## DX Test ...

WYST-1010, Baltimore, MD will conduct a DX TEST on Monday November 6, 1989 from 0330 to 0400 ELT. During the test period WYST will raise power from night time 28 watts to 1000 watts non-directional. This equipment test will use Oldies music from WYST's normal format with frequent announcements identifying this as a test broadcast. Please send all reports including return postage to Mr. Dan O'Neil, Program Director, WYST-AM, 1111 Park Ave. "The Penthouse", Baltimore, MD 21201. Test arranged by Bob Harrison and the Colorado CPC Machine for the NRC.

From the Editor ...

Tsk! Tsk! Looks like some of us forgot that DXN is weekly now, as some of the regular columns didn't make it to Topeka by the Saturday deadline. The Volume #57 schedule has been printed twice before, but I've included it again on page 16. And Tsk! on me for not printing a lighter photo of Ernie Wesolowski in the last issue. His video of the '89 NRC convention is excellent ... and just to prove it to yourself, send Ernie \$15 for your copy: 13312 Westwood Lane-Omaha, NE 68144-3543. \$5 goes directly to the NRC.

Welcome to editor/cartoonist Karl Forth, whose premier e of "Sparky" appears on page nine. And I talked by phone with future "Target DX" editor Jim Renfrew, who is setting up this new column and will be sending requests for start-up help to active DX'ers. If you would like to appear in the first columns, send your requests for help with hearing particular stations, or recommendations for hearing rare stations, either domestic or foreign, to him at 61 Wilcox Street - Rochester, NY 14607.

Editors and other contributors ... please note that the standard page margins are three-tenths of an inch on either side, so that your columns should measure between 7.5 and 7.9 inches wide, hopefully with even margins on each side. If you send columns on 14" paper, leave two inches blank space at the top of the first page (column flags are 1.5 inches) and a half-inch margin top and bottom. Some of the columns are creeping in or out, resulting in wasted space or chopping by my scissors. Also, if you use a computer/word processor, I would appreciate your sending me information as to what computer and software you use; I may be able to save you some time and postage if you can send a disk which is compatible with equipment to which I have access.

Radio Taíno ... This ubiquitous radiator has now shown up on 1100, covering WWWE like a dirty shirt herein Topeka; parallel to 830, 1040, and 1160 Oct. 5 and 6. At least the music is interesting.

Notes from HQ... Mike sez that Updater #3 for the 9th Edition AM Radio Log is ready and available for \$2.00 from the Pub Center; throw in an extra buck and get an updated Products Catalog from Ken Chatterton. Mike and Ron Musco also remind you that it takes a couple of weeks or so for labels to be updated when they have paid their subscription fees ... don't panic if the label still says "Last Issue"; only those who don't pay will be dropped (and bounced, by the editor, hi!).

They joined ... Arthur Robb - Pittsburg, KS; Andrew Herrschaft - Bethel, ME; Terry Moon - Vista, CA.

## DX Time Machine From the pages of DX News

Twenty-five years ago ... From October 3, 1964: 15 1/2-year-old Jerry Peterson - Stamford CT sent in his first Musing, noting that CFCB-570 drowned out his favorite station, WMCA "the other night" ... Stan Morss found a bag of lollipops left over from the convention.

Ten years ago ... From October 22, 1979 ... Pat Hartlage announced a ducs increase to \$17 ... WMCA-570 made it to Delaware for Bill Townshend 9-13 ... César Objío, Santo Domingo, Dominican Republic, reported making it safely through Hurricane David on August 31 ... Karl Jcter - Decatur, GA reported the first sign-on of WKRP in Dallas, GA

Status changes in AM stations, supplied by the FCC and NRC members

#### CALL LETER CHANGES

01d c	all:		New	call:	
690	WAPE	FL	Jacksonville	WPDQ*	*Notes on calls: After all the
760	KJIM	CO	Thornton	KRZN	confusion on whether WAPE changed
1150	KRZN	CO	Englewood	KJIM	calls to WJKL or WJKF (see last
1540	KNZS	CA	Soquel	KLAU	two AMS) they have now changed to
					WPDQ. WJKF was never used.

Although this change has yet to be noted in the FCC call change list, it has been reported by several members and was confirmed first-hand here while we were monitoring the BCB during Hurricane Hugo. The KJlM/KRZN change reflects the facility swap noted in the last issue.

### APPLICATIONS FOR NEW STATIONS

None

#### GRANTS FOR NEW STATIONS

670 VA Claremont: 20000 (5000 CH) D3

### APPLICATIONS FROM EXISTING FACILITIES

540	KDFT	TX	Ferris: night power to 300 watts
860	WGUL	FL	Dunedin: reduce night power to 1500 watts
900	WMVU	NH	Nashua: reduce day power to 910 watts
1200	KOQI	CA	Soquel: night power to 1100 watts
1260	WBUD	NJ	Trenton: day power to 5000 watts (amends previous reque
			to reduce day power in pending application for changes:)
1530	KGTN	TX	Georgetown: day power to 10000 (990 CH)

#### GRANTS TO EXISTING FACILITIES

550	KJOR	NV	Sun Valley: relocate XR (new CP)
750	WNYS	NY	Canton: reduce day power to 2500, relocate XR (CP)
810	WKNV	VA	Dublin: reduce power to 600 watts, antenna to D1 (CP)
820	WAPO	TN	Jasper: power to 10000 watts
880	KJCD	CA	Montecito: relocate XR (CP)

- 1010 WXTL FL Jacksonville Beach: powers to 25000/10000 U4 1020 WBSH AL Heflin: relocate XR (CP)
- 1070 WAPI AL Birmingham: changes in antenna system (remove top loading) 1150 WSNW SC Seneca: changes in antenna system (reduce height)
- 1160 WMLD GA East Point: relocate XR (CP)

1550 WYNX GA Smyrna: night power to 1600 watts

- 1230 WBOW IN Terre Haute: to 640 kHz with 250/250 U2
- 1240 WGRM MS Greenwood: reduce power to 730 watts, taller tower (for FM)
- 1260 WBRN NY Beacon: taller tower
  - WMUU SC Greenville: power to 5000 watts (odd in that we already list them as 5000)
- 1290 KLVS OR Lake Oswego: relocate XR (presently silent)
- 1320 KSMX WA Walla Walla: relocate XR
- 1360 WHBG VA Bridgewater: relocate XR
- KTSM TX El Paso: relocate XR 1380
- 1410 WZAL GA McDonough: day power to 2500 watts
- KLVO TX Athens: relocate XR
- 1450 KOBO CA Yuba City: night power to 1000 watts
- WSDS MI Ypsilamti: day power to 750 watts, city to Canton, MI 1490 WMOG GA Brunswick: reduce powers to 600/600, changes in antenna
- 1550 WCXJ PA Braddock: relocate XR
- Note that many of the above applications are from new stations (CPs) which

are not yet on the air. If nothing else, these indicate that the respective projects are still alive.

## OTHERNESS 610 WAES

1110

640	*App	IN	Battle Ground: application for new station DISMISSED
670	*App	NC	Kitty Hawk: application for new station DISMISSED
690	WPDQ	FL	Jacksonville: temporarily using day power/pattern at night
	,		to facilitate emergency communications in Hugo's aftermath,
			has since returned to normal operations
750	KKNO	LA	Gretna: new station should be ON THE AIR when you read this
			Hahira: new station is ON THE AIR with REL, ID as "Light 81"
1000	KBIB	TX	Marion: new station should be ON THE AIR when you read this

NC Charlotte: lost all four towers to Hugo, presently on with

NC Charlotte: both towers for night pattern toppled by Hugo,

temporary non-directional antenna and reduced power

presently non-directional at night KBET CA

WBT

Santa Clarita: clearing up the anomaly posed two issues ago, when this station was granted it was licensed to Canyon Country, CA, an unincorporated area. Since the CP was granted Canyon Country and three others unincorporated voted to form the new city of Santa Clarita which thus becomes the city of license for this new station which is ON THE AIR. Although Canyon Country may still be mentioned in promo announcements, their official hourly IDs give Santa Clarita as the location

Berlin: silent station is back ON THE AIR 1230 1330 KDRQ ND Wishek: station went SILENT 9-15, owners' options include

selling the station or moving it to Linton, ND so it's return is possible but not expected soon.

1380 KLNI HI Pearl City: SILENT station has been sold (to Hawaii Public Radio) and is expected to return to the air soon

1400 KIVR OR Cave Junction: station is SILENT but in the process of being sold so silence may not be permanent

THANKS to the following Otherness contributors: TIM HALL, ERIC BUENEMAN, WILLIAM MOSER and ED ROBINSON!

73 and Good DX, Sany & &KF Jerry Starr & Buffalo K. Foonman

HURRICANE HUGO: As this issue is being prepared news of the damage caused by Hugo to broadcasting facilities is just starting to filter in and we have included these few reports above. We know that most stations in the area of Charleston, SC received heavy damage and ALL of them were off the air for a period of time although some returned within a day. Any further information members can provide about temporary low power or non-directional operations will be included in subsequent issues. By the time this reaches you most stations will have returned to some sort of "normal" schedule but we hear that some smaller operations which suffered severe damage may be off the air for a longer period. Details in the "trade press" so far have been sketchy. We know that all NRCers join us in hopes and prayers that our members in the affected areas have weathered the storm with no major problems.

John S. Bowker, Valparaiso, IN

QUIZ # 3/

Only one city in the United States has stations operating at the five dial positions shown below. Of course, there may be other stations in this city too! Can you spot the city?

> 1590 910 950 990 1140

Here is a hint; it is one of these: Richmond, Las Vegas, Miami (The answer will appear at the end of the next City Quiz in DX News.) The answer to City Quiz #33 San Diego

# Radio Responds To Hurricane

homeless after Hurricane Hugo struck Charleston, SC and the surrounding area last Thursday and Friday. None of Charleston's 31 radio stations or five TV stations was able to remain on the air through the storm. Critical emergency broadcasting system info was supplied by WPDQ (AM)/Jacksonville, which received permission from the FCC to remain at full power during the night. At presstime Tuesday (9/26), several Charleston stations were still off the air.

Rich Panama, PD at News/ Talk and CHR combo WTMA & WSSX/Charleston, told R&R, "We have two tower sites, a 1500-foot and a 500-foot: three transmitters; and two backup generators, and all of them were knocked out. We got back on-air Sunday, but we're expecting more gale winds from another storm to rip through the area soon.

"Two TV stations lost their 2000-foot towers. Several local radio stations, including (Gold) WXLY and (BM) WDXZ lost the tops of their towers and their STL links. (Urban) WWWZ's building was entirely destroyed. Our studios suffered some water damage, with the FM control board, production board, and cart decks all heavily hit. We were as ready as we could be, but no one was prepared for this."

## Blowin' In The Wind

 ■ Every Charleston station blown off the

 WCHY sends first relief to Charleston

 Stations abandon formats, go all-Info

Radio starts supply,

Red Cross drives

#### Radio and Records across town. -via Jerry Starr

50,000 WATTS

Panama continued, "Charlestor looks like a disaster zone. A lot of people have trees in their living rooms and streams running through their bedrooms right now.

#### The Creek Did Rise

Because the studios of Countryformatted WEZL/Charleston, the city's longtime 12+ leader, are located near a tidal creek, PD Charlie Lindsay said all personnel were evacuated and the station went off the air from 4pm Thursday to noon Saturday. "We put everything in the station above desk level and left," Lindsay said. "There's nothing like a dead hero."

When Lindsay and the staff returned, they were surprised to find they had commercial power though they also had a studio under a couple feet of water. Since signing back on Saturday WEZL has offered continual information

"To better serve the public, and eliminate the ridiculous competition among radio stations, I wish the government would designate super-power coastal radio stations to serve the areas with high incidences of tropical storms," Lindsay commented, "This would facil itate the orderly flow of accurate information and eliminate some of the contradictory stories people hear from different stations.

WKQB/Charleston PD Roger Gaither told R&R, "We got power back at 9pm Friday. Normal (CHR) programming has been suspended and we're about 70% talk, passing on information from the Charleston Emergency Preparedness Center, 98% of the power in the area is still out. Even the EBS station. WXTC-FM was off the

#### Surrounding Area Stations' Efforts

WHTK/Hilton Head Island, SC-Savannah, GA signed off Thursday morning (9/21) at 11am to evacuate and came back on the air Friday at 5pm. The station suspended its CHR programming at that time to concentrate on communicating emergency information to Charles ton residents - many of whom could call WHTK, 70 miles away, but could not talk to each other

WHTK PD Ralph Wimmer noted, "Computer firms have set up data bases to help us organize information, and volunteers are in the studios answering phones."

WIXV/Savannah was located in one of the Hugo evacuation zones. and the only staffers to remain at the station were GM Jerry Stevens and PD Virgil Thompson.

"I got a stack of Rolling Stones CDs and played requests," said Thompson, who stayed on the air for 12 hours from 3pm-3am Thursday-Friday (9/21-22). "We knew by about 8pm that the hurricane wasn't going to hit us directly; it was no worse than a bad thunderstorm." The station was off the air for only 40 minutes.

Thompson praised the NAB for sending a crew down to provide support services to help produce radio and TV spots appealing for financial and other support

WBPR/Myrtle Beach PD Barry

## Radio To The Rescue

Stations Stage Relief Efforts In Hugo's Wake

At one point Savannah, GA was in Hugo's path and WCHY there braced itself for the worst, but the hurricane never made it ashore that far south, WCHY PD Joe Logan said it struck him Friday morning that many of the city's residents had stocked up on provisions they would not be needing, so WCHY solicited donations of canned goods, bottled water, clothing, etc., and a truck to take the supplies to Charleston

After the station filled three trucks. one of them an 18-wheeler, a couple of local ham operators joined WCHY's corryoy Saturday and made contact with Charleston hams who had set up in that city's downtown

"It was the closest thing to a war zone l've ever seen." Logan said. "National Guardsmen with loaded M-16s curtews buildings in rubble - it was an incredible sight,"

With the help of the hams, the WCHY convoy was directed to a Red Cross station - Itself 95% destroyed - where the goods wore unloaded. The Red Gross told Logan WCHY's cargivan was the first emergency relief unit to make it Into Charleston. Other relief efforts included:

- WKZL/Winston-Salem, NC and the Salvation Army organized n "Care-A-Ven" for Hugo's victims that was 15 tractor-trailers long and loaded with clothing, food, and

other emergency items. . To raise money the WSQC-AM & FM/Charlotte promotion department is selling "I Survived Hugo" T-shirts, with proceeds going to the Red Cross disaster relief fund.

Richards and several staffers stayed at that station for 48 hours during the storm. "We ran no spots and just disseminated information," Richards said, "Our 50kw signal covers parts of Charleston, Surnter, Conway, Florence, and Wilmington, and we put listeners on the air as reporters; we became News/Talk for about 48 hours. Most other stations signed off at 8pm Thursday under the advice of Civil Defense authorities, but we were wailing while they were bailing.

"We thought of leaving but had nowhere to go," he continued. "We were all scared, but it was gratifying to have served our community so well in its time of need."

#### **Decimating Destruction**

Charlotte, NC, 200 miles inland, was expecting Hugo to deliver 50mph winds. Instead it got sustaining winds of 90mph that caused enough damage for the sevencounty area to be designated a federal disaster area. Describing the aftermath, WSOC-AM & FM/Charlotte VP/GM Gregg Lindahl said, "It was as if somebody decided that one out of every ten trees. signs, billboards, and radio towers should be ripped up or torn down."

A 375-foot freestanding tower just outside the WSOC studios was one of the chosen ten. It crashed down and destroyed Lindahl's office, the sales offices, and the washrooms, rain poured through the holes, and 2500 gallons of water was pumped out of the station later

As late as Tuesday afternoon, on-

• WTCB/Columbia, SC began a food and clothing drive late Friday. and has already filled three tractortrailers and raised \$5000.

 To help radio stations recover, Drake-Chenault has offered all coastal North and South Caroline outlets free programming materials. A mailgram to the stations said, "Regardless of affillation, whether or not you normally use a program supplier, we feel that in times like these the entire industry needs to pull logether to help each other

Appeal For Help Issued WHTK/Hitton Head Island, SC-Savannah, GA has issued en appoul to brondonators throughout the country to lot llatoners know their help in needed, and that those wishing to make contributions can call WITK at (803) 757-9485 (Georgia and South Carolina residents should call 800-282-4487). Chocks can also be made out to the Red Cross or local fire departments

with a notation that they be used for Huricano Hogo Disestor Relief. ly 50% of the metro had power, according to Lindabl.

With the nid of a generator. WSCC-AM & FM remained on the air throughout the storm. A Country combo that has long led its market 121, it played no music from 3nm Friday until late Sunday night. Lindahl said, "When things like this happen you have to be there for the people."

WROQ/Charlotte PD Randall Bliss said because one of AM sister WAES's four towers fell that station is now non-directional and on reduced power. WAES & WROQ were still powering their studios and the AM transmitter on backup generators at presstime

## Boom Box Broadcasting

WJMX/Florence, SC PD Dave Baker and his staff kent their station on the air until Hugo ripped the microwave antennas off the roof and then took the roof, too, "We were on generator power until we went down," Baker reported. "By Friday morning we were back on the air from the transmitter site using disco equipment, two CD players, and a mike in the middle of a soybean field.

"Within 48 hours we were back on the air from the main studio, but a fresh rainstorm that poured down Monday flooded us out," said Baker. "Now we're in the Boom Box outside the studios, and I don't know what we're going to do longterm. Our building is months away from being ready. Where we'll do production is anybody's guess. At least we're back on the air."

## MEDIUM WAVE rAMblings

■ A big DDXD-E WELCOME to two new reporters, who are checking in with their initial DX to this column: Jeffrey Less of Toledo, Ohio and Robert Vance of Fort Belvoir, Virginia. Good to have you along for the ride, and we hope to see more of your DX soon in the pages of DX NEWS. And Graveyard contributor Mike Csorbay of Canfield, Ontario has finally sent in some DX, after holding out for a long time.

■ Due to the large number of reported loggings during the period Hurricane Hugo was wreaking devastation upon our East coast, I've broken those out of the normal categories. This is to give them their own significance (both to the DXer as well as

the station for their effort).

■ The contest is bringing 'em out by the hundreds (well, just about). I almost gave contest loggings their own section, but didn't. Or haven't, yet. That would make scoring easier for George Sherman. That's just an idea I'll throw out to you contestants. Do you want your own section?? Let me know. But I do have one question. What the heck is a "level logging"? I didn't just get off the grain truck, but for the life of me, I can't figure that one out. Help!

Remember, deadlines are every Saturday for the weekly editions. Please report in frequency order, sorted by state & city in the categories seen here. Keep your

**SPECIAL** 

reports brief, as space is limited.

	KNEI		WAUKON - 9/17 0700 fair with sign-on (RK-IL)
	WRLV	ΚY	SALYERSVILLE - 9/18 0645 full sign-on @ WRVA LSR; began sked with local nx, then KY State Net Nx @ 0655; 0700 brought the stampede of
			WSAO, WAWK, KPWB, WIXC & a couple more signing on; except for KPWB,
			none of these has a PSRA listed in the Log, but apparently they all
			have one; KPWB was the strongest of the bunch so their PSRA is now
			probably 500 watts instead of 65 as in the Log; also, WIXC starts off with CNN Nx with NO sign-on annot or ID, but gives legal ID
			after nx @ 0705:WIXC, Hazel Green-Huntsville-Fayetteville (CR-ON)
1100	WKWM		KENTWOOD - 9/16 0645 good with sign-on (RK-IL)
1180	WLDS WMLX		JACKSONVILLE - 9/17 0700 fair with sign-on (RK-IL) FLORENCE - 9/17 0645 fair with sign-on (RK-IL)
1240	WEDC		CHICAGO - 9/4 Midnight XLNT with sign-off (RK-IL)
	WSBC	IL	CHICAGO - 9/4 Midnight XLNT with sign-on (RK-IL)

Changes in programming status; reported by NRC members and others

From up this way in the Nutmeg State, WXCT-1220, Hamden has dropped its fine classic rock for very entertaining business news for the thousands of New Havenites who thrive on such information. And from the Boston Globe, WADN-1120 is now listed in the radio table on the TV page. They must now be on with their folk music and acoustics format. WADN stands for "Walden Pond" a beautiful local pond enshrined in Thoreau's literature. And, Eric Bueneman writes from GA that WMCA-570 has been sold to Salem Communications, and will no doubt go to a religious format, as Salem's other stations have done. Eric learned this from "Religious Broadcaster" Magazine. This is not a problem on the New York dial, as there are but two AM stations carrying religion audible in the five boroughs, plus a Spanish Christian outlet. Certainly is not Atlanta!!! Sure beats, in both cases, either business news or motivational talk, the ultimate confession of a downcast radio station management that "Hey, I don't know how to manage this thing!!"

Our contributers are Dave Schmidt (DS), Eric Bueneman (EB), The M Street Journal, and Geove Parrish (GP). Thank you, Gentlemen, and here we go....

- This very directional little 540 KKGO CA Hesperia station will remain a classical music station (TF from M). - Drops BRN Bus Nx for FBN Bus Nx WYOR TN Brentwood (M). Desperate move (TF). - News, NBC Talknet, "All News 630" KXOK MO St. Louis (EB). - CWM (M). WEKC KY Williamsburg - Religion (EB). WSVT TN Smyrna 710 - Drops FBN Bus. ## -via Pete Kemp FCC Releases C3 List

Washington DC The FCC released its list of 149 Class A radio stations eligible for an upgrade to the new Class C3. The hike will allow the stations to transmit using up to 25,000 W with an antenna height above average terrain of 328'.

The new class was established by the Commission 30 March. Reply comments on the upgrade assignments were due at the end of August.

The 149 stations granted upgrades are as follows:

KSBS-FM, Pago Pago, AS; KRBZ, Grand Canyon, KMMR, Malta, MT; KZOQ, Missoula, MT; KATQ-AZ; KBLJ, La Junta, CO; WMMK, Destin, FL; KOWO-FM, Waseca, MN; KRRB, Dickinson, ND; KATK-FM, Carlsbad, NM; KWJY, Woodward, OK; KWVR-FM, Enterprise, OR; KORT-FM, Grangeville, ID; KYZZ, Wolf Point, MT; KBRB-FM, Ainsworth, NE; KLBN, Albion, NE; KMXQ, Socorro, NM; KQAY-FM, Tucumcari, NM; KBXS, Elv, NV; KPAH, Las Vegas, NV; KWNA-FM, Winnemucca, NV; KKBS, Oklahoma City, OK; KKRS, Walnut, CA; KGFX-FM, Pierre, SD; KIQZ, Rawlins, WY; KDCZ, Delta Junction, CA; KXAZ, Page, AZ; KVWM-FM, Show Low, AZ; KALQ-FM, Alamosa, CO; new station, Port St. Joe, FL; KPOA, Lahaina, Maui, HI; WZRK, Hancock, MI; KLAN, Glasgow, MT; KWMG, Columbus, NE. August 30, 1989

Pault

It's been a while since I've sat down at dropped anyone a note, the contract engineering business has been going great guns here, as we are now up to 17 stations as clients. Additionally, we are getting involved in studio and transmitter installations. I knew things were taking off but the pace has continued to grow very quickly.

As you know, I was offering help with the FREQUENCY CHECK LIST of after midnight frequency checks which I have been doing. ! can't really offer any additional help from now on since I feel it might be a conflict of interest if I start writing other people for their after midnight lists! So, if anyone would like to take over the job, I will be glad to help them but they would have to do the signatures/etc. There are only about 5 of us doing the after midnite f/c's in this day and age.

My listing is as follows:

#### Monday AM after 3rd Sunday

WINX-1600 WYFC-1530	MD PA	0015-0025 0030-0040	Tone Tone	*
WMBT-1530	PA	0040-0050	Tone	@

So FAR I have three updates from the members. To think that only a few helped me out, is real sad. I am glad to do the colum but I need YOUR' HELP. Some of these stations logged are from before the time i started DXing. So the question marks. I can't do this without your help.

73\$, Dan

## The Answer Man

Got a question about radio? Send it to Russ Edmunds - 753 Valley Rd. - Blue Bell, PA 19422-2052. No question is a dumb question, and Russ will answer all, from basic to highly technical. Watch for the answer in DX News!

## **FM Station Address Book**

COMMITTEE TO PRESERVE RADIO VERIFICATIONS

Please reply to:

38 Eastern Avenue Lexington, MA 02173

August 4, 1989

To our friends at the National Radio Club:

The Committee to Preserve Radio Verifications recently had the pleasure of receiving several extensive collections of verifications from some well known NRC members--Ray LaRocque, Bob Knox, Warren Routzahn, Tom McCormack, Dick Daneker and Tom Farmerie. These collections were in Tom Farmerie's possession at the time of his death last December.

These QSL's came to us as a result of the generosity and cooperation of three persons: Tom's wife, Irmine, who was willing for them to be donated to the committee; Andy Rugg of Montreal, to whom Tom left the collections; and a good friend of all three of us, John Kapinos of Shrewsbury, Massachusetts, who coordinated the transfer. On behalf of our committee, I would like to express my thanks to them for donating these many fine QSL's to us.

In addition, I would like to express my admiration to Tom for his foresight in gathering these collections together long before anyone had thought of a Committee to Preserve Radio Verifications. Thanks to his early action and to the willingness of fellow hobbyists and their families to entrust their OSL's to him, they will be assured a long life and Tom's memory will long be with us.

Medium wave hobbylsts have been among our strongest supporters, and I hope that by printing this letter in <u>DX News</u> you will help us express our special thanks to them on the occasion of this very significant donation.

## WMCA, longtime Gotham talk station. getting oldtime religion after 19 years

New York What ran through the | Salem. "If they had come in with rumor mill for weeks is now a reality at WMCA-AM, It's current talk lineup doesn't have a prayer after new owner Salem Communi-

cations takes over Sept. 18. According to Salem, the station will go all religion, ending the talk format WMCA instituted 19 years

WMCA, one of the oldest radio stations in existence, was sold in the spring by Federal Broadcasting to Salem for \$15-million. Salem currently owns 10 AM and four FM stations. Seven of those stations program all-religion formats.

#### From day one

Salem's executive v.p. Robert Ball has said the station would go religious from day one and that Joe Davis, who works for another Salem station, would become general manager of WMCA.

According to 12-year WMCA veteran Barry Farber, the announcement was handled well by Uzis or something we could be upset," he said, "but this had been rumored. We were prepared."

Farber hosts a daily talkshow on the station and also hosts a daily program for the ABC Radio Network, which is heard on 60 stations. Salem has said he will not be part of its new lineup. However, shortly after the official word came from Salem, the host was picked up by WABC-AM, ABC's all-talk station, VARIETY has learned. Farber could not comment on WABC.

Farber said everybody at WMCA will be leaving. News of the change has provided a bit of gallows humor for insiders, he noted. "People who were involved with the 'Money Report' were walking around saying it would now be called 'Hallelujah Money,' "he said.

## Handful of 35 Denver stations making money

By Joanne Ostrow

You've heard them all over the

"Gimme money," the Beatles said. "That's what I want." "Money," Pink Floyd concurred.

'M-O-N-E-Y," Lyle Lovett

But these days, radio itself is singing the money blues.

Only a handful of the Denver market's 35 stations are making money. The rest are struggling to break even

That is the assessment of a number of station managers, all of whom acknowledge that a strict ranking of stations by income is impossible since many are privately held.

However, since the local economy has been in the doldrums while the number of stations has risen, it stands to reason that radio advertising dollars are increasingly fragmented

There's no shortage of listeners: Any weekday morning, an average of 416.200 people in Denver start their day with radio

An average of 34,700 people might hear Mike Rosen rail against flag-burning on KOA. while 30,200 groove on Van Morrison's wave length thanks to deejay Dennis Constantine on KBCO. Another 29,200 rock out with heavy metal on KRXY (Y-108), and 19,800 sip a morning coffee to the easy sound of KOSI.

Educated guesswork suggests only two stations are making "serious money" - which one general manager defined as profits of close to \$3 million a year. About six additional stations' earnings are in the \$1 million range.

The top moneymaker is KBCO (97.3 FM), the eclectic album rocker in Boulder. Next is KXKL (105.1 FM), known as "KOOL," the oldies station

In the second tier, earning \$1 to \$2 million, are light rock KXLT (100.3 FM), formerly KMJI or 'Magic," and country station KY-GO (98.5 FM).

The third group, those lucky to make a million, includes sports/talk station KOA (850 AM), and album rockers KAZY (106.7 FM) and KBPI (105.9 FM) and KRXY (107.5 FM).

"The state of the radio business in Denver is not what you'd call healthy," said Lee Larsen, general manager of KOA. Radio's hard times directly reflect the area's overall economic slump. Larsen projects only 2 or 3 percent growth

for local radio in the next year. Total revenues for the Denver market are about \$62 million. That compares poorly with Phoenix, for instance, which is projected to reach \$74 million in radio

According to William Redpath vice president for financial analysis of Broadcast Investment Analysts Inc. of Washington, D.C.,

Denver isn't any more over-saturated in terms of radio stations than other markets its size. BlA ranks the Denver market No. 24 with 35 stations; Phoenix is market No. 23 with 37 stations. But Denver is well behind the national radio revenue growth rate of nearly 8 percent.

Approximately 80 percent of Denver's \$62 million is nabbed by those stations that insiders refer to as "the players," meaning the top 10. Several general managers agreed the bottom 25 stations are scrambling for leftovers.

The players took varied routes to the top: KBCO credits its longterm stability, "a process of planhed growth over time," according in general manager Ray Skibitsky Relative newcomer KXKL "KOOL") jumped into Denver's last format opening two years ago,

quickly cashing in on classic hits.
It is difficult to determine the point at which a station's balance sheet moves from red to black. Beyond audience figures, overhead and demographics are important considerations. Station expenses such as big-name on-air talent, sports team broadcasting rights, promotional gimmicks like cash giveaways and large newsgathering staffs, work against profits. Demographically, a large audience of teens is not as appealing to advertisers as a smaller audience of affluent 18- to 34-year-olds.

Some of the big moneymakers of the past are no longer recording such impressive profits.

For example, longtime news/talk kingpin KOA takes in something approaching \$9 million, making it the top billing station in the market. But it spends roughly \$2 million for the rights to broadcast Broncos games, and those broadcasts require a large support staff. Because the station's format a more expensive one than, say, # music format, observers suggest the station is lucky to keep 25 per-

cent of its revenues KOA's Larsen said his station is Trunning a little behind my projection for this year due to the tight economy." The station's rock 'n roll sister outlet, "The Fox," KRFX (103.5 FM), has the potential to be more profitable than its better-known talk outlet.

Any sizable FM music station can produce greater profits than ah AM talk station, he said. This is partly due to its younger, more lucrative demographics, partly due

lower overhead. "It certainly hasn't been a piece of cake for us," said Steve Keeney, general manager of KHOW (630

Personnel and promotion costs can be deadly: Observers cite KHOW as an example of station over-spending. For starters, the morning team of "Hal and Char-ley" is paid roughly \$500,000 annu-ally and doesn't deliver in terms of

The owner of talk station KBXG (710 AM) is conservatively estimated to be losing \$1 million this year on his investment. The station's goal is to make enough to cover costs by March

At KBCO, promotion of the Who rock concert last month was said to be a mistake, costing the station an estimated \$250,000. "It was more expensive than we realized. Skibitsky said. However, due to the promotional value, "in the long run, it was money well spent."

One general manager who requested anonymity believes that 10 radio stations should be able to make \$1 million in Denver. As a trade-off, some stations would be forced to fold.

"Six years ago people made money by accident in Denver, not just in radio but in any business Today," he said, ' you can't do it by

"The Denver economy is a ma jor factor," according to KHOW's Keeney. "The market has been flat for the past four or five years."

"It is partly our own fault there are only four to six stations making money," added "KOOL" general manager Marty Loughman. "We need to be more unified in getting out the message that radio is the primary information and entertainment source for people today,

He said there is advertising revenue to be won away from newspapers and television

At least the FM properties keep appreciating. Denver's KXKL sold for \$8.5 million in July 1987: today it is valued at nearly \$30 million. KBCO, once a homegrown "alternative" station with an antenna on the roof, was purchased for \$27.5 million two years ago.

The trick is in running a profitable operation while the property appreciates.

The rule of thumb for radio op erations: A profitable FM music station aims to take 25-30 percent of its gross revenues to the bottom line. An easy-listening station that has low overhead (and may be automated or satellite delivered) can maintain a 50-60 percent profit

Radio was considered a money machine in the heady 1970s. Fa mous radio owners from Bob Hope to Vail's George Gillette sat back and let the profits flow. These days, "there are great opportuni ties for investors interested in long-term growth," said KHOW's Keeney. "There are very few quick

In 1985, the Denver radio mar ket was worth \$60 million. If the local economy had plugged along at a not unreasonable 9 percent, i would have reached \$85 million by now. Perhaps only 16 local stations would be in the red instead of roughly two dozen.

By contrast, the Los Angeles radio market is worth \$360 million and the annual growth rate is almost 18 times that of Denver's.

Of course, it's tough to feel sorry for Denver radio managers since, to the average struggling compa-ny, a million dollars is a lofty goal. "A radio signal is a valuable

commodity. I don't see them going silent." said KBCO's Skibitsky.

Still the red ink at the bottom rung stations leads some in the business to wonder why those own ers don't instead put their money

Pete Kemp, KZ1Z - P. O. Box 73, Bethel, CT 06801

Greetings all...WMCA has finally let the other shoe drop. After languishing in the bottom of the ratings for more years than they care to remember, the station has been sold and an all-religious format will be instituted. Veteran talkshow hosts Barry Farber and Barry Gray et. al. are gone. It certainly is sad to see a station with such a rich history from the early days of radio in New York City, through the Good Guy era of the 60's to fall into such a state.

With WMCA's move to religious programming the Through the Bible Radio program, hosted by Dr. J. Vernon McGree will move its operation from WWDJ in the New York market. Media trivía nuts take note that Barry Gray was the last Talkshow host on WMCA thus ending a rich era of broadcasting in the Big Apple...With October here WABC has shuffled their on-air line up: Barry Farber 1-3 p.m., Bob Grant 3-7, Bill Bresnan 7-9, and Tom Snyder 10 to 1 a.m... CBS Radio will carry the Baseball playoffs and the World Series, with Johnny Bench and Brent Musburger to call the games for the American League and the team of Jerry Coleman and John Rooney for the National League...WSPD is now running a fulltime news/talk format...KFI has moved Larry King to a 1-4 a.m. spot bringing in Christopher Bartlett, from Australia, for the 10 p.m. - 1 a.m. position... Emmis Broadcasting has purchased the Seattle Mariners... WCVG has dropped its all Elvis format. Just too much of a good thing I guess...ABC Radio has obtained the U.S. rights to the Rolling Stones Steel Wheels tour. The show is expected to air in December ... WWKB-Buffalo, is simulcasting the 6 p.m. evening news from WGRZ-TV...Ed Bieler, alias Superfan, is return to Los Angles on KABC...Westwood One's Pirate Radio format has taken off so hotly on KQLZ-FM that it will be syndicated as Pirate Radio USA... Jude LaCava has left WSPD in Toledo for the warmth of KTAR in Phoenix where he will host an afternoon sports-talk show...Mary Mason has returned to the airwaves in Philadelphia in the noon to three talk spot...WBEN's Lou Douglas is moving over to WWKB...Bob Gibson, KMOX sportscaster for the St. Louis Cardinals and Hall of Fame pitcher, has resigned to pursue other interests...WTIX in New Orleans has signed on to the Business Radio Network, replacing WSLA in the market...WGR has reworked its morning line up replacing music with news/information. Gone are Tara Mesmer and Bob Christian in favor of for WWKB staffer John Zach and George Hamberger. Also arriving at WGR is WBEN's is Jerry Reo...WTMJ has signed a three year contract to carry the University of Wisconsin football and basketball games...So much

## Radio Roundup ... by Pete Kemp

Ted Brown has dropped out of the daily grind at WNEW-AM. A popular on-air veteran of the Big Apple radio scene, I still remember him from his days on WMGM doing his Ted Brown and the Red Head show. Ted has been with WNEW for quite some time, with a little break for stint on WNBC. Ted had a great on-air trick when he moved stations. He would come on his new station by making a phone call to his last station. He would ask for the mailroom. When the person he would identify himself and ask that his mail be forwarded to his new station, and then with a flourish and musical ID he would officially announce his arrival. He will remain at the station doing special projects and fill-in work. His place will be taken by another radio vet Bob Fitzsimmons, who at various times has worked at WNEW and has most recently been heard on the ABC Radio Network.

According to the latest Arbitron ratings, the top jocks in the country are NYC's Morning Zoo Crew of Ross Britton & Brian Wilson, the currently un-employed Jim Kerr and then out to LA with Rick Dees of KIIS, followed by Harry Harrison of WCBS-FM, Jay Thomas KWPR, Batt Johnson WLTW, Bob Collins WGN, Howard Stern WXRK, John Gambling WOR, Carol Ford & Mike Love WRKS.
