MEDIUM WAVE RAMBLINGS

- Our November 1st issue brings the glad DX tidings from new reporters: Dr. Atsushi Masumoto of Seattle and Mike Decker from Marshall, Texas. A BIG DDDX welcomes you all. I'm looking forward to being able to relay many more of your loggings to the membership as the season rolls on.

It's a lot faster than the mail, and you can upload the last minute to get your message here. Just type them up like you see the loggings here, nice and neat - hi. My deadlines are always Saturday, and I usually check in on the service for messages about noon (MT). Remember to include all data (including your equipment) as I toss the letters from previous issues. See you hear.

Lots of TA Loggings are showing up this season, but I seem to be out of the hunt. There's a low buzz across the whole band which blankets most weak signals. Ah, the joy of city living!

Bruce Conti, Mark Connelly, and Jess Banov still have the all-time equipped for e-mail. Now if I can just get my act together on e-mail as well, patience, folks!

A feeding frenzy is underway with Radiovisión Cristiana 535, the most reported station in one column since Europe heard Marcovici! Even full-time editor and general director (P2 -plz) Paul Swearingen has heard this one! The much-traveled plz sent his logging in on a Harley Hotel (Enfield CT) postcard, an effort which moves him right to the bottom of the Contributors List.

Thirteen reporters filled my mail box this week. At this rate Paul may start rationing space in DX News. But, until you hear otherwise, all loggings get printed in IDXD!

Musings of the Members

Thoughts from NRC members... the opinions expressed in this column are those of the individual writer and do not necessarily reflect those of the editors, publishers, or the National Radio Club, Inc.

CHRIS CUOMO - 670 THIRD AVENUE - VERONA, PA 15147-1349

I'd be remiss if I didn't MURC a few times about the convention and "Frontline". First, to me what I have learned from attending the MURC Convention was the value of taking part. It's not just about the information you gain, but also about the networking and the camaraderie. I've made some great friends at the past conventions and I look forward to attending more.

The convention featured a variety of speakers on topics ranging from public safety to disaster preparedness. What really stood out for me was the session on emergency preparedness. It was led by a local emergency management expert who shared his knowledge and insights with the audience. I learned a lot about how to prepare for different types of disasters and how to stay safe during an emergency.

Another highlight of the convention was the "Frontline" segment. This is a recurring feature where attendees share their experiences and challenges in the field. It always inspires me to see how others handle tough situations.

Overall, the convention was a great learning experience. I'm looking forward to attending more and meeting even more people who share my passion for radio communications.

JERRY LACY - 220 W. MAIN ST., Suite 102 - STAFFORD, VA 22554

I absolutely loved the "Frontline" segment at the convention. It was incredibly moving to hear the stories of others who have faced similar challenges. The way they have adapted and persevered is truly inspiring. I also appreciate how the event provided a platform for us to share our own experiences and learn from each other.

In addition to the "Frontline" segment, there were many valuable sessions on various topics such as emergency preparedness and radio technology. I learned a lot from these presentations and it's clear that there is a strong interest in these areas within the community.

The convention was a great opportunity to network with others who share a passion for radio communications. I made several new connections and received valuable feedback from others in the field.

Overall, I would highly recommend the convention to anyone interested in radio communications. It's an event not to be missed. Thank you for organizing such a great event! (chuck norcross, W3CVT)

JOHN LACY - 556 SHADYCREST ROAD - PITTSBURGH, PA 15216

Greeting all! A short re-intro. [date] 110729/16 [28 years to the day after member HAME HOLDEN100] joined the NRC in Oct. 93 after being recruited by Dave Schmidt and a most famous WCRF-1150 test in Feb. of the same year. Have always enjoyed the hobby, read your newsletter regularly. Recently received a signed photo from WCRF-1150 when attending a local hamfest. It was a thrill to see the program I worked on back in 1990. The band was a bummer, but at least it was an evening that lived. 1071 brought WCRF-1150 again to the air after 28 years. WCRF-1150 has since then been off the air.ﾚerrific to hear from WEPF-910 of more high school football. 2 Tests made it here, also WJCC-900 x's at times on 9/25 plus a phone call to CE William Carson who was estating "Get your Hampton High School game!" A mail bomb was made from a photo from WEPF-910 holding the tower sticker which turned out to be a "Bulldog/KWBC-1120. Also bagged 2 promo/ID's for WJCC-1120 under the WJCC logo. They were WJCC-900 on the WJCC broadcast. Also received a mail bomb from CE William Carson which turned out to be a "Bulldog/KWBC-1120. Also bagged 2 promo/ID's for WJCC-1120 under the WJCC logo.
