Welcome Dix'ers:

It is my pleasure as Governor of the State of Colorado to welcome the members of the National Radio Club to your 1984 convention in Colorado Springs. I hope you will take advantage of this time to see the many sites that we have to offer.

CAPS are local strength

Another SWAT Feature: The Rocky Mountain Hidden Sticker Contest!

The sticker must be turned in prior to the Sunday afternoon auction. It is specially marked and hidden in the confines of the City of Colorado Springs.

After reading this program booklet, you will know exactly where the sticker is and will have to refer to the Tourist Map in the Convention packet in order to reach your destination.

So those who know the twisted mind of your host will be heading there right now!

Good Luck, and Good Reading!!

About The Convention Package

As you can see there is a wealth of information and guides in your convention package. The best available map is included so that you may find your way around town and to the various Natural Wonders around you. Please take advantage of your free time and see some of the wonderful Colorado Scenery before its time to go home. NRC SWAT has gone to great lengths to provide a free environment so that your Colorado trip will contain many more memories than just the NRC Convention.

What Is The NRC?

The NRC is the end result of a conglomeration of people as diverse as snowflakes. All aimed in different directions and for different purposes. Living lives as they do in as many different ways as can be imagined. To me, as to them, the NRC is our one link to each other, no matter who we may be, our one common interest BCBDX. The NRC is those people all combined in one common goal of helping others with our common interest and sharing our common goals to promote and further develop our hobby. Thanks for coming!
