

# STATIC FROM HQ

I've always wondered if there really were guest editors so I stopped in Louisville and found out if you are real nice to Pat he will let you use his typewriter. I almost decided to go see Miss Nude America who is also here for the week but I really wanted to be a guest editor. Hope my wife reads this. Anyway I'm really in Louisville for a convention at the fantastic Kentucky Fair and Exposition Center. Pat says anyone else travelling in the area is welcome to use his typewirter. Be sure to stop and say hello to the LFC.

Thanks Dan. Not much news this time. We are holding a Graveyard Achievements column for next time and one page of Musings. We're building for a large issue next time, so look for a lot of interesting DX information then! Your crew is Dick Truax, Gary Atkins, Dan Gebhart and Pat Hartlage for this issue.

# CPC TESTS

We're counting on this getting out of Louisville early so we'll repeat the test for 12/10. Keep working on your CPC efforts.

12/10 KEGG-1560 Daingerfield, TX 0300-0330 ELT. Verie signer will be Monday Rick Hammer, KEGG, P.O. Box 600, Daingerfield, TX 75638. Arr: Skip Dabelstein, NRC.

12/17 KBGN-1060 Caldwell, ID 0201-0430 ELT We expect them to use music, tones and frequent IDs. Try prepaid calls to (209) 459-3635.

Reports to John H. Runkle, Jr., CE, KBGN, 3303 East Chicago St., Caldwell, ID 83605. Arr: Dave Schmidt, NRC.

1/28 KVEL-920 Vernal, UT 0700-0800 ELT, 5 kw. Program info unavailable.
Monday Reports to: Margaret Hemmert, CE, KVEL, Box 307, Vernal, UT 84078.
Arr: Wayne Heinen, NRC.

# THEY JOINED

Welcome! Report to DX News soon. Introduce yourself with a Muse! Richard Recco, 226 Hempstead Ave., Malverne, NY 11565 Ken Romstadt, 2541 Schroeder Ct., Toledo, OH 43613 Tony L. Hemphill, 2415 Maple Street, NE, Salem, OR 97303 Jeff Nieman, 8089 Mohawk Trail, Temperance, MI 48182

Renewals: Ray Arruda, Forest Osborn, William O'Riordan, Philip Boersma, Bill Lackey, Harold A. Whittier (3 yrs), Henry Fain (3 yrs), Stephen Francis, O.R. Herman (3 yrs), Mike Hardester (3 yrs), Conrad Durocher, Robert L. Baker, Robin J. King, John Oldfield, Chris Hansen (3 yrs), Robert Dimmick, E. B. JOHN D. BOWKER 14 CANOE BROOK DRIVE PRINCETON JUNCTION, NJ

An early Christmas present arrived this year, namely a new typewriter for your AM Switch editor! I'll be interested to see how this type font looks in DX NEWS -- I'll go back to the sans serif type next time if this style is less easy to read. Fortunately, you can change spacing and fonts with this machine.

A special tip of the Bowker hat to MARK STRICKERT this month who was the first to advise me of the operating schedules for the Cicero, IL new stations that are sharing time at 1450 kHz. Here's what he tells me: WCEV (Black-Oriented programs) 2:00 p.m. - 11:00 p.m. (Mon.-Fri.) 2:00 p.m. - 9:30 p.m. (Saturdays)

6:00 a.m. - 11:00 p.m. (Sundays) WXOL (Foreign Language largely) All times not shown for WCEV. Mark says he's not heard any silent periods at 1450 since the two stations started on this schedule. They both operate with 1000/500 w. Further, Mark lives about 10 miles north of their transmitting site and says he can still log other stations at 1450; might be interesting for NRCers to the south and west of Cicero to see if the signal from the single tower of WCEV and WXOL really is somewhat directional.

Here's what's new from the FCC this month:

#### STATION CHANGES NOW IN EFFECT:

Changes in Call Sign of Existing Stations:

950 - WHPN - Hyde Park, NY is now WWWI 1230 - KKTT - Los Angeles, CA is now KGFJ

1260 - WNSL - Laurel, Miss. is now WQIS 1290 - WTOC - Savannah, GA is now WWSA

1300 - WBLG - Lexington, KY is now WTKC 1330 - WJPS - Evansville, IN is now WKKR

1330 - WJPR - Greenville, Miss. is now WNIX

1340 - WTWN - St. Johnsbury, VT is now WSTJ 1400 - KBIK - Lompoc, CA is now KLVV

1530 - KVWO - Cheyenne, WY is now KUUY 1540 - KPOL - Los Angeles, CA is now KZLA

1540 - WOGA - Sylvester, GA is now WRSG

1550 - WPDF - Corydon, IN is now WJDW 1550 - WLOA - Braddock, PA is now WFFM

1600 - KVIO - Cottonwood, AZ is now KVRD

#### New stations now on the air:\*

1130 - WJTP - Newland, NC 1530 - WDJZ - Bridgeport, CT 1520 - KRJH - Hallettsville, TX 1540 - WLIC - Adamsville, TN

1530 - KELC - England, Ark.

Existing stations now operating with changed facilities:\*

790 - WTUG - Tuscaloosa, Ala is now operating 2500 w. (daytimer) 1080 - WKGX - Lenoir, NC now operating 5000 w. (daytimer)

1290 - WQIN - Lykens, PA now operating 1000 w. (Daytimer)

1550 - KGAR - Vancouver, WA now 10,000/10,000 w. (DA-nights)

\* The FCC used to alert the public about new stations as they came on the air; AM Switch used to print those releases. Now they simply list their grants of licenses for new stations and for modified facilities. This means that a station, eg., WJTP, has been on the air for some time by the time you'll see it here. Maybe late is better than never?

# STATIONS AUTHORIZED TO CHANGE FACILITIES (May take awhile to make changes):

620 - WRJZ - Knoxville, TN - goes non-directional days

800 - WVAL - Sauk Rapids, MN - increases to 2500 w. (Directional)

850 - WABA - Aquadilla, PR - increases to 5000 w. (DA-1)

910 - KMJC - El Cajon, CA - increases to 5000 w. (DA-2)

990 - WNNO - Wisconsin Dells, WI switching to 900 kHz @ 1000 w.

1050 - KWSO - Wasco, CA increases to 5000 w. (Daytimer) 1110 - KPOP - Roseville, CA increasing to 5000/1000 w. (DA-2)

1240 - KPRM - Park Rapids, MN switching to 1270 @ 5000 w. (daytimer!) 1280 - WIPC - Lake Wales, FL will go nights with 500 w. (Directional)

1310 - WAUC - Wauchula, FL increasing to 5000 w. (Directional)

1340 - KMTI - Manti, UT going to 1590 kHz @ 5000/1000 w. (Directional) 1370 - WLTH - Gary, IN going nights with 500 w. (Directional)

1410 - WTIM - Taylorville, IL going fulltime with 1000 w (DA-2)

AM SWITCH (Con't.)

... more stations authorized to make changes in their facilities:

1420 - WASR - Wolfeboro, NH - increases to 5000 w. (Daytimer) 1430 - WYMC - Mayfield, KY - doing away with directional antenna.

1460 - WFAB - Juncos, PR - going fulltime at 500 w. (DA-2)

1470 - KRDZ - Wray, Colo. - moving to 1440 kHz @ 5000 w. (Daytimer)

1540 - WCOX - Camden, Ala. - moving to 1450 @ 1000/250 w.

1540 - WBIN - Benton, TN - increasing to 1000 w. (Daytimer) 1560 - KKAA - Aberdeen, SD - increasing to 10,000/5000 w. (DA-2)

#### STATIONS REQUESTING A CHANGE IN CALL SIGN:

#### CONSTRUCTION PERMITS GRANTED FOR NEW STATIONS:

1000 - New - Odessa, TX - 250 w. Daytimer

1120 - New - Hatillo, PR - 1000/250 w.

1190 - New - Jackson, MN - 5000 w. Daytimer - Directional 1250 - New - Willits, CA - 2500 w. Daytimer - Directional

1460 - New - Thief River Falls, MN - 1000 w. Daytimer

1540 - New - Sheridan, Ark. - 250 w. Daytimer 1550 - New - Clarksville, TN - 250/250 w. (DA-2)

1580 - New - Camp Lejeune, NC - 10,000/5000 w.CH (non-Directional) (No operation nights)

#### CALL LETTERS ASSIGNED TO NEW STATIONS (Not yet on the air):

1420 - KPAR - Granbury, TX 970 - WXQK - Spring City, TN 1450 - KTXX - Whitefish, MT 1140 - KSKS - Conroe, TX 1460 - WBPA - Elkhorn City, KY 1170 - WRTT - Vernon, CT 1340 - KPOK - Bowman, ND

### MISCELLANEOUS ACTION:

770 - KXA - Seattle, WA - FCC returned their request for fulltime operation at higher power ("bounced it"!)

#### STATIONS REQUESTING CHANGES IN FACILITIES:

600 - KTBB - Tyler, TX wants 5000/1000 w. (DA-2) 730 - WMTC - Vancleve, KY wants 5000 w. (DA) Daytimer

910 - WEPG - S. Pittsburg, TN wants 1000 w. Daytimer

980 - WKLM - Wilmington, NC wants 5000/5000 w. (DA-nights)

1010 - KODA - Houston, TX wants 5000/2500 w. (DA-2)

1010 - WPYK - Dora, Ala. wants 5000 w. Daytimer

1140 - WIXC - Fayetteville, TN wants 10,000/2500CH w. (not nights)

1240 - KNEM - Nevada, MO wants 1000/250 w.

1260 - WJBL - Holland, Mich. wants 5000/1000 w. (DA-2)

1300 - WQBK - Rensselaer, NY wants 5000/5000 w. (DA-2)

1310 - KAAM - Dallas, TX wants to go directional days & nites (DA-2)

1370 - KWRM - Corona, CA wants 5000/2500 w. (DA-2)

1400 - WDOT - Burlington, VT wants 1390 @ 1000/250 w. (DA nights)

1600 - WDNY - Dansville, NY wants move to 1400 kHz @ 500/250 w.

So that's what we've got for another month. This is my first anniversary as Editor of AM SWITCH - I consumed a martini in Bruce Winkleman's honor for dumping this job on me (Note that I didn't spell his name in capital latters!) Hi Bruce! My reason for bringing this up is that I've had very few comments about how this column should be laid out lately -- I would enjoy hearing from the members on ways to make it clearer or new information that should be added. Changes in ownership, moves of studios or transmitter sites, etc. Maybe some of the stuff I include isn't of interest. Let me know!

Merry Christmas!!

RAY ARRUDA 47 BURT STREET ACUSHNET, MASS. 02743 (617) 998-3958

(KAZ-RI)

Please use one side of the paper when reporting. Deadlines are Saturdays. Lotsa stuff, so here goes ....

#### DX TESTS

Hope I didn't leave anyone out!

More and more SWLers are discovering the particular charm of Medium Wave DXing (MW DX); perhaps it isn't easy to pick up far distant stations from other continents on medium wave-despite the new Geneva Wave Plan. DXing the shortwave is far more comfortable and thus no challenge ... at least that is what the m. w. enthusiasts say. On the other hand simple gear will do for the beginning of MW DX, such as smaller transistor radios and about ten metres of outdoor aerial, a simple L or T. Great successes can be obtained with more sophisticated gear. allwave receivers, special antennas, metching and tuning circuits, measuring devices and so on.

What are MW propagation conditions like these days, around the 1979 solstice? There is a large number of factors to be included into our small analysis. 1stly it is winter in the Northern and summer in the Southern hemisphere of Earth. Best MW DX conditions prevail generally during winter.

2ndly We have perhaps just passed the peak of the 21st solar activity cycle. Solar activity is in fact still very high. However, the lower the sun's activity, the better MW DX conditions. 3rdly MW propagational characteristics after with rising frequency from the lower to the upper end of the band. The upper margin shows, for instance, quasi shortwave propagational characteristics.

Taking these three points into account and considering regular daytime variations, we can give the following recommendations:

Always hunt for MW DX at night between sun set and sun rise. Your DX circuits must lie under the cover of night. The inospheric layer which is detrimental to MW DXing, the lowest, absorbing D-layer, which devours MW signals, dissolves immediately after sun set but builds up at sun rise.

If you start DXing the medium wave at about sun set, always begin at the upper end of the band progressing stowly downward. Listen into the following directions: North, North-East, East, South-East to South. In the middle of the night you can listen into any direction all around the windr-ose, but towards sun rise DX will be open from the following directions: North, North-West, West, South-West, and South.

(For DXers in the Southern hemisphere North is always turned into

South and vice versa.)
As indicated above the current high solar activity exerts a negative influence on MW DXing, MW DXers in

higher Northerly or Southerly latitudes are generally favoured by lower D-layer attenuation.

As always there is one exception to the rule: MW DX conditions are not favourable within the two polar auroral belts where the ionosphere is almost continuously disturbed by the influx of solar particles.

Anyone using directional loop antennas needs an azimuthal equalarea projection world map with his QTH in the world's centre. Or make use of a terrestrial globe which should be as large as possible. Connect station location and your

Connect station location and your QTH with some tape forming a great cricle section and orientate from your location. You will be surprise at the results.

Station equipment: The better the receiver, the better the results. They should suppress a great deal of crossmodulation. Long L or T-antennas should be suspended as high up as possible to bring enough signal fieldstrength. They have no directional characteristics. If you use loop antennas put an antenna tuning circuit between loop and receiver. And remember: Nightime is DX hunting time.

Algeria as "proof" that the 1424 outlet heard fairly well in North America during October is Algeria, European DX bulletins contained many loggings of this stn with frequency listed as 1425. It is currently listed around 1430, explaining its disappearance. Australia a new 2EA repeater has opened on 1584 with 100 watts, location Newcastle, and also 1485 in Wollongong with 100 watts. (NZDXT) 2JJ 1548 is expected to go to FM soon. (NZDXT) 2EA Sydney is to move to 1366 from 801 in December. 3EA is expected to be 5 kw on 1224 in November. (NZDXT) 2ST 999 is NSP since 10/1/79. 3BO Bendingo now NSP. 8AL Alice Springs is now on 1377 with 2 kw. 2ST has a NSP repeater on 999. (NZDXT) 500 watt stations are projected for Melbourne on 1705, Sydney 1665, and Hobart on 1750 for a talking book service for the blind. (Bob Foxworth, originating from Arthur Cushen on DX Jukebox) Belgium the BRT2 xmtr on 540 is the former 926 Wavre xmtr. (WRTH) Benin 1475 Cotonou now s/on 0515. (ARC) S/on is variable and should not be listed as any specific time-CH Bolivia CP83 on 915, ex 1115. CP19 R. Augustin Aspiazu now on 1145. CP24 R. Grigota now on 1345. (Arctic) Chile CD840 Santa Marta Radio, Coyhaique is a new stn on 840 with 10 kw. China the Tibetan's People Broadcasting Station, Lhasa, sked 1000-1545 on 594 w/some relays of Radio Peking's First Pgm. Luda People's Ecd'g. stn in Laioning province sked to 1435 on 1152. Zigong PBS in Sichuan Province noted from 0922-fadeout on 1422. Shadong PBS in Jinan is on 891 and 1404. Gansu PBS at Lanzhou is on 873 from 0920-1600. (BBCMS) Inner Mongilian PBS in Hohhot is on 1188, 765, and 675 from 0900-1525 weekdays and to 1545 on Sat and Sunday. Shantou PBS in Guangdong province is on 1080 from 2110-1505. Hubei PBS from Wuhan on 774, 1179, 1404 from 0850-1605. Yanbian PBS from Yanji in KK on 1206 from 0830-1430. Xiangtan PBS in Hunan province on 1503 from 0950-1520. Yunnan PBS in Kunming is on 576, 990 from 0920-1605. The Beihai relay stn on 1224 not heard. (BBCMS) Hainan Island regional stn in Haikou is on 1188 and 954 from 2100-0100, 0250-0700 and 0900-1500. Xinjiang regional station at Urumqi reported frequency changes from 7/16 as 675 ex 999, 702 ex 635, and 685 ex 1494. (BBCMS) Radio Beijing now also confirms station locations on QSL and more regional stations will answer reports directly. Commercials now appear on Chinese radio and TV. (Arctic via Bernd Truteneau) Colombia HJWA LV del Guaviare is new on 1170 w/2 kw, a Caracol station. Ecos del Combeima (1025 MW-CH) has moved SW // from 6025 ex 4785. (Arctic and Sweden Calling DX ers) HJMX 1290 is new with 5 kw. Slogan is Emisora de la Fundacion Carvajal, location Cali. HJDY R. Primavera is on 1020 ex 1030. 1100 HJGI Em. Jose Antonio Galan ex 1360 and now 10 kw. 1480 HJPX R. Olimpica ex Brisas del Mar. (Arctic) Per a trip to Bogota by Arctic member Harry Holm all Bogota stations are operating as per

WRTH listings. (Arctic) Congo Fort Rousset 863 is // Brazzaville 1475. (Arctic) \*\*\*\*Cook Islands operates on 864 occasionally to 0828 s/off. This frequency is used only when 630 is carrying Legislative Council relays, sports, etc. Sked is very irregular. (NZDXT) Costa Rica Radio Reloj has moved to 6032 from 6006. (Sweden Calling DX'ers) (this is //700 MW-CH) TIPJ R. Nueva Victoria now operates on 6082 with 1 kw //MW 1220 from 1200-0600. (SCDX) (MW is on 1224-CH) Cyprus 1233 Cape Greco noted on Sundays w/AA from 2130-2200 s/off. Czeckoslovakia a new stn on 558 at Plezn carries R. Prague's Domestic Service from 0230-2200. (NzDXT) Dominica ZGBC (Gospel Broadcasting Company) is 10 kw on 1060. Sked is: M-F 1000-1500, 2000-0400; Saturday 1000-1800, 2100-0300; Sunday 1000-East Germany the Burg transmitters are still having problems. 263-657-783 have all been off 1-2 days at a time recently. Burg 1044 has been off since 9/24. (Unsure when this comment was written so no way to

know whether they were off for a long time-CH) 182 Oranienberg runs at

reduced power. 657 Reichenbach here ex 1170.

Egypt the following xmtrs were observed by EBU but are not listed in WRTH: Luxor 882 5 kw, Idufu 918 10 kw, Baris 981 5 kw, Suez 1188 10 kw, Luxor 1305 10 kw, Bawiti 1341 10 kw, Queseir 1350 10 kw, Kasrel-Farafra 1368 1 kw, Mut 1386 10 kw. (Arctic) USSR Kiev2 drifting around 1381-2. 1395 Moscow has a local Mayak xmtr here now, with nothing on 1525. 1462 R. Kishinev 2 heard here //1449, 1494. An unid Moldavian now on 1494. New Mayak heard on 1503. Karaganda new on 245 w/100 kw. A new Mayak is on 702, ditto 1143. (Arctic) Venezuela Harry Holm of Arctic confirms that all Caracas stns are as per WRTH except for the stn on 1390 is not operating.

Foxworth, with the additional info that Wallis Island is at 13°S and 1770W between Samoa and Fiji. Represents a possibility to the WC DX'er

on that freq-CH West Germany AFN 1107 now 40 kw. (Arctic) 209 Mainflingen sked 0500-1900. 873 AFN s/off at midnight LT. 594 Frankfurt runs 400 kw days to NNE and 1000 kw omni from 0000. Meissner is 250 kw omni days, s/off 2400.

670

719

Morocco in RTM's latest sked a 20 kw stn located at Tan Tau is listed on 657 relaying Network A. 774 Agadir is used for Network B w/50 kw. (Arctic)

GRENADA Mourne Rouge poor w/classical mx 2221 11/17. (Kaz-Con) VENEZUELA R. Perija noted w/a good signal and lots of SS rumba 540 and tango mx 0630 11/18. (Miller)

544 COSTA RICA TISBJ San Jose is the stn varying from 543-546. Fair to good 11/21 at 0332 w/ID in the middle of non-stop talk. The "Radio Nacional" ID I heard and taped last week is a mystery.

570 CUBA Santa Clara CMHI good w/WMCA nulled; SS //590, 600 2230 on 11/17. (Kaz-Con)

COSTA RICA TIRN San Jose at pest level w/opera 0330 11/18. (Kaz-Con) DOMINICA Roseau good w/Caribbean mx, better on loops than Beverages, 0153 11/18. (Kaz-Con) Dominica bearing 157+10 from Narragansett, 53 off the bearing of your Beverage....Hutton Bearing Service 595

off the bearing of your Beverage ... Hutton Bearing Service 600 CUBA 0648 11/18 w/SS nx by two men, fair-good signal and het squeal from local WEEI. (Miller)

UNID 11/13 0650-0730 unid SS w/rather soft mx, faded at 0658, came 600 back 0708. Strong sig o/KOGO, CJOR most of the time, much background noise. Could this be a Cuban? (Toebe) Could be and most likely is-CH

CUBA Santa Clara CMHQ in loud all evening w/superpest local WPRO 630 nulled out w/Beverage phasing unit on 11/17. (Kaz-Con) There is

nothing nicer than a phasing unit, isn't there?? CH CUBA CMQ R. Liberacion w/very good signal 0702 11/18. SS mx w/off and on mention of the music to be played by a male. ID as "La Voz de Cuba". (Miller)

SURINAM RADIKA Paramaraibo alone on the channel w/CMQ totally phased out. Strange combination of Arabic-type chanting and Indian flute mx, then a mention of Radio RADIKA followed by an ID comprised of a word that sounded like "transmite" plus R. Radika. (Hutton) CUBA CMKP San Pedro de Cacocum in w/disco //690, atop YV 0319 on

11/18. (Kaz-Con) 660 VENEZUELA YVNA Coro good w/old-style SS male vocal, ID, sedate talk by man heard mixing w/Cuba; WNBC nulled 0324 11/18. (Kaz-Con)

675 COSTA RICA TICN San Jose good w/bouncy LA mx, Sonora ID 0318 on 11/18. (Kaz-Con)

690 CUBA CMBC La Habana o/u CBF; SS disco //670 0319 11/18. (Kaz-Con) ENGLAND (synchros) one of the most consistent TA's during late 693 October, often from 0100 on. Once QRM'ed by East Germany. (Dangerfield) Odd, one of the least consistent TA's here. In fact, England has

not often had good signals here-CH COLOMBIA HJCX Cali in mess w/Sutatenza ID 0317 11/18. (Kaz-Con) JAMAICA Montego Bay in the clear after nulling WLW into oblivion 700 w/the phasing unit; good copy of reggae mx, then man in Caribbean-accented EE mentioning JBC, 2217 11/17. (Kaz-Con)

ST. VINCENT Kingstown strong w/their usual OC 0313 11/18. (Kaz-Con) UNID (probably Ivory Coast); 11/12 at 2301, Portugal Norte I was approximately 36 db/noise w/nx; 4 Hz SAH which previously had

been present (but disregarded) on scope greatly gained amplitude and primitive mx was heard thru Portugal. Approximately 4 Hz SAH continues (at times nightly) until 2400 when Norte is clear of interference. No good audio heard through Norte since 11/12. Among my possibilities are: Canary Islands, Gabon, Mauritania, Tunisia, and Ivory Coast. Canary Islands is probably right on 720; Gabon geographically further away and probable s/off before 2400; Mauritania and Tunisia (if active also probably s/off earlier. Ívory Coast sked s/off 2400 and at times 719 audio (thru Portugal) seems //4940 kHz. Of course, R. Norte is part of a synchronized net and someone on the net could be off 4 Hz and give mx instead of nx at odd times. (Bailey) Both Gabon and Mauritania operate until 2400 per 1554 and 1349 loggings, so they rate some consideration also. By the way, WRTH lists all three of these outlets as being allocations, rather than existing stations. Great Circle distances are: Gabon 5904 miles, Mauritania 3805 miles, and Ivory Coast 4708 miles; Gabon is only 1200 miles further than IC-CH

CUBA audible all day on the south Beverage. (Kaz-Con) COSTA RICA TILX San Jose good, topping SRS w/LA mx 0130 11/18. 725

SURINAM Paramaraibo smashing in w/talk in Asiatic language 2240 725 11/17. (Kaz-Con)

COLOMBIA HJCU Bogota xlnt w/R. Melodia ID, not a trace of CKAC to be found 0133 11/18. (Kaz-Con)

PORTUGAL Lisboa fair w/classical mx 0042 11/18; Spain-774 in at the time as a strong het against WABC, most TA's poor, however. (Kaz-Con)

760 COLOMBIA/CUBA HJAJ and CMCD mixing it up here, WJR absent 0142 11/18. (Kaz-Con) HJAJ back on 760.4 as of 11/26, fair signal mixing w/Reloj. (Hutton)

CUBA CMKD Las Mercedes w/Cuban-type mx, fair o/u WABC 0305 on 11/11. (Townshend)

COSTA RICA TIW San Jose good w/R. Uno ID 0335 11/18. (Kaz-Con)
PUERTO RICO WKVM San Juan good w/a lot of SS talk, KVM mentioned,
then LA mx followed 0310 11/18. (Kaz-Con) 810

820 CUBA La Habana clearly dominant w/R. Ciudad de Habana ID 0145 on

11/18. (Kaz-Con) 825t COSTA RICA 0645-0728 faded up w/"forever Autimn" by Justin Hayward. then SS number; super strong at 0648; faded away and back at 0724 w/Al Stewart mx; assume Titania by other's reports, but not sure. Heard female but couldn't make it out. 11/18. (Toebe) This matches Titania's format exactly. Listen about 15-30 seconds into each song for the "Titania" ID over the music-CH

830 DOMINICAN REPUBLIC HIJB Santo Doningo in jumble w/ad for something

"en Santo Domingo" 0307 11/18. (Kaz-Con)
DOMINICAN REPUBLIC HILR Santo Domingo heard here for the first time 860 since Hurricane David: signal much weaker than it used to be, so it is likely running 3 kw as mentioned in some DX column. Clarin ID o/others noted at 0522 on 11/18. (Kaz-Con)

860 PANAMA HOL55 Chitre good w/R. Reforma ID o/u other SS 0055 11/18. (Kaz-Con)

COSTA RICA TIGPH Liberia fair at 0252 11/18. (Kaz-Con)
WALES quite good at 0100 on 10/31. WCBS no problem. (Dangerfield) 882

DOMINICAN REPUBLIC HIPJ Santo Domingo heard w/ Radio Continental en Santo Domingo ID and mentions of "Radio Reloj Nacional" (network?) to confuse things a little, 2259 11/17. (Kaz-Con)

SOUTH KOREA HIKB Pusan 11/5 1400 very weak, but heard "HIKB" then ...- time pips. Always just fading into readability. (Toebe)
HAITI fair w/tropical mx 0301 11/18. (Kaz-Con)

COLOMBIA HJAE Emisora Fuentes, Cartagena mixing w/Cuba 0333 11/21 w/lively LA mx and a "Fuentes" ID delivered enthusiastically. (CH)

920 CUBA unid Reloj stn here, first noted 0330 11/21. Power estimated at 1-5 kw. Superlocal WGST-920 not present at all after adjusting phased Beverages! (Hutton)

COSTA RICA TICM San Jose fair w/US rock 0921-0942 11/26, all in EE. Simple ID as "Juvenil" at intro to songs. Audible with WGST-920

phased into nothingness-a 55 dB null. (Hutton)
HONDURAS HRYW Tegucigalpa good with "Love Makes the World Go 'Round"
instrumental 0305 11/18. (Kaz-Con)

DOMINICAN REPUBLIC HIFF Puerto Plata good w/SS talk "transmitiendo desde Puerto Plata", dominant o/usual powerhouse HJHN and groundwaver WELI during obvious short-skip favored LA cx 0120 11/18.

ECUADOR HCEW2 Guayaquil 0948 11/26 at incredible level-approximately equal to 1000 and 990 (which have no domestics on the south Beverages) and enjoyably loud in 4 kHz bandpass w/EZL instrumentals and soft vocals. Program was "Guayaquil de la Noche" full of "Frequencia Mil" and reverberated "Mil" ID's. (Hutton)

COLOMBIA HJDP Neiva fair in WINS slop w/instrumental LA mx 2301 1005 11/17. (Con-Kaz)

TURKEY Istanbul not heard as often as a few years ago, but pretty 1017

fair at 0318 and later, in October. (Dangerfield)
UNID fair carrier at 0711 11/26 producing weak audio on peaks. 1017 Stayed in well after all other TA signals were pretty much gone so may have been Tonga, but too weak to interest me in staying around. No other trace of DU activity that AM. (Hutton)

COLOMBIA HJFT Ibague very good (42 dB on peaks) and 100% readable in 4 kHz bandpass 0649 11/26. Lively Colombian mx and 1025 several good "Ecos del Combeima" ID's. Surveying the HJ stns since the big earthquake of 11/23 (which had an epicenter near Ibague) hasn't shown any casualties except LV del Centro-1055

in Espinal, also located very near the epicenter. (Hutton) MEXICO XEOR Mexico City w/"Radio Centro" ID 0830 11/12, w/KTWO 1030 OC, o/u WBZ. (Toebe) CHINA Shanghai 1424 11/5 w/CC by man and woman, fair signal, bit

o' slop from 1050. (Toebe) EAST GERMANY always one of the best TA's, with listenable pop music several times around 0315. (Dangerfield)

1044

	1053	ENGLAND perhaps the best BRClar base
	1070	ENGLAND perhaps the best BBC'er here as in Iceland. Listenable music throughout the night. Strong at 0100. (Dangerfield)

1	341	
		be separated from 1310 and brought in Tittle work this could
1	341	UNID TA has been putting a fair het on 1340 on a pretty regular
		it is AN. (Hutton)
1	365t	HONDURAS HRTR Ciudad Danli suspected as the weak SSter here at
4		
	394	UNID weak carrier noted 11/26 after hearing 1404 very well a bit earlier; would guess this is Togo since 1502 has not moved
		to 1503. (Hutton)
- 1	400	THIR IA with a many unique set as

UNID LA with a very unique set of tones between news items, but

the ID just wouldn't surface. Too bad. (Hutton)

1404 GUINEA superb all 11/26 evening. Non-stop mx on stringed instrument (very pretty and worth listening to 1404 or 15310 for) 0548-0600, almost a minute of dead air space (common on 1404) then the musical interlude they always play over the hour. Man gave 2 "La Voix de la Revolution" ID's in FF that was slightly echoed-their standard ID. Must have worked on their modulation a bit as it was quite normal and equal to what it was around 2 years ago. (Hutton) 1439.8 UNID het on low side of WFTQ, maybe a Cuban? Heard at 0435 on 11/18. (Kaz-Con) Don't think so, its pretty weak here-CH BENIN Cotonou very weak 0602 11/26 w/man talking in assumed FF; thought they might be in better this time with Guinea 1404 at such an xlnt level. (Hutton) 1502t TOGO w/poor carrier 0542 producing no audio (perhaps an OC), weak 0550-0557, then non-useful audio 0612 occasionally peaking up over the slop. (Hutton) 1510.4 DOMINICAN REPUBLIC HIBL Santo Domingo here on this frequency so far this season, a perennial drifter. (Hutton) 1521 SAUDI ARABIA Duba-this powerhouse is in almost every night, most of the evening. I have also logged them this year from Iceland and Egypt, and have sent them another report as my first was not answered. I do not count a country until it has been verified. (Dangerfield) Duba's sked seems to be irregular-noted many nights NSP although listed as having a s/off at 2300. Once you get away from WKBW this one is a "most regular" TA, although not as strong as 1566/1404. (Hutton) 1530 DOMINICAN REPUBLIC HIJN Santiago good w/pop mx and ID 0843 11/26, alone on the channel except for a low het from presumed KFBK which is totally non-audible on the Beverage. (Hutton) 1560 CUBA Cardenas CMGB Reloj hasn't been on the air in the early AM hours 11/25 or 26. (Hutton) 1562 PORTUGAL Covilha poor 11/26, first found 0807 hetting KCJJ and then // ed to RDP3 until approximate 0830 fadeout. (Hutton) CUBA Cadena Agramonte ourfit here in slop w/SS mx and talk 2359 11/17. (Con-Kaz)

Three and one half pages this time. Another small column, which is an insult to my editorship. Something tells me that some of you aren't sending in DX to IDXD although you've got the radio on. About 5 pages is the standard for a winter IDXD column, based on last year when IDXD was responsible for a 50 page increase of DXN over the past year. Let me say no more .....

COLOMBIA Barranquilla heard w/local Barranquilla mentions 0645

#### GTG's

1580

A Windy City GTG will be sponsored by the Chicago Area DXers from Friday, Dec. 28 to Jan. 1. Location will be Robert Kramer's home, 3406 West Pierce, Chicago, IL 60651; phone (312) 235-5188. A vast number of Hammar-lunds is expected--so they'll have some interesting DX sessions. Things to bring: receivers, SC, CM, bumper stickers, etc., trades, veries and a few bucks to help pay for refreshments. A lot of events are planned, including a DXathon from Dec. 31-Jan. 1. Let Robert know in advance so he can plan, if you can attend.

The next meeting of the newly formed St. Louis Internationale DXers will be Jan. 20, 1980 at the Famous-Barr in Northland Plaza on the corner of Lucas and Hunt and West Florissant Roads, St. Louis, Mo. Meetings are at 2:30 PM on the 3rd Sunday. For more info write to Rich Eddie, 152 West Rose, St. Louis, MO 63119. Send an SASE.

MUSINGS

ERNEST R. COOPER 5 ANTHONY STREET PROVINCETOWN, MASS. 02657

The opinions expressed in this column are those of the individual members, and do not necessarily reflect those of the editors, publishers or NRC.

ON THE AIR ON VLGN-1510 PAUL MOUNT - 352 West Columbus Street - Nelsonville, Ohio - 45764 614-753-3280 \*\*\*\*\*\*\*\* Howdy. While not AM DX, I recently experienced the case of DX being there & only me appreciating it. Tuning the TV to see what was on at 2:30 a.m., my friends wondering why I went rushing off to my FM set after seeing an ID slide on 8 that said "WGH -High Point - Greensboro." Actual DX: 9/17- WYFA-1580 testing w/Dr. Demento or WGOE-type "Yallow Rose of Texas" & ID, loud, 12:40cm. 9/18- WIGN asked if I would like to fill in 6-10rm & I was glad to - I had a great time playing rock and getting to do an AM s/off. Wonder if anyone heard a guy named Richards as they DXed that Tuesday night? Leaving the station I tuned around for some BE games in the stretch of exciting races. However I was surprised or was it hosed trying to tune WWWE-1100 as it was Spanish I neard instead. 11:20cm. Tuning around in downtown Logan on 690, we heard WTIX-690 New Orleans w/rr 11:30pm, contest promo. fair, quick in/out fades. Coming home down U.S. 33 I also had SS equal to KYW. but mostly listening to 1100. The unID station played a lot of vocals w/fast beat, drums and borns prominent; i.e., what I hear on a lot of Central & South American stations. Around mid night I pulled off the road, and while nowhere near Murphy's Mart his effect was felt . nonetheless as 3WE came over the unID and domirated 11:55-12:05, ugh! At home, WWSW-970 Pa. playing "Year of the Cat" and Steve Lawrence to "Go Away Little Girl" so change log on them. They carry Penn State FB. (Or is it State Penn? -ERC) Piretes/Reds game heart on: WMES-590, WMMN-920, WJLS-560, WCHS-580, WGNT-930, WIMA-1150. Into Wed. 9/19: WDVA-1250 on top of WTAE 12:52-12:58am. WWWC-1240 Wilkes boro, N.C. w/WX & legal ID 1:01, not new, odd, as this was one of those three-year unreported stations in IRCA last year until I heard it. 9/19 also Auroral, not as strong though lower frequency clears were Spanish. 9/20- A visit to WHTR-1470 which probably stands for Hocking Tech Radio, said to be 50w., playing albums, as the operators watched TV. More to come, 73.

HE'S ALABAMA BOUND

DICK THUAX - 3003 Gleeson Lane - Jeffersontown, Kentucky - 40299 \*\*\*\*\*\*\*\*\*\* Greetings from the Blue Grass State - yes, even I Muse once in a while, especially when I log something! Eleven newies in less than 30 days. 10/14- WROY-1460 Ill. s/off 6 7:15pm, mentioned WRUL-FM. 10/28- First day back on standard time, KXRC-1530 Ark. s/off & 7:31pm killing WCKY, should ve been & 6:30. Two others noted late s/off too but no possible ID. 11/3- XENU-1550 Wexico s/off @ 8mm after many IDs & frequent slorar "LA Rancherita." 11/6- CHIN-1540 Ont. s/cff @ 5pm, WREJ-1580 Mich. w/NX @ 5:10pm, s/off 5:15pm. 11/10- WKNX-1219 Mich. w/rr & ID @ 4 :50pm, WMLS-1290 Ala. s/off @ 5:45pm, WEZQ-1300 Ala. s/ off @ 5:47mm. 11/11- WVSA-1380 Ala. s/off 5:43pm. 11/17- WRSM-1540 Ala. s/off @ 5:45pm. KLUV-1580 La. s/off & 6pm for first newie on 1580 in many a moon. I presently use an E-18QA w/23' loop, also an SPR-4 as backup on an 80 meter doublet. My R-39QA was in use for a brief time but is back to the repair man with AGC problems, which it has had since I received it in April from you-know-where. Also it had a crystal from a Motorola two way radio in it in lieu of the correct crystal for the 5 mHz bani, but I purchasel a crystal to correct that problem. Maybe I'll have it in service by the end of the season. More, as it happens.

(Buehler, coned.) All-American City) per their s/off announcement. 11/11- WVSM-1500 Rainsville, Ala. fair, mixing w/WCZY & KSTP. 5:59pm, KWAM-990 Memphis, Term. w/s/off, mentions of REL programming, KWAM-FM-101, & stating that they are an "equal opportunity employer". 6:06pm, KNIN-990 Wichita Falls, Tex. good w/T-40, ID. 11/12- 12:40cm, WEMP-1250 Milwankee, in for ten seconds or so, then no sign of him. lam, WEXL-1450-TEST, CID heard 52 seconds after 1:00am, some other code transmission was heard only partially. It made no sense no matter how many times I listened to the tape. Swing or Big Band mx was heard also - just after tape interruption, \$1:24am. No VID's heard. I hope they will verify my report based on this info. It would be New Hampshire \$1. 11/13- WEOO-740 Baraboo, Wis. W/pop mx going into the "Evening NX wrap-up", good in CEL mill & 5:13m. KCMO-810 w/WX by staff meteorologist Brad Field, mentions of 50,000w. 11/14- WEPM-1340 Martinsburg, W.Va. in fair/ good 6 6:50pm. They are now AN-6, SP MM c/w, per telephone conversation with announcer. He didn't believe that I had heard them until I played the tape back for him over the phone! TTer heard @ 1:57am was r/c of WHUB, weak VID taped. 2:16am, WATM-1590 good with their r/c lengthy VID's (for a change) and mx. 2:20sm, WFLI-1070 Lookout Mountain, Tenn. testing with 50,000w, VID, mx, excellent signal. 2:30, KCJJ-1560 must be a fulltimer now - they were all alone w/WX, SIDs, then mx. 2:55em, WGHC-1570 Clayton, Ga. w/ET, good w/VID, mx. I found them in the mull of a strong TTer up-North. No sign of CKIM, CFOR weaker than usual. 3:30 am, CHAL off, CKDR-900 Dryden, Ont. w/c/w, CHMM-FM ID as they are a relay as detailed in the log. 11/15- WGTL-870 Kannapolis, N.C. very good signal w/s/off beginning @ 5:11pm folo by Lord's Prayer sung by Perry Como. As 5:15 approached they were o WKAR F. Lansing, Mich., a daytime regular here. 11/16- WHDI-1580 Hammonton, N.J. w/f-c-TT, VID 8 12:09am. WQHO-1080 TEST didnot show here. Did they TEST? Enough for one week, more next time. Until then, good DXing to all.

HE'S GOT SPURS THAT JINGLE, JANGLE, JINGLE

GENE MARTIN - 3303 East Evans Avenue - Denver, Colorado - 80210 \*\*\*\*\*\*\*\* There has been some bragging in club publications recently as to which kilowatt-infested, local-plagued, QRM-cursed and image-afflicted DNer has the worst location for the pursuit of the hard-to-get distant station. I cannot let this sort of competition go by without responding to it for the FCC licensing mill has been running smok for years when it comes to Denver. We now have 12 ANers on AM and will soon have 13 (1090). Seven of them are NSP affairs that only an act of God ever silences. As for images, we have minor ones which are rarely heard because they are cover e up by major ones. Also, three of our Denver dsytimers, 990, 1220, & 1390, manage to transmit a ground wave all night, an open carrier of 100 watts or so. Our 1220 ground wave AN is strong as WOAI when you loop towward it. Furthermore this 1220 thing combines with KTLK on 1280, and leap-frogs the 1280 program onto KSL at 1160. The KTLK engineer was emazed when I pointed out to him how this 1220 OC mixed with the mathmatics of the superheterodyne to put his signal on 1160. But he had no difficulty understanding it. The local FCC knows all about the strong CC on 1220 all night & they don't give a tinker's dam that this daytimer never really shuts down. I am always amazed whenever I get sway from the Denver RF jungle and get to hear the clarity of signals in remote places. So I have fled this Denver location often, and in the last five years, I have sampled radio reception in such quiet places as Dallas, Minneapolis, far up in the mountains of Colorado, Central Iowa, NE New Mexico, London, Paris, Mazatlan, and the islands of Hawaii. We are going backto Hawaii on Dec. 3 for 12 nights. I'm taking along the GE Super Radio, and will feed what I hear into a Sony cassette receiver. That's how bad Danver conditions are. Just see how far I will go to get away from them!

LOGS SOME OF HIS HOME LOCALS IN MICHIGAN

DAVE YOCIS - 502 West McDonel - MSU - East Lansing, Michigan - 48824 517-353-1503 -OR- 85 Vesper Street - Fairfield, Connecticut - 06430 203-335-3370 I've had time to do everything but Muse lately. Many things are happening: DX NEWS is finally arriving here, not home, as my first request to the LPC was lost by the good ol' U.S.P.O.; now I get it the Saturday before the masthead date, not the Saturday after. 10/27- GTG in Kalamazoo w/NECers MAPTIN FOLTZ and BILL WHITACHE in attendance - Bill's owned about every type of RX in existence; comparing R-390's to TRF's makes my blood run cold, hi. Most in attendance were SWEC-types, but I don't hold that against them, hi. DX: I have tried every method in existance to destroy QRN which dominates most channels (or is even w /TVI, hi). Turning off the fluorescent in the hall permanent-like filters for the AC plug. sitting outside (in warm WX), or in the basement (in cold) all add up to 308 heard thus far, four veries (I occasionally get into a verifying mood). Highlights: 9/22- WEEL-960 Ala. w/ID, T-40 mx, good channel. ZIZ-555 w/carrier. 9/23- WKST-1280 Pa. w/lkw @ 1:11 am. 9/29: KFI-640 w/ID 8 2am right through carrier-current WMCD. 10/13- KLTR-1580 Okla. w/ llow w SSS. Outside in warm WX on MM 10/22: Nice N.E. opening, WJAR-920, WPRO-630, WICC-600. WPOP-1410. Also WKWK-1400 W. Va. & WSBC-1240 Chicago. 11/3- WINR-680 Eingham ton. N. Y. a 12:48am. 11/11: CKXL-1140 Calgary in WRVA SP 12:50am, WFIE-960 Va. in WSBT SP. 11/ 19- KFI-640 again, this time hetting WMCD, which has drifted to nearly 641. Too carrier

currents here are all NSP, surprising since nobody listens to them anyway. One thing that

going to a new DX shack teaches you is that NSP's aren't necessarily bad. WICC-600, which

hasn't been off in years, drew all sorts of evil words from me, but if they weren't on Mis,

they wouldn't be in my log today. Remember: Your NSP pest is somebody else's ML DX. Enough of the speeches, on w /DX. WWWI-950, ex-WHPN, is on w/BFL and veries. The CE veried

HE HEARD THE WORD-1080 TEST

my old WHPN report from last Spring and wants reports.

DAVE SCHMIDT - 42 Chelwynne Road - Castle Hills - New Castle, Delaware - 19720 11/17/79 \*\*\*\*\*\*\*\*\* Time for another Musing which is about as exciting as the urmasking of the Lone Ranger! To DX: 10/31- WSKE-1050 5:20-5:29 pm w/ABC network stuff, then s/off, no SSE. 11/7- WWSA-1290 5:20-5:29pm w/rr, ex-WTOC. 11/10- WSBE-1230 5:58-6:10sm w/s/on (no SSB), then Nx. 11/12- WEXL-1450 1-1:13am w/DX TEST, well atop for most of the time. 11/14- WMC-790 5:34-5:46pm, very strong w/c/w mx, and finally, KNIX-1580 6:58-7:24pm w/many spots, c/w mx, for a long wanted one (I missed the DX TEST last year!), report to CLIFF RENO. Odd thing on the KNIX reception, it was on the TRF, the 180 was getting too much TVI from the neighbor's set. WMC was on the 180! Verie total is at 1,006 w/the following added: WQIC-1060 f/c, & a nice v/1, business card, and CM from WSKE-1050 Pa., Pa. \$141, still 100% return for Pa.t Semi-local WNRK-1260 has been running tests on their new 1,000w grant, even ran mon-DA for a couple of days for tests. Normally, they are not heard here due to a deep mill at WBUD, even though they are less than ten miles away! The WQRO-1080-TEST was tried on 11/16 and noted weakly u/WTIC @ 12:35am w/rr, they've been in much stronger at sunset. Please keep in mind that anyone hearing WCHE-1520 is invited to send reports in care of my attention, since we are always interested in seeing how far out the signal goes. A v/l will be sent if reports are correct, return postage appreciated. Till next time, 73's

DX-PEDITION IN NARBAGANSETT MARK CONNELLY - 30 William Road - Billerica, Massachusetts - 01821 Wallon 11/22/79 \*\*\*\*\*\*\*\*\*\*\*\*\* On Saturday, Nov. 17, NEIL KAZAROSS & I installed two Beverages at his family's Summer cottage in Marragameett, R.I. for "DX-Pedition-" 79". We had called a few other lecal DXers, but they had previous plans. The cottage is located within a mile of the ecean. One Beverage, 15000/457m. long, was run at a bearing of 2100; this latter aerial gave daytime reception of WLW-700, WGN-720, WJR-760, & WBRM-780. Even low-powered WOSU-820 came in throughout the day. The 280° Bev brought in some TA's off the back but, unfortunately. TA CX were poor at the time. The 2100 Beverage worked like a bandit for bagging Cub ams & Central Americans. Several good Deep-South domestics were heard also. Neither serial was terminated. Phasing the wires permitted pest-mulling. We would have preferred to run Bewerages aimed better for TA's & eastern LA's, but houses, powerlines, & other obstacles prevented this. Neil expects to put up additional wires later. DXpedition gear included am R-39 OA & an HO-18OA. Besides the Beverages, Sanserino & MW-1 loops were used. Loggings from the trip should soon appear in the International columns. Neil is getting one of my R-390°s in exchange for the HQ-180A & cash. Watch out for more DX from Mr. Kaz. 73 and Merry Christmas to all! (I always thought a "Narragansett Beverage" came in cans -E C)

DX IS GOOD IN OREGO!

TODD WILLIAMS - 2179 Prospect - Hood River, Oregon - 97031 \*\*\*\*\*\*\* A lot of time has passed since I last contributed to your excellent column so I'll give you a rundown on DX in this part of the country. 11/2- 8:32pm, unID in SS u/WOAI, I suspect Cuba. 8:46 brought an ID from unn KAYK-960, T-40 mx. 11/6- At 10:13am, KYSS-930 had NX, first time heard at this location. On 11/4 @ 8:55pm 1460 had CWM mx & ID as "Califernia Country". I thought it might be KVRF, but heard again later on in the night. Log says KVRF is a daytimer. MM 11/12 @ 1:53am I noted KLAK w/TLK & @ 2:20, local KODL was off. S/off time according to log is 3:07. A few minutes later on 1410 KERN was playing T-40 u/CFUN. 2:45, WHAM was alone on frequency w/Pop mx & WX. On the afternoon of 11/12 KCHJ-1010 was doing the job reports w/GER & KIQ1 mulled. UnID on 970 @ 7:55pm w/BFL/EZL mx, KYTE mulled. 11/13- KLZ-560 was playing c/w u/KSFO & on 600, it was KOGO atop w/Fop mx, ID, WX. lam on 700 was KBYR & someone else mixing it up with WLW & on 11/4 I noted several unusual catches. At midnight XEC-1050 was in louder than ever for first time heard here. My best catch so far

(Williams, con'd.) this season has been CKQR-1230, unn, w/ID, & T-40 mx. Vell, that's about all the news that fits this time around. Good DXing to all and 73's, to every one of you from every one of me.

PICKS UP FOUR ON ONE PREQUENCY; THREE ON ANOTHER

SIDNEY E. MARSHALL - 7224 Pam Drive - Millington, Tennessee - 38055 \*\*\*\*\*\*\*\*\*\* Surprise, due to a slight delay in my work schedule change I'm still getting a fair amount of DKing time and Muse #4 out also. As Muse #5 will be out well after the New Year let me take space here to wish all NRC members a Merry Christmas and a Happy, and good DXing, New Year! I finally got the chance to call local member LARHY WAN HORN and had a most enjoyable chat with him. I found RORERT KRAMER's recent article on Sunrise DXing most interesting and am looking forward to parts 2 & 3 of this series. A large percentage of my loggings over the past few weeks have been SRS catches. I also enjoy SSS DXing ani yesterday, 11/20, I heard four new ones on 900 within a 15 minute period. i.e.: It started with KFAL Mo. 6 5:59 pm, with WX, then s/off, folo by KHOZ Ark. 6 6:01 pm. catching most of their s/off, then @ 6:07 KALT-Tex, came in for four minutes, real clear, with jewelry store spot, ID, and local NX & & 6:15pm KJSK Neb. was heard clearly with their s/off. During the last two weeks I've heard 21 new ones which brings my station total to 537 since April. During the past week three new GYers, i.e.: WELD Ga., WHOC Miss., & KYMN Neb., all on 1490. WHOC was on conducting a f/c at 4:1lam on 11/15. I've received Arthur Cushen's new book "The World in my Ears" and have found it to be very interesting! It's heavy on SW but does have an excellent chapter on MW with much info on "Down Under" stations. This book was mentioned in DX NEWS earlier this year. Time to flip the switch, so till next year, 73's and best of DXing.

MOTHBALL MEMORIES

-by CESAR OBJ IO CHAPTER CXXV - THE OLD DAYS IN THE DOMINICAN REPUBLIC Bani is a town situated about 40 miles SW of Santo Domingo, but in the late 30s and early 40s Santo Domingo stations were not heard in Bani because of their low power. On the other hand, we, at Bani, only had electric power from sunset to about midnight. Santo Domingo stations were heard in the daylight from moon to 2 p.m. when the power plant was "on" for some repairs and tests, but on Short Waves, on the 49 meter pand, they were HIZ-6112, HIG-6150, HIN, a frequency I don't remember. In the evenings the popular stations heard on Me were from Cuba, preferred station was CMQ for their interesting dramas like "Chan-Li-Po", the Chinese detective, La Corte Suprema del Arte with Cuban best singers and actors. At the time not everybody had a radio, you could count easily the homes that owned them and it was customary for you to visit them in order to listen to their radios. We used to visit some local stores which usually were open till about 10 or 11 p.m., and had a radio for customers to listen to the program of their preference. There was a time in 1937 when we had a professional base ball games and the power plant was put on operation to allow citizens to listen to the games on the short wave radio as Santo Domingo stations were too weak to be heard on MW, but we heard that way stations from Santo Domingo. Santiago and San Pedro de Macoris. During the Second World War a very popular station heard was WGED on short waves from Schenectady, N.Y. with thewar news in Spanish as well as commentaries by Vicente Towar and other speakers. They also presented spy dramas related to the was like "La Mascara Sonriente" (The Smiling Mask) about the Japanese espionage in the U.S., also music programs with Mexican singers and the Pan American Orchestra. When Dominican ball players went to Cuba to participate in the Amateur World Series the power plant was "on" for us to hear the games, even receivers were taken to school so that everybody could hear the games direct from Havana. I don't mention any frequency as at my home we did not have any radio, just the popular radios in the stores and I was so small that I was not allowed to touch them. Also the U.S. World Series were heard the same way, those places were full of fans at the time of the games to listen to them, at this time the games were received in English in Santo Domingo and translated simultaneously so that we could understand. The same happened with the Cuban night baseball on the late forties and early fifties, everybody went to the stores to listen to the games. They had a good rule: All games started at 8:00 p.m., but if there was a tie at midnight no new inning was started after that time and the game was a tie. Baseball terms were then: Almendares, Cienfuegos, La Habana and Marianac. At the early fifties ratios became cheaper when "universal" sets were introduced, those were receivers with no transformers which used tubes connected "in series" and mostly everybody started to buy them. That was when in 1953 I bought my first radio, a Phillips, made in Holland and started DXing in the short wave banks, as it only had a cand from 90 to 30 meters.

WEST WEEK, WE'LL TOSS IT BACKTO PETE KEEP, WHO HAS SENT US A FLOCK OF MOTHEALL MEMORIES ABOUT ENT. L-KNOWN RADIO STATIONS. WE AISO HAVE CONTRIBUTIONS ON HAND FROM MARK CONNELLY, MALCOLM MAXWELL, and DON KASKEY. ANYBODY ELST OUT THERE HAVE SOME RESOLLECTIONS OF THE OLD DAYS. OR THE NOT-TOO-OLD DAYS? WE'D LOVE TO HAVE THEM FOR THE COLUMN: PLEASE DOUBLE SPACE.

\_C\_A\_N\_A\_D\_I\_A\_N\_\_C\_A\_P\_E\_R S\_ \_BOB'S GETTING SOME GOOD DX WHEN TIME PERMITS

BOB LOEVEN - 2146 Sunnybrook Court - Oakville, Ontario - L6L 1P4 \*\*\*\*\*\*\*\* Not much time for DXing lately, although what time has been available has been very productive. 9/6- WNYC-830 in with fair signal @ 8:13pm with Blue Grass concert and membership appeal (\$20); two on 820 heard at 8:29, WOSU signing off ani WAIT w/YX, both with fair signals. First Colombian at this location, HJCY-810, in at 10:20 with very poor signal u/MGY; & 8 11:00 WHJB-620 in for the first time with Avco ai, poor signal. 9/7- WIOU -1350 poor at 9:30pm with local football game. 9/14- WDXR (or WPAD?), call not mentioned)-1560 poor u/WQXR @ 10:09pm with ads for Paducah area businesses and football. 9/15\_ WGRP-940 caught 8 6:30am s/on with poor signal; WFIR-960 very weak 3 9:30pm w/N.C. State-Virginia FB. 9/21- WMMN-920 weak @ 10:06 after CBS NX w/ID; first Mexican, XEEF-1570, caught @ 10:20 briefly o/CFOR/CHLO with EE religious program. 10/19- WIRE-1430 heard in CKFH mull with ads & ID @ 10:52pm with fair signal. 10/29 - WMCA-570 first appearance here noted at 9:24rm w/ID & talk show, poor signal. Second Mexican noted @ 9:30pm 11/4 - XEDM-1580, w/fair signal; regular CEJ well unier. 11/12- WQQW-1590 heard u/WAKR with poor signal at 9:20pm; South Dakota #1, KKAA-1560, caught at 9:30 u/WQXR w/CBS NFL football. I have also noted regular appearance of SS unier mear local WWWE-1100 on most nights lately, I preseume a Colombian but no IDs yet. Recent veries from WZZD-990 (for March \*78 report), WGGO-1590. WJAC-850, CEWS-960, WFIR-960, WIRE-1430, & WMAQ-670. 7312.

LOTS OF SPANISH IS MAKING IT INTO QUEBEC TOM FAWCETT -785 47th Avenue - Lachine, Quebec - H8T 2R2 514-637-6265 11/21/79 \*\*\*\*\*\*\*\*\* Here are the results of my first week's serious DXing in a whole year. 11/12-New: 4VEC-1035, Cap Haitien at 5am EST, in SS per skei, for country #28. 11/13- CMEP-670 Cuba, XEW-900 Mexico D.F., Emisora Atlantico-1070 HJAG, possible Timepo-YV0Z-1200, all past 11m. 11/14- HJAI "R. Tropical", also new, R. Lighthouse-1165 w/EE ID & TC GMT-4 @ 7:10pm EST. 11/16- Soccer game on 570 kHz - possible Rumbos TVLX or Rebelde CMKP, w/mentions of Caracas, Santiago de Cuba, & Barranquilla; also geme of some sort (either soccer or baseball, surely) on 780, CMJN, also Rebelde, past 10pm, sounded similar to 570, so may both have been Rebeldes, since they are, by necessity, //, but no IDs so no IDeas. 11/20- HJAI-1040 and HJAG-1070 @ 5am. Past 7:55pm the same day: UUP-529, NB-530, Guadeloupe-640 w/FF cheerleaiing, almost, accompanied by bulb-horns and sirens; TVRS-1020, La Asunción, HJAG-1070, BB u/ WTIC-1080, & SS talk u/WCAU, too. No IDs on either of these, because the two pests would fade in at very inopportune moments. CHNC-610 New Carlisle also appeared, at 8:15pm. During this nine-day period, unID SSes have been noted on 1130 & 1170; as well, he to heard, but unresolved, on 545, 575, 675, 834, 895, 995, 1025, 1145, 1205 & 1265. I've heard wox before on several of these frequencies, but doubtfuls are 675, 995, 1025, 1145 & 1205, since they might be just side-band interference from CBF-690, CKCM-980, WBZ-1030, WNEW-1130 & WCAU-1210 respectively. 675 and 895 are still hopefuls. I will keep trying to get some vox on these, while CX remain good. GWAITH & OIDHCHE MHATH!

TEMPORARY HONORARY CANADIAN! GEORGE C. GREENE - 1527 Sumet Avenue - Akron, Onio - 44331 \*\*\*\*\*\*\*\*\*\*\* Not much new DX to mention, but I do want to get a Musing in for the Canadian issue, as I've been up there so much lately. We may be getting two new Toronto members soon, also. Only DX catch is WEGO-1330, heard at SSS the other Sunday evening, 10/ 21. Locally, WJMO-1490 has been sold to the owners of WBIS/WLIB/KGFJ - no format change expected, of course. WZZD-990 has been par chased by the WWDJ owners & is supposed to be going religious, as KIIS-1150 already has. Speaking of KIIS, I'll be in Southern California over the Thanksgiving week and should be bringing back lots of air-checks - those wishing to trade some, please write. Bob Bittner, of WHOA-870, is now at oldies-formatted WMYN-1550. WLTH-1370 is getting 500 watts at night, while WDAE-1250 mas applied to be non-diretional during the day. WPEN-950 has iropped their evening talk show and is now basically downtempo MoR, with lots of Streisand/Sinatra-type stuff. WYSL-1400 has also softened their sound to a somewhat similar thing, except for more soft-rock oldies from 15-10 years ago, leaving the rock to their AOR FM, WPHD (with one of radio's best morning teams, Taylor and Moore). Guess that does it for now. 7911.16, and 75.

JOSEPH FELA Jr., 150 Robert Place, South Plainfield, N.J. 3708), is readying this year's frequency check list. Please get may and send num your additions, corrections, and deletions from this year's list, so that the new one will be the latest word available anywhere.

REPORTS ON NORTHEEN CHANGES

ERIAN VERTON - General Delivery - Elsa, Yukon Territor, \*\*\*\*\*\*\* A few new bits of information. KABN-1150 is on the air, seens as hours NSP w/a varied format, is commercial, but doesn't seem to be drawing many sponsor., claims a potential audience of 250,000. KBBI is also on, it is non-commercial, and again a mixed bag type of format, signs off @ 5am on 1250. CFNI-1240 noted on, 9:38am 13/23 w/local program, and CJCD-1240 Yellowknife, N.W.T. is on, and maybe 24 hours NSP, with uptempo Noll, puts in a very good signal here, even better than CFYE-1340. Also new is a E. Moscow F.S. program in EE on 720, was noted a few times at 6am, end of October, beginning of November. w/a very good signal, no announcement about this frequency given between programs. Finally S. Korea's K.B.S. stations on 558/603/1143 kHz have a half hour ES lingo service at 6am & 6 pm, very strong at 6am on 1143 here. I think this service is only on weekings forean dates. bit I'm not sure. KJNO-630 noted w/s/off @ 6:07am 11/10, w/mention of a s/on in six hours, which seems odd, as that would be 9am Pacific Time, maybe they forgot to change their s off and are on longer now. I heard Al Collins on KGO-810 read out a few things from IRCA's DX Monitor, a couple of weeks ago. Is this a regular feature now on his snow at a certain time and day? That sure would be a great help here, with our mor mail service. DX NEWS takes quite a while to reach this shack. Anyway that's the way it is, all times EST. 7313.

THATS IT - END OF THE CANADIAN REPORTS! LET'S HOPE THE NEW ENGLANDERS WILL TURN OUT FOR THE DECEMBER 28 ISSUE. THERE STILL MIGHT BE TIME TO GET YOUR MUSING IN - BY DECEMBER 14! THE MOUNTAIN STANDARD TIME ZONE FOLK AND THOSE OF TEXAS FOLIOW, DEADLINE IS DECEMBER 24.

TELLS US ABOUT SOME NEW STATIONS

11/23/79 DOUG BRARD - RR 1 - Springville, Iowa - 52336 \*\*\*\*\*\*\*\*\* Muse #3 and the second which ERC has had to drag out of me. With one year old Dennis around, DX has been limited, but sometimes the lure overwhelms. 9/4 (in Southern Ioma) - KLBA-1370 w/OC, ID 6 4:30pm, should be on RS by now. I also noted KCRO-660 Christian Radio in Quaha - ex-KOWH all-day gospel. 9/15 (at home)- new local KLEH-1290 noted w/CWM, second day on. 9/17- KDKD-1280 7em s/on, easy; KNIN-990 10:20pm w/ID & WX, weak, first time w/1 kw; KGGF-690 w/K.C. BB, 10:55-11pm ID, fair. 10/20- CKIM-1570 very strong - slow, almost EElike ID @ 10:30pm, DA problems? I'm happy to get this guy - I'i heard him a week earlier, but not enough info to log. 11/18- KPEC-1040 u/WHO OC w/UPI NX to ID @ 8: 5am, much wanted. In the 8/23 DX NEWS, someone, I believe BILL TOWNSHEND, was surprised to hear KFYE-550 day time in the Twin Cities. KFYR claims it has the largest daytime land coverage of any U.S. station. Northern plains' ground conductivity is second to the oceans'. We followed KEN ONYSCHUK's footsteps through the Quad Cities. KSTT-1170 DOES have a pretty CM, if not entirely accurate. WOC-1420 does NOT stard for Wonders Of Chiroprictic; the call was government assigned in 1922 and Palmer, the chiropractor, didn't even own the station until later. WRJZ-620 will build a new three-tower DA at their present site. KCPS-1150 is CWM (was C&W) & means Country-Politan Station. KBUR-1490 us 24 hours, SPG MM 1-6em. KQWB's-1550 new DA-N has mills at 5 & 175 degrees & six more in between (toward the East). KFNW-1170's 10cw is on; DA puts 1 kw to the SE, more elsewhere . KDTH-1370's new DA & power puts more to the S & to the W, but rost of it still goes N. Their four 5/8 wavelength towers give me comsiderable sky-wave at night & I'm only 50 miles away. KFVS-950 is now KGIR - did that call belong to someone else years ago, maybe KXLF-1370? (Verily! -ERC) Also WWSA-1290, ex-WTOC. I renember seeing the WWSA call somewhere in the days of my youth. Could one of you DX veterans help me out? The talk about a daytime pattern book has died out; I would pay well for such a book. (Me too -ERC) Address for KLEH-1290 is Box 37, Anamosa, Lowa, 52205. Does JOHN CALLARMAN read this stuff or should we also send it to him? Broadcasting says WARC- 179 will likely result in BCB expansion, but only to1705 kHz & possibly down to 525 kHz. Another article says that if we adopt 9kHz spacing, the channels will be the same as the rest of the world's to avoid hets. That means no splits. Write your congressman or woman. Total heard - 670. RAY ARRUDA'S GTG WAS GREAT FUN FOR ALL

ERNEST R. COOPER - 5 Anthony Street - Provincetown, Mass. - 02657 617-487-9337 11/26/79 \*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\* FM veries are at 25; AM stay at 4,126 - FM is 0.6% of my Al total, hi. We got off a couple of SS reports on Wed. At 11/25: TISRHB-1125 was doing real well today 12:30-1:10am, including some USA mx like Linia Ronstait's. On 540, a solid signal was noted which turned out to be R. Perija, Venezuela, which now must be running AN and killing off former channel boss, R. Horizonte, Colombia. Logged & reported, 1:27-1:50mm. Thanks giving Morning, 11/22- A mystery SS on 544 kHz, not Perija or Horizonte-540, 12:17-12:57em s/off, I couldn't fathom anything like an ID, not even a country! Ana, not heari since. The wandering mystery was on 1426.5a this AM & 1:17, but very weak today. There was an unID 88 on 1102 6 1:41, and unID station & language on 865 3 2:14, both these wear. Nimit PRN-1020 was at it again this morning, noted & 2:18 - a real turkey on Turkey Day. Larry King says KREA-1480 is joining his ever-growing chain. 11/23- On 1425 today, and the language was definitely SS, so maybe this isn't an Arab, but someone in the Islands with Hindi-style programming at times - 'twas strictly LA-type today. 11/24- Nice-1557 nice 6 1:09, and SS on 1584 at that time. UnID TTer on 1550 went off & 1:17 with no announcement. Unn WANS-1580 ET/mx @ 2:05-2:15 ID. SSS, unn ZNS1-1540 o/APTR & 5:24pm, & rare MSTP-1500 o/WCXI, both o/WTOP @ 5:30pm. SM 11/25- Unn but extremely rare WTAC-600 @ 12:55 & off/on all AM o/the two SSes. WPOP-1410 & WBSM-1420 were off all AK, CFMF hai 1410 & CKML had 1420. Mutual was running a Th mans even after 2:30a.m. And, a really super time was had at RAY ARRUDA's lower Deck this afternoon! There were 14 of us, I believe - thanks for a great time, hocket Hay! MM 11/26- No DX, I had a hang of a hellover, hi. I dread to read what I may have misses. A very Happy Chanmukkah to all our Jewish members, and C U N 7.
