Sorry about that, but let's blame it on my illness which could have been the Hong Kong flu. -ERC

WKBA-1550 ET /w 1:10am & asking for phone calls. This good but all regulars except 1475 w/its usual group. 11/24- WJDW-940 @ 6:55 good signal till 6:00 when WPNA went from PS1 or directional to usual pattern & fair to 6:50. 9C & TT also on 940 @ 6:41, CEM? Verio & CM WΔKE. 11/25- TT-1700 @ 1:15 c/ΚΟΟ, no ID. TT-1700 8:18 again no ID & off 2:55. W3RAM-740 TT 3:11 & ID 3:15. WJMB-1380 DX fair-good u/WBNX & c/o another unID. WBZT-1140 c/WRA @ 4:45pm. 11/26- WADD-910 topping frequency @ 4:35 as I tuned by; copied to 4:42 w/plenty of QRM after 4:35, WARE #1, then WRE, WBK, WMR. 11/27- WJQB-1050 topping channel 4:30pm. WBY ex-WERG-1550 Waterbury w/WBMN & c/WAKR & 5pm s/off, 4:49-5:15pm. WAKR-1240 topping WCOU, no WFTN, no sign of WAKR yet u/WEM.

What's w/the "DXers for a Democratic Society"? I understand a group will start to protest all renewals of AN stations starting w/WEKO - beards, long hair, plus sandwich boards & steel helmets are required equipment. 11/28- WNBW noted AN, special? WHKL-1370 Vt. to 4:30pm s/off, very good, u/WBNA before, tape & letter sent. WHKL-1240 Mass, topping frequency w/WCOU #2. 11/29- TT & OC on 1300 12:05pm & on w/ no ID or MC, maybe WCOU, questioning report sent. QRM, WFTF WAVE WERE in that order. WKBA-1550 Va. again on long ES-type ET 1:40 & on. FM, WKAH-1450 NY umm but topping frequency @ 6pm. WAKR-1260 Gardiner, Me. weakly 6:10pm, too much WEM for copy, but @ 8 WARE about equal to WAGO/CBS w/no WEM & easy to pick the EE out for 45 minutes, few ads, only two while I copied. 11/60 - Taps up & Algerians & Moroccans strong on many frequencies so a report on a needed one. 12/1- WPGN-1350 Auburn Me. noted on already @ 7:30am. WCTR-1530 Md. on top easily 4:13a-4:43pm, for another try. A good meaty report this trip, QRM by c/w & WCKY, no ID gotten on c/w. SM CBZ noted on 970 6am covering everything very well.

One new verie of late, & also late; KD3S-1190 for report of April. Verio is an IRCA FP/c & filled out in pencil. Lucky a postmark is on the other side. Negotiations are under way for WPJO-1520, Me. for a TEST on 12/23 @ 2:15am. CE was very considerate & seemed enthusiastic! This might give a great many DXers a chance for Maine provided WCKY s/off @ 1. 11/12- WJMB-1550 NY 12:17am w/f/c-TT u/CBE. 11/15- WBMJ-880 0., 5:15 pm s/off about even w/WGEB. Attention, Glenn House, WTAE on 11/25 on 2, 500k @ 6:15am mixing w/WTV, apparently second harmonic, judging by fade etc. 11/26- UnID SS w/BE on 1325k, 8:05pm. Only references I see are C.R. or D.R. Would the latter be best for BE or stations first time in two years for this one, c/Cuba. Also SIDs, WKAH, R. Relajo. WAAQ-910 Ga. 5:32 am @rn. WJMJ-960 Va. 5:26am NX. WGAX-2370 NY 6am briefly @ s/on. WESL-960 5:15am w/ NX & dominant. HH2D-1395 again, 7:55pm, & 5:35am w/regalious program. Work sked leaves us prime time for 12/24-25 AM DX. Nil on TAs here, I missed 10/18 opening.
DX fairly cool this month: 10/30- WCSI-1010 Ind. u/WHTN 6:30 s/on & KXIO-790 good w/"Triple X WX" @ 6:28mn. 11/2- KIUI-1240 Kans. @ 1am s/off-3:30. 11/3- A surprise in WBCU-1460 SC in @ 8pm w/WX. MM 11/4- KDMO-1460 Mo. way o/everything @ 12:01am s/off, KBUS-1460 NM in/out @ 12:34-12:48 w/c, then a goodie, KTBI-1270 Ida., beginning s/off @ 2:11 u/KFJZ (State #45) & a report on KENQ-1460 to 2:56 s/off. SS that night brought KZLO-1570 Tex. way o/XERF @ 6pm. I also got KCAN-1580 & KCLR-1580 prior to s/off, first time I've heard both in the same day. Finally a report to KFJQ-1580 @ 6:16-6:33pm on 11/6 & also heard KLOS-160 & KLOU-1600 La. for the first time @ 7pm. 11/7- WMJZ-1390 0. ID @ 12:30am but nothing else heard so apparent FF/OC. MM 11/11- KIGA-980 NM in @ 1:59 s/off o/KFBS. Local KIEN-1010 was on ET starting @ 2, a KNSE-1280 Wash. o/WTE @ 2:14, only second Wash. 11/14- KZKL-1240 Okla. @ 6:43pm. 11/17- KFEN-1230 Ark. reported for to 1:30 s/off. MM 11/18- Local NSt fer WM was off so I got KTES-650 Tex. @ 1:30 o/WOW-HI. UnID Tls were noted on 540 550 1150 1560 & 1580 - anyone know of any of these? (1560 was WBGS-ER) Verifies: KENO-1460 v/1 (after going nearly three years without a Nov. verie I got two in a row - KLUG & KEGO!)

Other than that same day I snagged 11/17- VJPEB1 rotated Other than which could have been.

11/23. Home for the Holiday weekend so one of my infrequent musings might be a good idea. I do have a little DX 11/26- WTVY-1570 @ 5:30-5:45pm s/off. TCMO-1460 @ 1:07am f/o-tt. WTVX-1340 on top @ 2, WWOL-11:30 a badly wanted one @ 5pm w/KMIO looped, & I believe I may have caught WSTT s/off @ the same time, & last WWKM-810 10:30-11 s/off SSB w/WGY looped & KCMO nowhere to be heard. TOL 11/27-1360 Ala. spurted through @ 5:46pm. My longest delayed verie ever has arrived today, nice v/a/ WMX-1210 for report of 3/1/67, o/20 months, & no f/up! Other veries are v/1 LAU & KFRC. 73s to all. (Nice new Type-slider, Walt! - ERB)

Other than that, not a whole lot here. I enjoy reading DX News & am sorry the merger fell through as many benefits could have been had. What happened to the front pages of DX News? 73 & good DX.

Andy F. Eggert - 15 Lakebreeze Avenue - Points Clara, Quebec

Not much DX to report. On 10/27 I sent yet another report to WFTF-1500 for SSB reception & got a verie back lickety-split. On that same day I snagged WILX-640 just prior to s/off @ 5:15. The next DX session was 12/2 & was largely a washout. There were a few Venezuelans audible w ER but they certainly didn't appear in droves like for the 1963 ER. I got one tentative newie, YVNA-660 1:09-1:36am. Also another report to KERI-1080 a few minutes earlier. Noted OKIY-1150 AN. Veries WJMC-1110 WFTF-1500 WMTN

Freak CK ruld here lately. Oct. I added WDOC-1270 KSWD-1590 2:30am, WCBS-1220, 6:10 am, WQV-1000 5:47pm; WQMD-1525 8:57pm (not a trace of usually S-9 or better WKBW that PM) to the log. Nov. to date, CMKH-1040; WQMD-1500 5:45pm s/off; CHYM-1450 & CHAM-1280 both near 5am s/on, & c/last weekend five new calls in 24 hours. WQMD-1520 s/on KS 8M 11/24 @ 6am w/MHEO IDing in background, Lynchburg on par w/local WJAS. WQV-1500 5:45pm; WQCL-1350 v/c-TT MM 11/25 @ 2:43-2:50 & many IDs & topping the log, long-wanted here. Lastly a little of WQFQ DM filtered through the WENX/ WIVR duo on 1380 but no luck w/KCNY DX here. Nothing from WQAM-TTEST a week earlier, nix u/WSPD here. Veri situation seems to worsen. I seldom report anymore here. PFs do not appeal & little else worth while comes back. Reports to three special last season brought one mimo postcard, one mimo verie on plain paper & one no reply yet, same being the only needed one of trio, WCAS. I did get very find v/l on letterhead from local WASP as result of Ralphie’s tip. The "5-in-1" was too much for the old SX-99 & it conked out Monday PM & is now in shop. Not too bad though, two breakdowns in nearly 18 years of intensive use. 73.

Hi everyone. I have not Missed in some time so here’s my report. Three weeks ago I received the NRC Log & I think it is well worth the money & I hope all members who have not sent for it will because it’s great. DX: 9/2- WOBG-1590 @ 4:06am u/CJUN. 9/29- WLYD-940 @ 4:09am c/CGKX. 10/6- WAVE-970 @ 1:19am. 10/26- WQZ2-590 @ 5:39pm w/CHLY nullled. 10/25- WP1-590 @ 5:55am w/CHLY nullled, WMTC-1550 @ 6am, WKE-1000 @ 5:38pm. 10/27- WQMN-1500 f/c 1:20-1:28 tune-out, WQVI-1550 @ 1:30am. 10/28- WQMI-1470 on f/c 5:01-5:14 geosignal, WQME-850 @ 5:27am, WJOL-1370 @ 6:01am s/en-SSB. 11/12- CJUN was off 10:30 pm- @ 5:30 KATZ-1600 poor signal, & @ 6:44, WQMD-1500 Pa. on emergency basis to aid stranded notorists, heard 0/45 minutes. Not many veries, just v/l WDY WNOE. My WQME was really a mess, the postal service really messed it up. When I saw it I was not too pleased. As you can see I have not IDed too much but I will start to more often. Totals are 714/201, 43/42. Yes, Ralph Johans, I am alive & DXing. 73. (Who is v/l for your semi-local WMG-1300, Douglas? -ERC)

Russ Emmons - Box 64 - Syracuse, New York - 13210

Yes, this is perhaps my fourth week in a row! My rash of f/ups netted dubious results. W5T-1520 who TESTED for NRC then never verified finally did - reception of 11/22/65 (three years, yet): WQG-1450 WILK-980 CUKJ-560 v/gs; WATR-1320 W3LT-1520 v/1, also KXLF-1370. 11/27- W5FV-1110 Seneca Falls on program tests @ 1:080Cn, then rest of day, reported. FS began 11/29. 11/26- 11:40am, simultaneous IDs from WSCR & WHIO (ex-WKQO)-1320. WATR & WCL put "1968" on veries for 1966 reception, but since both reports possessed a load of definite IDs & local names, I figure either they saw the names & ignored all else, or they decided that w/what much info I must have heard them. Had the reports been tentative, I obviously could not have counted them, but the circumstances, I’ll make allowances. WMG-1500 answered my recent report by sending it back marked "received Nov. 22, 1968". I xeroxid this & re-tumed it w/a letter explaining what I wanted & that I spoke in behalf of all other DXers in wishing for a definite verification, etc. Veri tital 74 here, 106 overall, as I’m not going to count WMG quite yet. No job at WFRA or W5FV. Oh well, more on that when I know something. Perhaps someone who can get printing (offset) done cheap (I’m not about to throw more work at the HFC if someone else can do it) might arrange to reprint that little handout we used to have when IQ was in Buffalo which explained the hobby of DX in layman’s terms. It was beautiful - would be nice for Jerry to use in his struggle against the non-verifiers. If someone can, but needs the copy, I’ll type it up & send it or Xerox the original. I’ll say 73.

Dick Tracy - 3363 Eisenhower Road - Columbus, Ohio - 43224

DX keeps coming at an increased tempo but who am I to complain? MM 11/25- KBRS-740 NY @ 2:15am i/CBLC-SS, KEFE-940 Cal. c/v & ID @ 2:19 i/HVHF, KFHR-1440 Tex. TT 2:23- on, only ID @ 2:36. WQRA-1230 III @ mx & OC w/local WCOL nullled. SID @ 3:17, apparently ET. MM 12/2- KWKK-1150 PA @ c/TT 1:35-1:44, ID every minute, CHQO-1390MT. Dateline NY u/WHBF @ 2:10, KHQ-940 Ariz. c/v & NX @ 3:30 while looking for KWIK TTEST & finally @ 3:35am KQRR-940 Gc. IDed followed by TT w/ID again @ 3:40 v/KH5S for state #44 logged. Big news here is a transfer to Lexington Ky. which will severely limit my DXing until settled after 1/1, another log start, too, all the way (P. 5).

(Dick Truxx) from the bottom again! So no Muse for a while but look forward to reading DX NEWS when home on weekends. More later. 73. (Good luck, Dick! -ERC)

On 11/27 I had a phone call from Wayne Heinen, had a nice chat. He gave me a tip on a f/c from WEJE-1320. DX this week includes: 11/23 - WKST-1260 @ 7:25pm w/c/f. 11/25 - I could not hear KCON DX, only WERE in very loud. Jon J. Beeman - 1511 Dignon Ave - East Meadow, New York - 11554

Greetings, y'all. A heavy load of work at college has reduced my usual once-a-week reporting to something much less but I hope to be somewhat more active in the coming weeks, w/Thanksgiving having passed & Christmas vacation imminent. DX for the past couple of fortnights (how's that for a way of saying four weeks?) had WKEF-1400 Tenn. heard once going strong @ 1:30am despite NRC Log listing 12:05 s/off. Other DX included s/off - WMST-1350 Tenn. in Oct. Another hearing of the mysterious WYJ-730 on 11/17 @ 4:15pm. Programming was c/w/DJ named "Skin" or something like that. They gave location as Montauk Point, NY, hi. %%% In biochemistry lecture the other day the professor told of one scientist who tried an experiment he knew couldn't work & it did. I'm with him. In the same vein, reception report has been sent to "R. Station WYJ, Montauk Point, NY" hi. You say it can't work? We'll see, though I kinda doubt it myself. 11/28 AM WCRB/WNRC off. WJW-350 @ 12:06am for a pleasant surprise, unthou. The previous day I heard a report that WJXJ-1430 had lost their license. As of now, they still did up 1:30, license or nope, hi. 11/29- WHAI-1560 Fla. heard @ s/off @ 5:13pm & I returned from the bowling alley w/Jeff & we were not notified of WHAI TEST (thanks, ERC). Weak TF hea rd u/TVOU but no D @ 12:15-12:35am 11/29. 11/30 - New WMRJ-1080 NC @ 5pm s/off - SB. 12/1 - WAWM-1540 Va. s/off 5pm. Only one verie, WCDQ-v/EP. That's all folks, back soon. Tirana: 13:34 LAC evening of 11/28.

Art Zergove - 64 Hillview Avenue - Fort Washington, New York - 11050

Greetings! This is my first muse; lack of DX & a typewriter prevented any earlier writing. DX: 11/11- WMST-610 Tijuana, C @ 3:15-3:30am w/religious programming in EE, QRM from whID-rr: 11/12- WBB-660, Laucas, SC @ 5:19 to s/off @ 5:30. 11/14- WMST-610 Tenn. @ 4:15-5w/rr. 11/15- CKAP-550 Nfld. @ 6:55-7pm. 11/16- CHJ-1220 @ 8:05-8:17 w/c/w. 11/22- CKAP-550 @ 8:15-8:25pm w/rr. 11/22- WCEC-940 Miss. @ 5:05-5:20pm w/religious songs. Has anyone else heard VOA in SS on 1463? Letter to Washington reports none, but DX reports otherwise. WNBC had reduced power to 5kw. days when there is construction on new tower. Dave Allaway said something about a "New Member Kit" - does such a thing exist? 73a. (Yes, it'll be coming along to you Andy, & welcome to NRC & Musings! -ERC)

Jim Sampson - 7116 Witchell Drive - Winston-Salem, North Carolina - 27106

DX has been pre-empted this past week by the arrival of Junior Sampson #4 -Gregory John, who was born 11/17. I do expect some early AM sessions, now, though. Some prior DX was 11/20- WJZT-1550 Fla: 5:15-5:17 fadeout. 11/21- WJAN-1010 Atlanta 5:29 s/off. 11/28- WJZT-1550 Ga. 5:17-5:30pm s/off & WCMG-1050 Va. @ 6:45am s/on. Miscellaneous daytime DX (all reported) include WAYS-610 Charlotte w/WSLS Roanoke under weakly; WTIA-1570 NC dominated c/WSL-1560 ANXIA NC; WLOG-1050 Lincoln Center NC mixed w/WWAP-1170 Sanford NC; surprising reception of WJXJ-1250 SC & WPLW-1250 NC w/ normally strong WDVA; WJXJ-1250 Gaffney SC heard w/; local WOKX off due to technical problems; WZTE-1470 Tazwell, Va. very weak 6/WSWG; WJXJ-1250 NC weak w/CF; WUSO-1080 NC mixed w/WWJY; WJXJ-1250 NC, WHCH-730 NC & WPLW-1120 C mixed w/WTLC-1150 SC. Veries are very slowly coming back all of a sudden, w/only about 40% return. Looks like f/up writing will be most active in a month or so. Also I noticed an ad in Brock casting by WICT in Greenville, NC stating they plan to switch to 1070 in 2/69, & looking for people, so watch for tests soon. 73.
I still have my HQ-180 & a fine good-looking loop that Don Reynolds & I made last Dec. DX w/the loop is a wonderful experience after being a "die-hard" inverted L antenna man for 0/35 years on both coasts. I was able to add about 15 verified foreign stations last season w/the loop. My greatest DX experience in the past ten years or so was the visit to Richard Wood's home while my wife & I were on vacation in Hawaii in Oct. I had the opportunity of a lifetime by DXing from the Islands. For me, I believe this area is a very fine place to DX for foreign stuff. The Island of Oahu doesn't compete to the Island of Hawaii for early evening DX due to the great number of stations pm Oahu but I'd take it anytime compared to what Don Reynolds, Don Kenney or I have had at night after. My wife & I like the Waimea area of the Island of Hawaii so much we are thinking about retuning o/there in about 12 years or less. Twirling the dials w/Dick Wood will always be unforgettable. The ease by which you can hear the various islands of the Pacific, much of Asia, Australia, NZ etc. w/load speaker v9lume is a DXer's dream come true. I know Dick Nelson would like looking forward to this sort of experience. I personally feel rather badly about not supporting the pages of NRC DX NEWS for the past 12 years, I could give a lot of excuses but excuses don't motivate people & I now believe this is the time for me to show my thanks & gratitude to the fine people who have done all the hard work for us members so we could continue our hobby without interruption throughout so many years in the past. The small issue of 11/23 indicates a REAL NEED for SUPPORT & you will have mine in the future. Will some other old-timers join me NOW?

Roger V. Winor - 718 North Fremont Road - Valparaiso, Indiana 46383

Kind of too bad there wasn't any 12/2 issue due to Thanksgiving. We are paying $10 a ear. I sure hope this won't happen again w/Christmas & every other holiday upcoming. Not quite as much DX late due to worsening SSB DX. 11/23 - First WA opening of the season. WDR-1586 w/polka mx & GG @ 1:26am. CRTF-1594 also in nicely in FF @ 1:30. Wife was interested when I mentioned it was from Europe. No others noted.

Good AM for r/c's this time, KVEN-1480 TT 2-2:15, WAKX-970 TT 1:45-2, KBSR-1340 1:30-1:45 all as sked. 11/24 - I finally got legible signal of KEHB-610 S/B weak WGT, but still had to west WAIT all the way, 5:47-6:24pm, s/o ff @ 6:30. MM 11/23- CJVU-900 @ 3:05w/NX way w/CHML. KCW-1300 DX in 3:12-3:30 in/out w/WERB/WMAK. TT noted on 1400 during KTMN r/c time, no ID possible. Two ES noted on 780 @ 3, YVCD & Dube? WFMN-1380 DX in nicely 4:09-4:21 logging time. Much better than in "54 as WTHL. 11/26 - WCOJ-1420 r/c 12-12:30. TT-1050 may have been listed WDDS, but too many other 1050s at the same time, 12:09-12:31. WCNW-970 c/tT c/WSW. 11/27 - WGSN-1110 S/B @ 6:50/6 again, logged to 7:01 when WGT/KFAF went non-DA. That FM, WAKA-1110 Holly Springs Miss. in w/great signal 5:40-6 s/o ff w/local NX sponsored by local electric company. Two reports on 1110 in same day, plus OC from WFSW per tip on oxhoe, but no ID. I hope for TEST from them soon. 11/28 - Only thing noted was WNKY-1480 f/c-TT 1:1-1:10, not MM as listed. 11/29- KYGN-1210 ex-1220 heard for first time on new frequency w/spots & a jillion commercials 5:09-6:20 when WCAU/Cuban eff frequency too much to hear any more. Veries: v/f- KWM v/l- KSKY KTPH WORL, v/q- WNII. Twenty-one veris in 29 days, not bad. Nice phone call from Dave Carlson/Walt Breville advising me of WHIE-1320 TEST on 11/30. Um by me, but I'll listen & report if heard. Veries in 12/65 very friendly mentioning always looking forward to DX reports & that they have been heard in England & South Pacific. Till the next time, best of DX to all!

During the last trip I was in Brainerd & Minneapolis. Brainerd has to be a DXer's paradise - two locals, both off by midnight. The only nighttime service you could count on was WCOJ WHO. Fun to hear KFPR-680 KSTT-1170 KJUT-910 & a few others never heard from either coast. Cubans on 630-640 & Hgiti-1035 were quite readable evenings. NDSY-1130 still 50/25, as per 12/2 2am s/off. KSTP-1500 is the only MM AM & it has Ernie's friend, Dolly Holiday. WPCQ-980 practically unreadable downtown at night. KRON-630 LIKE a local after KDSB s/off lam 12/2. WCOJ-630 off RS w/TT 12-am and thereafter. Even in Minnesota, no sign of KSTT-1180 or KTN-1030. The Midwest dial was most refreshing. Meanwhile, friends, keep all those cards & letters coming in frp the NRC LOG. Maybe you need a second copy for the car or work, huh?

I'm not sure how to go about winning the Contest as I am now on days. Tech! And since I switched SSS have refused to yield any Aurora - I like Zipper. 11/13 KDHG-1370 r/c. WYBS-1560 ET/mx /QC quite strong 2:03. 11/14 WLDX-1370 ET/mx really hashing WSPD 1:53. 11/20 WBCH-1600 r/c-TT 1:10 & c. 11/22 WKFJ-1400 HS 1:29. KELD 1:40 r/c. Unknown r/c also heard. 11/25 WYNN-1400 1:30. An ID @ 3:05 from WAME-1260, AN or testing? Log says they aren't AN. They think they're AN-6 (BEC) KCLA-1400 ID, also unk whether HS, 3:19. WQHN DX for a new station, weak 4:05-4:15, WKNX-1320 5:15pm, WPBS-1440 5:30, WEEF-1430 5:30. WIMN-1370 5:30 s/off. 11/26 WCYT-1240 1:26 am s/off, SSB. 11/27 KC6G-1400 ET/TI 1:06. 11/26 WJFC-1480 r/c. WCLN-1570 is announcing the change to 1140 set for 9:25am tomorrow, 12/2.
After doing a few stencils & helping Marc w/his IRCA column, I can really appreciate the fine job ERC has done for this Great Club! Those things are work! I'm typing this before the WAGM TEST & CK are good, so I have a shot at it. WAGM was on WADD-1260 & WCOJ o/WBGM-1420 @ 7pm, very strange. Here's DX: 11/3- WELH-1310 @ 11:20 pm, looking for WICK s/off. WICK is a daytime regular, but WAGM is a new one here.

11/9 - On a trip up to Boston (20 miles away) we noted WAGM-1050 Norfolk o/WGN @ 2:30 pm, but no sign of them back here. MM 11/11- New WAGM-1250 w/s/off @ 12:01, CBC hockey on 1350 12:22, pretty sure I got CKEN 11/9 on 1350, anyone know the situation w/CKEN/CKAD? ZNS-1540 noted w/that AN program everybody's getting. I'll take WPTP anytime.

11/12 AM- CHOM-1470 s/on 5:35, unun. PM, absolutely fantastic signals to S. First noted when WAGM was on top of WARR-1320 @ 4:10, then when WCH came in o/WCHO/ WICK @ 4:17. WGIJ-1300 w/r 4:22, no sign of semi-local WJDA, 65 miles away. Then unk-1220 w/r show noted by high school girl after NC WX report @ 4:30. End ad for carddealer in Whitesville but no ID. Perfect signal for 14 minutes, but then lost. This can just ruin your day! I s'pose it was WENZ, huh? WUST-1120 @ 4:39, WSCQ-1220 somehow much in w/s/off @ 4:45, WADE;1210 NC @ 4:47 w/r & some c/w, WPAX-1220 o/unk NC @ 4:48, WANN-1190 4:54, WMBL-740 w/5pm s/off, WFMG-730 s/off, two Goldsboro stations in 38 minutes, hi. WBNJ-710 5:15 SC, WKKO-860 w/jingle 5:23, WLOR-730 5:30 s/off, WAUG-1050 Augusta @ 5:30. Unn WAGM-1050 all alone 5:35, some strong c/nc on 1100 u/WKYC @ 5:37, but quick fade & gone. WREZ is off & no SAs were in, WLBO?

WBAM-740 noted w/5:45 & WPWC-940 @ 6 to close out the day. W/tem/now catches, one of the best SSSes I've ever heard. Anybody else notice this? The only catch on 11/12 I've seem is WEND-1580 daytime for snow coverage. Very rare to have "centralized Aurora", hi. I'd like to see the sumspot index for that date. Anyway by 11/13 it was gone except for early AM reception of WFRW-1460 @ 5:32 s/on. 11/23- WKBW-1550 w/ET s/off from 11:15 on U/I at least 2:10, saw another report of reception until 3:30 that AM. This one must have really gotten out. I picked it up on receiver in office where the IRCA Roundups are formulated. Also heard WDR-1586 bombing in on same rx about 2am. They were 21 o/8-9 at home. Copule RRCS also heard. 11/24- WGMF-1500 s/off 4:46. 11/26- WKEF-1500 s/off 4:45. 73a.

V1, CM WAGM-1490 Inc., Medford, Wis. 51451, Ray Bohnert, GC who v/led my 1945 report is now part owner (three men) & semi-Treas. The 11/4 test was for new FM-99-3 3kw which'll duplicate AM. The old 155' stick got replaced w/310'; the first We/ r/c @ 2:30 may be changed to different time/day in order to do both AM & FM. WAGM, The Mink Capital of the World, has studios in Medford & Abbotsford. V1 SC from WAGM-1360 Box 2167 on envelope and 3677 on letter, Wilmington 1967, a Division of Rollins, Inc. says "We run a f/c every month about the same time & day." Heard 4:30 Am TT/ID to 4:39 11/25, fourth MM. 85am MM & 24 hours then. My 1948 was Wilming ton Tri-State Bg. Co. & 1kw AM & 20kw FM. The FM is deleted. 12/4, nice visit by Ken Iyon, Akron, NY & he had some lovely v/q to show; Heinen also had some again & Racer got called back to work (Bethlehem Steel) & so we all had a nice confab. Noted CKPC-1320 (? -ERC) s/on-NA @ 5:01; MM heard 3:50 w/6c & gave @ 3:54pm, WBL testing w/10kw & 3:50 off. Is there an FF working there? KEXM-1580 seems to go off @ 2am lately & the past Stormy WX didn't do any good. 12/7- CJOE/AM topped WHK/WWK. CJWW was AN HI. Heinen's v/f CFAM-950 gives AN & MM off & some for CKEM-1250 Steinbach, NX 1am & 1:10 off, if you catch 'em. I see WNR-1430 FCC won't renew their license. Christmas tunes are in style now, so Happy New Year 159. dree & siebenzig.

December 14, 1968

(Don Keskey) they cover 20% land & 80% water. ERBA bash im' Portland was just that. Usual great time, what I recall. I almost was trapped in a snowstorm on Siskiyou Summit on way back but I skated through somehow. Back late Sun. night 12/1 & missed my fifth MM in a row at the dial, but I still managed to hear KJRF once again @ 5-5:12 s/off u/KVKK. If only they'd answer my report now. Hopefully MM's will be more productive in Dec. than Nov. New WC ANs are KGF-810 AN-6 off MM & KREL-1370 Corra who was on 12/2 so maybe NSP now. Carson City has changed calls to KRLY from KFRL-1300. Mendocino is now on 1300 from 1520 (KMBF). KZEL in Eugene is still using this call announcing as the "New KZEL" so maybe they won't change calls. KDOV-1300 Medford is off the air as checked while driving through Oregon. Season's Greetings to all & to a Good Night. 73.

DX continues to come through at an average rate of two new stations per day, plus several good ones. I may have to start reporting weekly to keep u/30-line limit.

11/23- UNID TTS on 690 930 1600 all about 1:15. WKBA-1550 Va. was on w/an ET/c/w. I tuned them in @ 1:20 & heard till 2:50 tune-out w/fantastic signal o/u XEKL/WKYJ.

They had two DJs & were asking for out-of-town calls. More UNID TTS: 1460 @ 1:38 tune-in till 2 tune-out; 1310 @ 2:00; 1330 @ 2:35. WJTM-1240 Mich. good w/RR 2:15; I am sending report; KFEX-1320 rr o/u WJAS @ 2:30; severql records in a row w/no commercials, I hope you verify, Utah #2; WMDN-1450 Mo. poor w/c/w, but possibly a regular as I've heard since. I won't try again. I might have given up, but I've seen WWKM/COM-1500 both @ 3; KXOC-1170 good @ 11:30am.

Some December's unk-1170 in 11/23 Musing sounds like KSTT. WSM-650 @ 12:05pm. 11/24- KJUM-610 Mont. w/WDAF @ 12:10, UNID TTS 1580-1590 @ 1:05. A while back on 1360 I heard UNID HI, I'm counting as WAMJ. I was looking for KTVN, which I now hear is no longer on AN. Nothing like trying for a station that isn't on, hi. (The thing worse is "hearing" them, hi - KER) Probably another 30 next week - sorry to over-burden ERC w/work, but the DX goes just stop coming. I wish you all a Merry Christmas. Well, we got everything in except for a couple of single-spaced reports received here through deadline date for this issue, 12/9. Hey - two veries in, v/PP WLCB-1520, & I hold the #1 verie from WTBY-1590 - ch boy! WLOB is my Alabama verie #99 - row if we can pry one out of WAC----- hi. I was home sick from 12/2 through 12/4, & took a day report on semi-local WMAI-500, which is strong but has a strong WAD Com in the background. I noted an S-7 OC on 1170 a couple of days, WBL getting ready, I spaced. 12/4, WMBI-1490 broke through w/an ID & start of NK, but taught else, no report yet. SM 12/8- WSEB-1240 DX in, fourth best on channel, but then they were fourth most distan't, too, so not so bad after all. WWCO/WCVY/WBAK were o/them, in "hat order. WSEB is AN-5, off SM 12-7 & MM 12:06am. MM 12/9- Nothing new, WBT-1110 off again, second second MM in a row this was true, but they were back before 4am. WLOB-1310 atop, AN. TTS on 1220 1240 1310 & 1430 around 2:15-2:45 or so. OC fighting WTC-1080, too, no IDs caught on any of these. La Voz de Bogota-890 was AN. Look for ANSes on 12/23 (WM) & of course, on Christmas AM, also PPCs on 12/25. This is traditional. CUN 7

PLEASE SUPPORT JERRY STARR & THE NRC'S CPC: YOU CAN HELP NRC! 73, Randy
We hope everyone is having good reception this season. We have some fine reports this issue, which indicates the DX is there to be had. The SLC is in progress as this is being written; Glenn Hauser writes that he is giving it the College Try...how about you?

From the New York Times via Ernie Cooper comes word that election day in Guyana will be Dec. 16th; look for Radio Demerara-760 and the BGBS station on 560 on the AN of 12/17. Most of us still need BGBS. Due to my ever-changing work schedule, potential holiday mail delays (not necessarily a holiday phenomenon, either) and the need to allow a bit extra margin on the publishing end, this section will be cut on Mondays U.F.N. So, as I hardly ever receive reports in the Tuesday mail, there will be no real change in operations. When we go to offset (not many weeks from now) I think we can move the deadline forward again.

Some of you may have noticed weak signals from WNBC and WCBS the latter part of November. The two stations share a common tower which was knocked down by a plane on Aug. 27th, 1967, since Sept. 1967 both were using a 300-foot tower. Last month they both went back to the emergency 200-foot tower erected after the accident, and had to reduce power to 10 kW apiece while the 300-foot tower was dismantled and the permanent one erected. The permanent tower (500 feet) is now up and both stations back on 50 kW power. The long delay was partly due to the need to fabricate the tower base insulator. Those of you whose DX was both stations back on...

Jerry Starr now has a 2-mech. filter inboard installation in operation. This is in a BQ-180, I might add. Quite a feat! Congrats, Jerry. Yours Truly has added a new scope to the "junkpile," a Hycon 627-R. It has triggered sweep, extremely linear at 1 Hz and DC coupled; it ought to be good for SAH work when I get a 3WP7 tube for it.

We are listing the Venezuelan ER reports separately for your convenience; the regular items will follow as per usual.

560 Venezuela. YVLX hrd with ER and then music, and 2 solid IDs 12/2 between 0020 and 0050. Unneeded. (Noted s/off on 11/12 was at 0029 with NA.) (Scrimgeour, Ont.)

660 YVNA hrd s-9 with ER, mentions of R. Coro and R. Punto Fijo. Hrd well around 0140 despite heavy noise on the band. (Scrimgeour)

730 unID. Weak SS with what seemed like ER 12/2 around 0150, in and out. (Scrimgeour, Ont.)

740 YVNC. Also hrd w/ER around 0155. Quite good signal. Unneeded, so didn't stay for an ID. (Scrimgeour, Ont.) YVNC "Radio Mara-caibo" was AN 12/2 for Election Returns. Listed in the WRTH as Radio Mundo but they don't seem to use this slogan. (Ernie Cooper)

YVMN. R. Coro hrd 0045-0112 w/ER, reported. They got a feed from R. Nacional de Venezuela. Hrd s-7 and the only QRM was from WCAU OC which helped cut the noise at times. (Scrimgeour, Ont.)

YVMN "Radio Coro" AN-ER, listed only 1 kW, about s-4 to s-5 and CRM'd by a het from the other 'Cuban Minuto Man' on 1209a and the WCAU OC until 0210. Logged and reported; probably the best catch of the morning. (Cooper, N.Y.) (some nice catches there, fellows.)
