KNEI, a station which does not have a regular frequency check, will present a 15-minute Frequency Measurement Test for the
NRC boys on the above date. There will be QRM from all-night WRVA, but they plan to use a 1000-cycle tone for
the 15-minute test, which we hope will pierce the QRM interference. KNEI stands for North East Iowa.

This station began regular programming in June 1967, and very, very few have logged the station to date. 
All
reports to Mr. C.E. Schultz, Chief Engineer, KNEI, Waukon, Iowa. Len Kruse, who arranged the test, visited
the studio-transmitter site in Waukon, and reports the station has fine layout. So plan on listening to the
KNEI test, and send them lots of NRC-quality reports. (Len Kruse)

WCAS, another station with no regular frequency check, will give NRCers an opportunity to find out how good
their reception-reporting style is ... because publisher John Callaman is the Voice Signer. The station covers
Watertown, Cambridge, Arlington, Somerville, and Belmont, and the four first communities give the call letters.
Program material will be similar to last year's WRVA test, described by one reporter as "subversive," and some
thing like what you'd expect from "Bad News of the Air." (Arr. by Rex Irace)

WCVL reports to Mr. Alex Vajda, Asst. CE, WCVL, 161 East Main Street, Crawfordsville, Indiana 47933.
Their basic pattern is NW/SE w/remover lobe SE, protecting CBE-1550, and KXEL-1540, with four towers. Program
content is not specified, but wann probably be musical entertainment with frequent IDs. They want reports
even include return postage. (Amie Cooper)

WSNY will be conducting a test for the NRC at the above dates. WSNY is a Class IV station and has
a maximum power of 1 kw. Reports should go to Mr. Gerald A. Parmer, Chief Engineer, WSNY Radio, 144 Lafayette
St., Schenectady, N.Y. 12305. Like all "graveyard" channels, this one will be crowded, but some who would not
otherwise hear the station will now have a chance. (Joe Skucewski)

LAST OF THE WEEKLIES...
that's this one, and "it's always a sad time ... at least for those on the other side of the mailing route!
We'll be back in two weeks, then on a schedule provided next issue by Amie Cooper (who is directed to steer
clear from the dates July 13, 20, and 27th.) Amie would anger a newcomer to my family if one of those dates
were chosen.

PUBLISHING CREW...
As we come to the end of the weeklies, I feel I must take time to doss my hat to the gentlemen who have provided
the labor to get the bulletin out. Stan Nusiek has begun his spring planting, and won't be available till the next
snowfall, but between those dates, he was here every week. Roy Moore joined the crew last winter and has not
missed a bulletin since. Randy Kane was ill one week and thus missed his only publishing session since April 1,
1967. Gordon Nelson has been to almost all of them ... these two in addition to providing their ink-speckled
sections. Phil Sullivan has driven from Leominster almost every week since his move to Massachusetts, a drive
of over 40 miles on one-way through twisty roads, heavy traffic, and many stoplights. Barton Cronin, exhausted
by the lively programming and heavy spot schedule, has still found time to side in publishing. John Firmat, a
student at Boston College, has sided between study sessions. Ralph Vatalaro was one of the early helpers, but
got left out when we switched to a night he had to work ... and Mike McLean was consistent until transportation
became a problem. Patient wives Ruth Nelson and Dorothy Moore are owed thanks ... and we can't forget Mr. and
Mrs. Tom Holmes ... who do the envelopes and aide in the collation and stuffing. And a special thanks to the
guy who cleans up the mailroom and the bear cats, Rob Enrochevik. We all owe these guys a load of thanks!

**DX NEWS**

April 13, 1968
EDITOR: ERNEST R. COOPER - 438 EAST 21 STREET - BROOKLYN, NEW YORK - 11226

NEXT DEADLINE: TUESDAY, APRIL 23rd. THIRTY LINE LIMIT - PLEASE DOUBLE SPACE.

Chris Lucas - Box 411 - Clement 5 - PRI Dorms - Troy, New York - 12181.

Well, now it's back to nine more weeks of studying here at PRI, but I managed a few
loggings at home in Fairfield, Conn, during vacation. 3/26/85 - CHIR-730 C/CK6A at 21:17
pm, very good for 250w; WHM-1110 Pa., 8:30pm on top channel. 3/27/85 - WYLD-940 La.
@ 2103m o/u WINZ w/R&B. 3/29 - CHSC-1200 Ont. @ 15:05am, well on top of channel,
great signal for 500w. Also noted was college WVOF-900 from Fairfield, U. quite
strong, well o/WF1N daytime, & about even w/CMD at night w/low frequency net.
They are about a mile away. Up in Troy, before I left for vacation, I noted college
WHVC-1800A CF from Hudson Valley Community College (Troy) a few miles away. They
were heard on transistor RX causing approximately a 500w, net w/whether WTVM-1600 or WFR
WHVC-1900. I brought good RX (HE-30) up with me to PRI today, but no sign of WHVC
now. I wonder why low powered stations such as CHIR-730 CHOW-1470 & CHSC-1200 have
good nighttime signals in S. Conn, while some higher powered ones in the same area
such as CKTR-610 CJOR-1290 & CKSH-1410 have never been heard by me, & can be consid-
 ered as good catches? (It's all in the frequency & antenna patterns -PHC) I found a
copy of the 4/24/80 World DX-Alliance Bulletin among some tapes & junk WPRI got
from WHAZ. It makes very interesting reading, & I note NWCer Bernie Duffy was a mem-
ber back then. Local WPRI was just beginning in 1980, being logged by many WOXXers
on 950k. I'll try some DXing here in Troy during next couple of months, but time
will be scarce. 73 & good DX to all.

Lon J. Beerman - 1511 Disman Lane - East Meadow, New York - 11554.

Hi y'all! I haven't had too much time to DX these past couple of weeks, but I
thought I'd send in what I had anyway to keep active in the Club. The only new sta-
tions heard was WHIM-1460 Portsmouth, Va, which was noted atop the channel on 3/31
w/NX &WX at 12-12:05pm, followed by R&B mx. They call themselves the "Swinginestest
station in Tidewater-Town." At SSS, several umns were noted, among them WPCG-1570
Pa., which s/off 6:15, WARE-1150 Va. which s/off 6:28, & FVS-800 Va. which w/off @
6:15. One vari received this week, that a card from CHSC-1200 Ont. An extremely
usual advertisement was noted in this week's TV Guide. It consisted only of vari-
cious radio stations, & times, & the name of H.J.Hunt Products. Under the (reasonable)
assumption that ads for Hunt's would be heard at those times, here is the list: XBG-
1050, Midnight & 8:45pm; WWL-870 12:15am; WPAS-1260 5:15am; WNNJ-620 5:45am; WFWO-
1330 6am; WVOX-1460 6:15am; WBA2-1300 12:45pm, WOLL-1290 6:15 & 11:15pm, Wold-
1450 7:15pm, & WTMM-920 7:15pm. So if you hear Hunt's ads at those times, it is a fairly
safe bet that you've snagged one of the above. Until next time, remember, c/w is
TEEN mx. LXXXIII. So I'm not the only one who does cl & c/w mx, hi!

I guess I'm past due for another column, so here goes. DX has been not too bad, even
though CX have not been the best. Recent DX: 3/12 - CHOK-1070 on DX 1-1:30m.m.
3/12 - WAXX-970 TEST very weak, not enough for a report. 3/18 - A wastag on the TESTs
however I did hear KIMN-950 Col. @ 3:10-3:30pm, then @ 5:40-6:10am, CHSC-1200 in
the clear. 3/25 - WBEN-330 heard well but tun. The SD TESTs were no go here. CKKE-1460
in w/air signals for 3-3:30 DX. 3/25 - WFOX-1330 even w/WHQ @ 4-4:15am. Recent
veries: v/q - KIMN-950. CHSC-1200 CHOK-1070 CKTF-610 WJW-850 WOR-920 KOA-850 for 12/11
DX. v/1 - KIMN-1300-TEST WHJL-1310 WL0-1310 WOCH-1730-TEST CHRIF-680. v/r -
WORB-1470 WDKB-1470 WEOH-1300 & local WOTT 1140 after five tries. WNYC-1480
heard on test 2/19 @ 11:30-1:30, varied by initialing & returning my WFE swap card
sent w/report. For 16', my returns were 82% on first try. F/ups came back about 90%
then w/FCCs I raised my returns to 95%. Some of these veries are not really worth
much as a verification however. In regard to Jerry Starr's comment, I think a sta-
tions heard, homer roll is a good idea, also I wonder if anyone has ever tried to com-
pile a list of stations that verify only if they get a FCC? I guess that's my 2c
worth (or is it 5c?) for this time. 73 & good DX to all.

Ralph Johannes - Buffalo, New York - 14203.

Randall L. Kane was the MHS winner (among 900 Jr. & Sr) of a major NK magazine's
annual current affairs contest; his picture & write-up appeared in the Medford paper,
so congrats, RE. BG magazine mentioned KTW-Pa. 'Importing' an ex-CHF/CHUM man as NK
helper & J.H. Erwin of XLO is now GM of KOMA-Okla. New calls: EMLO Vista Cal. (P.4)
Hi all! Not very much going on here this season on the DXing front. No new stations popped up since way back in Dec. & Jan. This report is to give you an idea of what is happening in the DXing area. Let's start with local stations.

Hagerstown Md., WARK-1480 1,000/250, programs mostly MoR mx during the day w/some Top 40 at night (Most of the AN program is Top 40 w/some c/w from 4:45am w/CBS Net, AN except Sats, WUBJ-1240 1,000/250, programs mostly MoR mx w/sats after 6pm w/MIB & a few ABC net programs, s/off 12:45am). Hallow. Md., WHAG-1410 1,000 D-3 (to North) Up-Most MoR, NX at top of the hour, is on 6am till 7am w/460w., then lines till SSS. Martinsburg, WVa., WEPH-1340 1,000/250 Non-DX format w/standard mx, w/MIB, s/off 12:45am. Waynesbor., PA. WATZ-1380 1,000 D-1, mostly MoR mx w/Top 40 after 3:30pm. Chambersburg, PA. WCGT-1550 5,000/1,000 U-2, directional S at night "All Star Radio" All Top 40 except for three hours c/w w/MIB net 5:30am till 7am. WCRH-1400 1,000 D-1 Up-Tempo MoR w/some Top 40 afternoons. All stations listed should QSL w/postage. Good luck to all this SUMMER & Remember, "FLICK LIVES."

Bill Stone - R.R.2 - Clarmont, Ontario
3/25- CKRE-1460 DX in fair, heavy O&N from WWY off frequency. WWY f/c-mx IDs & TT. KFCB-1330 sent CX of frequency report - organ mx, second station steady TT, ID heard on either. CHCO on organ mx (only nine miles S of me) covered 1330 4:11on. 4:35-4:45 WMX DX, can't say, HNL very heavy. 3/28- 2:10-2:20, station using steady TT u/KEW, never got ID. 3:15-3:30, steady TT on 1540 u/KX, s/KEP, ID @ 3:23. WFBJ - all he gave was call letters, nothing more. 3/31- Strong TTs u/WHK 12:30-2am, never gave one ID in 1/2 hour period. 1700 station using TT 2:03 on, no ID to 2:33. 4/1-115-2:04, WPHN-1560 ET, not going to get much DX this AM, overcast sky, strong N wind 23-25, band noisy, Unk-1520, no ID, steady TT 2-3am. 950, 4am on, steady TT on frequency, no ID heard. Be comments by Hauser - it always surprises me no end how you young guys get into a unit & want to change it - good old American way.

Richard Nall - 606 North Hite Avenue - Louisville, Kentucky - 40206

I haven't missed a while, so here I am. Recently I have gotten a new RX, thanks in part to Wg. Boyd, who told me I could look for used RXs in local supply houses, & it worked. I bought an EQ-123A in good condition for $140. I am very happy with it. My latest verities are: YSF-65S by v/1, JBG-75C v/c (only 12 days) WIKO & WDAK by v/c, WSGC v/1, plus a few others. My DX totals are 290/228, 33/33 states, 16/16 countries 4/4 provinces. I also recently purchased a timer. Now I can turn my RX & recorder on early in the AM & DX while asleep. Last Mm 4/1 I logged the following: KKA1 2:50-3:00am s/off w/o QRM & good signal, CFA WINS WINS (no QRM) & WGRV-1430 5am s/off. On MM, is WABC off 12-3am? I'd like to try for RR-770 if WABC is off MM. I'll correspond w/anyone who wants to. 73s & good DX. (WABC off about 1:30-3:45 MM, but Jamaica is not during those times anyway, Richard -ERC)

Jeff H. Rose - 125-12 Gravensteen Avenue - Rockaway Park, New York - 11694

Ernie, I hope this mailing reaches you, hi. (It did, obviously, hi -ERC) Not much DX here but I guess this will help the Mailing Section. 3/1- CJSR-1220 07m. 3/4 - WIND-920 NY @ 5:57pm. 3/3- WOKY-920 Wis. @ 6:16pm c/u WAMN WVA, unm. 3/13- (P. 50
April 13, 1968

(Re Ross) WWMD-930 Md. 5:39 pm, CKFC-1360 Ont. 9:10 pm. 3/15- WWEB-620 Ma. 11:15 pm. Veries: v/FF: WWEB, v/q WSOO WOKY FNIN WLBZ /CM. Glad to be in touch w/Bill A. again. 

Father John Peja - Village Preparatory School - Ojai, California 93023

The Los Angeles Times reported on 3/20 that XETRA-890 would abandon its all-NX format on 4/21 because of the new all-NX format of KFIW-930 & 80% NX format of KXK-1070.

XETRA will have an all-NX format, fully automated, like KPOH-1540. Most of my loggings this past week have been of regular: KUZ-800, Bakersfield; KTEX-1310 Taft; KUTY-1470, Palmdale; Kodon Salinas; KSOM-1510, Ontario; KFAT-1400, Berkeley; KSTB-1420 Stockton, all in Calif., & KBBM-1400 Henderson, Nev. Times & dates, if anyone wants them. Other loggings: KRLD-1060, Dallas; 3:05 EST on 3/25; KORL-850 Honolulu 3/26 3/25 w/WSM off, the IRCA testing on KFCX-1380, Redford, SD @ 4am 3/25 w/KFO; KPIK-1110 Omaha & KFO-1110 Roseville, Cal., both w/semi-local KRKA, Pasadena @ 2:45am on 3/26; KXIV-1070 Phoenix w/KFMI & 3:40am on 3/30; KNUN-1410 Vancouver on 3/30 & 4:30; tentative KCCN-1410 and 4:45 on 3/30 w/KSTN. Veries received: v,q- KAFY-850 WBZ-1050 KPJR-1430 KGB-1140 KFAX-580. v/f- KOKA-1140, v/f- WSB-750. Wilbur Fattig, CE of WSB, is interested in tapes of QRM of KXK Portland, Ore. w/WSB. He is starting a study of propagation in a N/S path, since all ECC data is E/N path data. 73.

Greetings from downtown Greenbrae. Some nice DX this MM, but like before, nothing earth-shaking, not even VOAES. This morning's entertainment started w/an unID station on 610 which turned out to be WDAF way w/EGSM. KFRC (bless their hearts) left the air, something they rarely do on NX. Thet's, some little number on 620 who refused to ID. (Well, actually they did ID, I just couldn't get the call, hi). Sounds like K7? but I assume it was CKCK in Regina. They had an rr format. Anybody know? Then I decided to check the CX on 950 for KMER TEST. Hello! KXN is coming in 3-10. Oh well, they were running that Heartbeat program, so I decided to stick around for a few laughs. It wasn't so funny when they decided to stay on the air after 3am. hi.

However, I could hear enough KMER TEST to log, for my second Wyomingian (?). Between performances of H.T., however, I managed to catch KSTN-1770 testing @ 4:33, KFAL-1450 was coming in pretty well for a good logging @ 4:50. I got another of my famous unIDs on 1370. They headed in w/a pop song, then a clo one. At 5:45, the KXKA-1550 s/on @ only 50% read. I tuned back to 950 @ about 6am & started to log a station w/t other population. Ag, report, "Ortho-Gro" ad, then c/a song, but then local KAEI-960 started testing & wiped the signal out, anybody know bo? I got my first KC station @ 5:10, WHX, with Full Power NX. Then I decided to leave tape recorder running on 1220 for two hours while I slept, hi. Before I hit the sack, I heard some NX (unID, of course) & an SSB @ 6:30. Please help me on this one! Verie-wise, not so good, w/v/f from KETY-1220, WHE-580 (nice directional pattern there). KFAM-740, the Big Bem in the South. I read Fish's Musings w/interest, but I can't say I think his idea would work. What if you were supposed to DX a frequency that had a local NSFPer? And the various radio stations would be flooded w/reports, which wouldn't help much. Otherwise, I think it would be great for frequencies like 540 730 1430 1470 1350 1220 etc. Hey, does anybody ever get these graveyard tests? Nobody ever seems to report them. How about running some tests on those little stations daytimng on the clear channel frequencies like WFM WWUF WUST, etc. while the big one is off? I wish somebody would also like the Eastern s/on/Western s/off's would write me. I've got lots of goodies info-wise. Nobody seems to believe that VOAR is possible - I've gotten KDEN, almost as far away. Well 73'ses, & good DX.

Roy B. Millar - Box 851 - Everett, Washington - 98201

March loggings totaled eight; very six. By date: 3/3- KOKO-1450 Lakewood Center Wash, (ex-KFHA/KAYG) ID 1pm, a poor signal here. 3/4- KSOL-1450 San Francisco (ex-KSAN) s/off 3:45pm; CBU LPRT-1450 s/off 4:05am, logged as CBXH, Cooper Creek, CO, as only such LPRT on this channel. 3/6- WWNY-1270 Bismarck Fls. s/off 5氨. 3/9- KEMD-1590 Seattle (ex-KETO/KTIX) ID 5:50pm. 3/12- CBXG-850 Banff, Alta. LPRT relay of CRB s/on@ 7:59am for my fourth most distant FPRT at about 355 miles. 3/15- KMRK-1270 Sioux Falls SD s/on 2am. 3/16- WIXY-1280 Cleveland ID @ 5:29pm briefly atop all, rather close to another 5kw, which was also heard, WWYN, Erie, Pa., it appears to me). Also, but not a new logging, EWNY's TEST on 1260 was easy here & reported as unverified. Veries: 40D-1150 (#54 on 1500 & #52 from Australia), CBXH-1450 (letter confirming location & fact obly CBU LPRT on the channel considered as verie in light of fact CBU no longer issuing v/q's for LPRTs), KOML-1490 (Fox 4100, South Lake Tahoe Calif. 95730)(P. S)
It's certainly interesting to see this "Founding Father of the IRE" quoted on the front page of the 3/23 issue. JAC was certainly right in mentioning it was piecemeal! Anyway, JAC, there were probably just as many NRCers in those days interested in "destroying the IRE." It was my intent in the proposal at that time to settle the differences by going into a joint CPC. If you will recall, the contest between clubs was adopted so I don't buy your reasoning on nothing by the NRC of the joint CPC at that time. I still think the joint CPC is a must! Continuing the comment on quoting of "the same writer" in regards to the AMARC, I still don't feel the need to subsidize the AMARC financially over & above the dues. The IRE has run many projects with directions by members & not agreements. Granted, the poor reports committee & the vericard committee are doing a great job but the same type project could be run through co-operation of BCB clubs & not w/a bunker club that is oriented towards SWLing. Nuff said except that I don't feel it is the prerogative of the NRC Editor to quote reports of DXers on the front page of the bulletin. Ind that's where I wanted it, I would have written in on it. At least my name could be identified instead of making me sound like some mysterious unknown! Veris in this season included: KCKC-955 KIJK-850 KXBR-1110 KQMM-1060 KVEC-890 KX5-1460 WBF-1324 WYER-890 KAV-1430 YVQ-910 XBR-1290 XBM-1340 CTDA-1220 KMM-1430 YSC-1015 KBBM-1100 WAPI-1070 KEDM-1190 KXBR-1220 KNSD-1590. Total nov 2,321. 73. (Bill, who is v/s for your KJIK? Two unconfirmed reports from me -ERC)

McAllen in '69! Y'all come! Although we are asking you to let us be your hosts next year, we selected McAllen as the site of the "Houston Convention" for a number of reasons. McAllen is "The City of Palms" and "Gateway to Mexico" & their Chamber of Commerce has pledged full support to make it an eventful Convention. KRIO has indicated interest in sponsoring a tour of their facilities & equal interest is expected from one or two of the stations across the Rio Grande. As, from the few Mexican stations I've been in I can assure you, you will find the operation of great interest. We have an offer of a short program detailing the unusual experiences of some of the ham operators in the area during Hurricane Beulah's smashing blow through the Rio Grande Valley when amateur radio was their only link with the outside world. Of general interest to all, we think this would be a highly interesting story and of particular interest to BCBers who are themselves ham operators or have an interest in this or CB. As you know, there has been considerable discussion of two Conventions on each coast each year. We're suggesting with our bid that with the location relatively centralized a joint Convention would be twice the fun of isolated Conventions and afford the opportunity to meet members of both clubs and get to know each other better. We're also hopeful that the Labor Day weekend dates of the past can be discarded this time and hold the Convention a week or two earlier in August in order that students, etc. can attend without concern of school starting. And, with the proximity of our Convention tours to XEO (a couple of hours away) or to the interior of Mexico, "The land so near - yet so foreign." We would appreciate your thoughts & comments. Drop us a card - it could help us immensely to tailor a Convention for you.

Fish - 3039 South - Lincoln, Nebraska - 68502.

Concerning Project Whatcheiser? (DX NEWS Issue #25) First - someone surely can think of a better name? Second, I'd think the idea may be appealing to many NRC DXers and thus would provide some interesting & quite possibly valuable tips. Third - (P. 7 )
April 13, 1968

(Dave Fischer) I'd hope that it would become a part of DX NEWS! And hence a part of a fellow's DXing. "For the week. Fourth- I don't think a need exists to "compile & report" results (e.g., a separate mailing to a "Whatchahear Editor"). Reports can be stated right along w/regular Marinas, DDXD, IDXK etc. Indeed, it is hoped that each of these sections might benefit from Whatchahear? participants. Fifth- The idea is a form of "simultaneous listening" although over a rather long time base - usually a week. In fact, the idea, in part, came from reading reports on Specials, DX TESTS etc. Ever notice the "cannon stations" logged etc.? Sixth- Reports to DX NEWS would/should have a common thread in that a specific channel is reported by many (all?) & the data thus listed can be most helpful to NRO in listing AIer, EK, r/c, etc. Too, one would report his "regulars" day & night, SSS, SRS, etc. Certainly the "host logged" station could be noted by all! CPCers then arrange to work tests around this one - or if it's AN (probably is!) steal their usage, hi. Seventh- An "editor" (or whatever!) I select frequency and 3-4 stations geographically & listen. Anyone want to suggest a "favorite" channel/station, do so! All one need do in his DXing is spend a few minutes logging time at least for Whatchahear! I am certain once it's got started it could be made more interesting by stating a time period each day - although reports at any time would be just fine too! So, for the next few insures, I am requesting that ERC stick in Muskies somewhere this listing for Whatchahear. We never know until we try! Issue #26, 1330K, stations WSC~ARR-FW~KOW. Issue #27-610K - WDAF WIVW KCGG. Issue #28-1400- This should be fun? Issue #29-540 - WGNX WYLO WCGO KOWE. Issue #30-1590K - WAWX WYDI.

Wayne Blunkett - 124 John Street - Waterloo, Ontario

So far I have had two responses to my inquiry as to whom among you would be interested in a Mexican-Central American trip in Aug. or Sept. - anyone else, please drop me a line as soon as possible. A nearly two veries in the past few weeks- WCGM-1370-TEST, had about 90 reports from as far as 1900 miles; KKKO-1300, very short & uninformative. DX since late Jan. is sure not much: 1/280 Log on KLIC-910 from: 4:52-5:06 am during which plugging noisy chicks. 1/29- First of three Mks within a month: when WERE-1300 was off, so log on AN-rr WMAK-1300 from 3:50-4:05; KSL mentioning that KTVY-1200 now carries AM phone-in show; WENZ-1450 AN w/no less that three IDs in a row @ 4:28; WWOJ-1250 c/o 4:29; WERE-1300 came back on @ 4:38 w/SSB. 1/30- WMBG-960 TEST in w/good signal 2:21.5. 2/1- WTVS-1570 ET ID @ 12:13. 2/5- With: WML-550 off, just WHRC & KFJR w/30 Cuban for a change. 2/5- Although: quite noisy, KFOG-1250-TEST quite strong; KFJR-960 had a rough time w/XMU until about 3:30; WDDH-580 in the clear at 4:02. 2/12- WAHS-960 test w/run-down records: had QRM from WRCR/KEMI/KPVS, latter r/o off w/SSB @12:59; WBRC r/o ID @ 12:02, WRAC-1530 r/c & L&C w/Ids @ 1:03 & 1:06. 2/15- I took loc: on WDTQ wildly off frequency on 1565A & really blasting in (naturally no anser to report, hi.). 2/16- Als c/o-1540 @ 6:28 must be new station in Lineville - what is that? 2/19- WDCM-1440 TEST/strong for log 1:18-1:22; KKKO-1300 TEST luckily hit WERE-5 off again @ so was easily heard o/WMAC; WIVW-1300 apparently AN this MM at least: WLDX-1340 r/c ID @ 3:19; & also CNC-1340 which I would never ID now; CJOE-1250 was blasting in w/best signal ever heard @ 4am, ruvin' all chances for much-needed KOWB; WBRC-1330 c/o 4:59; KBAD heard right up to 5am when WERE came back. 2/25- WDTQ-1540 c/o off w/no answer @ 6:31. 2/26- WYNX-1150 ID ended ET @ 12:30; CCGM-980 in for rare appearance @ 12:38- in seven years! I have yet to hear them well enough for a report. WAAM-1600 s/o off 1am; CKPT/WBGR wuling 1430-this MM, two FFs on 1280 @ 1:22 co-second must have been needed CKVO. 3-3- WVO-1300 s/o off 6:45 for call change (ex-WTRO). 3-3 Local CKMO-1250 said they ET 12:01-2am MM - hadn't heard this before. 3-11- NII. 12-18- looking for KMKC-980, noted KCON ID @ 3:30. No KAWC-1260, WMLD-1280 ET only thing w/KDAR. 3/25- WAWF-930 DX real rough, hi. good log on CKED-1160-DX 3:01-3:45; WAUR-1250 r/o-rr. surprisingly strong ID from KRLD-940 @ 4am - believe ET as than TT. 30 & cut.

Erected J. Woszlawski - 12415 Pasadera Avenue - Omaha, Nebraska - 68137-411

V/8s from KECK-1530 KFCF-TEST & KCFAP: w/1,000. DX for MM 3/25- Found WAAM-1600 on for ET @ 3:39-2:55 c/KLAC/KAIZ. SM 3:31 a report to KFRI-1040 c/o @ 7:31. April Fool's Day was not a fool for WZRA-1250 for a new station for me. RS & AN. DX fun will be found August 16-18 in the Heart of the Nation, here in Omaha for the ANARC Convention. Won't you join Richard Wood & Walt Evereille? 73...

April 13, 1968

Very little DXing done during the past several months, but W/ER/1's plea for more Musings, I thought I'd contribute anyhow. Latest catches since the end of Feb. include KOMM-1430 Escalante, Cal. on All c/v show (off M/ems per v/1); KJLO-1240, Ridgecrest, Cal., on 9am on SM; KHSB-1360 Hemet, Cal. 9:25 SM 2/25; KWRC-540 on TEST 3/18; KCAF-1340 on test 3/18; KGHL-790 Bellingham, Wash. ET ending @ 4:30 on 3/18; KGHS-1450 Red Lodge, Mont. testing on 3/25 & KPXJ-1430 Palm Springs, running till 5am on M/4 1/1 telephone talk show. (*verified). Other recent verities include KSOL-1410 San Francisco, KHEQ-1200 Paradise, Cal., KVEN-1450 Ventura, Cal., KSYC-1490 Yreka, Cal.; KHH-1250 Twentynine Palms, Cal.; KCHV-970 Coachella, Cal.; KDOE-910 El Cajon, Cal.; KGBA-1450 Santa Maria, Cal.; KSUE-1240 Susanville, Cal.; & KGSM-1400 Redding, Cal. As is obvious, I have been concentrating on television stations & now have some 129 verifies from them. Persistent holdouts continue to be KGHL-1010 Delano; KHEQ-1190 Vallejo; KMPG-1520 Hollister; KHFJ-500 Fresno; KGBD-900 West Covina; KJSO-1050 Wacoo; KDOL-1340 Mojave; KKEQ-1500 Burbank & KRCO1360 Ridgecrest. Any info on simlers for this area would be appreciated. That's about all the info from here - summer is in the air now & it's time to start touring the countryside again.

73,

Dick Trux - 3363 Iris place. Road. - Columbus, Ohio - 43224

Not really much DX to report, but a few short distance - never-heards have been added, mainly at SSS. 5/1- WFMH-1360 Ky. @ 7:06pn wp/WMAI ad for Whatmire Pepp't Store. WMBI-1360 Mich. @ 7:07pn wp/WJPW ad M/A. WHEN-1140 Ky. @ 7:15pm wp/off. WWSB-3420 Ky. @ 7:19pm wp/ID, then ex. 4/2- WFMH-1360 NH @ 3:57am wp/rx. SLD, w/NSPD. No sign of KOKK-970 Mont., only WSBW Pa. & WAVE Ky. Backtracking, WABC-570 NYC @ 2:55am wp/rx & WPAN-57 Tex. @ 3am wp. I'm probably the last to log these two, but W/WNBN normally on it is rough. Also noted were WTIX-690 La. @ 3:18am wp/rx w/cuban pulled down. ZFB-560 Bermuda @ 4:20am wp/gospel rx like a local; WIBB-1370 Ve. @ 7pm wp/off w/SBB; & finally caught WGRD-1410 Mich. @ 7:25pm wp/rx/WTX, wp/off @ 7:31. 4/3- WWAY-1370 NY @ 6:45pm wp/rx, then WFX w/NSPD. WJFE-1170 Wisc. @ 6:55pm wp/Lucky Land Survey. 4/4- KIWI-1170 Wisc. w/NSPD. WHEN-970 Ala. @ 7:30pm wp/off w/competition & Alabama state song. 4/5- WYTA-1380 Ky. @ 7:07pm wp/rx. Ky WHY wp/WTX. The April 1 "Bad News" supplement was too much! A Real Masterpiece! Particularly good was the Muse on top of Blue Page 5! I'm still rolling over this issue, hi. Outstanding job, fellas. I guess I'm the last to hear KMM-1070 Cal. & I still haven't. Back again in 7-73.

Hefly Blooper - 438 East 21 Street - Brooklyn, N.Y. - 11237

Verities: 4/1- WXCL-1350 & WCM- WMNC-1240. I too enjoyed the Bad News April Fool's appearance last week - I hope it was all in fun, hi. Anyway, I see bloop: 4/1- MTT-1310 2:12-2:13; no ID heard. One on 1400 also; 2:17-2:32 & on, no ID. I then first heard the news about LBJ for the first time - from the Columbia Caroel station on 750, & tuned quickly to 1010 to catch WINS & see if it were really true, & it was! WINS was AT this M/4, & always are when there's big news running. Two Caroel stations noted on 750 & 850. WBN was back on right after 3am today. 4/3. A we of WHRF-1570 u/1570 ness 6:06pm. WMBX-1570 ALWAYS wp/off @ 5pm during the Summer, so a good chance for WHRF & other 1570ers in this area from now till the end of September. Still not enough for a report, though. SM 4/7- S.S-5400 w/Murica de Es- tador Unidos" 1:26-1:45 & on, wp. Done after 2am. Ioud OC on 960 & TT-990, at 2:15. TTe on 1360 1:44 to 1:47 or so, no ID heard, & strong TTer battling WTC-1060-most of AM, w/no IDs heard. - looped towards Pittsburgh - WRF's new 50kw, maybe KFMF-1560 was making it in so softly @ 24:44am. MN 4/8- TT 1:04-1:28 heard on 1230, but I could not make out the frequent IDs, probably WMCO's r/c. On AM today were WINS-1010 KCKA-1020 WTOP-1050 & WANO-460 (daytimer) covering the tragic situation; WAMO & WAMO, a fund to help those who lost their homes in Pittsburgh fires. Upl KYMP-740 ET/OC, ID @ 2:04am. Noted AN also but w/tex were WCM-1400 & WMP-2450. Weak TT-990 away wp/CWML wp/off @ 2:13; ended @ 2:14 wp/ID which was drowned out by CHML - who was this one, WATO, maybe? I am not exactly wild about the two-letter state abbreviations some are using, & I find them confusing - I would hope the rest of you would agree. CA in DX NEWS, new for California, has always meant Central America in DX NEWS, for one example. And TX has always meant "time announcement" - not Texas. This is everything in through Monday 4/8 - I'm not sure if there will be a Postal holiday tomorrow, deadline day, Tuesday 4/9 or not in memory of Dr. Martin Luther King - all banks are closed, so this MAY be the end of Musings this issue. C U N 14.
April 13, 1968

Fidel M. Johnson - Box 99 - New York 11201

The cost of that April Foolishness (eight pages x 400 names) would've been much more useful having NRC Membership cards made; how about it, JAC? Let's have 'em.

4/12 &/or four NRC's visited me: Tho Hartloff (Nycan NY) came w/Bader, Marlon & Heinen, the latter one some 18-year-old age of 'independence'. I enjoyed Tom's visit very much. 1/1, CM WPFL-1660, Prestonburg, KY. 4/5, called from Paintsville, 41240, WSP-1450 is there & I wonder if Martin E. Meklidge is also CE there? They have FCC OK for 6am EST, then go to 5kw & they also have FM now. BG, mentions: WBP-1500 got OK for 50kw, D, 5kw. N (I means Night, dear ERC!); KREA-1410 to 1,000/500 & NBC by 5/1, w/San Mieen CH/PM. XXK LIN/TG Bg Co got KLM-610 (Hi JAC) & also LIN got WJUR-970; WABA-1450 become WAAB Inc., Seabird Bg. End. got WAWY-1350; the KAND-1340 sold to its 3M; WRAC-1450 500w sold to O'Connor & Co.; WOKE-1320 Ga. to Spedel or Ga. Inc.; WJIC-730 Mich. to three men; KHOE-1450 Cal. to three men alco; WCR-1370 & WOK-1340 Pa. sold to WNN's Owner, J.S. Bricfield Jr. WAB-1290 went to the Dover Bg. Co. WAGY-1450 Nara. (Moss Point) became WCDS; Beacon Radio Inc. (B/Winc) granted WISS. Variety Magazine mentioned Gord. McLendon's WEDR Tijuana all-NX station will be MCB, which WNN-1350 already has done. Did you get any Easter eggs, or did the bunny bite you?

Fennie Duff - 1100 Clove Road - Apt. 6H - Staten Island, New York - 11201

I'm pleased to have been able to add a few DX catches, such as, on 3/31 @ 8am, I found WHO on top of others on 1470k. CHOQ Ajax was heard having unequal battle w/ its 1390 competitor, WPL, MM 4/1, from 3am on, & Sunday 4/7 @ 6:30-6:30pm, the new WWIN Newton, Mass. easily dominated 1550k. That's their April s/off time. The only new verie was XEB's nice glazed Meyou design card - they sent it airmail, in an envelope. Those additions bring my total of Hears to 3,184, & about three-quarters of those have verified.

Len J. Beretta - 1511 Diogen Lane - East Meadow, New York - 11554

Hello y'all. No new DX, but just thought I'd Muse to let y'all know that I've passed the exam for my second class radio operator license. I hope to get a job for the Summer at a local station. One verie, WDXR-1560, FP/letter. Easter vacation coming up, so lotsa DX will be attempted in the coming week. See y'all in seven. c/w as THE nx. 73.

Dave Fischer informs us of an ad in Electronics World recently, of the National Tube Co., 1275 Study Avenue, Union, N.J. 07036. They are selling Radio and/or TV tube for 32¢ each. Or, $29 for 100. They have been supplying top/service organizations for 15 years. They are all individually boxed, branded, date & guaranteed for 1 year. They have over 2,500 types in stock. If order is under $25, add 50¢ for handling. Portage charges paid by National Tube - Canadian and foreign, send approximate portage amount - send for complete price list, & list of tubes.

New stations -- WLON-1580, Logan, Ohio; WMCT-1390; Mountain City, Tenn; WASC Spartanburg, S.C.; KMLO-1000  
Wiste, calif.; KDEN-1470, De Witt, Ark.; WMCU, Mckeesboro, Ill.; KILR, Ricksonville, Kowa; and WDEI, Jamestown, Tenn. Lineuped power increases for WDIK Newberry, S.C.; WNVY, Narrows, Va.; KOSI-1430 Aurora, Colo.;  
KXLI, Honolulu, Hawaii; KHEL-1250, Wilcox, Ariz.; and WFTG Williamsport, Pa. And change of frequency and power -- KQPI-1160 Kalispell, Montana, from 980.

The sources of new FCC information are not so good as they used to be ... what with Cooper-Trent running so late ... and Broadcasting leaving out important information. Makes it difficult to keep a log up to date ... and there are now three stations missing (which may be FM stations that got mis-listed in the Broadcast section.)  
Paul Kilguy, any chance you could make a weekly check of FCC files for us??
DOMESTIC DX DIGEST
April 13, 1968

Contributions need not be separated by category, but please include the frequency, call, state, date, and time in EST of each item. Deadline is Thursday mail before publication. DX printed will be limited to s/ons, s/offs, ETs, AN & F/c changes, schedules, new stations; plus any and all graveyard, pirate & college stations, and other unusual DX. Please refer to the NRC Condition of Frequencies and Frequency Check Lists, and to recent DDSDs, before reporting.

Some may be interested that local WBCN (FM-104.1) has got the right spirit now...is programming good folk/rock/psyche pgm (in stereo) called "The American Revolution" 2230-0530 daily. Great! (rk)

GOD IS ALIVE BUT HOPELESSLY LOST IN THE PENTAGON
A STATEMENT FROM LARRY G. GODIN, PRESIDENT, INTERNATIONAL RADIO CLUB OF AMERICA.

Reading the front page of the DX News (March 23 issue) was as rather a surprise to me. I am double-spacing this letter in the hope you will use part of it in one of your upcoming Dialog sections.

First, your reporting of recent IRCA Board of Director activity is erroneous. The proposal which was defeated by our Board concerned IRCA's endorsement of an ANARC CPC-Controlling Committee, which would approve CPC-program requests before they are sent to the stations. The proposal was made by Gary Scorzanski, not by Barry Dexter. Our Board voted against the proposal by a narrow margin for two reasons, I believe. First, there would be a loss of efficiency and incentive to require all CPC requests to be approved by a central chairman before they go into the mails. Second, the IRCA had operated without a CPC chairman for the first half of this IX season, and with the new appointment of Erich Floden to this post, we had reason to hope the quality of (at least our club's) CPC requests would improve without the necessity of a central controlling committee.

Frankly, if you take it upon yourself to be an authority on the IRCA affairs and to report them to the NRC membership, I personally would appreciate your getting the facts first. The proposal in question was described in detail in the IRCA bulletin.

The IRCA is basically in favor of cooperation among the BCB clubs in the arranging of CPC programs and in the spreading of information once the tests are set up. Erich Floden is very much in favor of such cooperation, as are other club leaders. Certainly the hobby as a whole will benefit from such hearty cooperation.

Second, I do not see any justification for your parading the DX Forum reports of IRCA members on the front page of the DX News. From time to time, there are reports in your club's bulletin that are critical of the IRCA, but I do not believe anything beneficial would result from our reproducing excerpts in the DX News. In my opinion, your printing from the reports of one of our "Founding Fathers" is inconsistent with your other actions in favor of maintaining inter-club relations at a high level. The Forum reports of our members contain personal opinions, not club policies, and are not intended for reproduction.

Third, the IRCA would not have proposed to the NRC the idea of a joint CPC in 1969 if our intentions and been those that you described in the March 23 DX News. I don't see how the proposal of such a cooperative effort could be interpreted in the light that your comments indicated.

Fourth, the IRCA's opinions as a whole regarding the ANARC assessment are not as you insinuate. For your information, the majority of the IRCA members present at the recent DX get-together in Sacramento were in favor of the assessment; your choosing to reprint a single DX Forum report expressing a negative opinion was not giving a true representation. However, our club will not disburse money from our treasury automatically, as the NRC has done, but rather will review a budget of expected ANARC expenses first. As you are probably aware, the chairman of the BCB poor reports committee Jerry Starr has not requested funds from ANARC to finance his project, and he considers the assessment unnecessary from that standpoint. At Glover has withdrawn from the auspices of ANARC his reference book project and will not require financing via assessment. It is not evident to me at least that the ANARC taxation is necessary. On the otherhand, it may be that the expenses of ANARC exceed 10¢ per club member per year. At any rate, it would be difficult to draw any conclusions without seeing a budget first.

In closing, I'd like to say that I consider joint members of the NRC and IRCA, I enjoy my membership in both clubs. We will have a lot in common and the two clubs enjoy a close brotherly relationship. I hope we can continue to voice our opinions in our respective bulletins without fear they will be picked apart by someone else, and that if one club makes reference to another, it will be both accurate and representative.

----------------------------------------

EDITORIAL FOOTNOTE...

henceforth, YePub, when he reads something that particularly galls him, will either forget it, or write a letter to the "galler", or to the proper Forum section transcriber (as long as editing and censorship are synonymous.)

The front page of the DX News was not the place for the note, scribbled off in anger. My anger was primarily directed at the one sentence: "I guess the need is becoming more obvious to the NRC now" — the remainder of the opinions expressed (and contested) weren't really that important. In the interests of inter-club cooperation, (and, for that matter, intra-club cooperation between members) allow me to suggest several steps: First, editors of both clubs are instructed to delete salve comments from the members directed at another member or another club. Secondly, that contributions from joint members to one bulletin answering a statement or a policy that appears in the opposite bulletin be stricken ... as not pertinent to the members as a whole. And thirdly, that the laissez faire attitude among the hobby's leadership that allows certain people who are more interested in feeding their own egoes than in aiding their fellow DXers (if indeed they do DX) to have a platform disproportionate to their capabilities, intelligence, and experience, be reversed, and active efforts made to identify and eliminate the outlets for their divisive writings. In the name of kindness ... or decency ... or whatever, we have tolerated a few voices whose only thought is for themselves. I am sorry that in my preoccupation with a few of the para-sites elements in the hobby, I lashed out at a responsible leader and friend whose unexpected words were particularly disappointing. The printed word is harsh and skeletal, and gives us very little with which to judge the depths of those who are represented in these pages. Unfortunately, in many instances, it's all we have. It's sometimes surprising how five minutes of conversation at a convention can clear up a massive misunderstanding that's developed through the mails. End of sermon!
In Colorado, Larry Godwin reports, "On the DX scene here, the Latins continue to come in while there are no traces of DU's or other exotic stuff. I'm beginning to wonder if there really is a 'deep south' season, since catches in that area are being reported every month of the year it seems. All the same, I'm looking forward to another season of Chilians at sunrise." In California, Don Kenney says, "DX cx not too good of late. It seems that Summer is arriving." Medium Wave News of England reports, "Conditions to North America bad during mid-February, but a steady improvement during March - good in particular on 3/13." The prediction: more of the same. (Ed)

*On Reciprocal Paths. In New Zealand, better North American receptions have included KBO at 0250 3/3 with good signals; WHO at 0818 3/17 with good signals, and ZRM at 0221 with excellent signals; these in addition to the usual WCNM loggings. In England, mostly the high power RCNA stns are being hrd, although a few better catches have slipped through: WINZ-940 weak 2346 3/10; WWL fair 2305 3/11; WAVY-1350 weak to fair 2055 on 3/13. *(NZDXRL and MWN)*

*Liechtenstein.* In an article in the 4/6 New York Times about this "micro-country," Clyde Barnsworth writes, "What the country wants is its own radio. It wants to operate a commercial station, like Radio Luxembourg, and reap the immense profits that go with it. All three political parties - the Conservatives, the More Conservatives, and the Still More Conservatives - are united in this desire. They see a Radio Liechtenstein, with its powerful transmitter high in the Liechtenstein Alps, shoveling out pop discs and advising the millions of Central Europeans what soap and toothpaste to buy. So far Switzerland has prevented this dream of greater glory - this attempt to put Liechtenstein on the map - from materializing. The Swiss are not pleased with the idea of having someone else profit from a commercial station that could be received throughout Switzerland, and they have various forms of pressure they can exert. Liechtenstein has a banking union with Switzerland, and this has been one of the principality's great talking points in attracting commerce and industry. The Swiss also operate Liechtenstein's telephone and telegraph service, and all Liechtensteiners that it would be costly to run it themselves."

*Colombia.* The following item from "El Colombiano" translated and sent along by Walt Rogers:

"On Sunday, April 1st, HJGG, R. Santa Fe de Bogota celebrated its 30th anniversary on the air with a special program. The station was started in 1938 by Hernando Bernal, and is now operated by his widow Luisa Mahe viuda de Bernal. Sr. Bernal is president and sons Jorge and Adolpho are Manager and Assistant Manager respectively. R. Santa Fe was principal in starting Colombia's R. Nacional, and now airs broadcasts of three major networks: RCN, CARACOL, and Todelar, as well as originating its own programs. The station plays Colombian music exclusively and operates on 1070 kc/s."

*Radio Free Bahamas.* Walt also says there is a political party advertising on Miami radio stations with an introduction: "This is the Voice of Radio Free Bahamas" with a message against the present government and advocating Bahama independence. Walt suggests that they're using Miami stations because ZNS is government operated.
April 13, 1968

Thailand. The following list of Thai stations operating outside of Bangkok is intended to supplement the list of Bangkok stns published two weeks ago. The info is from the Thai Public Relations Department via Arctic and is dated 3/21/68.

A few details for those who don't speak Thai. The short names are actually abbreviations: Por Chor Sor stands for the initials of Pracha Samphan, i.e., Public Relations Department, and Wor Por Thor is the abbreviation for Wittayu Pracham Thin, i.e., "Local Broadcasting Station." Thai numbers are as follows: nung, song, sam, xi, ha, hok, jed, paet, qao, zip (for numbers 1 to 10); 11 is zipet, 12 is zipsong, etc. Zero is sun.

With reference to the list published earlier, it might be added that the station on 1520 as "2-0" or "2-0 Pleng Loe Khao" (= news and music) as its short name and ID. The short name of 650 should read Chor Sor 1; as for 1200, it is believed that the official list is in error: instead of "0-7", the list should read "0-11".

These are only nominal frequencies: "1150" is actually on 1146, etc. Richard Wood comments that with the growth of powerful stations in the northern frontier areas, the smaller Bangkok stations will probably have to adjust frequencies in order to avoid them.
The editor calls your attention to the valuable information on Far East interval signals from IRCA's Art Peterson.

Cook Islands. ZK1ZC is testing here w/600 watts and a 350 foot tower; ZK1ZA on 620 is still on RS. (NWXDT)

Hong Kong. R. Hong Kong hrd in Cantonese; has 6 pips (monotone, 1 per second) on the hour. (Peterson, IRCA)

Colombia? Weak SS w/rancheros, etc. 0307-0340 4/1; DF is 121°, expected to cali is 120° so probably HJRM. (Kenney, Calif.)

Reunion Island. The high power outlet is still off the air; seems to have been a translation error somewhere. (Ryden, Sweden)

Bolivia? CP3A, very likely w/Amerindian mx 0405-0413 4/1; DF 126°, expected to La Paz is 130°. Weak het or TT plus some XETRA slop. (Kenney, Calif.) Yet probably from the N on the high side. (Ed)

Mexico. XETRA, Tijuana seems to have cleaned up the mess on 680/700 which blocked those two freqs totally on 3/11, 3/18, and 3/25. According to the LA Times, will switch to automated music programming late this month. (Kenney, Ca.) XETRA has abandoned all news format, lots of mx now; still EE; effective 4/2.

(Freeman, Calif.)

Honduras. HRTV, "R. Television" strong w/ID 2330 3/27 despite local KHTR on 710.

(Godwin, Colo.)

Surinam. SRS in very well at s/off 2227 3/27; all announcements were in (I assume) Dutch. (Godwin, Colo.)

Cuba. R. Rebelde is S9 + 10 db all day 3/31; S meter needle didn't move for 4 hours; strangely, this one very weak here at night. (Rogers, Fla.)

Puerto Rico. WLIQ noted 3/23 at 0445 to past 0515 w/mx, Noti Reloj, and ads; he had trouble from the Cuban, but he seemed to drop out after 0500; CBL off.

(F. Parsons, Ont.)

Sengal. Dakar in w/fair signal but extreme WJR splash 3/25 at 0201; first time here; only 4 kc/s from WJR, never thought I'd do it, hi. (Raczko, C.)

North Korea. Pyongyang here ///856/655. (Peterson, IRCA)

British Virgin Islands. Saw a 10 kw xmitter marked "sold to ZBVI" at the NAB Convention, so earlier reports of 10kw plans would seem correct. (Taylor, Mass.)

Singapore. R. Singapore had 6 pips (monotone, one per second) at 0545 and ID in Malay per WRTVH. (Peterson, IRCA)

Unid SS. Stn w/ranchero mx, probably a Mexican, fair signals 0605-0615 3/30; anything reported here? Surely not the Dominican on that late. (Godwin, Colo.)

Netherlands Antilles. Bonita; hrd definite ID in FF at 0500 s/on 3/27.

(Feiza, Calif.)

Colombia. HJEB, the most probable; very strong 3/28 0435-0443 s/on; WGY distorted the audio so ID impossible; SS mx. (Kilroy, Wash.) Very likely. (Ed)

Unid. Stn in strange language resembling SS, but not PP; off and on 0414-0508 4/1; bears more checking. (Godwin, Colo.) Deep South American in vernacular?

Argentina. LT8 probably the AN SS 4/1 w/WCCO off part of the AM; very weak and much static. Have it on tape, but when the ID comes, so does the static (that's always the way). (Raczko, C.)

Haiti. 4VEH is testing a 1 kw transmitter here; hopes to replace 890. (Stanbury, Ont., IRCA)

Colombia. HJEC, R. Nuevo Muruto noted w/SS mx and Caracol ID 0353 4/1; second stn way under (presumably CX4X - there goes another rare one. (Kenney, Calif.)

Thailand. Thai NBC, Bangkok plays march on the hour, then tone on chimes; usual clock chimes, then 8 monotone chimes of clock striking the hour. (Peterson)

Cuba. CM? noted at 0450 s/on 4/2 with a wonderous collection of announcements, marches, fanfares, and a rooster crow; LV de Cuba and CMW IPs. (Kenney, Calif.)

Colombia. Someone causing strong het w/CJBC on 3/22 at 2215. (Raczko, C.)

Unid SS. Noted a "MR. Oriental" on 3/1 1940 slightly above WWJ; WCBS not hrd at time; no lead in WRTVH. (Citron, Fla.) Nothing listed w/that slogan here; I suspect that this was the Cuban on 875V - the Cubans are rather fond of replacing DX'ers by broadcasting pgs named, R. - . (Ed)
Peru. \textit{OBZUN}, Lima, hrd for first time in a long time at s/on 0555 3/30; 4 note IS was played for several minutes, followed by march mx and s/on announcements at 0557; mx played was primitive at 0601. (Godwin, Colo.)

Dominican Republic. HICR w/Malta Flota ads w/heavy QRM 2004-2008 4/1; R. Santa Cruz ID 2006; faded after 4 minutes. 250 watts at night? (Rogers, Fla.) Don't think so. Wait. (Ed)

Drum. R. Brunel noted w/EE ID and single tone. (Peterson, IRCA)

Venezuela. YVRQ, noted w/usual format 0440 4/1. (Kilroy, Wash. D.C)

Morocco. Agadir in w/semilocal signal 0138 on 3/25 w/AA (?) chanting; also at 0130 s/on on 3/26, but much weaker. Best bet for Africa! (Raczko, O.)

Venezuela. R. Punto Fijo hrd on 3/24 from 0130 to 0200 s/off; musical pgm, ads, and good signal w/CEN off; thought this stn was still supposed to be on 1110. (Parsons, Ont.)

Brazil? FF4F almost positively the stn w/non-EE (probably PP but sounds like SS to me, hi) and male/female announcers 3/25 at 0339. (Raczko, O.)

Argentina. R. Belgrano, LR3, hrd on MM 3/25 w/mx pgm and ads at 0350 to past 0415; signal fair with much fade and QRM from US stn, likely WLOF. (F. Parsons)

Venezuela. YVMN. R. VI, Morcm hrd on this freq on 3/31 from 1923 to past 1450 w/pgm of modern mx and ads (one for a Club de los Oyentes), also horse race results, hi. Good, strong signal, on top of freq; last hrd them back on 990 on 2/24, so apparently a change here. (F. Parsons, Ont.)

Colombia. HJCC, R. VI, Veinte, good w/caracol ID 0530 3/30. (Godwin, Colo.)

North Vietnam. Hand on this channel w/IS identical to Peking's at 0900. (Peterson, IRCA)

Unid SS. Who is the SS here AN MM's? Hrd often but never got an ID. (Raczko, O)

Most likely HOU44, R. Relo), which is indeed AN, but YSC. R. Internacional has also been noted running AN on MM's in the fairly recent past. HOU44 was the only stn on during Block 14 of the SLC. (Ed)

Argentina. LT10. Santa Fe surely the one w/TC as EST + 2 hours and a commercial for a Santa Fe business 0402 3/30; reception was from 0405-0500. (Godwin, Colo.)

Unid. Noted here at 0400/s/on 4/2 for the 29th or so time this season; bearing between 125 and 140; not the Colombian (have DF'ed it prior to 0330; different SAH pattern and further east); ZP14 s/on well established before 0400, CP4 believed to s/on at 0500. That leaves LT10 and the Brazilian; take your pick. (Kennedy, Calif.) LT10. (Ed)

Cuba. The stn previously reported on this channel carries the Liberacion program. (Rogers, Fla.)

Portugal. CSBE finally copied for a report 3/25 at 0858; fair signal but hampered by 4VEB's CC on 1935. (Raczko, O.)

Unid Chinese speaker. "... Kwang-po Tien-Tai" ID but the IS doesn't match; --- , one per second. (Peterson, IRCA) Randy Seaver perspicaciously comments that this may well be the Taiwan outlet, which we second. (Ed)

Colombia. Assume HJAC, hrd many mentions of Colombia and Barranquilla on talk show 2134-2200 4/1; S3 signal. (Rogers, Fla.)

Unid. Someone causing terrific hrt w/WRVA 2217 3/22. (Raczko, O.)

Ecuador. Unid stn, probably HCAP5, hrd w/the distinctive NA of this country at s/off 0003 3/28 just after TICA and YLCD s/off. The Ecuadorian's carrier is slightly above YSRB and TICA (in that order) and the weakest of the three. (Godwin, Colo.)

México. XEFR hrd w/good signal 0355 on 3/24. (Raczko, O.)

Unid SS. Hrd behind VOA 2252-2305 3/30; VOA off 2300 but carrier left on; no ID hrd; w/?, Rogers, Fla.) Probably Dominican. (Ed)

Guatemala. TGED a powerhouse 3/22 at 2225. (Raczko, O.)

Bermuda. EZM 3/27 0403-0420 w freq check! No ID hrd; generally hear this stn every night and lately it has been exceptionally strong. (Kilroy, Wash. D.C)

Palestinian Islands. As far as I know, R. Popular de Mallorca is still on 1268, and according to a recent press release they plan to stay there. But you never know... (Lars Ryden, Sweden)

Hawaii. KTOH is now 5 kw; no noticeable QRM 0349-0355 4/1: they should cover the Western U.S. (Ericson, IRCA, Calif.)
China. Mainland stn noted on this channel while in Hong Kong. (Peterson, IRCA)

China. Mandarin hrd while in Tonkin Gulf. (Peterson, IRCA)

Hawaii. KCCN, tentative ID; hrd 3/30 at 0445 w/Hawaiian mx; also later 0455 w/same type of mx under KSTN. (Pejza, Calif.)

International Waters. R. Hauraki, the New Zealand pirate, is now back on the air from the ship "Tiri II"; signal better than ever in New Zealand. (NZDX)

Undx. Definitely someone here 4/1 at 0350 but couldn't ID language; slight audio at times, peaked 0418; CBE GC at 0430 (rats!). 4QD? or is there ANYTHING ELSE on at this time? Bears watching if the static goes away. (Raczko, O.)

Mexicor. XEYIP? the undx EE 3/24 at 0405. (Raczko, O.)

VERIFICATIONS...

764 SENEGAL. Dakar, QSL received for FF report; makes me VAC at last. (Congrats! Ed)

They didn't answer my long EE report a few years ago from California, so I'm pleased to have this relatively easy catch QSL'ed. (Scrimgeour, Ont.)

ARGENTINA. LT10, R. Universidad del Litoral; very friendly v/l from Edgardo A. Pesante, Jefe Departamento Artístico; also banner, sked and returned IRC's. Sked is 0400-2200; country #31 and now my best verie. (Raczko, O.) Very good; DON KENNEY: note that sked. (Ed)

PORTUGAL. CSB5, Porto, nice looking v/q and card. (Raczko, O.)

PORTUGAL. CSB4, v/q in PP, EE, and FF w/Xmas card (better late than never?); slightly damaged by the Post Office. (Raczko, O.)

THE CREW.... Special greetings this week to new member D.H. Citron, 1450 NE 191 St., Apt. 101, N. Miami Beach, Fla. 33162; we hope you'll contribute to the section often! Change of address for Walter Rogers: P.O. Box 1642, Hialeah, Fla. 33011.

Simultaneous Listening Contest. Will again have to hold off on the final results and data until the entry apparently lost in the mails is resubmitted. We have noticed lately that the mail service is extremely erratic at times. We've just received two letters from Bengt Ericson in Sweden, both airmail, same postage. One was postmarked 4/4 and took 5 days to arrive, the other was postmarked 2/26 and also arrived on 4/9! In the same vein, I recently began an airletter form to Lars Ryden only to find that I'd run out of room before finishing the letter, so I just picked up a second airletter, finished the letter, and dropped them both into the mailbox at the same time. Says Lars, "U.S. (I believe) Post Office did it again! Part II of your March 18th letter, postmarked March 21st, arrived on March 25th, whereas Part I, postmarked March 20th, arrived on March 27th (in the same mail as the March 23 issue of DX News!)." Sure would be nice if we had a Post Master General instead of a politician, says I. (Ed)

As of 4/10, I've received SLC forms from Dangerfield, Hauser, Moore, Conrad, Karchevski, Moore, Sullivan, DeLorenzo, Kenney, Carlson, and Freeman; MF checks from Hays, Nelson, Sullivan, Starr, Karchevski, Kenney, Grubbs, and Reyak. Contact me immediately if it seems your correspondence has ended up wherever Bengt's letter was for 6 weeks!

Quotations without comment. "The April 1st BAD News was superb"  "Needless to say, your April Fool efforts were very much enjoyed here; I was grinning for the rest of the day..."  "What do you mean the club isn't going to fold? I read it in the March 30 bulletin; by the way, where can I buy an electric Ouija board?"
