"I am certainly pleased with my membership and urge you fellows in the driver's seat to keep up the good work which in my estimation puts the National Radio Club at the top of the DX heap. It's that up-to-date "hot" news that gives the NRC the edge over the other clubs and removes it from the realm of a strictly social club to a real DXers "bible."

- Hank Ward, Prinoa City, Oklahoma

* Counts for points in the NRC Special DX Contest.

**K N A L** - Victoria, Texas - reports to Douglas E. Smith, C.E.) Write-ups in last
**K U L E** - Ephrata, Wash. - reports to Elwood A. Eby, C.E.) weak's issue

"I shall be very happy to put on a program for the National Radio Club," writes Mr. MARVIN MOBERLY, Chief Engineer. This should be a clear channel test, and prompt verifications are promised, by means of their fine QSL card. Info from S. Rosenbaum

**K F R O** - LONGVIEW, TEX.

This will be a combination frequency check (first ½ hour) and NRC DX (second ½ hour). KFRO will carry N.R.C. publicity, and will play music, and make frequent identity. This is expected to be a clear channel also. Arranged by Sid Rosenbaum (JR Curtis Pres.

**C F C H** - NORTH BAY, ONT.

"We are pleased to comply with your request for a DX program," say Mr. Bainahy, Engineer-in-Charge. This should also be a clear channel and a pleasant program in envisioned from our friendly Canadian neighbor. Arranged by Sid Rosenbaum.

**K F R O** - LONGVIEW, TEX.
11/28 - WIFR test 5:15 a.m. (820 kc/s.). WECO regular sked 5:30 for report. WBSC in the clear, 6 a.m. WCEO s'on 6:30, WCVI s'on 6:39. 11/29 - WPAC on ET to 3:42 a.m. 11/30 - EBHS to 3:00 a.m. WFYC test, 3:45. 12/4 - TAe fair with a Scandinavian language on 1440, approximately 6-9, French on 1241 S-3, BBC 1295 S-2 and several others weak. 12/5, ?3EED ET 1590 at 4:25. T/HAD f/c 4:45. VJEXL s'on 5 a.m., also on 5:00. V/4V may be on late AMs of 13/15 and 16th, annual fund-raiser. If the quota is subscribed early they sign off early. If not, then they'll sign off till 4 a.m. or later. 12/6 - VJHST/ ET 2:45, KBBS regular sked on top 3:15. XSR? on 1290 to 3:30 a.m. WHJC regular sked 5:15. 12/7, conditions poor. Finally a report to WWIN. KCEG heard at 3:50. WEBE thanks lotter and likes very much, picture of ET. 12/8 - V7ACB fair on DX test, no sign of KSCTO as general conditions were tough here. 11/36 - KOIL on Surinam Hi^t Watch, a new regular feature, all-night Wood, CJLO on NRC DX 3:00 a.m. TJATS at 4:00 a.m. Another unidentified test off and on on 1600. KBES to 4:00 a.m. this week, last week to 3:00. 12/3 - SSIO 3:53 a.m. T/HHH test on 1440, 3:07. Slight QH-1 from Scandahovian. V.'S0K ET 3:10 a.m. Unidentified tester on 1320 at 3:48. Have been trying to figure out V/CDL's all-night sked. Seems to be different each week, maybe they don't know what it is either, Verie, WATG - DX. The CPO has a nice line-up.

Verifications have been coming in slowly, due undoubtedly to the fact that reports going out have been just as slow. In recently have been only 3, WOKE WATG & WPA. However I've been doing a little better with listening, even though most of it has been local in nature. Listening since last report is as follows: 11/26 Nice reception of DX from WATG (1340), Ashland, 0. S-9 4:46-5:00; then s'on of WOKE (1430) Oak Ridge, Tenn. 5:00-5:15; WWSS (970) still is a good S-9; and heard WNOX (990) Knoxville, Tenn. on before 5:30 a.m. 11/30- 12:55-1:52 a.m.Logged "Radio Trinidad," VP4RD (1295) with S-5/6 signals through lots of sidetand QRM, then WHE (710) Kansas City, Mo. 2 s'off. 12/3 logged 2X from CHMT (1270) Medicine Hat, Alta, very hard to get, & very noisy, heard 3:10-3:30; WPAZ (550) on every Mon. f/c 3:40; the unknown Mexican on 1340 at 3:55 & KULA (690) with powerful signals to close out the day. 12/3 logged WSOX (1470) on top of freq. a new one in Nashville. In bed 2 days with intestinal flu so on 3rd day, one of recuperation, I really hit the nearby stations which I still needed: 12/6 11:10-11:30 AM, WCEO (1440); 11:17-11:30 WGST (1450)(simultaneous logging) 12:08-12:38 PM WATG (1490); 1:13-1:55 WCAL (1490); 1:32-2:01 WJWJ (1500); 2:01-2:14 WPWA (1590); 2:17-2:30 WOJO (1420); 2:30-3:43 WPAZ (1370). Would have logged others but afraid I'd never get reports out. Then 12/9 very pleased to hear myself as well as the rest of you on WAGE (1380) logged here 8-9 with a bothering carrier from 4:32 after 5. Also took time out 4:44-5:00 to log KSEO (750)(cond'd P.
December 15, 1951

Musings of the Members

(Fred Van Voorhees, con'd) - Durant, Okla., with their very fine DX at S-6. Continued the
morning by logging WACL (570) Waycross, Ga., early s/on 5:07-5:17 a.m. Plenty of
listening here, and I hope to keep it up. Tried to contact Barney Bopp of WMRF
today, but he wasn't home. Will try again, as I well remember the fine specials from
WMRF indays when 1490 was occasionally clear.

-Ralph M. Johans - 64 East Huron Street (side) Buffalo 3, N. Y.
KPRK (1340) Edwin L. Wood, CE, box 691, "Voice of the Yellowstone," sends a photo
card of station and v/letter, sked: 8:00-1:15 weekly and Sunday 10:00-Mon., r/c first
Mon. 4:30-4:45. WSDC (1590) Radio St. Clair Inc., Geo. E. Carroll CE v/letters, no
r/tests, sked Sunday 4:30 a.m. on and Dec. 8-5:00 p.m., Jan. 8-5:15. Thanks
Bob Brown for letter etc., also Herb Campbell, ditto; I usually ask in my report 1,
time/date-verie 2 next f/c and if regular; 3 weekday-Sunday sked; 4, Tower height
and station opening day. That gives my all info on hand for later and also better
reading, etc. for reply. Usually commemorative stamps and so have a little future
value (in reply envelopes) for my nonproductive (1%) time in later years as the
stamp value rises. Thought tho 9th was fonl'n and so missed 3 specials, realized it
the 10th and so after listening to WAVZ C/jc and 1/2 hour calls, then WABC-special at
5 in front and Dick Cooper playing "Semper Fidelis". Oh well, on 1630 WHIL was pedd-
dling Georgia's Wash insurance at 4:35 ayheimi and on 1340 Koa/a, the United Broadcast-
ing Co. was on at 5. 12/4- WSOCK, ENS, 419 4th Avenue North ETed/M 4:15-5:00 am;
they worked in station fast on 1470 kci/a. and on 1440, M/o by WHH 3:42-3:46. A few
others, but more comm., at other times noted. Rand'l Hunt info: AFE (1400) Nome,
also, at 3:30 a.m. 11/11 and 6 hours slower than EST time there; KNSC (680) Monday
A.M. silent; XEHO (680) silence from Sunday 7 PM to 8:30 AM Monday; f/oa: KYIY (1230)
3:40 first Monday; KPRK second Monday at 4; KJUO (1240) 3:45 second Monday; KSUN
second Monday at 4:15; KTKR (1530) second Monday at 3:30; KQRA (copy) now 580 &
f/c same with a possible time change; KVOP (1400) third Tuesday at 2:15; KJUO follows
at 5:30; KGB (1450) second Monday at 4 and KNKU at 4:30, while KYOR is 3:15-4:00.
I hope Rand'l report soon again. On 1490 WVE is only silenced on Sunday, 4:00-
7:30 a.m. That's about all I feel you want to know from me & so Merry Christmas to all.

-Harold S. Williams - 30 Third Avenue - Seymour, Conn.
I took time off from work last night to hear WABC DX and I am sorry. Came in
here swell, I had a borrowed S-meter hooked up and they ranged from S-5 to peak at
S-8. I got a big kick out of hearing Lefty's voice on the tape recording, as Lefty
has been up here at my home so I know how he sounds. After trying for a half hour
I finally got through on the phone and talked to Joe and Dick but get through phone
call so late I missed KSEO. I guess I should have waited to phone after 5 o'clock but
I'm glad I got this in for you this year but am sending a-
long another report anyway. Other DX this week: 12/3 WGXI (950) Richmond, Va. SunDial
program 5:55-7:15 strong signal fading after 7:15 as the sun came up. WAME (780) Ar-
lington, Va. fair afternoon reception 3-4. 12/4- CKOC, 1150 Hamilton, O. news &
election returns 12/5 KSEO (680) Osceola, Ark. M/o 6:30-6:45 good readable signal, quite a surprise, just
getting home from work, 12/3-WHPP (1320) music news & s/off 12:45-1, 3rd report
since 9/28/49. Maybe I'll have luck this time, hi! After WACE-DX took WACL (570) Way-
cross, Ga. 5:40-6 clear, then WHI s/o killed 'em. WXCI (790) Atlanta, formerly Buck-
head s/o in clear 7 AM. WHER (880) Clinton, N. C. good 7-7:30 then complete f/out.
Veries only 4 this week. 12/4, KIBU (1030) f/CL card for 11/25 regular sked; WSDC
came next day. 12/8 - WTAQ (740) & C7-7C (1120) both by letter for regular sked.
On Tuesday I was pleasantly surprised by a nice (but too short) visit from Howard Kemp
of Waterbury. He was in town on business. This time no XII with him so naturally
mine wanted to know where she was. Sorry I can't be home for KBE, WHER & WSTR but I
can't take off 2 nights in a row - still have to bring home the bacon, hi. Sent a
report to WSTR on ET but no varie so sent a note to Charles Palmquist, Sta. Dir., ex-
plaining I had to work and could not listen to their DX and asking them to check my
report on ET. Maybe I'll get an overdue varie anyway. Got to sign - duty calls.

Better send your reports in early on account of the Christmas rush in post office.
Pat Reilly - 11 Irvine Place - Jamestown, New York

New veries are KSVC KSIL WTEC KOLY, and need 5 more to make 2200. 11/27 - Noisy & 200 - KTFS, 710, TT at 3:28. 1340, picked this one up with headphone jack up over my head at 3:40 - it was WJOC. WKFY, on 1340 testing at 3:44. 11/28 noisy and 140, XEAO, 910, off at 3:59. KRON, 1380, coming in good at 4:10. WSRM, 1540, test through WWMT at 4:12. 800 and 900 had same program classical music at 4:20 but too weak to catch call. Wonder if down-under stations are coming through here this late in season? KSVC, 390, "Voice of Scenic Utah" has one of nicest letterheads ever seen, f/c third Mondays, 3:00-3:15 for T & T Radio Measurements Co. of Long Beach. 11/29 - 740 had KGBS overriding WSM on ET at 3:05 to YGFS s/off at 3:15 and WMSG off at 3:23, a new one. 11:00 had TT on and KLEE on top of WTF at 3:25. KFOX, 1380, and KTTO, 1390, very loud at 3:45. 1300 had CW hand like last winter when PRIE was broadcasting. KFAC, 1330, had TT on top to 4:11 but no call. CLEX was good, so took a pause for a while as they never answered before when on 1150, 300 today here. KSIL, 1340, PO Box 690, 1130 - 365 and too noisy. XEAO, off about 4:00 on 910. KPOA, 630, quite good but noisy. WTCB, 1080, test at 3:45. KPCF, 910, test at 4:10. Still wondering about the weak one on 880, too weak to copy. 12/1 - WJUZ on f/c, 1340, at 3:30. My verie was for second Saturday in October f/c. 1390 had unknown, 3:45 to after 4:00 with no voices, also on 900, 4:08 to 4:17, no voice used. 340 and horrible noises. 12/2 - CHAB, 900, 3:42 to 4:00 a/off through CKIAV. Very noisy. 12/3 - CHAT almost impossible to copy as 1360 Mexican slopped over very badly. Who was Mexican on 1340 all AM, XEAO or L W, mostly American tunes, 3:34 to after 4:15 and on top of KCON on their f/c. Very noisy and a touch of lumber and to bed early these mornings now.

Lewis L. Carter Jr. - WEND - Frederick, Md.

Hoped to reach total of 300 station last weekend. Went to 336. 12/1 - 1530, Patch- ogue, L.I., NY, WPAC ET at 2:20. 117-KWVO, Tulsa, Okla. identifiable behind WWVA at 5:45 p.m. 12/2 - 940-WINZ Hollywood, Fl. s/off 12:30 Sunday AM. 1150 - 3 in succession, WISN, Milwaukee s/off 1:00; CKOC, Hamilton, O. news at 1:00 with s/off at 1:05. Return to air 8:55 Sunday. WJDI, Baton Rouge, La. still going at 1:10. 1230 - WCOD, Carbondale, Pa. previously reported, has news at 25 past the hour, announced as news around the clock. Believe they are 24 hours - don't know silent period. Long PI's with mailing address given frequently, including call letters. 1490-WGKV, Charleston, W. Va., tough through competition. 1550-KRES, St. Joseph, Mo., all-nighter Saturday night, waits requests. 1340, at 1147 heard program with commercials from station tentatively identified as KLIX, Parsons, Kan. 1380-KTSN, El Paso, Tex. on s/off, 2. 1550-KPM, Bakersfield, Cal/ s/off 2:03, no break at hour. 1490-WARD Johnstown, Pa. nearby but tough. 1420-KSTM, Stockton, Cal. news at 2:55, with IDs each side. 1610-KOA, Spokane, Wash. rugged through noise, s/off 3:01. 1320, KWHN Ft. Smith, Ark. located in Radio City, beautiful place. Nearly went to work there as PD but took this. 900-CJVI, Victoria, B.C. nearly missed this one. Caught s/off 3:33. Heard KWNH s/off 1320 at 4:05, leaving KXYZ clear. 1310-WTMH, Dearborn, Mich. topping CJKY at times. 1090-KING Seattle, Wash. to through high noise. 810-KOMO, Kansas City, MO clear as a bell on test at 4:40. 300, CKLW Windsor, Ont. s/off 5. 1290-KWQA, Silosan Springs, Ark. s/off 5, Johnstown U. 1350-WSAP, Portsmouth, Va. s/off by religious program 5:30. 1380-WLBS, Asheville, N.C. s/off Sunday 5. Mixed up with WANE, Zanesville, oh. 12/3 - 850-KOA, Denver, Colo. 12:15 with PI. Call letters not mentioned in PI mailing address. No WNSC. 1430-WWAM, Altoona, Pa. s/off 12:25. 1380-WKCM Minneapolis, Minn. easy after 12:30. 1450 found WHC Cicero, Ill s/off 12:58. WPAD, Paducah, Ky. s/off 1:05 followed by WAFR, Parkerburg, W. Va. s/off same time. WPDB, Huntington, W. Va f/c at 1:15, off in time for KSMU, Ste. Genevieve, Mo. f/c with excellent signal. Announcer spells out call letters then says "Here is the tone." WPBB, Miami, regular sked. WJAT, Naples, Miss at 2. WSCC, Harts- ville, S.C. f/c at 2. KFPO, Tucson, Ariz. ann. 24 hours, heard 3:00. 1320, WEBS, Duluth, Minn. s/off 1 leaving KXYZ strongest. 1330, WJPS, Evansville, Ind. s/off 1:00. 1350, WWJW s/off cold at 1:07. 1340, WHAP, Hopewell, Va. s/off 1:30. 1490, WRWS regular sked. Read through it were WINT, E. St. Louis, WPNE Fayetteville, N.C. f/c 1:45. WSMB Durham, N.C., WKLW, Blackstone, Va. asking for letters. 1230-WGLO, Janesville, Wis. very strong with f/c, TT & ams. 1340, 2 TTS messed this up over an hour. Believe I heard KICK, Springfiel, Mo., WTVI Denver, Colo. strong on f/c at 2:30 continuing after 2:45. 1270 tried for CHAT but heard only Spanish.
Our DX from KIWW was very tough — and I didn’t know my good friend Jack was at the mike, in fact, the identifications I heard, the announcer had a decidedly Spanish accent. It might have been Jack’s Missouri drawl, hi. Too much WCKY overlap. WBNL was good, but not needed. The same morning KNAL, 1410, Victoria, Tex., was on to 3 with regular program, all on Nov. 35. CVY was heard on DX on 12/26 on 1450 but not needed here. 11/29 — WCOPL, 1510 in Miami, Fla. ET heard through tough OKOK-WKMH QRM. 12/3 — WKSC 1300 on f/c 2:11-2:29. 12/4 — WSOK 1470 Nashville, Tenn. ETing and asking for reports. 12/5 — KIRAD, 1480, Baldwin, Va. TT-f/c 4:45-4:59. 12/6 — WRSW 1480 Warsaw, Ind. ET to 4 s/off. 12/8 — Plenty of Cubans all over the band. Sent CMX 1190 250 watts a report. They were topping WCO in at 6:58 p.m. 12/9 — WACB perfectly, nice hearing all you DXers. I enjoyed the program very much. Lots of good NRC advertising, hi. KETO good from 4:28 to 4:42. WJQ overlapped the rest of the program. Mr. Parish the CE gave the NRC some nice publicity also. Hope he gets out the veries before putting them in his files, hi. He stated that he filed his letters on his desk and if some one moved them a couple of inches, it was impossible for him to find it, hi. Verifications now total 2,165. New ones are a letter from WHJC to make W. Va. 100%. KXG a nice letter for 11/5 f/c stating from here on out his f/c will consist of music instead of tone. Second Monday 3:00-5:15. WGAF letter. KFKE sent both letter and a picture card showing studio and tower for 10/1 reception. KOA a letter in longhand for 1340 reception 10/1. KMO a form letter and WJFL a PP card for 5/27 reception. 73a.

Karl Raymond - 500 Manhattan Ave. - Manhattan Beach, Calif.

As usual having poor luck with the specials. Tried for KIWW, WBNL and CHED on the 25th but none of them showed due to high static. The rescheduled FEPST not heard due to the change in time — he had a lot of QRM to buck at that hour. CHAT not heard on the third as I received a lovely harmonic or what have you of KNX and KXBB on their channel. Don’t see how KSEO can get through to the west coast at that hour with XKQ still on — same goes for WELC on the 16th, we will have local KXMB on here Monday would have been better. Last Monday the 3rd, KPO was actually off — hope they have given up the all night but a h! We have a newcomer, XLAC on 570 now all night and off Mondays. We only have 11 all righters in this area — through this I should be getting DX! Veries picking up a little with cards from WFPB, WHIO. Letters from WAGF KRAI KJMO KEE KNRR WDOG & KTOH. In the new wave of stations heard here were KNVW & KNRE 1490 both on f/c as per list on 11/22. On 11/25 finally caught KCHJ on ET on 1010. On 11/26 KTOH, 1:30-4:00 s/off on regular sked and same AM WFPB 910 5:30 a.m. s/off and on until Cuban came on. Sunday Dec. 2 WACO, one I’ve been long after on 7:30 s/off with heavy QRM. Monday Dec. 3, nothing new but KYW so copied him for report. Then up Wed. Dec. 5 for KELS 1490 f/c as per list with good signal. Could not bring KOC in on that channel later but am sure they were on. The Mexican on 1540, XEAA was heard running until 5:00 last Monday, could not hear KPDF through him or any of the Texas f/c’s as conditions were not very good. KNVW 980 signs off at 5 Mondays, other nights 7:00. KONA, 580, heard on first Monday f/c 4:00-4:15. Also on first Monday on 1490 6:00-6:15 TT with ann. but too mushy to get call. Any help? He continued on with TT for another 15 minutes until 6:27 without another announcement until he signed off. WTPC 129 says sign on now 5:30 until March 28 when they will go back to 5:00. As this will probably be my last before the holidays, best of the Season’s Greetings to all DXers everywhere and especially the members of the NRC.

Mark Ward - 404 North 14th, Ponca City, Oklahoma.

Despite summerish WX past few days, a few more calls have been garnered on the heard list. 11/30, KSOX ETing following 3 AM s/on. Officially hit the air 12/1, WCOW logged 12/1 s/on as per DDD. 12/3 the following were heard: KGFR s/off 1:05; WHAT Natchez, Miss. f/c & ETing; KATO 1340 barely audible behind a powerful Spanish station (who?); WSOK Nashville, Tenn. 1470 s/c/s. ETing and requesting reports, and lastly, CHAT on DX barely audible at times due to RFI. Despite my earlier reports, KXHH appears to be staying on again, but haven’t checked this out conclusively, still have them listed as silent during daylight. Veries in from KYOC KEMA & WKLX. KEMA in their said they were on with YEARLY audio distortion tests. KYOC endorsed my report & sent it back. WKLX nice letter, seems v. friendly to DXers though verie is rather vague but like Lefty said be satisfied & not incur their wrath by criticizing their efforts. 73.
Don't faint, boys, I'm back again after a long absence. No DX from 4/17 until 11/29. Just too much work, etc. Best of all, June 3 a new station "BAWJ" opened up here in Westfield, in the form of an 8th son - all boys & lively. Then on 5/18 was trucking & got hold of some poisoned food and nearly finished off yours truly. On 11/21 our oldest daughter got married so now have acquired a son-in-law. Then on 11/2 had an RCA TV set installed - it has affected DX some. Verries from 4/8 till 11/29 are: KVIM WTVK WHTC WEIP WELD WIAU WKKX WHEI WYOU WZOB KILB KFDF WOES & YVW. The best yet, on YVQ - was sent air mail and in place of stamps, used the IRC I encased and it went through! Quite unique to say the least. Since 11/29 reports to 11/18 WOKIE on 1430; 11/19 WHAN on 1340 on TT 3:20-3:30 and same morning KNOM on 1340, Oroville, Cal. 4:15-4:45. On 11/23, WWOX on 1560 6:30-7:30 a.m. 11/26, KIWW on 1640 kc/s, on test 3:00-3:50 and tough due to overlap of WCKV. Same AM WENDG on 1540 ran S-9+ and WCKV no overlap, 3:50-4:45. Also WAGL on 570 Sunday s/on 5:05-5:30. Last DX for the AM was WIVY on 1050 6:45-7:00 but last part badly messed up by WWHO. 11/28, WATG on 1340 on DX 3-4 a.m. good here. I was by their transmitter on RT. 42 late August. 11/27, WYIC on 1160 on test 4:30-4:45 copied by WYOU and WXTN on 1320 on s/on 5:00-5:30. 12/1 - KCJS on 590 on test 2:30-2:55 S-7, Q-4. WPAC on 1550, Patchogue, ET 2:15-2:44 99. KEKI on 1150 kc/s, 3:29-3:44 with XEJP QRM. WUSR on 1570 kc/s, TT 3:50-4:00 and WJET on 1750 regular program 11:00-11:30 a.m. 12/2 - KASH on 1600 2:56-3:06 a/s/off with end of a perfect day. Also WFTM on 1150 Sunday s/on 5:12-5:30. 12/3 - KVOO on 1300 kc/s, f/c 2:15-2:30. CHAT on 1270 kc/s, on DX 3:05-4:02 with some fading but a fair report. 12/6 - KASH on 1150 kc/s., Albany, Minn. 3:09-4:01 12/9 - KHEP on 750, 4:15-4:46. No; WJR didn't side-lap over but signal only stood S-1 on the meter. No static, though. WAGL DX was good 4:50-5:00 - last few minutes carrier of WLOS bothered some. Verries, yes, a few. KNOM WHEN WOKE WIVY WATG WJEF & WCBS. KNOM tests on third Monday after 4 a.m. with Press Wireless Monitoring Service, at Napa. On 11/28, who is Spanish that causes such confusion? Even the Pacific stations seem to back up for this one - otherwise DX on that channel would improve - wish some of the other spots like 1400, 1460, 1320 and 1490 would have one morning a week off - did feel lucky last season on 1490 when all-nighters were absent.

Bob Sanderson - 2073 Waverley Avenue - South Burnaby, B.C.

Verries have been coming in very slowly of late and only a few received since my last report. Verries in from KROD KGCU KNOR CJCA KLIX KYYY CFCF CHAB KONO. In my verie from KLIX, GE D. K. Cederstrom, W7PPJ says that they are moving to 1310 kc/s. Shorty and they would like reports on the new channel. 11/14 - KUTT (920) Wichita Falls Tex. good signal at 7:00 a.m. KOIS (1540) Ft. Worth, and KEBE (1650) St. Joseph, Mo. at 7:20 and 7:23 respectively. 11/18 - KULF (750) Ephrata, Wash. heard here on s/off at 7:30 p.m. 11/19 - KJNO (850) all-nighter, heard at 5 a.m. WIL (1450) St. Louis, had a fair signal at 6:55 but only one musical selection was heard. 7:06, CKY (580) Winnipeg, Man. heard, and at 7:20, KSBE (590) Jamestown, N.D. 11/23 - KPUY (1450) Fayetville, Wash. s/off at 5:45 a.m. 9:15 p.m., KIHY (1450) Juneau, Alaska, had one of the loudest signals I've heard from there. They covered KION & KIMA, which is only about 200 miles from here. I have neglected to give the location of South Burnaby in previous reports, so in case anyone would like to know, it is about 5 miles east of Vancouver, B.C. and has a population of about 60,000. 11/29 - KGAL (920) Lebanon, Ore. at 9:52 a.m. I slept through their DX program on 11/13, 12/2 - KVSM, San Mateo, Cal. and WJSO, Wasco, Cal. both on 1050 at 7:30 p.m. 12/3 - CHAT (1270) well heard on their NEC DX. Wibli (620) Knoxville, Tenn. at 5:30. KXOK (630) St. Louis, Mo. s/on at 6:30. WOW (580) in Omaha, Neb. heard at 6:35 a.m. WIBR (560) Topka, Kans. at 6:00 for my first Kansas station. WOZ (540) Ames, Iowa at 7:05. KCIL (1410) Ft. Collins, Cal. at 7:45. 8 a.m., KXNU, 510, Logan Utah heard on s/on. CFQC (600) Saskatoon, Sask. s/on 3:04 and WICN (1230) Minneapolis 3-8 at 8:15, 73.

DX improving here despite freak weather, all time new highs and thunderstorms. Have not fared too well on DXes. Spanish speaker on 1340 all morning the past 2 Mondays ruined any chance I had to get KFST; KXOG also missing, but heard him before, and heard him again on 12/3 at 4:00-4:15 with musical f/c. CHAT was weak here, but verifiable. New DX good - WPEB strong on regular f/c, 12/2. 12/3 proved a good date here, WNBV strong on f/c, thanks to tip in "DX News", WNOO, 1150 fair 2:40-3:00, first time this one ever got over KBC and the Mexican for me. KOKR also heard briefly at 2:55 but lost by 3:20 a.m. s/off. WSOY, strong on 1470 ET, ended this morning, making 4 new ones. 12/6 found 950's tone barely audible through WMO and 1470/40 are data, to try again using f/c from weaker one, 5:35 to 6:15 a.m. on regular f/c. On PM of 12/7 we tuned in WJH on 140 for veries data, to try again using f/c from list in hopes of a verie on long unanswered reports. Le $ dial at that spot, woke up at 4:15 on 12/3, throw switch, and in a moment heard music on 1440 turning out to be ET from WJH, to 4:30, one we've been after a long time. Soon after that located WJW, 1820, with powerful ET till long past 5 o'clock. Veries, nice letters from KWCW, WSBP, KPBK, WHIC, CCK, NWTR. One of these delayed tip cards like Bernie's arrived here too, postmarked 5/11/44 at North Girard arriving here on AM of 11/27, some local service! 13 days to travel about 100 miles! ???? DX poor here on 12/9, strong local buzz most of morning, weak signals, mild and raining. HJCZ, 710, clear as a local to s/off however, thanks to tips in Fred's interesting column. WPCO, 750 would have been fine on a normal December day, but his S-6 carrier matched by local QRM and readability less than 30% on what sounded like a swell program. WCZE also wrecked by noise, bad fading. a. a stronger carrier on much of the time, think WLOS was the one there after 5:30, DX so poor that although KGJ, 980, was good, WSSM, 970, was a total loss, and much weaker than WCZE's S-6 early show. Our DX became weaker later and was almost unreadable after 5 o'clock. Nothing else of interest heard except that WBJY, Bowling Green, Ky. came in nicely on 1410, 7:35 a.m. (Sunday) s/off. WHIC, 1360, is coming in nicely on his 5 a.m. regular s/off. WHIC, 1060, has f/c first Tuesday at 5:00 a.m.

A few veries trickle in. WBOY, 700, clear as a local to s/off however, thanks to tips in Fred's interesting column. WPCO, 750 would have been fine on a normal December day, but his S-6 carrier matched by local QRM and readability less than 30% on what sounded like a swell program. WACE also wrecked by noise, bad fading. a. a stronger carrier on much of the time, think WLOS was the one there after 5:30, DX so poor that although KGJ, 980, was good, WSSM, 970, was a total loss, and much weaker than WCZE's S-6 early show. Our DX became weaker later and was almost unreadable after 5 o'clock. Nothing else of interest heard except that WBJY, Bowling Green, Ky. came in nicely on 1410, 7:35 a.m. (Sunday) s/off. WHIC, 1360, is coming in nicely on his 5 a.m. regular s/off. WHIC, 1060, has f/c first Tuesday at 5:00 a.m.

Listening to the special two-hour DX program on December 9 from WJH, Kittanning, Pa. brought back the happy memories of the convention over the Labor-Day weekend. I listened almost continually for the two hours, although I'm sorry to say a strong carrier on the 1380 spot caused a heavy interference to WJH's signal. On the same morning, I listened to the KSEV DX-test from Durant, Okla., although not a new one in the DX log. On 12/3 the new WSOY (1470) s/ed, Great, was heard on the WMO at 12:30-4:00 a.m., well over WNOO. Then on 12/6 WSOY (1450) Albany, N.Y. was heard testing their auxiliary transmitter 5:05-5:30 a.m. And the ET from the new WJH (1280) North ort, Ala. was heard on 12/9 from 5:15-5:30 a.m., in the clear. Five veries were added to my collection the past week to make my total count stand at 2011.

Letters came from WACB-DX, KKKD, KWIR, KWOB, WELM.

Mal Oliver - Houston, Texas
Not much DX activity here. My SX-42 is in need of annual check-up and particularly a new volume control. Shall have it fixed in a couple of weeks if no sooner. Have sent in any reports yet, but like most of the others I'm hearing YSBB nightly. Best CA here though is TQN on 1160. TQX on 1060 doesn't seem to be as good as last winter but still readable at times. These are only 3 foreigners (except Cubans & Mexicans who monopolize most frequencies here) heard regularly. 11/27 some one, probably a Cuban, was really hazing WFAA on 820 kc/s.
Only two listening periods the past week and varies continue slow. Dec. 9 - KHJW (910) Sherram, Tex. on a Charity Auction 2:00-3:00. *KWHN (1320) Ft. Smith, Ark. on regular Saturday "Night Hawk" show 3:00-4:00 and on. KSEO (750) Durant, Okla. on NEC DX was 11 minutes late on s/qm, but Curtis Parish the CE really went to town with a swell show and plenty of NEC mention. Members' names were read in state groups and the boys from Ponca City and myself came in for an extra big hand. KSEO and Curtis Parish deserve a big hand for their friendly NEC show. The WACB (1380) Dy in strong with the big show I've been waiting for and I wasn't disappointed. Thanks to Joe Pelletier who made this fine show possible and Dick Cooper et al. Yes Sir! The a.m. of Dec. 9th was a great morning for the NEC. Dec. 10 - The steady chatter of the OMEC announcer killed all chance of hearing CEH on DX. Heard short portions of a program I believe was CB50 but, nothing I could give as proof of reception. A W station on 1370 testing and identification at 4:00 was distorted. Sounded like Jervis (?) was location. KWHN (1400) heard on f/c 2:00-2:30 through QRM. WOK heard to s/on 5:00, on 1650 with news. Has this one moved from 1650? WACB on DX with a nice signal. WSMR DX blocked here by WADC. WSTR DX in with fair signal, but distorted at intervals. A very nice program with NEC publicity. Veries in are letters from KIOJ and KPRK. The big OMOR letter says in part, "Our normal program hours are 7 AM to 11 PM PST Monday through Saturday. On Sunday, 8 AM till 10 PM PST. We run a regularly scheduled f/c with Press Wireless, Inc., in Napa, the third Sunday of each month from midnight until 1 PST. If we fail to reach Napa (which has always been the case so far) we throw our transmitter on the air on the following Monday a.m. after 3:00 EST." KPRK veries says regular f/c is first Monday of month 4:30-4:45 EST. Glossy photo of transmitter enclosed with letter. A letter from WGNR (1340) Tifton, Ga. says their regular f/c is first Wednesday 3:15-3:30.

Pat Reilly - 11 Irvine Place - Jamestown, New York

New veries back are WGBY WSIS KPKC and read 2 more to make 2200. 12/4 - CMCH, 790, at 3:31 until ?. WJWM, 1230, on top of mess at 3:55. WCNE, 1380, off at 3:55, the KFOX off at 4:00 and an unknown Mexican off after KFOX left air, unknown one to me. 1320 had a tester at 4:04 with CKW behind but no call heard. WSEO, 1470, 479 4th Avenue, North, on ET at 4:14 with XESM KHM. WJIC, 1350, went on at 5 a.m. to sun down on Dec. 2 at 2 p.m., says their CE, S.L.Davis, in verie. WSMR, 740, World's Greatest Suburban Market, 273 Main Street. 12/6, too noisy, unknowns on 900, 3:00 to 3:30, no voice with carrier; 1560, TT 4:00 to 4:22, no voice yet when I quit, 3:00 and fog thick enough to slice with knife. KPKC, 1740, PO Box 952, a very nice letterhead and nice picture card, f/c first hit 4:05, 4:30-4:45. 12/6 - 460 and raining. 880 had a weak one on at 3:07. Believe 1390 is "Radio La Preste" XEVR, El Cadena California (The California Network) but can't catch the location. 1270 had a f/c at 3:45-4:00 but noisy every time call was given. 1380 has a Mexican on after KFOX s/off at 4:00. WUBR, 1340, f/c 4:00 to 4:15. KHOI, 1300, at 4:35. 12/7, no DX. 12/8 - Unknown on 690 or 695 in foreign voice, 3:27 to 4:00, no voice yet when I quit, 3:20. WMPT, 1280, ET at 4:23 to 7? for a new one. WWBA, 1340, test at 4:48. 900 had 2 unknowns on 4:05, one with tones and other with weak voice. 12/9, weak one on 745 at 3 to 4:05 at 3:17. Dooo what tongue was used. German or Dutch I'd say. WACB had a DX - what a DX! After my phone call and wife talked also, had to explain to my wife that "El Capitan" that Dick played for us, was "The Captain" and meant that she was "the boss". Stopped at 4:45 to catch KESQ until they signed off, then back to WACB until 5:15 and to bed. 12/10 - Unknown s/off ET at 2:57 to 1390, then a TT on 1390 most all AM but no call. The same on 1380 with no voice used at all. WGAU and one with weak TT, 1340, at 3:30. WNY, 810, test at 3:30. Guess announcer was the short wave announcer as he was all fouled up which he announced call. KCLS and Mexican on 1340 at 3:12 and KCSQ on f/c. Believe it is XEEL. 1390 had a TT on all AM until 4:35, not a call heard at all. KFAC 1310 had a TT on and off 4:00 to 4:20 when I moved, no voice used. Heard CEH when they came on, 4:34. They were in back of KTACC and tried my 3 antennas. I had KFAC and the third had GNCB but no CEH. Could not keep my eyes open for the later DXes as they were op too late for me. 450 and rain and sleet that made it very noisy. Had a very bad buzzing on and off that over-ride all signals.

Musings of the Members.

15 reports out, with 4 varies in during the week of December 3rd. Varies, all letters from WHJG 1360, test 11/21; WLMX 1300, f/c 11/21; WHRN 1140, regular; 11/27; and KWCB 1300, test 12/3 with varies here on the 7th, reading in part, "As I usually write, there is no need in telling you the value of your reception reports. Where possible I like to run programs for the WJCH but this is impossible with a daytime only station so we just have to do the best we can under the present regulations. Thanks a lot for the fine report, good luck, good listening, and 73s." Signed H.M. Morris, C.E. Would that there were many more CEs like him! Still looking for varies on the following November DXes: KJNO WATG WBNL WUX CJBQ, plus 16 other reports since Sept. 1. Reports this week to CJO 1230 12/2, regular; CAT 1270, 12/3 DX; WSOK 1470, 12/4 test; KFV 550, 12/4 regular; WMLX 1290, 12/4 basketball game (still looking for one from him for report of 12/6/50); WCOM 1230, 12/6 f/c; WAGA 1340, 12/6 f/c (another holdout from here since 10/12/49); WPOD 1340 12/6 f/c; WMBV 1480, 12/6 test; WYK 1230, 12/6 f/c; WEAL 1090, 12/6 regular; KMIR 1450, 12/6 f/c (finally heard one of the two Montivideo's); KSBO, 760, 12/6 DX and our own fine program from WABC. Joe and Dick put on a fine show. The best of Holiday Greetings to all you guys and gals!

Ted Weiser - 12 Fairview Avenue - Tunkhannock Haven, Pa.

Some recent varies in - WACL WOLL CBN WELS KGH WANT CKFH WILM WJCL WATQ KJPF KSIX WAYS WBOO. On 11/10 heard WKQ (1580) 5-15 to 5:15 p.m. s/off. Couldn't find anything on him. Also gave him a report from 11/11 & 12, later saw in "DX News" that WKO was the FM station before as 11/12 logged. 11/12 Logged CKFH (1400) over WJLE at times, and WSST (920) 5:30-6:00 a.m. on 11/2 and 11/13, on 11/19 logged KSIX (1230) in the clear most of the time 1:30 to 2:00 a.m. - quite a surprise here and also to KSIX down there who sent a very nice long varies letter. WJCM (1340), WIEL (1400) on f/c, WUX on DX Test 11/20 - WHC (1350) TT, carrier, and brief call 2:44 a.m.; WBB (1410) on test 11/32, KGJF (910) on f/c; WORL on 24-hour "Millman Matinee" Tuesday through Saturday; KJTF (1700) on f/c through WMBV, nice varies letter back, Wayne Hatchett new manager. 11/26 - CEW terrific signal 1 to 1:15 s/off. WLCK (1450) on f/c. MAIN 12/6 on f/c. Logged WAYS 5-6 a.m. through WIP on 11/26, much easier on Tuesday 11/27. The anomalous, Alonso G. Squires is blind, and has been since birth. He is with VAYS for the past 8 years, nice long varies letter from CE. 11/27 - WBOO (780) and voice at 5:45 a.m., nice v/letter back. 12/3 - WJCL (900) logged on their first program of the day 7:15-7:45 a.m., WBOO heard very well 7:25-7:36 a.m. through QRM. 12/3, WBOO (1600) on f/c; KFV (1340) on f/c, could have been easier but WGNI was S-9 with carrier and tone. KQRX hard near s/off. WAC on ET. 12/4 - Logged WAZ (1230) during the afternoon with WPAA overlap. Kenneth Read, new CE at WELS will be glad to verify all reports anxious to get same. KSIX sent varies letter by airmail, The logging of KSIX (1230) has been my best catch for a while of a station on regular sked. The G.M. anxious to know if I can pick him up again. Will surely drop him a report if I ever do again.

Bernie Duffy - 24 Lander Avenue - Staten Island 14, N.Y.

Additions to my log the past week number but 2 - WSOQ 1470 and WHOF 1390. Balancing off against new varies during that period I got letters from KFV and new local WGM and postals from KFL and WJH. 12/9 - WOHP 1390 ETAd at 2:15 till 2:45 s/off. Some unknown off 1240 at 3:15 through high noise level - I wonder who? WACB's friendly DX at 4:00 loud but muffled at times. He told of KQAN, 360, scheduling test for 12/10 at 5:00. I was disappointed in being unable to hear KMQ and KSEE 12/10 - WSTW's DX started at 4:20 for an hour earlier and longer DXcast, due to mix-up in C.S.T. as against E.S.T. for the scheduled special. WACB's second DX spoiled at its 5:00 a.m. s/off by WAYS's identity and open carrier test. I was unable to hear off-heard CEW's DX or anything on 1340. WHIL, 1300, seems to be the newest one to go on 24 hours a day.

J. W. Waldron Newman - 68 Oak Street - Tiffin, Ohio

How's DX? Here just don't get any done. Have been away from home since middle of May & haven't done any DXing since. An only back in Tiffin weekends. Am out of office as field engineer on a water plant construction job in the NW corner of Ohio at Wauseon about 70 miles from Tiffin. Hope to finish up around Christmas & get back home for a while. Have been rebuilding one of my receivers for use up here and making up a new power supply for it. Maybe I can DX a little here then.
WACB in here swell all the way. A very nice program, gang, you all sounded swell.

DX good this week and log now totals 728 heard. DX still good and proving very fruitful. 12/3 - WMIA 1360 in easily over WQAR 8:30 p.m. 12/4 - Delighted to hear WKVM on his new frequency of 1370. He has been coming in around 7 pm and is much stronger than CEA at times. 12/5 - PX DX WESC, 1130, heard at s/off 4:46 with QRM from WWOI and WFOX. WMBI 1110 in strong over WAT at 5:00. 12/6 - Hunted for the new WPAC on 1560 and got him after WPAC's s/off at 4:15 p.m. WPAC had a good signal until their s/off 4:30 when WZKO, 1580, came through and dominated the frequency till 4:41. Noticed a station in behind CMA and it turned out to be WMAZ, 940, for a new one at 5:30. 12/7 - KALL 910 heard easily at 2:27 a.m. not new here, though. KJBS 1100 on clear channel, but weak at 2:30. Don't know when he signs off. 1270 had a coaster which signed off at 3 a.m., but I missed his call because of QRN. KFOX 1260 logged until his s/off at 4:00. KJSL 900 TT with tone 4:47 and having a bit of trouble with another carrier. Heard WWIN 1320 6:19 and easy to log until 5:30 when WMSC s/off. WMSC was also a new one here that day besides WWIN. WHAZ 1330 signing on at 5:00 and having some QRM to buck. 12/8 - WACB 1380 in O" here with only slight QRM from a carrier on in the background during the first 2 hour or so. Later on WLOS put his carrier on giving WACB some trouble, but WACB stayed in there till the end of the show. Had trouble hearing KSEO 750. He was very weak and practically unreadable and lots of QRM there, too. Seems' to have trouble here with local QRM from the neighbor's oil burners. Should call 'em up and talk to them they're interfering with our DX shows, shouldn't I, hi. Happen to notice a station on 1590 at 6:25 which was WOOU, but he gave call which sounded like WINX, Rockville, Md. Can some one help me on this one? No varies in this week. Reports out to WPAC KFOX KJSM WWIN.

Lefty, have you heard that the FCC may open up a phone band 100 kc/s, wide in the 40 meter band for ARRL and DX clubs? 12/10 - CSH 1330 good all the way here. No luck on WMER, 1350 - QRM from WDC. KSL 1340 on f/c 5:15. s/ons of WHLC 1360 5:05, WHELL and WERC 1500 6:00. WSTR 1430 OK for 20 minutes, but QRMed out by WENS' s/off. This ends a very nice week of DXing. 73s and best of M.

Reports out to WPAC KFOX KJSM WWIN.

Lefty, have you heard that the FCC may open up a phone band 100 kc/s, wide in the 40 meter band for ARRL and DX clubs? 12/10 - OBH 1330 good all the way here. No luck on Y/SJIB, 1350 - QRM from V'DC, KSIL IMO on f/c 5:15. s/ons of V'HJC 1360 5:05, V'HLL and WIEC IS00 6:00, V'STK 1430 OK for 20 minutes, but QRMed out by WBNS' s/off. This ends a very nice week of DXing. 73s and best of M.

Pete Leon Jacobson - 5317 South Portland Ave., Minneapolis, Minn.

More on WOCC. We now have all the audio section and transmitter of 100 watts and also the turntables all ready to go. We had hoped to have the station on the air by 1/15 but it looks like it will be about 4 days late. So opening date will be Jan. 19. One thing we do not have to worry about is we have most all the sponsors we need which is great. When many radio stations come on the air they do not have even the sponsored time so we are really lucky. The station will carry only around 20-25 miles. After all we are only interested in our local area. As I said before we do not need an antenna as the power is fed right into the power line. Latest varies, KXRA, Alexandria, Minn. 1490-250 11/12-3:00 A. Broadcasting Corp. "Your report this time is of special interest to us as our official monitor, Phelps Labs, in Minneapolis was unable to pick us up or out of all the other signals on the air that night. He also said I was the only one in the north central States, What is wrong with my friends & fellow DXers down in Iowa? How about trying for KXRA and send them a report on their f/c, 2nd Monday 2:30-3. KYR, Bismarck, N.D. 550-5000-NBC for 11/18. Meyer Brdr Co. KEOU, Ft. Worth, Tex. 1540-5000/1000, 3607 Camp Bowie Road. KATE, 1590-5000. State National Building, Public Service Partner of the Houston Express. "KATE operates on 5 kw. day and night, non-Sunday days, 4-tower box array, major lobe 1400." Report of 11/19. WZEZ, Kalamazoo, Mich. 590-5000-NBC, 11/14, Burdick Hotel. "WZEX Hotel New Orleans, oh boy, what a nice letter-Read from WBEZ! This is one I think all of you would like, a very nice picture of some of the downtown district. WQVR, New York, 1550-10000, N.Y. Times, 229 W. 45 St., 11/22. This was their auxiliary transmitter from Madison, N.J. WQXR was 10.0 watts at the time. WWSI Owensboro, Ky. 1460-10000-NBC, "Owensboro on the Air, Inc." f/c is during day by K.C. Hours, 7-1 weekdays '8-1 Sundays. RKO San Jose, Calif. 1590-1000, Santa Clara Brdr Co. 24 hours except silent 10 PM Sunday to 6 AM Monday-Friday. 11/17. WQAE Pittsburgh Pa. 1250-5000-ABC, Hotel Wm. Penn, 5:45-1 weekdays, 3:30-6:00 Sat. CFTH Toronto, Ont. 1460-250, Foster Hewitt Brdr, Ltd, Greenville St., 24 hours except Sunday when they s/off 2-8:55, WILL, D. U. of Ill. Urbana. Enclosed a program listing. QSL cards from KFWB, 980-5000 for 11/14, 4 a.m., WSOO 1230-250-ABC Sanite Ste. Marie, 11/14, 2:40 AM. 5:30-6:00 regular sked, f/c 2nd Wed. 21:30. I guess I better call it quits or Lefty will have 40 fits. So best of luck and DX from your friend Pete.
Standing in NRC Domestic DX Contest as of Dec. 10, 1951, from Bob Gorsuch

8 - Al Arnold, Ontario, Cal. 2

9 - Clara Wachtel, Cedar Rapids, Ia 1 Add: WTOP

Come on, all of you, and send in what you have even if it's only a couple or so. Let's make it a race for last place too! And all join in the fun.

So far 42 of the 150 stations have been verified by at least one of those 10 who so far have points. KATU is entered by 6 to lead in popularity. KONA is second with 4 and WILM WTOP KXM WRM & KRAM all have 3. All the rest are 2 or 1. Next listing will be Jan 19 with deadline in Cedar Rapids Jan. 13. Send your stations ins on a post card or letter as you get them rather than all along lists at the last minute before deadline. Things have been fine in this regard so far, but I can imagine a pile of work all at once if it should occur. Thanks, and good fishing to all. May everyone in NRC enjoy a Merry Christmas and the New Year bring prosperity, Peace, and Happiness to all. - Bob Gorsuch - 2509 D Avenue N.E., Cedar Rapids, Iowa

Dear Mr. Rosenbaum:

"In reply to your letter inquiring about a DX schedule for the National Radio Club. At the present time we are in the process of conducting a series of tests. We are on the air every night from 1 to 3 a.m., M.S.T. This schedule will be in effect until at least December 22, 1951. I hope this will give you sufficient time to publicize this. I might add that we will operate at 500 watts. The program will be half-hour programs recorded from the lines of the Mutual Network. The only station identification will be between programs. Very truly yours," (signed) Robert A. Lebock, Chief Engineer

We remind you all that commemorative stamps decorate your letters and make them more interesting even before they are opened. Many use them - why not every one?
Actually doing a little DXing, but results aren't anything wonderful. 11/19, WHAW 1340 at 3:26, f/c. WGW 1340 f/c 3:30. 11/20, WHWD 3:45, ET, 1470 kc/s. WNEW 1540 4:03 on their special. 5:10, 520 kc/s, WDJ, who are they? (Waycross, Ga. -Ed.) I could use Carroll's new log soon. 12/3 - 2:30, 1395 kc/s. Radio Trinidad, I imagine, with a deep English voice, but couldn't bring them through for a report. CHAT 1270 kc/s, 3:07-3:31 after a real struggle for a brief report. The log is creeping at a snail's pace - now at 1454, and not a verbiage received for two months. I enjoy Fred's Foreign DX Digest very much, it's a real asset to the bulletin. I won't make any promises about DXing a lot in future, but perhaps cold weather will make the old DX bug bite a little harder.

Additional info from Lew Carter

12/3, WSOK, 4th Avenue North, Nashville, Tenn. asking for mail at 3:15. 1450, seems like WJMM can't leave 1450 along. On their night off they tested at 3:33. 1290, KOIL Omaha, Neb. with "Night Watch." 12/4 - Tried dial at 8:30 before going to WJMM. 970, WVOK, Viroqua, Wis. 5000 watts of daytime power, 750, WJMM, Baltimore, Md. 1,000D, 880, WEBC, Fort Worth, Texas, 500D. 820, WJRA Dallas, Tex. always heard at night, very strong in Abil. 8:05. 970, WICA, Ashland, Ohio, with PBL at 8:13. 1130-WOAR Pontiac, Mich. over WJMM. 1540, WBCS Bennettsville, S.C. 10000 D topping WLOA, Breda, Pa., 1000D. 350 in 12 days, with so much DX, letters getting out very slowly. You may know this already, but 1090, WBAI, Baltimore, Md., 50000-D/36 just released information they will begin serving the public 24 hours a day. They did not name a silent period, and they did not say how long this 24-hour stuff will last, so I presume it is for an indefinite period. Also, 1340, WINX, Washington, D.C. moves to WSOK's frequency and becomes daytime while WSOO moves to 1340 and becomes full time. WSOO programs to Negro audience. This info by hearsay.

Lefty Cooper - 483 East 2nd Street - Brooklyn 23, N.Y.

Circumstances forced me to do this entire bulletin in one evening, and it is now 12:42 a.m. and have I been cussin' you guys, hi! Seriously speaking, it would help me a lot as Editor if you would try to be slightly more concise, and omit technical information, and to double-space your reports, and to use one sheet of paper on both sides, and also to avoid weird abbreviations. It may take an extra 3 or 4 minutes or so to type your own reports (or write them) but it would certainly save me some scarce time here, and would be appreciated. I don't mean to be brief and omit all color from your reports, of course - you and I want this "DX News" to continue to be the best in the world, but I don't like to be groggy on Thursdays when I sit down to operate the complicated bookkeeping machine, where one error ruins the entire day's work. So, thanks, fellows - I know you don't realize the time consumed in Editing "DX News." Well, I was hollering that varies were coming fine last week - this week I'm just hollering! Not one teary eye! As to DX - XENA (540) San Luis Potosi, is in the clear daily 1:00-1:15 s/off. 12/9 - WOHP (1390) Bellerfontaine, Ohio, on first ET to 2158 s/off, and back next day and off about that same time again. WACB's DX was the one I had been waiting for, and it had got spoiled by a carrier reported by RDA as being NE of Riverhead, seeming to indicate it might have been CEPA in Victoria, Erick says he thought it was WJUG, Fort Payne, who tested the AM, and some thought it was WLOS. On Monday it was WAK. 1380 is almost always clear here, and Joe and Dick picked two mornings when testers decided to prowl, as luck will have it. I did hear my own dulcid tones, and the others, hi. I also phoned. KSEC picked up in spurts during musical numbers on WACB by fast and furious dial-twisting. And that does it for this week, and see you all again one week hence, if the mails permit, hi.

French-speaking people in the province of Saskatchewan have contributed $588,000.00 to finance French-language radio stations being built at Gravelbourg, Sask., and Saskatoon. Both stations will be owned by the contributors. The Gravelbourg station is expected to be in operation by mid-February (1330 kc/s.) and the Saskatoon station by March." (1340 kc/s.)

"Tom Edwards, chief announcer for KOSA, was found shot to death in the studios by Mrs. Louise Mims, another employee. She stated that a .32 caliber pistol lay near the body. John Guffry, continuity director, said he was listening to the outlet, noticed the announcer didn't come on as scheduled." (Odessa, Texas, 1430 kc/s.)
FOREIGN PAGE 1

FOREIGN DX DIGEST

Edited by Fred VanVoorhees, Box 132, Lemoyne, Penna. Deadline Wed. AM.

DX continues good with several interesting catches listed, so we will go right into what is being heard:

NORTH AMERICA

ALASKA-RL reports that he feels that he is hearing KFRB (1290) in Fairbanks. Takes a good night and signals are weak.

MEXICO-BF reports XESM (1470) heard evenings behind WRCQ with fair signal. XEN (695) is reported by BS at 10 PM with good signal using classical music. HH reports a verie from XEN. DD adds reception of XEQ (940) Mexico City at 0045 with good signal. HRD by FV on top of frequency all evening. XEOY (1000) logged at 12:40 AM with Latin American music by DD. He also reports XEWA (540) at 12:45 AM with same type of music and Spanish announcements.

COSTA RICA-RA reports the regular split frequency stations well heard as follows TICPH (605), TIRA (738), TIFIC (995), and TIW (762).

EL SALVADOR-HH reports ISABC same program reported last week by SM on 1100 Kcs. This was 12/3 1:38 AM. BS heard him at 6:25 AM in the clear and thought it might be PRG9 (Late for a Brazilian). HH had a mystery one in El Salvador on 1015 Kcs. 9PM-1AM sign-off on 12/9 & 10. Announced as "El Salvador, Central America". If anyone knows who this is, please let HH know immediately at 6504 Chestnut St., Chevy Chase 15, Maryland. He has a long report waiting to go.

TRINIDAD-RA and HH add to those who logged VP4RD during the cricket matches 12/4 and 12/5. RA had them at 7:55PM on 12/5 with "The Children's Story Book Program".

BERMUDA-BF HH RA all report ZBM (1235) Hamilton, is operating here off frequency, caught the morning of 12/7 & 12/8. E had them between 6 & 9 PM also.

JAMAICA-Reports still come in, this week from HH & RA of reception of this station (ZQI????) also on the cricket matches and on about 870 Kcs.

PUERTO RICO-The frequency changes reported some time ago have now taken place with WKAQ on 680, WLAQ on 740 and WIBS deleted. BS has been logging WKVM (1070) every evening after 7 PM, apparently signing off at 10 PM with National Anthem. Announces in English. HH reports QSL from ACE with 50 watts, but on 11/1 they raised power to 250 watts. Signed by Hubert B. McGill, Mgr. Address is not Fort Buchanan, but U. S. Naval Station, San Juan, Puerto Rico. Congratulations, Hank.

CUBA-BS and BF both report reception from CMQ (630) during evening hours, so he seems to cover the USA quite well, at least both coasts. BS had him in the morning at 6:10. BS also reports CMQ (660) with a good signal at 12:15AM sign-off time. He says they covered KFAR (HI).

SOUTH AMERICA

COLOMBIA-RA reports reception from HJGZ (710) continuing Sunday mornings from Bogota. He also reports HJAT (1072) being heard during the evening hours.

BRAZIL-This country is back with us in a big way with the advent of summer time. ER HH RA all report PRE9 (1200) and PRG9 (1100) coming on at 3 AM. ER adds the following frequencies all coming on at 3: 720, 800, 900, 1000, 1080, 1180, 1200 (2 stns), 1260, 1300, 1330, and 1410. Coming on at 3:30 AM were 980 and 1280. And on 4 AM on 1040. Calls were not identified, but they are all there. ER says the one on 1220 is apparently on all night after locals have signed off until well after 4 AM fadeout.

VENUEZUELA-HH reports split frequency reception of station on 1164 and of YVF (1120).

EL SALVADOR-RA had listed YSEP (1075) as one of his regular split frequency stations during evening reception.

PERU-HH reports OAK4A (854) signing off at 12:53AM 12/3 and during evening hours earlier. Best after midnight when Canadian goes off.
BRITISH GUIANA—ER brings us the scoop of the week with reception of Georgetown on 1234 Kcs. from 4:44-5 AM and later. He reports call as ZG1, but we have it as ZFY. Hard to log after ZBM comes on at 5, but well worth trying from 4:45-5.

EUROPE

Reception is all from HH this week, as ER reports that Europeans are poor at the present time in his location. HH's reception is as follows:

ENGLAND—Heard during the past week were 881, 908, 962, 1088, 1295, and 1457 Kcs. All loggable.

FRANCE—Heard during the past week were stations on 944, 861, 1376, 1401, and 1586 (Think this should be 1506) with a report going to NICE at the first named frequency.

GERMANY—1586 heard as usual and also 1106 American Forces Network in English. Much QRM from KBAB and WBT, but enough for a report heard on 12/4.

AFRICA

FRENCH MOROCCO—HH reports his first TA afternoon reception from Rabat (1043) with a fair signal at 5:15 PM on 12/5.

ASIA

JAPAN—As usual, our Japanese reporter this week is BS who has logged the following: JOCK (730) Nagoya; J000 (880) Obihiro; JOH (1070) Sendai; and JOBK (670) Osaka. All had fair to good signals between 5:50 & 8 AM on 12/3.

MALAYA—ML sends the following list as correct on 8/20/51 of the stations operating in this country: All are operated by "Radio Malaya" with transmitters as follows: Singapore 620 Kcs 10 kW; 740 Kcs 10 kW; 1333.3 Kcs 8 kW; Kuala Lumpur 1115 Kcs 250 watts; Penang, 1110 Kcs 400 watts; 1280 Kcs 2 kW; and Malacca 1079 Kcs 500 watts.

NEW Zealand—RL reports 4ZB (1040) Dunedin on 12/6 from 4:30-5:30 AM peaking at 5:15 with quite good signal. Also 4YA (780) most mornings. ML sends along an accurate list of stations in this country which is correct as of 11/28/51 as follows:

<table>

AUSTRALIA—ML has promised us an up-to-date Aussie list just as soon as he can check some corrections for us. RL reports 3L0 (770) Melbourne, NSW, very weak on 12/9. BS adds 4QN (630) Townsville, Qld. at 5:45 AM and 2NR (700) Prawn ton, NSW, under WLW at 5:15 AM, both of these heard on 12/3.

MYSTERY

As usual there are a number of mystery stations reported this week of them Spanish speakers. RA reports one on 1285 Kcs with S-8 signal on 12/5 at 7:30 PM with classic music and American pop tunes. He thinks that it is in South America, but not sure. I tried here at Camp Hill last evening, but it wasn't a good SOUTH evening, so no go.
RL reports mystery stations on 1580 and 1590 Kcs., both speaking in English, but believed to be foreigners. BF adds his to the total on 750 Kcs under WSB at 7 PM on 12/6 in Spanish. Also on 1270 and 1280 on 12/8 in the evening, both in Spanish. BS adds a Spanish speaker on 1330 Kcs at 6 AM. (Bob, CMGB is all night here with time checks every minute, could be him?) and on 660 Kcs. heard after CMCU went off. On 12/2 at 1:42 AM played "All My Love" and 1:45 "I'll Remember April." (Bob, XEBZ is being reported here after CMCU goes off. Is it possibly him?) HH has mystery stations on 1025 and 1028 12/9. Then one on 730 Kcs. 12/9 at 1:15 and later, very weak, assumed to be in Southern part of South America, as he was much weaker than HJGZ on 710 Kcs. And the same morning a weak one on 860 Kcs. heard between tests by WBMA. DD has one on 1440 around 0125 with a good signal in Spanish. May be either XEPE or XEGB, but not sure yet. Also, one on 780 under WBBM around 0015, even overriding WBBM at times, but did not get an announcement. Finally the Mexican on 1290 Kcs. under KVOA at 0120 with good signal. He suggests XEDA. We think either XER or XEAR here.

GENERAL

You fellows have really taken hold of this section, and we have been getting a good section with lots of really important DX dope. I know that I have received a great deal of benefit from it, and from what you have told me, so have most of you.

Barry Foote agrees that shutting off the TV set is the only solution he has found, but he is willing to see if there is an answer. Says it will probably cost money. We will be looking forward to the results of any research you are able to perform, Barry and it will be printed here just as soon as you tell us.

Evan Roberts asks if any of you have had any experience with a YRS-1 Single Side Band Selector made by General Electric. He would like to know what results have been obtained. Write him direct at Danvers, Massachusetts.

We have received the first part of the Weyrich log, and we think it an excellent job, quite accurate and much easier to use for quick reference by frequencies. Information is not as complete as the Mann Log, and we think both are needed. No sign of the new World Radio Handbook here as yet.

Before I forget it, Murray Lamont advises that it costs three pence to send a first class letter from New Zealand to the United States by surface mail.

Here are the reporters for this week:

ML-Murray Lamont, 22 Passmore Crescent, Dunedin, New Zealand.
RA-Roger Anderson, 835 South Greenbrier Street, Arlington 4, Virginia.
ER-Evan Roberts, Danvers, Massachusetts.
RL-Reif Luton, Route #2, Elizabeth City, North Carolina.
BS-Bob Sanderson, 2073 Waverley Avenue, South Burnaby, British Columbia.
BF-Barry Foote, 273 North Avenue, Weston 93, Massachusetts.
HH-Hank Holbrook, 6504 Chestnut Street, Chevy Chase 15, Maryland.
DD-David Dary, 121 North Eighth Street, Manhattan, Kansas.
FV-Your editor listening from Camp Hill, Pennsylvania.

Fred's foreign stencils were only ones in on Friday, others on Sat. this issue will be mailed Monday. Sorry to be so slow on Freq. Check list but illness this week held up typing of them. Hope to see them finished for next week.

Grandpop Edge (for 2nd time) has more s/on and s/off times for next week.
600 WERE Boston Mass running tests SUNs after 0100 (Routzahn-York Pa)
