This test will start sometime between midnight & 1:00a.m., after James L. Elmore, Engineer, gets there from bowling! There MAY be some Morse Code IDs. This is a Proof of Performance Test, and there will be very little if any music - mostly tones and station IDs frequently. A special log of all items used will be kept to aid in verifying reports. They are 5 kw. & directional, & KSTP will be on, but we hope most of you will hear this TEST, & send in reports, with return postage. Our thanks to Mr. Elmore, who informed us about this important DX item! ERNEST R. COOPER

This too is an equipment test, and cycle tone only will be used, outside of regular stations breaks at regular intervals. Return postage is a MUST, and there is a prize to the furthest correct reporter! KBEW a few months ago increase its power to 1,000 watts, and they ought to get out well on what is envisioned to be a clear channel. Address for those reports is Mr. William Merrill, Chief Engineer, KBEW Radio, Blue Earth, Minnesota, 56013. We want to thank Mr. Merrill for cutting us in on this important DX news, for KBEW is needed by almost all DXers, and this ought to give us all that chance of hearing their signals. DAVE SCHNEIDER

WVCF, the "Wonderful Voice of Central Florida" is the former WXIV. On this special equipment test, DXers will get their first chance of logging this 1,000-watt. Only KBOX is expected to be on this frequency at this time, so most of us should be able to hear them handy. The address is: Mr. James Bruton, Chief Engineer, Radio Station WVCF, P.O. Box 13535, Orlando, Fla. 32809. They will modulate with religious organ music, as this is standard fare on this station. Let's all report, and send along that return postage, & our thanks to Mr. Bruton, S. WEINSTEIN

(Add. for WFIT: James L. Elmore, WFIT, 1201 Boston Post Rd., Milford, Ct)
"MAY WE" MAKE A FEW SUGGESTIONS & OBSERVATIONS? I HOPE YOU SAY "MAIS OUT!"

MAY WE" SUGGEST, when reporting frequency checks heard, that it be mentioned whether it was TT (tone) DT (dial tone) Mx (music), or whatever it might be. Also, just mentioning one time doesn't help us too much in constructing next year's new f/c list. For example, if you hear a check for a period of time, mention when you first heard it and when either you tuned out or it went off. Just "heard at 2:15" doesn't tell us if it ended then, began then, or whether it was on both before & after that. But, if you caught it, say at 2:13 & got ID at 2:15 & when it went off, it could almost safely thus be listed as "2:00-2:15" in the next f/c list but just "2:15" doesn't tell us too much - see what we mean? MAIS OUT!

MAY WE offer a couple of opinions on why perhaps some stations seem so reluctant to verify these days?
MAY WE wonder out loud if one cause might be a lot of "tentative" reports without much validation as to the reasons behind sending it in the first place? For example, if you happen to hear "Chicago" mentioned on 1240 kilocycles at midnight, it doesn't justify sending tentative reports to WCRW, WEBC, & WSBG! More than likely, if no ID was heard, then little program data was probably heard as well.
MAY WE wonder out loud if those who ask many "whos" in their Musings in this and other Club publications, send reports to a station if somebody tells them who he thought it might have been?
MAY WE also wonder if those who report hearing a station, say from 11:01 to 11:02, also sent a one-minute report to that station? The station more than likely will toss such a "report" into the waste basket - or at least, they should! MAIS OUT!
MAY WE recall the many "No info" reports we have seen? I received a big box full of such from WPBR, sent by Rick Marr. Most of them were something like this "I heard music, followed by an announcement - please verify." And, 99% of them mentioned no return postage being enclosed. Surely nobody in the NRC sends out such "reports" but could it be that the stations are getting fed up with all DXers because of these amateurish letters and cards? In most cases, the personnel at the station are not DXers nor are they DX-minded, and they may have become disenchanted with all DXers because of this influx of "kid" reports. MAIS OUT!
MAY WE just recall a couple of instances where someone reported a station coming in "loud & clear" and yet they had the call letters wrong, like giving the calls the station used over a year ago? Now, if you were the CE at that station, would you believe his station came in loud & clear when the "DXer" didn't even know the calls had been changed over a year ago? It means he never did hear the Station ID, but instead, was DXing out of the logbook - and an old old one to boot. MAIS OUT!
MAY WE also suggest not to "ask for the moon" when writing a station? To ask not only for verification, but also to ask for Surveys, Postcards, Coverage Maps, Schedules, etc. makes you look as though you have the "gimmies." Also, they just plain don't have time at most stations to round up all the goodies you might ask for. WE suggest - ask for verification, and settle for that, for that's what the hobby is all about. MAIS OUT!
MAY WE suggest breaking up the "Owl's Club?" That is - I heard a sign-off at midnight on 1400 - who? Another at 12:01 - ho? Another on 1410 at 12:05 - who? Who-who-who - hoo - hoo!
MAY WE suggest that in spite of the modern marvel of the directional antennas for receiving, like loops, etc., that there still is no better way to ID a station than to hear the calls, location, or slogan? MAIS OUT!
MAY WE suggest that while we cannot control non-members, mostly beginners as to their mode of reporting stations, that we make sure we send only good reports, politely worded throughout? Then, MAY WE hope that the good reports will be sifted from the poor ones & be verified. MAIS OUT!
Greetings again group! Verias as follows: v/c - WJIM for 9/26 report) WKQ KGBS Radio Americas TIRICA KOKO WPRO WMBI WABR CKCJ WNY CJIC KLJR WQOR WCBM WCBS CHKX WWDB Radio Delays KSO XXX (C.O. #1) CGAC CBK KPRG WIDW CBKL (4001. LFM* WOKO KBAB KCBX WABF. v/1-

ERC, I hope you can make out the print on this new typewriter. After all, it can be a bit confusing. No new news here as far as DX goes. I still need Alaska to make 50 states plus KORE haven't verified yet. Big news outside of DX is a sweet young thing named Judy who will become Mrs. E. A. J. P. on July 9. She may be the first woman on the NRC. She can tune the EQ-180 like a pro & one of her favorite pastimes is, as she put it "tuning around on the radio to see how many stations I can hear." She also reads, writes, & speaks SS fluently so SS stations, here I come. What more could a DX- er ask for? Besides she cooks pretty well too. I'm probably way over 30 so - cool it group, & always remember, CX could be worse - but not much. Bye!

Paul R. Hoffman - 344 Firwood Drive - Apt. 105 - Dayton, Ohio - 45443

After a long layoff from serious DXing, I finally managed to hit the dials fairly regularly the past few weeks. 2/14- I just listened long enough to hear the WJIS TEST, in quite well here & reported. 2/21- I logged WACO for 20 minutes before their 1237am s/o for report. I also sent another report to Dakar-764 as they never answered last year's report. 2/27- WWSAI off, I sat on 1360 I got three new ones, KXMS & ZKOL from Texas, & WDEL, Mich. at 4:01am, all 1360. 2/28- Better good CX despite the arrival of Spring-like static. KMS-1480 Neb. reported on TT 1:30-1:45, very weak. I logged KPRO again for report 2:17-2:34. On 920 I heard what sounded like CJCH Halifax ID, but couldn't confirm this weak one. KOLO-920 Reno logged w/weak signal from 2:51 to 3:04 s/off for report. KLOO-920, Ceres, Cat. ID for ET was heard again just after 5am, but this one never stays in long enough for any details. The KAPB TEST was good here on 1370, report sent. WBBF-1230 was heard only for a couple ID's here, very weak on a crowded channel. I just tuned to 1150 in time to hear CKTR ID @ 3:29. WPTX was good & all alone on 920 for easy report. Finally I heard KTVX-1460 Inglewood on their ET. WCHR-1400 Mich. s/on 4:01. WARR-1440, Fla. test ID @ 4:01. KLFH-1190 Texas 4:05. Late that day, WGBF-1280 Ind. heard 8:05pm briefly. CJNR-730 was good enough for a report between 8:19 & 8:35pm. Another report sent to KELG in Okla. logged through nearby WFFS on 910 between 11:30 & 11:49pm. Verias have come in from KXIZ WQXL & KDON (all v/l) & v/q from WLER & WACO. 73a.

Jeff Kadet - 8047 Park Overlook Drive - Bethesda, Maryland - 20034

As they say in Fisher, W.V.A., "WELD." "WEEK-END of LABOR DAY" - Montreal, 9/3-4-5!
For quite a few months Eastern DXers have been reporting reception of an unID VOA station late at night on 960K. Many theories as to the identity of this station have been proposed; spurious pickup of Greenville; MW transmission from Greenville; ZFB1 (Bermuda) relay; operation from Santo Domingo w/the portable XR formerly in operation from the Keys; etc. An NRC member has reported that the VOA refused to provide him w/details about this station & an IRECA member recently reported hearing ZFB1 at the same time as the VOA which supposedly ruled out the Bermuda Theory.

I've spent several months working on this station & I've come to the following conclusions: ZFB1, Pembroke, Bermuda, is the station involved; they transmit VOA programming from 11pm to 2:30am. The station that is actually relayed is the VOA Greenville XR on 5995k. The IRECA report to the effect that ZFB1 is heard simultaneously is in error. These conclusions are drawn from the following evidence:

1) Each evening ZFB1 frequently dominates 960 before 11pm but has never been heard past 11pm. The VOA programming is likewise well heard nightly but never before 11pm. ZFB1 programming is not heard between 11pm & 5:30am even on MW when the channel is almost clear.

2) After CKNS s/off @ 1:35 on MW, ZFB1/VOA & CHNS dominate the frequency & replicable direction finding becomes possible. On three days I have been able to get a total of 37 good DF measurements; the mean bearing missed Hamilton, Bermuda, by 3/7 miles (to the S & W) & the same bearing was measured on each of these MWs. The DF equipment & technique used have been described in previous NRC bulletin; a subaIisible heterodyne null detector was an absolute necessity due to the presence of CHNS & others at the time of measurement.

3) On 2/26 ZFB1 was well received just prior to 11pm; shortly thereafter the VOA was in turn well heard until Greenville s/off @ 2:30am (Greenville SW carrier cut immediately). The carrier on 960 remained on however as evidenced by the fact that the 1.3 cps SAH between CKNS & ZFB1 remained visible. At the instant the Greenville SW carrier was cut, a strong jamming signal became audible on 960k although no new carriers came on. This indicates that ZFB1 left both SW receiver & their XR on, presumably unattended. DF on the jamming audio was identical to that for the VOA carrier on 960: ZFB1 continued broadcasting the aido from the SW jammer until 4:51 when the engineer turned off the SW XR. ZFB1 signed on at 5am; the 1.3 cps SAH between CHNS & ZFB1 remained visible the entire time from 10:30pm to 5am, thus indicating that the same carrier was present the whole time.

4) The VOA programming heard on 960 is exactly simultaneous only w/VOA Greenville and NOT w/what appears to be the same program transmitted from the VOA stations in Tangier & Liberia on SW. I was extremely surprised to find that the Greenville/ZFB1 program was not exactly simultaneous w/what appeared to be the same program on Tangier/Libera at the same time. On occasion Greenville/ZFB1 ran as much as 1.4 seconds ahead of Tangier/Libera; at other times during the broadcast 960 ran as much as 1.2 seconds behind the "relay station" programs. This indicates the apparent direct relay of Greenville from Liberia & Tangier is not in fact a direct relay at all. I suspect the program is broadcast to the "relay stations" on SW ahead of time & that each station broadcasts a taped version at the same time. Since tape recorders differ slightly & tape stretches, the programs fell slightly out of synchrony during the 2/5 hour long broadcast. But the program on 960 is always exactly simultaneous w/that from Greenville. Furthermore it is possible to determine which Greenville SW frequency is actually relayed by ZFB1.

5) After Greenville SW left the air on 2/26, I searched the various Greenville frequencies hunting for a jammer identical to the jamming audio which was being rebroadcast by ZFB1's unattented XR. On 5995K I found a jammer (source Cuban, no CW ID, maybe from America-6000) which sounded identical to that being received at ZFB1. I fed the audio from the jamming transmitted by ZFB1 to one oscilloscope input & the signal from the SW jammer to the other input & found the two jammer audio waveforms were identical. Thus I'm certain that WFB1 was relaying the Greenville transmission on 5995k.

6) For two days during Feb. ZFB1 was not actively relaying SW but seemed to be broadcasting a tape of an earlier transmission. I suspect ZFB1 was forced to transmit a taped broadcast on those nights because technical difficulties prevented a direct relay DF, SAH, etc. were the same as for ZFB1 as reported above during these two days. I believe the above proves without any doubt the program on 960 is relay of Greenville-5995 by ZFB1. The lack of program overlap, together w/DF & SAH continuity, demonstrates that Bermuda is relaying the VOA.
Hello! The Feb. DX Trail looks like this: 2/7- WAAA-920 DX logged, but very weak through KOLO 0C. 2/10- R. Peking-820 outlist noted w/75 & 1" TS @ 10am, along w/many other Chinese. 2/14- W9HSD-960 Orangeburg, SC s/on 4:57am for a nice catch. 2/17- WDAK-840 Salvador, Brazil, logged 2:27-2:30am w/very clear ID; brief cut very good log; WDAK-540, Columbus, Ga. heard for first time on AN program ID 4am momentarily o/HJKA. 2/18- KOUS-1290 Tucson, Ariz. 4:30-6am on AN program. 2/19- KSYL-970 Alexandria, La. s/on 6am, but not enough for report. 2/20- KQIX-1550 Joplin, Mo. ET 3:30am. 2/21- KAN-1550 But ler, Mo. ID 7:31am beginning NX, after apparent s/on @ 7:30am w/"The Lord's Prayer." Second 250 watter in as many mornings! 2/23- KCAN-1550 Canyon, Texas TEST just "possibly" heard o/KKH1/XE6G w/code ID @ 2:10am; fingers crossed, report out; WYNN-1550 Smyrna, Ga. ET 3:57-4am. 2/28- WWDC-1250 Washington, DC ID at 4:26am through WNR. 73.

John W. Hoogerheide - 15 Rustic Place - Eugene, Oregon

New long - raw country #18 - PRH-840 R. Bandalirantes - Sao Paulo, Brazil at excellent level in Portuguese @ 2:30am. This on 2/18. 2/20- KQUB-1490 Bijou on RS @ 6:30am. KGM-510 Albuquerque RS @ 6:50am. KLAB-570 Los Angeles @ 7am. 2/21- Wonderful - KFRC-610 on AN RS. Is this raw WC ANer NSF? Not a sign of VOA-1140 Pororo, WHVRA very strong & poor TP tonight anyway. Too bad. XXLY-920 Tting & mx @ 5:05. WAVE-970 Louisville RS 5:30am. First new log of night, KS00-1140 s/on 6am. KTIX-1240 Pendleton s/on 8am. KQYI-1550 Arvida Col. @ 8:30am & WEAP-820 on RS @ 8:45. All in all a good DX week. Totals now 624 w/Cali. 134, Ore. 77 & Wash. 74. Seventeen countries. Say some of you EC members - how's about an Oregon DX Convention? I have spoken to Bart Cronin & he's enthused. But we'll need lots of support. We've got a mighty fine state out here in the Land of the Tall Timber & mighty fine DX too. Even China - for those who drool at China on the East Coast. More later.

Warne Cдобms Jr. - 1640 Longspur Avenue - Sunnyvale, California - 94087

#2. Hi again. No DX to report this time. A note of interest printed in a local paper: "FCC颁发s KYA & its FM affiliate, KOIT, have been criticized by the FCC. The FCC said in Washington that the stations failed to control the outside activities of DJs, thus raising the question of conflict of interest. Further, it said, the station failed to log several hundred commercial announcements. The Federal agency renewed KYA's license for one year, rather than the customary three." Emr said. ATTENTION - I am compiling a directory of BCB DXers. Some of you have received forms to fill out. Please mail these back as soon as possible. For those who have not received a form or already, please send the following information to me as soon as possible: 1) Your name as you would like it to appear. 2) Your residential address. 3) Mailing address (if different from residential). 4) Age. 5) Birth date (will not be printed). 6) Years BCB DXer. 7) Year started BCB DXing. 8) Name the BCB Clubs you hold membership in. 9) Phone (include are code). 10) Do you own a tape recorder? If so, please answer 11-13. 11) Speeds. 12) Maximum real size. 13) Tracks: number: 1(full) 2 (half) 4 (quarter) mono, stereo, other than above. 14) Tracks: play, same as 13. 15) Are you a survey collector? 16) Do you swap QSL cards? 17) List your receivers (in order of use, most used first). Thanks a lot. It will be published soon. 73.

Bernie Duffy - 77 Livemore Avenue - Staten Island, New York - 10302

My DX activities since the previous report are as follows: SM 2/20, @ 4:50-5:25am, an all-SS station on 840k. They only made one announcement during that time, @ 6am, but it didn't mean anything to me as "I no speaksh Spanish." Probably it was YMY, Barquisimeto, Venezuela. Each Sunday it can be heard. 2/25, acting on a phoned tip from local WRGER Pete Clarious, I finally logged R. Belize, British Honduras, on 834k, coming in nicely @ 10:25pm, alongside of all-EE CMCA Havana, as a YL on the latter lauded Socialism. Sat. 2/26, I was surprised to hear WHLO-640 Akron, Ohio, coming in well from 6-7:15am. No sign of WOL's 7am s/on though. WM 2/28, KAPJ-1270 Marksville, La. came in well @ 3:10-3:30am, despite WYNN overlap. WBVF Beaver Falls, Pa. DX overrode the others on 1230 @ 3:15am.

(no name or address)

Well, schoolwork has limited my DXing to just about nothing. Here 'tis: 1/4- KXER-540 @ 10pm for country #5. 1/17, WAEI-1110 @ 8:45am; CBE-1550 @ 6:10pm. 2/25, WSPD-1370 @ 1:30am, KQYI-1310 @ 1:39, CKOC-1150 @ 2am. One whole veri in last few weeks, v/q from CBE. Could somebody tell me the location of KQWE-1550? (Fargo, ND - ERC) Stations now at 138/106. I'm hoping for more to report next time, 73.
Hi all. I believe my mailbox is sick. I think it has that disease that plagues all DXers at some time: "Empty-itis!" Hi! Only four veries in the last two weeks & three came on the same day! v/q WQGLE WBBQ & KGMX, v/o - WABB. DX: 2/26 - KXND-1580 @ 8:05-8:15pm s/off (no sign of usual WCLS). 2/27 - KKCI-1480 w/f c 1:05am. 2/28 - WWST-900 @ apparently ending ET @ 2:00am, KMMX-1450 ending f/c @ 2:45. KABP-1370 TEST in well @ 3:10, WBFP-1230 a big surprise, on top of the channel @ 3:23 & readable until TT, messed it up, & WPTX-850 TEST in fair through much static @ 3:40 mentioning phone calls from NNCers. It was warm, making for bad noise CX. Also, I didn't feel too well so I didn't stick around for s/ons. I am out of school until next Tuesday & I hope to get in some good DXing. Best channels were: 1550, 15 logged; 910, 15 logged, 1430 & 1150, 14 logged; 920 15 logged & 1390, 1430 & 1440, 12 logged. EEB season over here too. Hey Dave Schmidt, did our school ever have the goal, backboard & all, torn down before the game? It happened at the regional tournament when a guy tried to dunk the ball. I thought I'd seen everything! Well, remember Tommy Collins' motto "If You Can't Bite, Don't Growl." 73s & good DX!

Walt Breville - 9127 Coral Drive - Affton, Missouri - 63123

February brought the best DX of the season here. 2/13 - WJED-1160 Ale, 4an, KKF-1550 Ariz., 7:55pm, also heard this one several other SSSses, w/much QRM from KJNO & WQJY. MM 2/1/4. Three specials, all easily heard: WM6O-1370, WJLE-1480 w/QRM from Ala. TTer, sounded like WABB when the garbled ID came through. I just tuned in the last 3-4 minutes of WAMO-860, but they were in real good o/KONO using the loop. KDON-1460, Cal. in good @ 235est, KOMC-1000 3am s/off c/KTOK, then the best catch of the year: KAYO-1150 Seattle, good clear signal & c/w mx 3:15-3:25am! KTOK-1410 Texas testing 3:37am. KQXI-1550 Colorado Springs 7:30pm s/off. 2/15 - KVGR-1590 Kan. 6:18pm. 2/17 - WESC-660 7:35am. 2/19 - The new KTUI-1560 heard for first time, at noon on car RX, weak in Affton. It's 6 miles SW of here. 2/20 - KCIJ-990 La, testing 3:29am, KSSE-1310 Mo, finally, @ 7pm. 2/22 - WMEV, Marion, Va.; WFGW Black Mountain, NC, WHIN Gallatin, Tenn.; WCGW Atlanta; all on 100k, between 7:15-7:32am, before local KXEN came on. 2/26 - KCOB-1280 Iowa 6:45pm s/off. 2/27 - WCPC-940 Miss. 6:45pm s/off. Only 20 nos on this month compared to 37 in Jan., but considering I only DXed one MM in Feb., the results were very good. Veries have appeared in the mail w/good return - KLZ KENO WRENG KRTS (3 1/2 months) WINL WIL OAK WANG (friendly v/1 plus CM) WJFE KDN WAVE WAMO-TEST. KGEC-1540 after 3 1/2 months sent a v/1 apologizing for delay & that my report was buried "under a pile of goodies." St. Louis area s/off time, 7pm for March, 7:30pm for April. 73 everybody.

Ken Butterfield - 624 Arthur Avenue - Plymouth, Michigan

Dave Schmidt - 44 Green Lane - Green Ridge - Chester, Pennsylvania - 19014

Hello! DX still doing good I hope it stays this way. New stuff looks like this: 2/27 - WFXC-940 @ 9/16, WJBY-1470 w/fast looped out. MM 2/28, lots of static, but did get KFJZ-1480, KTOK-1000 AN & KABF-1370 TEST. WPTX made it & was asking for phone calls, but I can get them during the day. 3/2/ - WHUN-1150 c/WWEL, 11 miles away, so something can make it o/them, hi Joe, & WFXC-1220 6:30pm s/off. Only one verie, strange hi, WGIC-1440 which signed my report & it's more or less #267. This afternoon I had WGCC-1580 @ 20 c/s 9pm. Also I looped out WEEZ & heard WWG & /them! I don't know how this got here but it made it. Also WWG is u/WMAS-1480 & WEEU-850. So Alvan Fish, you think you have problems w/WGC, hi. Jefferson K going to WFXC on 3/4 so they may not suffer after all. I have to get going before that, check 1580-1590 in the VJ Log as WGO is on 1590, not 1580, because it's the old WGG. 73s & good DX! PS (P.7)
DX NEWS for 1/29 & 2/12 have both arrived at last. This past weekend has been real good. 2/26- I logged enough on KVX-1360 for a report in case they do go off the air. SM @20 = 2:40 a station playing mix by Hank Locklin on 1430 in MST zone. Anyone know if it was KQCX? MM 2/28- KFVP Beaver Falls on top of the frequency, KAPB-1370 in L&C. WPTX-920 in strong. CXTR-1150 heard faintly but too much static to report. Things are really looking up, GMOL-900 was off for three hours for maintenance & in came WDDT Greenville, Miss. testing @ 1:35. There was a Western station coming in at about 2:45, possibly CJVI Victoria, but could not make anything out. A station playing RR on 1000 @ 2:49, KTOK? It was in CST anyway. Reports sent to a few others, WERE-1260 testing OC again, WADG-1280 s/off u/CHIQ's OC. Tuesday 3/1 I logged & reported KWFV-860 f/c, & KTYD-1250 f/c, & WGO-1600 Ripon, WIS. s/off @ 1:05, VJ says daytime only, when will they change? WCPA Clearfield, Pa. heard s/off u/CHAL 6:15pm. WEPY-1090 killing WTIG & WKLO. Veries in since last report, v/- WAMS WOR WHDT WCAZ-CN. v/- WERE v/- WFLR WBKB WBLR WHAM WMR. WMTR Morristown wrote "confirmed" on my report. Eighty four reports still out. Totals, 1110/47. 73s & good DX.

Ron Sibbitt - 119 Florida Drive - Cookeville, Ontario

3/2. Many new loggings here now that I'm using an HE-30, however all I'm using for an antenna is a 25 foot wire. 2/5- KNER was coming in good for my first WGR @ 3am. 2/7- WZKY-1350 announced it was having a f/c @ 12:30am, CKOX-1340-DX was very weak & had much QRM here. WBAH-920 was L&C, WRCH-910 heard w/ID @ 4:32am, WSVG-550 heard @ 5am. 2/14- WJRE-1180 TEST was weak w/ much QRM, WABB-1480 was testing @ 2:45am. WAMC-860 TEST jotted heard here due to WFT-850 slopover. Who was the ill. station on 1490k w/ NN @ 2am? Also on 2/14 I heard WSJY-560 w/ID @ 6:51am, & WPKD-1360 w/ID & RR @ 6:57am. 2/2- KSEV heard @ 1:24am, KOMA-1520 w/ very good signals @ 1:33am for my first Okla., 2/2- WGRF heard w/sportcast @ 4:15pm, WPCG-940 was L&C from 6:48pm to s/off w/Dixie @ 6:45pm, no CBM at all! Also on 2/28 I had WMAZ-940 w/WPCG @ 6:10pm. 2/23- CRX-1070 heard w/GRD stuff & NX @ 1:55pm. 2/24- WHER-620 heard w/CBS NX @ 5pm. 2/26- CFNB-550 heard briefly @ 1:29am w/ID & NX through heavy QRM. 2/27- Anybody know who s/off w/Dixie @ 6:30pm on 540k in CST zone? It was not WDXN. WDXN s/off came 30 seconds later. Also on 2/27 I had WDAK-540 w/NEC Monitor & ID @ 6:32pm, & CBT-540 w/ID & hockey game @ 8:45pm. 2/28- KSO-1460 w/s/off @iam L&C. Who had s/off @ 1:10am w/SSE on 1370k? WWNY-930 heard w/ID @ 6:14pm during moment of dead air from WBBN. 3/1- SS heard on 875 @ 8:14am, I think it's YND. Veries in since last report are: WUSJ, CKOX-DX WBB WR WW, all v/1. v/- KMBR (first Cal.), CFAM-DX w/CM & other stuff (first Manitoba), WSVW w/CM, & WABE test (first Ala.) Totals now stand at 26 states, 4 provinces & 5 countries varied. I'm hoping those totals will rise soon as I've sent a lot of reports to new states & provinces being heard on the HE-30. That's it for this time, so 73 & good DX.

Dan Shaw - 6906 Hartland Avenue - Houston, Texas - 77055

Hello CBers! Here I is again. A couple of notes? KVX is now operating w/5,000w. daytime & 250w. at night during inter operation until a new application is accepted for permanent operation. G. Scrimgeour & D. Kaskey: Did either one of you receive a verie for the 1/3 KMEZ-960 DX? On latest DX: 2/21- KICK-450 Springfield, Mo. @ 5am; WLOK-1340 Memphis, @ 3:31am; WDXL-1490 Lexington, Tenn. @ 3:39 w/f/c (said my verie was first from Texas, great catch, hi!) WCOA-1230 Corinth, Miss. @ 4:07am w/f/c; WKRC-520 Cincinnati @ 4:15am; WMTP-1150 Tampa @ 5:20; WHER-1500 Harriman, Tenn. @ 5:28am w/on; WKIS-740 Orlando, Fla. @ 6am w/on; KJDN-870 Fort Worth, Tex. @ 6:25pm; KAL-1600 McKinney, Tex. @ 6:34am; KCHC-1140 Mineral Wells, Tex. @ 7pm. 2/2- WTM-1290 Ocala, Fla. @ 12:15am w/r/c; WKDA-1240 Nashville "2:40; KSEB-750 Durant, Okla. @ 7pm w/r/r; 2/2- WBSM-1480 Warsaw, Ind. @ 12:23am; KCAN-1550 Canyon, Tex. @ 2:05am w/NASA TEST. 2/24- WDKX-1300 Kingman, Ariz. @ 1:33am w/r/c; KEBR-1430 Grand Island, Neb. @ 2am w/c; KCLL-1350 New York, @ 2:15pm w/ID; KAMC-1200 Amarillo, Texas @ 3:31am; state #41. Ball B., did you get my tape? Latest veries: v/- WABR WRVA KLON KCKW WPFL WSM. v/- KOLE KFTR KBJM KWY KOPY (second report) WLSI WSBN WTHA WJMJ KFRC WJLR WBPW WJBD WSEL WARE WJCD WDSL. Also received a verie from KTON on a f/Up. Match came in like a Lion, no new loggings so far in March, hi! Well that's about it for now, so 73 & good DX from WPE5EIS "The TransistORIZED DX Station!" 0 U soon.
March 12, 1966

Gordon P. Nelson - 19 Irma Avenue - Watertown, Massachusetts - 02172

Phone 924-9007. CX have been extremely unstable for the past few weeks & DX has ranged from extremely poor to extremely good. We've been having a period of ionospherically disturbed CX which might be characterized as "turbulent"; the chief characteristic seems to be a strange fade, very fast & quite frequent, CX settled down a bit about 3/1 & we had a remarkable night of South African reception on 3/3; SABC on 638 764 908 & 1286 plus Swahili sounding audio on 638 that is almost certainly TANZANIA. Details in IDX. Recently I had a very nice visit from NRCCer Tom Holmes & enjoyed a fine technical discussion. I was really startled by Ross Hansch's information on R. America's which appeared in the Musing of 2/19. Ross stated quite positively that on the basis of "amateur" (i.e. 'ham') info R. Americas was operating w/high powered XMs in // from both Swan & Navassa Islands 24 hours a day. While I don't want to cast doubt on the veracity of ham info, I'd like to address a few questions to Ross. First of all, I hear R. Americas s/ff nightly at 2am in EE w/the announcement that they will return @ 5:01; therefore they are not 24 hours. If Americas has a second high-powered XR on Navassa Island, I'd like to ask Ross: a) Why are DF bearings from Mass., Houston, & Miami not "pulled" toward Navassa? b) Why can't I see an SAH between these two carriers even if I autocorrelate the signal strength down to 0.04 cps on the computer? c) Why do I not see the interference fade & distortion that would be expected when the phase difference between the rays from Swan & Navassa passes through n30 plus 180 degrees? d) Why is it that when Americas s/on & s/off, I observe only a single jump in signal strength as would be expected if only a single XR were involved? e) It is common knowledge that the US monitors Cuban electromagnetic radiations from Navassa; why therefore set up a 50 or 100kw. American XR on this two square-mile island to QRM our listening equipment? I'd hoped that the ANARC-initiated DF study on Americas would end the "controversy" once & for all but the Americas myth seems to die rather hard! I got several positive IDs on British Virgin Islands on 730 mid-Feb, but have been too lazy to report. DBI logged as country #16. Ron Schatz: Please excuse my technical obtuse-ness but I'm still confused as to how you were able to obtain much good DF on Iceland-735 without a scope to indicate the SAH null w/RNE on this highly, please clarify. 73s.

Stan Morris - Route 3 - Bradford, Massachusetts - 01832

2/22 - T69 La Voz De Las Americas, Guatemala City on 795 copied 8:45-9:10pm for a report frequency switch from 1140, evidently. Verifies: CHER Sydney NS, 950k, says I'm first US reporter & they are 24 hours a day, but not heard here since 1/31, so possibly off MMs? EAJ15-1124 Barcelona, QSL letter & pennant, very happy w/the tape I sent. They use 10kw Collins XR, & welcome more reports, especially tapes. Reported on 1/9 in PM w/no stop from WNWE, but not heard since. 2/23 - Radio Intercontinental-933 Madrid copied & taped 5:55-6:35pm w/nice signal, as did many other Spain stations, but by 6:30, others were gone. Both Andorras very strong around 5:30pm. Guatemalan Election on 3/6, so five a look for TGs 3/7. 2/24 - WELV-1370 Ellenville, NY 5:04-5:30pm o/u WSAY w/several more far back for a surprise new one, while looking for WBKN. 2/28 - KSWS-1020 Roswell, NM 1:06-2 o/KGDS for the first time but had OC & TT of KDKA to contend with. WBFE-1460 "Radio Popino" San Sebastian PR w/a terrific signal 2:18pm, better than two DXEs by 100%. CHM off & weak SS on 900 but couldn't pull an ID. CHMS back on by 4am.

Greg Senko - 111 Forest Avenue - West Long Branch, New Jersey - 07764

Hi. Time for another Musing. Verifies: v/1- CJSS Welsh Home Service. v/1- WGY, R. Belize, WQAR WNEF WBBM KSTP CCEW WTBC WGN ZMB1, back in ten days! DX: 2/21- KAAY-1090 Ark. 2am w/religious program, state #47. CCKW-1320, Ont. @ 2:05am, ZMB1-1235 Bermuda 2:30am, CFBC-930, NE, 2:42am. 2/22- KHEG-740 Okla. in briefly @ 1am w/ID but CHL MX killed all chances for a report. 2/27- WLYC-1380, Fla. @ 4:28am, WAME-1250, Fla. @ 6am. 2/28- WRAW-1540, Pa. in briefly from out of the mess @ 5:12pm; WHLD-1270, NY @ 5:27pm; WUST-1120 Mi. @ 5:45 s/off w/VOFL/KMOK; WCEB-1330 Mass. o/the local station @ 6:05pm. 3/1- WEXN-1240 Va. @ 6:10pm o/WAAB. 3/2- WEXN-1500, NC, @ 6pm s/off w/TOPC; WPHW-1460 Va. @ 6:01pm. 3/3- WHEG-1360, Va. @ 6:39pm; WSGO-1440 NY @ 6:15 s/off. 3/4- WCDJ-1440 Pa. @ 6:09pm. Just came up w/a crazy idea. Instead of getting stations to go on the air for a test, how about getting some of the NPS pests to go off so we can hear what's going on behind them? Good ones, here would be WMCA WWRL WCAO WNWE. How does that sound to you, ERC? 73 till next time. (Good luck, Greg - you'll sure need it, hi -ERC)

I made a slight error in my recent Musing. If you haven't typed it yet perhaps you'll be able to correct it. The new WYSL DJ is NOT former WCLY DJ Dick Blondi but Dick Kemp.
Hi, all. Not much to report from here, despite my last Muse being delayed by George's birthday, hi. 2/20- WANN-1190 s/off 5:44pm, unn; WGBP-940 5:57-6am s/off 6:02. WITW-330 0:15, WDSI-900 s/off, all Pa 2/28. 1:25am, 1:10, CJET-660, unn but reported as in well o/another CQB NK. Veres in from ZEMI & WCHO. Greg Senko & Mike Gilkon, my home in in NJ, in Little Silver, so when I'm on Spring vacation, I'll be in touch w/ you. Letters are forthcoming to all those who won't have already received 'em by this issue. All listen for WLYG-1440-TEST (Should maybe be a question since most of you will get this 3/14.) WXXV-1500, Troy, NY has recently gone from c/w to "good mx", EGB scratch one. HOWEVER, WPAW-1540 is now featuring a c/w hour afternoons, hi. WYSL-1400 Buffalo recently conducted a listener survey by phone to decide a new format. They're now rr. (I got 'em on FM only though.) They were "good mx." KF-K-1380 has been granted still another 30-day license extension to 4/1. I am still working on a TEST from WPAW-1540. Guess that's it. C U in 7.

Wayne Hainsen - 126 Linwood Avenue - Orchard Park, New York - 14127

Hi from Dick (Wild-Child) Kemp country. WYSL-1400 went rr as predicated but didn't bring Biondi here. They needed a place for all the WYNR rejects. A visitation to them will be forthcoming to see about NSP. They were AN on 2/28. Korros, I missed MM 2/28, first one this year. Ralphie says that CHML-900 was off! So, I missed some really rare happenings. Veres: v/q- WIGS-990 (1423-25 Walnut) WJW-850 (Cleveland 15) Both are Storer BC only non-veriying Storer station & WSPD-1370. Call 2:30-3am on Tue-Sun AM. Cherry 8-6405. V/f- WCRO-1250-DX (f) Ft. Stanwix Hotel WPEN-960 (f) (2212 Walnut), WBAZ-1240 (85 W. Union St.) WCAD-990 (Marine Trust Bldg) WDEA-1370 (f) (68 State St.), Me. #1. Totals: 445/207, states 42/37, provinces 7/7, countries 19/7. To all SW Pa, members, John Kershawsey said in letter he would appreciate any visitors, if possible try to get some info on the test, OK? WDEA would appreciate a visit, says v/f. I always get the invitations from the stations way out in the sticks. Time to take my pills (I have the @#%^ing horribles) which means the doctor hasn't figured it out yet! 73s & stay calm.

Ken Biesinger - 16 Douglas Court - Pearl River, New York - 10965

Well, I'm back on these pages again. Not too much in the way of DX to report but I like to keep up to date. Recently: 2/4- WTKO-1470 in & out between 4:29-4:40pm. 2/26- WDDN-580, 10:14-10:40pm, completely smothering WNNJ, for NC #4. 2/28- A profitable MM w/five new loggings: CHMS-960 coming in periodically from 210-2:28. WBP-1230-DX, 3-3:17am w/a very strong signal & the "Green Hairnet" (figure that one out). WPX-920-TEST, 3:30-4am. This is getting interesting, as they gave their phone number & I listened to the entire program to see who called. I counted one during the half hour. Jerry Starr's being the only one I remember. WRCH-910, 4:01-4:07am. WIL-1320, 4:21-4:47, w/rr. Only four veres since my last Museing: WISM WCRO-DX WTR WRYT. That's it from here & remember: This is the year Cleveland annihilates the rest of the American league.

Ken Haylath - 2915 Church Road - Baltimore, Maryland - 21234

My Musings have been late but regular of anything I have been at the dials f'm time to time. It seems as if you have to keep yourself on a sked of sending them in, or you just don't seem to get around to it. A summary of my activity during the past month: 2/7- WISM-1480 w/WHDM OC, 2am. 2/14- KONO-1000 s/off 3am. WJL-1480 TEST 2:20 w/lots of competition from the other two or three on the frequency testing & usually atop WJLE. CHLC-730 3:05 ID extremely weak. CBJX-800 noted at 3:15. WE-0-860 TEST in w/a solid signal 3:17. WTH-1260 solid on ES @ 4:05 after s/on # 4. WAPA-680 @ 4:35. WPAF-580 fairly readable @ 5 s/on. WEAN-790 noted on 5:05. 2/20- WIND gene erally atop 560 2:05-2:10. WTHE TT & IDs 3:10-3:15, heard on five tube clock radio on 850. 2/21- WHDN-620 generally on top @ 12:01 s/off. CKHR-800 doing well w/local WGBF off right at midnight, s/off 12:10. WTH-1300 PO in progress 12:30, nothing heard for a few minutes after that. Well atop the frequency. WMYR-1450 struggling through w/WT 12:35, WENS & KSO s/off together at 1, about even at 5-9 plus. WDOB-1450 TT 1:50. CHFM-1490 atop that frequency 1:55-2. WTRX-1330 test 3:05. 2/28- KTOK-1000 atop one other AN show at 2am. CKTR-DX 3:05 not getting in very well. KAPE 1370 TEST fair signal 3:20. WKEC-1300 5:50, RS, WENT-1340 a welcome surprise atop the pack at 5:30am s/on, on clock radio. WCSS also on clock. 3/3- Bonaire-600 fighting it out w/CXLN at 1am. That's about the story for now, so 73.

REMEMBER THE IRC CODE ALWAYS TO SEND RETURN POSTAGE TO ALL STATIONS REPORTED. WHY NOT USE COMMEMORATIVE STAMPS? BUT WE SUGGEST STEERING CLEAR OF "CONTROVERSIAL" ONES.
Not too much happening here DXwise this past week - up for Specials on MM but only one verie, mainly catching up on work & rest of activities. V/1 from WPFA-1360-DX, reports on day pattern from Iowa Mo. Mass. Wis. Ky. Que. Ont., one of the more friendly stations around; forgot v/1 from CKOX-1340 DX a few weeks back - now w/1,000w, normal sked 6am-midnight, reports on DX from Montreal, Philly, R.I. & northern Mich. DX since last report amounts to this: 1/23- CJOY-1460-DX not on, undoubtedly snowed in; WMAJ-1450 @ 4 am, AN or on because of WX? WHSU-1490 was a new one @ 4:02, then the power went off here & as it turned out hot back till 6:10. 1/24- Log on CKPM-1440 for few minutes prior to 2am s/off; CCKM-980 definite @ 2:04, long has eluded us; VCA-980 finally heard & w/generally strong signal, NX & commentary till 9:30 s/off mentioning XR in Greenville NC - anyone get a satisfactory verie for this 960 outlet yet? WTOG-1560 ET ID @ 2:20; CHUM-1050 image way on top of 970, ugh! KERB-1090 s/off 2:49; who was strong TT-1070 @ 3am, WFLL? WCOP-1150 very weak s/w/ school closings; sounded like c/w mx on 1020 @ 3:03 way u/CHRM slop. When does KSWS-1020 s/off MM & do they play c/w? (s/off @ 2 am, Wayne - KGHS is c/w after 2:30 - ECC) WTOG-1560 ET still going strong @ 3:15 w/ J. Mathis records. Later, WCBS-580 s/on 5:03; WNTR-680 going strong @ 5:05 plaguing their decals; SS-310 u/WGY; WW-1120 @ 5:10 w/KNOXoff. 1/31- Blizzard MM. Log on WHEC-1150 12:05-12:15; then log on WCMX-690 giving tremendous list of plant closing in Baltimore area; who can supply "The World Tomorrow"-1140 @ 12:25am, KSSO, or something more exotic? Whoops, then seemed like Canadian NX just after 12:30 but pitifully weak u/jammer so perhaps CKLX still needed for decent log; CJRL-1220 s/off 12:30-3:30 & mentioning CKDR in parallel - no luck on digging CKDR out from u/CHRM. WBCC-930 AN this MM; just missed ID-1510 @ 1:05 "testing on 1510k" - who? TT-610 u/CKTR, no ID. Later, WPY-580 @ 2:50, ran AN; WIST-1240 & WKGX-1340 both AN; Log on WCMX-1460 3-3:08, also AN, as also WCAU-1310; KFJZ-1270 in quite well so longed off/on 3:10-3:50; WAKP-1320 another AN; no definite ID from KFRM-1240 so no report. TT-1240 ended 2:10, QRM WBAX/WJSS/WJIM. Strong TT-550 3:35. SS-930 logs all @ 3:47? WBQF-550 AN w/plant & school closings. WRNY-1350 s/on 4:01; TT-1600 +:09. ./1- WAAY-1550 6:13pm on day pattern & out like a light @ 6:30. KFIF-1550 off/on 8:02-8:14pm u/CBE- does this one verie, no answer to SSS reports in past two years. KYND-1580 fairly clear even tough CBJ strong! 73 kiddies. (KFIF right back w/v/f for me for an AN ET, Wayne; v/s Jay Bundy, CE-ECC)

Bob Zwie - 355 West 20 Street - Holland, Michigan - 49423

I will just send a few words this time as I forgot the deadline, & I want to get it to ECC on time. DX: WBQF-1270 on 2/24 @ 6:35pm w/no sign of WYXZ. 2/26- KSER-1500 @7:35 pm. 2/26- KFBK-1530 @ 3am w/NX, CKTR-1150 w/FF, WBVP-1230 @ 3:11, WPTX-920 @ 3:40, KAFB-1370 @ 3:25am, & WJTR-1260 @ 4:15s w/no sign of WNDW. Only verie back was received today, v/1 from WBVP for their DX. I heard a bad report today about people DXING tests from stations. I hope that none of us does that! How late in the year should TESTs be asked? I have never seen any in the Summer, but is that a good time for TESTs? I don’t know how much DXing I will be able to do w/BB practice starting at school, but I hope there is enough for a listing now & then. One other thing, I got my 20 states award today. 73 & good DX.

John Sampson - 90 Pearl Street - New Providence, New Jersey - 07974

Greetings again - latest DX: 2/20- WTAE-1560 test @ 2am, also heard KQTX-1560 but didn’t realize it till reading ECC’s mailing several weeks ago. 2/26- Sat. afternoon, another try at WHER-1300. WBEL-1370 at 3pm, WEEZ-1590 @ 3:15 u/WERA (XR about ten miles away) & WBRJ, & WJDA-1200 s/off @ 5:15pm, first time heard since their TEST in 1965, heard in Omaha. 2/28- WBVP-DX fair to good, particularly after 3:3/4. KAFB-1370 TEST poor, & WPTX-920 very good. Also heard KBEA-1500 after KSTP’s s/off, but I don’t know if enough for a report till I listen to the tape. KSTP is now s/off @ 4am MM’s. Who puts that horrible buzz on 1500? Many unID TTs again. 1150 @ 24:15; 1210, 1220, 1250, 1260, etc. Also was an excellent night for WC stations but no real excitin ones noted. Latest veries in from WNRN-1430 (wheel) WAMO-860-TEST WABR-1440 & WSOO-930. WPAT off again last night - is this regular? 73.

William Ochs - 155 Prospect Place - New River, New York - 10965

As I sit here writing my listing I am still thinking about the call I just received from Ken Bissinger who stated that WABC just went off the air. This was 3/5 & they were off for 22 minutes from about 5:35pm. During all this confusion, I fought through some static from an approaching storm to hear WAVA-780. They came in pretty good even after WABC returned to the air. Some DX which I forgot to give in my last mailing was (P. 11)

Hi.
DX sloughed off a bit this week w/only a few new ones, all domestic. They are:
2/26- WNJJ-1380 @ 4:55pm. WEEP-1080, @ 5:330pm. JWVA-1890 6-5:15 s/off SSB. WHUP-1680 @ 6:08, probably my best SSS catch. WLIJ-1580 @ 6:19 s/off w/Dixie. WCHS-880 @ 6:39. KKO-1680 @ 9:00p. WRG-980 @ 9:30p. 2/28- MM- KPMC-1560 20 over 3:28-2:29am s/off-SSB. Yahoo! KENO-14 60 20 over 2:55-2:58am s/off. KAPE-1700 TEST easy, 3-3:20. WFTX-920 20 over 3:30-4am. CKTR-1150 @ 3:20-3:30. 3/6- WEAT-880 @ 12:33pm, WJG-920 @ 3:30. TT on 1380 3/6 @ 1:03-1:17am, almost definitely is KCII, but not logged. Also, I think, KOTA-1380 @ 1:23am, 3/6. This has been a very good week for us. Friday, I was
elected to the National Junior Honor Society, & Saturday I finally sold a CB rig I had for $15. I went bowling Sat. & raised my average to 96, hi. (Wow! - ERC) Veries: KBOY-WTV, bch v/1. Un-verie, KTWLA, nice letter & CM. I guess it wasn't they I heard on MM 2/28 TT @ 1:15am.
I wonder who? Ernie, WPNE is ex-WTHR, Panama City Beach, Fla. (It's WGNE, Tom -- they TESTed for us a couple months back! - ERC) One more thing -- anyone have good plans for a BIG loop? 73s.

Ralph M. Johannes - 11 East Chippewa Street - Buffalo, New York - 14203

Norm M. oisteads Waikiki greetings from his 12th floor hotel suite where he has too much DX QRM due to steel frame building, although he's gazing towards Australia/New Zealand. The last time I saw Norm was w/Pop Edge, Dick Cooper, Carroll Seth, Pat Reiley, Al Bartholomew, when he was a nice boy & still single in Hartford, Conn. Pop was driving us to visit Fred Van Voorhees (Bronx, N.Y.) then ( & Lefty (then, hi) Cooper in N.Y., some dozen years ago. I wonder what became of Al & all his KKKO stamps? 3/5- DX NEWS not in, maybe MM & here Wayne H. is a sick duck again & no DX medicine, only the new WYSY-1400 rr (crap to me). I phoned WYSY as past MM ANed, they said the MIs will stay silent now (hurray). 2/28, & the first time in many years, CHEL-900 AN-7 was OFF (short CQ/TT, on/off after) & got WDDT-900, 207 Main St., in Greenville, iiss. w/2-2:03am ET/M; a return mail v/1, CM says just an ET, the WDDT stands for Delta-Democrat-Times, March 6:15am-6:15pm CST, April 5:30-5:30 CST is sked. V,1, WFRN-1440 Coastal Broadcasters, Inc., Box 665, Herndon, VA. 22070, for 2/18 3-3:45 f/TT (no info). Noted CJOY-1460 ANING past three nights & WENS Aner @ 4am upping to Sky (pattern change), the weekly s/on-SSB WHWE Rutland VT. @ 5:57am cut by WQFL-1000 @ 6; on 600, SSB 5am s/on, WSJS Winston-Salem, NC & @ 5:58, SSB & WFMU Coudersport, Pa. &.on. Not much DX, too much un-routine stuff heard. Sat. 3/5 loads of Mich. stations testing & nicely on old '34 RCA heard r/c-EP (not 4:20-4:40 listed) 4:30-4:46 off (raining here) by WFRN-250. Liberty Ky. If you want half-hour religion (only call, start & end) take 1250 CCKW Moncton, NB 5-5:30am. Tonight 3/5 You may get some Guatemala ERS & tomorrow (MM) maybe some verses, so have some fun, 3/17 w/the Irish on St. Pat.'s. I will. Argentina ended DST 10/15-2/28 & set docks back now one hour.

Steve Weinstein - 435 Jayson Avenue - Pittsburgh, Pennsylvania - 15226

Hi. DX was pretty good this week, especially MM 2/28. Veries are almost nonexistent, as I'm way behind in sending out reports. v/q- WSWV. v/l- WAGE. DX: MM 2/28- KELI-1430 extremely clear, lam s/off. WACO-1460 fair 1:29 s/off. KFDA-1440 r/c finally taken down for a report 1:31am. WHEL-1680 ET/TT/M 1:55am. WTOD-1580 ET/OC 1:57. (P.12)
March 12, 1966

(Steve Weinstein) WFBX-1460 2:03am; this wasn't another NRC DX, was it? They went off around 2:30am, I believe. The signal was much clearer this time than it was during their previous two DXes; even though KENW & KDON were on this time. KTKQ-1000 8-7 2:18am, the clearest I ever heard them ("Red Rover Radio"). UNID DT on 960 2:34am & most of the morning, who? (Read G. Nelson's article on P. 3, Steve -ERC) KWIZ-1480 excellent at 2:52am (Quiz Radio). CHML-900 was noted off for the first time ever, since I have been listening, at least, @ 2:57am. Religious program very weakly heard @ 2:57-3am when an ID was given; tape sounds like CGVI, & a tentative is off. KABE-1370 TEST 3:03am L& C 7-8 throughout the whole test. WEFB-1230 DX 3:11am L&C S-8. Anyone else heard their c/w "Green Hairnet" or "Shazam?" Really something. CKTR-1150 DX very weak 3:17am. WPTX-920-TEST 3:31am L&C w/a really funny announcer. CHML-900 back on about 4am. WKQ-880 s/off-SEG 4:55. WFKR-1240 ET/OC 5:07am, then beddy-bye. FM, WBUS-1440 6pm clear, mentioning now fulltime. Do you realize there is a WBU & a WSKL on 1440? KXED-1590 fair 6:43pm s/off. KCPJ-1510 good u/WLAC 7pm s/off. 3/1. A new Cuban on 860 @ 12:25am s/off, calls are CN-A & location is camaguey. WABR-1440 f/-oc 1:06am. KXV-1310 1:12am TT, probably f/-c. KYC-370 1:32am, first time this season (WFRN off Tuesdays). WEXF-860 r/-TT 1:49am. KRGB-1230 r/-TT 2:30m very weak u/Id. UN-ID tester on 860 @ 3:15 "on the air for test purposes only." who? WOAQ-1240 ET/M 3:35am. SSS, KPIK-1580 6pm s/off u/KYD. 3/2. KORY-1440 7:15pm s/off. UnID s/off on 1510 @ 7:16 w/nothing, believe KIPG. 3/- TT-1166 ID 1:25 turned out to be r/c of KXYD. WKR-1420 & WDOM-1440 r/cs also taken down. FM, WYB-960 6:15 s/off. WJIN-1410 6:46pm s/off u/QKV. WWDA-1580 7pm s/off. UnID s/off-1280 7:14pm w/SSB. 3/- my 1240 s/off @ 2am again w/The Lord's Prayer. I'll ID it yet. UnID s/off-1400 2am w/SSB. PM4, WPAG-1050 6:45pm s/off very clear. WSNW-1150 6:52pm s/off fair. WTTN-1580 7pm s/off. UnID s/off-1510 7:06 w/SSB. KXED-1590 7:17s s/off. KCLI-1560 7:15 s/off. SSB-1530 6pm, almost definitely KRT. I hope everybody got WBVP & KABP. Whether you need them veried or not, drop them a line anyway & tell them of your reception. 70s.

Michael Gikow - 115 Forest Avenue - West Long Branch, New Jersey - 07764

This is my first Musing, even though I have been a member of the NRC for a few months. I have been DXing since 6/66. My RX is a National NC-3-40D & I use a four-foot loop antenna. I hope to be able to MUSE every week. My totals are 427/47, states are 34/26 & provinces are 7/4. DX has been slow this week w/only four by Friday. WLAD-300 2/21 4pm; WDRE-1490 1pm, WCRV-1580 1:52pm, WNLK-1350 2:30pm 2/25; all were mostly wanted semi-locals. Recent veries: WOAQ-1200 Tex., WBNBq-V., WHBq-first Vt. Varie, WSM Wis., CKWNL-35. 73s. (Welcome to the NRC, Michael, we also hope you'll MUSE weekly --ERC)

Ernest R. Cooper - 145 East 21 Street - Brooklyn, New York - 11205

Veries are again in a slump. KNOE-540, CFAM-1290, CGAD-1490 & TIBAS-650 - no Ws! Well we didn't get room last week to MUSE, so this one covers the past fortnight. 2/22- The SS on 795 is definitely IDed as a Guamanian, heard midnight to 1:01 s/off, often saying "La Ensenada de la Patria." Stan M. says it's TCO, ex-1140ct. 2/26- WNNX-1550 on ET/M almost even w/CBE, 2:02 & on, a tough verifier. 2/28- More good reads, KVQ-1170 is now AN Mirs. ETER on 1440 went off @ 2:14, & again, I got only the fag end of the announcement. KWTA-1530 was on w/a f/-TT 2:15 & on. Seldom-heard KP4-1560 in @ 2:18 w/religious program. KWIZ-1480 atop KBOX @ 2:26, unm. CHML-900 off as many noted but nobody mentioned hearing a Brazilian there like I did, but too weak to ID. Heard 2:57-3:40 fade-out. UnID KAPP-1590 & WPTX-920 in nicely; WTOD-1560 ET/M 4:07-4:12 & on. Here's a good tip; WUPR-1530 s/off in the clear 4:15am, a lead-pipe cinch, only new one of the AM. 3/- CBY-990 in occasionally 6:45-8:30pm, enough for a report, at last, Newfile #10. 3/- Low-pitched f/-TT & low voiced announcer, s/off 3:15am w/CEB-1550. CJAD-900 squeezing in u/CKLW, An. Sounded like WGOH-1370 ET/M, ID @ 3:47. WSR-1440 off w/c TT 4:05 & on. MM 3/7- Unn Guys on AN or nearly AN w/ER: TCO-795 TGR-1585 TGJ-580. Noted WJGQ-220 now AN MM. WJKR-1430 not AN; was w/gospel mx on Sat. 3/5, though - hi, Joe Fela! Unn WJCO & WURLM-1510 battling, 2:35am. Who is c/w AN u/WWSW Mts? (WJRE silent). A WW?!-1450 on "preliminary ETTs w/an ER of 250v." @ 3:38, & disappeared. An AN-SS on 540 w/YL announcer on top, unID. One new Guamanian logged; TGSR-1520 AN/ER/SS/mx. They were loggable u/KOA, but in the clear & S 6-7 after KOA s/off @ 3am. A phone call care from OB of WWRK-1550 inviting me (r/ you too, Joe Fela) to visit their XR in Kearney some Sunday afternoon, how about it? They want to prove they're not overmodulating. They had annual Pop on Wed. AM 3/2, said he. And a few words of thanks to those who sent recent picture postcards, & to Steve Weinstein for the fine photo. Anybody else want to send photos for my NRC "Mug up Gallery?"CUin7.
ON THE STATION'S STATIONARY - WSPD-1570, TOLEDO, OHIO 43602

March 3, 1966

Dear Mr. Woo,

"We have read your recent letter pertaining to the verification DX reception reports on our station with some amazement.

"We have double checked on our procedures here and find to the best of our knowledge that all DX letters received supposedly are answered. If we have missed answering one or two, this would be understandable as we are all subject to error, but if we have missed more than that, I certainly would like to know more details on it.

"Therefore, would you please advise your organization to notify anyone who has written us to please send us a duplicate of their letter and we will guarantee they will get a reply. All letters should be addressed to WSPD Radio, 125 South Superior Street, Toledo, Ohio. Otherwise it is possible these get sent over to the television station and, under those circumstances, it is entirely possible they might get misplaced because I do not believe TV endeavors to answer such inquiries.

"Thank you for bringing this matter to our attention."

Radiocordially, STOREE BROADCASTING COMPANY,

(signed) Reggie Martin, Vice Pres. & Gen Mgr., WSPD Radio.

And, they sent member Gene Woo a blank WSPD QSL which he sent along here. It is a most attractive blue QSL card. So, let's send those reports to Mr. Martin, and you'll receive your WSPD QSL, as he promises. Our thanks to him and to Gene Woo. So, all, kindly hold off on those suggested collect calls to WSPD, please!

CHANGES IN STATION DATA - FCC

(Purchased from Cooper-Trent, Inc., Washington, D.C. - 20254)

FACILITIES

1140 K L P R Oklahoma City, Okla., 1,000 D-1. Increase antenna height to 593' (from 255') and add antenna resistor.

1240 K F O R Lincoln, Neb., 1,000/250 U-1. Minor move of XR slightly westward.

1290 W E Y E Sanford, N.C. Omit previous notification of decrease in antenna height.

1340 M A A A Dufkin, Texas, to 1,000/250 U-1, from 250 U-1, same channel.

1490 W O H I Owensboro, Ky., 1,000/250 U-1. Decrease antenna height (immediately)

K D O H Tyler, Texas, 250 U-1. Move XR NNE, & install taller (400') antenna.

1500 W V O C Battle Creek, Mich., 1,000 D-1. Changes in directional pattern.

We received a letter last week from our good member WDB ZWIR, 385 W. 20th Street, Holland, Michigan 49423 informing us of two tests arranged by another Holland DX'er for IRCA. Our bulletin was crammed to the 20 page limit (I had only one line of space available) so we did not include this information since it would have meant extra postage, and the scheduled times did not justify spending additional money. As follows: WJEL 1260 Holland, Mich. test March 11, 1966 12:10-12:20 a.m. Test will consist of 1000 cycle tone. WJEL, 13rd St., Holland, Mich. 49423. WHTC Holland, Mich. test March 11, 1966 12:45-1:00 a.m. EST. 800 cycle tone, possibly some band music. WHTC, 87 Central Ave., Holland, Mich. From the time of these tests, it would seem that this is the regular frequency check period of these stations. Many of you who receive the bulletin on Saturday will still get this info in time.

We had several requests for Tom Arko's address. It follows. Let's get off a note of encouragement to Tom who is one of our members in Vietnam.

WHAT IS HEARD...

640 CUBA. CM, Havana, has R. Moscow program some afternoons around 1500. Listened on car radio 2/20, program on Vietnam, with the vilest and most insulting anti-American propaganda I've ever heard. Creepy feeling to hear this stuff while riding down the Florida turnpike. (Sheldon Miller, 1400-30th St., Miami Beach, Fla. 33141)

750 EL SALVADOR. VS station here under WSB some evenings around 2245. Who's this? (Miller, Fla.) YSKLA780 (Miller, Fla.)

760 PUERTO RICO. WOA, Mayaguez, s/off is 2120 with SSE and P.A. anthem. (Miller, Fla.)

764 SENEGAL. The Al Far on 2/27, for the record. (Ben Dangerfield, 202 Governor's Drive, Chester, Pa. 19013) Parker was probably AN 2/27, noted at 2245; periods of call-sign, vernacular talks, beware Baghdad loggings that night. (Richard E. Wood, 207 E. 16th, Bloomington, Ind. 47403)

780 FR. VIRGIN ISLANDS. FTV believed to be the English-speaker way behind WEEB 1900-1930, 3/2. (Dangerfield, Pa.) British-accented English here around 1900 2/25. Cuban and WFUN made ID impossible, nothing positive logged. I've been trying almost every evening for this one. (Miller, Fla.)

795 GUATEMALA. TGD, La voz de las Américas, Guatemala, nightly till s/off 0100. (Wood, Ed.) Noted 2/26 with "THE, La voz de las Americas" ID 99+25 signal next to local KHNY. (Jack L. Keene, 9020 Epps Street, Houston, Texas 77021) The strong one on a TG, but who? Another L, behind, but off frequency. (Dangerfield)

800 PUERTO RICO. RI7, I guess, faded stop 2/28. Channel seemed clear, no Cuban noted, but I think a very weak Canadian way in the background. HNL/made ID impossible. (Miller, Fla.)

820 HAITI. ANTILLES. PUS, Trans World Radio, has been carrying "experimental programs" from 2300 until 0100, with news on half hour and symphonic and sacred music. They want reception reports from distant listeners, and promise to verify. They'd also like opinions of programming, and from whom they are receiving GNN. (Miller)

838 INDIAR. YUOD, Ciudad de Lux, Managua. Noted for first time here, poor from CHCA slot at 2212 2/23. (Mike Silvera, 3 Somersworth St., N. Keene, N. H. 03461)

834 FR. HONDURAS. R. Belize, noted to s/off 2300. Came in loud and clear, about 5-8. Only identified foreigner besides Porama on 800. (Frank Wheeler, 6239 Wattig Road, Brie, Pa. 15609.)

860 SPAIN. Two Spaniards are being heard here in Europe: F2J-51 is only one; so other Iberian noted here may not be Porto Delgada. (Wood, Indiana)

860 MEXICO. XEUM, L. Universidad Nacional Autonoma de Mexico, Mexico, D.F. had program on Vietnam, good signal around 2245 2/27. (Miller, Fla.)

867 XUM. Very strong on 3/1, all evening. ID sounds like Radio Verentes. (Dangerfield, Pa.)

880 MEXICO: XE2Z, Tequila. Jalisco. S/on 0800 2/24 and 3/4. XE4M, XE2Z, E. L. P., only one I can find listed, but this baby doesn't sound like XEUM. Not TGJ, who can be heard earlier, around 0700. (Roy E. Miller, P.O. Box 50, Marysville, Wash.) Roy, your tape discloses above ID. Call letters very clear. XE2Z is listed here in WRR-66, no correct your W's with this one, boys. (Ed.)

890 DOM. REP. HJF, R. Continental, Santo Domingo at 1753 with music and time checks. Been after this one a long while. Noted 2/26. Incidentally, Dom. Rep. seems to be back on E.S.T. (Silvera, Jamaica)

910 COLOMBIA. HJDO (not sure, not R. Sintones) Medellin is now AN with T decorator program parallel with HJCS-930 and HJES; not here with YRQ. (Silvera, Jamaica) HJDO, Voz R. Grande, Medellin, is T decorator affiliate, says WRR-66. (Ed.)

930 COLOMBIA. HJES, Bogota, here AN WW's with very strong signal, good modulation, and NR music around 0315. (Miller, Fla.)

1010 COLOMBIA. HJCC, Bogota; seems to be NSP and the station which causes the notch on this frequency. Battles CBR Nov. around 0300. (Miller, Fla.)

1025 COLOMBIA. HJR, R. Pacifico, Cali, moved here from 1030. (Silvera, Jamaica)

1060 COLOMBIA. HJ2Z, Emisoras Sima, Monteria. Not sure this is NSP or just AN WW's; only heard when KAV off. This is strange, s a they are in days, must have cut power or directional array at nights. (Silvers, Jamaica)

1080 HAITI/PUERT RICO/VENEZUELA/COLOMBIA. Around 1800 2/27, a blaze of Caribbean-area stations with no domestics present. Man yelling excitedly in French was YRQ, Haiti. The most powerful SS was YWQ with sports, while another, weaker SS mentioned "programmation insulaire," which would indicate the new WLEY, Puerto Rico, is on the air. A third SS was poorly modulated and slightly off frequency, and mentioned Caracol. Might by HJ2Z, Medellin, from 1002. (Miller, Fla.)

1135 COLOMBIA. HJ4Q, Emisoras Riosur, Barranquilla, now on 1135 from 1130, much better modulation and very strong signal even with WW5 50 k, away. Hetero gone from 1130, and WRR/XEX much clearer. S/off varies, but usually about midnight. (Miller, Fla.)

1200 COLOMBIA. R. Mill Descuentes, Santiago de Cali. Neglected to mention this before, only spent 2 weeks on 1210. Obviously 1200 is assigned frequency. No longer AN and belongs to Union Radio network. Incidentally, YVQZ R. Tiempo here not AN for over a year. (Silvera, Jamaica)

1980 HJ60. 2/28 had Cuban very weak, very high static level, and a second station with bongo-like drum solos. Hoped to dig Sierra Leone, but I suppose it could have been Brazil as well. About 0140. (Miller, Fla.)
1211 BRAZIL ZTV, R. Ca&hos da Itapevirs, Espirito Santo, 1 kw., logged and reported 2/21, 0100-1300 right through the tic-toc. (Clarence Burnham, P.O. Box 372, So. Norwalk, Conn.)

1260 VENEZUELA Who is the one listed here? Have ID at 2120 2/22, but HUHA too much. (Silvers, Jamaica) TVSU, Malguata, is shown here. (Ed.)

1270 VENEZUELA TV, R. Tupacata, Tupacata, noted atop Reloj with s/off annents. 2100 2/22. (Silvers, Jamaica)

1275 COSTA RICA Tire, R. Ernesto, San Vito Java, with ranchero-type music, and chimes between every selection at 1700 2/22. (Silvers, Jamaica)

1295 W. GERMANY B.B.C, Berlin, was threatened with closure a year or two ago, but saved by parliamentary protest. (Wood, Ind.)

1310 GHANA, WAG, Transmissora Guia, Bucaramanga, has moved back here again. Still NSP. (Silvers, Jamaica)

1320 VENEZUELA WSCOT, R. Colonial, new station testing and asking for report. Mentioned release date and location as Popolito? 1522 2/22. Can't find anything near the above on my mps. (Silvers, Jamaica) No good map is out of pocket, and I find nothing listed station-wise. (Ed.)

1330 PUNTO RICO WSA, Isabella. Ren late or AA 2/26, with local fiesta. Many ID's, all SS. Still on by 0130. (Miller, Fla.)

1421 CUBA Ence Again had a signal here just after 2200, 2/28, to 2230 fade. (Dangerfield, Pa.)

1424 UNID. L.A. Can't get any audio on this one, but produces strong helico on mps. Seems to be HJ or Caribbean area. Anyone know what? (Miller, Fla.)

1425 COSTA RICA Very strong LA in SS 2/26, with 2300 ID I couldn't read. (Dangerfield, Pa.)

1435 NORTH AMERICA, WAG, R. Kalkcoon, Oranjestad, Aruba, 1 kw. Logged and reported Tues. 3/2 to 2000 s/off, from 1830. Had Spanish programming 1840-2015. (Burnham, Conn.) Has been good lately, much as at 1910 on 2/28. (Dangerfield, Pa.) Back on the air, after being off several months. Carries continental music, some U.S. 5/4, Italian and French requests. Very potent signal, but hard to read announcements. Seems to be Dutch talk, but not positive. End 2/29 from HAY-1300. (Miller, Fla.) First time I heard Papamante tongue, it sounded like a kind of pidgin-Spanish. (Ed.)

1445 COLOMBIA HUJ2, Cordas de Rionachac, Rionachac, on this freq. from 1400. Was off the air for over 6 months. Noted again 2/26. (Silvers, Jamaica)

1448 ??? R. Moscow noted in English at 1721, with YL announce but mentions freq. in 41 mb; chimes at 1730, then into mid. Language. Sudden fade at 1733. 2/24. Any info there? Or is it a harmonic from S.W. (Silvers, Jamaica)

1472 UNID. L.A. SS here, but can't ID. Almost sure it's a Colombian. (Miller, Fla.)

1475 AUSTRALIA Vienna. 2/18 59410 0053-0104. Togo report sent. (Keane, Texas)

1495 NICARAGUA, YAG, R. Carrijuan, Chontales, good with music and many ads at 2009 2/29. (Silvers, Jamaica)

1500 HAITI WAG, R. Sebast., Port-au-Prince. Station noted with French talk, very poor at 1812 2/22. Must be this one. Victor Jaar says religious programming. (Silvers, Jamaica)

1515A COLOMBIA HUJ2, R. Minuto, Barranquilla, last noted on this freq. slowly moving toward assigned 1520. (Silvers, Jamaica) R. Minuto de la Hora here from 1500A, very powerful evenings, 1500 hetero gone, but HUJ2 still canning night one bans. HUJ2 is 1000 watts. (Miller, Fla.)

1545 MEXICO XERF, Villa Acuna, Cem. 594-25 spurious radiation noted 0930 2/17. (Keane, Texas). Cheers! (Ed.)

1550 COSTA RICA TIMT, Meteorologico, San Jose, with ID at 1930, then seemed to play music. I expected a weather report. Noted 2/27. (Silvers, Jamaica)

---------------------------------------------

VERIFICATIONS...

545 ALGERIA, SL photo card for Oman. Signer is in Direttissima Technique. (Roger A. Anderson, 315 North Larrimbor St., Arlington, Va. 22205)

655 COSTA RICA TIMT, La Voz de la Victor, San Jose. Nice three-color SL in Spanish. Signer is Sara McNinor, who would like all mail sent to A, Internacional, Apartado 1079, San Jose. Came back via air mail in 22 days. O.S. (Jerry Starr, WQIT, Youngstown, Ohio)

665 W. GERMANY, Blue-green QSL for SWP-Bodenseesender. Tower listed as 150 kw. (Anderson, Va.)

675 NICARAGUA, YAG, Union Radio, Managua. Letter and postcard with picture of National Stadium. Letter in Spanish from Gustavo A. Pineda, Entregado, Depto. de Papeles Extranjeros. Address is Apartado 11-45. Took 20 days, air mail. (Star, Ch.)

746 BULGARIA, SL card and letter for Plovdiv. V's is W. Andrejev. (Anderson, Va.)

750 JAMAICA, Postcard with Jamaican Coat of Arms, National Fruit, etc. Was signed with unreadable scroll by Chief Engineer. Said this transmitter is located at Galina Point, all 18's listed as Port Maria. Programs originate from 5, South Ocean Av. in Kingston. In the world 15 days. (Star, Ch.)

SPAIN. Letter to verify RNE San Sebastian, via Valencia. V's not readable. Frequency change made on 11/3/65 Valencia now 1079 Kw. (Anderson, Va.) Report sent to Madrid for RNE-773, was forwarded to Valencia, enco-
Valencia sent note saying report was forwarded to San Sebastian. So
eventually, I'll get a QSL out of it, I hope. Nice of them to forward my reports like they have. (Kwame, Tex)

Batalos, Black Rock, Air mailer in 16 days. Signer is Dennis Vance, General Manager. Says address is Box
755. (Starr, O.)

800 Send, Antilles, P.O. Bonaire. Greeting card-type QSL with picture of installation. Took 22 days. Signer
is Glenda Lowell, U.S. Headquarters given at Chatham, N.J. Also relays some programming from Trans World
Radio in Monte-Carlo, Monaco. (Starr, O.)

835 BR. Honduras, R. Belize, rather large card by air mail in 37 days in pretty bad condition. Lots of info. Sked
in GMT is 1200-1900 weekdays, and 2000-0400 Sat and Sun. Slogan typed on bottom of card is "The Voice of
Emerging Nation of Belize in Central America." How's that for a mouthful? Signer is R. Miguel for the
Chief Broadcasting Officer. (Starr, O.)

1157 HAWAII, (or Navassa Is.?) R. Americas. Standard post card with same information. John E. Passwater signed
it in 24 days. Report was sent to Florida studios. (Starr, O.)

1200 Stellinger, Verie card from S.L.B.S., Fremont, v.s is Mr. Fraser, for director of Broadcasting. Station
was heard at 1700 on 11/30. Return by surface mail took nine weeks. (Anderson, Va.)

1235 Limerick, ZIM-1, Hamilton. Post card verie from John Foster, Programme Director. Very little information
given. Power is only 1000 but is S-9 here every night. Out 19 days. (Starr, O.)

1331 Brazil, ZY5GG, R. Liberal, Belen, Pará. 10 kw. Airmail 2 page verie letter, in English, signed by Jose
Carlos de Raymundo, Director Presidente. Address: Rum Santo Antonio, 191. Also ultra-color-blue, white
and gold, 5-year anniversary banner, 2 scenic view cards of Belem, signed by announcer of program, entitled
"Reloj de Hora do Pelotaher." (Mystical Clock of the Laborers.) They are dedicating entire program of
March 4th, 0300-0400 to me, h.t. For reception report of 2/7/66. 0306-0342. Answer back in 20 days. No. 14
from Brazil. Note different slogan from WITH-66.) Operating off frequency. Listed 1930. (Burlingham Conn.)

1457 England, B.B.C., Letter of verification in 38 days. Also enclosed a nice loggy folder with maps, frequencies,
locations, etc., for all B.B.C. radio and TV services. Six transmitters listed for 11/50 of which the most powerful
are Clevedon with 20 kw, and Bartly with 10 kw. Listed as Home service. (Starr, Ohio)

1562 Inv. Waters (Holland), R. Verencom verified with ship-photo QSL letter and decals. Y/S, 38 W. Westbrock,
Technical. Power 5 kw. (Anderson, Va.)

Just not filling up these pages like we used to, man! But it's okay, as I'm getting lazy, H1! I have got myself
on a kind of treadmill. I glibly told a NASA SWBC DX'er from nearby that I could verify 100 SWBC countries by
12/31... and I gotta put my money where my mouth is! H1! Maybe I can get it done by 6/30, and attack the 1966-67
season at its onset! CU on 7, 10CG, etc.

---

I again urge all members who have the time to drop a note of welcome to these new members. Steve Bokac sent us an excellent letter (we'll print part of it later) informing us he is located on Taiwan (Formosa) and will be stationed there until next September. We hope Steve will send in some reports about DX conditions in that part of the world. Also pleased to welcome Russ Morita, the first Hawaiian member we've had in quite a few years. Norm Maguire, who is vacationing in Hawaii, writes that he talked with Russ on the telephone and hopes to meet with him sometime during his stay in the islands. Greg Seifert is the young son of PB Seifert, one of our old-timers who used to DX in the Cincinnati area. Pfc. Roy Barstow has been in Viet Nam and is now being rotated back to the states. We'll be hearing from him from Walpole, Mass. shortly. Hank Shir sent in first class postage money and looks like a top notch DXer. Let's have reports of your loggings, Hank! Also want to let you members know that we have a couple more printers among our recent new members namely, Jim Courtney of Knoxville, Tenn. and Lorin Glogerich of Warrinerie du Sac, Wisconsin. I wish it were possible for me to answer all the splendid letters I have been receiving. It's very nice to hear from so many of you. We use what time we have to answer questions and take as much as time permits, with an attempt to answer what seems most important. The one point I hope we make with all members is that all are welcome in this club, and your participation is urged. Our club was founded for the purpose of providing an exchange of DX information. We have been able to do this because we have had the participation of the members. Send a report off today to Arnie Cooper, John Callahan or Joe Brauner!

---

Larry Lehner - 120 N. 26 Street - Council Bluffs, Iowa 51503

Recent DX: 1/36 caught CKF0-580 on RS 0232-0241. 1/31 DX from KPRK-1240 in well 0319-0320, also logged r/c to much wanted KRC-1430 u/c KFKP 0321-0331. 2/5 saw TK21-800 R. Emperor in for a good report 0135-0150, WDKX-1420 r/c in fair 0119-0200. 2/6 heard f/a from KG0-1550 0108-0115. 2/15 SSS brought s/off from KLMO-1060 at 0730 MM 2/28 one of the best of the season. After CKF/h s/off I logged CVTS for B.C. #3 at 0115-0155 u/w WDXT-35. DX from KAPE in very well 0307-0315. DX from WPTX-920 in weekly 0330-0343. WFL-1390 in 0345-0350. WJNH-1260 logged 0407-0415. I then taped s/off on JBO-750 at 0445 with hopes of a variety. Tape sent for country #13 logged. Recent varis: V/R KFMR, CVJLX, WDKX, KCPX, WDCN. V/R KRYT, WCH, KDPY, WFTA, V/R KHP, V/q KBOA, KQY, KFRC, KUN, COKX. 73. REPORT FORMS AND LETTERHEADS are available to all members. Send your order to our Kittanning address. Remember we must ask that your order be for a minimum of $2.25 which will buy 200 Report Forms or Letterheads (any combination you want). This price includes postage. Additional at $1.00 per 100. Name and address printed free if you order 500 or more.
