DX Test ...

WYST-1010, Baltimore, MD will conduct a DX Test on Monday November 6, 1989 from 0330 to 0410 ET. During the test period WYST will raise power from night time 28 watts to 1000 watts non-directional. This equipment test will use Oldies music from WYST's normal format with frequent announcements identifying this as a test broadcast. Please send all reports including return postage to Mr. Dan O'Neill, Program Director, WYST-AM, 1111 Park Ave. "The Penthouse", Baltimore, MD 21201. Test arranged by Bob Harrison and the Colorado CPC Machine for the NRC.

From the Editor ...

Tsk! Tsk! Looks like some of us forgot that DXN is weekly now, as some of the regular columns didn't make it to Topeka by the Saturday deadline. The Volume #57 schedule has been printed twice before, but I've included it again on page 36. And Tsk! Tsk! on me for not printing a lighter photo of Ernie Welsadowski in the last issue. His video of the 86 NSRC convention is excellent...and just to prove it to yourself, send Ernie $15 for your copy: 13312 Westwood Lane, Omaha, NE 68144-3503. 85 goes directly to the NRC.

Welcome to editor/cartoonist Karl Forte, whose premier e of "Sparky" appears on page nine. And I talked by phone with future "Target DX" editor Jim Renfrow, who is setting up this new column and will be sending requests for spot help to active DXers. If you would like to appear in the first columns, send your requests for help with locating particular stations, or recommendations for hearing DX stations, either domestic or foreign, to him at 61 Wilcox Street - Rochester, NY 14607.

Editors and other contributors ... please note that the standard page margins are three-tenths of an inch on either side, so that your columns should measure between 7.5 and 7.9 inches wide, hopefully with even margins on each side. If you send columns on 14" paper, leave two inches blank space at the top of the first page (column margins are 1.5 inches) and a half-inch margin top and bottom. Some of the columns are creeping in or out, resulting in wasted space or cropping by my scissor. Also, if you use a computer/word processor, I would appreciate you sending me information as to what computer and software you use; I may be able to save you some time and postage if you can send a disk which is compatible with equipment which I have or access.

Radio That ... This ubiquitous radiator has now shown up on 1100, covering WWWE like a dirty shirt here in Topeka. parallel to 830, 1040, and 1160 Oct 5 and 6. At least the music is interesting.

Notes from IQ ... Mike sez that Updater #3 for the 98th Edition AM Radio Log is ready and available for $2.00 from the Pub Center; throw in an extra buck and get an updated Products Catalog from Ken Chartier. Mike and Ron Muzzo also reminded you that it takes a couple of weeks or so for labels to be updated when they have paid their subscription fees ... don't panic if the label still says "Last Issue"; only those who don't pay will be dropped (and bounced, by the editor, HE). They joined ... Arthur Robb - Pittsburg, KS; Andrew Herrschall - Bethel, Me; Terry Moon - Vista, CA.

From the pages of DX News

Twenty-five years ago ... From October 3, 1964: 15 1/2-year-old Jerry Perence - Stanford CT was in his first Masing, noting that CFBO -570 downed out his favorite station, WWCA "the other night" ... Stan Moore found a bag of oldies left over from the convention.

Ten years ago ... From October 22, 1979 ... Pat Martinson announced a dues increase to $18 ... WMCA -570 made it to Delaware for Bill Townsend 9-13 ... César Obijo, Santo Domingo, Dominican Republic, reported making it safely through Hurricane David on August 31 ... Karl Jerr - Decatur, GA reported the first sign-on of WRKP in Dallas, GA
CALL LETTER CHANGES
Old call:  New call:
650 WAOP FL Jacksonville  WPAT  Notes on calls: After all the confusion on whether WAOP changed calls to WPAT, they have now changed to WPBT. WPAT was never used.
750 KJIM CA Thornton  KZMN  1150 KZMN CO Englewood  KJIM  two MSS
1540 KNZS CA Sequoia  KLAU  WJRX, WJRF (see last)

Although this change has yet to be noted in the FCC call change list, it has been reported by several members and was confirmed first-hand today while we were monitoring the CB during Hurricane Hugo. The KJIM/KZMN change reflects the facility swap noted in the last issue.

APPLICATIONS FOR NEW STATIONS
None

GRANTS FOR NEW STATIONS:
670 VA Claremont: 20000 (5000 CH) DS

HURRICANE HUGO: As this issue is being prepared news of the damage caused by Hugo to broadcasting facilities is just starting to filter in and we have included these few reports above. We know that most stations in the area of Charleston, SC received heavy damage and ALL of them were off the air for a period of time although some returned within a day. Any further information and or reports of temporary low power or non-directional operations will be included in subsequent issues. By the time this reaches you most stations will have returned to some sort of "normal" schedule but we hear that some smaller operations which suffered severe damage may be off the air for a longer period. Details in the "trade press" so far have been sketchy. We know that all WBCs are heartened by the rescue efforts and that our members in the affected areas have weathered the storm with no major problems.

CITY QUIZ
John S. Bowker, Valparaiso, IN
QUIZ #3

Only one city in the United States has stations operating at the five dial positions shown below. Of course, there may be other stations in this city too. Can you spot the city?

\[ \begin{align*}
910 & \quad 950 \\
990 & \quad 1170 \\
1450 & \quad 1590 \\
\end{align*} \]

Here is a hint: it is one of those: Richmond, Las Vegas, Miami.
(The answer will appear at the end of the next City Quiz in Dec.)

The answer to City Quiz #3: San Diego
Radio to the Rescue

Stations Stage Renal Efforts in Hugo's Wake

At one point, Savanna, GA, was in Hugo's path and WFXG was more insulated from the storm. Despite this, the station took steps to ensure the safety of its employees and listeners. The station also played a role in coordinating efforts to help those affected by the hurricane.

Blowin' in The Wind

- Every Charleston station stayed on the air
- WAKR sends first text message
- Stations abandon
- WOAS and WOFV go off

"A big DIXIE-REPUBLIC WELCOME to two new report- ers who are checking in with their initial DX to this column: Jeffrey Lees of Toledo, Ohio and Robert L. Venable of Fort Belvoir, Virginia. They are among a number of journalists who have reported for their papers in the hurricane's aftermath. "I hope to bring you along for the ride, " Lees said in the pages of DX NEWS. "I've been on the Cutting Edge, and I was interested in reporting for DX, after having been around for a long time."

Due to the large number of reported hurricanes during the period Hurricane Hugo was wreaking devastation upon our East Coast, I've broken those out of the normal categories. This column is to give them their own significance as a group (outside the station for their efforts)." The column is being written by the hundreds (and that's just one I'll throw out to you contem- platives. I want your own efforts? Let me know your own way of doing this. What do you think?"

The final column is "What a hell of a job!" I didn't just get off the train track, but for the life of me, I can't figure out why one. Hup!"

From up this way in the Hutse State, WKCT-1220, Hamden has dropped its fine classic rock for very entertaining business news for the thousands of New Havenites who thrive on such information. And from the Boston Globe, WADD-1210 is now listed in the rate table on the TV page. But they must now be on with their folk music and acoustic format. WADD stands for "Walden Pond" a beautiful local pond enshrined in Thoreau's literature. And Eric Bueman writes from GA that WHCA-759 has been sold to Salem Communications, and will no doubt go to a religious format, as Salem's other stations have done. Eric learned this from "Religious Broadcaster" Magazine. This is not a problem on the New York dial, but as there are but two AM stations carrying religion audible in the fives boroughs, plus a Spanish Christian outlet. Certainly not Atlanta!!! Sure beats in, both cases, either business news or motivational talk, the ultimate confusion of a downmarket radio station management that "Hey, I don't know how to manage this thing!"

Our contributors are Dave Schmidt (DE), Eric Bueman (EB), The M Street Journal, and Geoce Parrish (GP). Thank you, Gentlemen, and here we go...

WMCA, longtime Gotham talk station, getting old-time religion after 19 years

New York — What was once the home of the New York City Firehouse, the WMCA AM-1130 station is now being renovated and will reopen as a talk station. The station had been closed since 1979.

According to WMCA, the station will go on air with a new format that will include classic rock music. The station plans to use its own disc jockeys to play the music.

WMCA says it will be the first time in 19 years that the station has featured a talk format. The station has previously been a music station.

According to WMCA, the new talk format will feature a mix of classic rock music along with interviews and discussions on a variety of topics.

The station will be broadcasting from its studios on 1130 AM, and will be available on the internet as well.

WMCA says it is looking forward to bringing back a classic rock format to New York City for the first time in 19 years.

Newsvendor suggests only two stations are making "serious money"—one which general manager described as profits of close to $3 million a year. Almost six additional stations' earnings are in multimillion range.

The top musicmaker in KDKO is 60.4% of the station's total revenue, million Nielsen Archives, "Magic," and country station WYRC (92.9 FM). Greetings all...NMCN has finally let the other shoe drop. After languishing in the bottom of the ratings for more years than they care to remember, the station has been sold and an all-religious format will be instituted. Veteran talkshow hosts Barry Parker and Barry Gray et. al. are gone. It certainly is sad to see a station with such a rich history from the early days of radio in New York City, through the Great Depression era of the 30's to fall into such a state.

With NMCN's move to religious programming the former Trivia Night and the Baseball Night hosted by Dr. Z. Vornado Mccree will move its operation to WWSJ in the New York market. Neither of these programs has been a success, despite the high ratings that "The Bible" has. The new stations will have to be on their toes to keep up with the competition.

Radio Roundup... by Pete Kemp

Ted Brown has dropped out of the daily grind at WNEW-A. A popular on-air veteran of the Big Apple radio scene, I still remember his from his days on WNYM doing his Ted Brown and the Red Head show. Ted has been with WNEW for quite some time, with a little break for stints on WNBC. Ted had a great deal of fun with the radio business, but he now has his new station by making a phone call to his last station. He would ask for the mailroom. When the person he would identify himself and ask that mail be forwarded to his new station, and that an official mail room be set up. He would then confirm his arrival. He will remain at the station doing special projects and fill-in work. His plans will be taken over by another radio vet Bob Pfitzmanns, who at various times has worked at WNEW and has most recently been heard on the ABC Radio Network.

According to the latest Arbitrion ratings, the top shows in the country are WNYC's Morning Zoo Crew of Ross Britton & Brian Wilson, the recently unemployed Jim Kerr and Max Tracy with Rich Beene & Greg Dwyer. Followed by Barry Harrison of WCVB-FM, Jay Thomas KFRC, Matt Johnson WCIL, Bob Collins WGN, Howard Stern WQFX, John Gambling WOR, Carol Ford and Mike Love WOR.
