------------------------------

CKPC's program will consist of short musical selections and IDs following each selection. A short description outlining what's happening will be featured for non-DXers. Reports to: Mr. Jim Featherston, CE, CKPC, Telephone City Broadcasting Ltd., 511 West Street, Brantford, Ontario. (Eric Pladen, IRCA)

KNOE will test with music and IDs after each selection. Reports to: Ray Boyd (Dir. of Engineering), KOEV, KOEV Road, Monroe, Louisiana 71201 (Richard Mall, IRCA)

WPRA will test with tone and music, etc. with its new transmitter tower. Robert Sauber, the Manager, says he is very interested in reception reports on how the new tower gets out. They should go to WPRA, Box 908, Franklin. (Starr-NRC)

WTIV is another Pennsylvania station that will go on the air early on a Monday morning for DXers everywhere. This station too will feature mostly tone and IDs. Reports to the Chief Engineer at WTIV, Second National Bank Building, Titusville, Pa.

------------------------------

THIS MASSIVE ISSUE

will go out Saturday afternoon. The old Thursday night mailings are a thing of the past, unfortunately, but for the most part, the weekly issues will go out Friday night. We felt that for the start of the weeklies, we'd try to get everything out of the way... but we still have several pages of varie-sizers... ---

DUPICATION --- PLEASE, PLEASE, PLEASE send your foreign stuff to Gordon Nelson, the domestic staff that fits into the categories of DXHD to Randy Kane, and the rest of it to Ernie Cooper. We don't mind the big issues (very much)... but printing the same information twice????? — JAC
More DX. 8/24 - WGLB-1560 @ 1:12am ET/IX, WTCB-950 @ 2:15 on 4/TT, WBBB-920 @ 4:30 already on RS apparently, WROC-1280 @ 4:31 s/on, WYIC-1150 @ 4:35 s/on, WPTK-730 @ 5:30 s/on. 8/26- WKRO-1490 @ 1:25 on late w/Cards BB, now WFSP-1560 heard ET/IX 1:45-2:10, CHSC-1220 s/on @ 4:32 contrary to what I've read in DX NEWS, WBBB-1100 @ 5:30 c/WKC, KKJK-950 @ 5:41, KSKY-660 @ 6:15am w/WRC already faded, much-wanted WCSI-1010 @ 6:20pm. 8/27 - WABR-1440 @ 4:47 in clear, WAKX-1320 @ 5am s/on, WPTK-730 @ 5:16, CHIN-1540 @ 5:18 s/on w/KEEL off, KKJK-610 @ 5:52, WANTS-810 @ 6:30 s/on. More DX on hand. I hope everyone's pulling in those goodies. By the way, all the above DX heard in South Bend.

Pat Flanagan - Box 119 - St. Francis College - Loretto, Pennsylvania - 15940

Hello to all. Well, finally I'm back in these great pages again. It's been much too long, so long I think I'd better re-introduce myself. I'm 16, a Freshman here at S.P.C. majoring in Political Science, & have been in the NRC for about 1½ years. My home is Loveland, Ohio, & my RX is a Hallic SR-95 w/a loop antenna. I haven't done any DXing since early Summer & I probably won't be able to get at the dials until Christmas Vacation. St. Francis owns & operates WWSF;400 here in Loretto, & I am in the process of looking into the possibilities of a DX Special. More on this will be forthcoming. The student carrier-current station is KSFC-830 which is surprisingly professional sounding, except for my Friday show, hi! We have very good equipment, a Gates console, two new Gates turntables, & a Sony Tape Deck. The record library is pretty well stocked. Back to DX, I don't think I could possibly do any up here even if I did have the time because WWSF's tower is only about 200 yards distant. This is even worse than WLN at home! Only recent veries have been those from reports sent out last Summer: WABQ, WAKX on their new frequency, WPTK & a few at home I can't remember. That's it for this time. I hope to be able to Muse more often. Scans, write. DXers, write. Anybody write, hi! 73. (Pat, WWSF-1400 did a DX for NRC several years ago when they were new -- anybody there remember that TEST? - ERC)

Kenneth Lopic - 8028 Tompkins Creek Road - Lockport, New York - 14040

Hi everybody. I thought that it was about time I put up in a Musing. My last one was last September. I have been listening to SW all Summer, but I did get two r/c's & one RS on 10/7. At 12:13am ET I had CRBC-930 after WBBN s/off. I was quite surprised but pleased b cause it is only 5kw. At 1:16-1:30 I had WBNH-1400 on a r/c & I had WGNH-1370 @ 1:46-2am w/r/c. Both were TT. I think I'll get my RX tuned up for the coming DX season; it sure needs it. I think I may enter one of the Contests.
October 21, 1967

Kenneth Lyon

I usually don't go for them but they look like fun. I'm waiting for my reply from Al. I thought I'd contribute a little something to the Club for a change. I think that I may be moving in the near future. I'm going to put up a better antenna this time. Well, I guess this is it for now - it's time to get back to the dials. 73 & good DX to all.

Jeff H. Rose - 125-12 Croton Avenue - Rockaway Park, New York - 11693

I'm back, hi! CX have been good lately, v/ the following new ones: 9/20- Univ.

WVAB-1530 Va. @ 6:13pm, WPOA-1570 NY @ 6:29. WTLW-1270 Fla. @ 9:22. 9/23- WLOA-1550 Pa. @ 6:29pm. 9/25- WSBA-1400 Ga. @ 12:00pm. 9/28- WFOI-1570 NY @ 6:13pm, WTLW-1530 Fla. @ 6:28. 9/30- WKBW-1000 SC @ 6:28pm, WBNR-1430 Tenn. @ 11:04 after WMBK s/off.

Verifies in: v/q- WEGO. WKOL v/1-CH, WSBA-1400, WLOA & WSBA-1400 W/1, WCDC v/q-CH, WFLO & WSBA, v/1. To whom do I send for a CBAG verif? I sent to CBA, & got back a verif for CBA, not CBAG! (I got mine from CBA - try again - EH) CBAG, thanks for the AF Amplifier plans, but where do I get the 2M360? I'm going into my third year w/the NRCC, so I may as well re-introduce myself, for the new members. I'm 16 years old, & I am a senior at Far Rockaway High School. My RX is a homecrafted six-122 being fed by a pair of 100' longwires. Totals: 560/142 (heard/verified), 45/40 states, 7/7 provinces. That's about it so 73s until next time.

Paul Montefusco - 277 Newton Avenue - Norwalk, Connecticut - 06851

No new $1's, believe it or not! Oh, excuse me, I have one from TPH-800 Bonaire. I'm trying to he their QSL manager, hi! No kidding! Send all reports to me, in the meantime, & I can forward them to one of their execs. C U in 1k, 73s, & best of UX!

Now, Sheet - 290 Bainbridge Street - Malver, Massachusetts - 02156

Well, we have the Convention & I hope to see many NRCCers next September. I've only been taking typing for three weeks so please excuse my errors. Verifies: v/1- ZMS in nine months, along w/4/fup, WWFJ WWBAX WWOL, all took o/4 months, & WCCB in four months. CMQA sent a v/1 along w/a v/q. Report cut to WERF. Are the report forms cut yet? DX: 7/21- WPK-1570 @ 7:07 & WGET-1530 @ 7:20; 9/3- HHRL-1520 @ 11:51, & unID FFC-580 W 12:55, & unm RME-863 blasting away. 9/27- WABP-1390 way on top for a surprise w/the worst rr format I've ever heard. Last DX season's records were 192 heard, 98 reports sent, 79 verified, for 63%. Longest verif streak was from 2/12 to 3/24 when I verified 26/26. My holdouts at both ends were WZBD on 2/11 & SRS on 3/25 73 & I hope everybody sees Mary. (Excellent typing, Norm - I'll take lessons at your school, hi! - WRC)

Stop Roses - Route 3 - Bradford, Massachusetts - 02130

10/2- KDDA-1300 Dumas, Ark. easy on TRCA TEST. WMDC & WSTW both noted AN this MM. Verif by WP from WVAB. 10/9- CHEX-1320 & CHEX-1350 both AN-BCB, also 1340 unID; Portuguese-1304-755 in this AM. WANK-1490 Hagerstown, on top of WCBR @ 2:16pm - o v/ W1NY off AN? CIGS WKB & WREW NOT heard on AN shown. CFOX-1470 AN-RR, not c/w. CECs also on 1230 & 1540 AN. WRE/F ex & CQ to 3:30. CIGS! DA must be S by signal!

Joe Skurzynski - 172 Lafayette Street - Buffalo, New York - 14212

Here's something worth printing. WKDW-1920 is now AN, 24 hours a day, seven days a week. It started on 10/2/67.
Ernest J. Wosolowski - 1416 Pasadena Avenue - Omaha, Nebraska - 68107

RX: HQ-106-A; 407-150p; (402)-733-9457. 950 veries, 72.7%. Nice talking to HRG last week. I hope he can make it to Omaha for the NEW YEAR's GET-TOGETHER! The RX this week is out sick - can't find the trouble as all tubes check okay. I DXed this past MM on a 25-year-old Zenith AM/FM w/many TEC heard but they wouldn't ID. KSSN-1150 heard on ET 2-3am from Shelby, Mont., already verified, though. Only two veries the past three weeks: WWHO-1250 in Dayton plus WMJ-580 in Fresno. States w/more than 940 veries include: Ill., Iowa, Mo., Neb. & Texas. The latter I have 68. Nebraska will be getting two new stations: 1400 & 1550. Thanks to all who answered my request for nonverifies list. Hoping for ST. LOUIS in '69 - how about it Walt & Dave? 73a. John W. Hoogerhazé - c/o Compania Sud-Americana de Explosivos - Rio Loa, via Auto-

DXing time very limited on EGC since DX in Anto. have been absolutely horrible - summer time static & all. I had radio on @ 6:30 this AM, & surprised at all the USA stations through the noise. This on 9/25. WHO-1040 fair, KFAB-1120 excellent. But why not WBT? Funny. St. Louis, KMOM 1120 also good. Miami WGBS-710 fantastic as was 940 Miami. I'm moving RS from Anto to Calamari to allow more DX time. As yet I have not DXed after midnight since I have been here so I can be of no help on WNs, but very soon, I hope. Would you believe on CE transistor portable, midway between Anto & Calamari - the dial is dead at 3pm. Not a trace of any station audible. Fantastic isn't it? Sure different from USA. A few SB tips- R. Onda Axial-640, Puno, Peru. 8/15-11:55am, OAX6G-590 R. Continental, Arequipa, Peru. Same time a split on 7/25. "R. Unganesay" La Paz, Bolivia. Weak even in Anto @ midnight. 8/16: 2-3:15pm R. Landa, Arequipa, Peru. 8/16, 9pm, R. Union-880 Lin. 10:40pm. The book "Broadcasting Stations of the World" published by Foreign Broadcast Information Service in Washington, DC. Is this still available & is price still $2.50? I like to order a new one. Bart Cruznial, what was it, drought or marriage that moved you to Boston? Congrats. 73s to all.

Dave Bennett - 1034 1/4 Road - Richmond, British Columbia

Good Heavens - it can't be! A Muse from SC's only active (sic!) DXer! Actually, I've done more DXing since I got back from Eugene than I did all year before it - just goes to show that a bit of like-thinking compeership can do for a person. As far as DX goes, I've not got too much to crow about, but here goes: 5/9- KOHL-790 f/o 1:20-1:30am & QRMing KGM; KFMB-760 on RS for first time here @ 1:30-1:35am. 9/11- CBM-940 3:20-10, harmonic mix to h., then ID & RX w/strange OC; KIX-940 5am w/o w/. "Bonanza" theme o/u CBM. 9/15- KVII-1010 3:15am w/CBR off & o/a weak OC. 9/21-2Y2-860 4:02-4:30am for first DU this season, o/u the LPRT Network, very INL in fog. (would you believe I was using a CE-type ground plane antenna for this one?) 10/7- Nanchang-835 5:15-5:30 in Chinese, has neen consistant last few days or little or no sign of other Chinese stations; unID-874, likely Phongyng @ 5:20-6am in Russian too & then unID Oriental language. YWAB-885 5:05-6:20 SS mx & ID that sound like R. Mueve-stada; JCHR-750 6:30-7 in/out w/KGB w/talk; JORK-890 7:05-7:30 o/u WIS w/Japanese talk. 10/9- C9Q-600 La Voz de Cuba all SS announcements & mx 3:45-4:25, WMSN-1040 in the clear @ 4:56 w/stock market quotations. I'm sending in the most up-to-date LPRT list I have - if you think it can be used in DX NEWS some time, go ahead, as it has been some time since the last one appeared. No veries for a long time, hi. CBU-690 has approval for 50kw. & CFUN-1410 has approved for same - HELP! Also, C9M-1320 has their 50kw on the air now. I was just doing some figuring & decided that my RX IS in the midst of some 2 million watts of RF energy! Mostly hits the ground wave. I don't know what that works out to in actual volts in the antenna, but it must be pretty high. *Nur for now- see you all in SACRAMENTO '69 (and maybe offshere BOSTON '68?) I hope so! 73.

Baleigh Biss - 3541 Sunny Dunes Road - Palm Springs, California

No got me two new stations, so maybe that will get me back on the track again. New ones are" K8NN-1270 d/c @ 6am, & KHOB-1390 on RS from 6:15-6:30am, w/a good signal. Also heard were WCO-1070 5:15am, KSB-1270 5:59, KTTI-1270 d/c @ 6:15am. KKAK-1350, in the clear @ 6:10am & KNEW-1480 @ 6:30am. Maybe a better report next week!

VERIFIED-SIGNERS LIST

We have received tremendous support for this column - four pages are typed and ready to be included with future DX NEWSes, & we still have more/ct c on hand! But, keep them coming - please use our abbreviations - please eliminate repeats & double-space.
Greetings fellow DXers. DX is picking up here, I wish I could say as much for the vepe situation; ist statins reported, only two vepe. To DX: 9/18 - KKEQ-1500 5:07-5:14 w/c/v rx; WFD-1480 @ 5:21 briefly. WWM-1160 (unr.) @ 5:25; CKX-1140 6:20-6:31 pos. 9/21 - KOLO-920 3:31-05 s/off. 9/25 - WEXX-1420 3:58 w/jazz, then s/off @ 4:01/0. 10/9 - KORL-650 pos. 2:30-3:04 w/rr. Is someone else HI or 920 besides KARK? 10/9 - Still KISS-910 poor 3:28-3:37 3/rr sx; WWVA-1170 briefly @ 3:15; when trying was not for the over 60 seconds; WING-1410 u/KEST 50w/4:20-5:26 w/poor signal & rr. KAPS-1470 4:31-5:00 s/off. DJ talked to an IRAQ member who works at KORL, Mitchell, SD. KAPS plans to TEST 11/13 p/m the IRAQ so the CJ mentioned. I've been getting this strange static noise in my RX. Come to find out, it was in my aquarium going off & on, so from now on when I DX I just unplug the heater. How's that for trouble-shooters, hi. (Swell, Randy, but it's sorta rough on the fish, hi -ERC) The Contents sound great. I hope there's a good turn-out in partici-pation. 73.

Richard L. Cogey - Box 5594 - Oldscl, California - 93308

Hi again - sorry about the old KIZX v/s! New vepe in arc KZQ-550 Phoenix, KZL-1550 Tillamook, Ore., CBR-1010 Calgary, KBB-KYX-650 Dallas, KAH-800 Moose Jaw, Sask., KICY-850 None, KXYO-1150 Seattle, KVI-570 Portland, & after several reports, the last of which was a four-page love letter, KXL-750 Portland, & was here. I'm still ready to swap lists w/SO. California DXers on stations outside Cal. JDI in San Diego sent list of 83 Texas stations logged. Recent loggings as follows: 9/26 - 8:15am, WLV Central @ 6:30, w/female-talking, S+ & fading, 10/1 - 7:05pm, KGB-1260 San Fernando w/mx/WX @ 7:14pm. 10/1 - KMKV-560 Great Falls, Mnt. w/c/v rx @ 7:05am - complete sports @ 7:15am, KFIT-500 Texas w/sports RX 7:55, RX @ 6:06am, Baptist Hour. 10/9 - 4am, WYX-1480 Atlanta w/s/off. 10/9 - 6:05am, WQJ-1550 Jackson w/NN Spiritual RX till 5:23am. 6:04am, KJQ-1590 El Paso w/s/off, followed by rr. RX is still HQ-140W with 100' m antenna. I'm having NRC Loop built by local music shop at cost of $35 - probably too much. 73s & all.

Bob Pless - 620 Canal Street - Apt. 6 - Ben, Rafael, California - 94901

Well, here I am at a brand new QTH. I have been here long enough to tell how it rates compared to my other locations - nonetheless it's amazing from what I can see how my station can change by just moving five miles further N. I finally seem to have lost that noisy mess between 750-850k that has been bugging me the last few years. DX of late: 9/11 - KZQ-1520 (ex-KYXH) 2:25am in the clear. 9/25 - KXQD-790 3:17am ETing on throughout the night; KQDR-1230 4:31am going AN; KMW-1260 6:15am (state #4). 9/27 - KGB-1380 6am s/om. 9/30 - KABA-1540 8:30pm s/off. 10/1 - KQEW-1600 6:29am SS. Vepe have been real skimpy - KAZA-1290 KBZ-1310 & KXQ-1600 all v/1. KXQD said they would mention my reception report on the air - I am now a radio celebrity, hi! Totals 679/431. Best of luck to everyone during the DX season.

Glen Hauser - 303 Ave NE - Box DH35 - Albuquerque, New Mexico - 87106

I am glad to note that harmonics of NW stations are considered within the scope of NRC's filings, for this is one of my prime DX interests. I would like to hear personally from any of you also engaging in this fascinating aspect of DXing. Currently being heard is KAVU-1240 Carlsbad, NM on second harmonic on 2480k. Logged 10/10 at 7:30-7:50 pm w/talk program & heard several times since. Another unusual logging is KHIF-920, El Paseo, heard on about 876.5k. 920 is completely covered by local KQEO. Heard 10/11 after 11:25pm w/rr. Any ideas why it shows up on 878.5k? R. Actualidades is at last IDed as XEQO-680 Chihuahua, heard 10/10 @ 7:16pm w/ID. September s/off was 15 minutes later than indicated by Welosow_O's SRS/SSS maps, so beware applying there to adjacent Mexico. ID/ON on 1329kHz is XMRAJ, Saltillo, Coah., momentarily 1330. It's listed as only 100w, heard 10/10 12:40-1:02am s/off. Other catches: 10/1 - HCFY-870, 5. R. Cristol, Guayamil, 2:46am w/IDs & ES. Other catches: 10/1 - HCFY-870, 5. R. Cristol, Guayamil, 2:46am w/IDs & ES. Other catches: 10/1 - HCFY-870, 5. R. Cristol, Guayamil, 2:46am w/IDs & ES. Other catches: 10/1 - HCFY-870, 5. R. Cristol, Guayamil, 2:46am w/IDs & ES. Other catches: 10/1 - HCFY-870, 5. R. Cristol, Guayamil, 2:46am w/IDs & ES. Other catches: 10/1 - HCFY-870, 5. R. Cristol, Guayamil, 2:46am w/IDs & ES. Other catches: 10/1 - HCFY-870, 5. R. Cristol, Guayamil, 2:46am w/IDs & ES. Other catches: 10/1 - HCFY-870, 5. R. Cristol, Guayamil, 2:46am w/IDs & ES. Other catches: 10/1 - HCFY-870, 5. R. Cristol, Guayamil, 2:46am w/IDs & ES. Other catches: 10/1 - HCFY-870, 5. R. Cristol, Guayamil, 2:46am w/IDs & ES. Other catches: 10/1 - HCFY-870, 5. R. Cristol, Guayamil, 2:46am w/IDs & ES. Other catches: 10/1 - HCFY-870, 5. R. Cristol, Guayamil, 2:46am w/IDs & ES. Other catches: 10/1 - HCFY-870, 5. R. Cr...
Hi, DX Buddies: It sure has been a long time since I have written anything in DX NEWS. I graduated from Tennessee Tech University in June w/ a BS degree in Electrical Engineering & then went to work for General Electric Co. in Huntsville, & I am working on Electrical Support Equipment for Saturn IB rocket presently. On 9/10 I got married & now my wife, Janet, & myself are living in a two-room apartment here in Huntsville. I enjoy DX NEWS very much now that I am now studying all the time & hope to get back in the DX groove again. Reception is not too strong in this apartment, but I hope to get loop & pre-amp in shape shortly & begin logging those fabulous DX catches again. To those who don't know me I have been a member of NNC since 10/57, & have 0/1,300 stations heard w/533 veries in 25 countries. I have been trying to log CHIR-730, CJVI-900 & KMBZ-980 but haven't had any luck yet. I heard Dick Biondi on WCFL as AN man & it really surprised me. I remember the fabulous antics in 1962 at Indianapolis Convention when David Roes gave his famous takeoff on WIS & Biondi. What ever happened to Park Barton & Alex Bowor? If either one of you is around, drop me a line. Phone here is 205-436-0105. I must admit that the Boston Clu: is doing an excellent job as well as Ernie & I'm sure we all appreciate their help in allowing us to keep up to date w/ all the great wide world of DX. 73s. (CONGRATS, DX! - ERC)

Bruce Reynolds - Route 2 - Monroe, Missouri - 64091
Hi. First, a couple of items from Broadcasting. WBAM & WPIK are the latest to adopt "good mx" formats (c/w, of course). Also, Dick Biondi is returning to Chicago to do 1:2-5am shift on WCFL. DX: 9/25- KFAY-1250 @ 7:18pm w/WMAR looped, & KUKA-1250 was in briefly @ 7:43pm. 9/26- Aurora CK. YND-675 was heard, & was TCH-700. The 590 Cuban was in like a local. All this around 8:30-9pm. 10/3- WYYX-1210 (ex-WCNW) @ 6:15pm. 10/4- KAMO-1390 @ 6:30pm. 10/7- 100w KTNX-1230 through briefly @ 5:38pm. KCBB-1280 w/FB @ 6:03pm & past e/off time, & KYRO-1280 through then @ 6:17. SM 10/8- WTWN-610 o/WAYS 4:38-5am, KNIR o/KKYS briefly @ 5:30am, KIKK-650 copied through WBM TT 6:15-6:45am, & WYDE-850 I&Q @ 6:49am. MI 10/9- Good for the WC. KNEW-910 w/phone show @ 1:30am, much-wanted XETRA-690 w/Cuba partially copied @ 1:48am, & WAMC-1130 @ 2:36am w/cw FF. It really sounded like we: more like a guy having a good time playing records, Hi. XERB-1090 was logged for a report. Their e/off is 2:34am after BE gospel mx. program. KOOL-960 is another one to add to the MSP list. They were heard past old lam e/off announcing MSP. Verits: v/1- KREX-CM, KHIK-CM, KEMP KBCP KFOP WDCR KACK & KWSA. v/q- KBON. Totals 1,067/460. 73s & good DX from Missouri, home of the Cardinals & temporary home of Charlie Finley's Apathetics!

Ralph J. Irace Jr. - 4 Fox Ridge Lane - Ansonia, Connecticut - 06001
Sorry about missing the last Musings section but CBXC duties are continually pressing me for the majority of my time so I have a few spare moments I will jot this report down. Verities have halted for the time being w/c only a few received &/the last three months including WTAG WPIF KORI P/C, WXYK WBEC WMAE WIRC P/C. I haven't even attempted to DX yet but will do this weekend & if I get brave, I might even pull another all-night. Oh yes; don't tell anyone but Joe Fela isn't talking to me any more, hi. RX- Lafayette HA-230, antenna, multi-band dipole. Loggings not reported yet date back a couple of months: 8/14- WCLX-1470 w/TT 12:32am, weak; WEPJ-960 w/TT 12:35am, signal really bombing in; WHITC-1450 w/peak TT 12:49am w/heavy QRM, WLMJ-1420 fair TT 1:01am, slight QRM, WCHQ-1450 w/TT 1:17am fair, WQAS-990 weak TT 1:19am w/QRM from WMB, KCOS-1430 weak TT w/CKPH 2:05am. 8/15- WCMM-1240 w/peak TT 1:13am. 8/16- KSCB-1270 w/fair TT 2am o/KXZ, KSYX-1420 w/very weak TT hardly audible 2:16am w/heavy QRM from several amateur stations. Tere you have it, folks. That letterman contest sounds like a real quacker. I guess I'll give it a whirl as I'll do w/the WDCX MW Contest too. Totals something like 408/210 in 41/40, 7/6. 73 & good DX.

Joe Fela Jr. - 167 Goodwin Avenue - Newark, N.J. - 07102
Only recent verie is a very nice v/1 & QSL card from WIPS-1250. They liked the NRC Report Form very much (which I use on all my reports) & said it impressed them so much they were ordering a more attractive v/q, hi. They added that most reception reports are so poor that they can't read them. Is there any effective way to eliminate TVI from a color TV set? ours is really killing my SSS DXing, especially above 1250k. While TVI is bad enough from a black & white set, a color TV puts cut much (P. 8)
Hi all. w/1s in from KELA WHIN, w/7s from WABM WRAG & WK0. Domestic DX great, w/ Aurora dominating SSS, however, TAs at a minimum thus far. 9/29- WABZ-1550 weak @ 6 pm s/off; WNOX-1550, long-wanted, weak @ 7pm s/off; HJBR-812 fair w/no QRM from WGX @ 7:38 pm. 9/30- A big surprise in KEIN-740 weak u/CBL, GMEJ @12:50 pm. WSM-725 R. Mic-Tec w/"tick-tocks" hi, @ 12:44; WFTO-670 w/tr @ 6:04pm u/WMCU; WDCG-730 weak @ 6:15 s/off; WPDX-770 w/ID during a WFTB pause @ 6:26, this was a lucky one as WFTB was 40 o/S-9; WFTF-690 @ 6:30 s/off; WPAG-740 w/only one kw (critical hour) @ 6:30pm; WCKM-590 weak even w/CBF @ WMC @ 6:30pm; then my most-wanted daytime in WCPD-940 Misc. w/cw 6:57/07/3 s/off. SM 10/1- KEXR-1180 w/rr @ 12:33; listed as 250w, CKPT-1420 w/WN @ 1:16; WITM-1410 w/TT 2:01-2:10, audio PCP per varie; WINE-940 & WREB-930 @ 5 pm. Both are semi-local, but never heard before; KYGO-1170 @ 11:40pm after WWA 11pm s/off. MM 10/2- KEXR-1550 finally heard & Ided as the ES here @ 1:09; KDDA-1560 S-6 2:02- 2:32 on TEST for IRA; univ KEIS-1270 noted o/CMG, a rare occurrence here; WDKN-800 @ 5:06pm on top. 10/3- WITM-1400 @ 5:53pm & HJBR-1180 R. Mil, @ 6:25pm w/no trace of WHAM. 10/4- UJAI-1136 S-6 @ 12:02 pm; 3MAW-1466 S-3 in FF @ 12:31, country #35; HGSA-1115 w/ R. Minuito ID @ 12:48; WPFT-900 @ 5:06pm; WBCG-900 I/E @ 5:30pm; CKTS-900 now w/10kw I guess, strong @ 5:43pm. 10/6- WHNC-890 all along but weak @ 5:11pm. WZAS-1410 WNN @ 5:31pm. SM 10/8- HJBR-1322 separable from an ES on 1325 @ 12:11; WERB-970 S-7 @ 1:02 s/off. MM 10/9- WAZC-990 weak on r/c- TT @ 1:22; CMAG-790 must be the Cuban. W here w/ La Voz de Cuba as they are quite weak & CMAG never is less than S-7; CHDD-1090 @ 2 03 on some net. CJCH-930 w/strange ID @ 2:30: "You're listening to the All House Party on CJCH, CJGM, CJUJ Radio." T is u/PMPR w/air signal. WAGN-950 S-9 w/"the Pickers! Special @ 3:36 - I never did find out what they pick, hi. HT YL on 750 @ 3:55, WMQ? CJFT-560 on top @ 4:27, WHKL-960 "While Radio" @ 5 OI. Portland-755 S-2 @ 5:45pm; WAIT-820 @ 6:23. Total logged now at 859/73.

Tom Hertlof - 179 Depey Avenue - Nyack-on-the-Hudson, New York - 10960

Hi all. CX better here & strange at times. Heard 10/7- KQV-1410 Pittsburgh @ 12:44 am o/u WPCR/WZJG. WING in good for a report on 10/8 @ 11:15pm w/WPOF & KQV off. Also 10/8, @ 11:23, CKPC-1380, Brantford S-9, way o/WBNX. 10/12- At 11:37pm, WHDC-1480 Canton, w/talk show. Verifies: WAWW (ex-WWTR)-910, White River Junction, VT, for a "probable" s/off after WNLX s/off a minute early. They ET every Thursday 11-11:30pm EST & c on first Tuesday 11-11:30pm. WERB on for an ID through WSN while they were testing w/CO & no modulation. They're adjusting their antenna system. "And a vq from WTAG - 46 postage due. ERC, I have vague ideas what CP & IS mean - please clue me in. (CP is Construction Permit, & IS is Interval Signal - ERC) How about a Christ mas get-together at Swan Island? By the rue, does R Americas have a mialing QRA? (Yes, but I don't know it, hi - ERC) 73 from Hudson Gen.
Roger Winsor - 739 North Juniper Drive - Valparaiso, Indiana - 46385
Down to DX, which hasn't been too bad. 10/2 - A GREAT day, with best DX heard in years which netted three new stations from Tucson. Started out @ 12:10 w/brief, but positive log of KCIS-600 Ariz/ Cuba. Cubans in very strong, especially Tic-Toe on 1200 & 1210. One of those 1210 babies must be off frequency, as there sure is a wild het, almost like a TT. hi. SS on 890 fading in/out w/lively mX. Who? Time about 12:45. Log on WIXY-1260 Ohio, first time w/new call letters. Logged 12:30-1 s/off. KUDP-1060 heard faintly, but not well enough for log. SS-040 w/IN de Cuba, probably CMWV AN. WWM-600 New Orleans on for EF. Logged 1:20-1:30 when no more heard, on w/rock sounding like RS w/mention of E of Midnight Show, a la WLS. KAST-1310 Iowa logged 1:35-1:30 w/ST/MX, to s/off: KFRE-940 Calif. s/off @ 2am, tapped completely, followed by new KIOS-600 RS, logged 2:02-2:30, Tucson #3. KDIA TEST & QRM unu. CKWY noted @ 2:30 AM, as was WKBW, so there go two good frequecies. KTKE-990 Ariz. w/ID plus old Elvis song @ 2:30, but soon covered by who bit WIBG. CBM very faint this AM. KOOO-960 noted this AM this regular, on W/ST/MX. KTVX-580 logged for Tucson #5 3:40-3:47 w/NN @ 3:40-3:50. Very faint, & mixed w/unk. Finally this AM WDXL s/off @ 3:57 w/QRM, then s/off. Logged. 10/7- New WCBK-1540 SSS 5:20-5:30 when KXEL took over. Also log on new WILY-1210 Ill. 6:14-6:30 s/off. 10/9- KGES heard w/devotions @ 12:55 but no log as too hangered up by pest CKHW. KUDP-1060 logged this MM 1:12-1:30 w/good levels. KFBE-1310 on r/c 2-2:10 I&C. WC3I-1010 logged SSS 5-5:07, w/several local spots before QRTB took over. 10/11- WATX-1240 Ill. @ 1am s/off, mentioning 5am s/off. Used Lord's Prayer. KABC-570 finally logged I&C w/WKCM 1:11-15. WLAQ-1410 Ga. on for EF w/various tones 1:25-1:38. Onl one ID @ 1:20, but I&C. KMEM-560 heard. I&C w/many easy IDs mentioning #1 & gracias usted. Letter sent. WOKX-1440 SC noted AN/AN. 10/12- KQNW noted o/w JR @ 11:35 w/IDs mentioning Barranquilla often. Faint SS on 815 - WTMN still on till about 1am? WTEM-1420 f/c-TT 12:15-12:30, new time for f/c. WKXJ-1520 f/c-12:15-12:30 for a new day. WPCF-1430 f/c I&C 1:10-1:15 w/three IDs in this time. Do they verify? 10/13- KDFN-1500 Mo. logged 6:45-6:55 w/NN @ :54, then c/w. WAKE carrier killed all others. Vereis scarce, v/1 WPWR & nice v/1 from KHOQ, mentioning a lad from Minneapolis logging the same day. Is that you, Hostettler? Good DX to all & may all Specials verify promptly! 10/12- KMWI didn't show.

Lester Kauflman - 1428 Hazelwood Avenue - Louisville, Kentucky - 40215
Hi all! I just have a four-band 14 transistor but it is all I need for DX. I have only 19 veries, but going strong. I believe I'm 19/28 in stations verified. I'm 13/14 in states. Not bad for just starting, eh? My prize verifications are KCLU from Rolla, Mo., & KXDO from Sioux Falls, SD. Both are excellent verifiers. My real homestead is near South Bend, Ind., but now I'm here in Louisville as a student in technical school. (Welcome to the NRC, Lester, & we hope you'll report in often, & that your log will grow by leaps & bounds -ERC)

Len Kruse - 1675 Glen Oak Street - Dubuque, Iowa - 52013
The latest loggings so this DX dan included the logging of 10/12 of the brand new 1,000w daytimer KMAH-1400, Burlington, Col., signing on RS @ 7am, & copied for ten minutes. Then on 10/8 Station KALO-1250 Little Rock, Ark. was logged w/its monthly f/c-TT on the second Sunday 2-2:15am w/some QRM from AN WREN. The f/c of the new three-month-old KNRI-1140, Waukon, Iowa was heard at this location on 10/12 as sked, but despite the closeness of just 75 air-miles distant, this 250w daytimer had heavy interference from WRVA's All program. I wonder how many logged KNRI for the first time? The latest v/1s came from KVII & KFAR, to bring my total to 3,928.

Harold S. Williams - 50 Third Avenue - Seymour, Connecticut - 06483
I have been up a few MMs, but not much to show for it, but on 9/18 I did log the new WGCC-1050, Kingsport, Tenn. w/KBAL silent. Nice v/1 in eight days for #28 from Tenn. Looks like Tenn. will be my next state w/100 or more veries to join PA, NC, NY, & Fla. For those DXers in the NE, I suggest watching 100CK at SS8. Several eves he had heard unnn WNIB, Rutland, Vt. s/off @ 5:15 followed in 15 minutes by WIPC, Carlisle, Pa. (They have never answered several reports & f/ups, so a PPA sent this time). At 5:35, WXYB, Hennings, SC s/off w/another s/off that sounded like WTAP. Anyone know if the outlet in Tappanook, Va. is on the air? If so, are they WTAP, & what happened to WTAP-1230, Parkersburg, WVa.? The Special TEST from unnn WAAB-1440, Worcester, Mass. was heard through that tone pest. I will be trying for the Specials, but my health will no longer permit me to stay up & DX for hours as I once did. Good luck to all this season. 73. (Thanks for the fine postcards, Hal - appreciated! - ERC)
Greetings! It looks like a great season we're getting into, even w/some Aurora. 

October DX: 10/2- KRKD-1150 @ 2am s/off; KDDA-1560 from 2:02-3 w/TBST; KNCO-360 @ 3:33

KBIM-780 TEST logged from 3:02 to 3:30 tune-out; then, the best of that night: KHOE-940 @ 4:19; KSEB-1270 @ 7:15pm w/Aurora OK, good until power cut. 10/3- WJKE-1170 c/KST @ 5:53pm; KIWA-1550 c/WMAD @ 6:12pm w/NX; WAPL-1700 @ 6:14pm; KWMN-1560 heard @ 6:15 e/off. 10/9- WPTF-1540 topping KKEL @ 6:55pm; CHIR-730 @ 7:09pm w/some QRN from CMBR. 10/10- KRSJ-990 @ 6:35pm until 7pm s/off, for station #600 here. KBSL got no QRN CCW. YMKN-865 @ 10:11pm w/soft signal yet. Tuning to 890 I noticed that WLS was very weak in comparison. XETRA-690 @ 10:53 w/all NX; KDSJ-980 @ 10:57pm s/off; XEMA-940 in like a local @ 11:05pm. 10/12- I accidentally slept through KNEI's TEST. XEXR-1030 has been topping QBZ sometime each night for weeks now. Some nights the dial is covered w/IAS, but even so NYC area station WCBS WBEC WABC are usually strong, while other Easterners are gone. Veris (two in the last three weeks): v/1½ KHOE. v/g- WSIR, after i/up. I've been trying to build the NR Loop for two months, but still don't have my wire for it yet, no thanks to Lafayette! I sent my order on 8/26; then I got a back order notice on 9/13. They said it would be shipped on 9/15. Several weeks ago I wrote them about it & on 10/7 I got a mineo letter saying it had been shipped. I'm still waiting for it, & they're getting another letter too, hi. Totals here are 601/162 stations. I see some really good news in the DX Calendar. I just hope the CX hold up for them. Have a great time at the dial.

Hi gang! It's been a long time since I have mixed, but I've finally got some DX to report. First, I'll introduce myself - I'm 15, will be 16 in three weeks, on a Junior at Center Line High. EX is now a Lafayette HA-700, w/a 60' LW & NRG Loop. The wind gusted up pretty good here & snapped my LW, so I am now using what is left of it, a 9' vertical, hi! Now for DX: 10/7- A good day for 1580 - all stations here are on 1580: WKKD @ 6:50pm, WAMY @ 6:50, WITN @ 6:59 s/off, KFTD @ 7:05pm s/off, KWT @ 7:30pm s/off. 10/10- WOKI-1010 @ 5:59pm s/off, WFMJ-1300 heard @ 7:03 pm, WBXR-1560 @ 7:05pm. 10/11- R. Popular-700 WAVM I&K @ 10:00pm w/WLM nullled, TIPF-1075 @ 10:29pm in EE. 10/12- WCCT-1560 @ 4:25pm. WEPJ-940 @ 4:50pm, WSTT-960 @ 4:55. 10/13- HOJH-1045 @ 11:29pm, HMTJ-715 @ 11:58. 10/14- KFYR-550 @ 12:32am. I got an unID on 560 @ 12:43am, FB game between Jasper Bulldogs & Sylvia. Suzie won, 59-10. (good for her! - ERC). The station s/off right after game @ 12:54 w/SEE. Could somebody help me 3/this? - KLZ-500 @ 1:05, WIVK-590 @ 1:07, WSBH-910 @ 1:16, CHEY-1090 1:18pm, province 75, VEPA-1240 @ 2:02am. That's all. Question: On SRS I get WREJ-1580 from Ichthia, per ID. But have I no info on it here, is this the Ichthia in NY? ERC, what is a PFC? I've noticed several members saying they use 'em on stations. Is it a Picture Post Card? (No - Prepared card - you make up your own verie on a card, send it to the station & they sign it - you hope --ERC) Totals: 313/59, 36/3, 51/16, 16/3. Best frequency is 1580 w/13 logged. One verie in, WDMV-540 v/g & CN. Correspondents, hang on - I will be with ya pretty soon. I've also got some CPC requests - I hope they answer... .73 & good DX.

Dave Fischer - 5039 South - Lincoln, Nebraska - 68506.

The following slogged by good ol' Ha-120 & 80/40 meter half-savers: 10/9- KFYR-550 @ 6:32am. WOOF-560 @ 7am. KOX-550 @ 7:05. KNTO-560 regular here, KJKO-630 regular, & KREJ-710 c/WHB @ 7:30am. 10/10- KJNQ-540 @ 12:41am, KLZ-560 @ 11:03am solid, WAPA-570 @ 1:10pm fair, KFJ-640 klobbering Castro - Hooray! @ 1:40am. WSM-650 @ 1:10am solid, WMQ-670 @ 1:41am almost solid, WNBQ-640 @ 2:00am regular stuff, CHF-680 @ 2:30am sneaking through mess, WLM-700, WOR-700 w/WHB - a pair! CBM-740 @ 3am, no KNXG. WKB-750, WRJ & I finally heard a siga, under then though unID; WABD-770 @ 3:26am. WFBM-790 @ 3:45, WHAM-1150 @ 3:51 weak. 10/11- KRLN-1080 @ 7:30am good, KDEI/KMOC-1070 tied, w/WBBC underground @ 7:35am, KVCO-1170 @ 7:40am background likely WWAA, WLDS-1180 @ 7:42am clear of WHAM, KSAI-1150 @ 7:48am JS, KSL-1160 like a local @ 7:45am. Reports sent WYMV-800 & KDDA-1560. EBC Hand: KHIC-1600 CE KFHR, KNWJ-1570. 

KORAM, & I had excellent long chat w/Cliff Porter, W3IYI of WADN-1450. I am giving up 7160k on SM - no deal.

Dave Schmidt - 44 Green Lane - Green Ridge - Chester, Pennsylvania - 19014.

Just a short one again, no HA-180 as of 10/14 - there must be more wring w/it than I thought! DX all on transistor: 10/4- KIRL-1010, @ 5:51am. Couple veries: v/g- WIZK-1550 after ten months, & a nice v/1 from WCGS-640, West Chester, Pa. Total: 473.(F11)
October 21, 1967

(Dave Schmidt). A nice clipping from one of the Philly papers gave me the shake.

WPN-950 was sold six months ago for $5 million, & about three weeks ago, Lon Broadcastings bought them for $6/5 million. They are playing up-tempo good Rn & light rock now so maybe they might the Philly's next AM station - I hope not. After reading about all the new AMers I'm afraid to DX. You can blame WKBW's going NSP to WYSL's doing it. Let's hope it won't last. Before EDT ends, right now is a good time for Easterners to bag some Western DX, most of the E is faded out or a lot weaker & the West stations are on day patterns by then, too. KIRA-1010, KSD-550, WHEQ-560, KKOK-630 are all common next mornings here - try it!

- Wayne Plunkett - 124 John Street - Weston, Ontario

After a fair absence from these pages, a good time to get back in the swing although DX still sporadic. I have enrolled for night courses this year in Basic SS & Amateur Radio for obvious reasons, hi. I certainly enjoyed the doings at Eugene & was particularly impressed by that Labor Day AM DX session cut on that sideroad. How clear the band can be of RS Alle on a 4M is a real revelation to us Easterners. Mike Northam & his "hot" car radio provided many of the fireworks v/several good signals from Alaska & Hawaii, as well as some weak traces of IUs & Asians. Then when many of the Texans & various Eastern stations started to s/on, I believe Mike ended up v/seven or eight new ones between 1:40am PDT & 6am PDT while sleeping out at the base of Mt. Shasta in N. Cal. we heard Peking-1040 as well as unID Asians, I believe in 620-830-840 range. We missed Don Keshey at the Hotel El Rancho when we came through Sacramento on 9/7 in the afternoon. What a fantastic trip we had. In all, 7,550 miles in 17 days altogether including time in Eugene. Last 2,000 miles were cut in short order as we did not leave Salt Lake until noon MDT 9/9 & hit Toronto @ 1pm EDT 9/11. Route roughly lead as follows: Toronto - Port Huron - Duluth - Winnipeg - Anchorage - Edmonton - Jasper - Kake Louise - Fortin康 - Grand Coulee Dam - The Dalles - Portland - Eugene - Crater Lake - Redding - San Francisco - Reno - Salt Lake - Cheyenne - Omaha - Chicago - Toronto. Numerous interesting stations visited along the way as well as attempts to contact several DXers. Those stations we looked up included WKBW-1290 WATO-960 WMTL-1270 KHFC-1340 CKCM-730 CFX-940 CKSA-1000 UFRN-1260 CJIB-540 CKVX-630 CKMT-600 KUPE-730 KFTR-1370 KKHG-550 KEGR-1280 KYNS-950 & then mostly concentrated on the sightseeing in The City, Reno, Salt Lake from there on. As for DXers, we spent a few enjoyable hours in Duluth w/Bruce Elving (still #1 FM DXer) hilarious attempt to locate Watson Wendt in Hill City, Minn. again, good visit v/TV DXer featured in "Weekend" magazine a few months back, another goose chase after Ron Kusneck in Winnipeg, just missed John Oldfield in Edmonto as he was off on unsinked jaunt to Jasper, hi. A bit of DX: 9/16 - WKM-640 on Hurricane Watch so log 4:50-5:10am. 9/18 - Newbie WSLV-1520 Airdrome, Tenn. on ET. Airdrome has a grand-population of 190. After WSLV SSB 2:27, I found CKXM off & 590 as dead as ever heard - nothing readable until W9LO 3am s/on mentioning off since 1215EDT. 9/19 - WHIN-1390 s/off 6:15 to return @ 6am local time; WGAU-560 briefly v/Mutual RX for surprise - #14 USA on 560. Back next time.

- Ernest B. Cooper - 438 East 21 Street - Brooklyn, New York - 11226

I guess we all have our own WHIZ-1550 v/q by now, as I have. Arriving in the same mail was another long over-due v/q - YMK-750, & it says 50kw. Not too much success this past fortnight - I guess I needed a fillmighth! 10/5 - A bit of WBQ-1220 s/on @ 6:15pm. MM 10/6 - Cl rx followed by a capella hymns on 1530A 1:10am fade - could this be a new shot for Vatican Radio? WKBW-1520 has more s/op than most locals here! Finally a report to WABR-1250. An FPO on 1240 which joined the CRC All Net @ 2am after a different program - who's this? A letter to CBC Montreal to see if they know, hi. I had WKBW-950 in on 1030 better then on 950 this AM! WPEB-950 tested w/ v/c at 11am before RS s/on v/aightly few announcements; almost an hour wasted listening for their Edna. Mt Plu, Aurora CX & unID SS atop 1180 @ 6-6:15pm. Ohman topped 1220. SM 10/5 - YSP-810 DX got in for 15 minutes 2:39-2:54am, then suddenly on burst Cuba. They may have been on during YSF DX v/C, & about a 200 cycle beatydue noted. Another SS atop 660 at the same time, unID. Also one on 1329 AM. MM 10/5 - YVRQ-910 atop for a while around 1:10am, also an AM SS on 950 u/WTRT, with same time as used by YVRQ-920, but in reverse order! Progressive Jazz on 1530 off around 1:45, unID, WAOO? Then CBAQ took the channel. No sign of WYAR-600, only HWJ & Cuba TV-1280 w/u/CJFS could have been they. All-1329 again mentioning "Sistema ABC" @ 2:10. 10/16 - WSMQ-1220 in for log at long last, 5:55-6:15pm s/off. C UN 7
October 21, 1967

CONGRATS!  To Dan K. and Janet Philips, who were married on September 10. We wish these young, happy people all the success in the world!

CHANGES IN STATION DATA  F.C.C.

They started it on 9/30 @ 7am GMT, and the service is called "Radio One."

ON THE STATION'S STATIONERY

W K B W - 1580

Dear Mr. Cooper:

"Thank you for your letter of October 5, 1967. I regret that the continuation of our all night broadcast service has caused you some disappointment and interfered in your weekly listening on 1520 kc.

This additional programming became necessary due to competitive stations broadcasting on a seven day per week basis. As you can imagine, it is quite a burden to our engineering staff to broadcast on the basis of 25 hours per day, every day of the year, however, it became necessary to adjust our programming in this manner to meet the competition broadcasts.

"Thank you for your interests."  Sincerely yours, (signed) Bill Weaver, VP & GM

GILFER ASSOCIATES BRANCH OUT!

This organization, located at Box 259, Park Ridge, New Jersey, 07656, has the following items of interest to BCB DXers for sale:

WORLD MEDIUM WAVE GUIDE, a complete two-part listing of AM BCB stations 520-1629 kc/s for all stations outside of USA/Canada, & part two, lists all USA & Canadians 540-1600 & a list of BCB stations by state. 70 pages, $2.75 (after 12/1/67, $3.00).

GREAT CIRCLE MAP, 30" x 25", focused on the geographic center of the USA. It is Azimuth equi-distant, so you can measure distances w/a ruler. By knowing the direction you can thus adjust your loop antenna accordingly. $1.00.

WORLD RADIO-TV HANDBOOK, well-known to all foreign DX fans - pre-publication price is $4.95, and after 12/15/67, it's $5.95. AND now - note this: Gilfer is handling the NORTH AMERICAN RADIO-TV STATION GUIDE, or more commonly known in the NRC as the Vanity Log! It's $2.50, $3.15 in Canada.

WEEKLY AGAIN!

Please support our weekly issues - weekly, if possible! Please DOUBLE SPACE!

----------------------------------------------------
NOTE that in some instances, e.g. XEEZ-760 Tomal; XENM-390 Navolato; XEMB-760 Los Reyes, Max., the stations
are listed by the major market rather than the
suburb to which they are licensed. This list is proba-
ably the most accurate of the available Mexican lists,
although I understand that has moved from 1950 to 1130
and I know from listening that XEER-570, Monterrey,
N.L., is on the air. Many of the Mexican lists, based
upon NASA notifications, show stations that have been
allocated but do not actually exist. Meanwhile, thank
you to Ronald P. Schatz, who took the trouble to copy
this list by hand in the San Francisco Public Library,
than take it to the Hague Convention to turn it over
to me. - JAC

----------------------------------------------------
Some 200 extra copies are being made of this list, along
with certain other features, which will become a part
of the NIC new member kit.
DX conditions during the last few weeks seem to have been fairly good in most localities, but with a marked favoritism for North - South paths. In spite of these dominantly "auroral" conditions, many TA's and TP's are being heard. The first traces of Near East DX (in the form of Egypt 818) have become audible here in the Northeast, and several good Southeast Asians have been logged on the West Coast already. Dalorenzo, Mass. comments that "Aurora conditions continue to dominate here with many unusual TA's noted." Kenney, Calif. observes that "Conditions have been quite good for the past week. The noise level is down from the previous week. MM 10/9 was a disappointment, as it seemed as if every station in North America was either running AN or TT'ing." Freeman, Calif. says "I have several times checked all the likely TA frequencies and have found absolutely no traces of signals."

*On Reciprocal Paths.* Arctic Radio Club of Sweden reports many receptions of US stations during September, the best being: WCAR, Ohio 2215 on 9/17; WWTN, Minn. 2225 on 9/11; WHIO, Ohio 2315 on 9/11; KRMT Iowa 2230 on 9/17; and WERE Ohio 2245 on 9/11.

In New Zealand, reception of North American stations was very good in late September, according to the NZDX which reports receptions from many stations in the western part of the continent. Some of the better W calls reported: WFMF Indiana 0315; WHIO Ohio 0440 (they do seem to get out, don't they? BI); WENN Ill. 0500; WMBD Ill. 0525; WLOU Ky. 0530; and WAKR Ohio 0620. In the Union of South Africa, WCKY Ohio was logged at 2300; WCPM Ill. at 2300; and WIPAC at 2235; according to the SADXG.

*Arctic now has a Siberian correspondent.* Victor Tepilov, who is beginning to clear up some of the outstanding Asiatic Russian mysteries. He identifies 1150 as Khabarovsk (relays Mayak and Moscow); 1376 as the Vladivostok music station "Chaika" which also relays Mayak; 1485 as a weak Khabarovsk outlet; 1500 as Vladivostok or Khabarovsk with Moscow relays; 1570 as Khabarovsk relaying Moscow and Mayak programs; and 1586 as Khabarovsk with Mayak programming. Note Freeman and Millar.

*Several prominent IDXD supporters* have long contended that verifications provided by Eugenia Stepanova at Radio Moscow for certain regional Russian stations (e.g., 1214, 1505) left a great deal to be desired - it seemed as if the Radio Moscow group lacked up-to-date information on the frequencies and programming of regional Soviet stations.

*Now Gerry Dexter reports receiving a communication from Mrs. Stepanova to the effect that Radio Moscow will no longer verify receptions of regional stations because their technical department no longer has information regarding regional station operations. At least on EN, most of the regional stations have been very good about verifying directly in the past, so this policy change may not work too serious a hardship. Hopefully, at least, it'll put an end to some of the apparently gratuitous QSI's coming from Moscow.*

*The CIA Replies.* In July of this year, a federal law was passed which provided for a greater access to previously restricted government files. As a result, in the official Federal Register, the secret government agency, the Central Intelligence Agency, announced that upon specific request for data in its files, it would review the request and if national security be unaffected by the disclosure it would release such data. To test this, NASWA's SW Center editor wrote the CIA seeking data on the mysterious Spanish-speaking clandestine, Radio Libertad, La Voz anti-Communista de America. Specifically, we sought the same data about this station as is provided in Foreign Broadcast Information Service (a branch of the CIA) publications, namely the station's ownership and leading personalities. Joseph C. Goodwin, assistant to the Director of the CIA replied, "According to the FBIS, the location of Radio Libertad's station is not announced by the station and therefore not given by the FBIS in the entry listing this station on page 128 in Broadcasting Stations of the World... When a clandestine station does announce its location, FBIS tries to list it as announced. FBIS has no investigative capacity to search out such information beyond that of monitoring the station. FBIS does not know who controls or operates the station... nor the names of leading personalities of the station." (from NASWA)

It's almost as if they don't want to tell us... (Ed)
Ascension Island, heretofore represented on the MW band by the 1 kw AFRTS outlet on 1600 ("Volcano Radio") now has a second station, just a bit less impossible to log in North America than Volcano Radio. According to Aart van Eck, reporting in Arctic, "The second station is a rather new one. It is operated by the BBC and using 1448 kc/s with approx. 200 watts. The story about this station is as follows: before the BBC came to the island the inhabitants used to listen to London on simple portable sets with a SW-band. Now with the super-SW-stations nearby it is impossible to catch London and the World Service in English isn't relayed all day. This fact was realized by the staff and what happened. The superintendent engineer fixed two 250 watt stations from BBC surplus stores in London. They are using a 100 foot reserve antenna and the two transmitters are housed in a "homebuilt" house nearby the antenna. The BBC officials in London don't know this extra, so the costs can be put on the external budget! This station is on the air 24 hours relaying the BBC World Service. The BBC fellows plan quite a bit of local broadcasting, but there are troubles with copyrights and legal papers. So the only local programming is a short newsbulletin. The transmitter is fed by a VHF reserve link. All the reserve equipment is now in use, but, of course, MW has second priority. There has been a few breakdowns, less than with the SW transmitters. The location of the antenna is rather unfavourable, right at the Northern tip. About 3/4 of the radiated power is going out to sea. The first intention was to install the antenna in the middle of the island, in the so-called green heart. But later they decided to keep it next doors. Another trouble is the mismatch between the transmitter (80 ohms) and the mast radiator (5000 ohms). But the staff hopes to fix this in the near future." Hmmm, we'll have to do an E20 run on this one - if they fix that antenna problem, this one just might make it to North America - especially during "auroral" conditions. (Ed)

New Zealand DX'ers caught napkinng. Art Cushen reports in the NZDX that station KOLD, Wilkes Base, Antarctica has been in operation on 1410 with 30 watts since 1963, and has been heard as far as 300 miles away. That works out to about 2700 miles to New Zealand but unfortunately the channel is blocked by 2KO there. (Ed)

Crane Radio. At first the workmen just couldn't believe it! A talking crane?? It wasn't till BBC engineers were called to the site, that it was discovered that the giant crane was picking up signals from a nearby BBC relay transmitter at Brookmans Park and amplifying them via the hook whenever it touched the ground. Turned out that the steel hook was acting as a rectifier. Who needs a radio?? (WIDX)

The Pirate Scene. Two Radio Caroline Disk Jockeys are to fly to London within the next six weeks to challenge the validity of the Marine Broadcasting (Offenses) Act, which outlaws pirates and all that supply them. The two men, Robbie Dale and Johnny Walker plan to live openly in Britain and so invite arrest and prosecution. Caroline wants the test case because as Robbie Dale puts it: "In the eyes of the British public we have done no wrong. There will be the biggest outcry ever to surround a trial if Johnny and I are convicted." The two face a possible sentence of two years imprisonment if found guilty. Caroline is going ahead with plans at the present time to start a Dutch program in December. More than 40 DJ's have been interviewed and auditioned already, Caroline may, however, be changing its aim with its Dutch service, for the Hague government has already drafted legislation that would put the pirates off the air. So far it has held its hand, frightened of possible public reaction if it were to ban its own pirate Veronica, the senior ship station which has been broadcasting from the North Sea since 1960. But two free-enterprise rivals may prove too much even for Dutch self-control. (Gregg Calkin, October 3rd)

The High Power Race continues to the delight of the transmitter manufacturing industry. Rhodesia has begun testing with a new 100 kw unit on 998, Algeria is reportedly installing a 1000 kw Czech unit, and Angola has ordered 5 100 kw transmitters, the first of which will reportedly go on the air early in 1968.

World Radio Handbook has been bought by the Billboard Publishing Company which also publishes Billboard and High Fidelity magazines. The 1968 edition of WRTH will be $5.95 and the Summer Supplement will be $2.50. For members ordering before December, however, there will be a special prepublication price of $4.95 for the WRTH and $6.95 for both WRTH and Supplement. Supplied postpaid from World Radio-TV Handbook, 165 West 46th St., New York, New York 10036. AN ABSOLUTE NECESSITY FOR ALL FOREIGN DXERS.
MAJOR CHANGES IN RULES SHOULD MAKE FOREIGN SINGLETON-ELIMINATOR CONTEST MORE INVITING

In consideration of the views of many members of both clubs, and the lack of serious Foreign DX fans in certain portions of the country, the contest judges agree that a few changes in the rules might be in order at this time. Please note that this change is retroactive to September 1st which was the starting date for the contest. If carbon copies have not been kept for the many stations now eligible with the lowered minimum mileage, be prepared to submit actual verification (or reproduction) IF REQUESTED BY CONTEST MANAGER as outlined in rule 2. If carbon is lacking for reports to these stations (2000-3000 miles), give the following information as your entry: Reception date, verification date, call, location, frequency. However, from now on, carbon copy of report must accompany entry. A question has arisen regarding those who send tape recordings to stations. A carbon copy of your letter sent with the tape will suffice as your entry, but keep a copy of your tape in case further proof is needed. Original rules were contained in the August IDXD.

Please note the following changes:

RULE 1. Eliminate all zones for the present season. They may be re-established in a future year if there are enough contestants. Those outside the adjacent 48 states and Canada (but still in the Western and Northern Hemisphere) may participate with the same rules as US and Canadian members plus any handicap imposed by the judges.

RULE 4. With the elimination of zones, the prize awards will be as follows: there will be a GRAND PRIZE (value over $50.00), SECOND and THIRD prizes and possibly other SPECIAL AWARDS for countries, greatest mileage, etc.

RULE 5. The minimum mileage will be lowered from 3000 to 2000 miles, thus opening up LATIN AMERICA and even parts of MEXICO for almost everyone. This is a foreign reception contest and U.S. and Canadian stations will not be eligible for anyone regardless of mileage. (This handicap is also imposed on the Hawaii and Jamaica contestants.)

Because of the lower mileage limit, the very valuable prizes, and elimination of zones, many more members may want to enter the competition. Please include 50¢ entry fee, and include the following information: Club affiliation, main receiver, main antenna, and number of stations and countries QSL'd as of 9/1/67.

CONTEST STANDINGS as of October 10th. (New Rules)

1. Reynolds (Calif.): BEC-27 (1560) S, CX-16 (850)S, YNX(750)S.................. 60
2. Wood (Hawaii): 2RE (1560)S........................................ 16

* * * * * * * * * * * * * * * * *

We've recently been in contact with Charles Miecker of Lafayette Electronics Co. in connection with the Lafayette MECHANICAL IF FILTER described in our recent selectivity article. He has supplied the following information: "In regard to the item in question, we have tried many times in the past eight months to find an alternative source for the mechanical filter, but to our regret, without luck. The (Japanese) manufacturer has since gone out of business, and as it appears now, we cannot find another source." To compound this distressing news, we've just learned that Collins Radio has recently raised the price of its least expensive unit from $26 to $33, thus making mechanical filter experimentation prohibitively expensive for all but a few DX'ers. This also puts Lafayette in a rather uncomfortable position since they'll be unable to service defective MF's in the thousands of SW and CE
Your IDXD editor has recently been appointed to the chairmanship of the Manufacturers Liaison Committee of the Association of North American Radio Clubs (ANARC) which, for newcomers to the DX'ing hobby, represents almost all of the major DX clubs and organizations in North America. The MLC is designed to be a major channel of communication between the DX community and the manufacturers of DX'ing equipment. We are beginning to map out a course of action for the MLC — which hopefully will include listings of new equipment, bringing DX'er's opinions to sympathetic ears in the manufacturing industry vis-a-vis present equipment, and stimulating commercial development of DX'ing accessories not presently available (e.g., a transistorized Q multiplier, MW preselector, etc.). We invite interested DX'er's to supply us with ideas, suggestions, and comments on any topics that might seem to come within the purview of the Manufacturers Liaison Committee.

While we hold few illusions about the degree of leverage that the DX community can bring to bear in a highly competitive industry such as this, we honestly feel that the DX community (and particularly certain categories of DX'ing such as MW, FM, etc.) certainly needs an active and effective MLC. We urge anyone interested in problems of this sort to contact us.

*NB* for Ralph Ingles, Jr., of Avon, Connecticut, supplies some information of interest to students of the Radio Swan/Americas "Controversy":

"Undoubtedly the majority of you recently read Tom Kneitel's manuscripts regarding Radio Swan/Americas in the May and September issues of BI. Though well done and extensively sophisticated there were a number of significant errors.

"In the May issue Kneitel made mention of a Swan Official named Walter Orr; however this name is incorrect, the real name is Walter G. Loehr. This probably is why Kneitel could not locate the person in his quest for additional facts/information.

"Kneitel also states that the only link between the USA and Swan Island was by plane (a DC-3 twenty-four passenger jobber w/two pilots) which carried the mail and supplies. While this is true the plane came once a week direct from Miami to Swan Island non-stop, not from Miami (supposedly) to Cozumel, Mexico and then to Swan Island bi-weekly as Kneitel goes on to say. Mr. and Mrs. Prince Crowell can verify this being an elderly couple who were granted permission by Sumner Smith the Swan Island owner to visit the Island." Tnx, Ralph. Ya know, the more Admiral Nelson hears about Swan Island these days, the more appropriate the fact that it's a guano island seems to become...

*Radio Hauraki,* the New Zealand pirate operation, sends the following information to Gregg Calkin: "The station is located on board the M.V. Tiri moored in international waters in the Hauraki Gulf, Latitude 36 degrees 18 minutes, Longitude 175 degrees 20 minutes. The station broadcasts primarily popular music programmes recorded in their studios at 93 Anzac Avenue, Auckland. The transmitter is a 1.5 kW unit operating on 1480. Hours of operation are from 0500-0100 Monday to Friday; 0600-0100 on Saturday and 0900-0100 on Sunday. Those times are NZST which is GMT plus 12 hours. Programming consists of popular music and advertising with weather and news on the hour. The DJ's are Australians and New Zealanders. The present team includes: Ian Magan, Mike Parkinson, Carl Olsen, Bob Leahy, Peter Telling, Ross Godwin. Operated by the Pacific Radio Advertising Ltd; Box 1480, Auckland. Mr. O'Callahan says that their aim is to get a licence to broadcast from N.Z. soil and thus break the monopoly of the N.Z.B.C." Tnx, Gregg. This one has been spotted on split freqs as much as 20 kc from the nominal 1480 and has been QSL'ed by DX'ers in both Alaska and Calif. A good bet on the West Coast. (Ed)

*IDXD reporters:* Now that we've resumed our weekly publication schedule, DEADLINE for information will be Tuesday of the week. In order to facilitate our work, we request reports: (a) be in IDXD format, by frequency; (b) be on one side of the paper only; (c) be on 8½ by 11 paper if possible (avoid postcards if possible); and (d) contain as much information to help others log and identify your catches as possible. Spurious radiations on split frequencies, even from US and Canadian stations, are welcome in IDXD in order to prevent wasting time identifying these weak carriers. We wonder just how many DX hours were spent on WBT's spurious radiation on 1204 in '65?
The name and beginning of Radio Cristal is closely related to other Santo Domingo stations as the link of a long chain of radio stations with many different names according to the owner of the time. About more than 25 years ago there existed a radio station in the capital named "HIT El Hit del Aire" operating in the frequency of 1260, with a low power, not more than 250 watts. Later, this station changed hands and became "Bartillo Primero". Much later the station went back to "HIT El Hit del Aire".

Some time before 1960 it changed name again to Radio Comercial and started operating at Calle Mercedes 12, this marks the birth of that station, with a permission which it had been granted to Angela Lidia Pichardo Vela. Sanabria. Around the end of 1959 R. Comercial moved to the frequency of 1020 and at this time it created the "Comer-Cris" enterprise, which it was going to comprise this station already on the air directed by Luis Armando Asunción, and the new one "Radio Cristal" (1/7/60) using the frequency left by R. Comercial on 1260 and Mario Báez Asunción as director. For this change of frequency R. Comercial bought a new transmitter, meanwhile R. Cristal continued to use a homemade transmitter with a power of 600 watts.

On September 25, 1961, both stations moved to new quarters in the third floor of Edificio Armenteros situated at the corner of El Conde and Duarte streets. At the beginning of 1962 they requested the frequency of 570 which was later granted, at the same time call letters were changed to HIMS. But the frequency of 1260 was not allowed to be free, it was at once taken over by a new owner: Manuel María Pimentel. who moved with it to Edificio Jaar at El Conde and Espaillat streets where R. Mil was to be born some time later, directed by Joaquín Jiménez Maxwell. Then R. Comercial left the place and hired the second story of a house at the corner of Calles Padre Billini and Sánchez.

At January first 1967 a new director arrived at R. Cristal, he is Nobel Alfonso who wants to push his station to take an important place in the Dominican broadcasting circles, and a sign of progress is the use of a new transmitter on 5 kw. The actual equipment used by Radio Cristal is a 1000 watt Gates transmitter on 570 which has been in service since 1963. Programs are transmitted from a 260 foot antenna located at the transmitter site about 2 miles from the North East, across the Ozuma River at Zanja Alma Rosa. There will be a power increase to 10 kw in the future.

Radio Cristal is a part of the "Comer-Cris", C. por A. enterprise, whose president is José Efraín Peña, actual Secretary of Industry and Commerce of the Dominican government. This enterprise owns the following stations: R. Comercial, HIMP on 1020, operating from 0530-0000, Juan Nova Ramírez, director. R. Cristal, HIMS on 570, operating from 0600-0000, Nobel Alfonso, director, both in Santo Domingo. This enterprise is planning to erect a new building to house both stations at the capital as well as a new TV station.

The director wishes to receive reports which will be verified if they are correct. Can be written in English or Spanish. Tapes also accepted. Address: Radio Cristal, Apartado 1322, Santo Domingo, Dominican Republic. -30-

César adds that he's the one actually verifying for R. Cristal and has seen many poor reception reports from North America. In addition to the usual reception report information, such as date, time, and frequency, César requests at least 15 minutes of program detail - a minute by minute logging, names of songs and commercials, etc. César will then verify with a QSL card or letter if the report was correct.

Monitor Reports...
The editor calls your attention to 50 kw of Spanish Sahara supposedly on 656, the new Saudi (1.25 megawatts) on 602, and a high power Rhodesian testing on 998...
Dominican Republic. HICN, R. ABC hrd w/good signals 1943. (Montefusco, Conn.)

Cuba. CMAN hrd at 2245 w/good signals; listed as Pinar del Rio. (Montefusco)

Malaysia. Tenom in weakly 0643-7 on 9/19. American songs and British English; listed as 10 kw; could make it to US. (Peterson, Hong Kong, IRA)

New Zealand. 2YA, Wellington ends daytime programming and goes to AM mx at 0620. (Wood, Hawaii)

Cuba. CMJM hrd w/very strong signals 2246 w/Latin American mx. (Montefusco, Conn.)

Saudi Arabia. The new high power transmitter is now here, apparently ex-647.

Cuba. CMHQ, Santa Clara hrd w/very strong signals 2238. (Montefusco, Conn.)

Malawi. Malawi Broadcasting Corporation has increased power here, apparently ex-647.

Cuba. CMQ hrd at 2230 w/strong signals from Habana. (Montefusco, Conn.) Noted w/Cuban mx mostly, man and woman as announcers and ID as L.V. de Cuba at 0400 9/10. (Sennett, B.C.) Unneeded but in very strong 9/24. (Hartieff, N.Y.) CMQ dominates this channel nightly; especially strong 10/9. (Ed)

China. Radio Peking, S6 at 0534 10/7. (Allen, Calif.) Peking in very well w/ woman and man in Mandarin 0535 10/9. (Reynolds, Calif.)

England. BBC weak in very high noise level 10/9. (Ed)

Hawaii. KORL, Honolulu 0750 9/17. (Allen, Calif.)

Venezuela. YVH fine level at s/off 0028 on 10/15; carrier cut 0030:30. (Ed)

Spurious. Strong carrier, usually with 800 cycle tone modulation, noted intermittently in Eastern Massachusetts on frequency slowly varying from 652 to 649 kcs from day-to-day. After extensive direction finding measurements by Holmes, Kelley, and the Editor, the source was finally triangulated and located with the aid of field strength measurements. Turned out to be a 1 kw Westinghouse RF oven used for Crystal-growing experiments at Tyco Labs, Waltham, Mass. Normally set to operate on 500 kcs, this particular unit had accidently been mistuned to 650 and was radiating several hundred watts of power in the CB. Went off the air after being notified 10/17. Any weak unid TT'ers or hets hrd on 650 on the East Coast were probably this. (Ed)

South Vietnam. Hrd MM 10/9 at 0630 w/weak signals and het from a very strong North Korean on 655. This is the VTVN station at Hue QSL'ed last yr on 11/21. (Reynolds, Calif.)

North Korea. Pyongyang hrd very loud w/variety type pgm after 0646 on MM 10/2, but KPT carrier slop-over fouled it up quite a bit. (Reynolds, Calif.) Hrd 0427 on 10/7. (Allen, Calif.)

Salvador. YSS, R. Nacional, San Salvador quite strong and clear 0455 on 10/12; slight QRM from WRKO-680 splash. (Ed) YSS is surely the unid SS in weakly nights till about 0000. (Kenney, Calif.)

Spanish Sahara. El Auj203, Radio Sahara, El Auj noted 9/25 s/off with "Habla R. Auj" ID at 0033 after program of nonstop music. Believed to be 50 kw. (ARC) Italy/Unid African. Still hearing RAI dominat on this channel to s/off 0003; weak second carrier there is definitely African, but could be either El Auj203 or Nigerian on basis of direction finding. If El Auj203 is running 50 kw on this channel, the antenna pattern must be very unfavorable for North America or on to Spanish Sahara are very poor these days. (Ed)

New Zealand. 2YT, Wellington in quite well w/mx around 0400 10/8 and 10/9; as usual, faded at ID times. (Kenney, Calif.)

Mexico. XERFH, Mexico, D.F. 27 0055 9/25. (Allen, Calif.) XERFH dominant but weak 0147 on 10/9 and weak second carrier present on 'scope; probably KFAR. (Ed)

Pirate? Conrad's unid in 10/7 IIDX appears to be CPC, a presumed Canadian First illegal lately reported to SCIX. (Wood, Hawaii) Turned out to be a spurious receiver pickup from one of my locals. (Conrad)

Portugal. Lisbon noted local level with nonstop Country and Western mx 10/9; went through 0130 without ID, then woman announcer in PP at 0135. Atypical programming sort of had us fooled for a minute 'till we took DF. (Ed)
665. Unid SS. Is there a weak LA sta on this channel? Weak ghost-like signal noted here w/seeming SS voice; quick fade. looped LA and not Portugal, but did not stay in. Hrd 10/1 around 0030. (Freeman, Calif.) There was what appeared to be a spurious emission or a drifting transmitter from an unid Mexican hrd on the East Coast last spring, Clarence, on 6650. I got Mexican DF on it, and Conrad got a good tape of the ID but the modulation was too distorted to be readable. Very likely the same sta. Anything audible there, Glenn Hauser? (Ed)

670 Guatemala. TGRT is the strongest of several SS stns here. s/off 0100 w/"Buenos notches... El Fabulosa". (Kenney, Calif.)

675 Nicaragua. YND is assumed to be the strong SS here 2200-2300 on 10/3 and 10/5. Good signal but only readable here when KNBC turns off the music. (Kenney, Ca.)

680 Mexico R. Actualidades unid is XEFO, Chihuahua, finally hrd w/ID 10/10 at 1916. Note its September s/off was 15 minutes later than indicated by Wescokan's sunrise-sunset map, so beware of applying them to Mexico! (Hauser, N.M.)

690 Cuba. CMBC, Habana. L V. de Cuba, 2215 on, 9/24. (Hartloff, New York)

700 Mexico. XEFO, consistently mislistening call as "XTRA", loud w/usual continuos news beamed to Los Angeles area 0700. (Wood, Hawaii) They've been doing this ever since they switched from "The Mighty 690" in about 1958, Richard. (Ed)

710 South Korea. HLKA, Seoul. K.B.S., nx followed by play, all Korean, 0700 10/9. (Wood, Hawaii)

715 Honduras. HRTV, R. Television fair signal but subject to deep fade; 2249-2309 on 10/11. (Delorenzo, Mass.)

720 Surinam. SNS in Dutch at 0425 on 11/7. (Allen, Calif.) Miserable level here every night around 2130 s/off; also noted 0430 10/1 s/off. Miserable then also. (Kenney, Calif.) Dominates the channel here nightly, kills TIIX w/longwire, but can choose reception as desired w/loop. (Ed)

730 Costa Rica. TIIX, R. Columbia finally logged 2247, 10/11; SRS makes this one tough. (Delorenzo, Mass.) TIIX. (canal 1 listed), noted 10/10 at 0119 w/march music, ID 0120 and Lineas Aereas Costaricens ad. (Hauser, N.M.)

738 Macau. This is the present operating frequency of R. Vila Verde. (Peterson, IRCA)

750 Japan. JORI, Sapporo, for what it's worth, noted in and out w/WSB at 0530-0700, talk in JJ by man in 9/10. (Bennett, B.C.) JORI amidst a glut of LA's at 0525 10/9. WSB looped, of course. (Kenney, Calif.) Strong at 0345; easy copy but not needed here. Still strong at 0615. (Reynolds, Ca.)

755 Portugal. PT weak here 1745 on 10/9; which sta is this? (Delorenzo, Mass.) Lisboa II, 1395 mw, Marc. (Ed)

760 Iraq. Baghdad is now here, ex-764. (ARC) Only 986 now open in N.A. for IRAQ. (Ed)

China. CJKT, 1st program, harangues, good on fine FE night 10/9 at 0720. (Wood)

Unid Oriental. Chopin piano mx w/SE Asian language announcements (definitely not Chinese) hrd at 0722 9/19, then other orchestral mx. Man and woman announcers. Signal quite strong. Could this be VOA Vietnam? Vietnam mentioned at 0730 several times. Something else behind. (Peterson, Hong Kong, IRCA) Talked w/a recently returned Marine Intelligence Officer who says that the VOA installation in Hue has only a single tower antenna and roughly a 50 kw w/...
Unid Oriental. Hrd at 2123 9/19 playing US songs and talk in unid Asian lingo by woman. Malaysia listed. (Peterson, Hong Kong, IRCA)

North Korea. Pyongyang hrd 0427 10/7. (Allen, Calif.) Quite loud at 0610 w/man talking and group singing. (Reynolds, Calif.)

Bosnia. R. Nederland relay in and out w/GKID 1 hour after sunset. (Hartloff) PJB, semilocal strength, SS gospel prms. (0500). (Wood, Hawaii)

North Korea. Pyongyang; Korean talks, in by 0450, always // 850. (Wood)

Ecuador. Canal Tropical, HCFV-1, Quito is in and out 10/2. peaked well but infrequently between 0200-0300 but not enough for tape. MSP? (Starr, Ohio) Yes.

Colombia. HJGW, R. Atalaya, fair 1958 on 9/29. (DeLoreno, Mass.)

Andorra/Egypt. R. des Valles w/pop mx mixing with Batra 1725-1800 on 10/15. Andorra w/pop mx in FF and EE, announcements in SS; Batra w/AA chanting. Andorra dominant until 1750 when Batra took over completely. (DeLoreno, Mass.) Both stns also hrd same night, 10/15; first showing from Egypt this season. (Ed)

Colombia. HJED, La Voz de Rio Cauca, Cali from 2040 to 2130 w/excellent signals 10/7. Ranchero mx. (Kenney, Calif.) Dominates the channel nightly here. (Ed)

Costa Rica? Until SS from 0123 to 0200 9/29, w/gal talking in SS and 20 cm of music every 5 minutes or so. Odd programming for middle of the night. Some US QRM. Any guesses? (Kenney, Calif.) YNOL is also on this channel at the moment, but they're a religious programmed station. Programming checks w/WTOS. (Ed)

Bulgaria. Sofia noted w/preety good signals on 10/17 for an unexpected catch; most other TAI's not in at the time. (Kelley, Mass.)

Hawaii. KIKI is now hrd w/very strong signals at 2300 w/gospel programming: "America's newest gospel voice on 830 kcs with 10,000 watts"; this is the now the loudest Hawaiian hrd in New Zealand. (Cusens, N.Z., NZERT) KIKI noted several evenings in and out w/WCCO, CHCA. Clear "Radio Kiki" ID's. Must have either boosted power or changed antenna or both. (Kenney, Calif.) Finally I log KIKI w/250 watts; then they go 10 kw and everybody gets 'em. Unfair. (Northam)

Japan. JOBB, Osaka w/language lesson in EE talking about long grain rice. Very good signal 10/9 just before XENSM s/on at 0700. (Reynolds, Calif.) JOBB? Weak w/operatic mx followed by woman in Japanese or Spanish at 0730. Presumably it's Osaka. Callahan is right about the fact that it's very difficult to distinguish between Spanish and Japanese in a noisy situation with a weak signal. (Kenney)

British Honduras. R. Belize 39 plus at 0630 s/on 10/6 w/loud and clear ID and anthem. Way above WCCO and a little JOBB QRM. (Reynolds, Calif.) Inaudible since they've moved from 634; should've QSL'd them when I had a chance, h1. (Cooper, Pa.) Belize and CHCA usually about neck-and-neck most evenings w/out the benefit of the loop. Lotter off to Belize asking why the change - we suggest that those interested in Belize write and inform the station that they are no longer readable in most parts of the North American continent, and that only a split frequency would be suitable for reception at any distance from Central America. Reception of Belize has always been nearly local quality here, and we frequently tuned to them just for their colorful programming. 'Tis indeed a shame to lose them to the mindless vitriol issuing from Havana. (Minor Editorial - Ed)

China. Nanchang - if TF skip is in from the Orient this one is there and usually good and audible - better than 1040/1020 anyway. First noted 7/10 w/woman talking in Chinese 0515-0520. (Bennett, B.C.) Nanchang 0835 10/10. How do you report this one? (Allen, Calif.) Unless you can tape the programming and secure the services of a Chinese translator, you'll have to settle for a descriptive report, Gene. Keep a minute-to-minute log of what sort of programming is hrd on several days; sex of announcers, type of music played, and any recognizable words (except "Mao," which is broadcast so often as to be meaningless). When you think that you've got enough of a description of the programming that one of the station personnel would be able to identify it without an accurate station log (and this is the primary reason for getting the report to the station as quickly as possible), send a report to Radio Peking, Broadcasting House, Peking, Peoples Republic of China. Mark prominently at the bottom of the envelope, "Via Hong Kong," otherwise US Postal authorities will return it marked, "Address Unknown." (Whew, 750 million unknown people!) Be wary of sending reports to Peking if you or any close relatives have or expect to receive any sort of US security clearances. Once a reply from Peking arrives, it's up to the individual
Very few DX'ers accept such a reply as legitimate verification, although this remains a matter of individual conscience in the absence of well-defined standards for verification. Mike Northam very recently received a note from Radio Peking which contained the statement, "Thank you for your tape recording of our broadcast..." (our underlining), which is about the most definite sort of verification that's been received from Red China for quite a few years (for a North American DX'er; the Zedders tend to get much better cooperation, for obvious reasons). Whether or not a given Communist Chinese QSL will count in the NRC Foreign & the Singleton-Eliminator Contests will depend upon the circumstances surrounding the particular logging and verification; this is a matter that the contest judges, as well as the individual DX'er, must pass upon as each case comes up. (Ed)

840 El Salvador. YSF, San Salvador readable w/frequent EE and SS ID's during the DX special 10/15 0200-0300. Only slight QRM from the previously strong (in September) Cuban. (Godwin, Calif.) DX test would have been very well received except for severe splash from local WHDH-850. Good copy from YSF when WHDH's modulation was subdued. (Ed)

840 Colombia. HJBI. Santa Marta s/off 0017 10/15. (Allen, Calif.) HJBI signs 0000; good 10/3, fair 10/6. (Kenney, Calif.)

840 Japan. JQK, Niigata in after 0420 SM 10/15 w/SS QRM. Most consistent Jap here. (Reynolds, Calif.)

840 Japan/Brazil. JQK in and out w/2 Brazilians 0345 SM 10/8. Sometimes quite loud, especially after 0430. (Reynolds, Calif.)

840 China. Harbin hrd for few minutes on f/in at 0730 NW 10/9; Mexican dominating the channel at this time. Last hrd 10/12/57. (Reynolds, Calif.)

840 South Korea. HLKY, Seoul weakly at 0453 10/1. (Allen, Calif.)

843 Thailand. This signal is definitely not China; played mx different from China, mx reminded of that hrd on programs about Thailand. Voice was not like any Chinese dialect that we've ever hrd, and to top things off, at 0800 9/19 (8 PM Thai time), there were 8 chimes that were identical to those on Godwin's tape two years ago. (Peterson, Hong Kong, IRCA) Godwin QSL'd the Thai, Art.

845 China. Peking hrd in Mandarin hrd between 0740-0800 9/19. (Peterson, Hong Kong, IRCA) Was almost zero-beated w/the Thai on Godwin's tape in 1965. (Ed)

850 Hawaii. KTIM, HIlo, noted around 0115 10/8 w/dance mx. Lots of QRM. (Kenney) Uruguay. CX16, R. Carve, Montevideo in good at 0400 s/on w/mx and 0403 ID as R. Carve. Played "Tico Tico" at 0408 w/much QRM. Quick verifier! (Reynolds, Calif.)

850 Japan. JQK, Morioka NHK-1 hrd w/heavy QRM at 0415 and time pips at 0500. Too much confusion for report copy. (Reynolds, Calif.)

850 Unid SS. Hrd from 0123 to 0200 9/29, with gal talking in SS and 20 seconds of mx every 5 minutes or so. Odd programming for the middle of the night -- any guess as to which one this is? (Kenney, Calif.) Could be the Cuban, Dcn. (Ed)

850 Peru. OAX4A, Lima, R. Nacional very good and clear w/US pop mx 2225 10/14; easy copy. (Reynolds, Calif.)

850 Unid SS. SS mx and announcements by woman on 9/12 1700-1815; good signal but very shallow modulation noted w/short IS on marimba at 1930 w/male announcer. Was not the usual CURON "band" IS; who? OAX4A or change in programming at CURON? Frequency might be 855. (Starr, Ohio)

860 New Zealand. 2Y2, Napier - only DU so far this season! Noted 0402-0430 in and out with Canadian LPTR's 9/21. Very high noise level in fog that AM and not hrd since. (Bennett, B.C.)

870 Hawaii. KAIM from 0150 until 0220 10/8 w/classical mx; atop WWL at times, but much easier after WWL s/off. (Kenney, Calif.)

870.5 Ecuador. HCNY, R. Cristal; Guayaquil easily separable from 870 on 10/1 at 0246 w/ID's and times in EST. (Hausner, N.M.)

874 North Korea? Either R. Moscow stn or Pyongyang in Russian at 0520-0600, then into oriental language on 10/. Presume it was Pyongyang per recent loggings, but I could have sworn I hrd "Moscow" 10/15 at 0500...
North Korea. Pyongyang Home Service ID is "Jugninen Pyongyang ni da" according to Tepilov. (ARC)

Spurious, KEMP-920, El Paso, Texas produces spurious radiation here. Why? (Hauser, N.M.) (Probably parasite in transmitter; check 961.5 also. (Ed)

Guatemala. TGJ, Guatemala City 0048 9/25. (Allen, Calif.) Noted w/R. Nuevo Mundo ID; usual fantastic signal 2336 9/27. (Kenney, Calif.)

Panama. HCN33, Colon probably the SS 0200-0240 MM 10/2 IDing as "R. Universal" and "La Fabulosa de Colon... en la Costa Atlantica". TC's were E3T. (Godwin, Colo., IRA)

Nicaragua. YNKW, R. Libertad hrd S7 2245-2323 10/6. (Allen, Calif.) YNKW? 0605-0620 SS mx and programming, w/an ID that sounded something like "R. Nuevastada". I can't seem to find an listing for this one; assume it's Managua. (Bennett, B.C.) YNKW fair to good 2300-2330 10/3; pop mx in SS and lots of ID's. (Kenney, Calif.)

Japan. JCRR, Kochi talk in JJ 0705-0730 7/10; in and out w/WLS and CJVI het. (Bennett, B.C.)

Algeria. Algels broadcasts an Anti-Salazar program in Portuguese 2030 with the callsign "R. Libertad" just for this one program. (ARC)

Umb Oriental? Unid very weak signals hrd here near 0600 and later, not SS. According to loop bearing, Bruinei is real possibility. Are they actually on this freq? (Reynolds, Calif.) Yes, Don, hrd in NZ fairly recently. Keep after it. (Ed)

Lesotho. R. Lesoto, listed 660 watts, may be using new 10 kw xmitter here. (ARC)

Mexico. XEW, Mexico, D.F. Ceteris paribus, Mexicans are better audible here than U.S. stns, so no surprise to log this one 10/9 0725. (Wood, Hawaii)

El Salvador. YSQD, Radiopolis, S.S. was definitely ID'ed as the stn here. (DeLorenzo, Calif.)

Australia. 4QB, Maryborough, Qld, and 4QO Midlands, Qld (synchro). ABC national mx 0600, state news followed. Good. (Wood, Hawaii)

China. Hefei, speech to rowdy rabble 0635 10/9. (Wood, Hawaii) The worst kind...

France. CRFF, Toulouse good 1715 10/15. (DeLorenzo, Mass.)

Japan. JCRK noted weakly battleing w/KTHN 0730 10/7. (Bennett, B.C.) Drama comedy 0725, quite good. (Wood, Hawaii)

Syria. Arab speaker hrd in Europe is Syrian. (ARC)

North Korea. Pyongyang home service is on about this channel. (ARC)

Venezuela. YMVN, R. Mil, Moron. Very good signal most of time 1835-2200 10/10 playing SS versions of many U.S. pop songs. Also hrd next two nites. (Sullivan)

Ecuador. HCEW-2, R. Suesco finally pulled in one from South of the Equator. Fair signal 2345-0000 s/off 10/10, much better 10/11 2000-2215, taped for rpt. Many U.S pop songs. (Sullivan, Mass.)

Rhodesia. The new outlet on this channel from Salisbury is believed to be 50 kw according to reports received here. Although Salisbury is only 1090 from Kimberley, reception is excellent here and "very good" in Cape Town, 1780 miles. (Franken, South Africa) Testing w/100 kw here, believed to be in Gwelo. (ARC)

Nicaragua. YNKW, Managua. Clear ID as "R. Mil, desde Managua, Nicaragua", 2305 10/11. Sounded like another R. Mil under them. (Sullivan, Mass.)

Colombia. R. Quince, Barranquilla in nicely w/mny ID's on 9/30 around 2200. (Freeman, Calif.)

Tonga. 220 over looped out KDKA at 0215 on 9/30; discussion of world affairs. Unneeded. (Freeman, Calif.)

Bolivia. C534 hrd well at 0500 s/on 10/2 but soon emmeshed in QRM. Man opened w/Buenos Dias and then the national anthem. (Reynolds, Calif.)

Costa Rica. TIAC, San Jose s/off at 2302 10/2. (Allen, Calif.) TIAC almost surely the stn hrd w/fair signals 2200 thru 2300 10/6 w/classical mx. Fades nicely at ID time. (Kenney, Calif.)

Colombia. HJDI, Duitama, here ex-1030; gives full TODELAR and local ID at s/off 2250 daily. Announces 10 kw. (Godwin, Colo., WIDX)
China. Peking S7 at 0517 10/7. (Allen, Calif.) Noted w/gal in oriental language.

October

10/8 China. Peking S7 at 0517 10/7. (Allen, Calif.) Noted w/gal in oriental language.

0557 9/28. (Kenney, Calif.) Peking was actually S8-9 at 0800 NN 10/2 in JJ. (835 was about S5 w/chinese programming at the time) (Reynolds, Calif.)

Hawaii. KUHA w/fair signal at 0245 10/8; plays lots of Hawaiian mx. QRM from Brazilian. (Kenney, Calif.)

1045 Unid SS. Shouting and talk in SS followed by pop mx 0010-0015; not very good.

1050 East Germany. Radio DDR-1 (Schul) noted wandering on this freq in Europe. (ARC)

1055 Argentina/Colombia. LRT. R. El Mundo hrd atop much SS QRM at 0430 MM 10/9 w/ clear El Mundo ID. Also some Jap QRM. Soon faded out. Leaving HJCG, R. Santa Fe coming through. (Reynolds, Calif.)

1100 Japan. JGB. Sendai in good at 0427 MM 10/9 w/little SS audio under. (Reynolds) Mexico. XEBC, "The 50,000 watt voice of the western Americas, over Los Angeles," ID at 2359 10/8 after "La Hora Nacional", then EE gospel trash. Much stronger than usual - beam modification? (Hauser, N.M.)

1105 Columbia. HJAT. R. Reloj loud at 0424 10/9 w/lots of SS QRM on freq; had to tune down to about 1099 to get them clear. (Reynolds, Calif.)

1110 New Zealand. 32B, Christchurch. DJ show 1040 10/9; good. (Wood, Hawaii)

1115 Panama. HOS25, R. Minutra in at 0415 10/9 w/ID. Bad 1110 splash here. (Reynolds, Calif.) In fair 0048 10/4. (DeLorenzo, Mass.)

1120 China. After usual Russian programs over, goes into Chinese; noted w/play 10/9 0830. Very loud. (Wood, Hawaii)

1130 Hawaii. KLE. Kailua found here at 0300 w/mx; surprising signal for 1 kw; atop CNX at times. Looped CNX anyway. (Kenney, Calif.)

1135 Canary Islands. ECS24, R. Atlantico, Las Palmas hrd on this freq in Europe. (ARC) Colombia. HJAC, Emissoras Riobam quite good at times in the early evenings around 2100-2200. (Kenney, Calif.)

1140 Unid SS. Strn in and out here a few times, is this an HJ? (Freeman, Calif.) Above.

1145 Philippines. VQA noted in Vietnamese 0735, very good. (Wood, Hawaii)

1150 Swan Island. R. Americas hrd 2243 10/6. (Allen, Calif.)

1178 Ryukyu Islands. VQA Okinawa noted 0731 9/28 w/man in Chinese. Fair signals.

Lots of QRM. (Kenney, Calif.)

1180 Mexico. XEFR all alone w/US R&R hits in SS, 0030 10/1. (DeLorenzo, Mass.) Running past 0230 on 10/1; are they AN? Nice signal and good ID's but not needed. (Freeman, Calif.)

Dominican Republic. HIBE w/R. Mail ID 1825 on 10/3; good signal. (DeLorenzo, Ma.)

1195 Lesotho. R. Lesotho, P.O. Box 353, Maseru, Kingdom of Lesotho came on the air w/test transmission on 9/24 on a new freq of 1196 using 2 kw; not hrd since. (Minby, South Africa, SCDX)

1210 Hawaii. KZOC. Honolulu faded in around 0940 on 10/9 w/JJ programming. Only EE is ID on the half-hour. Weak and LA QRM. (Kenney, Calif.)

1215 China. Peking Foreign Service in Hindi is on this channel. (ARC)

1220 China. Chengtu, later f/in seems to indicate this is more Western location, political talk 0738; very good. (Wood, Hawaii)

1230 Australia. 2NC, Newcastle, N.S.W. ABC // many others 0500. (Wood, Hawaii)

1250 Atlantic. Russia. Peterson's 6 note horn IS is Moscow's "Radio Station of Peace and Progress"; IS consists of two groups of rising three notes on horn, and the broadcasts are in Chinese. Alternates with regular R. Moscow programming. Second only to 1040 in strength here. (Wood, Hawaii)

1280 China. Hotel, first noted 9/23; several times since. (Wood, Hawaii)

1322 Colombia. HJCG weak but clear 0015-0011 10/8. (DeLorenzo, Mass.)
1325 Unid SS. Separable from HJHY w/lively mx 0019 on 10/8. (DeLorenzo, Mass.)
**1329A Mexico. Last week's unid is XEAI, Saltillo, Coah., tuned 10/10 0040-0104 s/off; nomially 1330 and listed as only 100 watts night power. Maybe more like 1329.4 wish I had a pitch pipe or a piano handy. (Hauzer, N.M.)
1330 China. CJKT 1st Program; opera 0545. (Wood, Hawaii)
1340 China. Kunning, Peking Foreign Service (so listed). Chinese 0500, EE to SEA noted by 0740. Good. (Wood, Hawaii)
**1353 Brazil. Unid Brazilian being hrd in Europe on this freq around 2115. (ARC)
1370 Nicaragua. YNX hrd w/weak signals from Esteli w/only 1 kw at 0013. (Montefusco)
1376 Asiatic Russia. Vladivostok coming through quite well w/woman in Russian 0515 10/9. (Reynolds, Calif.)
1380 Hawaii. KPOI noted 0300 w/"kpoi news" (yes, it's pronounceable), followed by R&R. (Kenney, Calif.)
1394 Unid TA. English programming by man and woman announcers hrd 10/15; at 1930, "This concludes our broadcast from -- --" (Kane, Mass.) Very strong stn hrd signing on nightly at 0100 w/IS; language definitely German. Report sent to Graz, Austria. Both Tirana stns - 1088 and 1214 audible at this time and not //1394. (Conrad, Ky.) Randy, Tirana has a high power transmitter on this freq and EE is sked 1900-1930, so very likely them. Jerry, Tirana sked shows GG 0030-0100, then FF. Tirana's always hrd here. (Ed)
**1396 China. Strong in Mandarin 0833 on 9/19. (Peterson, Hong Kong, IRCA)
**1404 Clandestine. R. Libertad has been hrd back on this old freq w/weak signals in Puerto Rico according to NNRC. On good SA nights, we can detect an extremely weak carrier on this freq, just at the limits of detection and too weak for DF. Caribbean members, please check this one out. (Ed)
1400 Nicaragua. YNX. R. Equis hrd w/fair signals at 2032. (Montefusco, Conn.)
**1417 Unid Russian. Russian being hrd on this channel is thought to be Riga. (ARC)
1420 Hawaii. KCCN noted 0330 10/9 w/Hawaiian mx. Lots of QRN. (Kenney, Calif.)
1424 China. Chengtu relay of Peking, clear CJKT ID by female 0515. (Wood, Hawaii)
1425 Mexico. XEXX, Tijuana, B.C. Female DJ show to 0800, then man. Very good 10/9. (Wood, Hawaii)
**1434 Cambodia. Phnom-Penh is now running 120 kw here. (ARC)
1440 Marshall Islands. WSZO, Majuro, always most regulr (though not loudest) non-Hawaiian stn. In EE mostly, but Marshallsean noted. EE accent except in canned shows. (W'll, they're accent too, but then it is a U.S. accent.) (Wood)
** Dominican Republic. HIAR; R. Aeropuerto is a new name for R. Ronda, Santo Domingo since 9/15. There is also a complete change w/new studios at Punta Cauedo's airport to be used for interviewing incoming personalities on arriving, flight traffic and providing mx to the whole airport. Another studio to open at the capital. Transmitter will stay at the same place. (Objfo, D.R., WIDXA)
1450 Japan. JOKF, Takamatsu, quite good by 0530. (Wood, Hawaii)
** Dominican Republic. HIAR, R. Saloe, changed name to Cndas del Cibao. (Objfo)
HIAR, R. San Cristobal, new address is Avenida Libertad 15, San Cristobal. Hrd once announcing "musica hasta las 3" on a Sunday 0540. This is not currently done by this station, only Sat. - Sun. evenings. (Objfo, D.R., WIDXA)
1460 Japan. JOKF, Sapporo, mx in JJ 0800. Some splatter KUMU-1500 less than ½ mile from my location and NSP 7. (Wood, Hawaii)
1465 Haiti. Unid Haitian stn s/off 2227 w/NA; supposed to be Le Voix du Nord, 4VEA, on 9/9. (Objfo, D.R., WIDXA)
1466 Monaco. Monte Carlo weak in FF 0031 10/4. (DeLorenzo, Mass.)
**1475 Uruguay. CX147, R. Montevideo is now on this channel. (ARC)
** Asiatic Russia. Vladivostok hrd w/JJ, fading badly. Kremlin chimes loud and clear 0530 MM 10/9. (Reynolds, Calif.)
1484 Unid TA. Weak mx noted thru strong het 1726, quick fade. (DeLorenzo, Mass.)
BBC usually dominant here at that time, Marc. (Ed)
1520 Uruguay. CX152, R. Cerro Largo s/off time is 2300. (ARC)
**1530 Hong Kong. Radio Hong Kong is now 10 kw on this channel. (NZXDT)
**1540 Colombia. HJBR, R. Cenova, Turbo back here from 1553. (Silvera, Jamaica, WIDXA)
1550 Australia. 4QD presumed the Australian in and out w/CBE but just below the level for content copy. Still need report to this one. (Freema, Calif.)
Domestic DX Digest
October 21, 1957

A

560 UnID

Football game between "Jasper and Sylvia", s/off at 00:154 10/14, immediately after game. (Ron Ponka, Centerline, Mich.)

690 KUSD-S.D.

790 KCHL-Mont.

Hrd f/c 5/9 01:20-01:30 QRMing KSML. (Dave Bennett, Richmond, B.C.) Is that supposed to be 5/9, Dave? (uk)

850 CJJC-B.C.

Hrd s/off 01:15 approx., runs OC only afterward. (Bennett)

860 CPFR-B.C.

Hrd s/off 01:10. (Bennett, B.C.)

970 WIBR-N.Y.

L&C at 01:02 s/off SM 10/9. (Marc DeLorenzo, Hyannis, Mass.)

1240 WMMR-Fla.

Hrd TT 10/11 thru WKDA-AN from 02:57-02:03½. (Johanns, N.Y.)

1450 WILM-Del.

S-7 w/TT 02:01-02:10 SM 10/8, PoP audio measurement test, per verie. (DeLorenzo, Mass.)

1460 WBUC-WVa.

TT/wx/wr hrd 01:34-02:34 10/14. (Johanns, N.Y.)

*** For Sale: Eleven high-quality AM transmitters. 9 watts output, with crystals for 650 kc. Four years old, excellent condition, commercially built. Original cost: $130 each. Best offer, individual units or lot. Contact Don Kapien, WERS (Brandeis), 415 South Street, Waltham, Mass. 02154 -- (617-891-4625). These transmitters are very well suited for all experimentation...see the note below on WERS, and thanks to the Admiral for this tip. (rk)
October 21, 1967

(Sunset s/off s and DX until midnight)

| S/off 23:05 9/30. (Wheeler, Pa.) |
| S/off 17:59 10/10. (Ponke, Mich.) |
| S/off 18:00 10/9, about 30 seconds after W3OC, barely readable. (Brauner, Pa.) |
| S/off 18:00 10/9 thru WSAL. (Brauner, Pa.) |
| S/off 23:00 10/1. (Wheeler, Pa.) |

I is 1/4 kW with s/off at 22:04 w/SSB. (Paul Montefusco, Norwalk, Conn.)

Wrd r/c 23:17 10/5. (10/5) (Wheeler, Pa.)

All alone but weak at 17:43 s/off, 10/10. (DeLorenzo, Mass.)

W/off 17:29 10/10, was in FT until then. (rk)

Dominant on channel at 18:15 s/off, 10/11. (Marc)

Loud at 18:00 s/off, 10/10. (DeLorenzo, Mass.)

S/off 19:30 10/7, rr. (Ponke, Mich.)

"The Panhandle's favorite station" L&C at 18:14 s/off, 10/11. (DeLorenzo, Mass.)

On top at 17:59 s/off, 10/11. (DeLorenzo, Mass.)

W/off 19:05 10/7, rr. (Ponke, Mich.)

S/off 19:00 10/7. (Ponke, Mich.)

QRA is Shelbyville, but the taped ID's sound like "WORJ". Don't tell me I have Ralphie's beans in my ears? (DeLorenzo, Mass.) As far as we know, this is still WLIJ... and stop picking on Ralphie's bean

S/off 18:59 10/7, no SSB. (Ponke, Mich.)

(Schedules)

AN-7: haven't hrd them off for months. (Bennett, BC)

AN-7, has adopted a new "psychedelic" sound—yecch! (Bennett, B.C.) WWWWhhhhhyyyy yyyrre——-ccccciiiihhhh

???????? ((((VvWk))))

(Brandelis, Waltham) Is now off the air, with no plans to return. They are readying a new FM xmt (91.7 mo), which is half built. (Gordon Nelson, Watertown, Mass.)

AN-6, off Tues AMs, has approval for 50 kW. (Bennett, B.C.)

Off MMs only, hard rock stn. (Bennett, B.C.)

Off MMs. (Bennett)

04:30-00:00, hrd 10/13 s/on. (Ralphie)

Carries CBC after midnight and 00 MM. (Bennett)

05:00-23:00, hrd s/on 10/2, s/off 10/l. (Wheeler, Pa)

AN-t, has not been off in 2 yrs. (Bennett, B.C.)

AN-6, off MM. (Bennett)

NSP. (Bennett, B.C.)

AN-7 w/00 MM. (Bennett, B.C.)

AN-7, //CBU. (Bennett)

AN-7 w/50 kW now. (Bennett, B.C.)

AN-6, off MM. Has-changed recently to a pop mx form at, rather than all rr. (Bennett)

I previously reported KYXI as HI AN—this is in error. They have dropped HI are AN w/"good" mx. (Mik Northam, Beaverton, Ore.)

OCT sked: 07:00-18:00. Has v/q. (Jonahs, N.Y.)

That's all there is—73, randy
