NO COMPLAINT FROM LEON

"It's a little early but here's my check for another year's dues to the National Radio Club. If all the money I spent brought me the returns this does, I would not complain!"

*Leon S. Neblock, 863 Yates Street, Galesburg, I11.

Lefty Cooper - 438 East 21 Street - Brooklyn 26, New York

Another few-vari-day on monday, 1/27, in WMTN and KLUE DX es on 1320; WMPL-920, WAMO-860 and WJLM-1320, the latter two also DX confimations, so one more large thank-you from me for our CPC boys who are doing a swell job. Not much this week, but here is the mahot: 1/28- Noted YVKA-330 and YVCO-750 wrestling with WSM on with bulletins on the latest revision, with one playing in between bulletins, Beethoven's Third Symphony, and the other, Beethoven's Fifth. Wonder if there was a low-powered one on 840 with Beethoven's Fourth, hi. 1/26- Up for Sunday s/o s, but nothing new was heard by these tired old ears, but this noted: Spanish station s/o on 5157 with "America, the Beautiful" on 620 kc/s., likely Hi3T. WETR-790 s/o 6 a.m. and WKIN-1320 hard at 6:15 already on, but dominant here. W8SS's carrier was on from 6 a.m. on, preventing my trying for WDTN's announced 6:51 s/o, on 1320. 1/27- WBC-1270 disappointed us again with the channel wide open. KDES-520 was taken out by TT and Spanish station here. I did catch one, "Radio Reloj"-1170, HJLFJ per DX NEWS tip in the clear 3:33-4:15 a.m.

They say Monday is the AM for New Yorkers to DX with only AEs on then WOR-710, WABC-770 and WNYN-1150. This time, though, WRCB-660, WOCR-1560, WNJR-0430, WBNX-1300, WABC-105-1150 all tested, and also WINS-1010 was AE. Right, Anthony L., what a town for DXing!

WATCH FOR THIS FIFTY WATTER
Carrier current station WCBJ 1555 kc in Gilberts, Illinois operates weekdays from 1700 EST to local sunset and on Saturdays from 0700 to sunset. It might PROVE VERY PROFITABLE for all DXers to keep their ears open for this rare one. BEN PATCH who rushed us this information, advises that he verified them by prepared letter and the signer was Robert L. Jones.

HOW THEY WERE HEARD
WCLC Jamestown, Tenn good at Mendota, Ill but not so strong at Omaha with QRM from HJKN and CFFR. Fair at Huntington, W.Va and at Crystal Beach. Good at Valier, Pa.
KRNS Burns, OrE occasionally strong at Manhattan Beach, Cal with KAAA QRM at 0430. Very poor but audible XX near Huntington, not hrd at Omaha, Mendota, Valier nor Crystal Beach.
WEEB Pittsburgh, Pa good at Omaha and Mendota with occasional HJAT QRM. Good throughout the East.
WLEO Ponce, P.R. hrd only at 0415 near Huntington, W.Va. Blocked most of the time by WWVA at Mendota. Blocked entirely at Omaha, Valier and Crystal Beach. This station plans to DX again.

Sorry the Jan.25 stencil was mailed late but flu bug has really fouled thins up here. Don't forget the HOW THEY WERE HEARD poll. To date three votes have been received all strongly favoring the feature. Let's hear from a lot more of you.

72s STAN
Here is another one of radio's newest honoring the National Radio Club with a special test period. This program is on Tuesday morning, which is all-night KSTN's silent morning, which will open up the channel for KFHV for most of us. CMGC is expected to be on, of course, but we trust KFHV will make it out nicely on this special test. Our thanks go to Mr. John Bennett, KFHV's manager and send your DX reports to him. The station is just 11 months old.

Mr. Dickensheets informs us that his Program Department is putting together an excellent program for the DXers, and that should mean fine musical numbers, and information about the city and station. The channel should be free of KEK left 3:35 on, but CKCK will most likely be operating, but still, most of us should still get CKK very easily with their 5,000 watts. KFHV has been on since 1932, but still many DXers need them and will look forward to this show.

Manager Walt Lawson has consented to this special test from KHSM, another of the newer stations on the air these days. The channel should be clear in all but the Pacific Time Zone for this program, but we are hoping KHSM will stay on, or we'll be up 2:15 MST thereby giving the West Coasters a chance of logging their station's special test. Their kilowatt, non-directional, should therefore get out very well, and we wish you all a good reception.

Special thanks go to Mr. Strait, for he wanted to do this test at 1:00 a.m., knowing the all-night stations on 1300 in the East are off by then, but he consented to run it at 3:35 so he could give the Western boys their chance, too. So, he is sacrificing sleep for us, and let's reward him with a bunch of fine DX reports. Their kilowatt, non-directional, should do well on this expected clear channel. Be sure to tune in, then, for WOSC's special test.

Time was when we used to hear "a repeat performance for the West Coast." This test is, though, "a repeat performance for the East Coast," since on their earlier test last November 18, DX conditions were very poor and KTUT did not get very far to the East. They would like to try again and we certainly thank Mr. Houghtaling for coming back again for us DX fans. Look for another snappy program of pop tunes, information about Tooele, and KUT. A clear channel expected.

Reports to KSYC KFPL WXLW WBOX WRIB KOLE WJOC WHAW WABR WICAL. WSCO really gave service with its virus - the day they received my report they contacted me through the Amateur Radio Net, letting me know the report was correct and a verie on the way! Other Varies: WDEL WXTH KCOL WKBX DX WYTA. WICAL heard at 7:15 a.m. on 1/16 equal to WJZ, for 25 minutes, then still good under WJZ till 8:00 a.m. 1/18, varies from KTHM KZST WORX WOON. 1/17- Verie from WLBX WRRZ. Have you stamp collectors noticed the old-style Lincoln 1c government post card that WRRZ uses? I report them every time just for the card. 1/18- Reports to KFSF WESF WICR KCBW. KCBW good sign a on RS here at 5:00 p.m. WLCR on early Sunday mornings before WRTT "wakes up."

Here's that's new out from this way. 1/8- KFHD (790) Fargo, N.D. ET at 3:30, 1/9 KFRT (650) Goose Creek, Tex. with a DX at 1:50. KTMK (1510) Independence, Mo. DX for both clubs 4:15-4:45. 1/15- KSYC good on DX. 1/16- CJIB (940) Vernon, B.C. on RS to 2:05 a/off. 1/10- KCOL on DX. V/la from WFAK KIPA KFMM (now on 590) KFPO WGH KES and cards from WVCW WKFH, total now 395. KIPA gives off as 11:05 p.m. weekdays or 2:05 EST or hour later on Sundays. H.T. seems to be two hours earlier than PST as KOLA announced 10:15 p.m. at 12:15 a.m. here, However, 2 1/2 hours earlier time has always brought me surprises. 1/17 DX NEWS one of best as answered many questions for me.
VERIES are WBTI, WWLQ, WCLQ, and WHAM WXEE - need just six new veries to make my 5,000th. 1/13: No KFQJ because of CFF, KLUE hard to copy as an unknown here all throughout DX, no call yet at 3:58. KWEB DX good but an old one for me. KDQY DX OK for new call, 15th at 2:15 a.m., 890 in sun at 1:30 p.m. ends. 1/14: WJIB, 740, f/c at 2:40. WFR, 550, not on today. Too noisy to DX. 1/15: WMDF, 1580, ET again at 3:38. Unknown TT on 1360 while WMU tested, their 250 watt auxiliary transmitter and off at 3:00, no voice yet at 3:25, very noisy again today. 1/15- XEGS, 1570, caught at 2:08 with "Blue Suede Shoes" but never can catch enough through XEGS for good report. WQNY, 900, ET at 2:28 for second report, never verified Nov. 8th report. TKTS, 740, test at 3:30. WMED, 790 f/c at 3:42. 1/17: Unknown TT atop WAKR on 1590 at 2:10. WMDF, 1580, ET at 2:24. WPFO, 830, test at 2:28. Carriers and tone on 790 at 2:40, 730 at 2:50, 1230 at 3:04, 1330 at 3:15, 1280 at 3:32, 1570 at 3:50, 630 at 4:01 but no voice used at all. 1/18- Ten inches of snow and still coming down. KZON, 910, test at 2:54. A WMF call testing behind WMU at 2:09. WJAT, 800, test at 2:45. 730 had unknown on at 3:20 to 3:34 fade out with piano music but no voice heard. WPFO DX hard to copy behind WMU carrier. WMMS DX copied 3:45 to s/off, two new calls for me but never a p eep out of KDQY DX as it was very noisy and bad b uzzing today.

William J. Prater "The Hillbilly DX'er" - Grimsley, Tennessee

So far in January I've got reports off to the following: 1/3: WlHE-1400 (ex-WJAM) on 24 hour sked. 1/3- XEB-1300 at 1:47 with lots of Rock 'n' Roll. WIEP DX on 1090 was logged on my car radio outside of WCLQ's studio's. WDBR 550 heard good from 5:03 s/on to 5:21 a.m. 1/10- WAWX 1570 f/c-TT under XEB at 12:00 to 12:15. WBOA 1150 ET 1144 to 1158 s/off for a second report. TGO "Radio International" 810 heard with a strong signal from 2:09 to 2:41 s/off. WMDF 1580 Mt. Dora, Fla. ET 2:54, WQIC 1390 on RS from 5:30 to 6:12 p.m. 1/13- KLUE 1300 on DX with plenty of WSYD QRM. KDQY 1520 DX heard much better on my car radio than the ten tube Spartan. 1/13- WUSU f/c-TT under CKLY/XFDQ from 11:20 to 12:10. Reports also to XWMB 780 and XEWM 1190. Veries now total 3,248 with new ones in from WQIC-1390, WAWX-1570, WTHE-1400 (stated mine was first report under new call) WERY-1480, HJGN-1100 (nice picture card) WAMP-1320, XEGE-1570, WHEY-1230, WIER-1310, WIFR-1570, WBOA-1150, WMMA-1280, WBOA-790, KSPL-1230-dx: and WQUB-1590, 73. (Thanks for the swell WCLQ verie, Bill Ed.)

Bill Stone - Art. 112 - 540 Dundas Street East - Toronto 2, Ontario

18th, letter in from D.C. Trowell, Mgr. of CFF, impossible to stand by on any Sunday AM, commercial commitments 12:00-6:00 a.m. Reason reply not received before, gave it to CE to answer, CE was called out of town for four days, so it sat on his desk. Was up for DXes on Monday 13th, KWEB in OK, KDQY just didn't make it, Ed Hill says he got 'em OK, the complete DX of KLUE was covered by TT here, odd announcement heard. WQON didn't even raise a note on EFO, Ed Hill says same, likely not on. Returned to work 13th, bed at 7 p.m. now, popped. Infected right sinus and lobar pneumonia has taken the stuffing right out. Had a relapse on 12th, so unable to DX that AM. Was up for DX programs of WIEP, KQDD and WPFO, on latter heard occasional words only, WIEP had carrier on, rest, not a word. Veries coming in steadily - watch out. Ray, I'm closing the gap, now at 2,005 level, latest are: WIEP WEAY WATA WAMP BRYY CRJMS WRPQ WFTX WPCX WVEY WISU WMPI WSEP WSRO WPAL WDBR WIEQ WAKT WQFA WGBA WGBY WHEY WYQO WHEQ WHY WISO, 35 in so far this month. What's that Pat? Yeah, 35. Comment - there's plenty fishy on the air this year so far, must be an influx on illegal stations - letters in this week, WFRM, from Frederick Chassey CE, says transmitter is not completed yet on 1/5, at 5-5 level my log reads 4:32:46. Recording or tape, lady singing SL, WFTW Radio. WFTX-1350, 1/8 2:30 a.m., announcer gave call WFTX, Atlantic Beach, Fla. again at 3:04, again at 3:18 but letter from manager says "we were not on air." Card from CE of WFRM, who is evidently running job on WJYR 1380 - we're a-building yet, cannot verify," yet three different times I have heard the call, and never at less than 5-5 level. Letter from WBOC 1490, Mr. Waterbury, TD says carrier not turned on till 7:30 a.m. on 5th (aid I did it) yet from 6:40-3:57 I heard a program of martial music, and at 5:53, music cut off, and male announcer said, "WBC testing." The pay off came in yesterday from WFTW 1450, C. Provost, CE, "We were not on the air at time you say you heard us," yet at 12:42 a.m. 30/12 solid 8-9 signal, log says, "WDMF and WDMF-FM has conducted test" and CE says, we have no MI. Incidentally my hearing is 20/20, Vets Hospital, January 7. I just don't get it. I got verie in from KFOR, Quincy, Wash. yesterday - I sent 'em thank-you!)
Another report as I think I should endeavor to try to keep ahead of DX doing, 1/17-WAIF 210
on 1560 kc/s, for a brand new station Q4 SB plus, over XEIM 1:10-2:15 a.m. 18
th-WNIT f/c-1T on 1390 kc/s, with KNOL and Canadian on, 2:15-3:30 a.m. They check
frequency with a radio monitoring of Kansas City, per verie, also WAMS Bath &.
for NNRG 3:40-4 a.m. on my old GE set. Same date, KDID Dumas Tex. on 800 kc/s, 3:30-4:05
a.m., plenty of static. Sunday DX, WKEF Warrenton, Va, 6:35-7 a.m., quite clear. 1/26
DX KGNH DX really tough to pull in here, due to low or high pressure spots 3:30 a.m.,
recon Bob was on as I heart, "Thanks, Bob" by the MC. XEIM DX on 1390 kc/s, better
but again QM bothered 3:30-4 a.m. WINE DX of course was Q5, 40 dbs over SB as this is
a good day local 4-4:30 a.m. and WSIZ DX on 1310 kc/s, met WCM and WWR with a fair
signal, some nice country music heard plus IDs and lastly, Jan. 22 with WCPC Houston,
Miss. f/c and march music 1:45-2 a.m. Veries, a few, KPOR KSPL TRAM WTRA WTRU WILL
(four days). About the OKRS DX, where were you, Lefty? I heard him here, station
breaks plenty but music was all French. Of that TV I mentioned here, Sunday 1/11 10:05
-11 a.m., CXW on Ch. 9 was very clear here, audio 100% and video about 90%. Never had
him before or since, used the Eric antenna. For SB fans here is a nice program. EMA
Monrovia, Liberia West Africa has an all request program every Tuesday night 6:15-7:45
p.m. on 15 meters, 15/2 mg/s. and at 8 p.m. a repeat, same program on 13 meters, 21,504
mg/s, usually on SB plus, heard mine plus a nice plug for the NRG too, hi. Been hearing
about those WPMO veries, I reported Oct. 29 and received my QSL Nov. 2, how's that?
Maybe I was just lucky. Delinquent here are KSLR KJAL KORC KEVE, these from last year's
DX. KQDY DX heard good here on Jan. 13. Wonder if KMNS will verify? Today there are
42 reports still out, Pat hasn't anything on me. About those thank cards, several re-
plies sent back here showing appreciation of this expressing hope I may fare better an
other time (pages off). Sure was good to see my 1943 report of ten years ago, DX diffe-
rent then. Notice reports and number of QSLs. More another time.

Ena, Peter V. Taylor - USCGC Winnepeg (WPG-40) c/o P.O. San Francisco, California
If I have done what I think I have done, then I deserve the bungle medal for the year
Got a letter back postmarked "Khartoum, Sudan" (no stamps, they used a meter) so I
thought "Hot dog, here's my Sudan verie." Sure it was; they replied, saying it was the
"Sudan Corner" program broadcast by "Radio Cairo." They went further on, saying to try
to hear them on 574,988 kc/s. or 521.74 meters, which is the frequency I tape-recorded,
So apparently I sent the Cairo tapes to Sudan, and the Sudan tape to Cairo. This na-
aturally, irks me. Some veries in, including KUBU (could do) 1590 and HJOK 4AY. Really
pleased (?) to read about KPOA's CP for 10 kw. on 650. Have a new apartment and am
now one block from KHON. A lot of trouble verifying AFMR-FEN stations, so recent f/ups to
KTHM, EMI-650 Chimpaw, ATKN-650 Seoul, ATKN-1400 Kumare, ATKN-1250 Pusan, and AFMR-
1550 Taiphe. Maybe there's more to this inter-service rivalry than I thought! Other
recent f/ups to WHN KIMN XXXX KRAI XFQD KOBX WNYJ WYMI XIPAA. Hank Wilkinson, this
latter should answer your question on KIPA's attitude toward reception reports! A less
efficient antenna has been hooked up to the ship's radios while we are in drydock, so
was able to read both KTOH-1490 and KAPL-1240 with no trouble the other day. Looks
like my good Army friend John A. Callaman is getting considerably ahead. I guess I
shall hop up one of these mornings, fight the images, and try for Johnston Island on
1250 kc/s., as it is about 500 miles south of here. In the meantime I shall be looking
forward to a letter from "Radio Cairo" saying, "We are extremely sorry to tell you that
what you heard was "Radio Sudan."" Any rules about mounting Egypt as verified? After
all, not many people have Egypt verified by the Sudan Broadcastingservice? 72s.

C. E. Gerstner - 9853 Escanaba Avenue - Chicago 17, Illinois
Only one verie the past week, from KSPL. Following are some of the loggings made here:
1/18- 3:30-4:15 KIDD DX for NNRG. Other NNRG DXes not heard here. 4:30-4:30, Canadian
French on 1280 kc/s, 4:30-4:40 WEA f/c on 860. 1/19- 1570, WTAI f/c on top of
XERT. 7:19- 8:30 1600, WARR badly QRMed. 1/20- Batted 1.000 on DXs this AM. XEIM
heard very well here, being in the clear. XEIM was fair but with KOIL QRM. WINE gave
KRLD a real battle for a while before fading. WIRJ and WBAV, the two NNRG DXes also
heard, the former, not received, WSIZ was rough with plenty of QRM before WDOD s/on
ruined all. 1/21- 1420, WTOR ET with strong signal promising veries on reports. 1/22-
No DX this AM. I hope this snow we had will improve DX CX here. More later, till then 73.

IS THERE A REPORT FROM YOU IN THIS ISSUE? IF NOT, WILL THERE BE ONE FOR NEXT WEEK?S?
February 1, 1958

Dx_News

Stan Morse - R. R. 3 - Bradford, Massachusetts

1/17 - Annual report to CKSH 1:55-3 a.m., plenty of ads. WHIN AM show 2:30 a.m. KGHI over WEP at 5 1/8 and TT in background. 1678, still at it. XBT 990 3:30 a.m. 1/18 - KLCN on 910 on most of AM testing. WCG-1320 test 2:42 a.m. WJAT test 800 at 5:12. KDDD 800 KBCR DX weak. XRT 990 still at it after 4 a.m. Spanish under CGS AM to after 4. Varieties, WBDX WNYW WHHY and KFOR for the DX which I didn't hear, so varie sent back with a note of explanation, also letter from WLEU thanking me for thank you note. Another of same from KPL. 1/18, p.m. WAGA 5:15-5:28 p.m. when a religious broadcast took over to 535. then WHAI, all 730. Hal Wagner, I've got a barrel of hard cider in my cold storage, so don't give Dr. Pepper all the credit. 1/19 - KJLT f/c 970 1:18-1:315 a.m. WQXL 790 s/off 2 a.m. followed by KSSK 2:01 a.m. WHUC 1330 s/on 5:59 a.m. WNDX BS 930 at 6. WTAG 1470 6:09. WKNB 1330 s/on 6:15. CMHB (?) 1200 BS 620, alc. "Radio Orientte." Parked on 1280 hoping for WHSA. 6:47, WIBB s/on, 6:58, WYRE on top, 7:00, WMAE p/an and dominant to 7:23 when WMAF s/on. WSBM s/on at 7:29. finished any change at WSFA. WABB s/on 1440 at 7:30. 1/20 - KIMX 1310 f/c, not good enough for a report. WHUX 1170, "Radio Rejoice." 2:26 a.m. TT on 1590 2:39, no DX. KGRC 1110 very weak, just barely heard at start of show. Am sure glad I already had them verified as I couldn't copy enough for a report. KEMO 1290 3:29-4 tough first half, but a echo after 3:42. WINS 1300 4:02, QRM by KEBD. WSIZ 1310 fair to weak under the old blockster WCAM, no sign of WTQ who were on early last week. 1/21 - WCFR, ex-WBNX RS 6:53 a.m., about equal to WSFA here. Varies, KPCQ with note mentioning that Dick Gilbert was the same one I used to hear on WHN; WSYD, WIDE, WTHA and WSAM. WTHA and WSAM verified by card, also a second verification, WNS. 1/22 - WDKX 1560 RS 1:57. WJJC 1270 r/c for a new one, WTLQ QRM. WJAK 1460 musical test at 2:51. Portugese 1578 as usual WHUY TT 1470 at 3:141. WNBH 930 DX for NWNC 4:00. WOKY giving a plug for Bartell stations WOKY WIND WYDE WAKE KGBQ and now awaiting FCC approval San Francisco, too.

Week's highlight was 31st country verified - QSL card in from LimZ, Austria (1025) on 1/17 for report of 10/23. Other veries from Stavenger (1313) and Kristiansand (190) both Norway, and KVEL, Vernal, Utah (1340). KVEL varies dated Dec. 8, 1957, verifying report of April 15, 1956, and bore postmarks of Vernal, Corvallis, Ore., and Carson City, Nev. All other mail included letter in German from Staatliches Randfunkcomittee, East Berlin, denying any knowledge of the clandestine Deutsches Freiheitsf<er-49, the East German equivalent of "Radio Free Europe" ha ha ha! To show the variety of the Army mail system Secon half of Wayrich Log arrived 1/15, to date (1/21) first half has not yet arrived. I'm still getting Christmas cards, plus this: Most of time, air mail takes four to five days from States. But air mail special delivery from Canyon concerning a basketball player I'm trying to proselyte took seven days. Have received 12/15 and 12/23 issues of "Broadcasting" magazine, but 12/19 issue has not yet arrived. No new reports this week, as I ran out of IRCs and money at the same time. A few f/ups with PP cards will be sent out immediately after payday. As I write this, have one day less than three months remaining in Germany. 73 and best DX to the entire gang.

Sid Steele - Route 4 - Charleston, Illinois

Even though I have not reported this season to DX NEWS doesn't mean that I haven't been busy at the dials. Thus far 33 reports have gone out to new stations with varie back from 49 of them to boost my grand total to 2,447, so I am really out to make that 2,500 mark by the end of the season. Over a third of the new loggings are a result of the DX Specials. I was especially happy to log CFGR KIYI WMWK KBPI and many of the others. CFGR had an surprisingly strong signal here. On 1/8 I logged and have since verified a new country, namely Trinidad with the logging of "Radio Trinidad" on 730 "s" on Sunday s/on at 5. For the most part they were louder than CKLM. Some of my more recent loggings are as follows: 1/2 - WHYE-910 s/on at 6; WYAY-1490 f/c off at 5:13, WREB s/on at 5:30. 1/3 - Found WBOR-1470 with TT 12:50-1; WAPF-1330 TT 1:40-1:45; WHEC-920 TT off shortly after 1:45. 1/5 - WGE-8 DX, but not new and WEP on DX for new call. On 1/12 sent report to CKRM for 590 logging, but heard no positive ID; just a chance it was they. 1/12, Dince from KLUE KAND and KQVI all well received, but nothing on WCCG KUPI. 1/13 - WREB finally logged at twilight after WHAP c/off. WEAQ off at 6 p.m. 1/15, WAMP 1320 logged in evening for new call and 1/17 KEEL-710 logged at twilight for new call. 1/18, WNBX-1290 f/c 2:15. CKSL-1350 RS 3:45-5. No FOIL this Saturday AM. Then WVPS-840 logged with lots of difficulty due to WHAS carrier for a very welcome new one. The 1/20 was another banner AM with five new loggings, namely KGRN KEMO WINE WIBY UATA. KRN was surprisingly weak and got a neager log, but others were easy.
DX has been very much on the upsurge here lately, despite not-too-favorable DX and impending final examinations. These exams will complete the course work portion of my master's degree, though the thesis is far from completion. 1/13- KWEK and KMNK on Specials, KVOC on f/c or ET. 1/18- KKBG and KVFG as scheduled, KDDD potent on NRC test. WLE-BK90 heard in brief spurts, positively identified but couldn't catch the record titles due to rugged atmospheric noise. This represents the first main reception here in almost eight years of dial-twisting. I don't recall ever hearing a main station from Ohio; either, though of course I didn't know about the NRC at that time. 1/20- KGVM on for NRC with Bob Gorsch and a real party line-type DX confab. Very enjoyable.

KHEO apparently was the fellow testing far behind KOIL. WINE-1080 spotted in behind KHKD, and that was tedious listening, trying to decipher WINE's signal from under such longhair selections as "Bolero" and Tchaikowsky's Fifth. WBAW-dx was next, then WSE-dx became my 1,660th heard station. Also noted WTIK-1310, WBBG-790 and Trinidad's pair of powerhouses, 730 and 610. Aruba seemed to s/ on 655 before 5150 EST. Panamanian strong on 1015. Did anybody ever decide who was the LA on 1170 1/20? Bill Prater mentioned it during his call to KGRN. 73. (See Stan Morse's report on P. 7 -Ed.)

Loc. A. Shelly - 26 Philip Street - St. Catherine's, Ontario.

Please don't feel over when you get this note from me - it must be a long time since I've written for "Musings." Enjoy the letters of the other members very much, although I haven't Ditx myself for the past three or four seasons. Just can't drag myself out of bed at that time in the morning - getting old, I guess! The Stamp Bureau is still functioning although I've had to stall some off for a while, for a new supply of Cubans and Mexicans. Hope my new sources of supply will stick with me for a while this time.

I took over as Commander of Officer of our local Air Cadet Squadron some time ago (that is equivalent to your Junior Air Patrol boys), and trying to look after 115 boys between the ages of 14 and 18 takes a good deal of my time, too. Am still very much interested in the stations, though, and try to keep my perpetual listing of all North American broadcasting stations up to date - with the help of DX NEWS. If there are some of the old timers who can help with the older stations' records, I'd appreciate hearing from them. Am interested in the stations' call letters, the first year they went on the air, and the power; their last year on and the closing power; and changed of call letters, locations, etc., with the years. Two stations I am particularly interested in tracing are KLAF, Siblet, Minn., and WBEA, Sisit, Wis. Although listed in several different old radio logs, I fail to find a record of any logs by those names. Be seeing you again sometime, and lots of luck to everyone. (Please do write in soon again, Loc, and do you have stamps for Venezuela/Colombia/Costa Rica? -Ed.)

Daly Giles - 2444 Guilford Lane - Oklahoma City. 20, Oklahoma.

Had another fine DX morning thanks to the swarm CPC programs. All Specials were logged both NRC and NRO. DX here were fine for DX with some snow. Heard this AM were the following: 1/20/58: KGRN 1410 DX show; wish it would have been possible to hear it all. KMBG-dx 1290 was fair under KOIL, KLAN 910 AN, another log on this one, 3:17-4:00 a.m. WINE-740 NINE DX good. WINE-1080 DX very difficult under KRLD which stayed on AM and played long classical pieces during WINE DX. Did get a little, WSIZ-dx very good. They must have read everyone's name. WBAW 740 NINE DX very good; signed off ten minutes early. WDEL 550 fair with WSVA on RS 5-5:15 a.m. WOR 1150 at 5 a.m. s/on good, WTRU 1630 DX 5:56-5:45 a.m. A tentative hearing of WVPQ on its NINE DX. Two stations on 840 here other than WHAS' carrier. KDDD 200 was good that same AM, 1/18. Varies in form: KREE-dx, WOLC, thanks, Bill, for fine verie, ESTR, WRAM-dx KEEE CFCI-TV EFOR-dx WEZY KDJL NPEL-dx WCRI and KFPO. KFPO quite colorful letterhead. That's it from Okie City. Hope your DX is great wherever your location is!

Thought I'd send in a little report. Of the Specials I've received the following of them, all new except WINE: WXLK WOLC WEEP KRES KREE KEMO and WSIZ. The others I didn't receive on account of too much interference except for WCGG and GMR, which I had forgotten, even though I received the information about them in plenty of time. Other new ones for me were: WJUG CFRE WFX WAMS. My total is now 2,045 received and 1,287 verified. 73.

Dick Nordahl - 507a Kimball Road - Iowa City, Iowa.

Verif in from WGC, 1600 k/s., Ripon, Wis. and say they will run a DX Special for both clubs on February 24 from 3-4 a.m. EST. Reports should go to Gordon Alson, C.E.
February 1, 1956

Leon S. Neblock - 863 Yates Street - Galesburg, Illinois

Not too much this time, but a report none the less. Jan. 17 - KPUR-1490 r/c 1:05-1:15. 

WGO-1420 ET, tone and counting 1-2-3-4-5 1:20-1:30 through WILS. WCOJ 1420 ET for second night 2:24 to 2:40. WREC 1470 ET, s/off 2:37, seen 6 a.m. Jan. 17 - 1010 TT 2:45-3:00, no ID. Also 1930, same date 3:25-3:40. Jan. 19 - KLJT 970 f/c 1:30-1:35 in here S-9 for a change as he is usually S-4. XTEC 590 ES 1:40-2:05 s/off, s/on 7:05, first time heard here. Jan. 21 - Snow and more snow. KDOF-1220 TT and music for a new one 1:30-1:35. WREC-1360 ES 1:30-3 p.m. Jan. 23 - WJHL-1440 r/c 1:00-1:15. Reports to contrary, WJXK is still fourth Wednesday as Ben Patch lists. WTRA 1330 r/c 1:17-1:145, new. Jan. 22 - WOPC-1220 r/c 1:45-2, S-9 all the way; s/on 6 a.m. WJUC 1270 r/c 2:00-3:15, S-9 until 2:45 when WTAL came on with 5 kw. WTAL 1470 f/c and ET, tone on f/c, music on ET, 2:05-2:45. Jan. 23 - 820, TT, no ID, 1:45-2. 1/24-1:40 testing backing WAIL, never heard ID. WAIL signed off at 2:00. WWFF-1260 f/c 2:30-2:45, hard to get with WMIR bugging away.

Talbot Johans - 72 East Genesee Street - Buffalo 3, New York

V/Is by WMIR (1580) P.O. Box 591, tested first 1/10 and opened RS on 1/20. 7QQ (590) P.O. Box 900, started in 1936 with two previous years of 40 watt experimental broadcasting, their time is 1/2 hours ahead of EST and the transmitter is four miles from studio. Their Special DX was tougher through WERB than WMIR through WHER. WMIR (560) has logs back to 1928 but 1924 was official date, moved from 1320 kc/s., in 1934, they f/c themselves, Sunday AM only silent. WQCR (1420) Box 840, also send an OK r/c, has no pop music, 67 miles from Ashland is transmitter and studio, the other studio in Huntington, W.Va. WYNS (1590) gets a lot of CHV (1600) slapprox here, Cathedrus Broadcasting Service, 91 Main Street, has f/c first Tuesday, s/on 7 a.m., in March; 6:30 a.m. WYNN (630) has Seacoast studio, also in Portsmouth, Pease AF Base, Whaleboro and in Center/Ossipee, N.H. and can irop instantly to 1 kw. from 5 kw., also has Cancelled, only does Proof of Performance Tests with one soon coming up starting after Midnight, s/on always 3 a.m., also when on EDT. WISZ (3130) P.O. Box 202 has f/c second Friday. WCRN (1370) call stands for: Wisconsin, Clark, County, Neillsville. WAKO (830) call letters mean W-Allegheny, Monongahela, Ohio, a colorful letterhead. WQRC (1600) Charles K. Heath, PD and AF mentions coming Special 2/24 for NNOC/NRC, has minimum radiation at 87 and 1730, major at 310. KPOK (1440) with CE office at KPOK Building, has no r/c, went to 5 kw. 9/17/57. Canadian D of T now gives CFGB (1060) 10 kw. DA-1; CXX (1150) 3240 Victoria Ave., 5 kw. D, 1 kw. N. Heard KQDY Special mention a phone call from Illinois; took KQGT (1600) through WHER's yak-yak 2/22, then WJAI (1270) WJAI, also WIPS (1330) r/c through WCAE and CHWY, they both s/off at 1 a.m. WJUC (1370) r/t ET, also WJXK (1440) as listed, he evidently made mistake in v/1 saying the third Wed- ney, but leaning fourth. Lefty, SKLC (1300) was still going that AM and STM, VENY (1400) runs Saturday's programs through 2 a.m. Sunday for past 14 years. So long till after Ground Hog Day.

Harl-Wilkinson - 6520 Basan Avenue - North Hollywood, California

First, I've read several times about the new "Spanish Report" form that was made up by Jack Hathaway and the question is: Where can a fellow buy them and how much? Sure would like to know. My present form isn't doing too well this season. Secondly, I have nothing but praise for the new edition of "Broadcasting Stations of the World", Part 11. The best they have put out yet. On the past two Monday mornings (January 13 and 20) I've gotten good loggins on six new Central American stations never heard here before. On 1/13 I picked up TGAF, "Radio Indiana" at 5:07 to 6:15. TQ, 1175 kc/s., from 6:55 (s/on) to 7:04. YW, 935 kc/s., from 7:23 to 7:34, and TGX, "Rumbo Novidades" 1085 kc/s., from 7:42 to 7:50. On 1/20 I logged EDJ, 1125 kc/s., "Radio Provincias", from 6:13 to 7:31 and YSEP, 1075 kc/s., from 6:55 s/on to 7:41. TGAF is listed on 1060 but he is closer to 1065 kc/s. Please note times heard. On the two mornings it was very clear here and sunrise was also clear and bright. (Is this PBP, Hank? I'm just listening at the right time, I suppose. I now believe that my "mystery" on 935-955 kc/s is TGAF. It was in the evenings (Sunday) and on several mornings at 6:00 is YSEP. Not positively, however, as TIFC is also on at that time. Trans-Pacific stations are at a premium right now. I hope that area "opens" up soon. Haven't heard a good signal from Down Under since early last September. Say, Roy, watch that fellow, Clarence Freeman. He's out to grab that first place certificate out here. Next season I have plans for two 60' antenna poles. They cost $10 each. I guess the Dodgers will stay after all, Lefty. Best of DX to everyone. I hope the WX gets back to normal for you fellas in the Mid-West and East. 73. (Keep the Dodgers, Hank; I hate to watch old men go down hill, hi - Ed.)
Between January 8th and 21st reports have gone out to 980 KUPI-dx, weak signal and program; 900 KVXG for test during part of the KUPI-dx. to 1300 KLUE-dx, all on 1/13. This past weekend reports were sent to 800 KDDD WWNO-dx, 740 WRJ and WMW for WWNO DXes, and 1480 XDKX for listed f/c on third Mondays, though they weren't on at that time during November and December. Back to January 12, 590 KFMY decided to run AN, so all I heard was an ID from KNHS, so sent a thank-you card. On 1/13 I did not hear KWBB KQDY or WSGC. Might have heard a whisper from 840 WPO for KNHC 1/18, but on 1/20 CFUN colored 1410 and KGM; KOIL was all I heard on 1390; KHLD was on AN so no WINE, and KBER is AN Mondays now, so no WSIZ. So three for the WWNO and three for the KQIO DXes the last two weeks; only KQIO has DXes; the others were listed on the third Saturdays. The KQIOs got busy after Christmas, and I received the following: 550 KBFR, 740 KCEG and WSIB-QSL; 990 KATT; 1130 CKXG and their magazine; 1350 KHSN and WCQ; 1430 KNUE; 1420 KO00 (thanks, Phil); 1440 KIEM and WYXK 1470 KPLO and 1550 KOLY. Signs all members getting varies will do the same. Other DX notes of possible use to members: 990 KFMY is off Mondays; 1360 KNHS same (nobody nearly on 1340 AN, now). 600 KHQD was not on listed f/c third Saturday; is that time EST or CST? Please check. Moved the TV lock-in, and installed an East-West wire in the attic; now the TV antenna gives the best signal strength all over the dial. Anybody ever DX with a Stromberg Carlson receiver? Are they good? Still looking for an excellent DX receiver on AM, with EM, and good tone; any comments gladly received. Happy Lincoln's Day to all.

Frank H. Mittler - 2305 South Lincoln Street - Denver 10, Colorado.

DX OX continues to be poor here as not too much to report. On 1/15 KEX (590) noted with what sounded like AM show and noticed couple of other morning reports so report sent. On 1/19 sent report to WCAL (770) Northfield, Minn. for 7:00 s/f on although not a new one. On 1/20 had only fair luck with the DXes. KGVC heard here most of the way for a welcome catch but KOIL only fair on the second half of the program. Only other new one was WJRY (740) DX for KNHC in fairly well here. No change for WSIZ here with regular AN WBB heard plus believe KWBB and KLIX both with new AN shows. On 1/21 reports sent to KGBG 0000 EST USPD KXKQ and on 1/23 KOLT and KCHF; for another try. None of these new though. Varies still coming in well with 13 in this week. These included WYX-dx KSOH-dx W02-dx KCHI (900) WLCQ (1510) KXGR (1500) XDRS (1490) WLAQ (1410) KNUM (1450) WVNA (1390) KROG (1210) KTOR (1360) and KXGB (730). Ben, this gives me 1,347. Local KDNX (1340) has extended their s/off from 2:10 to 4:00 am. EST. Also KOA from 2:00 to 3:00 EST. WVOD still not back on AN on 630 though. Up listening for a while this morning (24th) as didn't get home until after midnight but nothing heard to report. I did notice WQX off AN sked out with poor reception only thing heard was KLOI tasting there. Also noted K8WP (590) on with MD auction but not needed. Finally got some winter DX here but hasn't helped reception so far. Heard KNOE (920) Albuquerque announcing this morning that they are back on with their AN snow every morning so hope they don't bother too many on the KDS-dx. I am looking forward to a hearing Randolph and his logarith on this show and would like to add WEBS too. By the way no WINE heard either Monday as KHLD showed up with AN show. Also believe another new ANER is KRCB (1470) Ailene and X4KC (1340) in same city is definitely AN now. Best of DX all.

Bill Picklund - 54 Pine Street South - Port Hope, Ontario.

This is unusual for me to have two reports in two weeks but DX has been great during the past week. DX by date: 18/1 - CHOV-1350 s/off at 12:09 through QRM from KLUE. 18/1 brought in of the three WWNO Specials namely WAMS and WWPO also on the same morning heard 600 through CHQQ on 680; f/c of WVWA and WBMB as listed; also heard and logged was WEBH at 5 a.m. s/f. 20/1 - Logged KGER-dx with a very weak signal, also WINE, KEMO and WIBM. I felt sick so I went to bed and missed WSIZ and WABX-dx, also 20/1 WQSO-1315 in mid night s/off/ 22/1, f/c of WIPS also DX of WWNO with an S-9 signal, WPRA-1300 with 5 a.m. s/f at last I heard WYNT-1400 at 8:15 a.m. through CCTV; WABA-1370 from 11:00 to 11:50 p.m. "through WSHY" two New Hampshire stations for me, not bad for one day. 23/1 - KARK-920 at s/off 12:11 a.m. and WTTN at s/off 12:08 a.m. on 550 kHz. On Jan. 20 I was out to Peterborough with the Rover Scouts and tuned CHRI radio and TV. I asked when they were changing to 930 kHz. and no one knew, so the next day I listened to the news on CHRI and they said they will change to 98 J kHz. with 5,000 watts around the middle of February. Varies are in from WWPA CHOV KRES WWNO and WPAB. I now have 23 reports out. I am a non-member although interested says that WFST 970 at 14:30 s/f. Every report to DX NEWS I forget to thank Ken Borisen and Herb Ward for their support to Carroll Wehrich in getting out his wonderful radio log which is more to me than just another log, thanks, gentl. For now, 73e.
February 1, 1958  

Ben A. Patch - 2760 Deerfield Road - Deerfield, Illinois

Lots of DX to report this time, starting from 1/9 when I logged WIDU. Due to poor logging I tried for the next two AMs for a better log. Did not hear them again but while trying on 1/11 ran into another ET from WMEX in Atlantic Beach, Fla., which using one at 12:35. That was followed with a test from WMTF 1580 Mount Dora, Fla., to 225 s/off. Also on ET at 1:48 was WQVY 1590 and did I hear an ID from WCBS 1590 at 1:45 also? KVWM 1360 ET @ 4:30-5, and AN WIZED and WSAH 1480 logged. Is KANS off an AM sky now? Did heard for several days. WMEX logged at 4:53 p.m., on 1360, and took a log on KFRC-650 at 9:20. Sunday 1/12 WPFD 1350 @ 5 s/on and that night caught closing of KPEZ 1450 @ 6:45 followed by 930 KHEE s/@ @ 1/22. Sent report to KBZ only. The big DX AM of 1/13 was very poor here but did log KLUE-dx with QRM from testee. Didn't need KODY or KWEU. WCGN did not seem to be on and KUPI blocked by stronger than usual CPFL. Logged CPFL though. WDUS 1280 @ 3 s/off, and WEAN 790 @ 5 s/on. Morning was quite peculiar with North Eastern stations in strong. Next session was 1/14 for WMEX-dx. Heard here but unlogable, 1/18 DX session which I have been waiting for with hope and anxiety was a complete bust. Slept through the alarm clock rings. Saturday night though I hit a corner! Believe it or not a bootlegger! At least it sounded that way. The station operates supposedly on 1570 kc/s, and announces as WTDJ with studios, transmitter and antenna located miles East of Gilberts, Ill. on Highway 72. Carried commercials for Dunse National Bank so I sent a prepared letter there. Actually they were on 1555 kc/s, with astrocyres on CBE and WQXR from them. Also heard on Sunday afternoon and evening 327 p.m. Eastern reception was a surprise as WQVY 930 rolled in at 7 and WAVE 970 strong at 9. KSAN 1360 also logged. Got all set for the big AM of 1/20 and started off with KEMO DX weak behind KOLL. Next heard was a short test and close of KZDY 690 in Tyler, Tex. on ET. CX were not good this morning either with a strong hiss all over the dial. Nothing from the West in at all. KXLD messed up the WIND DX with a special airpor open for American Airlines. WSIZ-dx in on top of 1540 till WTK took them out at 4:58. Regular s/on of WDDL 1470 @ 5, WPON 1460 @ 3:25, WIVV @ 4:30, WIST @ 8 and WWBD and WKLM 790 at 5:30 all logged. Veries moving up slowly! 1345 with addition of 22 new ones, WSIS WEAN KCLW WDDT (thanks Hal) KONY HPGC WAVE CPFL KAUT WPDE (wow what a beaut) KSPL-dx KSIS WRAM-dx WPFD WAFG KONT WASR WANE WABF WKTZ WIDU KLLA WILL. Be looking forward to the DX from WMOK in Metropolis, Ill. 73.

Roy E. Edge - 325 Shirley Avenue - Buffalo 15, New York

DX a little better this past week and the following reports went out. On 1/20 1250-KEMO heard good, 1510-WSIZ not bad at all, WCGN did not do them much harm here, 740-WKAI caught coming on the air for RS; 1410-KERG heard but kinda tough although got enough for a decent report; did have to call them when Bob Goresch announced no calls from the East, 1/22-930-WWNN heard well here but was awfully afraid WENN was on with a tone test, but it turned out to be WKY. Veries are of the One a Day brand, and like vitamin pills, popped me up. They were letters from WEEP WMSL KJRS and by the way, Scooter, they did play "Elvis Presley for President." Also veries from WTRA & a card, printed. Total veries now at 2,021. DXes from KEDD and WINE not needed, will be on hand the 27th for YHEG and KDES I hope. Otherwise nothing new here. Getting our winter as we have had a good deal of snow lately and more this morning, the 25th. Working steady days now, so DX will suffer but will still make those Monday AM DXes and any that are on Saturday or Sunday AMs. Again glad to see several of the oldsters reporting, keep it up and also to you non-reporting members. How about a report or two? 

Ted Weiss - 19 Fairview Avenue - Schuylkill Haven, Pennsylvania

Quite a few veries in, WCGN WILB CHUM WHEY WSBS WEST KERH WTPA WVSQ WINT WDDT WAVE WZEE WRAM WTRA WPZZ WMDF and WCLC, thanks Bill Prater for the very nice WCLC verie. Glad my report was of some interest, nice reply from WNYN on their test of last Nov. 3, the delay was due to new transmitter set up. They topped 1490 that AM here, WIPA sent along a very nice hand written letter by CB, says he is always glad to hear from us fellows on tishe WIPA signal. I logged them on RS behind WGY on 610 kc/s. For ot to mention that KODY also made it here with their DX on 1/13, logged on 1/20 KEGM WSZ WRAM and KEMO on DX, KEMO heard briefly due to electrical noise here. I squeezed in eight minutes when the noise was off. Seems like Philadelphia will get another radio station for Cosmopolitan Brc castallng Corp. of Los Angeles applied yesterday 1/21 to the FFC for a daytimer in Philadelphia to operate on 1170 kc/s, 250 watts. I sold my Hallo- crater 5-53A over the weekend but the guy brought it back for again for he has more electrical noise than I have for he lives by a textile factory going 2- hours. Don Reynolds, thanks for tip in Dec. Popular Mechanics on electric FM31've sent for a copy.
Greetings to one and all! Latest verifications are in from WEDR WILS KPOK-dx KEMA-dx WTER-card-DX KSPL-dx WGOM WLON WSWP-dx KFNN-card-DX WAOQ-card, WING-card, WEDR letter and card, VIP WMAE-card, WOBS WDCJ DVIP WKLX-dx. On their test WKLX asked for tapes and so I sent a tape and do a short tape if they had the time. Russell Bell (the announcer on our program) did a nice reply tape to me. Recently heard are WTHU S-3 DX, KPVA on early on 1/22, KERN S-6 DX, WINE S-8 DX, WSIZ S-3 (WACM on top) DX, WBEA S-7 DX, KLUK with a TT, KNUV S-9 DX, WBEA & KBHS-TT-DX, WHP-dx WCLE-dx WSM 5:00 s/ on 1360 kc/s, WION-1450 6:00 s/on, WCEB ETing 12/29/57 O 15:00, WBYE (ox-NH) heard 12/27/57 on ET. Now have 337 verified and an unknown number heard. Only states that I need yet to verify are Montana, Kansas (report to KFKT), Vermont, and Idaho. (Hi, Ed.) Dill. I have a report out to KFWB (Montana) as I heard them behind a carrier. I did hear a station break through... WKLX is getting a new CE and so I hope that now they'll be able to give a DX test for us without all of this red tape that the present one has thrown in. I also hope that he'll still let me continue doing the tests for WKLX. I'll be going out to WBAB shortly (I hope) and I'll try to get them to test for us. Till my next report, 73's and good DX to all.

Bob Beck - 99 Reverse Road - Manhasset, New York

February 1, 1953

Greetings to one and all! Latest verifications are in from WEDR WILS KPOK-dx KEMA-dx WTER-card-DX KSPL-dx WGOM WLON WSWP-dx KFNN-card-DX WAOQ-card, WING-card, WEDR letter and card, VIP WMAE-card, WOBS WDCJ DVIP WKLX-dx. On their test WKLX asked for tapes and so I sent a tape and do a short tape if they had the time. Russell Bell (the announcer on our program) did a nice reply tape to me. Recently heard are WTHU S-3 DX, KPVA on early on 1/22, KERN S-6 DX, WINE S-8 DX, WSIZ S-3 (WACM on top) DX, WBEA S-7 DX, KLUK with a TT, KNUV S-9 DX, WBEA & KBHS-TT-DX, WHP-dx WCLE-dx WSM 5:00 s/ on 1360 kc/s, WION-1450 6:00 s/on, WCEB ETing 12/29/57 O 15:00, WBYE (ox-NH) heard 12/27/57 on ET. Now have 337 verified and an unknown number heard. Only states that I need yet to verify are Montana, Kansas (report to KFKT), Vermont, and Idaho. (Hi, Ed.) Dill. I have a report out to KFWB (Montana) as I heard them behind a carrier. I did hear a station break through... WKLX is getting a new CE and so I hope that now they'll be able to give a DX test for us without all of this red tape that the present one has thrown in. I also hope that he'll still let me continue doing the tests for WKLX. I'll be going out to WBAB shortly (I hope) and I'll try to get them to test for us. Till my next report, 73's and good DX to all.

Rusty Perrine 28 Maple Drive - Manhasset, New York

Hi Ed, and all you other DXers. Newest DX: KVER-dx, WJBE, new call, CPLI-930, WJOL-1340 AM. All those on 1/13/58. Newest verifications in from WVIP new, 1310, WFMU-1350, KPOK 1440 DX, WTER-DX-1460, Was reading in DX HESS (what else?) that a few lucky, fortunate NRCers have gotten new WDMT. Acting on tip I took a look for them with Bob Beck on 1/23/58 and heard only unID Spanish with unusually weak WOWO, around 6 p.m. (WJBE-1190 local, was off). Thanks, Ed, for the welcome in the recent issue. Have been noticing the DX NEWS is late in arriving here. Is it true, "Mail is late in 33?"

Notice WFCB 1330 on 5:00 here along with WBOB 1360 at 5:00. Went with Bob to WKLX and saw the departing CE wave good-bye, said "Hi" to Harry Jack. Hope to go with Bob to WBAB to arrange a Special test for us. Ed, does the NRC receive notification of our NRC tests, as we do theirs? (Yes, Ed.) WBOC not in here as of late, WDWM-540, comes in nicely in Garden City. Going over again today and will use the Zenith and do it right instead of using the car radio. Received two new states and verified Vermont, WTSB, Arizona, NPO. I have 219 verified to date, well over that heard. Bob and I are planning an AN session some night, hope two earphones are better than one. Great DX to everybody. 73s.

C. L, "Stan" Stanbury - Box 518 - Crystal Beach, Ontario

Starting off with the domestic verifications and I have a flock of them to report: WTEH WAI L. WUBC KDUS CJUL VHGA KREI KIYI ARIC with WFLB WATB WOBS WITQ KSPI (thanks to John, and Bus). WATP (11ke KFNC not very definite) WAG WELD WKLX STL KFNN VRAM KSPL KATR WJOG and KCON (at last). In addition to Specials the following domestic stations have been logged: 11/5 WAOQ (1380) Atlanta, Ga., on AN RS. 11/16, KATR (1300) Corpus Christi, Tex, at sunset. 12/18-1 GUSB (500) Winnepes, Minn. AP RS, forgot it above but they verified promptly. With so many Specials on that AN I used two receivers. Worked okay except that my second receiver isn't particularly powerful so actually only logged one station with it in WTSF. In addition used it for keeping tabs on 1360 till WLSR went off and WIOD chimed up. 12/12-1 WDFK (1440) Rockford Ill. on RS and CHNO (900) Sudbury, Ont. AN RS. 1/15-1 WMDX (1390) Mount Dora, Fl. ETing and asked for reports. 73s.

Ference W. Mittler - 2313 South Cherokee - Angelwood, Colorado

Tried a report on 1/13 on WDD-990 which seemed to be running AN for the past two weeks. They never answered last February: 1/15 WOQ-1320 was running ET and f/c. Glad to get them as I missed their DX. Also took log on WSP-1370 through WCON on AN. 1/19, another report to KFWR-980. 1/30 KFRC-1240 r/c, KLIN-1450 r/c, KDXU-1450 r/c, KORH-1410 with small DX ID, thanks Bob. KEBO-1230 made it through KOIL pretty well. 1/21 took another report on WKR-1320, also KRUH-1360 both on evening RS. 1/23-1 KOIN-610 with one ID on r/c, and WLOQ-1380 good on r/c. Varies have come in from KJOC-1320 KTER-1450, KPOP-1440, KGDL-500, KATO-500, WDET-900, KFOR-1370-dx, KENX-820, KBSC-1240, KRAI-550, WSPD-870, KEWR-1310 for total of 1,554. Had letter today from WLEO-1170 and Mr. Cordaro said that no one heard their program due to WWVA so they have rescheduled for March 17 from 3:00 to 4:00 EST or 1:00 to 2:00 AST. They contacted WWVA themselves and have their promise to keep the frequency clear. WLEO received 12 thank-you cards from NRC members but no reports. Here is a station that really wants to co-operate with the NRC so let's everyone give them our support.
February 1, 1958
Hal Williams - 50 Third Avenue - Seymour, Connecticut

Owing to unavoidable circumstances I had to miss sending my "Musings" for the 1/25 edition. Since joining the NNC I have missed just 14 editions, seven because I did not have the time to send them in and seven because of delays in the mails. This week I'll confine my Musings to the reception phase. 1/12-13, Sorry to miss all of those DX Specials because of working until 6 a.m. and all needed. 1/14- Getting home from work at 6:05 a.m., I tuned 1440 at 6:15 to see if I could catch WABE Babylo, Bay Shore, N.Y. as I noted in Lefty's Musings they are on 970. Many stations were on 1440 and I get one LD from WAJR but not enough for a report and they are needed. 1/17-WALY-1420 Henderson, N.Y. f/o-TT as listed but they started at 12:01, not needed, however. 1/19, I've been trying for years to log CHAB-800 Moose Jaw, Sask., and at 1:38 Sunday AM they boomed in 8-4 in the clear until s/ off at 2:14. 1/20- Six DXs listed for the NNC and WWMT and all needed except WBC-740. I tuned 1410 for KGHU at 2:56 and the frequency was clear as a bell but at 2:59 a "hum" developed and I could not read KGHU until 3:15 then poorly so at 3:22 went to 1200 for KEBO but a lady announcer was over 1290 and after ten minutes found it was WHSL-1280 "spilling over" so at 3:47 tuned 1080 for a "class of "WIRE" from Kermore, N.T. easy logging for a new one. Then to 740 and found WIBX on very strong but not needed and at 4:30 WSIZ-1310 was fairly well heard through the half million watts of WCM (stealing Hank Tyn dall's apt phrase, hi). At 4:45 I tuned 740 for the needed WBAW and they were well logged for five minutes when they suddenly signed off. Results of the AM, four new ones and old oldie. 1/25- At 1:53 I heard WOBX's announcer read part of a report from M. Mittler, quite a surprise but of course I could not log WCM on f/c. WPPA-1250 Pottsville, Pa. heard at 2/00, not needed, and WCAT, Miami Beach off at 2:03. XET-990 Monterrey, Mexico logged S-4 2:10-2:30, strange music with Spanish announcements "El Pregonero del Norte" Monterrey. Wish I had the Spanish report forms out I'll send a regular NNC report, WWMT-930 well heard for WWMT but also not needed. WPVA-1290 Petersburg, Va. S-8 at 4:30 with "Early-coming Jamboree" asking for reports and phone calls, WICE was not heard so guess they do not s/o at 4:30 now. WPVA gave P.O. Box 87, Petersburg as address, 73.

Richard Morris - 218 Virginia Avenue - Bridgeport 10, Connecticut

Sorry for the lag in my reporting. I guess I'm just lazy. I would like to thank Francis Mittler very much for the letter he sent me, Now to take up where I left off. 1/12 Three new ones received - WIL (1430), CKWS (960) and CHUM (1050) on BS. 1/13- Another bad day with the DX Specials with only one received - KWEB (1270) with a surprisingly strong S-7 signal. KUPI was blocked by CFPL which was needed so it wasn't a loss anyway. KDKA (1130) just couldn't make it. KLUE was blocked by WAWZ's testings and VONC was not received. I doubt if it was on. The morning turned out to be successful anyway though with five more new calls added to my log - WMOH (1450), WXYZ (1270), WOBX (1450), WPHN (1460) and CJAD (800). I have a mystery station on 1430 kc/s. Monday's morning 1/15 at 5:30 I heard on s/on, a station which sounded like WWDA. It had an FM station and it sounded like the Market Bill Broadcasting Co. Can anyone help me? (My us is WAWA, Martinsville, Va. -Ed.). 1/18- Four NNC tests listed but I awoke late and only received WELD. 1/19- At 6:45 WTAY and WLRP were testing behind XEBF for new calls. 1/20- At last a pick-up in my DXing on the Specials with four out of six received. WINE (1060), WSIZ (1310) rough through WCM, WBAW (740) very poor signal, and VONC (740). Also received were long wanted WIVV (1370) and WITA (1150). Both were surprisingly clear. Now for the DX Mail Bag. WYVA 1140, CJAD, WEEP 1090, CKWS 960, WHEG 1360, WBOC 1440, WEPX 980, WTEN 1420, WBNX 640, WIDL 1410 and WESQ 1430 in, nice letters. WMMT 1240, WILS 1320, WRCN 950, WPHN 560 in, letters. WITH 1230, WIRE 1430, CKSM 1220, WWJ 870 and WCFL in QSL cards (WIL and WCFL were a half postcard and half QSL card), WXVA 920, received as a post card... Well, that's it for this time.

Dick Dansker - Lansdale, Pennsylvania

Not much doing here in Lansdale this DX season. I guess I'm too fussy when it comes to DXing for I haven't added one new station to my list this season. I have listened at various times and found nothing new to add to my log. I have heard some foreign DX a few times and on January 11th. Nice, France on 1554 was really booming in here. I heard them from 1:00 to 1:25 a.m. when vocal selections and news items were heard. Signal strength varied from S-5 to S-9 without my re-selector in operation. Others heard the same AM were Oldenburg, Germany on 1556 kc/s., signals were S-5. Light music with man and woman doing the announcing was heard from 1:00 to 1:05 and 1:35 to 1:45 a.m. of Cleveon, Great Britain on 1457 kc/s. was heard after 1:30 with a man (could on P.14)
(Dick Dancher, con'd from P. 13) giving news reports, signals were S-4 to S-6. It was reported that "Radio Luxembourg" had burned down some time ago; but I believe they were on the air as I heard a station weekly (55-5) on about 1459 kc/s. from 1:40 to 1:45 a.m. on the 11th. Again on the 14th I tried my luck and found Lille, France on 1376 kc/s. from 1:15 to 1:25 a.m. However CX were adverse to good reception as they have been most all season whenever I've turned the dials. I haven't been too active this year for several reasons, namely, lack of good receiving CX for foreign DX, two weeks of being real busy with the Christmas rush at the Post Office and being bushed for a couple of weeks with a heavy cold. I could have found plenty of USA stations, I think, but I concentrate on foreign stations only for the past few years. I received a verie from ZFY, Georgetown, British Guiana early this season for a report of last spring, making a total of 52 countries verified on the 3CB with 198 foreign veries. I have no excuse for not writing to your column earlier this season other than to say I had nothing to say, but I've certainly enjoyed reading the reports of those who have had something to say! Go ahead and say it, "What a Club we'd have if nobody had a thing to say"; but that's the advantage we of the NRC have in having a scattered membership. Nobody isn't speechless at the same time!

Porter Atherton - East Slough Road - Harvard, Massachusetts

Short report from here, after a long lapse in listening due to sickness in the family and just plain tuckered out with the stockmarket and the weather. In last report, I mentioned a blizzard of 20° of snow, and followed it up with 12 more when Boston, 30 miles away, got only rain. Mixed with sleet and freezing rain with the result that I lost both aerials. Got them up in makeshift manner yesterday and tried for a little late afternoon DX Saturday January 25. Amazed to find the Northeast rain storm we are still having completely killed out two dominant 50 kw. stations, WGBY on 1060 and WWAJ on 1140. Much surprised to find WHEF in Benton Harbor, Mich 8-9 on 1050 and WSIV in Pekin, Ill, holding forth 8-8 on 1140. Copied WHEF from 5:15 to 5:30 p.m. and WSIV 5:35 to 5:50 for reports to two stations I never expected to hear. Was just checking in red pencil dominant daytime stations heard on each frequency in the Wayrich Log and stumbled on them both just by chance. This morning, Jan. 26, got up at 5:45 to try for a few 24 hour stations not yet bothered to report and then hoped to get a report to Montego Bay on 1180. Just about the last Sunday shot at them as it is getting light now by 5:30. They were barely audibile at 6:59 s/on but got up to 8-4 soon after and logged until 6:35 when they faded out. Jamaica also heard on 720 with same program but they were a bare 6-1 at best. Unidentified IDs on 1260 and 1300 at 4:10, and another on 1560 at 5:30 fighting it out with WEAM. Anyone still needing WNNC here in the East; they are in the clear on 1230 until 7:50 a.m. Sundays. Others logged this morning for reports; WEAM-1390; WMAH 930 and WBOC on RS at 6:55. Nothing startling, but glad to be able to send out a report or two for a change. Veries here now at 1,735 with recent ones received being WBEA WPAL WEZE WFTF WRAM WQME WAIL WYMU and WEER. Best of DX to all, and 100% veries.

SEE YOU ALL AGAIN NEXT WEEK WITH, WE HOPE, MORE REPORTS. IS THERE ONE FROM YOU COMING?
COSTA RICA-"WNC" (1035) San Jose, identified as the station on this split frequency 12/7 at 2048, ID by a man. (HJW) TIQ (1175) was fair to strong from 0555 3/on to 0604 on 1/13. ("Radio Casino" in Limon.) (HJW)

NICARAGUA-"YTW" (935) Managua, was 3-6 from 0623 to 0634 on 1/13. Report sent. (HJW)

MEXICO-"XX" (730) signs on at 0645. A good new call for XEAC (630), XET (590) heard often after 0300 announcing, "XET Monterrey" between records. (KR)

PUERTO RICO-"US" (710) Mayaguez, verified with fine letter; signer is Jose S. Rodriguez, CE. (HJW)

CUBA-"CHCA" (1583) "Radio Marianao", Habana, logged at 1930 on 1/13. (CHS)

DX NEWS

February 1, 1958

These times were given for just one week and could be some variation from week to week. (GHD)

CAMEROON—Verie card received from Radio Macundo. Impressionistic sketch on one side and verie info on other. Station was heard on special Christmas eve program and is the first of my Christmas DX to verify. (GHS)

SUDAN/EGYPT—Letter from N. K. Eid, Senior controller, Sudan Broadcasting Service, stating that the tape I sent them was "The Sudan Coron" as broadcast on Radio Cairo (Should I count it? Don't think so, as your letter isn't from Cairo-FV) This means probably that I will get a letter back from Cairo saying that I send them Sudan Broadcast Service tape. They state (Sudan) that their frequency is 574.996 Kcs. (Did they use them on 572, (FVT)"

PHILIPPINES—New stations are DXJW (1010) Zambogo City. DXNE (1400) Bacolod City. Chronicle Broadcasting Network. DXAM (740) Davao. DXAS (900) Davao to increase power to 5000 watts. DXPC (?#) Voice of Education, National Pacific College, Manila, reported by Japanese Shortwave Club (FV via FVT)

KYUU USJ.RN (907) "Walt" (1180) Okinawa, ID clearly at 1000 on 1/23. (REM)

OCENL...

HAWAII—KGMX (590). Honolulu, verified by letter, signed by Daniel H. Hunter, CE. KILM (850) Hilo, verified by letter, signed by James J. Johnson, (REM)

NEW ZEALAND—LYZ (800) Rotorua, verified by QSL card and letter. (REM)

AUSTRALIA—Verie in from AY (960) Box 567. KZN, Queensland, as heard 11/24. Two page letter signed by R. D. Savill, T. T. G. They said that the report was correct but my times were two hours off. (FVT)

REPORTERS

RE—Roy H. Miller, Rt. 2, Box 6704, Tnacuak, Washington.
NK—Keith Robinson, Kepuka, No. 7 RD, Invercargill, New Zealand.
CJ—C. W. Stanbury, Box 218, Crystal Beach, Ontario, Canada.
GFC—Harley DeLaurier, 66, Gray Street, Aberdeen, Scotland.
FHJ—Henry Hillman, 6630 Joplin Avenue, North Hollywood, California.
NHRQ—Kowarz News Radio Club, 215 Market Street, Newark, New Jersey.
NVI—Peter V. Taylor, USCG Whidbey (WPC-10), C/O EFO, San Francisco, California.

THE MOST USEFUL LETTER

From G. Harley DeLaurier.---In one of the December issues of DX NEWS someone asked me for a report. I would have sent you more reports, but I am not DXing up to full capacity for several reasons. First I am only DXing in the daytime and evening, since the radio is not in my room but downstairs. Second the receiver I am using is an old one that came along with the house. I don't see any value in buying a new one since we are moving back to Hobart in August and the British voltage is much more than the American. Also it just wouldn't work back home and I already have three radio sets. Third, I am living in a city here, and the houses are all built together, so there is a lot of daytime interference, and I got practically nothing. In Hobart I had no antenna. Enough stations and verifications were received to keep my busy. Here I've got an antenna. No good... ...
I did however, log the following stations: Frankfurt AM (872), Radio Luxembourg II (1439), Munich AM (549), Athens (566), Radio Tunis I (629), Berlin (611), Frankfurt HR (593), Hilversum I (746), Brussels II (926), Hamburg HNB (971), Vatican Radio (1529), Praha I (633), and Radio Bremen (1356). Praha I was logged on 1/11 and Radio Bremen on 1/17. Of those I have confirmed 872, 1439, 926, 746, 611, 971, and 593. As you can see I've only confirmed seven in five months. The addresses are the same as those given in World Radio Handbook. Only two of the signers' names could be read. AM Frankfort signed by F. K. Tourtellotte, Lt. Col., SIG Commanding, and Brussels II (826) R. Lillard, QEL Manager.

Keith Robinson--Reception has been irregular lately. Reports have gone to WACO, WBOC, HTEE, WTVS, KLY, WSC, KNIT, KBSD, KCTW, WNA, WNL, KEB, KLB, KDL, WLC, WGC, WDYN, KCIW, KJ, KLY, WSCS, Verica from WCN, KNS, DZFE, WHIN, KOZE, KTYI, WJUN, KPAL, KFLY.

GERRY

Seems strange to have everything cleared up and still have room to go on the third page. A couple of comments to pass along; first from Pete Taylor, who says if he can get the Pat Boone records, rock n' roll, etc., verified as heard on Amman, Jordan, on 677 kcs., he is willing to forget the tape mix-up between Cairo and Sudan mentioned in the DIGEST. He says that follow-ups have gone to KBWS Taiping (1560), WTH (900) Midway, WNM-650 Okinawa, and "FBS"s on 560-1250-1400 in Korea. He has heard from none of them and wonders if it might be inter-service rivalry. Also a follow-up to KFMD (750).

Hank Wilkinson wants to know how ZO1 aims on, as he heard the same program on both 1160 and 720 kcs. at 0552 on 1/12. When he heard them a man was singing a slow stirring song with a bass voice and a chorus singing with him on several occasions. He will try again for ZO1 on 1/21 and 1/28. If anyone can help Hank, please drop him a postcard at his address given under REPORTS.

Hank says that he still has 3 "Asian" logs left and will be glad to sell them to the first three who request them. I've mislaid the price, but I think it was 50c. Anyway, if you want one, write Hank.

Speaking of logs, a fellow can have a pretty darned good set now if he sells that "Asian Log" of the New Zealand boys that Hank has, and adds it to the German Log, FBS3 logs, and World Radio Handbook. With this set the world is pretty well covered. It certainly should do for any medium wave DXer in the US.

We have ceased to receive the Swedish DX bulletin we were getting for a while. We now receive the two New Zealand Bulletins, Medium Wave News from England, WAC Bulletin, Bulletin of Sweden Calling DXers, Deutsche Mobile DX Bulletins. If any of you know of any other overseas publications with medium wave news, please let me know so that we can arrange to get them. The purpose of the DIGEST is to make available to WRC members all of the information possible on overseas and foreign stations. We'll get it out to you if we get it here.

The overseas clubs have had fun with set listening periods. I wonder if we could try it. Let's try Sunday, February 16th, from 0100 to 0300 between 800 and 1200 Kcs. Everyone in the club that wants to help out listen to that time in those frequency limits. Report to the DIGEST only the foreign stations that you hear during that time. We might get some interesting results, particularly if listeners on both coasts and in the middle participate. If you think it is one is fun, we will set up another one later on. It makes for concentrated listening and often turns up interesting DX that would be missed in using the usual methods. Let's try it once and see how it goes, and that about covers everything from Lemoyne and Hearng Spring for this week. 73.
Send All Items To: C.M. Stanbury II, Box 218, Crystal Beach, Ontario. All Times are EST

TESTS BEFORE MIDNIGHT:

Joe Brauner advises that nearly every new Western Pennsylvania has conducted so called program tests during the regular sunrise to sunset period. More important, some stations in this area, on 1570 thru 1600 kc, have conducted tests in the early evening with open carriers.

---

DX PROGRAM FLASH
Tue Feb 4 KHPH 1420 kc Siera Vista, Ariz 0400-0430 EST

This station has been on the air since March 1957 and most DXers still need them. KSTN is silent Tuesday mornings so the channel should be clear except for CMCG down in Cuba. Reports go to Mr. John Bennett who is the manager. (Arranged by LEN KRUSE)

---

550 WGGG Gainesville, Ga wkday S/off is 0540 (RN)
