**-TW0 DEXS FOR NEG ON MONDAY MORNING**

KGLN - Glenwood Springs, Colorado

This special program will give us a fine chance to hear a musical program from KGLN, as contrasted to their regular frequency check, which also follows at a later hour this same morning, when tone is employed. This is a holiday morning for many of us, and we trust that KGLN will have the fortunes that so many other stations which have encountered this season, with a nice clear channel. So let's all go after KGLN, serving "The Riviera of the Rockies." Arranged by Sid Rosenbaum.

WAZF - Yazoo City, Mississippi

Mr. Netherlands and Chief Engineer, Mr. MacLea, feel that a full hour would give all of us a much better chance of logging WAZF through the other stations which frequent their frequency, and that is what is on tap for us from this station, which DXed last season for us. They are hoping to get a lot of DX reports and we hope they will find the going not quite as rough as it was for so many of us last winter. We thank these gentlemen for their consideration. Arr. Sid Rosenbaum

**HEARD SINCE LAST ISSUE**

- 250 w, pending new 50 kw. at Wataikwan, Alta./1430 KALI Now 5,000 D-3
Hal Williams - 50 Third Avenue - Seymour, Connecticut

It’s Sunday Jan. 31 so I’ll dust off the little DX doings here the past week. I noted in 1/25 “DX News” Steve Mann phoned Lefty regarding the reports to 4VHJ to whom I sent a thank-you letter. I won’t write if anyone has received his verie from YSDF San Salvador. Neither Sue Megson nor I have received one yet. New country here, hope I get a verie! Now for the DX doings — 1/24 — Great surprise to hear CKWY 1210 Ottawa, booming in here at 8 p.m. Sunday with barely a trace of QRM. Never before heard in the daylight hours, 1/25 — I was at work but managed to get the last few minutes of WEEX-dx and they have verified already, ho. Sorry to miss WBAX and QMB-

ESST for NERG. I note that KEQA (790) Los Angeles have not adopted the NABD call yet. They s/off after news and sports with the “Lord’s Prayer,” at 3:15. 1/27 — WPXY (1300) Punxsutawney, Pa., had a long ET with recorded music and newscast at 3:30, much better signal than when on NNC-EX. WANG (1240) Jacksonville, N.C. on ET with recorded music, not needed; looking for WEKR on 9/c but they were not on. Who knows what K-station on 660 k/s. a/off at 3:50 dancing “Onward Christian Soldiers” 1/30 — WERB (920) Burlington, N.C. easy over WJAB 6:12-5:30 a.m. Now for the DX Mail Bag. 1/25, swell letter from GRLC 1360 and ever welcome “DX News” and a negative from NABC (1450) that’s my seventh negative in five years. I know they were on but CE says my report does not agree 100% with station log, but I’ll get him yet, hif! 1/26 — letter and QSL card from WFUL. 1/28 — WEJY (1440) nice letter for ET after a 7-up and plain card from WSNR (1940). 1/29, card and letter from WSVY for my thank-you note and another Christmas card from Williams. Hills postmarked in New Zealand Dec. 9 at 6 p.m. This must have gone around the world twice. Thanks, Bill! Also card from Bernie Duffy regarding those two California stations heard on 1460 k/s. I wish they were verifiable, too little heard to report: 1/30, two letters, WEKT for NNC-

-dx and WXYR (1270) thanks to v/s list and second report. Total veries now 1250. 29 received in January as against 18 last January. Hope I can increase it every month in 1954! Is that being too much of an optimist? This week I start my new swing shift so I’ll have to see how it affects my DXing. 73 for this time.

Grant Batson — Westfield, New York

Well well boyo, look who is crawling out of his shell, Old Grandpa Batson. No report in a long time. Well, I am Grandpa now since last May, a nice grandcson. Quite a lot of DX but won’t list so much of it except to give some of you guys an idea of what the old den here looks like. Bought a new SX-11 receiver Jan. 2 and find it is quite good on broadcast band. Missed very few specials so far and here is a dandy coming on March 14th and 21st at 4:00-5:00 a.m., EST, so if any of you need this one it will be worth while. Believe it will or should have a clear channel. Roger Taylor Jr. is the GE. Sent me a dandy letter verie in longhand. Frequency is checked during regular hours so no f/c here. Any of you fellows need KCOA? If so, come here any AM and get a log on this one after 3 a.m.; heard here five nights out of seven. Heard here evenings, Z9M on 1285 k/s, with an S4-S5 signal. Have had QSL on 665 k/s, but was dumb enough not to get a log on him.

Ted Weiser — 13 Fairview Avenue — Schuykill Haven, Pennsylvania

The verie situation is picking up. Some recent ones are CGST WBAK KQZ KECG WGGG WRSF, with calendar blotter included, WNYT WGAU WBGU EAST WISO WPSC WXYR WEWP WISB & OKJW. Some loggings were 1/1, CFTG 1270 kc/s., 1/11, KPID 1360 kc/s., 1/17 — WXYR & WBGU on 960 kc/s. 1/15 — KBDK 1510 kc/s. heard with WLCG receiver and KGA QRM. I see that they signed back on after KGA signed off. I did it the hard way. WGMN 1340 kc/s. on DX, also logged this AM. 1/31 — KSNY 940 kc/s. with March of Dimes. 2/1 — KCMN 570 kc/s. with weak signal but logged OK; old musical favorites, easy to recognize. WCTU 1470 kc/s. easy here. 1/2 — KNYT 690 kc/s. on DT heard briefly but hop enough for a verie. 2/3 — KFIR 1050 kc/s. topping XBO most of the time on ET. 2/4 — Logged the f/c-ET of WDSN 1560 kc/s. in the clear. Still looking for my verie on the KDOJ-dx. 15 veries arrived here in December 1953 compared to 35 in 1952. Have now 22 in January 1954, compared to 38 in 1953. Have III reports out so far this year with 27 yet to hear from in 1953. Total veries now to-date is 3,216. I started DXing regularly since 1947 when I had 547 veries. The 547 veries were collected off and on from 1933 to 1947. Best surprise DX ever was the new logging of “Radio Luxemburg”, BBC-West, and the logging of Bordeaux I. Heard there on 97th six-tube table model set, with built-in aerial.

IF AGAIN SEND YOU LADS NOT TO USE NON-STANDARD ABBREVIATIONS IN YOUR DX REPORTS.
Milton C. Pay - Route # 1 - Brooksville, Kentucky

Have been a member of the good old NNC for a year now (Jan. 16) and this is my first report to the musing. I ordered a Hallicrafters SX-62 and it arrived on Jan. 19. Didn't get to try it out until Jan. 26 and I received CJGX (940) and WQAW (1340) on their DXen that morning, using only a short outside aerial. Now have four aerials up, two of them about 45' high, one 140' long N/S and the other 60' long E/W. That's all the room I had for this one. Also have two doubles about 30' high and 32' long using 300 ohm twinlead for leadin. The local power company gave me a 35' pole and it lay on the ground for two weeks while I was figuring a way to get it up. The other day the telephone company changed our old phone to a new dial phone and I got them to put my pole up for me, which they did free of charge. It was muddy and they got stuck in my yard, but it was worth it to get the pole up. I raised the height of the pole to 45' by using a joint of 3-x-inch water pipe, put a red light on top of this and you should see people look at night! Before I got my SX-62 I used a Philips Radio that was built into my TV set for DXing. I logged over 400 stations and 38 states on in two years with a built-in aerial. My recent hear is 435 and verified is 940. Hope to make this 48 states 500 heard and 300 varies by the end of the season. With my new aerials up, told my wife I was going to get California this morning or throw the set out the door. It stays! Got California three times, KLAG 3:00-3:18 s/off, KCNO-2x 3:05-3:130, both 870 kc/s, and KCBS (740) 4:00-4:10 a.m., also-KMXY 3:30-3:40 f/s (this one listed 3:00-3:15 in f/o list), also WTR (1270) at 4 a.m. on their DX, very strong here. All the above heard on mon. of Feb. 1. Veris during past-week: WQAW 1340, WLAG 1240, WKEU 1400, WFUL 1270, WQCW 1440, WING 1410 (this one sent my stamp back), KBST 650, CJGC 920, WPLIED 1150 and CJGX 940, very pretty card from their DX. My wife thinks I am crazy to get up at 3 in the morning to listen to the radio, but yet it is all right for her to watch TV till midnight, 73s to all. (Welcome to our column, Milton - we hope you'll become a regular again! - Ed.)

Carl S. Pendegrass - 1510 Lexington Road - Chattanooga, Tennessee

This is my first time to write, as I joined in the first of January. I didn't get much DX this week-end. WTR-dx-WQGW (1520) WERB (1590). Last week was better, though - W6RN (1450), WKEY, KGW (580), WEPB (1280), KASH (1600), KCW (1320), KEX (1190), KXJ (330), KFJ (1270) WHIM (1480), WQWH (940), WQAW (1480), WBAM which is a new 50 kw/ Montgomery on 740 kc/s. Not many QSLs coming in lately. Get one today from KEMON. Last week, WFUL WSB WXY KQH and KQHE. I am waiting on one from WSMW, sent 1/28. Everybody have any ideas how to get Alaska? I sure do need one. (Welcome to NNC and "musing" Carl, and Alaska? Never heard here in 21 years of dial-twisting! - Ed.)

Bank Ward - 404 North 14th Street - Ponca City, Oklahoma

Sure wish one of you fellows would break loose with an announcement that a verie had been received from WWW, Hi! Sunday, 1/31, WDUZ Green Bay, Wis. 1400 was heard with March of Dimes program and KSLF Monte Vista, Colo. 1290 was heard with equipment tests. Monday, 2/1, the WTR and KCNO DXes were heard with good signals, as well as KIPA Hilo, Hawaii, 1110, heard with difficulty through KSLF and tone; WQCB Burmond, Ind. on 98 as well as WAGL Waycross, Ga. KMON Tucson, Ariz. heard on 1/c as per listing for first Monday with music and second prepared card of the current season with yet another original report will go out to them since they have ignored other first contacts. Only spent 48 minutes fixing up this card with blooming graphic design, which wasn't as complicated as the KSLF card which featured the Oregon State Capitol building as a design and took a bit over an hour to "kneak out." Verie back, and it appears an now in the QSL card trend instead of letters which had been dominating the scene this season, from CJGX-dx W6RN and WQAW, which were all QSL cards of a sort. Told up Contest points in early January and came up with 100. Hi! They are all new stations though. I am one DXer that just doesn't go in for duplicate varies each year just to run up a good showing in the contests and thereby probably wearing out the next fellow's welcome at the station. That these engineers do remember us is quite evident when they occasionally say in a verie, "Didn't I verify ....", or "I remember sending you a verie when I was at such-and-such a station two years ago." I find the contest more challenging to see what I can do competing with the fellows that do duplicate and comparison of scores. But to each his own. 73s.

ONLY SIX MORE ISSUES TO GO BEFORE WE REACH THE END OF THE WEEKLY "DX NEWS" FOR ANOTHER DX SEASON. SO LET'S MAKE THEM ALL RATHER ISSUES - YOU SEND IN A REPORT NOW!
February 23, 1964

Page 5

5. B. Morse - R. J. Bradford, Massachusetts

1/31 - March of Dimes Show, KE6F 2:15, WHAN 2:30, KQSD 2:31, K4TVN 2:45, a new one for me. KEOS 3:28, March of Dimes, KEAN BS, 3:55. 2/1 - KOAT 4/3. KOKO-dx test 5:01, KEW, KLAM to 3:05. 1IZ 3:29-4:35, for a good report, really coming through at times. Heard 1m years ago, but didn’t know who they were. A new country for me.

Copied WPTB-dx test at same time on another set, W8XX test 4:45. Many thanks to Ray Edge for forwarding Burmack variety. Varie, CGAX-dx, photo of staff. 2/3 - WGOV test 2:105. KEVT f/o 3:10 a.m. W9TV E0 3:37, most of AM. K4EJU heard at 3:55 a.m. noisily about all-night show to 6 a.m. WTHN all night, also WMAQ. Varie, Little 1375, WMAQ. 2/5 - KOKO with a new call, sounded like K4OQ to 6:55 a.m. WNNM RT to 3:30. WHEN test 3:40. WZZZ test 4:03. Varie, W4AP and "Radio Bremen" 1385.

-Pete Taylor - Box 5088 Duke Station - Durham, North Carolina

Semester exams did anything but cut down DX. I usually studied until about 3, then went down town to get something to eat, and DX’d on the car radio. Since my last report W4AE test, W5JF WBER test and YW5J-dx were logged in November. Nothing in December. In January: KEIL-990 Denver, f/o 1/14 at 2:20 and WGNU-1200 f/o 2:30. 1/18 KQX-990 on BS, KQDR-550 BS, and in the clear 12:15-12:45, 1/19 - WFTM f/o on 1240; YW5J f/o 9-160 at 2:15 and WGNU testing 2/15. On Jan 26, KOKO test 2:15-2:30. 1/27, CJUG-1280 clear 5:33-5:51 except for WAB-carrier at 5450 (which actually helped by knocking out WGAU flop-over. Also 1/27, WALT-820 6:30-8:45. 1/28, WGIN-1220 testing with 1 kw., so they haven’t gone to 5 kw/ yet (this as 3:45). On Feb. 1, with exams under my belt, I used a friend’s National NC-182 for my really good first test of reception. This was on the first Monday, which is well loaded with f/ocs and occasional clear channels. WGNU-910 heard on f/o pat list: Reno-845 logged 1246-1256 and pofr. Nancy-836 with W3AS trouble, from 1:00-1:30. K4T1-1510 f/o: KNEJ-1280 Albuquerque testing at 2. K4EJU-1430 on BS 11:05-11:20. WY4T-1340 f/o at 8:20. KV1D 1060 f/o a/off at 2:25. KGJF logged on 590 at various times between 2:37-4:15 with KUCA on top several times between 2:45-3:15. The 665 mystery also heard here, but with two pop US bus, report sent to 3140, then at 1240, and VOA heard DCF 2:45. (Moving up!) KGJF-1060 on f/o with KGJF trouble. WTRB-dx heard well, but nothing on 1230 from Oregon. KPXR-1340 Livingston, Mont. f/o 4:30. Two other f/ocs as per last were KGJF and KQLE, both 1340 Texans. In between them, however, my first Aussie came in - old faithful ZW5 on 1430. So it really wasn’t such a bad morning!

Still quite a few reports out to stations heard on car trip from Florida, North Carolina, West Virginia, Pennsylvania, New Jersey, Virginia, In September. Since November, reports still out to WABE WKO K4LE W4O WBB and all the ones on this page except WAVE WGNU KG0X KOKO. 73s.

Mike Ferguson - 3337 Prospect Street - Houston 4, Texas

Thanks to Dana K. Duffy and others, I now know that my mystery on 665 kHz is Listen. Previously I didn’t think it could be a TA because it was heard here at 3:41 EST, long after all other TAs had left. I’m still wondering who is behind W4NE-850 on Monday Ads about 5155 EST. Heard again 2/1. KEUP-1240 heard 2/6 as listed on f/o list. 2/6 - KEOR-1240 testing with carrier 3 a.m. and after. W9Y-1280 off at 3:05. Somebody behind CKW at 3:05, but soon departed. ESTA-1170 on all-night schedule with K4OQ unaccountably off. Somebody heard on 2/5 signing on with WBA at 5 EST. Anybody in the East know about this one? (WMA-I etc.) Varie from K4KO CGAX-dx KV11 for Idaho #1, W4NOW EAST K4NOW and W4JX-dx. Log stands at 989 heard in 31 countries. Only nine countries verified but reports out to nine others. When I joined the club I had heard only 407, so in the two years I’ve been a member I’ve more than doubled my total. That speaks very well for the NEC! And I could easily have done better than this if it hadn’t been for the fact that I must DX on a limited basis. Often I have been forced to pass up needed stations on NEC tests because of school work and so forth. Does Steve Mam still have access to the logs of ZE4-1? I would appreciate his help on a verie from them. No noise for the past two nights. I’m beginning to hope that it might be permanently stopped. Best of DX to all the gang.

Jack Pathway - 44 Garvin Manor - Benton, Illinois

1/26 - Got report off to W5TV, 1060, thanks to report of Bob Schiller. 1/28, received QSL from K4ZL, 950. 1/28 - Received verie from WABC, 1030. Heard W8QG 620. 1/30 - Received verie from K2HR 1050; WGNU 980, and CGAX, 940, for NEC DX program. 1/31 - K4JL 1230; WGNU 1370. 2/1 - Received verie from W4XX, 1150. 73.

TO HELP YOUR Fellow MEMBERS, KINDLY LIST THE FREQUENCIES OF STATIONS YOU HEAR.
January knocked my DXing for a loop. We worked till 2:30 a.m. daily so chance at those TAs and only very sketchy DXing as it took too much off the following day. Then I also erected a new TV antenna and now have guy wires and my radio antenna almost touching and just hope there is no shielding effect. Varies also slow for reports out. Recent arrivals were WUKI, WION, WQAN, KFAM, WBNY, WKEY, WFIL, etc. I was ahead of last year up to January now far behind. Jan. 25 had DX from WKEY, strong. WION-1480 ended a.f/c at 4:45. Then WBNY-1320, WQAN-1320 and WBNY-1360 s/on at 5:00. 1/26 — WQAN-740 seemed to be regular program at 3:00, XEBS-1560 s/off at 4:00, KEEL-1560 March of Dimes at 4:15. Not home in time for WQSM proof of performance test and WQVH-740 was on up to at least 6:30, 1/28 — WBNY-1320 testing at 3:35. After Sunday s/on-1/31 found WBNY-1450 6 a.m., WQAN-1450 at 7 a.m., along with WABB and WBNY. WHBY-1260 on till 7 with March of Dimes, WBNY-1150 regular at 6:45, WBNY-1470 ended news at 6:55. 2/1 — KEAO-700 s/off 3:07 letting KBOR come through on DX to 3:30 fair to poor at times. KEAO-1300 s/off 3:59. KEAB-1340 test 3-4. Sounded like WQGS-1240 end a test at 3:44. WTTR-11470 a daytimer here like a local on their DX. 2/3 — WHIO-1050 regular first Wednesday f/o 5:30-5:45 good here. WGGI-1430 s/on 5:45. WGGI-1450 at 6. Also WQIR-1550 and WQVH-1450. 2/4 — KXON-1390 testing 1 a.m. past 2. 2/7 WBNY-1230 like a local on their DX 3-3:30. Then up for more Sunday All s/ons. Copied WQIN-1120 5-6:30 just under WBNY. WQVH-1230 now coming on at 6:30 just under WBNY and WBNY. They were coming on at 6 a month ago so I guess s/on times aren’t too reliable unless tuned for promptly. WQVH-1260 s/on 6:54 followed by our local WBNY at 7:00 and one I couldn’t identify but probably oft-en-reported WPEN when I still need because of WBNY. They were my target today but I’ll settle to WBNY this time. Well that’s all from here. Sure regret the chance at TAs as I didn’t even try for them for a few years and intended doing it this season. Never postpone DXing if you don’t want to miss something.

_ Janet Krause_ — 816 Euclid Street — Dubuque, Iowa

My latest DX included the logging of Station WHBS (1490) Fayetteville, N.C. from 4:10-4:20 a.m. on 1/26 on their regular fourth Tuesday f/c-PT. Then on Sunday 1/31 at 6 a.m., I logged the first regular program of the new WHBN (1440) McKenzie, Tenn. having QRN from KDFA, Amarillo, Texas, on with their all-night March of Dimes program. Also on 1/31 Station WDOS (1650) Marshall City, Mich. was heard with their regular programs, after 7:30 a.m. s/on. The morning of 2/1 I added four new additions to my DX log. I heard the new KABG (790) Los Angeles, as they changed to their new calls from the former KECA at 3 a.m. This was followed 3-3:30 a.m. with the KOMO DX program, which came in well after the first five minutes of KEAC interference, who signed off at 3:05 a.m. The second DX of that morning from WTTT (1470) Westminister, Ml. was also a new addition to my log. And number four of that morning was the new KIBS (880) San Antonio, Tex., with their first program of their new calls, formerly KABG, at 6 a.m. An ET was heard on the new KXIS (1050) Sedalia, Mo. was heard on 2/5 from 2:15-3 a.m., with some KNC QRN. On 2/7 I logged the DX Test from WNNV (1230) Rainierville, N.C. as another new one to my log. The latest varitey, by letter, came from WNNV WNSX XBXG WBAY-dx and a card varie was received by KPAM-dx to bring my total to 2,394.

_Croton DX Club — 46 Morriside Drive — Croton-on-Hudson, New York

Hi gang. Not too much to report here at present. Here are the varitey: KJMN KLIX GKSX WUSW KXKE KFAM CEYH WKEY WKEY WION WION WBNY WBNY WBNY WBNY, Now on to the loggings. 1/29 — KUFA s/off at 3. 1/31— KYOS (1480) s/off March of Dimes at 4:45. KECA (1440) and KIBS (940) both running special March of Dimes programs all night. 2/1 — KEBS-860 a.9 3. KOMO-dx very poor with B 1-2. WBBG (1340) a.9 Off Program at 3:37. 2/5 — EBAS (1240) r/c. WPBS (1340) r/c. 2/4- WBBG (1360) running an ET. WBBG (1240) r/c. 2/5 — KFIL (1280) r/c. KXIL (1380) r/c. 2/5 — WBBG (1450) r/c. 2/7. KXIS (1380) of Dimes, all night. WNNV-dx at 3:07. Well, that’s all for now. Oh yes, we have discovered LeCoy’s big escrt, but we will keep it under our hats until he lets everyone else know. Heard WCAE in Greenville, S.C. grinding on Feb. 7 at 1:20 a.m. — have no info on it and it was running an ET. Only caught five minutes of it though as WPBS QRN’d. One more thing. On some television show a while back some guy was describing an almanac that he wrote each year and gave weather reports one year in advance. Incidentally, the weather report for Labor Day is supposed to be fair and clear. Just right for the Convention. Well, so long for now and best of DXing to you all. 73s.
Hi'ya, gang! A little DXing done here since last report. 1/25 WBYX-dx 8-8 R-5 all the way through. WBYX-dx small part heard under WEG. KSST-WBIX dx 9-9 R-5, KEGO Proof of Performance test, WEND-fo, CKM All night ES for second 1 kw. British Columbia (and on an Arvin Table Model, hi) 1/26 Received "DX News." Still looks pretty thin after that giant we had a while back. 1/27,verify KEWA v/1, and WGA QSL. 1/28 - Letter of CE of PEMD which said that they'll be on 540 within the next couple of months. 1/29, enjoyed receiving a nice letter from Alex MacKenzie who enclosed report to KSTEM for me to run out to the station. Get your verie yet, Alex? Any of you other NECers who want me to take the report out for you just send it to me at the above address. I'm gonna speak to Marvin about the possibility of my being the Official Verifier, hi! KOIL ES, WNOG ES to a/off, 1/30 - KNET s/off, KAMI RS under WIL, KEGL, March of Dimes marathon, WBT likewise, same with WILS, KASH RS for first Oregon, KOL RS and finally CCKK for number three from Saskatchewan. Besides KEGL WBT and WILS, also noted WILF with M of J show. Verie, QSL, WZB. 1/31- WAILY f/o as per list, KU6A KB- ERE RS. Veries from KEGO NBN and CJXK. Turns out that the v/5 for WBN was stationed here during WW II, and the one for KEGO once lived in Indianapolis and knew a man who used to live here. 2/1 KFQZ f/o as listed, KEGO-dx poor under bad QRM, finally got around to logging WTIX on all-night ES, WTIK-dx, 8-8 R-5 cloaking KEGL, hi! WERG had March of Dimes but closed down at 9:00. 2/2 - Mother had told me about Trans-Oceanic at 5:55 and I'd decided to buy it if it had 540, then not to buy it at all but when I went down to look it over, fell in love with it, weakened, and bought it. P.S.: it's a honey. 2/3, veries from WILS and KZQ, QSL, KSST, v/1. Also "DX News." 2/4, QSL from WEDC (sorta surprised me. I figured they'd probably not even verify since they won't stand by DXes but they crossed me so guess I'll have to take back all the dirty things thought about them, hi!) and v/1 from KOIL. Nice letter from Ken Murphy - get around to answering it and the one from Alex MacKenzie soon. That's 31 so don't quit before Lefty kills me. Good DX, 73's. Start where I left off next time.

Dick Northrup - 502½ Kimberly Road - Iowa City, Iowa

Veries in since last report WLDG WBJS WHLK WERG-dx WGWV WSSY W4PW KNUK (fastest verie I ever received, back in less than three days?) WEPN WDIX WIMA KEO-3x KASH WION WBOY dx KUJF. Reports to KAIL WOTC WAGS KEMK ESPE. WTTX-dx WREY-dx WNOX WGSQ WILN. Was cut. Beaverton large part of week, but this morning 2/7 natted the WBYX DX show, rather weak for a North Carolina station. Most of them have really been rolling in here, but this one wasn't quite up to par. However got plenty for a report. KEHG was good at 5:30 followed by ET from WBNX in Middletown, Com. at 3:45. These on 1150 kc, WCNX heard with his Sunday AM a/on at 6:00 but quickly covered by WBNX. WBNX was good with some WERA QRM on 1270 at 5:30 with their weekly half-hour program on DXers. Announced read name of one of the Croton boys. WBNX was good on their DX show last Monday. One of my best catches was the hundred watt KUAM in Tuba City, Calif., heard 1/24 5:30-5:45 with March of Dimes. Had just heard KUAS also in Tuba City signing off on 1600 kc, at 5:15 and saying the program was being continued over KAZG, so tuned to 1450 and heard them back of bad QRM from WTON and WUBS. At 6:00 heard WDIX in Orangeburg, S.C; come on. 1/24 also natted me WTAW on 1150 who were eating 4:00-4:10 a.m. 1/25 natted me KU6A KB-6, thanks to bulletin tips and also ESPE who were very strong on 1340 3:15-3:30. Have nice letter from KB1M in Roswell, N.M. which says they will be interested in DX special after they finish their remote control transmitter and other work. They send a most attractive coverage map letterhead. WGUI and KB1M will DX for us, and have also written WHEA KV64-WB4 WBNX and WIPF for specials. Best of DX to all till next week from this end.

Pat Reillley - 11 Irving Places - Jamestown, New York

Veries are W4NW CHM W4EB W4AB K56 K56 K56 K56, 1280, off test at 3:16. K56 K56 1300, off at 4:00. TT all over day. 2/3: no DX, long hours again. 2/4 - WBNX, 920, test at 3:00. WBNX, 1350, ET with 1000-watts at 3:54 for new one. WBNX, 1380, test at 4:04. WBNX, 1380, f/o at 4:09 and usual TA. 2/5 - TB-90, 2:40 with KAL-EW. TT stop K56 K56 960 at 8. K56 1380 ET at 4:15. 2/6 - W50 E20 test 3:36. W4NW, 1250, test at 4:15. 2/7 Went to bed early because of bad cold. 2/8 - W4NW 1460 f/o stop pass there. CHM, 1280, ET and DX at 2:30. WAGG-dx copied with great difficulty, both 1320 and 1340 for a new one. K56 very good on their DX with Spanish QRM station. Glad I could help Bernie on those mentioned in this last "DX News" but who was Saginaw that bothered KSTEM DXs here?
Another slow week here despite very good DX conditions. On 1/31 at 6 p.m. we noted WONS, 1410, way out front of WQCB so tried 1420, and after many many tries logged WPBB poorly through much interference. Then on 2/1, WGEN, 570, heard fairly weak but with excellent clarity on DX for a really nice catch. Also copied a very good log on my unknown foriegn on 800 between 3:15 and 4:30, definitely establishing it as a station off the British Empire, and a TF. Thanks to Stan Morse who kindly passed along the information as we know it is 17Z, the first New Zealand catch here in years. Also logged KXJ, 1340, on regular f/c 5:00 to 5:15, WWOX did not come on at 5:00 and was not heard at all up to 5:30. Think KXJ, 1340, followed KXKL, but not sure. WORW like a local, also regular f/c from 5:30 to 5:45. WTTB-dx like a local. No other interesting events, other than testers heard previously, except KEIS, 1050 who has been trying both over and under WBC, heard on 2/3, 6/7 around 3 a.m. And WDIK, 1440, who was heard at 6 a.m. on 1/31, came on with BS at 7:30 a.m. (Sunday) on 2/7. Varies were limited to a nice card from KEBN and letters from WMAX and WABX DXes, and my card from WYR. We have both sections of Fred's international log and can only say it's worth many times the $1.oo asked for it. I don't know where a DXer could get so much info (the kind a DXer really wants) for so little cash. Received your letter, Barry, and will reply soon. Can't offer much said with your Montana and Idaho needs. KXJ, 700 is heard on BS from time to time, so is OE1's f/c. And in Maine, WKL's f/c seems to be the best bet now. 73.

*Joe Braungart - 25 Howard Avenue - Williamsport 21, New York*

Only two reports out week of 2/1 - WRFN 1320 2/6 on ET and WNBV 1320, 2/7 on WABX-dx, both with fine signals. However, the varie business picked up considerably with the best weak I've had in a long while, 11 new ones, a second from WHFS for contest entry and a letter from WHFS 860 who's CE wrote that he couldn't find any record of verifying my 10/27/53 report on BT (he did on 12/22) and said he was "always glad to hear from you geez." CJGK 940, WCA 1270 and WBBN 1460 sent cards, KEBN 1450 ran to 5:10 the morning of his WABC DX thanks to a post card request of mine, to give me a shot at him after WABC shut down. Got a very poor log on him through WORW but enough for a varie from a station I've wanted for a long while. CE said the extra ten minutes were for me. Swell lad! KJBO 1150 another prized one on their quarterly f/c of 1/14; WBBN 1150, a fine letter from their CE, a native of West-Chester, Pa. who said that this particular time, I am very much interested in hearing from anyone of the home (he calls us) because the equipment here has been run down." CHBN 1260 WWSW 1350, WSAT 1370, CGJG 1270. (thanks to recent item in "DX News" and WNBV 1340. Only have 26 reports still out to 2/1 which, for me, isn't too bad. Looks as though from the remarkable line-up of DXes for 2/15 that we'll have to rig up an extra set or two and copy with both hands! I'll certainly have to try Sid and his lads a coke of something (1) at Buffalo for their fine work as to 2/1, there were only six of the stations who DXed for us whom I'd previously heard. These CGOs- they sure do. Please!# (That should rouse the Bari of Buffalo from his hibernation!) Watch reminds us, I owe it only to the Bari, but about half a dozen others of you letters and while I know it is boring to read that work has been so heavy I can't seem to find enough hours in the day, nevertheless, that is the reason and I'll get off replies as soon as I can scrape up time for a break. A chilling thought hit me the other day: We have only eight more weekly issues of the "DX News" coming, then the season will be about over, and again I'll miss the weekly chatter. Time doth travel at jet speed these days, it seems!

*Sid Meunhein - 506 Market Street - Wheeling, West Virginia*

Worked nights last week, so DX limited. 2/1 - WTTQ-dx logged 100% with nice musical program. Others heard but not needed were: KMOG (1340) f/c 4-4:10, KATO (1340) f/c 4:15-4:30 and KPRX f/c with music 4:30-4:45. A questionable report to KEBN (1330) as I believe the last 3/4 hour of their DX was a tone test - at least the 3km call sounded very much like K-9. Feb/ 5, KFTP (1330) f/c-ET with organ music 2:15-3:30. Feb, 7 nothing new heard except WREB (1450) with Sunday All s/off at 3. Varies in are: KEGO WMAX WBBN WWSW, all for NEC DX and KEBN. All letters. CJGK (940) sent letter and card and said they were delighted with the response to their program, CEIB sent beautiful glazed QSI card in envelope with Queen Elizabeth stamps on both (very nice). Thanks to Dick Norberg and Mike Ferguson for recent OP contributions. Nice going! Have been getting my fingers limbered up for some fast tuning on that big morning of Feb. 15th. Best of DX to all the gang.
First of all there is something I've got to get off my chest and I hope no one is mad at me when I get through with this. It seems to me there is a serious fault in the new by-laws. I feel that the purpose as set down in Article I is both narrow and does not truly state the purpose of the NNC. I understand that the purpose of the NNC was to promote DXing in general. By this I do not mean that the "DX News" shall cover all bands for in choosing material to be used in the "DX News" many factors such as the Editor's time, cost of publication, etc. must be considered. In Article VI, Section 6 the Editor is given full power to decide what material he shall use and that is the way it should be. But consider this. It is very likely that in a few years a large number of NNC are going an FM section. It will then be necessary to change the purpose of the NNC, at least on paper. The radio world is constantly changing. Are we to constantly change the purpose of the NNC? Unless we make our purpose broad enough we will have to. Now I'll get off the soap box and on with the DX. My domestic logging is as follows: KCSB-850-DX, WTRG-1470-DX & ES, WABR-1370 ES, WSTH-960 RS, WAXL-1340-DX, WABR-1450-DX, WABR-1450-ES, KQW-960 RS, and KQW-970 DX. In addition a number of stations which I hear regularly but have yet to verify were reported for the contest. They are: WEQY-680 WDEW GHL KKH WHK GRH, and WBR. Verdict are: WQIL-760 WDEW KFUX WREX WOTH WQY WESC WSMR. WISE WICJ KKK WHK-960 WHK WENY WHK WENY WHK-960 WHK WENY WHK-960. Here is my prediction for the WW20-DX. In the West and Midwest WW20 will be fair to good. In the East the signal strength will be about average with the noise level. It probably will be heard but with difficulty. That's it for this time. - The first ten minutes of the WW20-DX will probably be the strongest in the East.
Everett Johnson - 554 16th Street - Mundelein, Illinois

Verdes received here last week making a total of 576 with 53 reports still out since Oct. 1. DX varies coming in very slow; 12 still out. Sure would like to get the WEF, WBEZ, KUV, KOWZ, DX specials in. Verdes in are KSMF-1320 KSNF-1470 WBNF-1460 plain card, and a swell QSL card and letter from KSBX-700, and a DX card from WBFN-860.

If WEFV would only verify! WEFV-2x WRAY-2x GHUP-1270 QSL! KEBF-2x and KEBF-570; Time station wants reports, DXed about five times and hope in the result: 2/1 - Had me WBNF-1350 on test, KSMF-1350 on March of Dimes so no change of KSBX. WEFV-2x very good, also KCPU-2x but very weak first half. 2/2, KEBF-860, KSMF ptr. WGBV-1600 s/ on. 2/3 - KEBF-970 RS. 2/4 - WBFN-1350 on test, and a new one in Sedalia, KUSD-1050 on top of KVSQ most of the time. 2/6 - KANG, ex-KECA-790, KEBF-940 and WBFN-1400 f/c. Some others heard but not needed are WBNF-1460, KSMF-790 f/c on list at 3:55. KGVS-1270 f/c at 4:30. KINGS-1490 f/c, WBFN-1320 test. WBFN-1320 and on the 6th was on 840 kc. under WABR with music and voice 4:00-4:30 at WBFN. Should hear any help. The above should have read KEBF in Sedalia, Mo. All for this time so till next week, 73s and best of DXing, everyone.

Phr. Barry Foots - 575 North Avenue - Westport, Massachusetts

Have had a most enjoyable leave. Met a lot of old friends and spent some time installing a Temco Motor for TV DX. Missed the WBEZ-QGO DXers, darn it! 1/30 - KFXO-1420 testing at 2:55 and read with little trouble. 1/31 - WBFN-1540 s/on 7:30 under carrier. 2/1 - WRAY-1240 copied with quite a bit of competition at their s/on 5:30. Not sure but I think I heard KEBF-930, 3:15-3:25. Hawaiian music heard and thought I heard the identity given at 3:20. Can anyone help me on him? KFJF(1440) heard testing 4:05 and WBFN-1650 at s/on 7:35. Added KEBF-1370 on RS and WBFN-1340 f/c 2:09 2/4. Other new ones heard here are: WBFN-1450, WDIK-1450, WFKM-1390 and CW-99 C. I had an unknown with tone and Spanish s/on at 6:00 behind WBFN-720. Could that have been QSL? Other stations heard, but not new carbs: WBFN-1360, KUSD-1320, KUSD-1440, WBFN-1510, Sunday s/on 7:30, CBSB-1510, WBSI-1490, WBFN-1380, WBFN and WBFN-990. WBFN-1250. WBFN still 1460, WBFN-1260, WBFN-1280, and WBFN-1290. Last WBFN-1400 signals on Sundays at 7:45 with "Americas." Perhaps some of you can catch him through the noise. WGAN-1560 really booms in here quite a lot, especially on the Sunday s/on at 8:00. WIONS-1420 Hartford, Conn. has not changed to WBFN as of 2/8, 73s and best DX.

Hal Williams - 50 Third Avenue - Sayreville, Connecticut

This week's DX mail - 2/1, QSL card WBFN-1650 form letter, WBFN-1780, hold out since 12/25/51; real nice letter KUSD-1360 for WBFN-1260 and the "DX News" with the newly adopted by-laws and I certainly want to thank Ray Edge for a real fine job. These revisions have been in the works for 17 months and I for one say, "Well done, Ray!" 2/2 - QSL from Radio Japan, that's a 95. 2/3, letter, WBFN-1580 after a f/up and QSL card from KUSD-1320 duplicate for KUSD-1260. 2/4 - Joy unreserved! After six reports, two f/up, a letter to Gus Magumson who wrote the station manager, I now have a bone fide verify from WJR (920). They say "Patience is a virtue seldom found in women and never in men," but witness my persistent efforts since 1/27/50. Worth it? Well, I'm satisfied, thanks to our fellow DXers Gus Magumson; also nice letter from KUSD-1360 and note explaining how KUSD and WBFN have f/c at the same time. So two Iowa Verdes for two reports, one f/c, hit 29 Iowa Verdes for 13 reports, the last one sent KUSB 1/12. It must be because of those two sterling DXers George and I use to top 1 percentagewise in Verdes here! With WJR's verdi Rhode Island now joins 17 other areas in U.S. and Canada 100% verified for reports sent. 2/6 - CQNC-1220 duplicate for NEC report. On 1/24, I sent a report to the new WGIN-1490 Cincinnati and today I received a QSL card from WOVX-1530 verifying my report. Guess the Cincinnati Post Office made a mistake and WOVX verified without reading report, so a duplicate sent to WGIN with note on envelope not to deliver to WOVX. Verdenows 1956. DX Calendar for the week: 2/1 KUSD-1780 (not heard on DX) on 570 not readable. A strong carrier on 1 believe to be the WAZAS pot. KUSI-890 in here, a real powerhouse at 3:30 but not needed, WBFN-1470 also a real powerhouse on NEC DX. 2/2 - KANG (ex-KECA)-790 has news at 2:35 and 1410 f/o/ off with Lord's Prayer (vocal), off and clear, 3:12; than at 3:15, KUSD on 3/92-790 dup needed. WVIN (1600) ETTing with Glenn Miller recordings adding for DX reports 3:3 - 4 but not needed. 2/4, WBFN-1530 (not heard on DX) Bays, Idaho f/o/ 3:15-3:30, no QSL but some QSL What happened to the all-nighter on 950? 2/5 - KUSB-1260 QSLs, Ariz. 9f/c 4/4-4/15 weak under WEDG. 2/6 - WEDG (990) Elkmansen, Minn. news and f/o/ 1/12-2/05, a real surprise covering WEFN. 2/8- WEFN (1600) M-S-F 1/32-2/17 for my fourth report. WEFN (1230) real nice on DX, WEFN (560) tapping WEFN/CFBA 3:20. WBFN-1150 ETTing. 73.
We are sorry to have to announce the death of Member Bill A Reese of Fairmont, West Virginia. Bill has been with us for quite some time and he will be missed. Bill was 67 years of age. A card will be sent in the name of the Officers and Members of the NRC. The address is Rt 5 Box 142.

Station's Stationary - "WCAN"

Receit Letter to "WCAN" brought veries for 2 reports and in one it says that they have been going through moving etc and are sorry that reports have not been answered. So from that I suggest that anyone who reported "WCAN" but received no verie to submit a duplicate report and postge to Walter A Wesley, Chief Engineer of "WCAN" Milwaukee Wisc.

John Clements P.O. Box 723 Turlock, California, our most recent member to the NRC asks if any of you lads will be kind enough to drop him a little information on antennas and good receivers in the low cost bracket. He is just beginning and I am sure that many of you can help John a lot. Ole Pop doing all his DXing on the same antenna and recei-ver couldn't help much. So what say lads.

Remember any change on QRA's; send them direct to 325 Shirley Ave Bflo.

There it is. This is not a contest, simply a listing whereby you can watch your improvement, as well as see how your fellow-DXers are doing with respect to foreign DX. Steve Johnson made the greatest gain this month. Kermit Geary is top man in the varie totals. Next month will feature your European total and your best Euopean varie.

**North America**

MEXICO—*FX is still doing its little DXing. This time logged KEDA (1290) Mexico City on 2/6 from 0355-0416.

NICARAGUA—*RA comments that WNW (955) Managua, is not heard after what he thought was a power boost. Thinks they may have gotten back on 930 Kca. This station, by the way, is the mystery station reported by DF signing off at 0300 on 1/30.

BERMUDA—*ZIM-1 (1235) Warwick, or rather Pembroke, logged on 1/25 easily at 0615 in car radio. (PF)

PUERTO RICO—*FX has a varie from WEJB (710) Mayaguez for report of reception at 0320-0420 on 11/26. Personal letter from Jose A. Bechara, Jr., which stated that he was a Duke graduate, and quite thrilled at having his station heard back at the "Oll Inveterate." Also card from CE Henry Fischer for verification. However, he now wonders if his station was N6GZ instead. (Dunno, Pete, but you have a WEJB varie, so would definitely assume it is OK—FX).
FOREIGN PAGE 2

EX NEWS

February 13, 1954

DR reports reception of WENA (1560) Bayamon, on 1/28, a test program with music followed by identification at 0327.

SOUTH AMERICA

ECUADOR—*—HGJB veres seem to be still coming in. TS reports his in this week. Signer is Clayton Howard, with card, letter, and memo. Still none here or at Charlie's place—PV)

BRAZIL—*—JA has a station on 1440 Kcs., heard 0805-0930 on 2/8 in clear. Not sure of call, wonders if PRB-8 or ZINECO. PR9H (840) "Radio Bandeirantes" heard with frequent identification in Portugese on 2/8 from 0300-0430. Both stations announced time as 2 hours ahead of EST, so evidently not on summer time this year, explaining why we have had not had more reports of Brazilians. RA also reports PR9H with S-S signal, but bothered by that now infamous WGN image on 840 Kcs.

COLOMBIA—*—JA has an airmail verle letter in Spanish from EJNO (1222) enclosing pennant souvenir.

EUROPE

GERMANY—*—JA has received verle cards from VOA (1106 and 173). Reporting the long wave station here as that is the 1,000,000 watt station located in Munich. The 1106 station is in Stuttgart, and runs 150 Kw. Latest VOA schedule is listed as 1915-2245 Wed., Thurs., Fri., on 1106 Kcs. 1030-1830 daily on 1196 Kcs., and 1150-1830 on 173 Kcs. JA also has a verle letter from SUE Rheinsender (1016) and Freiburg (237).

FRANCE—*—Lille (1376) well heard in early January between 0200-0230. On 2/8, Nancy (838), Tagged 0100-0130 with live program, piano and female vocalist. Toulouse (944) also readable, 1376, 1205, and 953 poor. (PT) JA reports his verle by airmail letter in French from Paris (863) for his 25th European since September.

SWITZERLAND—*—JA reports a colorful verle card in from Sottense (764) in. Rubber stamped by Press and Foreign Relations Dept., Stats.radiofonien (Danish State Radio) Radiohuset, Copenhagen V. This is Country #82. (RA)

SCOTLAND—*—Exceptionally fine BBC letter verle for Burghhead-Westerglen (809). Country #83. (RA)

ITALY—*—Rome on 845 logged weekly 0045-0055 on 2/1. WHAS didn't help much. (PT)

PORTUGAL—*—Hopeful report sent to Lisbon on 665. Two American songs heard along with WHOA slop-over between 0250-0300. (PT) This is apparently the mystery that several have reported. Pete is trying Lisbon, but he wonders if anyone has tried KFAR, who might be off freq.

PHILIPPINE ISLANDS—*—A careful check of the list recently provided by NZ shows only two plus differences from the INTERNATIONAL LOG. Station DZA5, Manila, is definitely on 660 Kcs., not 670 Kcs. Both are listed in the log. The Station in Subic Bay on 1520 is KMBC, not KENB as listed in the log. And finally there is a new station on 1340 in Manila, DZAC, 5 Kw., whose verle signer is Ben S. Del Rosario, Network Co-ordinator.

OCEANIA

NEW ZEALAND—*—Thanks to the untiring efforts of EM, your editor has received a verle from 47C for a 1952 report, my third New Zealander. PT reports that he has reported to K2Y (500) Rotorua, in 1954. He notes that he logged this station on 1/19/53 from 0450-0500, this year from 0500-0630 with records.

HAWAII—*—BR reports KILA (850) heard here nearly every evening, or rather Monday morning with program "30 Questions" followed by sign-off at 0500.

AUSTRALIA—*—PT reports his first Aussie, 2UE, logged from 0440-0500 on 2/8 with steep fading. Seemed to be ABC program, but material copied and Pete hopes for a verle.
Ken Maylath of the Croton Club wrote me via postal card of a mystery station heard on 1350 Kcs., and believed to be an Australian. At the time the card came, we had no record of an Australian on 1350. Now after checking a detailed report from Ken, and with the information in last week's DX NEWS, we are quite certain that the station was 2MA, a new one in Bolwarra, N. S. W., and very likely represents the first logging of this station in the U.S.A. Ken Mackey has just reported it logged at his location. It was heard on 1/15 by Ken Maylath and on other nights to and including 1/31. That morning he caught the call correctly. This station has 2 Kcs.

**Mystery**

This is probably an easy one, but I've been writing this column for a while now, trying to help you fellows. Now, let's see if you can help me. Logged on 2/1/54 from 0330-0400 on 1480 Kcs. In Spanish with chimes at 0400. I have pretty well decided it was TEBR, XEPR, or OMEX, now, who can tell me who it was, so I can send a report.

**Reporters**

UM-Kom Maylath, 50 Cleveland Drive, Croton-on-Hudson, New York.
UM-Peter Taylor, Box 5068, Duke Station, Durham, North Carolina.
UM-Dan Rollor, Rural Route 4, Davenport Road, Fort Wayne, Indiana.
UM-The New Zealand DX News of the New Zealand Radio DX League.
UM-Roger Anderson, 5700 Eighty Road North, Arlington 5, Virginia.
UM-John F. Alexander, 230 1 Jefferson Avenue, St. Albans, West Virginia.
UM-Ken Mackey, 2 Dornoch Street, Dunedin, New Zealand.
UM-Ted Salting, Estacada, Oregon.
UM-Steve Johnson, Box 145, Hayro de Grace, Maryland.
UM-Ray Moore, Box 19, Rowley, Massachusetts.
UM-Grant Batson, Westfield, New York.
UM-Lars Ryden, Barvagsh, Sollentuna 3, Sweden.
UM-Harry S. Hibbard, 21 Willard Street, New Bedford, Massachusetts.
UM-Joe Brumley, 23 Howard Avenue, Williamsport 21, New York.

**Note**—The list of reporters includes all who have sent me letters pertaining to DX even though they are not mentioned in the DX section.

**Our Overseas Members Report**

Ken A. Mackey, 2 Dornoch Street, Dunedin, New Zealand—Latest verios are KNPT; KSAL; Ralnepdi, Pakistan; KOCF; WAGF; PMM Kyushu 1570 Kcs. 100 watts; KAM; and Nome Field AFFS, Woci siger Anthony W. Brunton Jr., USAF Program Director, Nome Alaska. Reports to YWMA. WGSW; KSOA; DEKUSO; 2BX 1560; 2KX I think, puts in excellent signal, a new one in Bolwarra. Also KEBX, KRDV, WMAA DX, heard only week 3--4 AM then on news came in very well; WWBR, and WLSM DX. Also heard KCNIX DX for NMR, a day early, came in very well like it always does. Don Hill puts on a good show, 11th Jan. Conrad test on 2400 came in well at 0330. On the night of the PFA DX a weak station was heard playing orchestral music on 1410 Kcs., but no call heard. I am not looking for a new location to do my listening. It's a bit of a job to get somewhere as good as my last one. However, I'll have somewhere soon.

**General**

Still some international logs available at 1.00, send your orders to me to Ted Salting Canadian stamps can be obtained from Ray Edge at club headquarters. Send him U. S. money for what you want. Remember it takes a 4¢ Canadian stamp to reach the U. S. To Joe Brumley, if you are convinced your BGC stray station is not 1XZ I suggest you try Ditzemartzburg. South Africans have been verified this season in the U. S. and in Canada near you. Harry Hibbard would like to borrow or buy the November, 1953 issue of RAEX. Can anyone help? Harry will write as soon as I get a chance, but right now very busy here. It was nice also to hear from Grant Batson and to know that he is still DXing. Please forgive me for not answering your letters, but your reports are always welcome here. Try to set them up as I have asked in previous bulletins. And for this week this covers the foreign logs. 73.
Editted by: Roy H. Miller, P.O. Box 754, Bellevue, Wash.
"DX DOWN THE DIAL—WESTERN STYLE"

630 CMQ Havana, Cuba and (Cameron)
640 GHHQ Santa Clara, Cuba are synchronized and on before 6:AM. /
690 KEVT Tucson, Ariz. heard on F/o at 3:10AM, TUE, 2/2. (Critchett)
940 KRRH Sao Paulo, Brazil well heard 3:30-3:50AM, 2/6 with WHAB carrier off. Positively identified "Radio Bandeirante" (Cameron)

960 —— Jap heard playing American classical music, speaking English, AM of 2/8; JOKK? (Cameron) Only Jap listed is JOKK-500 watts and NHK net; doesn't sound like NHK program; could it have been DZRI or 3YJ? Just guessing! —Ed.

1060 KXFT Idaho Falls, Idaho CP for 1060 still active per C.E. (Miller)
1090 JOHD Sendai, Japan is Jap on this frequency per NHK. (Maguire)
1140 CKXL Calgary, Alberta is now silent from Mon. AMs. (Cameron)
1150 WOFPE Pullman, Wash. (ex KBKH) F/o same time as old KBKH schedule; heard at 3:32AM, Mon., 2/8. (2nd Mon.) (Miller)
1220 CJRL Kenora, Ont. tested 3:30-3:30AM & later, 2/8, asking for reports to "Studio Engineer". (Cameron & Miller)
1236 KFRE Sunnyside, Wash. heard testing 4:03-4:11AM, 2/8 with tone. (Critchett & Miller)

1240 KMBU Billings, Mont. f/o at 3:50AM, Tue., 2/2. (Critchett)
1450 WWCW New Brunswick, N.J. heard F/o according to F/o list, 5:15-5:30AM, 2nd Mon., 2/8. (Cameron)

WORK Morristown, Tenn. 5:30AM, 2/8. (Cameron)
KWRO Coquille, Ore. said F/o, 3:50AM, Tue., 2/2. (Critchett)
1490 KELV Monte Vista, Colo. heard from 4:05-4:26AM, Tue., 2/2. This is a new station. (Critchett)

FREQUENCY CHECKS HEARD AS LISTED: 1st TUE: KGOG, KXLE, XFLW, 2nd MON: KCOOS, KRUL, KJAM. Thanks to Jim Critchett for these. How about others?

NEWS OF "DX" PROGRAMS

Gene Cameron reports WHEV heard through GJOC carrier until 3:18AM, then in the clear; KROC heard; WGGG probably no go, due to r/s on 1235 until 1:AM, then tests from KFEE, KREW, KOOS, KELY, KLAS. 5 minutes unknown TT on 1240, but doubt if WGGG. Did hear a "U.S. Navy Guest Show" on 1235, but assume an easterner on r/s.

Ted Selig reports KCON and KODI EASILY heard on DX; WTR logged very little @ EESN. Your Ed. and Jim Critchett both ran afool of tremendous static QRM the AM of 2/8 and had no luck on the KROC or WGGG DX.

VERIFICATIONS of interest reported: Norm Maguire reports JOUB and WKEY in; Ted Selig has his HCUB-DX verle (Congratulations!); Gene Cameron reports HJKE, KCON, WKEY, & WASY (the last 3 all for NRC-DXes); Your Ed. has: CKAC, KFAB, CBJ, TGW, KHIC, CBRF in. Included with the CBRF verle (which incidentally lists power as 25 watts, but still good "DX" as about 360 miles) is copy of "GBC News" listing B.U. relays of CBU; the following variances from current Weyrich Log are noted: 730ko—CBXM McBride (New); 740ko—CBRC Creston (Not CBRM); 860ko—CBRR Revelstoke (Not CBRM); CBRN Crenbrook (Not CBRM); CBW Williams Lake (Not CBRM); CBRF Ashcroft (Not CBRM); CBRF Terrace (Not CBRF Terrace); 900ko—CBRO Prince George (Not CBRG); 1080ko—CBRT Lytton (New). Hope no error in this listing from the CBO! Have heard 850ko relay here and QRM—Ed.

I have a letter from "Red" Meleed at Hay River, NWT that I'd like to quote in part from: "Broadcast reception up here this winter is about the best I have heard for many years. For example, on the night of the "DX" broadcast I just tuned quickly over the band and counted 73 stations—It is not unusual to hear European stations up here even in the daytime and I have heard times recently when there were more foreign stations on the band than U.S. stations! Well, well—interesting!"

OK, all for now. Most pleased at prompt answers to my first report to Quebec. Remember, BELLEVUE deadline is TUE, AM. Where is YOUR repor
