We wish to commend Joe Fela for his fine new NRC f/c List, and Len Kruse for his construction permit list, both distributed with the 10/31 DX NEWS. Wonderful work, gentlemen, and the NRC Governing Body thanks you wholeheartedly!

We also want to applaud all you fine NRCers whose contributions to the various sections of DX NEWS are making it such an A-1 publication in this, our 32nd year! But, don't feel that there's enough in DX NEWS and let down - rather let's hear from even more!
DAN PHILLIPS tells us that the signer for WBMC-950 & WJLE-1480 is
one in the same person, so it's not an error!! Bob Kelley, Sorry for
the mixup. ERC- Nothing on WSQ yet.... Guess I'll call 'em.
Hello there to all of you. These last few weeks have been nothing short of fabulous. DXing is as follows by dates: 10/9- WFRH-1410 in loud for a report; WJEO-1150 heard o/WISN at 11p.; log on WFEC finally; seldom heard WRAJ-14.0 on r/c w/ WCHC mulled out. Log off to KDOC-850 after not hearing them for five years. WJBE-1250 r/c in the clear. 10/13- KXAB-790 logged again, this time sent a letter; KGKL-790 and KODY-910 also heard for three Montana letters. KOLC-920 heard w/Cuban during s/off. CHUB in u/o CKLM for log, and finally WDOV-1410 test S-9 in the clear. 10/16- WFRD-880 almost even w/WLS in their mail. 10/17- WJEB-1620 r/c heard w/ ZOMA beating them to death. WDOV-1570 heard w/ ID at 1:49 with letter sent on that ID alone. CJRN heard in the clear announcing future AN programming. 10/20- WIMR r/c in the clear, WKEE-1570 ID heard, but too much WSPD to log anything. Logs off to WDOT and WMEG (blue) KXAB-1230 Sturgis, S.C. after final ID of KCCB. KQMN-1410 on ET with the engineers’ voices going over the air as they made adjustments. Finally KVSF-1360 r/c o/WSAI. WETN-1450 also in locally. 10/28- WHLV-1800 on ET asking for phone calls — I called, natch. WKEE-1360 on ET with many different pitches. WAWK-1570 on ET-M. WKBR behind WQFA. Veries received: KXLE KVOX WRED WLCB WPE WESK & WJEO. During the last two weeks I’ve logged 20 new stations. Good DX to everyone. KIGK WMOO & KDAW ADE IT + NO WKEE— just TT.

Ev Johnson - 504 16 Street — Benton, Illinois - 61332

Since my last kiting sent in have logged the following needed here: 10/19- KCMX-1400 on r/c. KDON-1450 Salinas, Cal. WHHL-1450 in Holly Hill S.C. was on for about an hour with EFs. WRAE-1440 Babylon, N.Y. on their early s/on. Then on 10/20 KGCP-1510 in Hastings, Neb. on their r/c 2-2:15. CJRN-1600 ex-CWMC noted AN, off WMIK. On 10/17 I caught needed WAXK-1320 r/c and KABH-1510 Midland Tex. on r/c - check DXHD. 10/29- WFEC-1400 was heard on their r/c 2-2:15, with TT. WMGO-TEST KDWA-TEST & KESI-TEST all in good here. New ones heard 10/21 are WAXN-1600 Peru, Ind. on ET at midnight. WTRA-1360 or WHTF if they have changed calls. I could not make only the TN out. KCRG-1600 s/off 1:00. WGBH-1480 s/off 12:05. WCLS off at midnight, 1580. Verifies not many, w/14 reports out. Did get WACY-1460 WKVQ-1550 KABH-1510 and WJIB-1370. Total now 2,566. Glad to see a full sheet of DXDD Tips each week and hope a full sheet every week. Small job, JWE. Also good job from Dick C., Ernie and others. Who is the 1460 CBC station on this past FD during KDWA TEST and AN? No call given - just CBC Radio Network. All for this time, and good DX to all, 73s.

Alex Bosaw - St. Mary College — St. Mary, Kentucky — 40063

10/18- CFXO-1010 s/on 5:21 am ending 8km silent period; WILX-980 s/on 5:30. 10/23- KIRK all alone on 1360, no WSAI heard here yet (no 1360 Hate Club for me — WQG is my favorite station); WAXA-570 WOWL-1240 WAMA-1410 WHMA-1390 (to s/off 12) WPXM-1450 (ditto) added to increase Alabama heard total from 11 to 16, all between 10-12pm. WOC-1420 s/off 12:05; WUSC-1390 s/off 12:17; WCOA-1370 w/no WSPD around, topping frequency to 1:05 s/off; WHEC-1390 to 1am s/off; VMSR AN topping 1460. A mystery, new station in Hendersonville, N.C. ETing w/r & c/w, asking for calls; WAPX GM rough here, not sure of call — maybe WHVL? (WHVL, Alex- KES) Heard about 12:15am, 10/24. I’ve decided to keep a heard log here, how’s 163 for a starter? Barton, I’ll catch you by Christmas! WCLS-1590 now seems to RS until about 2am, with c/w and the XYL mail order ads to boot, but around s/on they are Top 40; real strong here. Someone, is XERF these days? 1570 clear here after CFXO s/off.

Andy Rugg - 15 Lake Breeze - Pointe Claire, Quebec

Correspondents: don’t expect any letters until the Christmas vacation unless something really urgent develops. College takes too much time now. Varies here; CBGC-1270 WESR-1330. DX- 10/22- Strong southern skip in P.M. w/WNHC-1230 amazingly strong u/CGSO @ 7:31pm; two SS on 1615, with one s/off at 7:42, any ideas, anyone? 10/21- WFRD-1560 RS on bedroom set while getting up, 6:55-7:01 a.m. 10/22- CXOPX=1470 stopover drowned out KDWA-1450 DX; WBNB-160 r/c. TT 5:55-5:17am, unm. WBFK-1340 1st 5:37; WJMO-1370 TEST, 3:46-4:01 - on later? CENK-1370 c/u WMOO but not enough to report; CFJX drowned out any vestiges of KSM, with some help from a CJSN-1230 image on 1530; much wanted ZMM-1340 in well all AM; unm St. Pierre-1375 good @ 5:02am; PJB-300 fair c/u CHUB in SS from 5:03 to 5:18am. I doubt if CBOF-1350 is on yet, as they haven’t been heard here at all yet. 73.

AS THEY SAY OF "DX NEWS" IN SAN JUAN, "WIAO."
"WEEKLY ISSUES ARRIVE CHECKFULL!
November 7, 1964

Henry J. Wilkinson Jr. - 6830 Berman Avenue - North Hollywood, California

Looks as if this season is off to a flying start. All phases of the DX NEWS seem to be loaded with desirable info. It will be nice to get the DX NEWS on a weekly basis after the Summer lay off. At this den, I only get one report off during September. However, I have gotten seven fine reports out in the last two weeks. Reception DX in the "Asian Area" have been almost without equal, for the past two weeks. Wish I could say the same for New Zealand and Australia! No matter how many Asian variety I get I always receive a finer feeling when I log and verify those DU stations. The courtesy of those Australian and New Zealand stations has remained constant throughout the 33 years that I've DXed. Clarence Freeman and Roy Miller are tuning in European stations as they were going out of style. The best I've gotten so far are "whistles" on 1205 1466 and 1196. Say, Ben, do TAs have their high and low peaks on a monthly basis? You can readily see that I'm a bit overanxious about TA reception this season. The NRC Country List has a few revisions. Will advise John Callarman. These DX NEWSes sure are loaded with good DX information so far this season. I hope our enthusiasm doesn't wane as the season progresses. Anxious to see the entries for the NRC Foreign DX Contest for this season. Should be at least tripled this season as against last season's competition. I wonder how many of you remember the excellent prizes that were given in Foreign DX Contests back in the thirties? Catching up a little at this den during October after a very dismal September. Have reports out to PJE-560 XEPH HLKA JOUF JOFF Radio Peking-740 Radio Pyongyang-655 K200 JOIF & TGET. My main purpose this season is to log & verify several European stations - everyone else out here is doing it! Interesting to note the wonderful catches that Leo Fox is enjoying covered up in all that snow and ice! Well, some guys have all the luck. With the world at his fingers - I'll even bet he looks like a New Zealand DXer! Enough said. Still looking for several more DXers who are interested in the "Supremacy Rating". Who's next? 73.

Dick Nelson - 13440 Halseted Street - Northridge, California

The '64 season finds the old 1947 Hamnrulli replaced with an SP-60QFX plus a new 90's long wire, 25' high. Logged are NV-166-568, Radio Pyongyang-565, JOPJ-640, Cuba on 640, Pyongyang-565, YSS-655, Radio Girardot-600, Radio Fabulosa-685, Pyongyang again on 785, Bonaire-300 (w/tremendous signals every Min), YNOL-682, Belize-634, Radio Nuevo Mundo on 680, JOEF-920, TIAC-1025, HGE-1035, VOA-1040 Sugar Loaf, TGKA-1040 America-1165, JOJK-1170, plus 23 states. We are trying for 50 states by the end of this season. Underlined above are verified; several reports out on others. I tried for the WNO GKB2 & KISM tests Oct. 26 but heard nothing at all on the first two. A powerful local eliminated the last one. A card announcing the KIBA TEST unfortunately came in Monday noon. The Barbados carrier is heard most Mms, but too weak to obtain useful copy. Dakar-764 was heard for the first time last night at 1:35am, with wild native singing and drums, but again too little and too weak for a report. We have 55 countries on 80, though. I have a feeling that we are not obtaining maximum possible results with this new RX. Something is lacking in (1) the location - seems quite noisy, thus limiting weak signals. (2) the RX, possibly, or (3) perhaps this writer's ability to hear the weak ones. I would certainly appreciate any opinions from other SP-600 owners as to the sensitivity and selectivity of their sets. Does anyone have any comments regarding the relative performances of the SP-600 and the HQ-180? 73.

Ernest J. Weczolowski - 1415 Pasadena Avenue - Omaha, Nebraska - 69107

Guess that it's about time to muse a few lines again. DX has been picking up greatly but the variestill has not! It seems that the ratio is only about 50% return for this season. DX by dateline: 10/9- KTAT-1570, Frederick, Okla. heard on f/c-M at 2am. 10/12- PJE-560, Bonaire, Netherlands Antilles (Trans-World Radio) heard for first time on DX TEST at 2:35 asking for reports in three languages. 10/15- KABR-1420 Aberdeen, S.D. heard on r/c-M at 1:35am. 10/17- WAKX-1320 ex-WQMN, Superior, Wis. on r/c-TT at 1:55. 10/19- WFIL-550 Philadelphia, Pa. at 4:20am s/on. Report sent to KFBO-550 in San Francisco, Cal. WDIV-1410, Dover, Del. was heard just after their 4:35am s/on. 10/23- KOCH-1560 Charles City, Iowa, r/c-M at 1:55am. 10/25- DX Special heard 90% from KVEL-1250, Vernal, Utah, as I was happy to get this one since I ate lunch in the Hotel Vernal, where KVEL is located, while on my '62 vacation. 10/25- KIBA-1460-TEST, WNOO-TEST heard a half hour late. KISM-1530 TEST heard in the clear. Late varieties are from WJH-7, WAGY KNOE after my third report, WFSG ETAT and KCHA wrote on my report. Many thanks to all who have worked with this bulletin. 73.

AS THEY SAY IN PITTSTON, PA.: "WE PREDICT A TREMENDOUS SEASON." (WPTS)
Hello again. DX has been pretty good, so here's what's heard up here: 10/17 - WKER-1500 @ 8:40 w/QWE from WTOP, but around noon WKER is in the clear w/an S-4. 10/18 - WNTN-920 @ 2:30am, PFFA-1040 @ 4am and at last, WLA-1450 @ 5:22am. 10/19 - WOOD-1300 f/c @ 1:00am, and a welcome sight in CHUB-1570 @ 1:14am, in the clear. All DX was off with XR trouble, I guess. 10/24 - WBBB-530 @ 3:30am giving WX for Nebraska, an RTF relay on 1460 @ 4:41am. Can't say who because so many listed there. ENE-917, Madrid, at 5:39pm w/THAY-910 nulled out, 10/25 - KSOJ-1360 @ 11:05 f/c. A big MM 10/25: KTOE-1420 @ 1:30am s/off, CENE-1370 @ 1:35w/CBC junk, KSHL-790 @ 1:45 in solid until their s/off @ 2:13am, KSBM-600 @ 2:15am w/rr records, in strong until 2:15; KDWA-1460, @ 3:03am TEST u/CBCer, not as easy as I thought they'd be. WMGO-1370 @ 3:33am plugging the KDWA-1460 TEST. Glad they both weren't on the same time. KISN-1530 @ 4:01am, very weak u/SS. Not enough for report. Who was this guy? Reports out to KSHL KSBM KDWA WHGO WUIJ (for SSS report). Veries in from WACY-1450 v/1 & CM, v/1 from WNTN-920 (form letter) and v/q from KTXT-1510 f/c. They returned my postage, WPOP-1410 ran ET w/OC on 10/25 @ 3:15. There were IDs. WCNX-1150 had test on 10/12 w/OC & ID @ 1:35am. Anyone hear them? Also report out to CHUB-1570. Well, 75s from here and happy DXing - and don't let those CBC ANsers get you frustrated!

Stan more - Route 3 - Braintree, Massachusetts - 02135

10/23 - WTLF-1240, s/off 2am. WTXR-1330 Flint, AN special for hunters, 2:09am, good signals to 2:15, then gradual fading till out by 2:30. WLLH-1400 off AN show this AM. 10/23 - CKDA-1490, Lets. N.S. s/on 4:32am for another try at a verie - out by 4:45, w/WBCB dominant. Nice QSL from Caroline-1520, off Ramey, Isle of Man. 10/25 - WINC-1360 Laurinburg, N.C. noted RS 6:30am but out fast and not enough for a report. 10/26 - WNTN-1150 Ledighton, Pa. f/c 12:33am; QRM by WEDE, WJBO & XEDP, WPOP OC on all freq. WMCB-1530 Harrissburg f/c-2T 1:16am. Tester about equal to KXEL giving double ID which I made out as WASH-WDON 1:43 and most of AM. Radio Aeropuerto on 1506 kc/s this week. KDWA-1460 Hastings, Minn. broke through CBC AN at 3:23 for three good minutes - believe AN CBC is CKER as they do not carry the EE NX and others were taking it. Glad WMGO was late on TEST. Copied, 3:30-4am o/u CENE. KISN-1530 Shakespe Minn. on TEST at 4am had Dominican Republic also s/on 4am for QRM. D.R. on top 4am, but weakened and KISN got stronger. SS on 1510 @ 6:25 not IDed and easily separated from Radio Aeropuerto. WBAB-1440 s/on 4:30. WPPT-950 already RS @ 4:35. 10/27 - GFOR-1570 Grilla Out now AN o/w mx. No CKER-1460 this AM - all WBCB on AN show. WLLH-1400 no longer AN; s/on 5am; Verie, CENE.

Ronald E. Schatz - 8065 Crespi Boulevard - Miami Beach, Florida - 33141

Hi! Say, did you know that Miami is only 950 miles from the Pacific Ocean? Now you know, hi. And you Texasans should know that Florida teams with cattle ranches, especially Brahama bulls, and Sunoco recently struck oil near Fort Myers. How's that, peasns? DX-wise, CK have been miserable with static and power line noise, yet I've managed to log Iraq through it all. More foreign stuff you know where. Only domestic worth mentioning has been KDWA-1400 DX show - very weak. Veries in from Liebco-I and Route Carlo with five others due in soon. I hope. I've joined the Foreign Contest, and win or lose I'll have fun. So far I have seven veries from seven countries, all foreign, but this sorry state of affairs should be mended by next summer. By popular request, my Inferiority Ratings: Heard - 1,190. Foreign-555, NA-400, SA-161, Europe-76, Oceania-5, and Asia-1. Countries as of 10/29, 69. I'll never get them all verified (Cubans, deletions, etc.) but I'll try. Dave Ackelman, who's the youngner announcing for WNYX late 46's; I think that's WNYX's XR behind WNYX's, right, Ernie? (Could be, Ron - I really don't know - REC). Enjoyed dinner and DX with Ben Dangerfield and family last August. Ben has a high antenna on elevated ground which probably accounts for his excellent reception. I have a low antenna, 10 feet above sea level, but there's at salt water canal in the backyard and an even saltier ocean five blocks away, which probably accounts for the corssen on the longwire, hi. Dick Cooper, the bulletin has averaged a week late in arriving since you've had it - how about lecturing the postmaster, thanks. To those to whom I owe letters, patience is a virtue - even with me, hi. 758s and Miami in 66 (no joke). NC.
November 7, 1964

(P.E. Crocker) past Spring. I spent a very exciting week in the N.Y.C. area while on leave about a month ago. I had a very enjoyable morning talking to Bernie Duffy (thanks for the dinner, Bernie). Met Ron Schiller that evening and talked over a couple of beers. Then on over to Ernie Cooper’s for a very pleasant evening of DX talk, etc. I was staying in Ft. Lee N.J. so I had a visit from Allen Nissen. Also called Joe Fella but unable to get together — maybe next time, Joe. Also said hi to Pete Clarsus while on Staten Island. Visited Dick Russell in Boston on way back to N.C. It was good meeting all the new faces and hope to see you all again. In the meanwhile anyone living on the E.C. watch out for a Marine (with sunglasses) because I plan to visit as many members as possible during my tour of duty (four years) in the Marine Corps. I’m stationed in N.C. for two months, supposedly headed for Ft. Mead, Md. If not there by 12/15 then I’ll be headed for Cuba for six months of Guard Duty. Not much DX done while on leave. I went down the dial each night but nothing unusual noticed. DX here in N.C. is all new to me. WIAS-910 & WJNC-1240 both in Jacksonville, N.C. are the locals. However, I’ve heard 15 other local N.C. stations during the day. Nothing new noted at night but haven’t really tried yet. Am using a buddy’s transistor DX. It’s OK but I plan to buy a $12.15 transistor as soon as I get a new Allied Catalog.

First, explanation please, Mr. Nelson — question — how many kcs, is 200 C/Fs off frequency? New one on me. Second — complaint — boys, let’s have dates & times of Test & frequency of stations. No help reading a list of “the following heard” etc. Our objective is to help each other — what may seem nothing to us is what some other blonder has been waiting for. MM 10/19 — Band opened up — No hope on GHCM, bad time to DX. Besides WIND WHYH ANs at least seven stations still on ES. Poor show here. Big problem again on 540 4:05-5:05am — "Radio Galicias" heard Mexico mentioned three times — lady announcer — any ideas? Radio de Azul — Lah Peethah? What say, Sheldon & John, Texas type. By gun, looks like Buffalo has got him DXing again. Speaking of Buffalo, Ernie, you missed Uncle Fred in listing — Fred Woodley, Pres. C.D.X., the guy who put Sammy to bed 3am Labour Day AM. O who was guy who bus driver told about "Beary Shirt" in Kingston, Ont. ? Rugged. Sorry, can’t tune 1315 km/s for SS, CKG-1310 only seven miles W of here — suggest you contact Wayne. He says can’t be heard in Westport. Back to 10/19-0700 at QHM-1260 w/EFE1 QHM easy. KENN-1290 bunged in on f/c-ET 2:30-2:45. 10/20-21 WAAF-1290 s/on 4:25, w/KOIL slugging him. Station TT u/KOIL, of at 4:30, didn’t get ID. In reply to series of queries. No, Dutchman on 1560 does not go off @ 3am. I leave for work 6:10-6:15 EDT OK & WQ9X S-9. How’s DX on 1600 Ernie — loused up here too. I’m beginning to get mad at WJJK. On 10/10, don’t know who, he really loused up on me here 2am EST. Get him again. In closing, nice work Lennie — and all CP&N Members. Also group of DXers way out that in W — hotshots — Millar with his four sets, three recorders, etc. Only joshing. Ev, do I owe you a letter? If so, give me a couple of weeks. Working on well, wife’s dryer, then my longwave. Winter’s supply of wood to buck — then I got time for everything. 15.5 hours overtime at work — got to do homework on weekends.

Tom Walsh — 53 Neponset Road — Quincy, Massachusetts — 02169

Since I have been a member of the N.R.C for only about two weeks, I thought I’d say Hello to the other members. Recent loggings include WFAA-320, WKM-1440, WIFIC-1200, WJOY-1250, WMDR-1250, WJR-900, COSA-830, CJBR-900, WJH-600, WNOX-930, WS1-1360, WACE-730 WVCH-740 CKCV-1280 WUNS-1390 WEXT-1550 CHPI-1540 u/WPTR CHON-1050 u/WJWH-830. As you can see, I get the tough ones, hi! Varies from WGT WJOY CFOR WJTO FE. Actually I’ve been ECing for almost four years but never realized there was a Club like the NRC. I finally saw the light when a local fellow here joined shortly before I did and told me about it. I wish I had known four years ago. Oh well — ?? and nice to be a member. 73. (Nice to have you, Tom, and we also wish you’d been with us for the last four years! However, there’s still the future, hi — NRC) AS THEY SAY IN SAGINAW, MICH., “WSAM.” “THANKS TO ALL MEMBERS” (who report often).
Hello. I just got back from a Coast & Geodetic Survey trip to the Aleutian Islands. We cruised around Unimak Island and the Rat Islands, and then skpped over to the Near Islands. Anybody ever been around here before? DX was excellent all year except during the middle of Summer, mainly because the nights were so short. In the Aleutians the atmosperes are so strange that a station 200 miles away will sound like it's in the next room, and a station even as little as three miles away will be biasing as if it's in Japan. (Incidentally, the Japs were so clear and numerous that I got sick of listening to them). The foreign stations I have logged are 6DL-530 DZAA-404-540 USSR-546 CWA/AFGN-560 DZBB/3W-560 KUAM-630 3AR-620 UUSR-529 ZEX-560 HKMK/DDR/DZBB-650 2YO/Malaysia-660, 2OC-870 3YA,4KQ/3WT/Peking-60 2NR-700 DZBN/USSR-710 BED-29. Peking-720 SC1-730 Pakistan-750 1YA-760 4YA/Peking-880 North Korea-820/92, 6GM-830 HLMK-840 YV-850 ZED/THC-860 (what's the mess on here when we get nearer to the mainland) EFXS/2BE-870 6FR/USSR-880 HLMK-890. USSR-900 2GZ/Peking-900 2DSM-1000 (heard this when we were about 50 miles from Seattle. KOMO faded out completely for 12 minutes) Peking-1010 ZS/SSAB-1020 3DS-1030 Peking-1040 12B-1070 North Korea/DVTA-1080.

November 7, 1964
Robert Bend - Seattle 22, Washington

Hello again. I'm going to kick the habit though and even listen to stations. (p. 8)
November 7, 1984

(DX Notes)

With my luck, I've heard TAs and TPs but didn't ID because they were playing mx. (Oh well, let's not kid ourselves; I haven't heard a TP, hi.)

Now what little DX there is: 10/8- TGU-680 9:19pm EST w/ma; 10/9- CJO-1260 at 11:45pm; KEN-1370 @ 11:05. 10/11- KJF-950 @ 12:30am; KBR-1050 @ 2:45; KTN-1260 @ 2:45; 10/25- KGE-790 s/on 6:00; KAN-790 s/on 6:00; KEOI-950 @ 8:15. 10/26- CJOX-1140 = 3:25am; PJE-800 s/on 3:30, then mx in Portuguese; KZJ-1230 @ 4:05. All the above on ES. Who's on WHO on 790 at about 3:30? You know, Ernie? (WFUN-WQXI-WFAR, Greg - WFUN the most likely - KEC) Who's the SS on 640? Oh yes, about the great '73 controversy; Mike Bugaj, if '73 meant "many best regards" then the "s" would be in front of the 7, making it plural. Sorry, OM, no good, hi. Will most likely get a new RX soon, probably an SX-110 or HQ-100, both of which are pretty fair RXes. Guess I'll s/off now. s'73

Bob Pietesch - 66 Clearay Court - #1402 - San Francisco, California - 94109

Another missing from this Foggstown den. Things seem to be shaping for a great DX season. Images here have all but eliminated any daytime or SSS DX with 730-900 km, and 1410-1600 km being covered very nicely. Enough of that, latest recordings are: 10/12- KQX-1360 5:34am, ETing (also heard ETing on 10/25); CHM-900 4:59am; KNAK-1260 5:22am u/KIT; KTW-920 5:13am on top briefly among the shop; Radio Pyongyang=655 Ssm very clear and generally heard; KTEK-1250 6:18am; KAN-1360 7:10am, 10/19- WDR-1140, 6:44am w/c/v mx u/FF speaker, presumably CJGC. 10/22- CBR-1010 lam in like a ton of bricks. 10/25- KXUK-850 5:26am. 10/26- No luck on any of the TESTs, received KIWA TEST info too late; CBC mx heard on 1070 so CBA but quickly drowned out by KNX test, darn it. As for various lately PJE-800 v/q folder, KMO-1380 KEED-1050 f/up, CBA-740 v/q, KSHN-1290 w/ball point pen, KER-1260, KWIN-580 f/up, CHM-900 v/q, CFAE-1260 v/q and CJE-600. Totals now 474/238 so my goal of 500/250 will be easily reached by the end of the year. '73

Wayne Plunkett - 124 John Street - West, Ontario

"Extremist in defense of c/w mx is no vice", so say billboards of Bill Stone's favourite station, CFGM-1310. Sked is real tight these days, hence no reports since starting to listen a bit again in recent weeks. Many thanks for the fine time given by those WHOers I managed to visit on my holidays - Ernie Cooper, Ron Schiller, Ben Dangerfield, and Hank Holtbrook. Glad to receive info on KDNA-1460 TEST thanks to efforts of Dick Cooper & Len Kruse. From the few reports I've sent since 10/1, a few veries have staggled back from KTFI-1270 WKNM-1370, giant postcard from WIRD-920, colourful letterhead from WZZM-1590 for late fadeout of skywave, & WJTN-1240. Some DX: 9/9- WAPE-1290 = 1:30am mentioned using 50,000w, XR. 9/12- Pa. good at SSS - WGB-1350 on top 6pm; WACF-1360 fighting CSIC; WMGE-1310 equal to local CGB @ 6:10, Mex 9/14- WHUS-1390 for first time on new calls & format; KSU-1370 almost equal to WSPD @ 1am; who has TT on 900 @ 1:35? CHML too much here; KWI-1380 noted at 2am s/off, leaving CBC Maritime Network station on 1480 - is it now unanimous this is CB7? Took log on KTFI-1270 2:01-3:07 s/off w/ Lord's Prayer; who had TT on 940 u/CMB @ 3:15? 9/19- WSHN-580 s/off 8:59 well o/CIB; KAAY-1090 had glorious ID as "The #1 hog-caller in Arkansas". Mex 9/21- KIKL-1440 powerful @ 1:25s Lord's Prayer. With WGB off, KFIR-550 on top; KGHL-790 in fairly solid at 1:10; CKGY-930 AN Mex. 9/22- WHX-1470 s/off 4:32; good log on WBCG-2350 5:49-5:55am w/only QRM from WFRG. 9/24- Took log on WKNM-1370 for few minutes after 4:30am s/on. 9/27- WISU-1590 o.WAKR at times after 1am; another TT on 900 u/CMB noted 1:10, unless this is a form of local QRM. Mex 9/28- Finally definite IDEI KEOD-1510 between 1:55-2 mixed with CES NQ from KGA; EMOR off @ 2am w/no anthem. A real weirdie, on 940 between 2:15-2:18, man running down the alphabet - last bit heard was "x-x-ray, y-young, z-Zebra." What was this all about? Ideas, anyone? 9/28SSS - Well above average w/ following notable: short log on new catch WWR-1567 6:57-7pm s/off; KVSA-1220 mixed w/ 3-4 others @ 7:01; LLAD-1270 dominating @ 7:05, KLF-1190 overpowering WONO until former's pattern change, unusual; one of those evenings when WUS-1560 was very strong; WOC-910 on top 7:35; Bonaire logged with ET after 10pm. 9/29- WGBY/CXPT-1420 5:35am. 9/30- Noted CKX-590 off around 12:45 but poor AM & nothing noted. 10/4- Surprised to find KGB on-570 dominating WKB at 12 s/off in ES & bit of FF. CBJ-910 with Ottawa WX @ 12:06, not heard often here; new log from WIR-920 6:50 s/on SM, studios in the Olympic Arena at Lake Placid. '73.

Rev. John E. Sexton - Box 64 - Lucan, Ontario

Hello again, Here again DXing is good with 10/20- WQTW-1750 REI on 840 apparently the strong SS w/ WHAS from 12-1am EDT. WEZE-1260 v/WX lam. 10/23- WAMS-1390 @ 6am s/on. WGBO-1600 6am & WEZU-1600 = 6:04 s/on, EDT. On 10/25 EST returns - I am happy, (P.S.)
November 7, 1964

(John Sexton) too, with WPSR-1270 12am EST, KGPC-1340 Radio #1 in Grafton, with TT @ 12:10am. 10/26- Some TT on 1150 from 12:30-12:40am - thought they said WYCF - but I don't see any! (This was WWY, John, according to Stan Morse's logging -ERC) WMRG-940 12:50am o/CEQ w/ET. GMAL-920 1:15am, WWEB-1360 2:07 w/TT, WITH-1360 on AN at 2:15am. The NRC TESTS in strong on KDKA-1460 with XN test 3:30am, WNGO-1370 3:30 & KISI-1530 @ 4am. Heard also KXRA-1490 @ 2:30am, KERK-1380 Everett, Wash. very good signal u/Mexican on same frequency @ 3:15am. WYON-1500 3:27am, WAGN-1340 3:25am a very good signal, on r/c. Please, do you know Ernie what the SS station on 152-1530 kc/s was on before KISI's TEST? It seemed to be an AN - any ideas? (See Stan M's & my report, last issue, John -ERC) What would you say, Ernie, 10/28- WWDO-1260 11:59pm. Veris in for the CDXG award, V by QSL & letter- CEQ CHK CFAM. v/q- EFRE CBA WLBR CRMZ CJBC CEQ CKPC. v1- CDX CKOT CJBR CJSF CKDQ CJSS. I am QSLing Canada and want to get the most attractive QSL cards and station "goodies" such as Bump stickers, ball point pens and other "niceties" as a new collection for me rather than 80's. Please any DXers who know stations who send either (1) attractive QSLs as "Radio Americas" (for example) & (2) Extras just mentioned, please let me know either by letter or by DX NEWS. Rather than saying 73s I'll say 10-4. Over & out till next week.

Ben Danzerfield - 202 Governor's Drive - Chester, Pennsylvania - 19013

Another interesting week in the foreign field, plus some of the domestic DXes this past M. Some hot TA reception the evening of 10/25, and one on 152 kc/s was IDed as an East German while signing on @ 10pm. On MM 10/26, KDAW-1460 was spotted a few times behind the AN CBC station between 3-3:30am. While looking for WNGO-1370, the new Newfoundland relay, CNE, was clearly logged carrying the CBC AN program. Then, WNGO came in very easily after 3:30. Also heard was KONO-1000, apparently testing, @ 3:41am. On 10/25, a clue of good DX was the way the local daytimers were being buried at 5pm, some of them only 15-20 miles from here. For example, WBT o/WVIB-1110; CJBC o/WTEL-360; and CEB o/WXUR-590. All locals. That evening, some East Italy outlets, namely 556 556 & 1231 were maxed out late w/what sounded like an opera, and Zagreb-1133 was heard all evening like a near local. Many many Europeans were heard on 10/29, mostly from Central Europe, and three new loggings for me were Iwov-935, Lyon-602, and Andorra-998. Ilov in at 10pm, Lyon at midnight, and Andorra at midnight. 10/30, CX still very good. Radio Ekiram-556 had best signal ever at 6:35pm s/off. Many German AN stations, both East & West. Radio Kossuth-539 was heard at 6:55pm. On 10/31, some TAs were in before 4pm, and from 4:30 to after 5pm. I taped Sofia-627 completely in the clear. Two or three stations on almost every TA frequency, and before the evening was out I had counted over 100 TAs. Someone behind Nancy-836 at 5pm sounded like Lebanon. Heard at 7:30pm on 955 kc/s. was the East German "Deutscher Soldatensender". Baghdad-764 was the best of several definite and possible Near East stations, including one on 785 kc/s at 10:30. So lots of activity, and we hope more this evening. Only one verie, but a new country - Radio Des Valles d'Andorre-315 kc/s., card.

Alan Merriman - 7504 Montrose Street - Alexandria, Virginia - 22312

Well, it's about time for another report. CX have been good this past week, so here's DX: 10/29/4 Report to KNOE-540 heard o/WDAK. 10/25- WTTT-1310 Madisonville, Ky. 1am. CKW-1220 Lincott, N.C. @ 1:45-2:05 s/off, apparently on to 2am SMS. Also report to WHEC on late with EB game. 10/26- Mich. AM w/three new ones: WOOD-1300 Grand Rapids, 1:105 w/f/c, ID in CW. WYON-1300 Battle Creek @ 1:45 w/ET. WLS-1300 Lansing, 2:05am. Also reported WHEC & KSUP. 10/29- WHLI-1100 Hempstead NY @ 4:30pm. 10/28- WTVX-1290 Wilmington, Del @ 11:45am. Real good SSS skip this evening. KOAM-860 Pittsburg, Kan @ 6:30. KHJ-1580 Colorado Springs @ 7:05 w/a real good signal, s/off 7:15. Also on 1580 some station played a commercial for the Hastings Shoe Store seven times between 5:45-7pm. No ID, no other programming! Anyone have any idea who? 10/29- Excellent AM for TAs but very heavy static made logging impossible. 10/30- WESR-1330 Talladega, Va. logged 1:10-1:35pm. 14 commercials heard during this period - guess they have to pay for that new 5kw. XB. Verie starting to come back. v/q- KPRC KYOO PBS and a giant QSL from WOOD. v1- KXLF WGOG Trinidad BCB-1457 KNOE WHEC WHDL & WTVX. Many reports still out, a total of 50 since 9/9. I think I am going to get a new HQ-130. The old HQ-120-X I have has done an excellent job, but after reading what some of the other guys have been logging with the 180, I think I'll give it a try. Guess I'll say 73 for this time. Good DX to everyone.

YOU LADS ARE DOING A TREMENDOUS JOB OF SUPPLYING YOUR EDITORS WITH PILES OF EXCELLENT REPORTS & INFORMATION. PLEASE KEEP IT UP ALL SEASON & MAKE THIS THE BEST NRC YEAR YET!
Mike Talbrook - 201 Horacium Drive - Pittsburgh, Pennsylvania - 15234

Hi guys. Plenty of good DX in the past few weeks. Recent veries are: v/1- WJTN-930 WSHN-1550 VSIG-790 KOLS-1570 WOTW-1560 KFMM-900 WHAR-1560 WAVE-1590 KDMX-1300 WAWA-1590 WSAQ-950 & WPQG on bottom of my report. v/o- WJRC-1510. Reports out to WCCT WZKX WLLY WTHB CHM Radio Trinidad WPRA WJWA WJDN WUSI KSHF WMGO WJIL WOKX RIUP WHIS WHID VDXR. DX of late: 10/18- WOKX-1370 5:27 pm. WLLW-1260 5:58 pm s/off. WNRG-940 5:22 s/off. 10/19- WEXT-990 5:32 pm. WTTN-1560 6:29 pm. KCHA-1560 6:14 s/off. 10/20- WHMW-990 5:14 pm. WAWA-1560 6:14 pm. WCLE-1570 5:30 pm. 10/21- WOKX-1070 Sunbury, Pa. at 5:11, think it was first day of operation. WNAJ-1530 5:54 pm. WAFM-1590 6:27 pm s/off w/Dixie. 10/24- WXGI-950 to 9:30 s/off. WTRB-1570 5:33 s/off w/SSB. 10/25- WTTT-1510 on AM. 10/26- First, I got KDVA TEST @ 5:05 ID. Got WOKX-1370 at 3:32 s/on for test a half hour later. Pretty sure I had KZEX TD just before KZM came on at 4:20 pm. Later in day, WOKX-1570 5:29 pm. KQXZ-1650 s/off at 6:45. 10/27- WCOJ r/o w/ID @ 12:15 am. WTM-1290 r/o w/ID @ 12:27. KIOA-940 1:15 am. WAWA-1000 5:45. WKEF-730 6:20 pm. 10/28- Think I had WLBZ s/off at 12:36 am w/SSB. WELI-960 11:30 pm. WHP-850 11:43. WELQ-580 11:49 pm. 11/1- KJLO f/c 1:03-1:30 pm. KFLO 1:54. TT on 1440 AM after 1:45. I think it was WPRS as it is in the f/o list. Does KTCK have c/w about 3am? If not, what does? (WISZ does -ERC) WERD-1490 AN. Hi out there to SCs Kerrill, Diller, Greene, Bens, Bugaj, Edmonds, Peterson, Egset, Bond, and Papenhue the cast two owing letters, and Wininger. Thanks a lot Ralphie for the DX news. You should have the money by now. Let's have a big cheer for the CPC en who have been getting up some fine Specials. That's it from here-KNNV.

Ralph M. Johanns - 11 East Chippewa Street - Buffalo, New York - 14203

V1 CHJN-1050 (19 years ago I phoned 'em on their first day), they're giving the engineering department my report. Hope they'll send requested info, v/1-WMJH-920 and thanks, (no info, my claire was for 1944). v/q by GE, WYR, Kayser, W.Va. and secondary office and studio in Fort Cumberland Hotel, Cumberland, Md. v/1, CN, WJAX-1240, Route 66 & East Cook St., Springfield, Ill. CE says 10/13 was an audio test with 1kw. r/c 4th Tuesday (oth AN/FM) 11:15-1:15 CST. V/1, v/q WM & history, CBSSB60, Box 3000 by Peter McDonaldway, Info Service. CBM changed from 1240kc/s. 100w. to 850, 10kw. only N directional, mostly E in order to protect CJBC, remote controlled XR, smiles from Halifax studios, 24 hours with only Thursday 3:00-5:30 AST for maintenance (my 1945 v/q was 100w., 1240 kc/s.) and so is Dick Cooper's, mil After Election, I'm going to get a few more veries, even if Goldwater or Johnson.zage a tie-up and Canada gets a newer flag and takes all CBC AM off the air. Yessir, how did you like the one on 1460 with KDVA TEST? Set it was CKMB-Beauce, as they're on CEE CF network. KISM TEST was nice and WEGO TEST came half hour later. Got an old WKER-1240 and so didn't bother to tell WYTR-1350 to go to bed. On 10/17, Radio Americas-1165 has 4:55-5am EM/SS half-minute IDS and then 5am s/on, EE & the SS only, said to write to Box 3052, Miami, Fla. 10/29- WHEI-1490 Port Huron, Mich. s/on SSB @ 5am. 10/30- WGO Friday off 810 and KGO topping KCMO, then OK SSB @ 4:30 and WJEN San Juan, P.R. till 4:45:30. No SSB and WGY s/on. 10/31- CKAS-730 had odd tt 5:45-6:35 and s/on FF (no anthem) @ 5:55. At 6:30 75kw WPI-55kw s/on and a faint other W noted at 6:13:30, then 620-5:03 WDO, Onoata, N.Y. s/on and the CEL slopover then took it @ 5:32 pm. My 10/21 TTT on 1220 must have KOUR (no reply to airmail report yet) as a reply card answer from KJAN Atlanta, la. by Dick Groby, CE says he had his 10/24, 5:45-5:55 CST ml nest is same on 11/2, fourth Saturday. Come, you others - with good elections might slow males and so get this out earlier.

Don Egset - 1925 East Bowman Street - South Bend, Indiana - 46613

Hi y'all. Once again, not too much DXing activity to report from here, due to the lack of time. DX since last report is: 10/25- WJDA-1460 on TEST 3:28 w/5-4 signals. Didn't feel like sending report. KISM-1530 also test @ 4:02 s/on w/KKLX slopover and was soon lost. 10/28- CJWQ-730 5:20 pm. 10/30- WPQG-500 11:05 W/rr. No veries since last report. Some Scs I have for trade are KVAT KYOH WDCG and WBST-TV. Local WJNA-1560 has started printing a "Top 20" SC again, after a three-year lapse. I'm going downtown and raid some of the places this afternoon and pick up a few ml. I still have lots of the old ones handy. Bill Bens, are you alive? I finally got my recorder fixed. Rich G., 73, and 60 Notre Dame.

Beverly Duffy - 77 Livermore Avenue - Staten Island, New York - 10302

11/2, I logged the KTTT and KMBH TESTs with fair signals. No new veries.

AS THEY SAY IN SMITHFIELD, N.C., "WMPM. "WEEKLY MUSINGS PLEASE MEMBERS."
November 7, 1964

Jerry Peterson - 35 Danville Drive - Stamford, Connecticut - 06905

Hi again! More new DX as I am always roaming over the dial at SSS, and SM & MMs. Here's what I've heard: WGUS-1380, s/on @ 4:46pm EST on 10/28 (I was trying for KFBO, and as soon as WENX went off, WGUS came on). KOIL-1290 (Not the first time heard, but this time I sent KOIL a 200 second report). There were at least two other stations u/KOIL, so one might have been WBNL, one I really want. I hope I can get an ID out of 'em this time! In addition I heard WZIC-790 WBO-970 and WCN-1480 at SSS on 11/2, and I logged WFTC-860 and WBEY-1360 at SSS on 10/29. WZIC-790 was heard at SSS on 10/30 with a news closing that made them sound like a rr station. This morning, Sunday 11/1, I got up @ 5:13am and heard WBNL-1460 with rr and WREX-1460 s/on. New ories here have been from KXLW-1370 (within one week!) & WIFE-1310. I now have 31 states verified on CB. I do very little DXing on FM, TV, and I despise SW. Danny Seaver - I saw Chris Lucas on 10/31 and he says he's not printing any more WMAs. Jerry Bond - Herb Papenfuss - John Daller - WRITE! Get the picture guys? I would like all members with "good guy" stations in their area to send me a card or letter listing those stations with good guy formats in their area and any others they've ever heard. I'm compiling a list of all known good guy stations. Thanks! WYH-560 seems a little louder here. Maybe they're finally on row. Notice any difference, Mike? Any SCers who don't write to me, write now! SC total - 209. 75 57 79 93 & 136 to everybody - Did you know that Mike Bugaj is no longer a WREX hater?

Chris Lucas - 89 Round Hill Road - Fairfield, Connecticut - 06431

Hi everyone! Well, the old log doesn't have too much to show for the past week, but I did log Kans for state #41. Still, only 39 states verified, with West Virginia playing hard-to-get. I have reported to WYVA WOAY WHI WCAW WGBK and none has replied. Report going out this afternoon to WKBK-1:00. Only other W's logged have been WVVA WHHY WWOW & WCHS, none of which would I say is a very good catch. In contrast, New York State has verified 100%, with ories from WBC-540 WGR-550 WHGA-570 WOR-590 WBC-560 WENG-1600 WATL-640 and WPSR-1380, making 8/6. Only one vere this week, WAWA-1590, which mentioned they are directional 440 which is practically right at me. Vere returns have been very discouraging lately, with ories overdue from CJOC WLSM WIXX WGBK WTOR WYRE plus numerous others which I have given up on. Loggings during the past week: 10/27- WGBR-1590 @ 4:46pm. 10/30- WIMA-1150 @ 6:15pm. 10/31- WBAT-1410 @ 4:19pm. WJFE-1250 @ 4:15pm for N.Y. #30 and station #33 for the month of October. 11/1- WKKK-1410 @ 2:25pm for W.Va. #10. MM 11/2 brought five new loggings: KTTT-1510 @ 3:05pm on clear channel for N.C. #4. They were quite weak, being bothered by static, and their IDs were very short. KENI-1530 @ 3:31am on other TT or hot from 1528. KENI was stronger than KTTT and more readable, with good long ID's every three minutes. KENI played rr, and KTTT played vocals from "West Side Story." Other loggings 11/2 were WPEM-950 in very good @ 4:23am, for N.C. #22, WGUS-1390 in better at 4:36am for S.C. #11, and finally KGCI-1390 @ 4:36am for Iowa #6. Total loggings now 713. Target states for me now are North Dakota and Montana. I'll probably stay up next MM 11/9 to try to catch WDCJ and WAGM. ?? 11/16 also looks tremendous as I need WHDD KABH WONS and WKE. Best of DX to everyone, and 73s.

Jim Smidley - Route 1 - Box 70-C - Sykesville, Maryland - 21784

Hi everyone! Since rejoining the MNC after two years' absence I've logged the following: 10/3- WMBK-1230, WQIK-1230, WBO-1440, WKEY-1340. 10/4- WYSH-1250, WISK-1390 ET, KXLW-1320 f/c; WNUS-1390, KVJ-1360, KXYZ-1320. 10/14- WEAU-960, WGS-970, WJHE-960. 10/16- WRC-210, WCLL-1590, CJCA-930. 10/18- WBSM-1420, KJLG-1370 r/c 1:06 EST. 10/20- WORC-1310, WTAS-560. 10/25- WJJS-1390, WNMB-1590, CFRA-560. 10/26- WBOC-1320, EEN-990, WJHC-1370 WEST, WYMO-1450, WONO-1260 s/on 4:30am, WGW-1430 s/on 5am, WYAM-1410 s/on 5am, WSON-510, WEOC-1310. 10/27- WENN-1320, WDM-1320, these two just after 5:00am. 10/28- WJBE-1300 s/on 5am. Vereys received: WEIB KWWY WMT WSHF KAGL KGFO WWLL WBBZ KXYZ. Verey total now 223, loggings 764. I haven't gotten the Hallicrafters S-38C working yet so I am DXing on the hi-fi. On 9/28, I received a 1380 test at 1:20am EST which sounded like KOAK. No info on this - maybe KWJ? I'm not too active as far as S's go, but I would like to get started. I have some old WCAO's and WZJ-TV sheets here. Like I said, they're old with markings on them but these stations have not had a sheet in about three years. Well, that's all till next week. (Welcome back Jim, and we hope you'll be in these pages very often! - ERC) WE WOULD LIKE TORN TO ONE OR TWO OF YOU WHO ARE NOT DOING IT TO DOUBLE SPACE YOUR REPORTS - SKIP A LINE BETWEEN LINES: YOU MAY USE BOTH SIDES OF THE PAPER. THANK YOU!
Greetings from the Land of DX and Veris. New milestones have been reached. I finally hit over 400 Veris, 404 to be exact. DX as follows: 10/26 - KDNA-1460, KISI-1350, both DX Specials, WYXZ-1270, KFAX-1540. v/q from WACQ KSWD WQXR KTHI WKEO KYES WDOE. v/q from: WTMM WVEC KCID WFTT. Totals now stand at 584/404. I hope to have 500 logged by end of '54. Could have heard many more stations now, but my sister put an end to that. How, you say? She was using a heating pad which uses alternating current, therefore giving off an intermittent buzz. Buzz lasts about 1-3 seconds, then goes away for some period of time, then returns. Especially loud below 900 ml/s. WX here has been rain. Rained last Wed. & Thu. (10/22-29) was cloudy the next two days and showers today 11/1, and tomorrow. A little unusual to see so much rain considering our last storm, or rather the last rain was in mid-June. Total rain has been about 1.5" for all three days. DX seems to perk up somewhat when it rains. Gabfest at Bill Wilson's was poorly attended. Besides Bill and I, Doug Nash from San Leandro, Tom Colthurst from San Francisco, John Arthur from San Jose and Gene Allen from Vallejo. Gene must have felt kind of out of place. All there but Gene were teenagers and rr fans. Will be a gabfest at my place, Sunday 12/6/64 from about 2-6pm. I'm busy until about that time, so we can't get started before 2pm. Please let me know if you want to come, and I'll send the directions to my pad. Don't forget the KAY TEST SPECIAL on 1/6. Yes, Jerry Peterson, "Baby Love" by the Supremes is a joes sound. It's #1 here, but the new record by the Nubes is even better. For those who need a TP, here's a few tips. 4QN-630 Townsville, Australia, is at 4am EST with 15 minutes ABC NCAeast. JOKD-1370 Kitami, Japan, w/good signal around 3-5am EST. Peaking relay 1040-840-720, all w/fair signals around 3-5am EST. Best N.Z. is YA-780 in at about 3-5am EST. I hope this helps someone. Ernie, I called Pete about the SS on 840, and he said it might possibly be the one in Columbia, S.A. Does that help any? Also, KFDG-1600 is moving into new studios this weekend 11/1, located W of North Beach and near the end of Van Ness Ave. in San Francisco. Until next week, 73 & good DX. (Thanks for the info, Rich! -EC)

Wayne Plunkett - 124 John Street - Weston, Ontario

Men, these last few bulletins have been mudding! IDXD Section going great guns! Just a little envious with my puny little radio, hi. Leo Fox, need any help up there in Elsie? The lineup of TESTs & DXes is quite impressive- as for me, practically all the Canadians never heard, & since haven't heard new Nebraska in what seems like years I'm hoping for KHQ-1060. Lately, I've heard depressing news that CJYR-1500 ex-CHIO is AN (except MM I believe). Since their power increase a while back, they really perk a signal in here except around SSS. DX since last report: MM 10/5- ZSW-1255 powerful after 12; WAMER-1460 reported on special flood alert, 2:13-2:31, no answer yet, WYON-1450 really blasts in here MM; WGBK-1490 AN MM; KLCO-910 very strong @ 4:29pm s/off. 10/5- KSDKN-930 noted o/WAPY-780 @ 12:05. 10/18- WTVZ-1590 AN at least on weekends & battling WAKR; took log on WZUM-1590 on late fadeout of skywave 8:45-8:55am; WMCK-1360 & WYMD-1580 also coming in well. New catch in WGWV-1240 logged 4:45-4:51pm o/WJTN; WGIT-1270 w/WXZ @ 5:55. 10/11- FJEL-1240 @ 6am; WZBK-1250 s/on 6:01, SS dominating 990 @ 6:05, XET? KRS-1400 & KSL-1510 had good signals almost till 6:50. WNLC-1510 @ 6:50, WSER-950 was a new one at 6:35 mixed w/WXVA/CBE; WBUZ-1570 nice signal w/no CFI. MM 10/12- Who s/off SSB on 1350 @ 1:03? WHAG-1410 ID @ 5:33am, CEL noted off w/XR trouble 5:53-6:19 when all of sudden came blasting back on - nearly deafened me. When they were off, never bugged from 730-750 w/some results & some mysteries: Before 6am had o/w WX on both 730 & 750, anybody know if they have been CJYR & KFMG or who? At 6a, logged s/on of needed WSN-740 until lost about 6:06. At 6:01 u/WGSA, I thought another one mentioning Leesburg (?) Be. Co. but can't trace this one. Also, who made "Take-U" show on 730 6:05-6:15 mixed w/CKAC, maybe a Canadian? WYKV-740 s/on 5:15, only second time heard. At 5:30, WEDO-970 almost equal to WEBB; took log on WJTN-HUGO 4:45-4:50pm, CECG-1150 image on 1200 - what gives? 10/13- WREO-980 on top @ 4:40am, WYFJO-1560 s/on 5am. 10/14- CEL off around 4am but just weak SS on 740; WP6G-1580 s/on 6:15. 10/17- VRO-1230 6:50am, WFTY-1470 battling CHOW 6:50pm. CIFY-560 strong 6:15, GWME-1010 has been on top of WOW at times even evenings lately. MM 10/19- Larry a sign of CHCM, imagine their might pattern is N or NE. WHUL-1440 ET after 2am, easy & new; KDKR-1460 s/off 2:11, CBC crap on 860, guess CEL who surprisingly have never been IDed here. WHUL-1600 o/CJRN 6:20am, SS-580 battered by CKYV slop, 11pm. WDCF-910 11:13 s/off SSB. 10/20- KARK-920 6:35-6:40am, KKG-1580 o/WXMR 8:20, KMLE-1070.
Hi. I don't have too much to say this since this issue is out on my birthday, I guess I better stick something in. Great news here, I'm getting an HR-80 for Christmas. Thank goodness! After all that time, I'm finally getting rid of that S-120. As for DX there ain't much of any. One station to be exact. I'm actually not sure if it is what I hope it is so I've logged it temporarily. It's KVDSI-550 in Wailuku, Hawaii. A report is out. On the SC scene, I still have some WTPMs and should get several WTBs & WAIs. I guess that about does it. That's all, y'all! 73, etc.

Bennie Werner - 2260 Briarcliff Road N.E. - Atlanta, Georgia - 30329

Hi, gang. Well, it really appears as if the DX season is here, and with it a chance to log some "long haul" stations. Before I go any further, I'd like to offer a rousing round of applause for Big George on his birthday. Thought I'd forget, didn't you, Big G? I'm pretty sure I've logged my first TA of the season in the form of RTF-536 Nancy, but heavy QC from CMA prevented a positive ID. A tentative report has been sent.

Recent loggings: WGR WATTS WYJN WPMJ WPRQ WPTQ KDEL KLIF WCAC KOGC KOKA WFMJ KFVS WAVZ KBIS KPMO KOLS KFBI WENH WKBK WFTV KGBB KFJS RTF-836 WACO KOUR (on a test on 10/30, 1:23-1:13am) KNBR WLOF CHUM CHUB CKLM CHRC CEKX WXTQ. V/Q - WESC KPGO WENH WKBK KPMO & WGR. V1 - CHRC KFJS KOMS KOSA WEDG. V/F - WHQA w/a special NPR QSK form.

What happened to XRRI? I never hear them any more. What a tough break. I'll really miss their tombstone and other gross commercials. Has CFOR increased their power since joining the CBC Network? They really QRM 1570 here. I have only six other stations on that frequency logged, hi! It doesn't take a brain to figure out that DX are improving. I can now get KFI u/CMHQ! Belise is coming in pretty good now, but at times, slop from CMA ruins it. They were noted tonight 10/31 w/Lifebuoy ack. Pretty soon I'm going to put up a new antenna. What I have now is just a big lead-in, hi, 73, all.

Ron B. Schiller - Box 450 - Moomart Beach, New Jersey - 07750

Veris total 1,451 with the addition of Radio Caroline-1520, BBC-692 Daventry, WIZS, WINT WILF KADL (who says Wayne Plakhted heard 'em same time I did, SSS 9/28) & WTRG (from Feb. f/up, nice v/f & CNM.) Battled 1,000 on the DXes for 10/26, with KIPA WICO & KISM all in pretty well, though I didn't ID the SSQMers with the latter, I suspect a Dominican and possibly Utuado's WUPR with him. GBNE-1370 also in well. No activity till 10/31 when the band was really alive and a few goodies were bagged. Tested phone calls with Ben D. and the "hot line" paid off, as thanks to Ben, I logged Lebanon-836 battling RTF-Nancy from 4:45-5:29pm s/off with fairly good signals. That was on 11/1, but to backtrack to Halloween, copied Dresden-1043 with magnificent signals 5:31-6pm. Atlone, Wirc-656 taking a terrific pounding from sloppy WMAQ to their 6355 s/off. Then finally railed Mooseride Edge, BBC-692 to 6:47 s/off. Then a surprise in Polskie Radio, wide-open on 1205 with Dixieland & such, and parallel to 1304, both with beautiful 8-9 signals from 7:07-7:30. Bordeaux-1205 already off. I could hear a huge hot on 1502 but too much WTOP to separate. Tonight, 11/1, in addition to Lebanon, I heard Kosuth-659 and Petofi-1137, Hungary at 5:30pm but didn't get enough log. Forte-1061 covering WSPC and TAs on mostly every frequency.

Ernest R. Cooper - 409 East 21 Street - Brooklyn, New York - 11236

I enjoyed long-distance calls from Tom Kelly (railwayee), Roger Winsor (Berwyn) & Joe Fena (Newark), all on 11/2 - thanks, boys! One veris, v/f from HBR-1010. Some more DX here, but I don't get the chance for that wondrous SSS DXing time like Ron, above. 10/29 - I noted at 6pm EXEL-1540 on top of WPTO, so I tried 540 for KVMT, and until 6:15, it was all WDAK. Then came their pattern change, and CBT in to 5:21 when KWMT faded in and stayed on top to their 6:30. Only s/off for a report. 10/31 - A long-sought one in (Hi, Ray, Ralphie & David!) in WYSL-1400 AN, on top 1:55-2:09 when they faded into the millenium (ness, that is). 11/1-8M - One new one in WRE-1590, AN s/mux, but difficult due to the sloppest of all signals anywhere, that of WWL which even splatters to 1580 - good they're on the end of the dial so they ruin only in one direction. 11/2-9M - Um WINU-1510 ET/M @ 2:35. Unk on 1528 kc/s, with orchestral versions of Verdi operas (Aida & Il Trovatore). Joe Fela said he heard new WENG-1530, Englewood, Fla, this AM w/1511m - could this have been them, off frequency? EMT-1610 and KNBI-1530 TESTS in about S-4 each, welcome new ones, and thanks to Len Kruse's efforts, I have added five new ones in two consecutive WMBs - nice work, Len! 1460 clear this AM. CBN-1370 AN-CBC reported, in the clear. ET-rr on 1800 after WENX! s/off @ 4am, unld. Wonderful job, ladz! We've never had better DX NEWSes than this season! Don't forget, all are invited Sat. 11/28, 12 6pm at H. Buckner's, 635 E.81 St., Brooklyn. I'm host!
This station is planning a TEST broadcast from 3:30 to 4:00 a.m., EST (2:30-3:00 CST) on 11/16, on what is believed will be a clear channel. Their frequency check is on a morning when WABX and WILAC hold forth, so not many DXers have had the chance to log this fine less-than-a-year old Texan. They'll be playing music and making announcements of station IDs, and telling about their testing program, and they would like very much to receive a lot of reports from far and wide. Send your reception reports to Mr. Ken Jones, Chief Engineer and General Manager, whom we thank for informing us of KABH's special TEST period. Information received from LEN KHOUSE.

W O N S

Here is another station coming on the air this same morning, 11/16, with an equipment test, and again, a clear channel is envisioned, giving everybody near and far a grand chance to hear the station as it tests. In December of 1963, this station, formerly WREB, became WONS, "Wonderful Sound Radio." They have 5,000 watts, and should reach out very well at this test hour. We thank their Chief Engineer, Mr. Clifford D. Leitch, for notifying NNC of the upcoming test period of WONS, and he is anxious to hear from everyone who is able to hear his station. Mr. Leitch says their halfwave tower gives them a fine ground wave, but a rather poor sky wave, so let's see. LEN KHOUSE

W K T E

This station is just about one year old, as it was last November when they began regular broadcasting. This too looks to be a clear frequency as WKTE makes an equipment checkover, so again, everyone ought to have a good crack at logging WKTE, a station which would very much like to learn how its test gets out. There will be some periods when cycle tone will be used, and there will be some modulation using recorded music as well during this half hour of their test. Our thanks go to Mr. Grant Smith, Chief Engineer of WKTE, for letting us know of his station's intention to run this test, and let's make sure Mr. Smith gets a lot of reports from all around. Info from LEN KHOUSE.

OTHER DXs and TESTS for 11/16:

WMDD-1460 for WNRC - we don't have the signer.

CJCP-1270. This program is for the magazine, "Popular Electronics" and the WNRC. A special QSL card is available ONLY by sending your reports to Popular Electronics, 1 Park Avenue, New York N.Y., 10016. Also on CJCP-5000 kw/s. in the 49 meter band, and CJCE-FM, 94.9 mg/s. Don James of ANARC says this address will not be given out over the air, so keep this handy.

CHANGES IN STATION DATA - E.C.C.

800 Rockville, Connecticut  1,000 D-1
1360 Lenoir City, Tennessee  1,000 D-1  1510 Amvile/Cleona, Penna.  1,000 D-3

NEW CALLS

680 C J C H Grand Falls, Newfoundland  1360 K I T H Clinton, Missouri

CALL CHANGES

680 C J C H Change location to read "Grand Falls, Newfoundland."  10,000 U-4.
860 W L A D Danbury, Connecticut, to 1,000 D-1, from 250 U-1, and move XR, same ch.
900 C K D H Amherst, Nova Scotia, to 1,000 U-4, from 1,000 kw/s., 250 U-1.
1060 C P C H Calgary, Alberta, to 50,000/25,000 U-4 from 10,000 U-2, same channel.
1270 W C R Elkton, Indiana, # 5,000 D-1. Move XR & change pattern.
1410 K F R Bakersfield, California, 1,000 U-1. Move XR SW.

WICH MEDIA, on EASL: When they go to 5 kw. around 1/1 their XR will be in Oakland at Bay Bridge, three towers, directional W & N. They now have two XMs, main one in S.F. and AXR is where their new one will go. CE maintains main XR on MMs now & merely switches to the AXR, continuing their NSP sked. KDIA-1310 will not get their sked on the air until next year, but they both are building their new higher powered XMs.

Thats everything on hand for this week, Ralphie, your reports are coming in
on tuesdays, only one mail here and it leaves PO in morning, keep on coming as
we may have to advance deadline 24 hours when bad wx arrives, still like summer
here and DX likewise. Goofed somewhere and missed KTEMP DX. W6KX have off
early as 1510 dead before KENI came on 1520, latter good here but bothered a bit
by other WW5A and missed KEMP DX. Must have gone off
early as 1510 dead before KENI came on 1520, latter good here but bothered a bit
by W5E and W6KX DX. Must have gone off
early as 1510 dead before KENI came on 1520, latter good here but bothered a bit
by W5E and W6KX DX. Must have gone off

RALPH JOHANNS reports WSLS-610-Roanoke, Virginia is now all-night. Ralph says he
heard them announce as such 11/2. If I read your abbreviations right Ralphie, you
also say WIP drops volume Tuesday mornings, but continue to tone test? KSJB you
say, is also doing the all/night dirt!!

Space enough to report my loggings here in Kittanning. W5GO K6MA KISM KT7 MH1
CPCH specials all logged and reported. Also heard one nobody else seems to mention,
W6M-1530-Englewood, Florida with equipment test at 11:15 A.M. 11/2. Heard them
only briefly but thought it was initial equipment test. A real pile of mail on
my desk and some important club matters to attend to, so please be patient of you
are expecting a letter from me. I'll get to it sooner or later. And I'm gonna
break down and send Hank Wilkinson a report for the Supremacy ratings, even though
I don't rate very much compared to the magnificent lists of others. 73 Dick
Inasmuch as this issue is again over our agreed upon twenty pages, and since I don't like to put out a bulletin with blank pages, I felt this might be the time to write a few lines in the hope of clearing up some points that some of you seem to be a bit confused about. At the present time your DX News is being published in Kittanning, "the Garden Spot of Armstrong County," Pennsylvania. We have been making a point to get it in the mails on Fridays. First class bulletins are mailed Friday morning, and second class bulletins Friday afternoon.

The postal employees have expressed a desire to me that I mail on Friday when possible. Also, I have a heack of a lot more help on Thursdays and Fridays from my family than I do on Saturday, so this makes getting the work completed a lot easier.

Please continue to mail your MUSINGS to ERNEST R. COOPER, 436 EAST 21st St., BROOKLYN, N. Y. 11215. Ernie's deadline is Tuesday and he likes to get your reports sooner when possible. I receive his stencils in the mail on Thursday a.m.

JOHN CALLARAN, P. O. BOX 1914, PAMPA, TEXAS 79066 cuts the stencils for our fine "International DX Digest" section and also has a Tuesday deadline. John airmails his stencils and they are received at the same time as Ernie's.

JOSEPH W. BRAUNER, RD 1, BOX 61, PURDUESTANKEY, PA. 15767 is editor of "DX DOWN THE DIAL" and presently has a Wednesday deadline. This will have to be moved up to Tuesday shortly since we have been picking this stencil up at Joe's home. When bad weather conditions prevail, it will not be practical to pick this stencil up and I will appreciate being able to run it on Thursday with the other stencils.

MEMBERSHIP DUES
Please send your money to our Treasurer, RAY B. EDGE, KENSINGTON STATION, BOX 63, BUFFALO, N. Y. 14215. Remember annual dues are $4.00 for third class mail and you must now send $6.00 at the time your dues expire if you want first class service. Please remember this when sending in your dues. It makes a great deal of work in trying to keep the records straight if you send in small amounts for first class postage. Also, Ray will receive your orders for Report Forms, Letterheads, etc.

CHANGE OF ADDRESS
Change of address necessitates a new plate for the addressograph. Will you please remit $1.00 with each change of address and you may send it to either Ray Edge or to me, DICK COOPER, P. O. BOX 223, KITTANNING, PA. 16201. If you send it to me, I change your address at once in my files and forward it to Ray for the new plate. Ray gets these made immediately but it is possible that you would miss one bulletin if you notified Ray directly. Either way will be OK.

SAMPLE BULLETINS

The club has established a fee of 25 cents for sample copies of DX News. This was made necessary by the "coupon clippers" who deluged us for free copies previously. The club is always very generous in running down any prospective members that seem to be genuine.

FREQUENCY CHECK SCHEDULES

The Frequency Check listed which was sent you with the 10/31 bulletin is available for 25¢ for additional copies. If any non-member wishes a copy, we will be pleased to receive his order here in KITTANNING.

NEW MEMBERS

We make a practice of sending a copy of the Frequency Check schedule, Country List, Contest Rules, Abbreviation Sheet, etc. to all new members. If any such member may not have received this material, please let us know. It is always possible that we err in some of these details.

REPORTS

The original purpose of our club was for an EXCHANGE of information. This we attempt to do through the pages of DX News. We urge all members to participate in sharing any pertinent DX information through DX News. Also, since our space is limited, we suggest that serious consideration be given to what kind of information you include in your reports. DON'T WASTE SPACE. I'm afraid this is going to be a problem, so I suggest it now in order that we won't have a problem later. Our dues are based on 20 pages per issue, 34 issues per year and we operate in a pretty "skinny" budget. This has been deemed a wise policy, to keep dues low, so as not to exclude any DXers that have limited funds. Also, I can tell you, it's a lot easier to get out ten sheets (20 pages). Let's give this a little thought. God bless you, everyone.
EARLY Deadline this week, because a radio newsman can hardly type an
DX stencil on the 1st Tuesday in November during an "Olympic" year, hi! But look
at the reports in by Monday! The last week of October is certainly one of bannerline
proportions. "I've seen stronger T.A. signals than the evening of 10/30/61, but
never so many. Real fun to run dial and find signals every 2 kol." (Niller, Wash.)
"Relevant comments regarding 10/30; first started listening around 0000, all usual
T.A.'s up very high and clear. The very rarely heard Scandinavians were coming in so
well, it was obvious that the usual Auroral zone absorption in high geomagnetic lat-
itudes was greatly reduced. Loop measurements indicated that all angles were Great
Circle paths, therefore just due to diminution of absorption. Therefore, I went gun-
ning for Asians and got Pyongyang. Eastern DX'ers should be on the lookout for un-
usually good Scandinavian signals after 0000, this is a very good indication of ex-
ceptional Asian activities later in the morning. (Nelson, Mass.)

WHAT I HEARD...

MEXICO. UHD noted 0106-0500 10/22, 10/28, ID phonetically "R. Azul Lah Peetah"
Call sounded like XXX, which is listed 1420, Tijuana. 00 & when. (Stone, Ont.)

ASIATIC RUSSIA. Far Eastern Service, Khabarovsky, was 55-6 0338 10/26; earliest
* ever heard here. (Wilkinson, Calif.)

IRELAND. Athlone, finally logged 1816-1832 s/off; fair signal; 10/28; Country
#69. (Nelson, Mass.)

SCOTLAND. R.A.I., Caltenisetta I, logged weakly 10/27; on lst with special pro-
gram to 1920. (Dangerfield, Pa.)

UNID. German S5 2215 10/25. Thought AFN was gone. (Hoffman, N.J.) In German or
English, Bob? Deutschlandfunk, Braunschweig, is now listed here. (Ed.)

CANYON IS. R.N.E., Tenerife, must be Spanish here with R.N.E. ID 1700; very gd
level 10/26, but killed by domestics shortly thereafter; weak Spanish heard as
early as 1621 is probably them also, signal took such a big jump 1700 that could
conceivably have just come on. Was so busy rerunning tapes to make sure of ID,
didn't check for parallels. (Nelson, Mass.) New station heard here with QRM from
Cairo. (Patrick, England.)

COSTA RICA. TIRIGA, San Jose, ID'd as "La Voz de la Victor" at 0607 10/26. (Wil-
kinson, Calif.)

ASIATIC RUSSIA. Far Eastern Service, Vladivostok, was S7-8 at 0330 and S9 at
0600 10/26. (Wilkinson, Calif.)

AUSTRALIA. A.B.C., presumably 4Q1, Townsville, Qld., 0400-0500 10/27, weak to
Fair. (Kenney, Calif.)

CZECHOSLOVAKIA. Prague good level s/on with interval signal 2230. No sign of
Cyprus 10/25. (Nelson, Mass.)

SURINAM. Radika, powerhouse 0400 with Indian music; S/on must be between 0340 &
0400; probably 0345 10/30. (Nelson, Mass.)

PANAMA. HCS22, R. Mia, Panama, in fairly well 2034-2100, new country here. (Schi-
ller, N.J.)

ENGLAND. R.B.C., Daventry, with European service ID after weather at 0110 10/31.
Gave frequencies of operation; taped report off on very clear signal. (Miller, Wash.)
Powerhouse a' as early as 1700 10/29. (Nelson, Mass.)

KOREA, NORTH. R. Pyongyang, fading in 0400, signal improved until 0420 when be-
came quite readable; man & woman announcs in Korean, Korean music. Signal had
fast but not very deep auroral flutter, occasional deep fades, but enough for a report.
Signal up reasonably high by 0415, faded out quickly around 0500. Loop
bearing within a degree of Northern Great Circle path. No sign of 785 out.
Heard 10/30 for Country #72. (Nelson, Mass.) S6 0513 10/26; I sent a solid hour
report (from reception on the AM of 10/21) by way of Mr. Chao Yi-heh at "R. Pe-
kong." Will advise. (Wilkinson, Calif.)

EUROPEAN RUSSIA. Murmansk with typical R. Moscow man and woman talk from 0001
on 10/31. Too much YSS heterodyne prior to this. No interval signal at 0030, so no
report. (Miller, Wash.)

ITALY. R.A.I. Synchronised, very good at times 10/27 1045-1515, separable from
YSS. (Dangerfield, Pa.) Now appearing semi-regularly early evenings before YSS
starts to blast. (Schatz, Fla.) Good signal 1703-1733 s/off 10/30; fair signals 0115 earlier that morning. (Nelson, Mass.)

UNIT. Under R.A. around 1705 cut or off, may be Israel, 10/30. (Nelson, Mass.)

UNIT. Weak T.A. 1650-1720 10/25. (Hoffman, N.J.)

665 Lithuania: Vilnius I apparently parallel with 656. From 0000 to 0030 10/31, weaker, no report. (Miller, Wash.)

670 Japan, Tok: Osaka, logged 0800-0900 89 10/26 & 10/27. (Chadbourn, Calif.)

671 France, R.T.P., Marseille, in quite strong 10/24 1730-1800. (Bangerfield, Pa.)

Arabic chanting, concert music 1830-1855, lady aniner in French 1855-1859 30, s/off 1900 with National Anthem. (Stone, Ont.)

665 Guatemala: TGO, R. Fabulous, Guatemala, this one is strong here, especially 10/24 when 20db over 89 and steady; L.A. pop music and very frequent IDs; you may hear the fuzz when Spain signs on 665. Nothing is copyable. (Conrad, Ky.)

Logged and reported 2100-2300 10/25, thanks to DX News. (Wilkinson, Calif.)

692 England, B.R.C., Moorside Edge, very high and clear 0227 10/30. (Nelson, Mass.)

UNIT. So. of T.A. 2200 weak, 10/25, a great T.A. night. (Hoffman, N.J.)

695 Dominica, W.I.B.S., Roseau, 10/21 1845 with B.R.C. news relay, and after 1900, other U.S. music, some pop. Signals not good enough for report. (Conrad, Ky.)

AUSTRALIA, 2NR, Grafton, N.S.W., very good 0430-0515 10/27, over W.W. most of the time. (Kenney, Calif.)

UNIT. Probably Montego Bay, Jamaica, with tuning signal 0425 10/27. Same tuning signal heard 10/26 on 750. Good signal, but W.W. & 2NR were too much. (Kenney)

705 ST. VINCENT: W.I.B.S., Kingstown. Finally ID'd 10/26 2100 female "This is the Windward Isles Broadcasting Service" (no location) followed by the news, in English, of course. (Pichuta, Conn.)

720 Cuba, CM--; R. Rebelde, Colon, 10/27 "La Voz de Cuba" ID at 0257½, then at 0457½ ID as "R. Rebelde" giving a number of calls, frequencies and locations. I am quite certain that 720 was ID as Colon, but no call given. (Miller, Wash.) Now heard daily 04-1200 on! (Hoffman, N.J.)

725 Korea, North, Doultless the Oriental at 0800 10/28 83. (Chadbourn, Calif.)

728 Germany, B.R. Dor Deutschlandsender, Schwerin, in fair mid-evenings with much vocal music. (Schatz, Fla.)

730 United, Several Unid. English speakers under dominant CKLO, Vancouver, all morning 10/30; one of them very far north with auroral flutter may well have been KPOD, but couldn't dig them out. (Nelson, Mass.)

737 Guatemala: Heard daily 0640-0700 prior to EST. Sounds like Radio Colenko or R. Colulanco. Could even be "Politico". (Hoffman, N.J.)

746 United, T.A. around 2300, nothing but music could be raised. (Hoffman, N.J.)

UNIT. T.A. around 2300, nothing but music could be raised. (Hoffman, N.J.)

750 United, Point Galina, Jamaica? with tuning signal 0425 10/26, much QRM from WSB and Spanish Speaker. (Kenney, Calif.)

755 Honduras, Tumiscara I, a wavering 80½ at 2200 10/25. (Hoffman, N.J.)

UNIT. R.A. quite early 10/30, from about 2200 on; no indication of s/off or inter-signal at 2200, so doubt if Tumiscara. (Miller, Wash.)

760 Mexico, XEAB, (Coyoacan, D.F.?) heard Monday mornings going nuts with "ABC, ABC, ABC" etc. till 0300 s/off. Said s/off @ 0500 Local time. (Schatz, Fla.) Good around 2300. ID definite as XEAB, also IDs sometimes as "La Voz de las --- as" (Kenney)

19 Iraq, Baghdad, logged 10/20 @ 2225. Chanting and bird chirping 2230. Fair, and unreportable; first from ASIA. (Schatz, Fla.) S5 at s/off 2200 10/25. (Hoffman) S5?R. Senegal, Dakar, very loud S7-8 at 0155 10/29. (Wilkinson, Calif.)

Very strong at sunset; on 10/26, quality almost like a local. (Welch, Mass.)

UNIT. T.A. with music around 0045-0055 10/31, but faded by 0100 so can not say for sure if it was Dakar tuning. (Miller, Wash.)

773 United, T.A. around 2330, but no bells or such that should characterise Cairo s/off so ---. Easily separated from 775 T.A., but 770 rough. (Miller, Wash.)

780 New Zealand, Lyt. Dunedin, S7 at 0520 10/26. (Wilkinson, Calif.)

PERU, Canal, R. Victoria, Lima, heard 10/29 0037-0100 w/deep fades but probably s/off. No WEM test this A2. No veri last year, so try again. (Freeman, Calif.)
782 UNID, T.A. Metro & carrier noted here quite early 10/30; doubt if Portugal but too much WBKM to tell much. (Miller, Wash.)

785 KOREA, NORTH. R. P'yongyang has been regular here every A.M. so far this season; verified about 1 or 5 years ago. (Wilkinson, Calif.)

791 FRANCE, R.T.F. Limoges I heard only once 10/18 @ 1815. (Hoffman, N.J.)

800 NET. AMNEVILLE, PJS, Bonnaf, finally squeaked through during a much-sought CJAD silent period, from 0503-0510 10/26 in Spanish over/under CKLW. (Hagg, Que.)

818 ANDORRA. R. des Valles, Andorra 10/21 til after 0130 in French with music and female and man alternating talking. Best after the Texan sign off. (Conrad, Ky.)

820 COLOMBIA, HUN, La Voz de Rio Caucu, Cali, full ID 0157, then appeared to ID in English, requesting letters to P.O. Box 1111. ?? After 0200 ID is not "La Voz de Rio Caucu." Sounds more like "La Voz de Tolima" (HUN-870). This confuses me. (Kennedy, Calif.) With 0130 ID in English asking for reports. Hal they don't verify them. (Conrad, Ky.) Keep trying. (Ed)

822 COSTA RICA. TIDOS, R. Titanas, San Jose, seems to have moved here from 825, much QRM from SUED. (Conrad, Ky.) Ron Schatz says up to 823 now. (Ed.)

830 JAPAN. JODE, Osaka, noted 0820 10/20 at 53 level. (Chadbourne, Calif.)

834 BR. HONDURAS, R. Belize in and out 2135-2200 10/26 with B.B.C. news in English and U. S. Pop music. Either good or gone; local time noted as GMT +5. (Chadbourne)

835 UNID, Spanish speaker after Belize s/off. (Freeman, Calif.)

836 FRANCE, R.T.F., Nancy, unheeded, but noted with fair signal around 2400 10/30, first time this fall. (Miller, Wash.) Until past 0130 10/21, typical French programs; QRM from Central American on 835. (Conrad, Ky.)

840 JAPAN. JOHK, Niigata, was 89 at 0655 10/26. (Wilkinson, Calif.) Showed up before 0600 for earliest logging of Japanese signal this year. Tried report to NHK, Tokyo, as last season's report to station was not answered. (Freeman, Calif.)

UNID. Still no ID on the L.A. here, but think Spanish rather than Portuguese. Too weak to be sure. (Freeman, Calif.)

845 UNID, T.A. here 10/30, as early as 2300, but nothing but music audible. Probably R.A.L. (Miller, Wash.)

850 NICARAGUA. YNAV, R. Continental, Managua 0300 s/off. In off frequency 100 cycles and difficult to read through heterodyne 10/21. (Kennedy, Calif.)

860 BRAZIL, PRA3, R. Mundial, Rio de Janeiro, in for about five minutes 0310 10/25. QRM from KONQ & XEMB, which WTHZ lists on 870. (Kennedy, Calif.)

875A UNID, R. Cuba Libre noted 0500-0530 10/26 88 with Spanish news, believe Dom. Rep. as they often use that ID on shortwave. (Chadbourne, Calif.) Hal: Could this be WNL's Spanish program? I note you list TGG 900A. (Ed.)

880 GUATEMALA. TGJ, R. Nuevo Mundo, Guatemala, in and out between 2130 10/26; ID very clear, spoken slowly, repeated. (Others please copy!) (Chadbourne, Calif.)

900 CHINA, R. Peking outlet heard here on A.M. of 10/26, will try again for this one. (Wilkinson, Calif.)

906 ENGLAND. B.B.C. Brockman's Park, corroboration of Ben's lament, this B.B.C'er is one of the toughest of the lot. Copied to 1715 s/off 10/22. (Schiller, N.J.)

940 JAPAN. JGF/JOR, Unable to ID either one after they were 87-6 at 0545 10/26. (Wilkinson, Calif.)

944 UNID, for sure, but French, and I guess this is Toulouse, on 10/21, when they were all good from France. French talk & music. (Conrad, Ky.)

953 UNID. Help! 8 on 2230 10/25, used 6 time pips (?) with harp or guitar interval signal. Aleppo, Syria? (Hoffman, N.J.) Prague s/off is listed as 2230 here; Aleppo is listed 2300 s/off. Only chance, it would seem, for latter is Sunday morning when Prague s/off shown at 2400. (Ed.)

970 MEXICO. XEDF, Mexico, D.F. 10/22 way on top of frequency 0010, no sign of WMSH, Spanish and Latin-American music. (Conrad, Ky.)

1015A INTL. WATERS. R. City, ex-R. Sutch, now here, bad modulation, heard in the morning with pop music and commercials. (Patrick, England.)

1025 UNID. T.A. Around 2315 10/30, good music level briefly, but didn't stay. Austria? (Miller, Wash.)

1030 UNID. Oriental 10/29 at 0930 with fair signal; all talk and a very fast gibberish; certain not Chinese, Japanese, nor Korean. Need Oriental language expert. Who? (Miller, Wash.)
1034 UNID. T.A. evening of 10/30, but carriers on 1033 and 1035 (I.A., I believe) just made a mess of this channel. (Miller, Wash.)

1035 HAITI. LUWE, Cap-Haitien, heard 10/18 1916-2032 s/off using French. Have to get this one early, if you want it from the West Coast in the evening. Reported for new call. (Freeman, Calif.)

1036 BRAZIL. PRGZ, R. Tupil, Sao Paulo, had a fine signal atop the freq. Sunday 10/25 0230-0330. Someone was behind, possibly KIWH. (Dangerfield, Pa.)

CHINA. R. Peking, what a powerhouse. Must be 500 kw. If you hear this one, send your report to Mr. Chao Yi-heh. English section. R. Peking. They QSL. (Wilkinson) Chinese language S7 0800 10/29, doubtless China as reported 10/29. (Chadbourne)

1050 MEXICO. XID, Mexicali, B.J.N. S/ on 0800 10/26. Signal only fair despite proximity. (Chadbourne, Calif.)

1052 ENGLAND. B.B.C. Start Point, very high and clear 0211 10/30, giving 1050 a hard time. (elson, Mass.)

1061 PORTUGAL. R. Nortse, with same program as 755, was logged right through local WRCV at 1932 10/24. (Dangerfield, Pa.)

1079 UNID. Someone, possibly EFLM, Madrid, signed on 0200 10/26, with choral music, but was quickly set upon by a testing carrier on 1000. Will try again. (Dangerfield, Pa.)

1106 SPAIN. Logged at 10/25 up to S7 on peaks. No ID? (Hoffman, N.J.) About 15 listed here including one in the Canary Islands and one in the Balearics. (Ed.)

UNID. T.A. around 2300 10/30, probably APN, but just couldn't get signal up enough to tell. (Miller, Wash.)

1133 YUGOSLAVIA. R. Zagreb, has taken to frequent A.N. stints, and has amazingly clear signal. On 10/25 & 10/27. In fact, on 10/27, I listened to a pleasant musical show from them while writing checks and paying bills. (Dangerfield, Pa.)

1135 HAITI. LuvaR, Port-au-Prince, must be my unid. English here, heard in French 10/27. (Piecuchta, Conn.) I assume you refer to your report of station with variety show, news on the hour, religious programs, and pop non R&R music. Report showed: 1135. Type, or different station, Joe? (Ed.)

1160 FRANCE. R.T.F. Strasbourg, in as early as 1600 10/22 parallel to 1205, and WJJD appeared about 1620. (Schiller, N.J.)

1178 UNID. Asian carrier 0510-0600, assumed V.O.A. Okinawa and/or its jammers; QRM from Guam jammer aimed at V.O.A.-1180 made ID impossible. (Nelson, Mass.)

1197 HUNGARY. Budapest, Petofi Radio, really blasting most evenings past 2300; info hard to copy. Nagy. (Schatz, Fla.)

1196 GERMANY. V.O.A., Munich, was first T.A. to appear evening of 10/30; as usual, the tipoff here to a T.A. opening. (Millar, Wash.) S8 10/8 2200 s/on. (Hoffman, N.J.) Heard 2210 10/25 in English. Earlier, at 1845 s/off, was like a local on my car radio. (Dangerfield, Pa.)

1200 SIERRA LEONE. S.I.E.S. Freetown, noted 0130 10/26 with male announcer and program of modern dance music. Gave it up O145, too much static. (Stone, Ont.) Quite respectable with English religious program around 0130 Monday, 10/26; Lots of thunder coming from Africa. (Nelson, Mass.)

UNID. Wolf slugged 0502 by two Spanish gentlemen continuously reading news in Spanish; Gave "Radio Pinko" SI every 2-3 minutes. Is this YVOZ? Didn't sound like "Tiempo" to me. (Stone, Ont.)

1205 FRANCE. R.T.F., Bordeaux, very clear 10/23 from 1745 to 1800 s/off, in spite of WCJI; note that most R.T.F. outlets now seem to be on until 1800. (Dangerfield)

POLAND. Krakow logged fair 10/27 @ 2300 s/on. (Schatz, Fla.)

1210 HAWAII. KZOO, Honolulu, logged for a report before he signed off at 0300 10/26. (Wilkinson, Calif.)

1223 UNID. T.A. looped Sweden 0215 and later, got there just too late, couldn't quite get the language. 10/30, of course. (Nelson, Mass.)
BERMUDA. ZEM, Hamilton, broadcasts in Portuguese at times, to answer queries of those who think they're hearing something exotic here... (Schiller, N.J.)

ALASKA. KFIR, Anchorage, s/off 10/25 at 0500; unneeded, but rarely heard here. (Miller, Wash.)

ENGLAND. B.B.C., Crowborough, probably the strongest tester at 1920 on 10/21, playing such old swing records as "Truckin". On Sunday, 10/25, this one and other F.M.'ers noted good at 0345. (Dangerfield, Pa.)

NORWAY. Stavanger, fantastic signal 0125-0150 10/30, soft music and announcement in Norwegian by male and female announcers, perfect copy, rock steady. Country #1. (Nelson, Mass.)

MEXICO. XEAI, R. Canal Tropical, Mexico, D.F. Slogan changed from Radio AI. (Schats, Fla.)

TRENDAD. R. Guardian, Port-of-Spain, caught real good ID in English 2130 10/26, then into French. Classical concert 2200-2300; s/off 2307. Signals fair to good with much QRM from 1322, and someone else on 1325, probably WWV. Certainly this is Dangerfield's English-speaker here. (Conrad, Ky.)

ITALY. A.A.I. Synchronized, the strongest of all Program I Italianos, on 10/27 between 1045 and 1915. (Dangerfield, Pa.)

BERMUDA. ZEM2, Hamilton, in and out with QRM and QS3 0330-0500 10/26. Very loud at times, but took 1½ hours of sporadic checking to get any verifiable data for a report. (Rugg, Que.)

ALBANIA. Tirana believed to be the station heard 10/26 0030-0130, in Slavic language. On increased power, programs parallel to, or at least almost identical to, Tirana-1060, which was also strong at the time. (Dangerfield, Pa.)

GERMANY D.R. S/off 2200 with ID either "Hier ist der Berliner Welle" or "der Berliner Rundfunk." The news in German at 2230 was the same as on 1043. (Dangerfield, Pa.)

PRANCE. R.T.F., Lille, seemed parallel to 1205, is this so? Very strong about 5 db over SP2. (Conrad, Ky.)

HAWAII. KPOI, Honolulu, was S7 at 0402 10/26 with ID and time check. (Wilkinson)

AUSTRALIA. CSBO, Tooroe, almost positively the station here 10/25 from 1913-2000 s/off - with news at 1945, tallied with WTH as to new and s/off times. Signal weak but language sure sounded like Portuguese. I doubt that G rash would be on at this hour. Tentative to CSBO to see. (Schiller, N.J.) Latest schedule I have shows G rash off 1605 weekdays, 1615 Sundays. (Ed.)

JAPAN. JOTF, Fukuoka, logged off 10/10-0415 10/26, my third new Japanese in four days. (Wilkinson, Calif.)

WESTERN SAMOA. ZAP, Apia, 0345-0400 s/off 10/26; fair signal, English ID 0350. (Again contrary to WRH)(Kenney, Calif.) Proving that with schedule changes, etc you can't utilize the printed lists as gospel! A definite ID heard is the only sure way to be certain whom you hear. (Ed.)

GERMAN F.R. Saarbrucken a real powerhouse to 1905 s/off with "opus One" and the like, blasting WTH and company right off 1420 10/25. (Schiller, N.J.)

UNID. Drage, harmonica, or sub-harmonica, apparently on L., probably Venezuelan, heard with Olympic games results, and then into a program in Italian (religious) at 2110, into Spanish again at 2125, multi chimes and clock striking at 2130. (Piscataway, Conn.)

MONACO. ZAM2, R. Monte Carlo, heard with English and French program "American Disc Club" 2130-2200 Tuesday nights. (Patrick, England) GNT or EST, Roy? (Ed.)

AUSTRIA. Wien I 10/12 0013-0025, fair strength, walts music, naturally. (Schiller)

HAITI. VUEP, La Voix des Antilles, Port-au-Prince, now in well early evenings with local music; calls and slogan mentioned in ID's. (Schets, Fla.)

UNID. A mystery, for me is what TA signed off at 1006 10/25 with anthem, Maybe Vienna, but I missed the s/off announce, and WTH has them going off the air at 2115. (Dangerfield, Pa.)

UNID. Southern European station signing on here 0115; quickly gobbled up by this graveyard channel; fair chance that this may be Gibraltar, logged right. Noted Monday morning 10/26. (Nelson, Mass.) Keep trying here; s/off time is as listed in schedule. (Ed.)
November 7, 1964

1510 UND. Another mystery is what L.A. signed on at 0400 on 10/26. A Spanish-speaker with unfamiliar anthem, various clock chimes, and a new program. My tape has many words, but nothing like a specific ID. (Dangerfield, Pa.)

1530 DOM. REP. HDLB is parallel with KBEL-1510. Will check KBA's status. 873 is still unidentified. (Schatz, Fla.)

1575 UND. Who is the Spanish speaker here? (Freeman, Calif.) See last issue. (Ed.)

1580 COLOMBIA. HAY, La Voz de la Cordialidad, Galapa, logged 10/25 @ 0445; possibly All Night. (Schatz, Fla.)

1590A MEXICO. ID sounds like XEAB, place unknown. Erratic around 1000 10/29, local time given in Spanish equivalent to GMT-7. (Chadbourne, Calif.) Except for the time element, I'd say you had XEAB, Ciudad Acuna, Coah. on 1600. However, they are on C.S.T. (Ed.)

1602 GERMANY F.R. Bayerischer Rundfunk, Munich, new audible late evenings through 1600 GMT. (Schatz, Fla.)

****************************************************************************** *

VERIFICATIONS

625 COSTA RICA. TIRICA, San Jose, sent excellent "tarjeta de verificación" listing both slogan and call letters; also filled in power on 625 as 50,300 watts. (Freeman, Calif.)

800 MET. ANTILLAS. PJB, Bonaire, sent French-fold QSL from Bonaire. Never uses city in address, but postmark shows Kralendijk. (Freeman, Calif.)

818 ANDORRA. R. Des Valles D'Andorra, Andorra; V/c in re my 9/2 report; verie note in English. Country #51. (Dangerfield, Pa.)

1200 SIERRA LEONE. S.I.B.S., Freetown, QSL card for 8/22 logging a general illegible, gives sked 0100-0515 and 10h5-1800 weekdays; 0100-0515 and 1000-1815 Sundays. (Nelson, Mass.)

1270 OUAH. QHOC, Camaguey, QSL verie from Radio Habana. (Rugg, Que.)

****************************************************************************** *

ROY PATRICK turns in a list of DX heard, consisting of Dakar-76; Trans World Radio-800; R. Caribbean International-810; WCBS-880 good after A.P.N. s/off; CBA-1070 good; WBAL-1090 good; WEZE-1260 fair to good; WNYV-1350 good; and WEX-1510.

****************************************************************************** *

PORTUGAL --- Schedule for Lisbon's "Metropolitan service is as follows: 557, 665, 719, 1367, 1446, 1454 & 1562, 0200-2000. 765 & 1061, 0700-1200. 1300-1800 for regional program (0800-1800 Sundays and holidays); 1800-2015 for International Service. All outlets as per 3/1/63 FINS. (Schatz, Fla.)

****************************************************************************** *

FRANK WHEELER reports a puzzler. On 9/12, 18h3-1915 on 620 kcs., station carried sports, and signed off at 1915 as "...London. This was your International call from London. British Broadcasting Company from London." Sent report, and received the usual B.B.C. picture postal card verie, with "Your report was in accordance with our published schedule" checked. "Did I really have B.B.C. on 620?" Frank asks. Who can help? Frank also reports that one of the verie signers for PJB, Lois Harvey, is the daughter-in-law of the former minister of his church, the Erie Gospel Tabernacle. Said minister married Mr. and Mrs. Wheeler May 14, 1941. Mrs. Wheeler baby-sat with Danny Harvey, Lois's husband, when he was a little fellow. "Small world, isn't it?" Frank asks.
