VOA-1140. Reports to Mr. Edwin L. Davis, Deputy Manager, Broadcasting Service, John Hay Air Base, Baguio City, Philippines, A.P.O. San Francisco, Cal. 96299. Mr. Davis writes: "This transmitter will operate at its full rated output power of 1,000 kw. into a 332° pattern. Unfortunately, this pattern is not directed to your area, however, it is the most northerly pattern available and should be satisfactory for the purpose." Channel clear on West Coast.

NOTE: K CAN-1550 f/c info is from NASA, not NRC, so does NOT count extra in Contest.

Hello dare from a new college student at the U. of Michigan! The work is very time-consuming & hard, thus the reason I haven't messed for about five weeks. I'm still managing some DX, almost all on weekends. 12/27- WYNS-1150 and f/c-TT 12:31am, WVOC-1500 f/c-TT 1:20, WDKX-1260 ET/TT/OC 1:44-1:52 & on, WROD-1280 2:53, WSNN-1590 EF/M 3:18, WENZ-1450 3:35, & BJEJX-1370 "R. Mundall" 3:59. 12/28- WTMG-1200 12:21 f/c-TT. 12/29- WPYF-1300 ET/T/TT 2:22. 1/6- WABR-930 s/off 5pm on Don Kramer's homebrew special at Ann Arbor (RX #14 in my totals). 1/15- WPPA-1360 "EZ" @ 3:31am, WONY-1350 4:20, & KFAC-1330 5:03 for a real surprise c/u mum WHOT, which I took a listening on for a while. 1/18- WJTM-1340 12:13am, WMC-1330 s/off 12:04 (These heard on my G.E. AM/FM Clock Radio usually used only for RX, RX #15 in my BCS totals). 1/23- FROS-1290 2:15 f/c-TT, KYKQ-970 3:05 battling WSF/WRJZ, & FROS-1330 ending ET/M/TT/OC @ 4:31. Errms, they are fulltime c/w if you're interested, hi! W/ the above-mentioned WRJRZ the last time I heard them was about seven or eight years ago, back when they were WAA! Report out for 1/33 reception. Some verities: v1- KLRD KCLR KOSG KFPO ECLI WCSE KLIT. v2- KYME WPUR CCHK. v3- WHTJ, Sierra Leone-1200, KTRB. Mt WHOT verie from Jerry Starr - thanks a million, Jerry! Still waiting my Lebanon-835 verie which Ken Butterfield got weeks ago, for WAC. Wayne Haenir, since you can't send me your head, why not send a "consolation prize" like several WMCJ SGs, hi? Anyone know where I can get the extinct (as of 10/65) Indianapolis Times? Newspaper totals now up to about 555. S. Weisneit, your 5:30 s/off on 1570 on 12/3 wasn't WSVL, they're fulltime, but may have been WHCM or something. By the way, Ken Butterfield showed me his brand-new TV picture-sucker several weeks ago. It really works great for pulling out the TV DX, especially from behind other stations! M. Tilbrook, does WENZ-22 have WX @ 6:57am weekdays? (Please write). SC total 669. CKDW heard announcing 350 below just about five minutes ago (1:30am 1/29). Gordon Nelson, your China-1525 is the equal of an OKI-570 SC in the SC world, hi! Well that's all for now, so '83, goodnight chacapaco & all dat dare rot.

Dave Schmidt - 44 Green Lane - Green Ridge - Chester, Pennsylvania - 19014

Howdy from WBEZ Country Radio Land, first in the hearts of all listeners, not mine at least, hi. This week of DX has really been wild, WX-wise & DX-wise. Much DX so here goes: 1/25- WKOK-1090 & WCFC-940. 1/26- Snowing, good for DX stations, WZAD-1460, WOOQ-950 & WHMA-750 all reported. 1/27- WBEZ-750 for #2 from NH. 1/28- Good ol' WKIL-910 logged & reported. I told you I'd get them, Allen Nissen! 1/30- More snow, WILK-990 c/WRC. We had 15" 1/30 u/p to five-foot drifts. Many real nice verities in; KLDN-1450 for #3 from Calif., WJWL-990, WTLQ-1560 ET, WSNN-537, Swartmore College, Pa. Nice v3 here again today, & a real fine one KLIT-1560 in one month. A v3 it was. Verie total 243 in 38 states. On the outlaw scene: WJRP-650 in Chester logged very clear but bad audio. They gave IDs every five minutes. Also, something on 1605 that s/off at 5:40pm for the past three nights. I don't know who. Something that really popped me off, all 34 I heard this real loud snap in the back of the radio. Well, it turned out the snow hitting my longwave made static electricity & made the spark. So I got a neon lamp & hooked one side to the ground & the other to the antenna. It got rid of the noise & now lights up! It didn't reduce signal strength either. WBEZ had been having trouble here W/EVERY. I can loop out WBEZ to nothing & one mile away! Well, I have to go, no school on 1/31 so I'm up all MM to 4am at least & will report next morning. '83 & good sledding, Mike & Steve!

Edward Greb-Laskey - 26 Essex Place - New Britain, Connecticut - 06050

Greetings fellow DXers. Forgive me being so rude as to never entering a house since I joined in 6/55. I'm not much of a DXer (131 logged & 38 verified) but I will try to contribute my best to our Club. Some of my best verities are: WHO-1040 WIAA/820 & WES-750. Latest DX: 1/22- WIP-510 lam, WSIR-1350 2:16, WYXZ-1270 2:21, CNET-650 2:20am. 1/23PM- CBA-1070 6:30, WANI-590 4:10, WATT-620 4:13, WHUN-1150 4:19, WFEA-1370 4:35, WSN-1470 5pm. 1/29- AM- WOL-1450 1:15, WUBZ-970 12:30, WSM-1530 2am, WKAZ-950 2120. I wish that someone would write or call me up. I would appreciate meeting some fellow DXers in neighboring towns, hi. '83 till next issue. (Welcome to the Group, Edward, & I have a feeling someone will write or call! -ERC)

Ed Kowalski - 757 South 3 Street - Philadelphia, Pennsylvania - 19147

WEPN, apparently a carrier-current station of the U. of Pa. on about 739k & located on the other side of town (5-7 miles) has been noted here 5-5 w/c 1mx @ 4:30 & 6x @ 5pm. What is the range of these stations? I thought they weren't supposed to cross power line circuits. '73.
Well, gentlemen, here it is: the quarterly edition of desert DX. Since my last letter nothing much has happened. You will excuse a little international DX comment, but U.S. is next to impossible. First, let me say that the DX NEWS took long in getting here, but the shock & sorrow will be even longer in leaving. I just learned of Ray & Kate Edge’s death about three weeks ago. I didn’t know him personally, but we did a little corresponding. As a matter of fact, his death left one outstanding. I should have have realized that something had happened, when two weeks went by without a reply. Ray was always a good writer, & I’m sure just as great a guy. Also, I’d like to clear up any poison-dagger thoughts on the part of Mike Silversa. I just recently received your letter, Mike, & I’m sending the reply out tonight. I can’t help you too much on the stamp subject, but I’m giving your name to another guy here in Kabul who can give you what you need. He’s also a radio enthusiast, but only in the technical aspect, hi. No DX. And now, before I overrun my limit, here goes my recent DX. West Germany was heard on 664k on 11/22 at midnight w/so-so mx & long intermittent periods of talking. Though on different frequencies, I believe this to be the same station that Dangerfield heard on 11/1, because of the similarity in program material. Why don’t you consider that loggable, Ben? Also, unID on 747k wt/Arabic @ 2pm, any ideas, ERF? (E-garden 746? -ERC) Hi to Mr. Jones at WHIF. I bet you never thought I’d end up here, did you? Also hi to Jack Forbing & Al Slater. I would like everyone to know I’m open to any and all correspondence here in Afghanistan. Also, I’ll be happy to attempt to answer any questions concerning R. Kabul policy. Ah, last but not least (certainly) can anyone bring me up to date on new CB rulings, if any, & CB activities? 73 till March.

Stephen McIntyre - 2225 Bearer Street - Des Moines, Iowa - 50317

DX has been fairly recent w/1/31 making up for slackened DX activity. Do you know that the sonar system of boats is on a frequency of 97.3 mg/s on the FM band? At least KDM 1 thinks so, hi. 1/1- W4AK-1560 @ 4:45a ending test. 1/3- Terrible MM. W4EZ/CFIN-1250 along v/urn W4DR noted during W4NNX time. KCOO & K4EL heard while talking for KIXE. Tt heard @ 3:21, tentative off. W4W-850 3:59. Tic-toc on 1210 @ 4:31 to end a terrible morn. 1/9- CJRL-1220 2:05am. 1/10- Another bad MM. KP4M TEST @ 2am good throughout w/some SS QRM. WINU-1510 like everyone else @ 2:45. WOPA-1490 MN 3:30. KTPK-1460 3:45. It looks like I gave up too quickly on WAER though. Later that night, W4W-1560 s/off 5pm @ WD4R. KCMR-1580 6:15. 1/14- KOKX-1310 1:30am r/c, 1/15- WDE-850 r/c 3:3am. KCOO-920 3:16. WPPA DX well most of the time. WENY-L530 4:30 s on. W4FM-1390 4:17 spending a lot like KCMR, uhh. 1/17- Try for CDPR nettted W4PA @ 3:30. 1/22- KUSH-1270 1:24pm. 1/25- KOKX-1260 r/c 2:16, K4W4P r/c 2:22, W4FM-1260 2:30. 1/30- C4CK-590 3:05, #400. C4FR-580 3:07; W4SN-601 3:10. C4JO-1220 3:20; W5LY-1350 3:34; W5XK-1460 4:10. 1/31- Best DX ever in this den. KKGO-1360 2:39; WH4T-1340 2:40 looking futile for C4F; KN4A-1290 2:52; no K4FM heard but W4T heard during the time plus an unID TO, who? KTIX-1240 a/off 3:30! WHKY-1290 heard o/s locals KDLI/WIRL! GBIL-1050 4:30 @ 40 o/v-ve. Later topping WA4B! Not an image or my imagination. W4BF-950 4:40; W4P-1110 5:28 ending the morning of my life? 2/1- KSAC-580 finally @ 5:35am. W4BC-560 5pm. Trying for WHEE, I got an rr u/KA4HH @ 5:40. Is this they? KISB-560 at 7pm. 73s, & more Specials!

Long time no write. I want to wish everyone the best DX for the upcoming year. I’ve done very little DX in the past year & hope to get back in the swing of things this upcoming year. I was real glad I was able to attend the annual garbash in Brooklyn 11/22. It was nice talking to some of the NRCs whom I’d met before & as always I enjoyed meeting several members whom I’d never met before. Already I’m looking forward to this year’s garbash which is just nine months & 26 days away, hi. Also I enjoyed phone call w/Jeff Kalet, Alan Merriman, David Granick, Alex McNeil, Ken Maylath, Rick Marr, Ken Murphy & visits w/Dave Schmidt & Ben Dangerfield. To Joe Kurath: What is your telephone number? No DX at all the last two months, due to lack of a radio. I plan to get the tuning band fixed on my SW-54 & then I’ll be back in full force. Well, that’s about it for now. I hope to call several of you NRCs in the NTC area in the near future as I’m in Fort Lee N.J. at least a couple of times a week. Also, how about a letter from you, Dick Russell? I’ll close for now & say 73s.

George Greene - 1527 Sunset Avenue - Akron, Ohio - 44301

Not too much time for DXing, but nevertheless several new stations have been added. 11/20, I brought in three new ones during the early AM: W4SN-510 w/some W4DAB QRM (P.4)
Greetings from the Show-Me state. We just had an 8" snowfall today; the school kids are whooping it up over 250 schools in the St. Louis area closed today & tomorrow. DX has been fair to middlin'. 1/7- COKX-1070 11pm, 1/8- KCLO-1410 Kan. 6pm, 1/11- KSBH-1520 Iowa 6:15pm s/off, 1/14- WFWN-1590 Miss. 1:10am, 1/15- WAMY-1580 Miss. 5:47 s/off, WNOO-1520 Ky. 6:03 s/off, KPKX-1580 7:30pm s/off, 1/16- WKBH-1410 Wis. 1:25am, WIXK-1460 1:28, KLVI-550 Tex. 2:40. Weak rr on 1170, couldn't get ID, KBBQ? WPPA-1360 NHC DX in strong 3:35-3:45, harder to log afterwards, w/some KRSQ QRM, was mostly looped here. WCJF/WPEO-1020 Ill. caught at 6pm s/off w/KDKA looped. Local KXBB off earlier finally made these possible, 1/21- XMM-1150 SD in good 8am w/pr & KSKA QRM. MM 1/24- WATC-1700 NC 4:33am, WHKO-990 in strong for a minute 4:51, WA2-990 Ga. 5:02 s/lon, WNEG-830 Ga. 5:27, KCHO-1430 Houston 5:46, KXGO-1560 6am s/on caught just ten seconds before local KATS s/on drowned it. KCLI-1590 6:05am, been after this for a while. WATK-1990 Ill. 6:53, WPCO-1590 6:55am. 1/29- WCAZ-990 5:30pm. Oops, I forgot to add KICK-1340, heard MM 1/16 AN-rr, another wanted Mo. caught. MM 1/31- KZL-550 s/off 1:12am noted, KXGO-820 W4 operating w/5,000w. (announced) 2:40, apparently on AN for snowstorm. WJHM-1240 Mich. 3:30am. I believe I heard KPR-1240 DX ID 3:32am, but not sure - I was caught off guard when I gave up trying & started typing my rep to WBOC. Late verie arrivals include WABR WJKX WALT (heard daytime here w/good CX) CJIC (3.5 months) XEMO KELOKSAL & generous package from KFJN for TEST. I finally got around to verifying XEG CHRL WWSW WQAM, also WHT, which finally made it through the heavy WAKF/KXOX slopover at noon 1/3. 73.

Salutations! Domestic DX has been good lately. Here are this month's veries: WYNA KTLN CJME-EX COKX WGEN-TEST WLS KFJR KXEN WIXK KFAC KQAQ. The WJ Log is tops! I am presently experimenting w/loop, using rotor lead framed around door. It is 360° w/8 turns & 4 taps & tuned link. Sounds crazy, but it works despite mobility limitations. Still no more luck on Jan. MM Specials. Totals: 255/87 w/59 points in Domestic Contest to DX: 1/5- CFEN-1260 2am w/NX, KOIL-1290 3am, no KGVO heard, KNET-960 not heard either. 1/10- Missed KFJM KASK KAIK TESTS due to alarm clock troubles, &. However, WARR & WILY tried but not heard. 750, unkID 4:51am w/religious mx, who? WKIX-880 5:20 w/Bob Kelly, WSPA-950 5:26 w/Crossroads Quartet, WINZ-940 5:40 w/mx. 1/15- KKNO-860 1:33am w/RE ID, KXEN-1010 1:27 ET w/50db-59! WIXK-1460 2:10 w/jazz & they sent photocopy of my rep for veir. Steve Wainstein: WAIL is on WIXK's old frequency. KFAC-1250 2:30 w/TET&T & Tijuana Brass LP, WBOC-1450 3:14, KAMO-1390 12:55pm. 1/16- CKLG-730 2:33am w/telephone calls, WPTK-1440 3:38, KAKC off, KQCO-970 3:21am w/Gen. Dickson satire, KIFS-1360 3:30am w/no WPPA DX heard. 1/20- KABH-1510 6:55pm w/NX WX SSB s/off at 7pm. 1/21- KLOL-1510 11:19am w/rr heard all day here, KCVE-1510 11:22am, WKVH-1320 noon, KAWA-1010 6:19pm w/c/mx, KAGD-910 6:28p, KBOJ-770 directional 7:30p. 1/24- KAKW/KBN-1490 3:57am, KGBS c/KDKA 4:13am w/c/mx, CHRL-900 5am in good as usual, WCKK-1150 5:13, WQOK-1440 5:20, WKBW-1520 5:22 w/school closings, WICJ-1390 5:37. (P.5)
F. Nordquist) WPEM-1250 5:39, WMAZ-940 5:50 w/farm NX. Those MM's after 5am are DX "gold mines"! The KC's are like shooting beans in a basket. My Draft Board physical is coming up 3/3, hi! I'm trying for engineering in OCS or OTC. Happy DX & sleepless MM's. 73.

Sheldon Miller 840 80 Street Miami Beach Florida 33141

1/31, the MI w/bad WX from Canada to Miami, had interesting domestic DX. WWDC-1260 Washington A/Ned & told of Friendship Airport being swamped by 16" of snow. Harrisburg, Pa. must have had it rough, as WHP-580 & WCBC-1460 stayed on AN w/snow emergency and school closings. Many others stayed on for WX coverage, like WDEL-1150 WADC-1310 Fla. WCHB-1390 Chambersburg, Pa. who were reported since signal was way off WAKR. A vast net of CBCers was heard, including CKB-540, CEF-690 CBR-1Q10 for first Alas. here, & CED-1110 w/WTBT silent until 4am. Also, CEC-1050, was this CJC or CFJP? I need both so tentative off to each. Anyone know which carries CBC? Help will be appreciated. WILS-1320 Micch noted after 4am w/good signals. WNE-1430 P.R. s/on noted, SSB, 3:5710. Ernie, HJN-1002 does verify, v/l & colorful pennant. Only verie this week is KFRA-1440 Tex. for r/c, & station's GM says he appreciates & welcomes reports. On 1450k this morning, w/WSHP taking a rare breath, I noted short ID of WYON & WPDD, just about my best graydyaers. A final question: Does anyone know of a rule against stations in Alaska & Hawaii about 1500k? I can't believe no one wants such stations. 73. Ron Schatz - Box 5368 South - University of Florida Gainesville Florida 32601

Greetings from tropical Florida, where the temperature in Gainesville dropped to 17° on 1/31! Still one of the warmest spots in the nation, though. Gordon Nelson: by the way, of even more "misleading" than yours of 1/15 was confusing. Just saying that I erred a bit would have been sufficient. But to undo the damage: the "jammers" that some NBCers have been reported heard on 590, etc. are not jammers but heterodynes caused by LAs slightly off frequency. The only jammers that are heard by most DXers are on 710, 870, 1140, 1157-1165, 1180 & 1600. Any DXer who manages to recognize jammers on such frequencies as 1196 & 719 should be experienced enough to be able to differentiate by ear between a bat & a jammer. Be my unID on 735 & 1065, "Loop says Ecuador" does not necessarily mean I am certain the station is in that country, for common sense indicates as well such locations as Cuba, Colombia, Peru, & the South Pacific. However, only Ecuadorians are listed for those frequencies, so probabilities can be logically drawn: It wasn't worth pushing this thing too far - who ever definitely ID an unID? At least your third question doesn't hurt! I say that my 00on 737 is Iceland rather than RIAS at Warszawa because (1) the loop pointed roughly 50° E of Iceland rather than into Central Europe & because (2) all other Germans & Poles still coming in at that late hour showed bearings consistent with their respective locations within about 3°. Also (3), the signal definitely did not come from a CA or any other station to the S, going by nature of its quality & the mess it caused to Barcelona after 2am. So much for playing cards. No one came to the New Year's get-together in Miami, & I was ready for the possibility of such a fiasco, considering not enough time was prepared for announcements. Thanks, anyway, Ernie, for the front-lage ad; it was worth it. I hope it won't ever happen to any of our Conventions, hi! Station KONO-860 in San Antonio is taking collect calls from distant listeners. Tune in for details, for you have to be more distant than the last caller. Russ Edmunds: Avoid the VQ Cuban list - it lies. More next time, as I'm nearing 30. Good DX to all. (You don't look a day over 25, Ron - hi.)

George Junak 1820 North Villa Rica Avenue Pasadena California 91107

Dig new address, hi. Phone is: 213 798-5789. Save it as it's UNLISTED. I heard KTIF for the first time yesterday (1/29) @ 7:21pm EST for about ten minutes. They're using the "Does Radio" slogan now also. KDON has gone rr & KGSS switched from Album to Town & Country. DX would be better but usually I get pop, crackle, & all that rot from some lights in the kitchen. I have a new tape recorder; Arvin, up to 7" reels, mono, two track, 3° & 7.5 IPS. I will tapepond w/anyone if he sends first tape. I may start getting verify again. Total is still 54 & it was that about a year ago, hi. KTOT is still coming in well @ about 7pm daily now. SO total at 441. SCers: Please write me if I don't correspond w/you. Unlimited supply of: WSGW KELA KELO KNEZ KFGU KJH KELA KWKW KIST KDIN WHCO WBSR WNYW KORL KORC WQAR WESO KENO WORC KORC KFILY KENDA KAYC KONO KNKX KIIS WISM CKLG CEWS "Radio Sveriges" & many others. Many rare ones too. Write me for list, SCs, etc. & send your list. I give Green Stamps, hi. KELA turns power from 50kw. to 10 @ 8pm. Well, 73 & best DX to all. 73.

REPORTED!

AS THEY SAY IN HANOVER, NH, "WDGR." THIS IS DX NEWS, "WHERE WONDERFUL DX CATCHES ARE
Michael Silvera - DX NEWS - Kingston, Jamaica

Hello there - freezing, everybody? The night of 1/30 here was a mild 68°F, even Sheldon Miller had about 300. Only strong winds which snapped an XR element @ 2:30 that curtailed all DX that MM. DX here not too bad considering I am still using the S-120. Recent verdis: EBBY EMEC W7KZ W7KZ W7EJ W7GR & R: Belize. All the foreign ones in JDXD. Here's my U.S. & Canada DX. 12/27- WAMS-1380 w/r o/u WLCY till 12:10am.

CBF atop CBE-740 @ 1am, the latter for a new province. KSTF-1500° F 3:16am very weak u/HON. 1/6- WHKX-1480 @ 1:20am w/rr u/KEKL. WIRE-1430 w/brief ID through KEKL @ 4:57. 1/7- CBE-540 @ 2:20am for new province. 1/12- WBFQ-570 @ 12:04, poor. I have heard only WFAA till then on numerous occasions. MM 1/17- I heard FNK-1530 11:20-12:04am for Calif. #2. WEL-1290 gave ID: 2:30 w/somebody testing w/c/o/wx, who? Also FF-1280 @ 2:49, believe CJMS. Anybody know for sure? (Both CJMS & CKEV are AN-FF, Mike -ERB) WXK-1480 Baton Rouge @ 3:23am, ruining all chances of CJOT-DX. 1/31- I noted CBC on 1010, believed CER, Edmonton. 2/1- I got one ID from KGBS-740 San Francisco u/CBE @ 4am. School cuts down DX considerably, so mainly confined to MMs & Wednesday DXMs. Incidentally I heard WYSE-1650-DX but due to postal service, I had only 11/27 DX NEWS on hand so I reported them as WYES. They probably never got it. Daniel Burstein of NY, your 750 R. Reloj is WORA Mayaguez PR. 750, the one here is HJXJ, La Voz de Antioquia, Medellin, belongs to Caracol Network which uses slogan "los primeros con las ultimas" before & after NCA’s. Also the EE on 760 is JHC, Port Maria. 1000 I would say HJXJ La Voz de Cucuta. Incidentally Ernie, your SS-1460 noted as late as 3am o/the Christmas holidays was HJAI, Radio Sincelejo. Robert Bruns, your AN SS-1505 12/27 was HJXJ La Voz Panamericana, Floridablanca. Watch out for many LAs on late during Carnivals second & third week in February. Also many are off Easter weekend like HJAY-1580 etc. Latter went off the air Friday @ midnight & returned Sunday evening. That’s all for now, & watch out for the Yankees in ’66. Till next time, 73. Steve Beaull - 307 Second Avenue - Osceola Mills, Pennsylvania - 16666

Bit of DX goes like this: 1/23- WXUR-590 Pa. 4:35-4:40pm w/WLFH/CEB in back. WKAN-1320 ILL 5:20pm. 1/23- WPCF-1500 Conn. w/road DX & closings, s/off 4:45pm. WBC-950 SC, ads for country records, 5:20pm. I wonder how many DXers tried for late evening broadcasts from daylight stations. WBFQ-1230 Philadelphia, Pa. s/off @ 9:30pm on 1/30. On 1/31 they s/off @ 11pm. Their S s/off is 5:15pm. WBFD-1310 Bedford, Pa. were on late on 1/30, WCIA-900 Clearfield, PA. 83 Jan. s/on 7:45am, came on the air 5:30 on 1/31. On 2/1 they s/on @ 6:30 am for local school closings & other emergency. Henry T. Tyndall Jr., I have five EKCO stamps I didn’t buy (10% ones sent to me for good reports I guess, hi), from WBBN WJJS WJBY WQX WTRT. Richard Pashley, your WQDL could be WQLS-1560 in Port Washington, Wis. Ralph Johannes, I’m w/you 100%, all AES should have one night off. Maybe all DX Clubs could get together on this & on a certain date barrage the FCC w/letters & cards from every member. All stations testing should ID, too. Bye now.

Stan Morse - route 3 - Bradford, Massachusetts - 01332

Verdis from CKFN leaves seven Quebecs unverified. 1/31- WHMC-1150 Gaithersburg, Md. AN o/WDEL, both for storm. Spaniard on 1283 gave list of about 50 stations @ 1:30. WKAP-1320 AN storm show. WBX-1270 off AN, CDX on top. CHOY-1350 Sydney, NS AN u/KMMN & equal to WEFB w/phone interviews & asking for cards. Only gave call once in an hour & that was musical ID so not sure it is correct. (CHEF, Stan -ERC) WILAN-1290 AN for storm, also WEST-HO. No WJNZ 2/1. I think your 1024 SS is EAAB-1025, strong here past three MMS as late as 4:30am.

Richard C. Goldfinger - Tatomuck Road - Pound Ridge, New York - 10576

Hi! I am a High School sophomore & have been interested in EGB DX for about a year & a half, but only recently have hit the "old DX trail" hard. I have 25/33 states heard verified, 3/7 provinces H/N, & about 5/30 countries H/7. Right now I am mainly interested in Canadian & Domestic DX. Recent DX includes: KSL-1160 12/27, CBN-640 2/2 5:30 pm, KGBS-1250 1/17, KGBS-1220 12/20 3:20pm. I haven’t been able to get in much DXing lately because of midterms but now that they are over I should be able to fasten up my log. I’d like to correspond w/nearly anyone on DXing, so please feel free to write. Oh yeah, upon Fading I see I forgot the times on KSL & KOMA. They are 2am & 21:20am, respectively. 73. (Welcome to the NRE, Richard, & we hope you Muse often! -ERC)

Robert Feulner - 17305 70 Court - Tinley Park, Illinois

It is been several issues since my name has appeared in DX NEWS, so for the benefit of our newer members I feel I should re-introduce myself. I am a freshman at Bradley(F.7)
(Robert Feulner) Bradley University (Peoria, Ill.), & next March will be starting my fifth year as an NRC member. My RX is a Zenith table model, which has five tubes & a newly installed interference filter. Totals are 101C/400, w/my best catch being Aghadir-935. I also have around 300 CMs. Anyone wishing to trade CMs for a W1KH SC, or anything else, please write. My Peoria address is Box 115, 1307 West Bradley Avenue. This Musing is being written at home while on my semester break, & it really feels good to be back at the dials. 1/1 I heard KLPM-1390 Minot, ND s/off @ 1:05 v/local WNUS. I caught the ID of KEYD-1220 Oakes, ND on f/c @ 3am. I listened to an OC on 1220 for the next half hour, but no IDs heard. Glad to hear KEYD though, as I have yet to hear them on SSB. At 3:25 I noticed some doppler coming from 1230K & expected it to be local WJOE. Instead, it turned out to be KTRF, Thief River Falls, Minn. opera test. They played polka mx & IDed @ 3:32 & 4:05. I am glad I managed to get WJKL & WOAP verified, for the new WW1I-1060 really booms in. The other night around 10:00, I was using my telephone as an antenna w/my transistor radio, & noticed some very strange effects. On 79K, I was quite surprised to hear KYO Lubbock, Tex. & KHJL Hillings, Mont. fighting each other, while at the same time on my Zenith, all I could hear was WYAR/WG. I have never heard KYO before, & I had always assumed that KHJL could be heard only on a BM. Using the same set-up during the daytime, I notice that WMAP-1590 & WEEF-1430 which are both directional away from this area come in so good it would seem they are non-directional. Also, on 800K, KXIC Iowa City can be heard w/o QA, while at the same time on the Zenith, only WZT & KQWW can be heard. This whole situation has me perplexed, so any explanation would be appreciated. Latest veres include WNIK WFDX WKMW WJMS. The "Information Survey" is quite interesting, as are Gordon Nelson's fine articles. Well, 73s & good DX.

Gray Simeon - 1105 Virginia Way - La Jolla, California - 92037

We all had a good time at the Santa Barbara BCB DX get-together on 1/28-30. Those attending were Larry Godwin of Berkeley, Art Peterson of San Pablo, Jon Clark from Palo Alto, Jim T. Arthur of San Jose, Bob Comler from San Luis Obispo, & Randy Seaver & myself from down here. We notice that KOER-910 is now SS programming. The only DX was on Larry's car radio on SM - KAIM & KWNN. Other activities were a trip to Solvang (a Danish village N of SE), a visit to KACL for some, listening to tapes, & of course gabling & eating! The KGHO-1560 TEST was heard easily in LD; thanks to Sam Johnson for the warning note. TOS seem to be creeping up in signal strength again; mostly the Asian Mainland. Yangyang has drifted up a few kHz's & is about 877- plus right now. This outlet is heard well before 655k is audible, & almost an hour before the 835K Chinese station fades into audibility (about 4:10am on 2/3). Gordon, maybe you can deduce a general location from some fade in measurements I'm making on 835K. So, Leo, I'm not Sun Tat Sen's grandson; I'm his grandfather! Recent veres from KGHO KERC, KBER-910 has been off a few times lately on MM, so KALL ET on 1/31 at 5:18 reported. KISN testing at the same time. Why are the Hawaiian stations so hard to verify? My last four reports have been overlooked. In fact, only 3/17 there. 73.

Dave Schmidt - 154 Green Lane - Green Ridge - Chester, Pennsylvania - 19014

Well, here we are again! Much DX per usual, I must be getting as bad as Steve! 1/30- WILK-980, another Pa. 1/31, no school, KVOO-1170 very clear @ 1:30, KOA-860 finally noted on top for report @ 2am s/off, & WSUN-620 reading reports from Cal. @ 3am. 2/1, no school again. WPG-1560 @ 5:30pm s/off, WRCG-1280 o/WADD @ 5:35, & WWDL-1600 v/w WEEZ spread @ 5:54. On 2/2, I found the way to get rid of WEEZ, at least to an S-5, WEA-1580 @ 5:15pm on a f/c, & WWKL-1680 @ 5:15pm. 2/3- WWDL-1680 another Pa., @ 5:45 pm s/off. Really more varies in, total 248 in 38 states w/these: WHBO-1480, 200 v/ga, WMNA-730 v/l & CM, WDEG-960 w/l, WHEB-750 v/q for NH #2, & WILK-980 v/q. I just sent for WJ Log, old one in 500 places, hi. How to verify in Alaska - put Leo on a dog sled w/five drunk huskies & send it to the front door of KQRF w/nds attached, "Please answer reports as you're the only chance for Alaska." Save your firewater, Leo, I can't use it (yet)! Wanna help WSPD answer quicker? Call person to person & YOU pay for the call! Many ANERs on 1/31 due to snow. They were WDOV-1410 WRAF-1320 WCOH-960 WDEG-1150 WGAU-1210 WHEB-590 & WQMB-1460. Who is SEE w/KTFP w/WET off? (CDE-ERG) Al, so, something that might work on WDOV. I have an uncle who lives two miles from WDOV's four tower XR site, so next time I go down, I'm calling up & going to see someone or something about reports. It may help, so keep your fingers crossed. 73 & see you next week.

LET'S KEEP THE MUSINGS COMING, BOYS! REMEMBER OUR DEADLINE IS EVERY TUESDAY. THIRTY LINES MAXIMUM PER MUSE. PLEASE GIVE DATE-TIME-KILOCYCLES!
Hi fellow DXers.  The CX the past few weeks haven't been too good, but I managed to log a few new ones.  1/20- WQEC-1590 @ 5:14 pm; WABY-1400 @ 5:23; & WND-670 @ 10:30 w/ very strong signals.  1/22- WIOO-1000 (finally) @ 4:30 pm off, WHAD-1000 @ 5:02 s. off.  They didn't verify my first report, so I'll try again.  WENO-1220 @ 5:10 pm; 1/23- WZBY-1350 @ 1:30 pm; 1/21 WNGC-910 @ 6am s/son.  I had hoped to be up this past weekend (1/31) but the craziest thing happened.  In my sleep I must have hit the alarm clock w/my arm, because upon awakening at 6:00 (crazily enough), I found it on the floor; of course w/the alarm turned off!  Back to DX.  2/1- WHCU-820 @ 5:20 pm; WCL-1120 @ 5:30.  Bill Alissiakas, today (2/1) at 5:30 pm, also heard your station at 1580 w/CST.  I couldn't make out the TD.  This week has brought no veries at all.  How do you like that? I have another pair of questions: A number of people have told me the HQ-180 is noted to have a lot of trouble from images.  Is that true?  Second, when is the best time to look for 4W-1325 D. Schmidt: WPAC I believe doesn't verify.  Two reports failed to bring a reply.  WHLM verified promptly w/a nice letter.  Trying sending to Mr. Anthony F. Hogg, SE.  I guess I've said enough, so 73s & good DX. (4W is easiest Mon. nights w/POW w/WVDF silent).  

Vinny Cavaresco - 111-20 & 134th Ave - South Ozone Park, New York - 11420

Hi fellow members.  DX has been sparse during Dec., a little better in Jan.  Veries poor for both months.  12/27- KFJS-1270 @ 2:22 am; KFIL-1400 w/KCEO-1400 @ 2:55, taped report sent, no reply.  unID TT/tx on 1510 from 3:32-4:05; WCBS-1440 @ 4:20; CKN-360 s/on @ 4:58 am.  1/3- KGB copied, KCTX-1510 f/c in very well @ 2:10 pm; CKK-980 @ 3:47 pm.  1/6, day: WANN-1190 ID @ 12:30 pm w/BLER nulling, WQSL-730 4:30 pm, first time here at home, WPJL till 5:14 s/off.  Then WJLY after 5:15 s/off w/WFRT.  1/8- WQEC-1590 BT @ 1:43 am; 1/10- SSB, WSL-1620 @ 5:20; WQEB-1170 @ 5:30 u/WWVA.  1/11- WPAC-740 @ 4:25 pm; 1/12- WQEC-910 @ 5:30 s/off; WBA-880 @ 5:40 power change; unID/WMZ-540 @ 6:05, & the surprise of the night, CHOK-1070 which has been heard here since 9/2/62, 3 1/2 years.  1/16- Copy on KJNO, CKK-1320.  1/20- WCBO-1310 f/c @ 1:40-1:50 pm; WOBN-1350 f/c w/ID @ 2 am; unm WWRE-1360 f/ce ending @ 2:16.  All f/c's were TTS.  Much later that day, XEWA-540 @ 11:28 w/mention of call letters; EJJA-540 Bogota (is this the right one?) w/ XERA looped.  1/27- KCA-850 coming in very nicely at midnight, so naturally a report sent.  1/31- KCCC-1170 copy from 12:40 to 1am s/off; WDAY-970 w/ID squeaking through @ 2am s/off u/WWVA; WCOB-1150 on for a few moments @ 2:15; KLF-1190 @ 2:26.  KLF finally made it through the 4W relay which is the dominant occupant of 1190 on Mondays; CHU-1110 ID @ 3:24 w/WBT off; WQEB-980 Monitor, Wis. 3:32-7:51 f/c.  WCIN came in quite well w/the loop aimed NW.  Considering all the AMers on 980.  CKKN-980 3:50 pm; 2/1- KFJS-960 f/c @ 1:04; WTHG-960 f/c @ 2:15. Veries: WGOH WRRB (for 250W. non-DA reception on 11/15) WAIT CHOK KJNO.  Auf Wiedersehen, Mein Freunden (und Freundinnen, of any are reading.)

Wayne Heinen - 126 Linwood Ave - Orchard Park, New York - 14127

Hi all, from the Land of the Two-Day School Week.  Due to the white stuff, DX was no school 1/31, 2/1/2-3.  It took three days to clear out the roads in the sticks.  DX: 1/29- I copied the new WIXY-1860 w/ss from 4:15-4:35 pm which indicated 4am s/on or AM, but I think it is a 4am s/on.  1/31- Hurley, a MM but still w/the Pro. (P.9)
(Wayne Heinain) I noted AN for the snow W2BE-1590, WETA-1490, WGAU-1210, WKB-1320 WCM-1460. Ralphie says W2GC-960 also. At 1:30am noted unm W2KO-1580 on ET/TT. Many unID TT this AM, also very much static. 3:33am intermittent cpy on KFBM-1240 DX w/WBE-W2DC-WINN & who knows making a mess of the frequency. AM of 2/1 I copied WSGO-1440 on w/emergency broadcast till 12:59am. Oswego got (hold on) 102" & that's fact. 2/1 PM W2FC-940 1/4 QRM till 5:45pm s/off. WJAC-1130 Emisca Riosar on 1135 for good report on 2/1 & today 2/4 from 11:25pm-12:02am s/off, reports off. Colombian #2. 2/2 AM WVTB-1590 r/c-ITT s/1em o/WAKR/WISZ. At 1:30 I logged WU-1070 on r/c-M. At 1:45, I went to WISZ way o/WAKR on 1590. WUFO-1380 in Buffalo said they will var all reports, when mine comes back I'll let you know. D. Schmitt, try a WP on W2GM if all else fails. All DX on in Feb was on the REB-4. New varers: v/q W2KOP-1360-DX WING-1410 WRJ-760 R. Americas, Lisbon-665. v/1-WJBY-1230. Lisbon varing for "6025K, @ 1:56-2:17 on 12/30/35." My report was far better, 11:55pm-12:14am on 12/30. I shall count this until I report them again. ERC, any luck w/757? If not I'll send you one of their "Report Forms," huh? (Report still out -ERC) In VJ's delete CHIC-1060 & add WNB-1000 as they aren't listed. Totals are now 237/180, provinces 7/7, ctates 19/7, states 41/34. All people NOTICE, WSPD's telephone line is open 2:30-2:305pm at Toledo, Cherry 9-900. All people can call collect. See you all in Montreal (it rhymes!)

Ralph J. Mann -- 10 East Chippewa Street - Buffalo, New York -- 14206

V/1, Ch & pictures, W2BY-930, Gadsden FC, Box 1370, Gadsden, Ala. v/1 1/28/36 @ 3:42 am f/0-ITT @ W2BY was originally at 1340K (so is my '46 v/1) from 1928-34 when it went silent; Charles F. Bomen (now Ch of W2BY-930) started work at W2BY when he was 16, then to Navy Service, & when he returned to W2BY he & I became the 2 main men. Ray Sheehan's 600 feet & only has intermittent tests. s/on 5am EST (SM 7am). Miss ex-cler 1240R Jeffie Mielke, Secy-Ekpr/CCA/Dir, remembers William Pigg, then CEC, very well. Above is a very interesting v/1 etc. by Calvin Williamson, CE. 2/3-Reprt to W2KX-1290 w/text-call @ 4:03am (KOL/W1RL Co.) then SSB s/on 4:05 etc, good till W2KX s/on 4:55 3/4 AM. WNB s/on 5:28am. 2/2, I had @ 4am. CJCC-860, while CCL-770 was 60, CJCC-60 had CECR (no call), CJCC/W2BU/BNB, CECY maybe the CECR. Second report to WPHE-1260 on 1/31 when @ 5:59 WFBM IDs @ 5:50, W2WN, Erie s/on, then came in WPHE to 5:45 etc. Next, KFBM-1240-DX (u/W2BAX/W2FC) 3-3:33am TT w/two calls heard, later a no call TTer, earlier took W2BO Salisbury 2d, AN-Storm, while here, 16" of snow & now living 5mph whiz. The W2KX-960 (notified too late for DX NEWS) Farmington MN, 3:30-3:45 f/c & rest of W2B was nulled by snowstorm, even Wayne Heinain's school was closed four days. I believe Stan L. drinks too much Dr. P. stuff & so writes 26 letters to one station! Fire 2/2 in Trumbull Conn destroyed a building w/W2ZP-7M (WICO's) & WSNU of S.M. University. 2/1, I heard r/c-ITT of WRF-860 but quit 1:56am, believe KONO (off Tues.) TTed after; a poor TTer on 830 w/W2RO AN noted 2:10-2:26, r/c-ITT by KEYD-1220 (that female voice) strong 2:30-3; no talk-960 TTer (u/CHNS AN) 3:15-3:32 etc. (Does it often?) 2/6-8M r/c-ITT KCI-1380 had OX TT but poor voice. W2KN AN strong & W2BNX-55 poor. During it was CKPO ES to 1:10 s/off. 1160 (WBAN 56' off) had WHAM TTing to 2:03 s/off, then a Cuban jammer. 970 had no-call TT to 2:14 (local W2ERB goes to @ 2am) then W2SW5/CHK while W2JZ didn't show till 2:47. 980 had that last TT again 3:15 etc. KNEB580 in like a local & K2FI topped Castro. 800 strong CKQ-T/SUN. 610 (CKTB s/off) WIP & ?? there, temperature was 43°. Wayne H. & C. Radier made a winter excursion to Buffalo but missed me & so didn't see DX NEWS as I got mine Sat. AM, nice going RHC & your Sweetie-Pie! W2B's groundhog saw his shadow, so 73s now.

Russ Edmunds -- Box 77 -- 303 Stadium Place -- Syracuse, New York -- 13210

Hello again. Well as of 2/4, I'll be back at school after a return delayed by snow. Among my latest acquisitions is a Sprague line-noise filter, which is a filter to end all filters. Here's hoping it works! In addition to all else, my log reveals a few omissions in mine: My 501st logging was WHO-690 Birmingham for Ala. #1, not enough for report of 5pm 1/24 s/off. Heard r/c of ??-1050 Pa. u/WHN. I counted it but didn't log it into my main log. So far 98 stations this season, 54 since 1/7. Is my 960 TTer W2BN or W2KR? My 950 TT might be the new Stephenville outlet near by Stan Morse asking for collect pence calls. I guess I'll try again this week! I see W2BE-1440 is AN-5, OJ has 'em day only, so check that. Visit to DC area 1/25-26 yielded visit to W2KX-1600 & W2ML-320. Speaking of DC, I wish WOL-1450 would work. 2/3, I called W2LT to see why no varies yet. CE said he'd check w/Mr. Kease, who did the program. W2SGO-1440 will do a DX in early March after they get dug out from 9' of snow. More on that)
Hi guys. It's been a long time - sorry - but school work is impossible this year, & DX has been extremely limited. Also, w/stations harder to come by, things have slowed down considerably o/last year's pace. Anyway, here's DX for the last three months:
12/6 - WCLC-1230 r/c @ 2:15am, WMAI-1480 TEST heard well, WARE-790 @ 4:13pm, WNAB-1310 @ 4:43pm, 12/7 - CEB-1110 @ 5:14pm, 12/26 - WDAE-1250 @ 5:01am, 12/27-MW-3WOC-1500 TEST, heard TT, no I/Ds; WHOW-630 AN, CHG-590 heard CBC stuff u/CFB, must be they - who else, @ 2:23am. WIG-30-30 DX good u/TT. 12/28 - WIED-1290 @ 12:30am. 12/31 - CHIC-1450 @ 12:01 s/off. 1/12 - WRAI-1510 @ 5pm. 1/14 - WVEL-1430 @ 5:10am, WIV-1370 @ 4:30 s/o on MM 1/17 - KXMR-1150 @ 1:32am. 1/22 - WCCL-1570 @ 5:31pm. 1/23- WARD /WMER-1490 @ 1:05am, WJXR-1580 @ 12:17 r/c-TT u/WKND. 1/25 - KATL-660 @ 2:07am s/off, WMI-1380 AN. 1/24-MM- WTON-1240 r/c. 1/25 - WNSC-1570 @ 5am. 1/26 - WGR-1520 @ 5:07am as I missed their TEST, KWSX-1020 (1/31) @ 1:30am, then I went to sleep. I got up the next AM & found no school - rats. 2/2 - WDDH-1410, WLBJ-1410 @ 6:15pm. 2/3 - WCNX-1560 6:12pm announcing power at 1,000w. KYND-1560 Tempe, Ariz. finally, after two years of trying, in from 8-9:15pm s/off. 2/5 - KCII-1380 r/c @ 1:13am. That's it. Nothing really great save KYND. Eric Nelson, I am finally getting the mechanical filter for the HE-30; I hope it helps. I have been monitoring 1680 lately - I hear lots of SSB s/off, but no I/Ds, irat. No veries have come in - no reports out - that's the reason. Best DX catches have been those China receptions by our own dynamic duo, Ben & Gordon. Nice going. I hope to be using more often from now on. MM DX just isn't the same any more. I hope trouble hearing the easy W/C's, howcum? Ernie, did you ever get my mug shot? Fell lucky if you didn't, hi. 73 for now & good DX. (I got it & many thanks! - ERC)

Greg Senko - 111 Forest Avenue - West Long Branch, New Jersey - 07764

Hi. Good week this time, pulling in two more states & my first TA. 1/20- WKSC-1300, SC, @ 4:39am, WIST-1240 NC, @ 4:51, WFFI-310, O. @ 5:30, WOKY-920 Wis. @ 5:51, WGBI-910 Pa. @ 6am. MM 1/31, school was closed on account of the snow, & I was able to get in my most productive morning yet. CKEY-590, Ont. @ 1:14am; EBC-881 Walsan Home Service, Wales, for my first TA 1:45-2:15; WDEL-1150, Del. @ 2:37am, state #25, completing all states E of the Mississippi; WARD-1490 Pa. @ 2:47am, WHEL-1310, Va. @ 3:04; KFZ-1270, Tex. @ 3:12; WBFX-1260 Ind. @ 3:19, WWDC-1250 3/12, KGES-1020 Cal. @ 4am, state #36, & first W/C's; WWOX-1480, NC @ 4:35am. 2/2 - WBBM-1550 NY @ 5:06pm; WRIC-1470 Mass. 5:10 pm, WJW-900 Del. @ 5:45pm s/off. After trying for all this time to get one from Del., I get two within three days! 2/3- WBEZ-1360 NJ @ 5:06pm; WASA-1330 Md. @ 5:45pm s/off. 2/4- WBAZ-1550 NY @ 5pm. Total heard, 449. v/q - WLZB. Ernie, you must love self-torture, but since you have asked for pictures, I have enclosed a shot of me & my best friend, the Loop, hi. Until next week, I shall say 73's & the best of DXing to all. (Thanks for the fine snap, Greg! - ERC)

Geoff Trower - Lewes House - Natal Road - Brighton 7, Sussex, England

A distinct drop has occurred in TA reception here, logging new stations is getting difficult. 1/15- CHER-950 new in Sydney, NS on air 12/21, uses slogan "Caesar Radio" in fair u/o CKCP/WLCP/WPEN. 1/18- XEAL-1320 @ 3am very loud for listed 1,000w. 1/29- WNNY-1310 @ WREJ, a sign of above average DX. Up on 1320 I heard WISL at same time, 2 am, but not enough for report. 1/30- Radio Turen, Venezuela running 1410 for U.S. above everything except WFOF. I tried for WPPA-1360-DX, heard tones @ 3:32 below "Cocktails for Two", no ID on either. Veries in from WHE, first U.K. report, KALY for State #35, WIRE CHEER. Reports out & overdue from CFOR CXC WMK & others, a f/up brought by from WFTL-1400. The 1/1 issue of DX NEWS arrived here 1/31, a record of some sort I should think. That clears a poor three week period, hope things improve in Spring. 73.

Bob Pietsch - 10 Milland Drive, #11 - Mill Valley, California - 94941

Latest Musing from this DX Den shows the following new logs: 1/9- CKRD-850 3:27am like a local, Alt. #16, only six more to complete province, not including LPRTS. 1/28- WLDG-1180 8:15am u/WHJJ, KHLI/XEML-1250 about even 8:30am. It's been into the bad habit of sleeping through alarums on MMs, something I don't want to do too often during the winter season. Don K., your idea about a get-together at the Hotel sounds great! I hope you can swing it! Veries of late: CKYL-610 v/q for NNR DX, CQDJ-910, CKSB-1050 KFBC-710 v/q, CKEB-850 v/q, KFBB-860 v/q (eight months) CJRC-1290. Total 561/363. I hope to have a little more to report next time around. 73a.
Time for my semi-annual contribution to these pages. DX has been non-descript, highlighted by KFJM. My thanks to the CPC for lining it up. The KFW was very quiet. I sent quite a packet. The new VJ Log is a terrific help, but I've noticed a few errors. KBN-1370 was left out; WANN-970 Va. should be, I think, WANN; move WSW-1205 to 137; then, does anybody know if the following stations, left out of VJ-3, have been deleted? CH6S-1090, St. Jean, Que., WHZ-1300 (ex-PFHT) Hazleton, Pa.; WMP-1380 Shippensburg, Pa. (Only WZRN is deleted - ERC). I know it's a hard job to keep a log like that up to date, & I think WNJ Jones has done a great job. Lastly, does anybody know who s/off 5:45 pm in Feb. on 1380 w/ Lord's Prayer? Also, who had ET-1580 1/31 between 2:30 & 2:45 pm? I missed the ID. Is WTB the AN-er on 1380 in SSB? (Yes-ERC) That's about it from one of the only schools in the U.S. w/3% of its seniors in the NRC!!

DX has been good here lately. I get new stations nearly every time I turn on the RX. I got the new VJ Log. It's quite a change from the first edition I was using. Now to DX: 1/24-5 pm, WCDL-1440 s/off, then @ 5:15 unID s/off w/Dixie on 1360. 1/26-4:35 pm, WJAS-1300, 5:21 WHIC-540, 5:29 WTVN-540. 1/28-1:21 pm, WHIC-540 for #12 on 540. 1/30-7:05 pm, WOOC-960 operating w/daytime power & radiation due to snow. They were AN. 1/31-WMK-1280 WGCC-1270 s/off w/singing Lord's Prayer; 12:41 KFPZ-1270, 1300 KBO-770 rough behind WABC ET/TT but good log until 2:05. 2:30, unm KMN-950 real strong. 2:37 WCO-1400. 2/2-5:29 am, WOSG-1300 s/off. 5:31, WWCH-1300. 5:42 WSU-1280. Verity rather slow this week. v/g- WZOP-1360 DX CBL-740 WYK-820 WIC-1070, & package from KFJM-TEST. I wish WSST & WYF would send out veries for their Specials. They are two of my long outstanding reports. Another is KDMN. Anybody have a recent verie from them? I have sent two long reports w/no answer. Another due soon 73s to all.

G. Harley Delaunes - Box 338 - Kitzmiller, Maryland - 21539

The latest news here is that Keyser, W.Va. now has a new station. It is WZQL & operates on 1390kHz w/a power of 1,000W. The Potomac Broadcasting Co. bought the old facilities of WKYR. The owner of Potomac (WQLP) used to be the owner of WKYR. It seems like WCLP has all of the old WKYR's advertisers in Keyser. For a new station it really has a long list of sponsors. The letters WCLP signify Westport, Keyser, Luke, Piedmont. Westport & Luke are in Allegany Co., Md., & Keyser & Piedmont are in Mineral Co., W.Va. I was thinking those letters should have stood for West Vindex, Kitzmiller, Louise, Peewee. All in the Kitzmiller District of Garrett Co., Md. As I am typing this I just heard a good advertisement on local WSIG, Oakland. If you want a new pair of pants, buy them at Barkwood's in Kangood, W.Va. They will offer you 50% on your old pants! This is the first time I ever heard of trading in your pants. I'm still laughing at it. I think I'll drive over there to check it out, hi. It must be part of Pres. Johnson's poverty program, for poverty-filled Appalachia. Veries in from CFA-510, Ottawa, Ont. (150 Isabella St.); WGEN-1430 Panama City Beach, Fla. 32407 (Box 1173); WGBZ-780 Dunn, NC 28334 (Box 431); WIGS-1330 Governor, NY 13442 (123 E. Main St.); WFRG-1330 Providence, RI 02902; WHEV-990 Narrows, Va. 24124; WJES-1450 Spring Lake, NC 28390 (Box 725); WJZH-1360, Hyatt, Mass. 01631 (136 Broad St) CKFZ-580 Kapsuken, Ont. (24 Byrd Ave.); WJER-1450 Dover, O. 44622 (646 Boulevard); WYSE-1560 Inverness, Fla. 32560 (Box 355); WYR-740 Williamsburg, Va. 23165 (Box 180, Ironbound Rd.); WZS-1560 Columbia, SC 29201; & WMVB-1440, Millville, NJ 08332. I might say it is still snowing w/wdry o/o on already on the ground. For several days we've been snowing in w/n school for off a week. 73s.

Bob Zwier - 355 West 20 Street - Holland, Michigan - 49426

First a note to Bill Alisedauskas; your r/r-1580 in CST could be KFDF. Now down to DX: 1/27- WHEB-1450 @ 6:29 pm & CJFR-1600 6:31 (do they vary?) 1/28- KHJO-1500 w/rr @ 6:17 pm, KIRA-1500 s/off 6:15. WLAP-630 @ 11:31 pm, WELCO-630 w/WX @ 11:50 pm. 1/29- WJER-1440 @ 12:20 am, KBO-1450 @ 12:25, WJEM-1450 12:30, WYIT-580 @ 1am w/no sign of WOBN, & WMY- 970 w/local DX @ 1:03. 1/31- WDAF-510 1:22 am w/WIP, KREC-560 @ 1:34; WOTC-1380 s/off @ 2am; WJER-1280 @ 2:05 am w/WX, & KKJO-1380 2:10. Now for a few questions. 1/29- What is s/off-790 @ 12:06 am w/SSR? 1/31- KFDF-950 the two s/off on 1310 @ 12:58 am w/"My Country Tis of Thee" & SSB? What is s/off-1460 or 1470 @ 5:45 pm w/SSR? And for about a week I have heard a s/off-1490 1:05 am in CST w/1,000W. The letters were W-73. Any help would be very much appreciated. Veries: WJLS-940 (saying now AN) KFJM w/other info plus a unique verie. Is anyone compiling a list of the mistakes in the VJ Log? It would be appreciated by anyone who is late in buying one & doesn't want to look it up in the publication. I stayed up for WCLP TEST 2/1 but nothing heard. Does KCLM verie? Well, enough for now. 73s.
Hi guy! Well, DX is now OK after getting off to a slow start in the first half of Jan. First of all a couple of notes: KWK has now been granted a reprieve until 2/28. WSTT, Allendale, SC has changed its call to WDOG. Also KGKE Tyler, Tex. is now KDOG & the old KKDO is now KZAK. I read where WCCO Minneapolis is requesting operation on 830 w/a power to 750w. 100 boy, what next! Here in Texas, the ALL-TEX Network has gone off all the way. This network consists of KAVA KEES KDOX KYAL, all in Texas. Now to some of my latest DX: 1/1- CKXL-1140 Canada @ 2:10am w/c/w.; KGHM-1140 Idaho @ 2:35am, RS; CKWY-1150 Canada @ 3:20; KS, GSKY-1060 Canada @ 3:25am FT. 1/2- KGFL-1430 NM @ 2:30am w/f/c. 1/3- KNEZ-960 Cal. @ 3:05am w/NBC DX; KABL-960 Cal. @ 3:15; RS. 1/4- KSWF-1040 NM @ 7:55pm on RS. 1/10- KFJH-1370 NC @ 2am w/TEST; WAER-1440 Fla. 4am w/NBC DX. 1/11- KITK-630 La. @ 5:20pm RS. 1/12- KKNR-980 Mexico @ 7:40pm RS/SC. 1/13- KTRV-750 La. @ 6:15pm RS; KAGH-800 Ark. @ 6:27pm RS; KFTO-790 Texas @ 7:30pm RS; KTRK-850 Mexico @ 9:35pm. 1/16- WAFJ-1490 Ala. @ 2:15am w/PoP test; WYKJ-1100 0. @ 3:30pm. RS. 1/17- WTEC-1260 Ala. @ 2am RS; WCRO-1260 Pa. @ 3:16am w/NBC DX; WOJB-1230 @ 3:19am; RS; WKLI-1260 Ga. @ 3:30 testing. 1/18- WCSC-1420 Miss. @ 1:20am w/TT; WOUL-1240 Ala. at 1:20am RS; KWOC-930 Mo. @ 1:55am testing; WDAX-540 Ga. @ 2:55 RS-Tr; ZKES-960 Mexico @ 3:30am w/SS mx on test; WDXN-540 Tenn. @ 2:25am. Well, I'll see you gentlemen in 7, so 73 & remember, 'Early to Bed, Early to Rise, Work Like Heck & Advertise - on WJKB.'

Oh by the way, Ernie - I heard something you might be interested in. WNEE was running ET's on 1/17 @ 2:47 using recipes. Damn, I wish I was taping at that time! (Why me, Dan? I can't even boil water! - ENC)

Jeff Kadet - 8047 Park Overlook Drive - Vestavia, Maryland - 20034

#17. Some welcomed verities in this week: v/l- KLTR KFYR WSEL KNYO CFYX WBRO KEBO. v/q- WFTO WKFQ-DX KSL WSPA. Totals: state; 49/43 & provinces, 10/7. Still need verities from Indi., Nev. NJ, Ore., RI, SC, NE & Que. A lot are easy but I've been too lazy to send reports to them. DX: 1/27- Unm WHRN-1440 f/c-150 12:15-12:45am. Pretty sure there was no 1180 jammer around 1:40 but it was back later on. Unm WJFC-1480 r/c-150 2-2:10, WEFJ-1540 r/c-150 2:15-3:30. 1/28- WMSK-1550 f/c-1 TT; 3:37am. 1/29- CST ET-750 3:16am. 1/30- Unm WORP-1540 s/on 7:15am. Now that they've changed their call, why are they still owned by the "WJMK Broadcasting Corp." Unm WLS-556 6pm w/my 50' longwire blown down by high winds. I put up an auxiliary one for cases like this but that blew down too, hi. Both antennas have to be constructed out of thin wire as outside aerials (even TV antennas) aren't allowed in this housing development. From 1/31- Above average GX even w/the antenna lying across the garage roof. CJKL-1220 s/off 12:36 mentioning f/c- CKDR-900, I believe. SSB-1490 12:55f WAFJ-1490 s/off 1:05 (#20 on 1490), unm WKKO-1480 f/c-1 TT; 1:33; KSKS-1020 w/KGEM 1:40. SS-1025 w/US rr @ 1:557 Unm WJJR-1510 f/c-1 TT ending 3:25; WOLF-1490 2:18 possibly for snow, WSCB-1490 ET/M 2:27. TT-950 2:55? TT-600 3am? ET/7-730 3:11 ET/7-500 3:46. KFRO-1440 w/KXLF 3:46, WCWB-1590 for snow @ 4:03 (#15 on 1590), WAWX-1320 s/on 4:55, Wawa-1500 5:04 w/WOL not on yet. Unm WCWJ-1590 WECF-950 WBOB-960 Whic-1150 WCAU-1210 WDDC-1260 WJLB-1310 WDOV-1410 & WCMB-1460 on AN for snow emergency. Is KBEC-1480 still AN? Also I sent a 30 minute tape to KYMN-1550 which is hard to log since they give so few announcements. 2/1- I didn't find out about WJZT TEST in time. WSCB-1150 on AN again, KEYD-1220 r/c-1 TT 2:30-3am. 2/2- WTVB-1590 r/c-1 1-1:15am. Unk-1580 during brief silent period while WPGO was conducting an ESS test @ 11:20am. I worked on the RX & think I've got it dechewed. You can never be quite sure 2/an SY-100, though! I guess it was the WLYN TEST I heard earlier all. That makes the fifth Special I could have probably verified by sending a tentative to & didn't (WLYN WCRG WOOG KGIK WDXN) & WAER which I verified already. Eighteen Contest points, yoiks! This brings my heard log to 1,232 stations. 73.

Dave Whitemarsh - 264 Main Street West - Hamilton, Ontario

Only two new stations logged this past week! TIRICA-625 & WHMC-1150. WHMC was on AN M 1/31 for snowstorm emergency in Md. WBOC-960 was also noted on. A letter was received from KALF Mesa indicating they were unable to go on 1/11 due to a local power failure at their studio. Their XR is remotely controlled & operated from the studio. They have applied for a license to operate fulltime. CHRC-1090 St. Jean has been left off of VJ Log in all sections. Verities since last report: v/l- WEFB WTRC WISK WXYT KTRK CKRQ. v/q- WPDR WEGC WJFR WRFK EAG (State #39). v/c- WAPE. I have a Hammarlund HQ-100AC on order, it should arrive in about 3-4 weeks. I hope COKX woodstock DX goes on as stated 2/7. I'm anxious to see how far they get. Their effective daytime coverage is approximately eight miles from their XR. At a distance of 25 miles from their XR there is 60m from WUSC which seems to cover a 75 mile radius w/only half the power. 73's, & DX.
A colorful map of the Caribbean area, post card verl from Radio America-115, pinpoints their location as (recognizable) Swan Island, off the coast of Honduras, so "that's final!" Their address is Box 352, Miami 1, Fla., PHN-9 R. Bandeirantes, San Paulo, Brazil, 840K, sent me a very attractive manner, & nice v/1-EE. The latter report was out almost a year, & took six weeks for surface delivery - a case of "Better late than never." Ed Smith, the CE at out local, WPOW-1330 (Staten Island 10312) is a long-time appreciator of DX reports, but naturally wants reception, proven by program data before he'll verify.

No missing last week because I had absolutely nothing to report! Well, one station, hi) DX for the past two weeks: 1/35- WKEK-1550 (?) S-7 s/off at 5:14 pm. WTCQ-1030 S-2 @ 1:55pm for Conn, (I've had better catches than that for Conn. verle, hi) QSL. 1/30- WHOM-1480 S-5 3am s/off. WELM-1410 S-3 @ 12:16am. 1/31- KKLF-1370 S-2 @ 1:30-2am s/off for report. WJTN-1240 S-5 @ 3:04am. WYK-930 u/WTAT @ 3:13-3:15am, noted as good as KOAI; reported. 2/1- WINF-1150 S-6 noted AN for storm @ 3:14am. WCHR-610 S-8 8:14 pm. WORK-750 (I think) S-1 u/WJR @ 8:20pm. WSPF-1000 way way u/WGFI @ 9:02pm. 2/2- WABE-990 o/everything w/sports @ 4:19pm. WFOF-1390 S-5 @ 5:55pm. Reports out: KFMJ, f/up-WBEC, KXLY WWSB WHOK. Just got DX NEWS - Saturday! Great! I saw in Dave Whatmough's listing that KENO & KKLF are hard to get verified. Rats! I was all set to get Montaz, hi. And Dave, you also commented on the Binghamton stations - they have a terrific OM; WKOP-1360 v/q, WINR-660 v/l, CE lives on my street! WENE-1430 verifies w/ a mimeograph graph. Verifies real slow. Those: v/q- KOAM KATU WSGM (out six months) KSL v/l, none. Thanks to Jerry Bond for the great SCs - my letter to you goes out today. Robert Binam - thanks a lot for your 'PE card, but you forgot to include KLIN & KIDO SCs, hi. I'll send a bunch of WENE SCs to you today, too (2/6). Well, that's it for this time - I hope you all are enjoying the snow, hi. School was cancelled two days here. 73.

Wayne Plunkett - 124 John Street - Westport, Ontario

No 1/29 DX NEWS here as of 2/6 - first time late this season but no wonder, w/the WX that weekend. DX & Veris have taken somewhat of a dive lately. In last two weeks, Veris as follows: v/c- CKFM-1440, AN except 2-5am MMS, quite a few reports from Sweden & Denmark; WDOD-1560. v/l- KFJM-1370 w/assorted data; WBAC-540 WYSE-1560 KLII-1560. DX since last time: 1/3- CULX-800 AN this MM, as were WBBS & WNBC due to transit strike WABR-1440 ET ID @ 2:45, week before sked DX; KK-1380 ET ID @ 2:59; no go on KINZ-960 DX - CFAC/GHMS both strong. As for KGSO-1290-DX, I had TT at times on 1290, especially good @ 31/2 w/only KOIL to contend with (WIEF off?). Did KGSO run any TT? CEC-1240 @ 3:30, who? CFAC-1290 DX strong & clear - surprised to be able to squeak out GHH-1250 on those ponderous IDs u/CHWQ-00 WYH/EEMF. man. #10 here; 1330-SSE s/on again 3:54 w/ absolutely no ID - presume oddball WIEF; (WIEF s/on 8:15am, Wayne - WPOW's your man - ERC) AN SS-1370, definite ID is "R. Mundial" @ 3:57, HJXK, Bogota. Smith Chevrolet ads on 1370 around 4:14, WUTC, WTEB; who? @ 1/6- WCAL s/on 7am w/-SSB. 1/9- WXY-550 s/on 7:15am; WCOP-1640 s/on 7:46 for new call. 1/10- rr-710 @ 1:55, is WBB still on then? KFJQ-1370 TEST strong & clear throughout - interesting show; WABR-1300 ET ID @ 2:12, don't verle, ah Ralphie? Who had TT-1470 O/WMEB @ 2:15? Big A-1 AN-1400 is CJET; WHDE-850 fairly clear w/WIEF off again; presumed XERF-1090 w/plug for Great Mx, Box 140, San Diego @ 2:39; guest missed ID-ET-1260 w/ S, COG w/ 2:42 boating WIEF. On 560, WSAN-AN & TT w/code IDs, I believe; frustrating too, ABC Mx-920 @ 2:55, KRAM or KVEC, WOER? No ID @ 3am from TT-1330 u/WIEF; XELZ-1440 AN & strong this MM, seemed like elusive CBC mx on 1370 again but still not positive; KTMY-1460 clearest yet, practically 100% readable around 3:25. WLAB took care of KAYS/KKLF but good, seemed like second station on 1610 @ 3:19 but way way u/WLAB. Who had TT-990 u/OAM @ 3:35? On 800 someone switching OO off/on, instrumental mx & no talk, "Wagon Wheels" @ 3:49, anybody catch ID? Real weak mx-1480 3:50-3:55 sure didn't sound like KBOX - what is current? MM s/on for YOUS? WCHE-1440 pretty well buried WABR this week; WNYF-1360 heard clearly o/u WSLR 4:15, both c/w; WSF-1480-DX generally o/WZE who were late w/sen this MM; WPF-910 must have been the one mentioning Thunderstate 71 @ 4:24, WHEE-1300 just on OC @ 4:31 w/one weak station behind, imagine, WERE-WJR-WWHK all off at the same time! WLYN-1360 TEST was rough u/WASA but made it 4:0-4:46 when they hit the sack. Later, WBUX-1570 s/on 7:17 w/SSB. 1/11- No go w/needed CHOF-1350-DX, WSFR/KRTN too much. 1/12-What do you know? GBE-1560 actually s/off this Wed. @ 1:11, returned @ 9am. 73.
Steve Weinstein - 435 Jayson Avenue - Pittsburgh, Pennsylvania - 15228

Hi. Verities: v/1 - WEMM - WTJF - TEST. v/a - WFOF - DNXF - UNL Algerian-900. DX: 1/30-
WMTM-1300 9:01 p.m s/off. MM 1/31- WTJF-1410 1m ET/FM booming in. UnID s/off on 1400,
1:15m w/SSB. ET/TM on 1250 w/ID @ 1:19, closest I could come to calls was KXXA; might
possibly have been KSTT or KISD. Anybody else hear them? WBOC-960 1:47am on for snow.
WL0K-1340 2:58am AN. UnID ET/march mx on 730, 3:15-5:16m s/off. UnID ET/FM 3:17u w/

WJFM-1320 6am s/on. WTMa-1250 way on top 6:02pm (WRYT wasn't on this AM, but I could-
't tell the difference). UnID ET/FM on 1230 6:33pm w/rr. WJMD-1330 clear S-2 6:30am.
WJMD-1510 7am s/on top, w/WLAC off. WFTW-620 dominant @ 7:06am. WJLT-1310 7:16e s/
on. At SS, KJKO-1550 very clear 6:57pm (Kay-Joe). KFDF-1580 7pm s/off. Everybody
try for WJUL & WBPW! And send those reports to WBAAs now! 73s. KQV is back on their
AN-6 sked. Must have been DH trouble those two AMs.

Ben Sibbit - 128 Floraldale Drive - Cookeville, Ontario

2/3. Hi, everybody, verities in since last report are: CJKL WDBR "R. Americas" (country
#4) WHEC WDR WKBW WQAI WHAS WTL CFOR WKT KSL WIND, all v/1. v/1- CFTJ WQX WIP WHKY
(w/souvenir pencil), & KFTR w/verification sticker." My totals now are 23 states,
three provinces, & four countries verified. Few reports are going out due to the last
three WMs being complete flops. 1/10. KFJM TEST was very weak here, but a few IDs
were heard. 1/29. I was surprised to hear WMOJ-690 on until 9:30pm because of "emergency
WX conditions." They were at times way o/CB, also they were my first AMs. I've been
thinking about getting another RX lately & have made an offer to buy Jim Neff's HE-30.
That's all for now, & 73 till next time.

Ernest R. Cooper - 433 East 21 Street - Brooklyn, New York - 11236

More pictures this week; thanks to Rich Gula, Mike Silvestra, Dan Burstein & Greg Senko
for their snapshots, & thanks also to John Oldfield & Gray Scrimgeour for postcards.
They're most welcome, lads, and thanks so much! Verities: v/RFs in from WFOF-1320 WMTM-
1650 WJLT-1350, & v/q from Algerian-540, new country, & African #6 varied. DX Down the
Week: 2/4. Looking for WMOJ-690, I found WOKJ banging CB around @ 6:43pm, NN prog-
gramming. The Hi-- on 652 a while back is now on about 648, & w/tremendous signal strength
here, evenings. UnID SSes on 812 & 822 evenings. 2/5. Four new ones on a Saturday
borders on the unusual! WEZJ-1440 r/o-ET 4-4:10 o/u CKFM; & WYNX-1550 ET-/o/w mx u/CBE
4:07-4:23 apparent s/off. A third one there w/ET, unID. Local boys needing WIF-1500
may get them now 5:50pm as WERF-1500 s/off @ 5:02pm, w/WFIF on till 5:30. This done
today. While eating supper, & tuned to WJRZ on the Grundig, they suddenly "blew up" &
in sailed WREO, Ashtabula, for a four-minute report till WJRF returned. This 5:50pm.
SM 2/6- WOKJ-1690 is AN but woefully weak. In fact, an SS on 1460 was better than they
seemed to be "R. Sincelejo," but not sure, as they were on 1460-true last month. It
was heard 4:19am on. UnID SS on 1060 w/good signal, I'm sure, not a Cuban, but my hunt
today was for 840 s/ons, so I let him slide. OC on around 4:40am on 340, w/o on at
5:47; turned out to be WWM, Barquisimeto, Venezuela. Then @ 5:06, s/o "Santa Lucia
w/no s/on message must have been Cafries, St. Lucia. Announcements were alternately
in SS & FF, much mx in EE. Confused, aren't they? MM 2/7- UnK KNMM-1350 ET/FM most of
the AM. Off were CBB-590 WOR-710 & WATF-930. Looking for the 1442k Brazilian, in-
stead I heard SS there, & same program on 626 & 650x, w/much excited mention of "El
Presidente" and "Estacion Nacional." I couldn't ID even the country - anybody else
have better luck? PRAE-300 is a CINCH WMs when the channel is free of NMs, but I hit
there too late; only all-talk 3:22 to fade-out around 3:30, so next week, I hope. Watch
the ANs then, hit! KSTP is suprised by TTS, hecs, whistles, & what have you. CUin.

TWO NEW ABBREVIATIONS FOR MUSTINGS

k- for kilocycles, instead of old "Kcs." (new international abbreviation is "kHz",
hard to type, so why not just "k")? And L&C for "Loord & Clear." OK?
CDXC says that KSTP & WIF-1500 may no longer switch to day patterns @ 4am local time.
WJLM complained of too much interference then-- quite a squeeze, I imagine!

Congrats to Andy Rugg, on a fine job in CDXC's Cadex." C U in Montreal, Andy!
We'd like to extend a most hearty and sincere welcome to the following

**-------------**

During the past two weeks we have received many requests for sample bulletins and information about the club as a result of our address having been published in the 1966 Communications Handbook. Unfortunately our Buffalo address was the one that was listed, but the Postmaster there has been forwarding me that mail promptly. I have been busy answering all these requests, and I have tried to convince any CB DXers that we are the best club in business! More new members should result.

A special thanks also, to Joe Jones of WDEL who has referred dozens of DXers to our club. Our membership ranks contain the names of many who found there way to us via Mr. Jones and WDEL.

The same thanks to Wes Boyd and Jerry Starr of WHOT. Wes continues to bring me many reception reports and I always send out a sample bulletin if it looks like a good prospect. Quite a few members heard about NCB through this contact.

A sample bulletin of this issue goes out to ALBERTO LAVEAGA, MONTENEGRO 831, GUADALAJARA, MEXICO. I've written Alberto a letter explaining that we would really appreciate having a member from his part of the world. Perhaps others of you will want to drop him a line urging him to join us.

I hope all you members who have the time will drop a welcome note to these new members. We hope all will join in sending in reports of their DX doings. A month or two back we were holding you back and limiting the size of the bulletin. This issue should have been 30 pages. Let's get "crackin". Conditions are surely not that bad!

**-------------**

I have received a fine letter via airmail special delivery from our new CPC man in Quebec JACQUES DUBE, 695 WILLIAMS, TROIS-RIVIERES, QUEBEC, CANADA. Jacques writes to inform us of a special DX program as follows:

**RADIO STATION C K T R**

**MONDAY, FEBRUARY 28, 1966**

543 Gerval  
From 3:00 to 3:30 a.m. EST  
Trois-Rivieres, Quebec, Canada

This French Canadian station operates with a daytime power of 10,000 watts. They will verify all correct reports. Please address them as above to Mr. Charles Couture, Manager. Don't forget the courtesy of return postage. CKTR send a very beautiful letter as verification.

Let's make a special effort to send CKTR a flock of reports. It will serve two purposes; CKTR will be happy and we will be supporting and encouraging our new CPC man, the first French speaking CPC man we've had in French Canada. I'm sure Jacques will be able to arrange many more programs for us, so let's make a special effort to report this one, even though many of you already have them in your logs.

Jacques adds that he has some French farm letters available for other CPC members if they are interested. And he also says **"I'LL BE IN MONTREAL FOR THE CONVENTION!"**
February 12, 1966

ON THE STATION'S LETTERHEAD

RADIO STATION WPYB * P. O. BOX 215 * BENSON, NORTH CAROLINA

Editor, DX News
National Radio Club
Kittanning, Pennsylvania

Dear Sir:

The personnel of WPYB Radio Station take this opportunity to express sincere thanks for the splendid participation response of NRC members to our special equipment test broadcast of 29 December 1965. The boss was more than pleased with the results, proving that our little fleapower really can cover some ground. We compliment the more than two dozen members of your fine club who submitted highly accurate and complete reception reports to our chief engineer.

Since the engineer has been showered with some forty-odd reception reports and he is now in the process of trying to ready the station for 10kw operation, it is such that he cannot answer these requests for verification of reception at this time. The engineer has informed me that his current plans are to modernize the existing audio equipment at WPYB, and he is due shortly to install equipment in a new station in Virginia. Consequently, it could be several months before NRC members receive any form of acknowledgement.

We ask that club members be patient. The cards of verification will be sent out as soon as time is available. As the situation looks now, it may become necessary to perform additional on-the-air tests in the near future. Should these come about, DX NEWS will be notified. Hopes are that these tests will fall in a time when propagation conditions are good.

Would you be so kind as to publish in the club bulletin this announcement. With kindest regards to R.C. listening hobbyists throughout the nation, I am

Sincerely yours,

THEMON P. TART
For WPYB Radio Station

-----

Via telephone as we go to press the following information about another excellent DX program. This will find a clear channel and should be heard by hundreds of us.

FROM STEVE WEINSTEIN

K A P B  Marksville, Louisiana will conduct a test program for NRC

on Monday morning, February 28, 1966 from 3:00 to 4:00 AM EST. Steve

will no doubt send the signers name to Ernie Cooper who will include it

in the DX Calendar and write it up next week.

A post card from MIKE TILBROOK alerts us to a DX test from W M P O 1390 Kcs.

Pomeroy, Ohio from 3:00 to 3:30 a.m. but Steve forgot to tell us the date. I am

sure this program will be properly listed in the DX calendar next week.

Postcard from LEO FOX advises he is leaving Keno Hill effective 1/26. Doesn't know

his new address yet.

** For the benefit of many new members who are new to the hobby, you can obtain a very

handy listing of North American Radio-IV Stations for $1.95 as follows:

VANE A. JONES COMPANY, 6710 HAMPTON DRIVE, R., INDIANAPOLIS, INDIANA 46226. ($1.95)

This log book, revised to Dec. 1965, is the handiest and best we can recommend. It's a MUST for the new DXer interested in broadcast band (medium wave) DXing.
WHAT'S HEARD...

Algeria, Bechar noted loud and clear at 1730 on 1/31. (Joe Boatwright, 2 Cherry Lane, Basking Ridge, N.J. 07920. Note that W6TIV-61 is on air with 300 kW. Not yet confirmed by AEU. (Ed.)

Guatemala, Tegucigalpa. Echo from 840-06 on 1/31. (Moehr, N.Y.)

Cuba, While looking (fruitlessly) for HHH on 1/22, I heard a "La Voz de Cuba" ID at 2230. Presumably CMBV, Holguin. (Moehr, N.Y.)

Guatemala, Tegucigalpa. Heard on WBAI 1212 1/28 with SSB. (Stephen McIntire, 2235 Scotts Bluff, Des Moines, lowa, 50310)

Venezuela, YV9L. Heard on 1/24 and 1/31. (Moehr, N.Y.)

Guatemala, Tegucigalpa. Logged on 1/27 2225-2550 with 'quiet' instrumentals and frequent commercials. (Jim Swift, 90 Childs St., Springville, N.Y. 11377)

Trinidad, Port-of-Spain. Atop briefly at 1840 on 1/29, and Fair at 0525 on 1/31. (Ben Dangerfield, 202 Governor's Drive, Chester, Pa. 19101. Address: 514 9th St., Brooklyn, N.Y. 11232. Mike; was W49DE, W49E, W49F, and W49G. Mike heard near the W49E call was dropped years ago.)

El Salvador, YSM. Circuit YSM, San Miguel. Very weak with GCI at 0058 1/31. (Moehr, N.Y.)

Jamaica, Port Maria. Heard on WSB at 2310 with commercials and R & R. (Diers, N.Y.)

General, Dakar. Exceptionally strong at 0156-0204 on 1/17, with harp music, drums, and talks by man and women in French. This is the second time I have heard them - the first was a year ago almost to the day, 1/18/65, at approximately the same time. Is this just coincidental, or is there any scientific reason? Not heard since. (Moehr, N.Y.)

Venezuela, Dangerfield's UNID. in the 12/25 issue was R. Puente la Cruz, YVAQ 5/18. This morning on 0630 with anthem. (Boatwright, N.J.)

UNID, LA. Spanish, weak signal; only 3 minutes. (Dangerfield, Pa.)

R. Honduras, R. Belize. As strong as some semilocals at 2220. National prayer and s/off at 2231. (Diers) Normally separated from WGOO-WHAS slop for decent log on 12/27 with Christmas music. Fair. (Moehr, N.Y.)

Guatemala, Tegucigalpa. Weak signal at 0026. Played U.S. Rock and Roll. What city are they in, and what is the voice? (Diers, N.Y.)

UNID, LA. Heard 1/13 in Spanish for only 3 minutes. Gordon Nelson reports hearing as Ecuadorian, and after discovery of a TV-like signal on 0666 with a bearing of 160° that was undoubtedly pulling off my bearing, have tried measuring on the high side of 887 only. With W6CDM only one measurement has so far been achieved with a bearing of about 125°, which supports Ecuador. The best guess is Gordon's: HLT-5 in Riobamba. (Clarence H. Freesin, P.O. Box 12, Hughson, Calif. 95326)

Colombia, FCC, Continental, Bogota. Now NSF with parallel programming to WHB-900. Both Todolar network. (Silva, Jamaica)

Colombia, FCC, El Sol, Cali. Now non-stop with HJCS. Local ID's given. (Silva, Jamaica)

__

UNID, LA. Spanish, weak signal; only 3 minutes. (Boatwright, N.J.)

UNID. Who was here 1/31 from approximately 0400-0500 with vocal jazz pieces? Possibly LIZD. Mostly continuous music, announcer spoke rarely. (Boatwright, N.J.)

UNID. Who is the Spanish speaker who signed on MM 1/31 at 0500. (Boatwright, N.J.)

E. Germany, B.B.R. Dresden. Heard 1/27 for a short period, with weaker Tullain-1049 is first audio readable from any European since Christmas. Unmeasured, but clearly Trans-Polar conditions took a sharp nosedive for a long period. Since 1/27, only one additional opening, and it was weak. (Freesin, Calif.)

Mexico, XERF, Monterrey. N.R. Heard on 1/2 over CHUM, under VHF at 0153 with C.W. ads, like XERF and XKKL. Heard again in clear on 1/17 when VHF off. (Moehr, N.Y.)

Colombia, HJCS, Emisoras Cum, Monteria. Now non-stop, seems to use reduced power at night. (Silva, Jamaica)

Colombia, HJCS, Emisoras Cum, Derreroquilla. Now from 1430, terrible slop, ever. (Silva, Jamaica)

UNID, LA. Heard here 1/26 around 0505; slop from WEGA killed them. Who? (Boatwright, Iowa) Above? (Ed.)

Puerto Rico, WTA, San Juan. Heard weak under Jammer 1/31 at 0435. (Boatwright, Iowa)

England, BBC Light Programme. Seems to be most dependable TA. heard most ID's with the VHF portable. report still not from 1/18 0123-0136. (Moehr, N.Y.)

UNID. Who is off here on 1/16 at 1746 with anthem? (Boatwright, N.J.)

Colombia, HJCS, Medellin, no longer AF. In fact, not heard since 1/7. (Silva, Jamaica)

UNID, LA. Spanish, good 1835 1/29. (Dangerfield, Pa.)
IDDX Page 2  
February 12, 1966

1354 COLUMBIA. (Whales) Occasionally good, brief periods, evenings. Frequent mention of "Ric", (Dengerveld, Pa.)

1366 USA. Sounds like another Colubian. Week or 1314 kc. heard evenings. (Dengerveld, Pa.)

1424 INDIAN Lk. (still) weak, probably 14, playing Walk type music 1927 on 1/28. (Dengerveld, Pa.)

1500 PUERTO RICO. W4AAL. S/ON Ml 13111 at 0500 with what must be Puerto Rican anthem followed by SSB. (Bostwright)

1650 COLOMBIA. NAY. La Vaex de la Cordillada, Barranquilla. Heard nightly 0900-1200 after 0300. 0000, with deep fading. 01/25 0227-30. Report out and fingers crossed as Colombia needs no-anse or at least 1 other from there. (Hahn, N.Y.)

Well, I held til Monday hoping some new ones would come in, but no luck. Nobody listening? Just because this year suddenly isn't as good as it was, well... (So what's YEs ED's excuse!)

VERIFICATIONS...

520 JAMAICA. R.A.B, Port Maria. Specific v/1 from W.C. Matthews, OE, for 1/3/66 reception, back in 2 weeks. Address: (tma) Mike Silvern) in P.O. Box 23, Kingston 5. Country #13, (Mohn, N.Y.)

665 PORTUGAL. W4 received for report of 12/20. (Bostwright, N.J.) Smaller size world map card with date and freq in meters filled in. However, gave date as 11th month instead of 12th, when reception made. Will count, as day and freq correct. (Hahn, N.Y.)

728 SPAIN. M.N.E., La Coruna. Very friendly v/1 in English received from Ramiro Martinez-Anido, Chief of Programs, for report of 10/11. My second report was forwarded to them from Madrid. Address given is Apartado 120. (Bostwright, N.J.) Since moved to 600 kcs. (Ed.)

764 GENERAL. Dakar. French CSL card, unsigned, back in 2 weeks for 1/7 reception. Specifies 704 kcs. Did not answer report of last year, Country #12, (Mohn, N.Y.)

899 R. HONDURAS. Bella. Very specific v/1 for 1/1/66 reception back in 4 1/2 weeks. Signer is same as given in past IDDX's. (Mr. Young, Radio Engineer. Country #12, (Mohn, N.Y.)

845 ITALY. R.A.R., Roma. Sent CSL for reception of 11/12. Have they gone to planned 400 ku yet? Instead of answering this question, they said to see new program schedule, which isn't here yet. Country #51, and an even dozen Europeans now verified from California. (Fremen, Calif.) Nice report, (Ed.)

860 MEXICO. XEN, Ciudad Universitaria, Mexico 26, B.J. W/S Hector Mendez, Sub-Director, for 12/30 report. (Johnson, Ill.)

920 ALGERIA. R.T.A., Algiers, sent good CSL card with all necessary details, signer unreadable, plus frequency schedule and air-mail report form. Country #43, (Callaman, Texas)

953 CZECHOSLOVAKIA. Brno. New design CSL card re-up 11/20 log. Signed by Martha Trajanova at Prague, altho I sent the report to Brno, hoping for a letter from the CE (as Pratinova). (Dengerveld, Pa.)

960 MEXICO. XEU, N. Laredo, Texas. V/1 in English and postcard for test, Coms. Mr. Felix Baldorado P., says postcard every month on third Tuesday from 0200-0300. Plays vocals during test. 2 addresses: A.B. 99, Nuevo Laredo, Texas. & Box 87, Laredo, Texas. (Hahn, N.Y.)

990 PUERTO Rico. WPA, Mayaguez. Sent v/1 signed by C.E. for 6/23 report. Says he just got it. Glad to get it, though. W/s Arthur S. Clawson, (Silvern, Jamaica)

1040 BRAZIL. WO-2, R. Tupi, Sao Paulo signed and returned prepaid card for reception of 12/5. Too risky to try and decipher signature, but position given as Director Artistic. Country #35 from Calif. #37 overall lifetime. (Fremen, Calif.)

1050 MEXICO. XEU, Monterrey, N.L. V/1 for 1/6/66 reception, back 2 weeks. Signer is Teodoro Richard, Mgr. I sent to Monterrey, but mailing address is Fort Worth 11, Texas. Card was postmarked Monterrey. Country #12, (Mohn, N.Y.)

1080 ENGLAND. E.B.C. Droitwich. Very cordial v/1 from E.A. Beighton, Head of Engineering, Midland Region. Back in 1 week, air mail, for 10/18/65 report. Included E.B.C. CE, Information folder, sked, and returned by IRCs. Address is E.B.C. Broadcasting House, Carpenter Road, Birmingham, 15. Country #10, (Mohn, N.Y.)

RED-WAKE DEPARTMENT... Recall a few weeks ago, I asked if anyone wanted to buy Neil Eubanks' NC-150 for $165.00? Somebody did, but I had misplaced Neil's mailing address. Now, I've found the address, but misplaced the letter from the W4XR who requested it... and I can't remember who it was. Neil can be reached at 2902 Monroe, Amarillo, Texas.

A NARC CONVENTION will not be held in conjunction with INA convention in Milwaukee, a late note from INA headquarters isoes. As one ANARC representative who neglected his duties and failed to vote, I can't say very much, except that I assumed last week that the INA invitation would be accepted. Your editor regrets that his participation in our wonderful hobby has been limited almost exclusively to editing this column for the past 8 months. I feel almost inactive.
