"Enclosed please find a check for $4.00 dues for membership in the best radio club around!" — Dave McGurdy — Rural Route 2 — Wyoming, Illinois.

Next Issue on July 22, 1961

And the deadline for Musings and International will be Tuesday, July 18, and for DXED Wednesday, July 19. We hope to hear from all of you for that issue.

**Riddles of the Universe** — by Caroll Seth, Buffalo.

I've split up an atom or two in my day — My theories fit like a hand in a mitt.
Discovered a serum in Med — DXing is Grecian to me.
Unrevealed the clue in a mystery or two — My radio room is a listener’s dream.
DX, though, is over my head — Equipped with the latest in gear —
When science is baffled my talents are sought — In spite of its size I am asking you guy
A genius has always the key — Just how was reception this year??
June 17, 1961

Ralph M. Johanss - 11 East Chippewa Street - Buffalo 3, New York

Hope you NBCers in Amarillo's coming events do come up with some DX vitamins to feed the BCB stations. Canada puts U.S. to shame, as with over 120 verified, only CHIQ and CKXW failed so far. The new CBS book is not out yet; but received #16 supplement already. I now have a total of 1,803 veries, with last v/ls by CJNR-730, P.O. Box 729, Blind River, Ont, who have new management. W108-1580 Tawas City Mich. 6/2 test heard was the annual PM and they're directional N in order to protect WMAX. From WBOF-1550 P.O. Box 536, Virginia Beach Va. (Saatack Rd. and Route 58 is business) they moved from 1600 in October 1958 and 5/24 test was for some antenna tower being converted to a folded dipole. 1550 WCCR (Where Canandiaqua Gets Results) 41 South Main St., Canandiaqua N.Y. EC, Westley G. Kimble, GM says 4/5/61 was opening and 5 a.m. EST (they sign at 5:57:45 a.m. EST) s/o will continue through October, the s/off differs monthly. June s/off 7:45 p.m. WHEN-1420, Harrodsburg, Ky. P.O. Box 247 (phone 1420) said 5/2 test was Pp, only tests when needed, most of Kentucky is either EST or CDT with some yet on CST. Summer sked s/o 6 p.m., Sunday 4:30 p.m. EST. He enclosed a Bluegrass folder. WILB-1550 Gainesville, Ga. The P/GM said Mr. Lather left and so they found my 4/6 report to verify; they test uncertain times maybe once or twice a month keeping EST. He enclosed a WILB double type keyring (a cute thing that opens). WQCN-1570, Quality Radio Inc., 1314 Tower Ave., Superior Wis. (also Duluth) P.O. Box 22. The PD letter and the E verified my report. He returned my postage and alaagena a Coverage Map. Mentions WISC is on CDT, sked June, July 5:30 a.m. - 9 p.m. CDT. 1410 WHKMH, "Radio Elmira" Inc. 1705 Lake Road, Elmira, N.Y. nearest 5/24 TT 4:50-5 a.m., then RS; 1 kw. D with 500 N directional to N/S, CE is also with WEBC (Fm) a ten watt Elmira College station. He enclosed an info v/c giving 5-1 a.m., Sunday 8-12 EST sked, also a Coverage Map. 1550 WRAZ, Big River EC, 527 Broadway, Kingston, N.Y. with Coverage Map. Opened 8/15/59, has monthly second Wednesday r/c at 12:20 a.m. EST. For June-July 6 a.m. - 3:30 p.m., Sunday 8 a.m. - 7 p.m. EST. From KFH-1330, J.W. (Jay) Harmon, PD sends me a red-black KFH AM/FM Auto bumper sticker. Local WKBW sold to Capital Cities BC for 14 million bucks, pending FCC approval and the local WGR-560, is 24 hours, Monday AM.

Len Kruse - 816 Euclid Street - Dubuque, Iowa

Since my last report I have logged Station WGRM-990 Clare, Mich, with its RS s/on and programs on 4/25 at 6 a.m., with some QRM from KTFM. Then on 5/1 I was happy to log Station WBCA-1220, Hastings, Mich. with a fake-TT from 1:45-1:55 a.m. One of the newest AM's is Station KKJO-1550 St. Joseph, Mo. ex-KRES, which was logged with new calls on May 16 in the wee hours of the morning. Then on 5/18 WJES-1570 Johnston, S.C. was heard on ET's in the clear as XERF was temporarily silent, from 2:55-3 a.m. Then it was on 5/23 that WEND-1560 Ebensburg, Pa. was heard ETing from 3:15-3:30 a.m., for a new catch. Station WAKQ-910 Lawrenceville, Ill. was heard for the first time on 5/23 with its RS at 7:30-8 a.m. in the clear. Station WKTS-950 Sheboygan, Wis. which changed calls in April from WKTU, was heard with its RS s/on and programs on 5/29 from 5:55-6:10 a.m. The final logging was on Memorial Day when I heard Station WHER-950, eagle River, Wiss. with its RS s/on and programs from 5:59-5:20 a.m. Latest QRM are a letter from WGRM, v/c WBCA, and PP from WPEH, plus letters from WMNH-dx KKJO W259 WKTU WGRM-dx WKG. Here in Eastern Iowa we are unable to hear the new KDKS, as WPA4 in Madison, Wis. controls the 1310 spot, but are looking for the opportunity to hear this new station. Veria total is now 3,558.

Philip Jacobs - 5100 Kingston Avenue - Montreal 25, Quebec

Hi. I haven't sent a report in quite a while, mostly due to moving, packing, and a delay in putting up a new antenna, which is a 50' five strand copper wire running E/W. Two new stations logged in the new house: May 21: WGL-1250 in Fort Wayne (Hi Don) at 12:05 EST, not enough for a report as I heard only one ID and DX, WS. Was down in Boston a few weeks ago, but didn't know of any Boston members. Also was in New York for about eight minutes, so no time to call anyone. No new veries since we moved at the beginning of April. If I owe any letters I will get them out this week or next. I will almost definitely be at Amarillo, and am really looking forward to it. Had a great visit from Wayne Plunkett of Toronto on March 21, and then we went over to see Sam Simmons, Did you find you way through the orchards, Wayne? I hope to get a lot of DX done this summer after I build a loop. 73.

ELSEWHERE IN THIS ISSUE ARE DETAILS ON OUR AMARILLO BLOWOUT COMING UP VERY SOON NOW, ON SEPTEMBER 2-3-4. PLEASE READ THEM CAREFULLY AND BE SURE TO MAKE PLANS TO ATTEND!
New calls have been more plentiful than expected for the season, but not any real DX. Added since last report WREO-970, tried for many times, but never heard until 4/29, since then they have been runner-up to WWSW at any time during the day. 5/6 added WPV-1440 s/on at 4:49 a.m., for once WHH and WGB did not block them. 5/7 found WPNC-1470 with a TT and V f/c from 5:20-5:30 a.m. On 5/10 KTOC-920 heard on r/c to 11:25 a.m. 5/14 A Mystery, station on 1360 signing off at 12:05 a.m., Spanish and English IDs, gave location as Republic of Panama, kilocycles as 1360 (also SW frequency Call seemed to be HP??, gave power in thousands. Too much WDRG and WMAI to get ID or QTH. 5/16, the new WEND, Ebensburg, Pa. Testing on 1580 with CC and ID every 15 minutes local here and on to 6 p.m. or later. 5/18 the new WJES, Johnston, S.C. running initial ET on 1570 at 2 a.m. On same date ET was on 730 for long period, as usual with 730 testers, no ID. V-ries come slower and slower. In since first report, letters from WCOG-dx WEGP-dx and PP from WSMR-dx of 12/21/58. Closed my DX year with a EGC total of 4,337, a gain of 94 for the year, a bit better than the '59-'60 year when 91 were added. A good portion of that total is not verified but we heard the ID in one form or another in each logging, and that, to me, is more important than a rare veri from a very DX station obtained by the tentative route, with no definite assurance of having heard it except the statement of some station staff member. A pleasant summer to all. With so many CEs outstanding there will be EEs to be logged all summer long for those of us who don't mind battling the QRM. 73s.

John C. Dyckman - 318 Fairview Avenue - Canfield, Ohio

Greetings to all the NBCers from the two of us in Canfield. This is John sending in a report that will pick up where I left off in the last Missings. In a past issue John Stack said that he wanted some info on a decent antenna for his receiver. If he still desires such info, I would like to hear from him. Roy H. Miller asked if a Heathkit Q Multiplier would work on a 175 kc/s. I have info that it can if you change the coils in the Q Multiplier. If someone desires this info please write me. Another person was asking about the QF-1 was Charles E. Engahl. He inquired in a past issue about connecting it to an S-40. The unit can be connected if he uses a .001 mfd, condenser to isolate the receiver from the Q Multiplier. This method is used whenever one comes across an AC/DC receiver. To Jeffrey Schrank, I have a tape recorder that will handle either 7 1/2 or 3 1/2 IPS tapes up to a 7" reel. Many thanks to Ken Peamon, Lloyd A. Knapp, Harvey J. Epton, VB2FEST, and John Oldfield for info on XERF's address. By the way, what happened to the tape letters? From a newspaper I found the following listed WCOG-540 WBBX-890 WISR-880 WPIT-730 WEDO-810 WAQ-860 WEEP-1080 WEGA-1130 WNWVA-1170 WEEF-1230 WJAS-1320 WPMK-1350 WJPY-1450 WHBA-1460 WLOA-1550 and on FM are WLOA-95.6 WDUQ-91.5 WJEF-93.7 WPIT-101.5 and WAZZ-105.9. V-ries in the past few weeks are WP-610 WMGN-920 WCB-880 and W TAR-790. WIP is a station with 5,000 watts and is an AMer. XW! XR is located on Columbia Island in Long Island Sound off New Rochelle, N.Y. This station has a power of 50,000 watts. WMGN is on 920 with a power of 5,000 watts in Fairmont, W. Va. W Tar-790 uses a 365 vertical antenna that is stainless and must by guyed. This tower is driven by an RCA 6 kilowatt XR. This station sends a letter and a coverage map if asked to do so. The other above station each send a card. A note to the MMers, WBP-1057 sends a letter and coverage map if asked to do so. 73s from here in Canfield.

John Weltman - 551 Grace Avenue - Phillipsburg, New Jersey

Hi. Just joined the Club. I don't have much for my first report thanks to increasing static. 4/2 - WOWY-860, 6:32 p.m. under WTEL; WTM-1500 on top 6:35-6:45 p.m.; WEEP-1080, and WSSS-800 Crewe, Va. s/off at 7:15 p.m. 4/4 - WNMT-860 Warrenton, Va. 6:30-7 p.m. with 250 w.; WNWVA-850 Norton, Va. s/off at 7:30. On morning of 4/5 caught ET of WSKT-1580 250 w. in South Knoxville but WEND came on with ET to block it. WIL-1430 AM at 1:15 a.m.; CHUC-1500 under WTOP from 6:30 p.m. to s/off. 4/10 - CKLL-850 9:10 p.m. 4/13 - WATTS-905 f/c 12:30-12:40 a.m.; CKWS-960 off at 12:35 leaving CHNS Halifax in the clear for seventh province; WDRX-1560 Pghsun 1:30 a.m. with heavy QEN. Best of AM; WNAS-1570 Ashburn, Ga. ETing. Last Monday AM 4/15 I heard "Nicholson" WSCC-1390, 11:40 p.m.; WING-1410 Dayton s/off at midnight for total of 435. One of my best AEs of the season was 3/4 with Winnipeg 630-GKRC CKB-990 GKY-530; Sask.; CKX-620 GEX-940; Alberta; GJO-1250 CFAC-960 all in well. Veris from WSWN WEHE CKFB and nice v/c CE. WLEW-990 heard well in evenings over and under WING. That about wraps it up but I'll keep at the data this summer with school out of the way. I'll like to hear from any members in this area. See you next month. 73's. (WELCOME TO THE NBC, JOHN! -Ed.
Hi. DX has been quite rewarding here lately except for static-filled Monday AMs. Whenever a Monday AM rolls around the static rolls in with it! Seven big items of news:

1. On 4/8 I was extremely thrilled to receive the long-wanted CBM-640. Much of their programming between 9:30 and s/off was copied. 2/ I have a new 800' longwire which has been temporarily installed for experimental purposes. When the permanent installation is made, it will be beamed on Japan and Alaska. 3/ Thrilling SA reception brought in LRC-950 three Mondays in a row but was climaxd with bitter disappointment when on 4/24 unbelievable signals from LRC-830, PRL-880 and tentatively PRB-1220, PRB6-1200 and PRB9-1000 were rendered unreadable thanks to tremendous QRM. Other DX as follows: 3/27 WCNG-1230 and CFNS-1170 barely copied on DXes for two pleasing catches. At 3:40 believe I had KGU-750 as CBS program heard under GNCD (WJR is now off regularly every Monday AM). WONG-1500 was very weak and almost completely buried by WEZF, while OHIS-960 was quite good on their 4:30 s/on. 4/3- KGKW-530, r/c 3:05-3:1C. In the evening WEEB-990 was pulled through on their 6:30 s/off. 4/6- KUOM noted on till 8 p.m. 4/7- Unusual Canadian reception—CHNC-610 heard (but not needed), also CFCO-630 topping frequency as late as 11:20. They are regular here (yes but ordinarily drop completely out at night). 4/8- WFST-600 copied on midnight r/c despite WAT, thanks to my loop. WATS-960 on r/c at 12:41, KTAR-620 f/c 2:15 and semi-local WHEN-730 IDing at 2:32. 4/8- CBM. 4/10- KRAE-1480 fair to good at 3:10; KDJJ-1270 f/c 3:32 LRC-950 roaring in at 4:16 and WSJS-800 s/on at 5:00. 4/11- KNUL-855 good at 10:50 p.m. 4/12- WHEV-1010 in at 6:45 p.m. and still on 86. 4/17- WBWR-1450 topping frequency at 1:23 a.m., KN5C-1450 s/off at 1:07. I'm hitting 1450 hard since local WANK dropped AM.) At 3:17 I went to 1140 and noted WMJL with a very weak signal but a scanty copy was taken of the remainder of their DX. Did not try for unneeded KFQ while WEGP-1390 could not be heard. 4/20- KOUS-1220 r/c at 1:24, KFIF-1400 on late with Cardinal geo 4/23- ConelRAD Day disappointing as the AM of 4/24; about a dozen Canadians heard but nothing new. 5/3- WGHN-1370 8:04 s/off. 5/4- WINN-970 7:30 s/off. 5/9- KBEA-1480 s/off at 8:30:30. 5/12- WRAQ-1440 r/c; WUMP-1450 f/c 1:14; KOKX-1310 s/off at 1:30; KRAD-1590 r/c 1:49 and WHN-810 7:26:30 s/off. Need WKTY. Try when Bendig is on the Coast. Recently receive CBN WFDR WMMM WSUI WTGB KFRO KYND. Anyone having transportation problems regarding Amarillo please get in touch with me. 73.

LARRY SCHWARTZ - 4819 Atlanta Drive - San Diego 15, California

DX is worse nights now than it was days in the winter! Have Telefunken back with a Wollensack tape recorder. Note: XEAK is now XETRA (Extra) an all NX station 24 hours a day. New DXs are KSON KEEM KQO XEU. New logs are WSNW-990, Florida, KLIX-1310 Idaho, 4QN Australia (in too poorly for a report) KBEY-390, Oklahoma, KTEB-660 Texas, KOID-1490 Idaho and KRAE-1490 ET. Veris from (QSLs) WSNW KLIX HCJB and CXYT-850 who claim that'they're their most distant listener). V'is: KTEB KRAE KWEB (Kansas) KIHL KFOX (now KSBY) CJOR and KYND (a real Kynd letter). PPs from WCPC and KBEV. So at the end of seven months of DXing I have logged 413 stations and confirmed 88. This includes six countries, 34 states and four provinces. Does anyone know what happened to WKB? I heard their DX program over two months ago and never heard a word from them. Now that DX has died I'm sending to the local stations like K60 WBBP KNX KFI etc. Also remember KXNO-350 is off the air so if you hear Spanish there it's not they! Have noticed Cubans all over the dial AM on 650 640 590 780 830 940 880 and 1150 trying to hide Swan, which is the way a new country logged. Looking back in my logs I find the following questions not answered. Can some of you please help me? KSEL KPAT QJOC KBEY KINY CKCK and KAVE. Would surely appreciate quick replies. Say, if anyone has a mystery out here or needs some help, just drop me a card and I'll see what I can do. Well, that's about it for now. Back to the dials, perhaps I can nab a s/off because of difference in Daylight Time. 73.

CARROLL SETH - 154 Parkridge Avenue - Buffalo 15, New York

Before the Critchetts organize any 'Bon Voyage" parties, I must advise them that Seth And Reilley aren't joining the Peace Corps, after all. Pat refused to take the Loyalty Oath. The mystery station Pat had last issue on 860 was HU in the Dominican Republic, which signed on at 5:00 EST after at least 20 minutes of piano signature. DXing Horizons is now gone. I hope the outfit appreciated the help DXers gave them in getting established. My poem, enclosed, was inspired by a visit to Bob Seifert's shack a few years ago. What a layout the boy has!

THE NEXT ISSUE IS JULY 22. DEADLINE FOR MUSINGS WILL BE TUESDAY, JULY 18.
Several nice varieties have been received lately: KSIN, logged on 4/29 on 1490 kc/s., and KDHI on f/c through WEMP on 1250 kc/s., for the best Californian of the season. Other varieties have come from KUPD (WACK WABE WBUX WBRX WSGR WPGP WSGQ WFTM WRNY WWCH and WZST. The WRNY variety was written on my report, the rest were nice letters. WACK also sent a book of 13 passes to the Rose City Drive-In Theatre, Newark, N.J., but 200 miles is too far to come to see a free movie, hi! A v/1 from WATO-1290 states that they moved from 1490 on 1/13/58, taking over the WOKI facilities on 1290, so this does not count as a new catch in my log. The old WATO rig is now WROL, Fountain City, Tenn. on 1490 kc/s. Catches have been few and far between, as follows: 4/9 - WVAR-1280 6:35 to 7:05 p.m. s/off. 4/11 - WACK-1420 6:35 to 6:45 p.m. s/off. 4/15 - WBUX-1450 6:55 to 7 p.m. s/off. 4/17 - WEPG-DX-1390 4:00 to 4:45 a.m. fadeout. 4/19 - WWCH-1300 6:45 to 7 p.m. s/off. 4/22 - KCLN-1390 f/c 1:25 to 1:37 a.m. 4/28 - WSKT-1580 ET 12:44 to 1:30 a.m. 4/29 - WRNY-1580 6:12 to 6:23 a.m. RS. 5/1 - KDHI-1250 Twenty Nine Palms, Calif. on f/c from 2:40 to 2:45 a.m. 5/3 - WMPT-1460 5:03 to 5:32 a.m. RS., and WSGR-1550 7:17 to 7:30 p.m. s/off. 5/9 - WEND-1580 ET 1:48 to 2:03 a.m. 5/20 - WJTS-1570 ET 2:10 to 2:52 a.m. 5/29 - CHIQ-1280 on AN sked from 3:10 to 3:30 a.m., and 6/2 - WNJH-1580 5:00 to 6:35 p.m. RS. Correcting a misprint in the April 8th DX NEWS, my reception of the XEQ DX on 3/13 covered the full hour from 3:30 to 4:30 a.m. Best wishes for a fine summer!

Roy H. Millar - P. O. Box 773 - Bellevue, Washington

DX still crossing the dial, i.e.: May 10 - KABR-1420 Aberdeen, S.C. s/off ET 3:30 a.m. May 11 - ZAP-1420 Apia, Western Samoa with TX and s/off 3:30 a.m., best signal heard from this station, although very difficult to copy due to WHK. May 15 - KXIU-1400 Phoenix, Ariz. s/off 2:13 a.m., then ID at 2:45 a.m. as on f/c; WJEB-1400, Erie, Pa. ID at 3 a.m., best level ever heard, KVOP-1400 Yuma, Ariz. ID at 2:12 a.m., very weak, apparently test of f/c; KIXX-1400 Provo, Utah ID at 3:35 a.m. as f/c. Also, at 3:30 a.m., someone other than WJET on 801, temperature reading leads to a tentative report to WTHE Spartanburg, S.C. which I believe is AN on Monday AMs on 1490. 'Tis the season for varieties; yeessir! In since last report: ZNS-1540; CKSA-1150 (leaving CBXA-740 as the only unverified on-the-air Albertan); KMLZ-1400 (Marshall, Minn., the unique situation of CST there, FST here giving this opportunity to log their f/c); HOJ2-1040 (Das Tablas, Panama, as far as I can determine only 400 watts, although variety does not state power. This is on a PP card with note in English added with positive verification wording); KCBX-700 DX program, KFPG-1150 KABR-1420 KSR-1290, KATN-1010 42Z-1040 KYT-1020 (third Sunday, N.S.W. variety this season); KWE-910; ZCO-1020 (letter and QSL card; eight varieties of Tonga stamps on envelope); XXIV-1400; 2AP-1420 (QSL card); WGAQ-1120 (only 500 watts); Radio Peking-720 (QSL card); KUPD-1060. So, with 25 countries (including U.S. and Canada) verified this season, I will have to acknowledge that past season was my best Foreign DX season; verifying 5/8 of all the countries verified in all the years of my DXing within one season, speaks undeniably of the quality of reception. The best foreign varieties of the season thus far surely include the above HOJ2, 2AP (2 kw. per QSL card) and 2KY (5 kw.). Tips from DX NEWS have been directly responsible for verification of several new countries this season; Bahamas, Ecuador, Panama, and Tonga Is. come to mind at the moment - all concerned with DX NEWS, Pop, Lefty, Fred V. Ev. J., have done a grand job. Just want to say "Thank You" from Bellevue! 73.

Alex Bowab - Box 639 - Atmore, Alabama

Varieties: KMLZ-1550 wrote on report and returned; WDEG-1290 letter; KTOE-1420 letter after f/up, WPID-1280 letter that says no r/c; WIVK-860, letter with miserable spelling and punctuation; KENN-1390 letter; WJR-760 (daytime reception) QSL card and program sked; WQXK-1440 letter; WMSC-910 letter on f/up that says r/c third Tuesday 4:30-4:45 and wants reports; KSJL-1260, post card with picture of studio. Frank Williams, I'm ten times as lucky as you - I won ten free records from my beloved local, WAM. I would appreciate it if anyone could send me a r/s for any of these: KVI-570 WVL-D-1450 WMBZ-920 WQFS-970. Here's one for the waste basket: Although I disapprove of "Help Stamp Out XST" hand stamps, I'm wondering if this would aid a DXer in getting a variety from a U.S. daytimer on 1570 by stamping it on a report to them. Lefty, I like the idea of a Change in ANs column. Say, Ken Bush, what's happened to you? Only a few new catches, mostly semi-locals except for WIVK-860 f/c-TT 3/08 5:15 on 5/17. Daytime DX was excellent 5/7 at which time Park and I pulled in seven Cubans at 11:30 a.m.
I've again (and don't say "Oh No!") Been a while since I last reported. What's the latest news about those domestic and foreign certifications? I like the idea very much. WVEC here in Hampton is going 1 kw, daytime soon (date unknown) plus they're going to put in a new WR and new towers. At the present time they have 250 watts with a sked of 5:30 to 1:30 seven days a week. Tower is (one) 500' high. I have this info for Condition of Frequencies list. WRAP-650 Norfolk Va. is off AN, seven days a week; WGB 1310 Newport News, Va. is never off; WAVY-150 Portsmouth Va. is never off; WTAR-790 Norfolk is never off; WNOE-1230 is off some Monday A.M. but not each week; 24 hours other days. Only new DX in May here is WKID-1580 Illinois logged at 1 A.M., CWKS-960 Ontario logged s/off at 12:38, both on 5/13, and GWON-950 Georgia logged at 2:00 A.M. 4/23, all reported to. Latest veries from WMBG WHHL WINX KFI KGJS (Frank W., where are you?) KXEL CFOR WYCL WNJR CWKS WKID, all letters and WARM WPFO and WCCO cards.

Will DX through summer, but if I log many new ones. I would appreciate the v/ for WYSR-1950 WLOF-950 WDF-1420 WMOK-900 WINX-690 KIOA-940 WCGO-600 WRAP-950 WCEG-910 YRFE-1570 KZMG-950 WCPH-1150 WZKY-1580 WFIJ-1580 and WATS-950. I have f/up reports for all of them. Oh yes, KFI sent verie stamp. I thought stations were doing this many years ago. Bad news, can't make it to the '61 Convention. Well, that's all for this issue, 73s and let's all hope winter comes soon!

Dallas John - 337 South Stewart - Lombard, Illinois

Hi everybody! Haven't been DXing a real lot, just sweating out school so I can't! Most DX has been in the last two days: 5/29 - Logged WBSC-1550 at 7:15 A.M. before going to school. I have been trying for them for ages at sundown. 5/30: WCVS-1450 at 1:52 A.M. RS; WADO-1200 at 1:30 on RS; KTAL-1200 at 2:06 AN; WJEK-1500 at 1:23 after KSTP s/off at 1:00. Last new call, WCMX-1060 nice, s/off at 1:29 with WAKV breaking in once announcing a test. Etc.; TT rendering WLAC unreadable at 1:24. Some XERF stuff on 730 after WGM parted. XEX? Any other time spent at the SX-28 has been listening to persistent KJCQ-1550. (Who?) Not to commit myself, but has KRES switched? Alas, KJAZ-1270. Here are my totals: 532 logged, 89 veries, 37 states heard, 32 verified. I will have 200 veries by 1/15/62, my anniversary of reporting. I have gone crazy with veries, having reports out to WYK WBEC WIBA WCW KTAL WLAQ WGBM GBG WCAR (QSL attempt) KTOE WHO WHOW KSTP CFOR WBM FNO BDF WJX FMM KHK WCGO WJSH WCMC and WJIN which would be state #34. Recent veries are cards from WIMS WZRO CFRE WSWS WAGA and WMBE, and letters from WSDR WCAW KSTT (anyone besides Len Kruse have them?) WCGO KBE RCM XMP KDIO KCL and KRT. WBC still pays no attention to me. Are there, or have there even been any females in the NRC? I hope I helped Alan Taylor with WIVI. By the way, thanks to Alan Taylor, Wayne Alcott, and Dan Phillips for correspondence. You too, Lefty. Jones Log is wonderful. 73s all and best of DX.

Bob Lowe - 2414 Brookside Parkway - Indianapolis 1, Indiana

H^ Smeehes. DX has been pretty good since my last Waving. 57 new stations logged. April 21st brought me KCOR thanks to the fa list, coming through unquestioned. WAKR for my 35th state. Sent them a report but nothing back yet. Only new veries are WZST and KJLO. I've decided to start logging thunderstorms. If anyone else is interested, send your reports to THOR, Cloud 9. Dave Roys has already started making plans for a '62 Convention in Indianapolis, so Indianapolis '62! 73s.

G. Harley DeLeuerere - 1 East 8 Street - Mounta 21 - Hobart, Indiana

Loggings since KOKO have been nil. I can't seem to pull anything through the ANer, QRN, etc. this summer yet. Of course, I have only been listening half-heartedly. The veries since KXRA number six and are the following: KOKO-1450, Warrentsburg, Mo. (Phone 1450); WHEL-1550, Richmond, Va. (2314 West Cary Street - 305 West Grace Street, Milton 4-4577); WJAZ-960, Albany, Ga. (James S. Rivers, Inc.); KETA-1340, Batesville, Ark. (White River Valley Broacasters, Inc., P.O. Box 1112); WORK-1350, York, Pa. (13 South Beaver Street, Phone 3-5555); and WZST-1550, Tampa 3, Florida. (Dixieland Broadcasters 3075 Nebraska Avenue, Phone 4-3136). Only three new reports were sent out. They went to WTRX-1340, Elkhart, Ind.; WJVA-1580, South Bend, Ind.; and WHEF-1370, Rock Island, 111. Please find enclosed the v/a for the veries received here from WBSC through WZST. There are 30 in all. 73s until July. I hope to have a few more loggings and a few more veries.

William L. Bauer - 7263 Gough Street - Baltimore 24, Maryland

New veres are CFRS KRAE W289 WMCR W205 WI8S and 28 reports still out yet to new ones.  
5/19- WSKV-1590 ET at 2:35. Who is the SS on 1440 lately? Can't catch any ID as yet.  
5/15- Unknown TT on 1550 at 1:56 but never any ID given. Unknown SS on 1210 but too  
noisy to catch ID at 2:30. 5/15- TT atop WMCA at 2:10. WNJJ-1590, ET at 2:18 for new  
one. No XEKF today after 3:00. WPAB-1590 ET at 2:56. 950 had unknown SS at 3:01 but  
no ID heard because of rotten static. 5/17- No XEKF at 2:40. TT on 1550, 2:41 to af-  
ter 3:15 but never gave any ID. 5/18- XGFI-1250 f/c. WPUP-1330, ET at 2:42. WJES-  
1570 ET at 1:34 for two new calls. WVOX-690, ET at 2:02. 5/19- KWWY-1470, r/c. WPUP  
1390 ET again at 1:40. WDOM-1440, ET at 1:52. WMCR, ex-WONG, 1600, ET at 2:53 for new  
call. 5/20- Wall Bob, hear your KCRG on test at 2:02 on 1600. TT on 1570, no ID  
2:02 until 3:12. 5/25- WDDW-1550 for over an hour, gave one ID and sounded  
like WTAU. WBA-1560 ET at 3:23. 5/25- WPBC-1580 at 1:40 and still gives Washington  
location. 5/26- WJES-1570, ET at 1:25 or is WJTS? 5/25- WEND-1580 ET at 3:07 for new  
call. 6/3- WDOM-1440 f/c 1:45 to 1:59 for new call. 6/4- 1570 had unknown atom  
XEKF, 1:19 to 2:37 without any ID at all. WMCR got call of FM station in Kalamazoo,  
Mich. which became WMUK. 5/26- WLLJ-1580 ET at 2:09. WABA-1380 ET at 2:45. 520 at  
2:00, at noon down to 30°. 5/27- WRSJ-1560 f/c at 1:55 and off at 2:02 for new call.  
5/29- WTVN-1580, test at 1:47. Unknown on 1550 with live that was up to DB 20 at 2:42  
and at 2:53 said "KKJ to Control" and no other ID given. (KKJ0, St. Joes, Pat? ed.)  
5/21- WNNZ-1550 ET at 1:43. WGR-550 is AN again. 6/1- WONA-1570 on test at 2:15. No  
WGY-810 today. CHEL-900 AN again. 6/2- WCOY-1580 test at 1:52. WIOS-1480 test at 2:16  
for new call. 6/5- WTVN-1580 test at 2:29. 6/7- WKIG-1580 ET at 1:44 for new call.  
6/9- WAFK-1570 f/c at 1:15 for new call. 6/11- WSJL-1580 ET at 1:20 and KDSN r/c on  
1580 through them. 6/10- Too noisy to DX today at 5:00 at 2:00 a.m.  
Ben Dangerfield III - 202 Governor's Drive - Sprout Estates - Chester P. O., Penna.  
It's the time of year when DX activities become somewhat neglected, but of course there  
has to be a lull sometime during the year or we wouldn't enjoy starting in again in  
the fall quite so much. I haven't done any serious DXing since early April, although  
I note that CX have been good all Spring, at least for the not-too-distant domestic  
stations. No new or exciting calls to talk about, but there have been some real  
good veres from stations previously reported. My biggest thrill has to be the re-  
ceipt of a v/c from 4TA-790, Djededin for April 3 reception; my first New Zealand. A  
few days prior to that one, received an overdue v/c from ZFV (Radio Damerara-790 in  
British Guyana) just two months after my second report to them. Back in April I had  
gotten a QSL card and v/l from Romania confirming early March reception of Craiova-  
1450, my most distant TA. The same April day brought a confirming letter from Antigua  
444 re my f/uo on a January report and my later report on their special DX program.  
More details on these and others in the Foreign Section. Other veres have come from  
WEOP HUDM and XEF (after eight months)! The following have been noted on the domes-  
tic front: In early May, (and I know these have already been reported by the NRC)  
tests on 1580 by two new area stations, WEND Ebsenburg, Pa. and WNJJ Hamonton, N.J.  
On 5/8, WSKI-1240 Montpellier with a tremendous signal, carrying the Yankees-Angels  
game at midnight. 5/9: WDEW-1570, Westfield, Mass. with a special program on from  
11:00 to 11:45 EST. (This was after midnight local time). I'm not giving up tuning  
the radio for the summer, but don't expect to get many opportunities. I spent the  
past weekend at the camp site my older son will attend this summer, located on Chesa-  
pakee Bay's Eastern Shore, and did some tuning on the car radio. Seems like a real god  
DX location, and I would love to try some DXing from there in the winter. I also wish  
I could see my way clear to make Amarillo and the Convention, but feel there are too  
many bills to be paid at home. Will try to contribute something to Musings during  
the hot months. Best of DX.  

Mike King - North Eastham, Cape Cod - Massachusetts  
Four weeks since my last report so I guess I'll send another. I'd like to ask anyone  
who receive a veres from WZOK how long it took. I sent a report in January and three  
since yet still no reply. Haven't done much for the past three weeks. I have been  
too tired and static too heavy. I did log WBEB at 2:30 am, WFLI at 2:50, WSUN at 3:  
55 and WRAI at 3:30 all on 4/22. WERE 2:53 am on 4/23. CFEG at 4:05 p.m., on 4/28.  
WEII at 2:38 a.m. on 4/29 and finally WMBD 2:50 am. on 5/11. Recent veres are WHO  
WNJ WRNL WPFG CJOAD WSUN "RadiSwan" WSBA WORK WMED and WAMS. Good DXing! 73.  
DON'T FORGET THE TIME IS GETTING CLOSE. MAKE YOUR RESERVATIONS NOW FOR AMARILLO!
Said that I missed the May DX NEWS; forgot to note the deadline date it had passed. However, I have sent out one reception report between April 19th and June 1, that to 690 XETRA. They broadcast NX and commercials exclusively, IDing as "XETRA" News over Los Angeles, with only in frequent mentions of Tijuana, B. Cfa. Seem to tape two seven minute news segments, with repeats, and entirely new tape each hour. All night, of course, except off Monday mornings. Our other local news is that 830 XEMO has not been heard for several weeks; XENW, Ciliacan, Sonora has been heard frequently there. On 1500 kc/s. a cycle tone has been heard a couple of times, so perhaps KELA has begun testing there, although they were on 1490 AN Monday, 5/29. Farther out, 620 KTAR not AN; off 3, on 7, Saturday, 5/27; 1140 KGEM is AN; 1550 KKJ0, ex-KRES at 4, so possibly AN; (KQBY off at 4; KHEB not heard). 1320 KUDE not AN; on 7 Monday 5/29; 1470 XEAN AN except Mondays. Several f/ups sent, so some veries to report, thanks to the Nittler brothers for their sigers in DX NEWS; those lists do help, occasionally. 910 KOZL, QSL; 1150 KSEW (Kissin' Radio); 1270 KNDI (Kandy Radio) 1230 KFOX, my FF form; 1430 KALL, S.n Gabriel; 1440 KWBY "Kall Us How Boy"; 1460 WSGO, 1460 WXK, Reno- frno Valley, and 1560 KHEB, my form. The 'On' and 'Off' column for ANs sounds good, if they could be depended to stay "off"! Once they get the bug, they frequently return. The long antenna brings in the fog static better; but I keep hoping. Best of the summer to all the Club, and a BIG Convention at Amarillo.

Ev Johnson - 504 16th Street - Mendota, Illinois

Not too much DX here due to static. Some DX since May 27th are the new WITN-1460 in Dixon, Ill, was heard on an ET with voice only at 4 p.m. It seems that WSAA-1160 is AN. CFPL-980 London, Ont. verie states "We are 24 hours." WONE-980 has quit AN. CJOC 1230 s/off 2:08. On June 3rd WGTQ-1590 was on for an f/c at 12:25 a.m., also WITN-1550 on for f/c at 12:30. On 8/4 heard CBB-1550 s/off at 1:05, Sunday. KKJ0-1550 on AN, call change from KRES. WMAY-1300 is now AN. WMET-1010 new in Lansing, Mich. on an ET and as far as I know CHML is again AN on 900. WJAT-800 Swainsboro, Ga. on f/c-TT and second report with second postage sent. May 29th- WHRV-1500 test at 1:55. KGDM 980 AN. WTOR-1300 s/on at 5. WIBA-1310 Madison, Wisc. s/on at 5. XERF-660 was on AN May 27th, second report sent. Eleven new veries since last Musings. They are from KSBR-1480 KOME-1300 WMWH-dx KFPE-1230 KVIM-1360 WGST-1550 XEAR-570 Radio Fiesta, WALG-1590 KKMO-B40 WXIN-1460 and CFPL-980. WXIN says I was the first to report and the first veri. Hope you all have a pleasant summer and 73s.

Doug Murray - P. O. Box 173 - Truro, Nova Scotia

This is my last day of leisure for a while at least, so, while time permits a short report to the Musings is in order. Tomorrow is June 1 - the beginning of the Dominion Census when about 40,000 people including myself will begin counting noses, hi. Veries arrive here quite regularly from winter reports and f/ups sent out recently. Seven out of 14 have answered f/up reports. Veries since last report are: KMED-1440 WHO0-990 ZEMI-1205 WSMR-780 WELL-1070 (f/up* WMJY-1540 f/up WHAL-1240 HCJE-200 WHCA-570 WCBQ-200 f/up WZST-650 WHEB-250 f/up WCOO-830 f/up WEPF-1570 f/up. All the above were QSL cards except KMED WHO0 WHAL WZST WFLI and HCJE sent both a letter and a card. I have my results from college papers - not too good mark-wise, but I passed five out of six. I am hoping to pick up the other on a Sup in the fall. I guess next year will bring more studies and less DX, hi. Does anyone have a v/s for any of the following stations? WOND WYNN WZOK WPGC WSAE WLDG WOCH WSEP WER WANA WLAH WOFL WHIM WNNR WEMD WVYAL. The latter has not answered either of two reports sent (both with postage). Is Gary Joyner the signer? ZEMI has new CE, can't read name but no longer T. Haye. That's all for this month. 73s from Nova Scotia. Why don't some of you fellows vacation up this way this summer? I'd like all and any that are near here to visit me. The street address here is 1 Churchill. 73. PS - I thought you would like to know that CKEC-1320 is 5,000 watts as of 31/5. Also as far as I know CJCH920 is not yet AN. Have a nice summer. 73.

Dan Gebhart - 634 Corona Drive - Kettering 19, Ohio

Not too much DX to report. Did log CHOK-1070 Sarnia, Ont. during the Conrelad Alert on 4/28. Not much in veries here either. God a verie from XERF last week. It was for a report of 9/30/60. Oh yes, also got a verie from WXIN on a report of last November. Do we have any members living on Mantoulin Is., up in Canada? If so write me. Have put up a new 115' windon antenna. It seems to help a little bit. Local WANT has changed to a new sked. They are AN during the week but s/off midnight Sat-Sun. That about it from here. Hope to have some DX to report next time. 73s.
Surprised to hear from me? I did a little post-season (after April 1) DX and received a few new ones as follows: WMML-1470 f/c 12:33-12:40 a.m. EST April 23; WISL-1420, 12:29 a.m. EST; WJEM-1435 May 1 1:10 a.m. (They sent a very nice verie and are truly a DXer’s friend); WHAP-1340 May 17 2:17 a.m. f/c, and WPPS-1440 f/c June 4. I’ve been doing some extensive TV DXing. May 27 was the best day for TV DXing since I’ve been a TV DXer (started 1954). That day I received 13 distant stations with eight new ones. June 4 was another good day for TV DXing, received eight distant stations with one new one. My total is 151 received with 133 verified.

For the past two weeks our utilities stations have been listening to utilities stations on country frequencies for poor DX. I was reporting in, although I managed to log four stations: 5/6- KACT Andrews, Tex. f/c. 5/8- KHHN Hugo, Okla. 5/11- KCOO Omaha, Neb. f/c, KPOK Scottsdale, Ariz. 5/29- XELA-330, CBX-1010. So far this month the DX has been running very slow due to poor CQ, but I have managed to log four stations: 6/5- KORA Bryan, Tex.; WJEM Jerseyville, Ill. f/c, KETA Batesville, Ark. f/c, 6/7 KLLB Liberal, Kan. f/c. Veries in from KGCX KFWN KENK KESB and KCOO. Total logged is a crummy 545. Hope I can reach 600 by next fall. 73s till next issue and here’s hoping you all come to the 1961 Convention!

Hello everyone. About time I was reporting in, although I haven’t too much to report. For the past two weeks of the world has been receiving daily thunderheads which make for poor DX. Catches are as follows: KOOK Billings, Mont.; KAGH Crockett, Ark.; KBSV Springdale, Ark.; KGCS Sidney, Mont.; KEKO Grand Junction, Colo. / Month of May as follows: 5/6- KACT Andrews, Tex. f/c. 5/8- KHHN Hugo, Okla. 5/11- KCOO Omaha, Neb. f/c, KPOK Scottsdale, Ariz. 5/29- XELA-330, CBX-1010. So far this month the DX has been running very slow due to poor CQ, but I have managed to log four stations: 6/5- KORA Bryan, Tex.; WJEM Jerseyville, Ill. f/c, KETA Batesville, Ark. f/c, 6/7 KLLB Liberal, Kan. f/c. Veries in from KGCX KFWN KENK KESB and KCOO. Total logged is a crummy 545. Hope I can reach 600 by next fall. 73s till next issue and here’s hoping you all come to the 1961 Convention!

Memorial Day netted our newest Albuquerque station when I was searching for Indianapolis 500 coverage. KRZ(20-1560) is now on, replacing KHAM. Report out. For Ulf Marcusson and others who have inquired, KOB is and has been on 770 for at least 27 years. They were briefly on 1030 kc/s. for a few months, but did not like the frequency and appropriated 770. Learned some of the background when I was an engineer with KOB some ten years ago and cannot understand how they got away with it. FCC never voiced any strenuous objection. They have no intention of ever returning to 1030 and never test on that frequency. So scratch off KOB, if you wonder who you might be hearing on 1030 kc/s. KDEF-1150 not yet on full time. Hasta Temprano.
They also, Massachusetts finally joined the human race. I just got the Spanish From what I hear. And I will get out of. I have Three score plus I. Summr. I sent them an. I wish it were. Wizzie. Little year's. Vel, Pepper is here! I have heard and received veries from following DX KWEB Rochester, Minn, came in here at 11:10 p.m. with a fabulous S-003 signal, really booming in, hi! They're 500 watts on 1270 kc/s. so I'm not griping. Another surprise catch was HJEM-1210 from Cali Colombia at 3:17 a.m., S-6. This brings my total Colombians up to seven. A ham friend and I got an antenna up finally after a day's work. It's a 100 foot 1/2 fed long wire. This supplement the 75 foot centered longwire and the 50 foot end-fed job. I haven't had much chance to try it out yet but it seems to give me a great deal more gain than the 75'. I'm mad! WP4HD didn't verify! I sent them an hour of detailed programming with spots, general RS announcements and score by score of the cricket match. So what do I get after six months? Maugh but a mail box full of lint and a three quart bottle of smeage. Well, three score and 13 (hi, Alex) to all and Amarillo '61, Indianapolis '62, Quintan Roo '63. 73s.

David E. Roys - 5121 Radnor Road - Indianapolis 26, Indiana

Smeage. BCB is terrible due to numerous thundersstorms, but TV has been good recently. Latest veries are 4YA-780, ZPY-760, HIUA-1270, KIKI-330 for my best Hawaiian, and the best one I will probably ever get from that state, LR3 for Argentina verie #2 and KVWM-710 for a French report. Countries varied at 33, not 21. Been going at this beer label collecting a bit too heavily lately, Lefty, hi! I just got the Spanish translation for my CPC form, so I have started on the SA letters for next fall. I will write to seven Argentines, seven Chileans, 20 Brazilians, eight Peruvians and three Ecuadorians. Not all of these will cooperate, of course, but the ones that do should make top-notch DXers. I will get out of school pretty soon for the summer and will be working at RCA as a lab assistant. Wizzie. I have been taking target practice with my 50 lb. crossbow. It sends a crossbow arrow through a beer can (empty, of course) like it wasn't even there. It will easily go through a Volkswagen door (I haven't tried it yet, though.) I have found the perfect targets, too. WISH "music" guides. You see, like WISH so much they are the WWS WLS of Naptown. Yuch. Very little in the way of DX, so having said enough on other subjects, I will s/off. Three score plus 13.

John Oldfield - 11621 84 Street - Edmonton, Alberta

Well, here we go again. Veries are scarce: KGU v/c KORL v/l EIZ v/l KSTN v/c WJAG v/l KFMB v/l KHEL v/l and KWEB, two letters and a package of pictures of Arizona - said they got a report from New York. Little time for DXing here, but I did get a few. KPRO-1440, KABQ-1360 r/c KWSL-1340 f/c, KFAC-1330, KCSA-1320, KEFP-1450, KIHL-1070, KVQG-1490, KISN-910, KAYR-1450, KTHE-1490, KLYK-1230, KNDI-1270 (dominant KBOM) KEHF (got an ID this time - 1370 mystery) KELO-660 "XETRA, NX Radio for Los Angeles" 690 (ex XEAK) "The world's first and only full time news station" in solid here most nights. My 1340 is XBAAC's Mexicali - got it again more clearly. Also, my 1560 mystery is not XEDC, but XEBB-1550 with an ad for "Baker's Barber Shop" in Spanish. I wish it were XEDC, too, Bernie. Sorry I let you down in DXDD Ev, been quite busy. Say, I'm with Leo - what can be done about all these stations that QSL without having any informatic given to them? Anyone got any ideas? It's just a waste of these DXers' (?) money and the station's money. From what I hear there are plenty of these stations. Totals are 524 and 275. I have again heard that tick-tock under XEWH - surely, someone else has. Is it some sort of time station? It sounds like WWV without the tone. Glad to see that Joe is back at the dials. I've rambled on enough... 73.

Warren Brown - Ashaway, Rhode Island

I have heard and received veries from following DX programs: WYAL KEEF WCGO CFNS WILZ WTAQ HCJB WSTF WFRD WMH FM POR CCKL YNOL CFOX WSAJ CBI, plus EDNT Tex., WDSK Miss., WSBT Ind., WZST Fla. WKLM N.C., WGBM Ill., WOJU Miss., WMIC/WJUD Mich., WSHO Fla.; WTKG Ga., WSIG Ga., KPOK/KWEY Artz. I now have 505 veries. 73s.

Stan Morss - R. R. 3 - Bradford, Massachusetts

SOON IT'S OFF TO AMARILLO - WE HOPE WE'LL HAVE THE LARGEST TURN-OUT YET! YOU COME!
Well, here comes a long overdue report. I don't think I have sent one off since I have been off to school and that was about nine months. I have been working pretty hard since I have been back. I have been here about five days and have sent out 15 reports. Maybe I will catch up to Alex Bowab some day. I surely am going to try any way. My veri total stands at 59 at this time and I am expecting more in any day now. I have been very seriously thinking about getting me a tape recorder to help me some in this fine hobby, so if any of you good-hearted boys who own one would be good enough to drop me a line and give me a few hints on using one in the DX field, I would really appreciate it. Bob Easterly, sorry I haven't returned your letter of long ago but I was so busy at school I didn't even have time to write my mother and I will try to get around to it pretty soon. Well, I guess that is about enough from me for this time.

Wayne Pierce - 400 Wims Avenue - Vestal, New York

WPEL, Montrose, Pa, has gone FM with 57 kw. so they have altered AM programming with more classical selections. WCAE has also gone the path of WYSY with a new call WHYT; "Right Radio." Their change-over was done in grand style with 72 hours of one record "KOS," so if you heard this record, or think that you received a new station, it was only WCAE playing this record making fun of the B&R stations. Also heard them give a station break by a well modulated lass saying that I was listening to WERF! I don't know where WCAE got that! Doug Murray, WHYC v/e is John De Prospo, ex-officer. I like the WPO QSL card - it's rather late in coming, but if all were this good I'd have no objections to waiting this long for them. DX recently is confined mostly to semi-local stations. WGU, Bangor, Me., the DXers' friend (hi) is one exception. WGY v/e back in third day. From the remarks on the card they appear to be very thankful for all reports. Is there any way to have stations get their cards to us without the two face stamp from the machines? A few mice cards marked up by this. Here's a tip from the hams on how to fine-tune. Use two hands, one on each side of the dial. It makes for more precise tuning. Is the Spanish station list out? I sent my four stamps as payment but no log yet. I'll pay again if it didn't reach you. Oh yes, whoever it was whom I sent the bumper sticker stations to, add WEOO, Owego. Also, how about sending me a list of the ones that you have? The local WEEN was off from about 5 to 8 p.m. today. They said it was lightning, but I know better. Snicker, snicker. Now to work on the studios. 73.

Merv Osirny - 101 Albert Avenue - Saskatoon, Saskatchewan

It's been so long since I've sent a report in to "Musings" that I don't recall what stations my last report took in. I've been guilty of inactivity in DXing since 4/29 due to the pressure of work, but intend to get back to the dials during the last part of June and July as DX was terrific at that time last year. DX in the last while: 4/8-CHED, Alta. 4/10- KAGQ, Cre., 1150. WJSO-1590 Tenn. 4/11- KRAV-1490 Wyo. 4/13-KTRR-1490 Wyo. 4/14- KMLE-1440 La., KBRI-1570 Ark., KOKY-1440 Ark. 4/20- KCCO-1420 Nebr., WOC-1420 Iowa. 4/27- KZBM-1580 Mexico. 4/29- KSAT-1340 Nebr., KTVI-1360 Calif. All were this good. While Joe Plonka was over on 4/22 we kicked a few topics around. We decided it would be a good idea to make an addition to the first line of each member's Musings. The addition would be the total number of stations logged and total verified which would follow your name and address. Example: Fidel Craktoe, 220 Assassination Alley, Havana, Cuba, 676-342. Would mean he had 676 stations logged and 342 verified. This would include foreign stations too. Remember, this is a suggestion only so let's hear your ideas. Small totals such as mine would be no reason to avoid putting it down, even Hank Tyndall had only 400 logged at one time. Re WREK, people sending in those reports should have their names listed on the front page. This would probably mean a lot of red faces, but would quite likely cure a lot of tentative-happy members. In my opinion tentatives shouldn't even be sent. I don't think the NRC should replace quality of members by quantity. However, chances are things of this nature won't happen again. Joe you can return my WKKW and KWOW very nice now. I know you accidentally (?) mixed them up with yours when you invaded Saskatoon with your dynamite blowing buddy. Joe and his pal Dennis insisted on Prince Albert for a Convention site after seeing all the beautiful young ladies, but agreed they couldn't beat Saskatoon when you come right down to it. Joe felt right at home when we visited the Federal Penitentiary in Prince Albert. We had a great time and I'll looking forward to another one real soon, what do you say, Joe? Stick to your dials men, this mid-summer DX is unusually surprising. CKOM now 10 kw. on 1250 since 6/8.
June 17, 1961

Jim Ernst - Mahone Bay, Nova Scotia

After a month's vacation back in New Jersey, I arrived here June 5. Was called back early to start work at CKFW. Enjoyed meeting Jeff Zob and seeing his nice veries, plus seeing again my good friend Bob Foxworth. Even though a get-together was impossible owing to last minute plan changes, I still was happy to talk to Lefty and Bernie by phone. Now I'm going to settle down for the summer and wait to see what the fall brings. 3/31- Cairo-IV-318 heard 6:12-6:16 s/off, and then Warsaw-II came in; former again heard 11:10-11:23. Sofia presumably, weak on 827. 4/1- VOA-1196 12:03-12:23. 4/3- WFOX-1450 r/c. 4/17- WMJE-1140 DX heard weakly. Veries!! CKSI-900, WCGR-1550 WTAQ-dx WIV-1590 CFNS-1170-dx WCGB-990 KEFR-1530 CSBE-1034 KMA-960-dx XEXQ-1460 DX, VOA-1196 WOBS-710 PAJ-1435 FRJ-550,580, RHES-330, St. Lucia-840, CSBE-1571 KNDI-1270 KIVY-1470 HOU-1040 HOJZ-700-dx GMHR-1570 CJON-930, WMCQ-1230. CMHR says their power is 150 watts. Mix new countries since last report - Panama, St. Lucia, Hawaii, Azores, British Honduras, Ecuador. Am particularly pleased with HOU HOJZ KNDI GMHR RHES. Phil J., send me a tape. Same for you, L.G. 73s and hope someone can use the signers.

David N. Lewis - 3429 Forest - Kansas City, Missouri

Hi! Well I guess it's time for me to let another Musieg to the coop. Say Alex, did you get my last letter? I had a brainstorm last month. And here it is - why doesn't the NRC have 50 state chairmen (one for each state) one for each Canadian province and Mexico plus?, with a group of DXers under him to write to every station in their appointed districts to find out their s/ons, s/offs, f/c, DX special and any other information helpful to DXers. And when they get the info back from the stations, they will send it to one person who can compile it into a booklet. I think it would be a good idea if it was compiled by frequency. I haven't done much DXing lately, but I hope to DX tomorrow morn (5/12). The following is what I hear regularly, daytime.

Francis H. Nelligan - 2654 South Josephine Street - Denver, Colorado

Not too much DX as I spent three weeks in May in California on vacation and enjoyed every minute of it. I was able to visit only one NCBer Clarence Freemantle Cdrlake Highlands and we had a nice DX chat. Enjoyed looking over his fine collection of foreign veries. Spent most of the time in the San Francisco area. Was surprised to find KLES-1330 Los Banos on the air as this was the first I know they were on. A few heard on the trip I would have to hear in Denver are KVLP KEAP KOWL XSDF KUKI KOMY KLES KBUG KWHO KMET KSAY KLIV KTOB etc. Back to Denver and DX. 6/2- Added WSAF-1280 Sarasota Fla, s/on 6 and with good signal on RS for about ten minutes. Then no more DX until after my trip. On 5/31 added two easy ones via call changes, KKJO-1550 ex-KRES running AN with hillbilly music and mail order ads. They sound right at home there in between KREK and XEXF, hi. Then the new KEXR-390 "Los Angeles newspaper of the air" heard on AN show with their all-NY format. 5/4 added KRAZ-1580 Albuquerque ex-KHAM on ET 2:16-2:45 with C&W music. 6/5 added KHDI-1250 Twentynine Palms, Cal. on f/c TT 2:30-2:45 and sounded like a r/c first Monday. 6/9 added WSK-1420 Pulaski, Tenn. on f/c TT 10:23-12:35 through heavy QRM/QRH. Some good reports back, 15 in all since last report. Letters from WST-1550 WPLA-910 WSAF-1280 WMJE-1140-dx WMMR-1460-dx WMIA-950 WDMG-880 WCGS-1400 WCVS-1450 WOKK-1450 WBA-900 KKKO-1550 KRAZ-1550 and QSL cards from CKVL-850 WMT-730 for total of 1,985 or 15 to go for my goal of 2,000 by start of next season. Have about 25 reports to send f/ups on so should make it easily by 9/1. I think the new ON-OFF column listing AN station/changes would be a good addition to the bulletin. Watch for KFIP-1550 KHAF-1360 KHAF-1060 WCCF-1580 WOKW-1410 as all of these expect to be on soon per Broadcasting Magazine. KPON-1580 KEBD-1290 are both off the air also per Broadcasting. Hope to see all of you at Amarillo for the big Convention Don't miss it if you can possibly come as I'm sure Larry, Jeff and the boys will put on the best Convention in history. Best of summer DX to everyone. Static very bad here since my return from California. 73s.

Will be in Provincetown from July 1-14th and will look up our new members in that location. (Cape Cod) Your Editor-Ernie Cooper.

Dallas John lists the following stations on the Chicago White Sox
Network: WSDR-1340 WAAP-1350 WGBK-1440 WBBZ-1260 WCFL-1000
He says these carry the Milwaukee Braves games: WTMJ-620 WEBT-1380 WKOW-1070.
Ernie Cooper adds to New York Yankees stations: WKNY-1490 and WNYC-1220, and to the
Baltimore Orioles' network, WOR-1350 and WJAJ-1440.

Ernie Cooper - 433 East 21 Street - Brooklyn 26, New York

I'm sure Larry and Dave are pleased by XERF's return to their old format, C&W - I am!
Some DX accomplished, as follows: 5/13- TT on 1550, 5 7-9, 1:13-1:29, but no ID heard.
Then on 1570 over XERF, new WJFS in Johnston, S.C. logged on ET/M. TT on 1320 at 1:44
5/20- WLIU-1560 concluding a test at 2:01 a.m., still no verie from these guys over
the years. Then noted new WPUP-1390, Gainesville, Fla. under and occasionally over
AN WEAON on ET/M, 5/22- WLIU-1560 testing again, and WTHE-1560 also testing on 1560,
for a report. 5/39- WTRX-1330 is easy here during DST period, 12:30-1:02 s/off on
Tuesday mornings. Now here, 5/28- WRSC-1390 on ET/M asking for phone calls, up and
down once again with WEAM-AN. This is in State College, Pa. 5/39- ETs of WQZ-920
with new 5 kw., and WTN-1560, and WBBT-1320, none needed. 6/5- KFDA-1440, Convictor
Land, Texas on f/c-TT at 1:10-1:20 or so. TT also on 1310. 6/5- KEYB-1440 heard s/
off at 2:00 cold, in the clear. 6/7- TT on 1590 1:23-1:36, no announcements. Then
logged WKJS-1580 ET/M in Glensville, Ga., with another no-announcer on top of them.

DX NEWS

June 17, 1961

IRELAND-ISLND**-Received an April letter veric from Antigua. (644) worded, "All the facts which you have quoted are correct and detailed," signed by a person whose name looks like Allen Warren. I had sent two reports, the last being for the DX program. Mention is made in the letter of looking forward to broadcasting more programs in the future for the NRC. (BD)

B.H.MAS-ZS (1540) verified by form letter signed by H. R. Bethel, General Manager. (RHM)

U. S. A.-**-WOP (1500) best at 0300 with news cast on 5/21. WMFX (1510) only just audible. WQXR (1560) New York heard at 0325 with commercial of New York Times fairly good signal. (RP)

SOUTH AMERICA

BRAZIL-**-Radio Mayrink (1220) Rio de Janeiro, audible at 0300 GMT on 5/21 with good signal. Radio Globo (1150) still the best on the band often heard around 0100 with Mayrink and also Radio Tupi (1280) (RF)

COLOMBO-**-HJEM (1230) Barranquilla, ID as "RCD" at 2400. (KR)

HJDM (835) "Radio Vision", sent veric letter and pennant. Siger is Jaime Tobon de la Roche. This came in late April after more than a month. Station has not put in any substantial signal since that logging. (BD)

ECUADOR-**-HCJB (700) verified DX program on very plain QSL card but specifically 700 Kcs. New country. (RHM)

BRITISH GUIANA-**-Two months from date of last report, received confirming QSL card from ZFY ("Radio Demanara") (760). Specifies 780 Kcs. and signed by Frances S. Bowan. In October report was never answered. Country #43. (BD)

EUROPE

AT SEA-**-"Radio Veronica" (1562) heard in the afternoon with English pop tunes announcements in Dutch. Fair signal. Wonder if they have increased power. Seems like it. Sent veric with photo of the ship, QTH is Box 218, Hilversum, Holland. (RF) "Radio Nord" (602) broadcasting in Swedish now heard in the late evenings with BC QRM from Lyon which operates on the same frequency. Also a radio beacon is heard on this channel in the early hours. According to Chris Hederstrom, this station plans to have another station off Gothenburg in the near future. This is on the West Coast. Seems to be on the air all night.

LUXEMBOURG-**-"Radio Luxembourg" (1439) English service now on its Summer schedule from 1800-2330 GMT daily. This is also on 6090 Kcs. (RF)

SWEDEN-**-Swedish home service Program I has been extended to 2400 GMT from about 2200 or 2230. From 2230 until 2400 they have a program called Swedish Night Radio consisting of dance music and pop. Some of the frequencies are 593, 782, 980, 1223, (RF)

ENGLAND-**-Letter from L. G. Shuttleworth, Engineering Dept., verifies reception of Clinton (1457). (KR)

GREECE-**-Rhodos (1493) logged 1400 5/7. Veric card for Athens (1385) from Technical Services Directorate, Ellinikos National Broadcasting Institute, 16 Mourouzi St., Athens. This is new address. (KR)

U. S. S. R.-**-Unlisted Russian heard with variety concert on 746 at 1400 5/1. Kiev (1169) with Moscow bells at 1430 on 5/6. Veric card received from Moscow for Odessa (548). They seem to be in good mood just now. (KR)

WEST GERMANY-**-Veric card received airmail from NDR Hamburg for Flensburg (1570). (KR)

RUMANIA-**-The month of April brought my best T. A. veric to date, from Craiova (1457) 20000 watts, logged 3/6 from 2300-2330, radiodifuziune Romina at Bucharest sent a letter and a QSL card. (ED)

NORWAY-**-A new station is Bo Vesteralen (1115) with 1000 watts. (EBU)
INTERNATIONAL PAGE 3

JUNIO 25 -- The last Tl heard this season was "Radio Monte Carlo" (1466) doing a special broadcast at 2310 on 4/25 during the recent French crisis. (also heard misc-1554) (BD)

SPAIN -- Now stations are EOP46 (1097) Albacete, 2000 watts; EOP12 (1222) Murcia, 2000 watts, and EJF30 (1354) Santander, 400 watts. Frequency changes are: EPE31 (1073) to (1079) Vigo, 5 Kw.; EPE44, Pleasanton, 300 watts (1097) to (1120); EJF35, Purjasot, 800 watts, (1181) to (1166); EJF55 Campo de Gibraltar, 800 watts (1429) to (1263); EJF9 Guadalajara, 800 watts (1349) to (1354); EJL16 Granada, 2000 watts (1427) to (1443); EPE32 Avila, 20000 watts (1520) to (1525); and EJL53 Elche (1546) to (1552). ElJal La Coruna (1313) has been heard for the first time since 1955. EPE8 Alicante was logged on 1351 Kcs. during January; EPE25 Santander, was logged on 1406 Kcs. during January; and EJL18 Rioja, was logged on 1496, all off frequency during January. (EBU)

AFRICA

LIBY--**The US APRS station at Tripoli (Wheelock Field) has not been heard since early in January, 1961. (EBU)

ALGERIA -- The RTF stations Alger II and Oren I, in Algeria, were heard on 962 and 1045 Kcs. respectively between 1/4 and 1/12, 1961. (EBU)

SUDAN -- "Radio Omdurman" now broadcasts at 2315-1600 on 575 Kcs. with 50 Kw. power. (DXG)

ASIA (NEAR EAST)

AFGHANISTAN -- Kaul (660) logged 1210 5/4. (KR)

CYPRUS -- Nicosia (606) logged 1355 5/9, played some US records. (KR)

U. A. R. (SYRIA) -- Verico in from Damascus (665) letter with schedule. (RP)

ISRAEL -- Air verico from Eiloon Hyman, Assistant to the Director, Overseas Dept., says the 656 station is now 100 Kw. English program, "Jerusalem Calling" is at 1400 GMT. (KR) Now station has opened at Eilat on 1358 Kcs. with 1000 watts power. (EBU)

ASIA (Far E. ST)

JAPAN -- Several cards and literature from JOKE (1600) Okayama. (KR)

PHILIPPINES -- DY00 (1440) Iloilo City, s/off at 1000 5/11. DXMC (740) Davao City, logged 0820 5/12. DXIW Davao City has moved from 570 to 640 and makes a dreadful heterodyne with Poking. DZLB (1240) closes at 1000. Can't make out the location. Owned by the Luzon Broadcasting Co., and located atop the Luzon College of Buildings. (KR) The Philippine Federation of Christian Churches main station is now DYCR (940) 5 Kw. (WR H)

SOUTH VIETNAM -- Heard a station on 610 till s/off on 1050 5/25. Maybe Suigon. Played some Hawaiian music and language sounded like South East Asia area. (KR)

CHINA -- ** "Radio Peking" verificed by QSL card for 720 Kcs.; denies verification of 840 Kcs.; report on basis of "Can't tell what station you heard.". (RHM)

AUSTRALIA -- 2KY (1020) Sydney, verifies by tape recording from several of staff; very enthusiastic. Hugh P. Hat, Studio Mgr., is signor. (RHM) 4LM (1370) Mt. Isa, is on the air, but not heard. (KR)

NEW ZEALAND -- 4ZB (1040) Dunedin, verifies by NZBS QSL card. (RHM) CP to 3ZW (1460) Westport with 2 Kw. granted, 2Y. (570) testing with 100 Kw., and will be 24 hours soon. (KR) My first Oceanic and New Zealand verico is 4YA. (780) Dunedin. Card confirming 4/3 reception took 8 weeks, but well worth the wait. Signed by the station manager.

OCEANIA
INTERNATIONAL PAGE 3

His name looks like K. R. Berry. Logged around 0500 on a Monday AM when other possible NZ signals were noted. Became country #44. (BD)

TONGA ISLANDS-=Z60 (1020) Nuuanu, verified by long letter and QSL card; expect to officially open about July 4th. Letter had 8 varieties of Tonga stamps on it. (RHI)

WESTERN SAMOA-=2AP (1420) Apia, verified by QSL card. J. W. Moore is the signer. Says 2000 watts. (RHI)

MYSTERY

EBU reports unidentified Greek-language station heard in Mid-February on 1313 Kcs. Also a Polish-language station on 1565 Kcs., also in February. In January a Russian was heard on 1277 Kcs., and in both January and February a Yugoslav transmitter was heard on 1512 Kcs.

REPORTERS

RHI-Roy H. Miller, P. O. Box 778, Bellevue, Washington.
BD-Ben Dangerfield Sr., Sprout Estates, Chester, Penn.
RP-Roy Patrick, 8 Sidney Street, Dorby, England.
BJ-Everett Johnson, 504 Sixteenth Street, Mankato, Illinois.
JE-Jim Ernst, Michonc Bay, Nova Scotia, Canada.
JWB-J. W. Brauner, R. D. #1, Snickerbu, Pennsylvania.
EBU-European Broadcasting Union, 32 Ave, Albert Lancaster, Brussels 11, Belgium.

OVERSEAS MAILBAG

KR-=How are things with you? Lousy weather here, but good for DX. Here are US loggings: May 9: WKBH (1410) 0530. May 17: W1HE (1320) s/on 0500 with XERF off, heard a station in Lords, S. C. s/on 1570 at 0515, but the call didn’t sound like W1SC. W0W1 s/on same channel 0530. May 19: WPTT (1600) s/on 0555. May 20: KPAC (1250) under 2DU 0600. May 22: WHES (1570) ET/PC stop XERF and Russis 0445. Verico is KXOK.

RP-=There are 5 short notes from RP at hand. They comment on overtime at work. Junior is now about 3 months old and already a strong little chappie. The weather is changing to summer time. He also notes a note from Radio Sweden that the EBC station at Barbora on 701 Kcs. wants to increase power to 1500 Kw. He notes that it is probably a waste of the tax-payers money.

GENERAL

Thanks to all who wrote. To Alex Bowab and Ev. Johnson for the stamps. I have a father and a son who collect, so I help both of them along. The ones you sent are appreciated.

BD lists the following as his non-verification of the past season: YMW, HRUC, XEFW, YSCB, C40K, YYOR, TILX, Demorara, HRZM, HOU, HJKH, Trinidad (750), YVND, C428, and W4WW. (Note from DX notes that HOU and Demorara came off the list.) Doug Murray, 277 Portland Street, Dartmouth, Nova Scotia, sends the following as his list: Jamaica 560, 620, and 700; Trinidad 730; Jamaica 750; Demorara 760; CSR-9, YVMB, British Honduras 820; PRG2, C428, WN1K, ZBM-L, and ZE4. If anyone can help on those with late verge signers or addressees, please send same direct to the members listed.

Late notes from NZ papers: Cook Islands moving to BCB soon. That Barbora station noted in RP’s letter is in Somalil, and is already 100 Kw. 4YZ, Alexandra, New Zealand is on 640 Kcs. 2000 watts CP, not on the air yet. A new list of Thailand BCB stations is in the NZ paper. Shows 63 stations, 50 of which are in Bangkok. Will run the complete list in the future if we have space for it. Doubt that any of our members will be getting many of the stations, many of which are in trucks or trailers. Harley DeLeurere sent a list of English station in operation in 1924. Will run this list in a future issue when we have the space. Still trying to keep to 4 pages. So for this month, best of everything. Keep reports coming through the summer. 73
