, in my last report to "Musings," that I'd received 21 verifications in three weeks for I've received exactly six verifications in the past two weeks (not a single solitary one this past week!). They were from KELO (1320) March of Dimes, Lester C. Piask, C.E.; WKOP (1390) Mrs. Mona Parker, C.E., WORC-DX, WHTO (1450) DX, Sandy Meek, Mgr., who advised time scheduled was misunderstood by NVNO; WSPR-DX; WTEC (1490) f/c, William L. Erickson, C.E., a gentlemen who replied to my report of 2/13 on the 23rd! Have been laid up with a cold the past week so didn't have the set turned on since last Monday morning (2/26).

Have sent the following reports: 4VM (received poorly here!) CKOH on DX - only heard one identifiable musical number in back of WWSW but sent a report anyway; KZUX on regular s/off; WPAX-DX; WCAO-DX (can be heard here any day but never before reported) WCDL-DX, badly broken by WNOR; then WATT; WHEE-DX, WEMA f/c, WENNE-ET; WGBL-DX: WKAT regular; WZBG-DX, WMW-DX; WENR test (part of one recording and s/off) and WWMN f/c. Regarding the notation I had in the 2/24 issue on reception of WOAM, Fred Van Noorhees received a verification from them last Monday, and he heard only the 4:30 to 5 portion of their program. Then I had a post card from Ed Lendiashek this week telling me that he's seen my remarks in the "Musings" and that the musical portion was WOAM's as they continued right on through with their regular schedule after the DX test and an all-AM show. Well, our mail may come through this next week and bring in some of these holdouts. (Am still looking for KOPP! among others). In my last I mentioned another tentative DX. I had asked WARD, in Johnston, and Millard J. Coleman, their GE on a post-card verification said he'd run one the 21st of March. When I followed up with more information he replied that due to changing the frequencies of their FM station, which means a new FM antenna on top of their AM tower, he will not be able to go through with it. My percentage on DX arrangements is very very poor! However, don't forget WCHD on the 19th.

Gene Francis - 4324 Judge Street - Elmhurst, N.Y.

The Brazilian stations showed a surprising comeback on Saturday morning, March 3rd.

Between 4:00 and 4:30 a.m., this is a good idea of how they sounded here - PHR-9 (640) S-2; PRP-9 (840) S-2; PRP-2 (1040) S-2; PRP-7 (1410) S-4; PRP-2 (1440) S-4; PRP-9 (1100) S-9 plus; PRP-3 (1180) S-6; PRP-9 (1200) S-5; PRP-4 (1230) S-5; PRP-9 (1280) S-3. In addition, an unidentified Brazilian was heard on 1000 kc/s with a good signal, giving WCPF a fight. But who is the Brazilian on 1030, Steve? He came on at 4:00 and was just barely audible. The stations on 780, 880, 980 and 800 failed to show at all. So I was particularly interested in PR-9 that I sent a recording of the signal, with explanation, to the Brazilian Ministry of Communications in Rio de Janeiro. Here's a little more of my log - 570 - WGGW (V) KDAQ (H) WMBM (N) WACO (V) WMMF (N) WMCA (V) WSTR (H) WYBC (V) WBGB (V) WHOL (N) WOAM (V) WMAX (V) KUTA (?); KVI (H) WMAH (B). 880 - CJFX (N) CKFR (V) CKPR (N) KJUA (N) QXY (V) KNOM (V) WMBN (V) WACO (V) WEMB (V) WOFR (V) WOFR-9 (V) KSAC (N) WCRV (V) KALB (V) WTAG (V) WSTN (H) WRAO (V) WCRF (V) WCRF-9 (V) WCRF (V). A few weeks ago I limited the only pre-war We I had never heard. I have a similar list of Ks and also a list of Canadians that I would like to see a DX from. The rough Ks for me are KSAC KFAX KFMU KJU & KFCC - this latter one I just never bothered to log, never suspecting I would be leaving California so unexpectedly. Funny thing about the Canadians. They're all bunched together, with 3 on the same channel. They are CFAR KJUX CJFX CKPR & CKY. There are about eight others of pre-war vintage, mostly on gayarday channels, but the ones indicated here I would get the greatest satisfaction in logging. That's it for now. Monday morning items - WSTA heard on DX 3/5/51. Better than first time. Another unknown Brazilian on 1260, S-2.

Leo Hess - 720 Barry Avenue - Chicago 14, Ill.

Here is my DX report, such as it is (3/1/51). Not much to report in the DX line. This was my most inactive season since 1946-1947. I gained only twenty verifications since the beginning of the season, with four reports from this season still out. Anyone having the signers for GNCC, KCIJ, WYFC, and WSAT, please send them to me - they will be appreciated. Received verificies from: WACO WBBL WEKD WOND. Since about a week I am without my EMX-5 and RB-20. Traded it in for a Motorola Television set. Still have my Zenith AM-FM table model for DX. It's pretty hot on RB-20 DX and pretty good on re-producing my record player. Use only indoor antenna on TV. Might some time get an outdoor one up and then try TV DX. Will go to Cleveland for the weekend of March 3rd-4th. 73s.
Musings of the Members

Alan E. Arnold - 1202 South 93rd Street - Milwaukee, Wisconsin

DX past 10 days has been poor due to unseasonably warm weather. 2/19 - WAPX WESE & WCRE all on DXes. WCRE very weak and suffered severe interference from Cuban all-nighters, 2/20 - WMOH (1460) performance test to 2:00, 2/21 - KTRF (1230) regular f/c. 2/25 - HOL (1390) fairly good on DX, WICA (970) on DX tough due to all-nighters 2/26 - CEFH (1400) new all-nighter puts in a terrific signal here; WKOI (1340) f/c-TT announced in code, heard 2:15 ou; WCAO (600) on DX 3:30-4:00, KVSC & WCDL OK on DX. Verif in from WGRM WLVA REPET WAPA KFBU WMAO WATC WISR WMJS WFGM. Have sent out 36 reports so far in February. Veri total now stands at 1094, so the next week should hit the 1100 mark. Hope I can make it at least 1150 by the end of season.

Joe Brauner - 23 Howard Avenue - Willimansett 21, N. Y.

Still a shortage of ETs being heard here. Nothing new except CHFA-DX of 2/13; 4VOM DX of 2/18, heard well enough to identify but that's about all, until WENE's TT. WJLK heard momentarily at 8:00 a.m. s/on on 1310 on 2/18. WJON, ET on 2/19; KJIN, ET on 2/20; KAXE, regular program 2/20; WBSM-DX, one day late, on 2/21, plenty of interference, but not too hard to log; YVNL, finally, on regular Sunday program 2/25; WJNO, 2/26; FEE-3, 3:00-3:30 on 3/5, and KWEB, 1410, ET all Ad on 3/4. Veries, letters: WBOK WESB WSM WAOL KNEU WMAK WACR. Cards: WJFQ WCPM H337, the latter no verie. WCPM finally verified, thanks to v/s in recent "DX News." W9KRD's CE says station radiates a signal equal to 2500 watts in a northeasterly direction, being south-west of the city and beaming into it, which may explain why they get through CKLW here so well evenings. Missed a few DXes lately by oversleeping, Especially mad about WMAK which I needed badly. Don't know though - WJBIK was testing on 1490 when I finally did wake up. Also missed hearing WLEE the same morning. First DX needed where we failed to wake this season. WDSC seemed to be missing again on his latest DX date. WCRE was well heard but not needed. DX continues good but the S's seem weaker now. Lately some one has been heard quite strongly back of WJBIK on 1490 around 6:00 daily, louder than Detroit at times. Don't give call very often. Seems to use foreign language, but also English and most music is American. Think it in call - could it be KTOH that loud? Have not heard him in some years. WJIK, 1600, could be heard here at 5:45, but now signs on at 6:00 a.m. and comes in well at that hour weekdays. Often topping WKNM and WHRV. KWNOR heard easily through WJBIK and unknown at 5:30 a.m. on 3/4, Wish other many needed Wyoming stations would do that.

Donald Kaskey - Galva, Iowa

I had good reception on both Feb. 25 and 26 and added 9 new stations to my log. On Feb. 25 I was surprised to fine KORE topping 1460 from 3:30-4:10 with a good signal, but my biggest surprise was finding HOL sending up a fine signal for the first 20 minutes of their DX on 1390. Their signal failed somewhat after 4:20. WICA sent in a good signal on jammed 970 kc/s, for their DX from 4:30-5:00, and number 4 for the day was added when I heard WMAK (1310) with a good signal from 5:00-5:30. On Monday, Feb. 26, I managed to snap 5 more good ones. First was KXIR (1230) Phoenix, Arizona with their 3:00-3:15 TT-f/c, then 2nd was KXLO also on 1330 with their DX from 3:59 -4:30 with a good signal despite half a dozen stations making f/cs at the same time. Then I was happy to add one of those rare Pennsylvanians in WCDL (1230) from 4:30-5:00 with tough WNRF QRM. I sure want to thank Fred and Charlie for arranging these DXes from some of these rare Pa's. They sure are a swell addition to my log. 4th for the day was one announcement from WNW (1230) on a f/c at 4:45. They broke thru just once. Last was swell DX from WLEH (1180) 5-5:30. Only other addition this week was on 3/2 when I heard XSEL announces on 2:17 for their f/c. I did hear a few others this week that are rarely heard here, such as on 2/25 - WHAX-ET 2:47 on 930; WVOT (1420) ET 4-4:17 plus f/cs from KTVV KRAI KROD KMRK & KGHR. On 2/26 I heard f/cs from KEXI KCWW WJON WJER KFSE KXO KIO KIM & KXEL. DXes of WHRG on the 28th, and KTVN on the 26th were also heard, and ETs of KIP KAF & KJAM on the 26th. On March 2 I heard f/cs of KALT WDLB KRAK KOER, ETs of KMOE KXLM KUHC & KOVA. I also heard two unknowns on 1010, some with music from KICL (1240) and KSNN (1010), a duplicate letter from WKGI (550), and new letters from WFRL (1570), WKGW (1560), WEMT (1230), KBLO (1510), WEEB-DX (1490), KFAC (1330), WJON (1240), and CHFA (580). Total now 1379 heard, 834 verie. This all from here. Next of DX to all.

DON'T FORGET TO GET THOSE REPORTS IN, AND PLEASE CONTINUE YOUR FINE DOUBLE-SPACING!
March 10, 1951

Hal Williams - 50 Third Avenue - Seymour, Connecticut

No DX'ing done since last Monday A.M. on account of working 12 hours, 6 P.M. to 6 A.M.

Seven veries arrived this week to give me 668, and 1 SW verie. 3/25 - WIAQ (500) air-mail letter for ST 1/36 after 3rd report. They also enclosed 2 post cards with pictures of the station - also a SW verie from "Radio Budapest." 4/29 - WSTA (1340) card for DX 12/11. KPEZ (690) card for f/c 2,15, v/s E. E. Cornelius, C.E. So the month of February brought me 24 additions to my reported log and 36 veries. 3/1 - QAXU (1010) QSL card for DX 1/17. 3/2 J WESB long-hand letter from C.E. Joe Sudock for their DX program and a request to report on 3/5 test with return postage enclosed. I hope every one who heard the previous test will send a comparison report on this test as Joe Sudock wrote a nice friendly letter and the last we DXers can do to show our appreciation is to honor all such requests we possibly can. This is verie #50 from Pennsylvania, being only the second state that I have received 50 or more veries from, the other being New York. KSVU (690) Sevier Valley Broadcasting Company a nice letter for DX 2/19. To those who like colorful letterheads - you certainly want this one - 4 pictures in beautiful colors of Scenic Utah. 3/3 - WLB (1270) QSL card for 1/6 s/om, v/s M. Leonard Savage, 05. The only station reported so far this week was WOSH (970) heard easily over WWSW Saturday night 3/3, 11:09 to 12:06 s/off. It's snowing quite hard here, temperature 39° so will leave this open for any additions I may be lucky enough to make before mailing time. 3/4 - WERK (1300) regular program 2:15-2:30 s/off, sent 2nd report. CFOR (1570) 11:15-11:37 PM s/off, easily received over XERF. 3/5 - WWNY (790) CBS news and s/off 11:45-12:00 to 12:06 AM. I have been trying to pick them up for 2 years but never heard them before. WESA (540) news in Spanish with 4 descending chimes signal and station break in Spanish 1:00-1:15 s/off. WERC (1270) s/off at 2:06. KCKY (1150) finally got them 3:20 to 3:35, being given a bad time by CNBC who always covers 1150 here. KBB (1270) completely blocked by the WNR-WITH all-nighters and a continuous test tone on 1490 from 4:00-4:15 spoiled any chance of my getting XCID if they were on. Music heard under tone but not readable. I did hear a station break of KCID at 4:15 just as WESB signed on for their comparison test. Tone was still there but WESB on top with an excellent signal, much better than on 2/9 DX. Hope all NRers who heard him will send a comparison report. WSIP was also on f/c with TT but WESB stayed on top and names of all DXers who reported 2/9 DX were read. TRC (1450) TT-f/c 4:30-4:45. Guess now I'll get some sleep as I have 10 12-hour nights to put in Monday-Thursday, off Friday AM at 6:00 until Monday PM at 5:00, then 3 nights and again Sunday 3/13 from 6:00-6:00. 73s.

Ralph Luten - Elizabeth City, North Carolina

Varies up to 464 - hope to make 500 by end of season. New veries - KANS WACE-DX KMUS-DX WCRW-DX KALT CJRW and WCRR-DX KSVU WQIP KNER-DX WESB-DX WSTA, suplicate, WGAIDX. WESB returned postage with very nice letter - first out of over 500 reports to do this. Extremely nice letters from Sgt. Glenn B. Sampson and T/sgt. Thane S. Garrison C.E., AHD, 780 k/w, Ramsey Air Base, Puerto Rico. Sgt. Sampson said he never expected to hear from the States as had hard time covering the base at times. C.E. said my report first from States and really surprised that his 22 watts reached that far. Equipment used at present crystal-controlled modified BC-329-C transmitter, an eighth wave "T" antenna 60' above ground with a cold-water pipe for ground system. Expects to be on air in about 6 weeks with new equipment and feeding full 50 watts to a Blaw-Knox 1/8 wave vertical tower 164' high. WESB had 20 reports on DX special. No Joe Brauer - many thanks for cards and picture of group at picnic. Also thanks to Ralph Johanns for pictures. About time, eh Ralph? Best of DX to all.

Bernie Duffy - 94 Leader Avenue - Staten Island, N.Y., New York

The past week was a shut-out of catches for me, that causes me to marvel at and "turn green with envy" at the remarkable and numerous stations that our New Zealand members and a few super-DXers here-about get. I think it's great that Mackay heard WSKI and so many other low-powered U.S. stations and also that that Vermont was logged in California, etc. Speaking of the latter state, I find RMC of it the best received consistent signal from there - they're always louder than FIT and KNBC. WNAU, 1430, is an all-nighter again. Heard them 3/5. WESB's second test good that morning at 4:15. Late varieties are a printed card from WSTA, Virgin Island, and attractive letters from KWEB KILO & WESB.

DON'T FORGET TO MENTION IN ALL YOUR DX LETTERS THAT YOU'RE AN NRC MEMBER - IT HELPS!
Most of the roads were blocked as well as many of the streets in town. Snow plows can't do anything with it. Now have a little time for DX though and have logged these new ones. I heard the last few minutes of the DX from WQEB and his swell verie in already. Feb. 19th, WQEB on his swell DX and letter back saying they will be on again on March 5th and want another report. Returned my postcard signed by him/kc/s. Springfield, Ill. heard on his monthly f/c 5:45-6:00. KQIK* (970 kc/s) heard on ET and many AMs since. He is at Billings, Mont. WCHM*, 1150 kc/s, Mt. Pleasant, Mich. heard on sign/on at 6:00 for report. Feb. 20 - KIKN, 1220 kc/s, Lawrence, Kansas heard on ET till 3:00 a.m. Feb. 25 - WICA, 970 kc/s, Ashtabula, Ohio, heard on DX with plenty of QRM. Monday would have been better. Most QRM was from KVOB who is on every Sunday AM. WSAP*, 1350 kc/s, Portsmouth, Va. heard on regular s/on at 6:00 with poor signal. Must be beamed away from here. Feb. 26 - KRCM (1470 kc/s) Coalinga, Cal. on ET most of AM. WCAO, 600 kc/s, Baltimore, Md. on special program but no mention of club. WCDL, 1230 kc/s, Carbondale, Pa., on DX easy here and finally WBE, 1480 kc/s, Richmond, Va. on his DX though QRMed by one or two other one, heard DX through all last 30 minutes. Feb. 27 - WSOO, 1590 kc/s, Marine City, Mich. on his DX though QRMed by one and a bad tone signal on all AM. So far in March I have logged WLOI, 1540 kc/s, La Porte, Ind. on his 2nd day f/c 2:00-2:15 with music. Think KSPT was on at 2:30 a.m. as they mentioned Sandpoint several times, so sent a report. Took a report to GKPH, 1400 kc/s, Toronto, "serving Greater Toronto 24 Hours a Day" - ouch! March 3rd, logged 4YA on 780 for entire hour and very good again this AM, March 4th. This AM (3/5) heard the new KWEB, 1410 kc/s., Wichita, Kansas testing all AM. Question?? Who is the new all-nighter on 1490 kc/s? He is either a Cuban or a Mexican. (CMOX -Ed.) American recordings and announcements by a man and lady in English. On the last three AMs here, those Brazilians are starting to show up here. Have heard the ones on 1200 and 1180 kc/s. Verie in from: WATS KCLS KBKH WAFJ KBOP WPKY WABY CBTA KULE KIKN WCN WEEK WORB WHBI WSEW OAKs4U and KVAN. Last was from a report of 1948 with one follow-up. WPKY plain card signed by Gocdaker, thanks to tip by Lefty. (I don't even have 'em verified! -Ed.) KBKH a beautie and f/c listed in "DX down the Dial." Best of DX to all. WSOO night heard here on Feb. 25th.

Don't forget, new members, we welcome your reports just as much as those from the old guard of the NRC - in fact, we urge each of you to send in your DX doings regularly!
This end of the vacation has caught me with a mild case of the flu. Wasn't able to do a great amount of DXing because of this. New varies in this week from WCNW WDCY Wyn a beautiful card which came by air mail, and WGGK. 2/19 - WKX in good and strong, KSWC with an S 3-4. Missed the WESB DX as I was down at WCRB with Dave Tucker. Incidentally, reception reports on the WCRB DX have been rolling in fairly well. Joe Welch is quite pleased with the results. He also told me that WCRB WPAL and WBOB (90.9 mg/s.) plan do an ET. Watch for details. 2/20 - Believe I heard WQOK testing with tone behind WESD 3:20-3:30. WLOF on with tone. 2/22 - KEID 249-3:01 their s/off. Heard station with tone behind them. Mentioned Brownsville, Texas. Not listed in log. WMAP, 9:00-9:30, WSPR 9:45-11:30, and WTXA 9:49. 2/23 - Stayed up till after midnight trying to log WQIX on 620. They were there, but couldn't read them behind WLBZ WMJ WBNJ. Finally logged them with a readable signal 5:00 a.m. the next day. 2/25 - WORE heard well. Testing on 960 s/off at 3:00. CKCH badly QRMed by WWSF. WICA on late also knocked out by WWSF, but they began to over-ride WSSW after 4:45. They signed off at 5:00. Stations not heard as scheduled this week are: WBSM HOL and WDBC. Here are a few additions to "What the Call Letters Mean." WBN - Edison Electric Illuminating Co. (did owner); KVOD - The Voice of Denver, WACE, ACR Voice of Western Massachusetts, WTHO - notice that 740 can be made from the "tao", WCP - Comedy Square, and WCRB - Charles River Broadcasting Co. Well, must sign off. 173s and the best of DX.

__John W. Kirk - 415 Main Street - Point Pleasant, N. J._

Getting an unknown on 698.5 kc/s. under WLN. Definitely not the Mexican, WEN, on 698. Heard on 3/1 and 3/2. Best between 10:00 P.M. and Midnight. Seems to sign off about 12:15 a.m. I talked to Steve Mann about him, and Steve did not know him, but thought maybe that he could hear them. Believe that he is a Spanish speaker. Pretty sure that he is ZP15, Villa Rica, Paraguay. Any help?

__Albert G. Shirt - 2001 Octagon Road - Camden 4, New Jersey__

I have been getting a lot of stations all over the country on my Zenith portable, reaching all the way out to California and Washington. This morning (2/20) I got WCRB, Waltham, Mass., and WAAX, Montgomery, Ala., good, and WBSB, Bradford, Penna. (Welcome to the NFO, Albert, and we'd be glad to have more DX reports from you! - Ed.)

__Lefty Cooper - 438 East 21 Street - Brooklyn 26, N. Y._

(And what ever happened to that other Cooper?) Verne now stand at 2,048 with the reception of letters from KRUS and WCOX letter and card from CHEA, and cards from WSTA & WCDD, and my prepared card back from WCON, and signed by James M. McAther, Chief Engineer. DX for the week - Sunday, 3/1 - I finally was able to log PEP-9, 640, Port-Alegre, Brazil, 4:00-4:15 a.m., and they're there as soon as KPI signs off. And leave it to my boy Steve - he's gone and found some Argentinians on sign-ons, and thanks to his phone call, I logged one of them, LW-1 on 790 kc/s., which signs on a little ahead of 5:00 a.m., Sundays included, on a clear channel. I also heard LW-2 on 960 (both of these in Corboba) at 5:00 a.m., but decided to take the weaker one, LW-1. It was the wrong decision, for LW-1 gained and held a good half-hour, while LW-2 was gone by 5:05, so I didn't get a log on them. I added two Ka also, in KBBB on 1410, Wichita, and KFOR, 1490, Portland, slipping through WCBK's playlet with music and chit-chat. Monday, 3/2, while anchored on 1400 trying to figure which was WJLE and which was CKRF, on popped WJFR, Elizabethtown, Ky. for f/c" and I concentrated on them and got a nice report. Then looked for KOIL, which was not heard, but a TT was, and also KWI with a lot of jabbering. Then WESB's test, terrific signal here, plus two behind them - WSIP asking for reports (they have 2 of mine if they'd only look!) and I believe, WTEB, Troy, Ala., with band music f/c at 4:17. My hat is off to Grine for that catch of AM - boy, I'm green with envy after reading about that one! Glad to see how well our first Mann-sized DX got out - HOL, that is. Steve Mann has helped me immensely this season with foreign DX which I had never thought possible. They're in there, all right, and boy, it's a real thrill to pull them in. Try and see!

Ralph Johans - 64 East Huron Street (s/s) - Buffalo, N.Y.

WION (1340) Hotel St. Cloud (has a brown on yellow v/letter and uses a brown type) CE

said he gets 35-40 letters a week and also does the announcing and maintenance and gets a little behind in answering, Phelps Monitors 'em during day, but he does 1-3 AM CST on Mondays - Bob Muchow 1/9. KPLC (1470) v/letter by A.B. Craft, CE, a dup but no info. KOED (1440) a rather nice letterhead, Ray Johnson, CE and Asst.'s. Mgr. says will write additional letter later. KRLC (1250) v/card (same as WFIN) in envelope by Gene Wilson, CE. KBW (1000) Acadia Broadcasting Co. Ltd., B.B. Hirtle, CE (brother to manager) sends the v/card and a nice v/letter says, "no set test period, but willing for a DX program." Sked: 6:00 AM (Sunday 9:00). 12:10 AM AST. Transmitter is E-W with null due west when on directional at night. (He tells me: Oct. 11, 1950, WOCM went 1 kw. to 660 kc/s.) WLB (790) 12400 Floradel Ave., Lecceburg, Fla. (transmitter is at Eustis) Jesse A. Brimer, CE says, "WEUS & WLB were sold in 148 and WLIB got torn down, WEUS became WLB. During half of 1950 a Florida monitor checked the days and since a Cuban station causes the days, 2nd Tuesday became necessary (4:30-5:50) J.B. comes from near Cooperstown, N.Y. (I thought Lefty and Dick had that town!) Offside, received card (took 34 days in mail) by PCJ "The Happy Station" PO Box 137, Hill verseum, Holland with program change to Sunday only 9:30 PM-11 PM GMT to M.A. on 11,73 and 9.59 mg/s. (49 meter is for European) by Edward Starti, v/s. DDI (note Arnold) 2/27 KVX (1240) f/e was CE for last Tuesday and no WCKY, WPTO on after 3:00. WKBK special ended, back at 6:00. 2/28 - WHE (860) 5:00 a.m. s/on. WGB (1460) 5:29 on. WSKR/c till 3:36 and WOC special gave 7:00 AM (Sunday 8:00) 11:30 PM, as sked. WCE/c with Birmingham to return at 5:00. 3/1 - 960 KL old Harry Richter saying "Tour station WATT and a Fred Waring number for a Mansfield Mass.-er, then at 2:12, s/off to return at 7 o'clock. 3/24 WJIV (900) 4:14 etc. KYOA (1290) still at it after 4:00. WNAV (1430) said 24 hours. WILK (1450) s/off after news, 1:05. WHEO (1460) TT/c 1:10, etc. WCM (1600) 3:00/c to return at 7:00. WKM (1380) testing at 3:36. 3/4 - KPMC (1550) 3:00 off. WTHL till 3:14. "Our Father" off to 7:00 CST. KXLO (1440) 3:03 to off to return 7:00 CST. 3/5 - WUSD (1490) yet, WIS (680) 4:45-5:20X. TT/s got WAPA s/on at 4:58. 740 had that strong carrier again (KCBS?). 3/5 - KSTR (ex-KXST) s/off 2:00 a.m. to return 6:00, MST. (1280). KTX T/m with Kansas City 2:00-2:15. (KGA call at 2:14) then ET/m to 2:20 off and said he'd verify. KCKY-special got a little Spanish QRM. WFHE (860) Bristol-Norfolk M/c 7:30-4:45 to return 7:45, XRLE on 830 and XHLO on 800 (no CKBC after 4:00) - WSIP/c said will verify all. (Had WESB as W/program company). I see KBOX (1230) deleted and Modesto (970) got call, CE® for 580 kc/s. Timmins, Ont., 930, St. Johns, Nfld., 920, Saskatoon and 1340, Saskatchewan also, and WNF is going to vote for AST (they're 1½ hours faster than EST yet); WWIN (1400) said 24 hours and WAIN (1270) Columbia, Ky. expects to start April 1 regular. The "thing" got into a locker now and so don't open it. Pappy Ed is happy again, for the police transmitter antenna got fixed and reception is good. It took my DDD report 2 days to reach him 6 miles away. Oh well, some varies take 2 years and the bulletin delayed also. WWIN opened 2/19 and took old WCM's place. WJIV will have a special 3/-13, 3:00-4:00 a.m. and so KROL to you (Keep Right on Listening) and WWIV from me (Why I Listen Mondays!)

Mel Oliver - 1726-7 National Standard Bldg. - Houston, Texas.

Still having trouble with the noise level here, but caught a pretty fair morning 3/5.Logged the KCKY special with some difficulty though from CMEQ, but could not get KBX due to the Cuban on 1230 kc/s., nor KOTID. Heard KXKL testing on 1310 kc/s, but do not know for sure that they have completed move from 1490. On 1180 kc/s, heard what appeared to be a French-Speaking station at 4:00 and about the same time a foreigner on 640, possibly PHF-9 or HOK. On 2/27 also heard a French language station on 92 kc/s. after 3:45, but couldn't identify. Have noted a couple of recent changes - KXOL has moved from 1340 to 1330 kc/s, and KVOO is now full time on 1560. Only recent reports were to WKBK KTYL and KCKY, out varies received from KANS WSIX KEPO WCO KSWC and USL. Regards to all.

Peter Leon Jacobson - 5217 South Portland Avenue - Minneapolis, Minnesota 749 stations logged; 128 reported; 52 varies in. The number of stations received an confirmed or verified is not completely accurate as many have not had their allotment time to answer and that is why the variety number is so low. I did not know how to go about getting to be a member or who to get in touch with. I have been monitoring for the FG since 1942. Many many thanks for your time & courtesy. If there is ever anything that I can ever do to help in some small way I will be very glad to do so.
This past week has been a good one at this location. Varies in from KNON PRE-9, and two new countries: letter from Tirana, Albania, and very nice card from Sofia I, Bulgaria. Very pleased to get these last two out from behind the Iron Curtain! Have noticed CHCX, Habana, apparently running 24 hours, sometimes covering 2WED mornings on 1420. Thursday evening, 3/1, 10:30-11:00 PM, HJAN, Ecuadores Unidas, Barranquilla, Colombia, 10 kw., on 750 kHz, was completely covering that frequency 99 plus. Saturday AM, 3/3 from 4:55 sign on to 5:10 fade-out, logged on 590:LV-2, Radio Central, Cordoba, Argentina. Sunday AM, 3/4, during same 12-minute period, logged WL-1, Radio Splendid, Cordoba, Argentina. 1200 kHz. Heard but faded too soon to log, LV-7, Radio Tucuman, Tucuman, Argentina on 420 kHz. All three above identified positively. Believe I heard Argentinians on several other frequencies too. This morning, 3/5, surprised to find WNEW off around 4:00 a.m., so logged PRE-9, Rio de Janeiro, 10 kw., on 1130. Best catch of all was a 5 AM when for six minutes till fade-out, very week, logged A.F.R.S. station, announcing as 66 watts, U.S. Air Force Base, Ramoey Field, Puerto Rico. Believe call is AHM but not sure. Those of you who missed WSTA special in December, here's good news: WSTA now has regular f/c each month. Believe it is 4:15-4:30 a.m. EST first Monday (Ernie heard it yesterday). I will have confirmation of exact schedule shortly from the station. Those of you who are still wondering about 1200 and 1200 kHz, Brazilian identities — during past week I checked these positively and fine that on 1200 kHz, PRE-9, Fortaleza, signs on at 3:00 a.m., and PRB-6, Sao Paulo, signs on at 4:00, usually pretty well-covered by PRE-9. On 1300, PRB-4, Sao Paulo signs on 3:00 a.m.; ZB-7, Fortaleza signs on 4:00 a.m. Usually both are equal strength from 4:00 to fade-out.

Roger Anderson - 335 South Gregory Street - Arlington 4, Va.

This week has brought in more than have gone out, something rare. 2/26 - KFXJ (920) regular sked to 2:00 s/off. 2/27 - KWA (1250) f/c TT 2:45-3:00, KILD (1240) f/c TT 3:15-3:30, WMD (1470) regular sked to 6:00 AM s/off. WGA (560) regular sked 6:05 PM, 3/1 - WUL (1260) DX 4:35-4:30. 3/2 - WBW (1410) ET 4:55-4:55; Radio Trinidad (1395) 4:59 s/on to 5:55. This station requires a very thorough report before verifying. Two previous reports were rejected by form letter. This morning, sent in long 50-minute report. It was excellent AM for south. Varies in (cards) - OAKAY KFXJ KENV CHFA/KEKO KILO WDDI (A.F.R.S.) WBNX WWNS WERS WCEN. Fine letter from WDDI (600), 250 watts, Naval Base, Trinidad, states program I heard was a DX show. They said the would be on AM of 2/25 for another DX. Letter not received till 2:26, too late to notify club. WNAV (1430) new all-nighter. 73s to all.

Len Kruse - 817 Weldon Avenue - Dubuque, Iowa.

The new all-night station, CEH (1400) in Toronto, Ontario, was logged as a new station on 2/26 AM, along with bad WJCL, Detroit, interference. The same morning the WCNX (1150) Middletown, Conn. DX was heard fairly well on test 3:30-4:00 a.m., also having some QRM to contend with. Then the WBC DX special from WOBL (1230) Carbondale Pa. was heard on 2/26 with its hour-long program, but again with QRM this time from WNR, Norfolk, Va., as the culprit. Glad to ad WQDL, and thanks to Fred Van Voorhees for his fine job of arranging some nice Pennsylvania DXs. The 4th addition to my log on 2/26 was the aiding of CJBR (900) Rimouski, Quebec, with its regular schedule of programs at 6:00 AM. The DX test from KSBC (1590) Marine City, Mich. was heard on 2/27, and a welcomed addition to my DX log. The morning of Sunday, March 4th, adding KKXO (1150) in Chico, California, with its last half-hour of regular schedule "Lucky Dance Time" 1:30-3:00 a.m., topping the 1150 spot. Then the new WVBB (1410) Wichita, Kansas heard on its ET 3:30-4:15 a.m., with remarkable signal. At 3:15 a.m. heard a strong TT on 1400, and stood by for a few minutes, and found it to be another new station, WWIN in Baltimore, Maryland, and heard till 3:30 a.m. with the test. The 4th addition was KUGN (590) Eugene, Oregon on with its past program Saturday mornings till 4:05 a.m. The most recent verification letters were: WMT KNEU WOBB-DX KVOD-DY KLIN WESB-DX KCLI.

Dernie Duffy - 94 Lander Avenue - Staten Island 14, N.Y.

Got WTI 2/13 at 5:00 for the only new one after KLIW. WQXO was as loud as a local at 6:00 that AM, precluding any getting the new station the others reported. WCW & KANS varied. Would anyone know who ended a cycle tone test on 650 kHz, at 4:40 2/1? Can't separate the s/on on 1540 at 5:55-6:00. One plays "Lord's Prayer." TRY TO USE COMMERCIAL STAMPS ON YOUR DX LETTERS AND AS RETURN POSTAGE AS WELL.
March 10, 1951

Musings of the Members

Dick Northup - Fox 93, Des Moines, Iowa

Reports sent to 18 new catchers, but only 6 were received. Nice card from WPAM and letters from WXIA. WBAL WCTA WWDB WWLAU. Reception conditions continue fine here except for Thursday which had wind, snow, rain, and thunderstorm conditions. On 2/28 logged WWDB, 1240 kc/s., 1:15-1:30 f/c-TT; WMAT, 1460 kc/s., Natches, Miss. 1:00-1:30 f/c music and open carrier. WCNY, 1150 kc/s., middletown, Conn. weak on DX at 3:45 a.m. WJON, 1240, St. Cloud, Minn. 3:45-4:00 f/c music, and WQGE, Akron, 0. 1150 kc/s., at 4:30 a/s. Think I had the special from WTOR on 1490 but it was too weak to be sure of. Anyhow I recognized a couple of numbers played & sent them a report. May have been KNEK if WTOR didn't come on as scheduled. On 2/27 got up before 4:00 & begged WAKE, Greenville, S.C., 1490, on f/c 4:02-4:15 followed by the test special from WSDD Marine City, Mich. on 1390 to 4:30. WMOE heard on 1350 with all-night show. At 4:57 tuned to 580 at land WBEA Orlando, Fla., signing on followed by WIC, Sen. Juan, P.R. at 5:00 on same channel. WSJS, Winston-Salem well received here on 600 shortly after 5/2/28 - Stayed up late instead of setting the alarm. Heard WTAT, Springfield, Ill. s/off on 1240 at 1:30 a.m. stronger than WWDB. KKLO on at 1:32 with studio party program from Sioux Falls on 1230. KLIC, 1230, Monroe, La. loud at 2 s/off. Same with KVSP Santa Fe, N.M., on 1280. WDIK, 1240, in Nashville, Tenn. good with TT from 2:55-3:05. WJMO, Belle Pla, Ala., completely crushed WJLB on their f/c 3-3:15 which featured music by theHarmony Hawaiians. WJEL, 1330, Springfield, O. was on f/c from 3:15-3:30 with TT & music. They also acknowledged reports from DXers on last month's check and promised to verify. 3/1 had the set on a few minutes when I came home from work and managed to hear WFMN, Elgin, Ill. back of WBEI in La Crosse, Wis., on 1410 at 5:46 PM then logged a new one for me, WLEK, De Kalb, Ill. badly QRM'd by KQGI, Ft. Madison, Iowa on 1360. 3/2 - KVQA, 1290, Tucson, Ariz. loud on 1390 1:15, WLOR, 1540, La Porte Ind. f/c 2-2:15 music & WQNE, Marshfield, Wis., 1450, on for 1 hour f/c-TT 3-3:15. 3/4 at 6 PM heard WNAH, Nashville, Tenn. at s/off on 1360. 3/3 WNAV 1430, Amarillo, Md. at 4. New for me but announced as all-night now. Not for long I hope. WJLL, 1440, Niagara Falls, N.Y. f/c-TT loud 3:40-4:45. WSNF 1280 Salisbury, N.C. also loud at 5 a/s. WISTO, 930, Gadsden, Ala. heard at 5:25 with early-AM program. Same with WSPA, Spartanburg, S.C. & WTVT, Hartford, Conn. around 5:30. Then logged WKOQ 1340, Cleveland, O. long needed on f/c 5:30-5:45. At 5:35: WREP, Augusta, Ga. sounded in on 1460 & managed to hear WUSN, Charleston, S.C. on 1450 through the mass there. WNNK 1600 loud shortly after this as was WTVB, Coldwater, Mich. on 1590. WDBJ, Roanoke, Va. strong 5-6:05 followed by KBXG 680, San Antonio at 6:12. To top the AM off logged WQSC, Greenville, S.C. on 650 through WNEC & later KSKY in Dallas. That's about it for now & will send more dope along later. Am wondering if there's to be a DX meeting in Cedar Rapids this spring as last year & the year before. Will sure plan on attending if there's as, I can get there in less than an hour from her. Good DXing to all.

_Early*Forte-273 North Avenue - Weston 93, Mass.*

My log has grown to 507 heard & 150 verified. I have heard over 100 stations since Dec. Not too bad for a pro, no. Few new ones heard this week are 2/26-5:00 Very busy AM. Caught a little of WCNX at 3:43. WQDL came riding through the L 30 mes 4:03-4:18. Very interesting program. At 4:30 looked for WIC & found 'em. Listened to the WTOR DX 4:33-5:05 when they were swallowed up by WLEK. 5:30 brought me s/off of WWDB. Heard the WNTW DX although they are not new. Not heard here that AM were WCAO KVAB & KXLO. 2/27-Held as sked, WENW WSEC. No sign of WMNS. Also heard WUTL s/off 5 & WQMD 5:01. 2/28-Listed for WQCB, no luck. 3/3-WNAV 3:28, believe not all-nighter. KETA f/c 3:02-3:10 when the 1340 mass covered them. WJHE f/c 3:40 & WJRB 3:43. Veris in this week from KNX KMED & a beutiful one from KXSC with colored pictures of Capitol Wash, Fish Lake, Colorado River, & Tom's Thumb Wayne Wonderland. Reports sent to WLEX WTOR WQDL WNTW WJHE KETD WSNF WENW. Looking forward to DXing tonight. 73s and good DX.

_Euddy Prierley - 1814 Leg Court - Alameda, California*

Hello gang, not too much doing out here in the way of DX but I still get a few hours in now & then. Am having my troubles with noise out here too, most of mine being of electric kind. Most AM's a signal has to be 5-6 to be readable. Kind of a funny noise, it is fairly loud 550-1150, then pretty quiet between there & 1300 & from there on it is really too much. This is lowest season I ever had, heard only 69 new ones, but Q5S has been AFRS Adak, a nice personal letter from CE. DX calendar has been good this year. 3/1- ECON heard announcing as 24 hours. KGBR on special all night show dedicating to the Armed Forces and offering a redwood butt for reports. KENM for TT 3:35-3:40
550 KMVW Walluku, T H PO Box 374, Jked 0525(s-7)-11:05 PM HST, has no regular tests acc to Richard H Mawson, Sta Mgr (Johanns)

610 WKAQ San Juan, P R hrd well 0510-0530 on 3/5 (Holbrook-Md)

640 PRFJ Porto Alegre, Brazil occasionally hrd at 0400 after KFI s/off usually weak. (Holbrook)

698.5 ?? Unknown hrd here on 3/1 & 3/2. Best abt 10PM to mdt, s/off seems to be about 12:15 Am. Definitely not the Mexican XEN on 695 kc. There is considerable clear dial space between XEN & this one is Spanish however. Any help appreciated (Kirk W Va)

710 WTPR Paris, Tenn F/C now 3rd TUBS xxxxx 0120-0130 each month according to letter by C W Jones, CE. (Edge-Bfl)

740 KRMG Tulsa, Okla hrd ET 0525 thru WIBS on 3/6 (Johanns-Bflo)

KCBS San Francisco, Cal hrd testing on 3/6 at 0529, gave location as San Francisco. (Johanns)

790 WLBE F/C now 2nd TUBS (M) 0430-0445, info J E Brimmer, CE. QRA is 1240 Floradel Ave. (Johanns)

???? Think it might be LW-1 Cordoba, Argentina. S/no 0455 and hrd 3/4 & 5. Announces as "Radiodifusora Argentina", strong sigs 0455-0510 when they begin to fade cut. Fade out by 0515 or 0520. Any help will be appreciated. (Holbrook)

820 ???? What Spanish speaking station is here until 0224 s/off. Hrd on 3/4, believed Panama was mentioned. Help please (Holbrook)
