From the Publisher ... More feedback on slow

mail on the east coast ... some members had not received mail in days, due to terrible icy conditions, and it's reasonable to assume that some members who may not be suffering bad weather may have to wait for their DXN to clear the weather-affected area. Also, a representative of the Bulk Mail Facility in Topoka said that the lack of a nine-digit ZIP could slow your DXN by a day or two. Be sure to send Ron your complete ZIP when you renew; nearly all of your credit card bills and periodicals should display it, or you can call your local post office for more information.

We've received no applications for the Post of Bandscans editor, and so that post remains vacant. Welcome to these new members: Joe Noonan, Martinez, CA; Walter B. Fair, Jr., Houston, TX (rejoins); Joe Lovetro, Jacksonville, NY; James Tedford, Seattle, WA; Gary Hummel, Pleasantville, PA (rejoins); Juventino Soto, San Ysidro, CA; Phil Taltman, Cleveland, OK (rejoins); Dennis Elva, Jefferson City, MO; Matt Magni, Baltimore, MD; Arthur Jackson, San Juan Bautista, CA; James W. Boak, Clarksville, TN; Patrick Libretti, New Paltz, NY.

## DX Time Machine

From the pages of DX News:

50 years ago ... from the Feb. 19, 1944 DXN: Ronald Burson, Mansfield, Ohio, reported that the TN's on 995, 1149, 1176, 1185, 1195, and 1213 kc's, all reached an S-8 level on Feb. 14 and 15; also heard were W's on 1167, 1366, 1456, and 1475 kc's.

25 years ago ... from the March 1, 1969 DXN: Bad weather slowed mail delivery ... Ralph B. Sperry, Southport, CT wrote that his totals were at 1,586. "I enjoy comparing figures as we pass each other at a slow pace," he noted. "I started DX'ing in 1933 and collected 382 verites before the war ... During the '60's I have been concentrated in adding countries, picking up France, Portugal, Germany, Albania, Monaco, Senega, Uruguay, Ecuador, and others."

10 years ago ... from the February 27, 1984 DXN: Contest leaders were George Sherman, MN; Bill Hardy, WA; Jim Reafter, NY; Paul Stephan, CT; Nolan Stephany, NY; Nancy Hardy, WA; Armin Lisek, ON; Karl North, IL; Bruce Count, RI; and Mike Hogan, IL.

□ Doug Smith clarifies the Canadian religious broadcasting situation, with data he's received via Dave Sinclair in Vancouver, from clippings from the *Globe and Mail* and *Financial Post* for Doug's column in the VHF - UHF Digest. Seems the CRTC now allows all-religious broadcast and basic cable stations provided they . . . are committed to providing balance to the trends they present on issues of public concern. Canadian radio stations are not allowed to rebroadcast U.S. religious networks, so there won't be any Moody Bible or Family Stations emanating from there. Thanks, Doug, for that news.

□ Wanted!!! Station logos. If you have any logos from stationary, business cards or whatever, I would like them to scan into a computer picture for possible use in this column, or other "bare" places throughout DX News. I will send them back if you wish. Copies are OK, but don't turn out as well as the original. Send them with your DX loggings. East Coast stuff is welcome, too!

NEWS AND VIEWS

Jeff Kitzze says "Many thanks to KATL for the QSL and 'Carle Keychain'! Great test!  
Correcting a statement I made in issue 17, Dave Schmidt says WKEN-1600 has had the same  
owners since 1986. My guess at an ownership change was about two or three years ago when they  
got rid of all of their local talent, and then began signing-off at sunset for a while. Apparently it  
was just a format change, but they still don't know where the switch for the night power/pattern list  
Ask Dave how he likes listening to them at night now!  
February 19 is the last weekly deadline, next deadline will be March 5, then March 26. Time  
sure flies when you're having fun, eh? (Yeh, I'm still having fun in Topeka! -pls)  
Some great mid-day DX from Rich Frcho in Ohio. And I think we're getting close to IDing the  
new 1620 TTS. Read on...

are they the January times? - db)  
1340 WMID NJ Atlantic City - 2/5 0802 - Noted with ABC information news. (DB-DE)  
1450 WIBM MI Jackson - 1/27 1200 - Good with "Jackson's country music station" ID. No  
longer // to 94.1-WIBM-olides. Also "AM 1450 Country" IDs instead of a call ID.  
(KMR-MI)

DX TESTS

540 WSTH GA Columbus - 1/3 0200-0230 - GOS, ad for firm in Nashville, poor, suddenly  
broke through XEWA, did not sound like CRC test. (DT-JAM)  
560 WFRB MD Frostburg - 1/31 0100-0130 - Fair in WPHY/WHYN QRM with varying TT,  
march music, voice and code IDs. (RA-MA)... Varying tones good in WPHY null,  
didn't stay for any more as regular here. (DB-DE)... Good with voice ID into code  
IDs and tones. Not needed. Heard on SSS/SRS, QSLd in 1991. (MB-ON)... Fair  
under/over WQAM/WPHY with code IDs and varying test tone pitches.  
(JK-VA)... Noted with good signal, voice and code IDs and march music. Not  
needed, daytime here. (AM-VA)... Delightful dominant code, voice, music, tones.  
(HM-OH)... Good with code IDs. (KMR-MI)... With tone, code IDs strong through  
WPHY/WQAM, daytime regular here. (DS-DE)

600 WFRM PA Coudersport - 1/31 0030-0100 - Barely audible under Cuban/WTCC with only  
one period of march music and several code IDs noted. (RA-MA)... Heard code IDs  
several times, under/over WCAO's "Heaven 600" and Cuba. (JK-VA)... Fair with  
code and voice IDs and march music. (AM-VA)... Code ID 0101, 0102, Cuba/WMT  
ORM. (HM-OH)... Good with code IDs. (KMR-MI)... With code ID 0051, weak with  
WCAO with Cuban null. (DS-DE)... Not heard amid combined CKYC-590 and  
CKTB-610 slop. (MB-ON)... Not heard, just very loud WCAO and UNID Spanish.  
(DB-DE)  
700 KOKI CA Salinas - 1/27 0330-0400 - Not heard. (DT-JAM)  
730 KJRL MT Billings - 1/10 0230-0300 - Poor, only code heard through CKAC/XEX, report  
with cassette tape sent, my first from Montana! (BC-NH)

740 WTJB MA Cambridge - 1/17 0130-0200 - Code IDs, a couple of voice IDs copied and  
tone, QRM from KRMG and a Spanish speaking station. Pretty good report.  
(HH-MDI)... Poor-fair with KRMG and Cuban with tone, code and voice IDs.  
(DS-DE)

750 WSB GA Atlanta - 1/9 0000-0500 - Tuned in 0000-0010 and again 0022-0030, good  
with slight CBL splatter, AP news, local weather, replay of daytime talk show, lots  
of IDs and promos for other WSB programs but I heard no code IDs or test  
mentions. Unneeded of course, but I'd love to hear a clear channel DX test with the  
phone lines open to distant listeners. (MS-ON1)

910 KBLG MT Billings - 1/31 0200-0230 - Not heard, mostly CKLY and XEW splash!  
Possible code ID at 0218. (JK-VA)... Not heard. (AM-VA)... Nothing but slop, KVIS  
ID heard at 0222. (HM-OH)

930 WYNI AL Monroeville - 2/1 0200-0230 - Tentative under WZNN/WBEN/WPAT with  
code IDs only, seemed to be on before 0200. (RA-MA)... Weak, heard three sets of  
very brief TT and code IDs under WPAT and others. Did this test start late?  
(JH-NJ)... Noted very weak code IDs only, nothing else readable. The two last R's in  
code after each minute was the Cuban, not WYNI. (AM-VA)... Code came through  
slop of WTAD, Radio Kelco, SEN UNID and others. (HM-OH)... Fair with code IDs.  
(KMR-MI)

940 WADY PA Lebanon - 1/29 0230-0300 - Fair with varying test tone, bluegrass music, code  
IDs, voice IDs giving mailing address. (RA-MA)... Fair over XEQ with voice ID,  
code ID and tone. Heard semi-regularly on SSS/SRS and QSLd as WVLV in 1994, so  
this was another one I didn't need. (MB-ON)... Poor, caught voice ID near end of  
test. (JH-NJ)... Good under/over XEQ/WMDX with code IDs and test tones.  
(JK-VA)... Good on 1 kw with voice and code IDs and tone. Nothing heard when  
they went to 5 watts. (AM-VA)... Code and tones very good. WMDX and "Radio  
Punto Pico" (DR?) dominant. (HM-OH) (High, Radio Punto Fijo is on 940 from  
Punto Fijo, Venezuela, 10 kw - db). "Poor-fair with several code IDs, tones and

Dominants WMDX and "Radio Punto Pico" (?). (HM-OH)... Fair with code IDs.  
(KMR-MI)... Listened entire hour, no luck on this one even though frequency was  
fairly clear, some beep tones or time signals noted but doubt it was them.  
(RA-MA)... Not heard because of strong QRM from Cuba and Mexico. XEQ in as  
strong as CBM. (MB-ON)... No sign of them, just strong XEQ with "Niveva Claranta  
- La musica de amor" and "AM-94 WMDX". (JK-VA)... Nothing heard, very strong  
WMDX/XEQ/ others. (AM-VA)

OTHER STUFF

- 1620 UNID 1/24 0401 - Strong at times with loop ID sounding like WNGEZAR. Help? (DS-DE)
- 1620 WNCZ(2)E746 1/24 0620 - Heard with a test transmission. From Watergate (or probably Motorgate) at Roosevelt Island. At first I thought this was in Washington, DC as Roosevelt Island and Watergate are across the Potomac River from one another. Two trips into DC to attend American U. basketball games, passing Roosevelt Island and Watergate, produced no signal. (HH-MD)
- 1620 WNVV? 1/27 - This morning all morning I heard very weakly a "WNVV?". I'm not totally sure of the call letters on account of the weak signal and my hearing. It's a TTS with tape beginning "Welcome to WNVV(?)", 1620 on the dial.... Also the telephone number 935-0250 was given. (GHD-WV)
- 1620 WNCE 1/27 0105+ - Another tape with man, mention of Roosevelt Island giving times, thought mention of rapid transit. (HH-MD)
- 1620 WQZM? NY Long Island - 1/30 0020 - Poor, tape loop with female announcer beginning with "Welcome to WQZM, 1620 on your dial", info on Manhattan bus service. (BC-NH)
- 1620 WNCE 1/31 0332-0521 - Another tape with woman giving bus schedules, one leaving from what seemed to be Motorgate and another schedule from 2nd Avenue and ?? Manhattan, NY. Giving a 935 phone number, no area code, but have copied it several ways and numbers not working. I thought mention of Roosevelt Island Rapid Transit but called NY operator and had no listing of same. Gave me number of Transit Authority (718-330-1234) but put on hold and did not want to burn up money on long distance calls. Station puts in a potent signal at times, but my problem here is bad ORN buzz most AMs. (HH-MD)
- 1620 KA2XAU PA Lebanon - 0241-0254 - Something waaay in background, sounded like a TTS with female announcer. (HM-OH)
- 1685 MER Colombia, Mercedes - 1/22 0419-0435 - Beacon, fairly good 100% copy. Used old NRC Spanish report form with old RDI, Lake City, PA address crossed out. This form has worked well for 30 or more years! (HH-MD2)

NEWS AND VIEWS

Welcome to new member Herb Shatz of Warwick, NY. Hope to hear from you often!

Paul Mount checks in via Prodigy, and also forwarded an article regarding WGR-1250 from Internet, which says that WKBR is scheduled to come back on the air soon, owned by the gentleman who currently owns WJBB-740.

I have included the logs of the WIAN-MI test on 1260 as indicated in the announcements and in most reports, but the *AM Log* shows them on 1240! I, of course, didn't hear them on either frequency! Can anyone tell us which frequency WIAN is actually on?

As I type this on Saturday 2/12 we have had no mail delivery since Tuesday the 8th due to the ice storm. I only had about 2-1/2 pages, but I was able to get to the Post Office this morning and got what had been sorted. They said nothing that arrived on Friday or Saturday had been sorted yet, so don't despair if your logs aren't here yet. I will include everything in next week's column (which thankfully is a three-day weekend for me!) It's interesting being outside and hearing trees and branches in the woods behind us cracking and dropping under the stress of all of the ice. At least we have power (except for 4 hours Tuesday night and 6 hours Wednesday night). Some people in the area haven't had power since Wednesday morning!

Upcoming deadlines are March 5 and March 26. I wonder if we'll ever find out the actual calls of the Roosevelt Island TTS...

SPECIAL

- 810 QVA NB Caraqueet - 1/26 0517 - French over/under WGY in heavy CKLW-800 splatter, with local and national sports, and EE and FF CW music. Log says AC (REH-ON)
- 930 WYUS DE Milford - 2/11 0757 - Noted off the air, probably due to power outage as a result of the ice storm. WBEN was dominant at 0800, then WFMD became the daytime dominant. Also brought two new catches at sunset on 2/11, WCNR and WRRF. WYUS not noted back on until 2/12 at 1300. (DB-DE)
- 950 WYGI VA Richmond - 1/26 0530 - Sign-on "Welcome to Richmond Country" then CW music weak and fading. (115-NY) (Note new sign-on time - db)
- 1160 WYNJ NJ Okland - Morning format is a mix of soft black contemporary and light jazz, sked still 0600-0900. (FRM-NI)
- 1440 WSSL SC Greenville - Call to number in NRC Log (803-242-1005) answered by woman saying "WAVT". (That's on 102.5 FM!) Then she told me the same people own WMYI-FM and WSSL-AM/FM. When I said I was curious why WSSL-AM was not being heard in 0600-0800 time period at my location she said "I don't know, let me give you their studio number, 800-522-9775". Unfortunately, the 800 number plays busy! (RB-NC)
- 1520 WTRI MD Brunswick - Regarding Laurence Kearley's report of WTRI (No. 17 DXN), they are now D3 9000 (not 5000). Major lobe to the SW and minor lobe to the NE. A good part of the programming is local "talent", so if you hear some offbeat music on 1520, it's probably them. (JEK-MD)
- 1600 WKEN DE Dover - 2/11 0748 - Noted off, probably power outage due to ice storm, WINX dominant, WPDC ID heard at 0821, WKEN back on 0822. (DB-DE)

DX TESTS

- 540 WSTH GA Columbus - 1/3 0200-0230 - JT poor under CJSB/WGTO. (EX-WDAK), (WPT-DC)
- 560 WFRB MD Frostburg - 1/31 0100-0130 - Fair under WOOF with code IDs, TT and slow instrumental music. Only one voice ID heard at 0115 under a code period. (SF-TN)...In at fair level with code IDs, tone and bits of voice ID. Some orchestra-type music noted, but not certain if them. QRM from WQAM(sports), WCOF(EZL/NOS) and WPAC(WVOC?) possibly the one with Bruce Williams. (MH-NC)...Very good PA code and voice IDs, TT and march music. Unneeded. (REH-ON)
- 600 WFRM PA Condersport - 1/31 0030-0100 - Fair in Cuba's null with march music, code IDs and two partial voice IDs. I decided to stay on 600 for the whole half-hour so I could note the exact times of each of WFRM's code IDs. Just before 0030 I'd turned the stereo to local WKGN's null point, tuned to 1340, popped in a cassette and hoped for the best. (continued on 1340) (SF-TN)...Good with code and voice IDs and march music. Unneeded. (REH-ON)...Code ID, voice announcement with mention of Condersport and Tyrone. (WPT-DC)...Not heard, noted W515, possible Radio Rebelde ID, and UNID Gospel station. (MH-NC) (GOS was probably WCAC -db)
- 740 WJTB MA Cambridge - 1/17 0130-0200 - Fast code, fair. (WPT-DC)...1/24 0130-0200 - Two code periods heard weakly under KTRH/WNMBG at 0140 and 0146. Dominant KRMG off this time! (SF-TN)...Weak, two voice IDs, code IDs and a very low pitch test tone. New Log. (JEK-MD)...Heard with code IDs 0133, rather weak for open frequency, had also heard as WCAS on DX test. (PRM-NJ)
- 910 KBLC MT Billings - 1/31 0200-0230 - Code IDs only and only during the first five minutes when most stations were doing news and the channel was relatively quiet. (REH-ON)...Not heard, local WLAS off. Noted WFN5, UNID with NOS, and station with "O'Leary (Camera?) Report" and talk with "Mark(?) Brody" (WFNS or a different station?). (MH-NC) (WFNS is shown in the AM Log as being on 0500-2400? - db)
- 930 WYNI AL Montroseville - 2/1 0200-0230 - Equal to WTKZ with march music and extended code ID periods. Only one voice ID noted at 0226. (SF-TN)...Heard weakly with clear code ID once. QRM from WNZS, WYFQ, UNID EZL/NOS, and occasional "RR" ID. Very poor. Will take much listening to tape to see if I can get enough for a report. (MH-NC)
- 930 WZNN NH Rochester - 1/8 0200-0230 - Not heard, too much WFM/D/Cuban. (WPT-DC)
- 940 WADV PA Lebanon - 1/29 0230-0300 - Code IDs, TT and a couple of voice IDs heard during the first few minutes, but XEQ took over after that. Code IDs sounded like a dial tone had been used to record them. (SF-TN)...Heard with voice and code IDs and tones. Basically nothing 0239-0250 during planned decreased power, though did note possible tone and code using 500Hz filter. Overall fair with presumed Radio Rebelde ("RR" code IDs) and two other stations - one with Mutual news at top of hour. (MH-NC)
- 940 WFAW WI Fort Atkinson - 1/31 0200-0300 - Three code periods heard poor-fair under WMAX's overmodulated AC and KIOA's OLD, at 0230, 0250 and 0259. (SF-TN)...Not heard. Noted WMAZ, WMAX and XEQ. (MH-NC)...Not heard, unneeded. (REH-ON)
- 950 WFWV NY Hyde Park - 2/7 0000-0030 - Tentative under WTBX/WPEN/UNID with 400 cycle test tone barely audible, 950 rough frequency here. (RA-MA)...Some weak tone at 0021, but nothing identifiable. Only loud WPEN, someone with ABC news, and a talk program with a husky-voiced female host. (DB-DE)...Not heard, only a jumble noted on frequency. (MH-NC)
- 1010 KDLA LA De Ridder - 1/15 0500-0530 - Not heard because of WINS. (WPT-DC)
- 1150 CKX MB Brandon - 12/6 0900-0930 - TT fair under WMLT. (WPT-DC)
- 1260 WJAN MI Ishpeming - 2/7 0100-0200 - Listened the full hour, had two receivers going for simulcast of WDMJ-1320, both stations not heard. WFEZ and others on 1260. (RA-MA)...Nothing heard. (DB-DE)...Not heard, WCHV noted and 2 UNIDs (Talk and MYL formats) noted with same programs as on 1320 at this time. (MH-NC) (MYL was most likely WWDCC - db)
- 1320 WDMJ MI Marquette - 2/7 0100-0200 - Simulcast test not heard, QRM from WJAS and others, two receivers going for test. WJAN-1260 was also not heard. UNID AND UNID HELP

- 1340 WTRN PA Tyrone - 1/31 0030-0100 - Tape playback revealed three of the code IDs heard on WFRM, times matched to the second! No sign of two others that were noted on 600. Weak but clear in din with local WKGN nullified. (SF-TN)...Poor with code ID. Unneeded. (REH-ON)...Not heard. Noted UNID with *Roses Are Red and Paper* WI Reedburg - 2/3 0300-0330 - Not heard in jumble. (RA-MA)...Not heard. Too much WQBH. (REH-ON)

- 540 WSTH GA Columbus - Probably RR-ON's UNID in No. 16. Often noted in CBEF null with satellite GOS. (REH-ON)
- 630 KXOK MO St. Louis - Could be JK-VA's UNID in No. 16, they used "Mix 97.1" at one point. (SA-MB)...Possibly JK-VA's UNID in No. 16, format fits and 97.1 is the frequency for co-owned FM in Floissant, MO. (REH-ON)
- 610 UNID IA 0245 - Over/under Caracol in WGY null with CKLW-800 off. Bird-fed CW music program called "After Midnight". No legal ID at 0300 but did mention "Country 102". (REH-ON) (I would guess WCYK-VA, possibly left AM on by accident? - db)
- 850 CKVL PQ Verdun - Has to be JH-NJ's UNID in No. 15 as only French station on 850. (SA-MB)
- 910 CHRL PQ Roberval - Should be DS-DE's UNID in No. 14, only French station on 910. (SA-MB)
- 1260 UNID 2/7 0100-0130 - Noted with same MYL format/program as WJAS-1320. Only ID noted was "AM 12-60". WWDCC (MH-NC) (Probably, they both use the same service, as do several others audible here between 1230 and 1470 - db)
- 1340 UNID 2/8 2330 - Music, seemed to be OLD, then ID sounded like "1340 WSGK", back to OLD. Hoping for WSTJ-VT, which is closest sound-alike, but Log says WSTJ 2/6 1727 - Nonstop GOS until power/pattern change at 1731. (DB-DE)
- 1520 UNID 1/31 0306-0307 - Noted with brief fade-up during WPAD testing with promo by man: "You'll find... Also as part of promo "Midday 11 to 2 Eastern...". Possibly into Rush Limbaugh. Seemed to be separate from WPAD's testing, WQEW off. Ideas? (MH-NC)

- 740 WMBG VA Williamsburg - 1/24 0148 - Poor under KTRH with BBD and "Serving Greater Hampton Roads, AM 740, WMBC". KRMG off for some lovely reason. VA #115. (SF-TN)
- 940 WMLX IL Mount Vernon - 1/31 0215 - Excellent with music, ID, forecast, and Limbaugh promo with his "WMDX" ID. While trying in vain for WFAW test. Maybe using day power and pattern? First time here! (JEK-MD)
- 1240 WROV VA Roanoke - 2/7 0106 - ID popped up over another station with *For the People* talk while checking for WJAN test. (DB-DE)

OTHER STUFF

520 IQS OK Sallisaw - 2/2 0325 - NDB with "IQS" identifier in code at 5 second intervals. (REH-ON)  
 523 JFH NY Johnstown - 2/1 0340 - NDB repeating "JFH" identifier in code at 6 second intervals. (REH-ON)  
 1610 UNID NJ? - 2/4 0128 - Under *The Beacon*. So far the only words I've been able to understand are "New Jersey Turnpike Authority". (REH-ON)  
 1620 TTS CT ?? - 1/26 1802 - Did not copy any call letters, station broadcasting for the Connecticut Department of Transportation. Promos for car pooling and public transportation. Very weak, fading, co-channel with Roosevelt Island TIS. (HS-NY)  
 1620 TTS NY Roosevelt Island - Now on with regular programming and now with woman announcer. Recheck of tape on 1/21 has calls with man and sounding like "WNCU748". On 1/22 Hank Holbrook advises hearing station with "WNCU748" ID. During WADV test on 1/29, checked for KAZXAU test and noted this station with woman announcer and "WNCU" ID, no "748" announced. Signal ranges from poor to good. Must have an excellent antenna system. (MH-NC)  
 1620 WNAE NY Roosevelt Island - 1/26 0400 - Bus schedules and snow advisories. Loop, with ID as "Welcome to WNAE, Roosevelt Island's community travelers radio station". Weak with deep fades heard nightly. (HS-NY)  
 1620 WNCU748 NY Roosevelt Island - 2/4 0201 - Mostly under WNNV2910 with interim bus schedule to be used until trains begin running again. Did not use WNCU748 call letters on air, instead sounded like they were calling themselves "WNCU". Thanks to Mike Hardester for info on this new one. (REH-ON)  
 2/5 0400 - Ultra-weak "TR" in code repeating every 2+ seconds. Sounded like a MedFER. Looped WSW-ENE. (REH-ON) (The *Top End* column in the 1/94 issue of *The Lowdown* shows this on 1631.4 from Kingman, AZ!) Excellent catch! - db)

The Caribbean Christian Radio saga is turning into a soap opera; see Morris Sorensen's logging below. Some good aurora of late, but local noise (someone's TV) is a real problem for me. I hope you've been doing better.

## PAN-AMERICAN DX

- 750 VENEZUELA YVKS R. Caracas, FEB 9 0029 - Good in SS with ad giving phone and fax numbers in Caracas, ID by man as "R. Caracas Radio" into news. [Sorensen-ON]
- 760 COLOMBIA H/AJ RCN Barranquilla, FEB 8 0325 - Good in SS with talk by man mentioning "Colombia" and "Bogotá", RCN ID followed by what sounded like "LA Radio de Colombia". [Sorensen-ON]

- 780 VENEZUELA YVANAN Radio Coro, FEB 1 0227 - Fair in WBBM null, in SS with lively vocal by female group, 0230 R. Corro ID by male, then talk by female, possibly an ad, mentioning Coro and another R. Coro ID by man. FEB10 2326 - Good with SS talk by man, probably news, mentioned "nacionales y internacionales", also mentioned Caracas and Venezuela several times. R. Coro ID at 2331. [Sorensen-ON]
- 800 NETHERLANDS ANTILLES PJB Bonaire, FEB 1 0456 - Good in SS with music by female vocalist, ID by man at 0500 as Radio Transmundial, Bonaire, Antilles ??? (Nederlandes? - Jim), then more talk by man. Doesn't seem to be as regular as it was a few years ago. FEB 10 0100 - Noted in passing over CJBQ with ID by man in SS as "R. Transmundial", fair signal. [Sorensen-ON]

810 COLOMBIA HJCY Bogotá, FEB 8 0313 - Good in SS with what sounded like news, mentions of Colombia, Caracol mentioned at 0314. [Sorensen-ON]

830 ST. KITTS R. Paradise, Basseterre, FEB 9 0025 - Poor in BE with program "Praise the Lord" originating from California // KTRB 7510 kHz. [Sorensen-ON]

890 COLOMBIA HJPM R. Galeón, FEB 8 0455 - News in SS, male and female announcers, references to Cartagena and Galeón. [Sorensen-ON]

910 UNID FEB 12 0415 - Still trying to ID this one with faint SS music on an auroral night (A index 36), probably Caracas. [Renfrew-NY]

940 VENEZUELA YVANN Punto Fijo, FEB 3 0405 - Fair to good in CBM null with ID by man as "Super ??? de Venezuela", lively LA dance music, Punto Fijo mentioned by man at 0409 yllen more dance music. [Sorensen-ON]

1000 COLOMBIA H/AQ Cartagena, JAN 20 0257 - News by man, fair-good. [Townshend-D] FEB 12 0304 - Excellent over WNAV with SS talk. [Renfrew-NY] FEB 10 2334-2348 - Good with some CFRB splatter at times. In SS with what sounded like news/talk format, male speaker, many mentions of Colombia, also ads some of which mentioned Colombia. "RCN" heard at 2335. [Sorensen-ON]

1020 TURKS & CAICOS Carib Christian Radio, JAN 20 0107 - Good atop KDKA. [Townshend-D] JAN 20 0428 - Good in KDKA null with man denying rumors that his organization was planning to broadcast offshore, saying "That is a lie!" He said they will make an effort to broadcast legally from Belize and that a ship was on the way down with radio equipment. I believe this is the ship refitted by radio pirate Al Weiner (see Pete Kemp's column in DEC 27 DX News). Also mentioned by satellite 24 hours a day by transponder and ???, then said "The Kingdom of God is at hand", and into broadcast from the Overcomers in South Carolina. [Sorensen-ON] (According to a story in February's NAWVA Report, this is the same ship recently busted by the FCC in harbor in Charleston SC and all radio equipment removed) for running an illegal equipment test on 7415 kHz at the end of December. See QSL information below for additional information about this station - Jim)

1500 VENEZUELA YVRZ R. Dos Mil, Cumana, FEB 8 2353 - FEB 9 0005 - Good to excellent signal in SS with promo for what sounded like "noticias y informativos", LA music with brief announcements between selections, caught "R. Dos Mil" ID followed by second "Dos Mil" mention at 0005. [Sorensen-ON]

1610 ANGUIILLA Caribbean Beacon, FEB 8 2324 - Fair to good with program "Through the Bible" from Pasadena CA, man preaching against liberal churches and congregations. At 2330 program announcements, mentions of Anguilla and ID "This is the Caribbean Beacon. The time is 7:30". At this time I checked 690 kHz which also had religion but not // 1610, so I'm not sure if it was Anguilla or a U.S. station. [Sorensen-ON]

Mark Connelly speaks: "Quite an auroral DX session between 9 FEB at 2230 UTC through 10 FEB at 0100 UTC. TAs were limited to Africa with Lesotho-1197, Senegal-765, Mauritania-1349, Canaries-621, and probable Angolans in. Towards the end, conditions moved somewhat more to the north with Algeria-891 making an appearance. There was a good deal of Latin American / Caribbean activity with WLEO-1170 (PR); Venezuelans on 640 720, 750, 1110; ZDK-1100 Antigua; VSB-1160 Bermuda, St. Kts - 535 & 830; Colombia over Brazil - 1000; PJB-800 (with semi-local WCCM off); Turks & Caicos - 535; and an UNID believed to be Venezuela on 820. The heavy snow here has made power line noise higher than usual, and numerous South Americans besides those logged were battling with this noise. A Beverage at the shore would have pulled in much more DX."

Mark speaks again: "Later the same evening (10 FEB around 0330 UTC) I had Sao Tome in on 1530."

## HARMONICS

1720 DOMINICAN REPUBLIC R. Clarin, FEB 4 0352 - First noted at this times with LA music, buenas noches and sign-off with presumed national anthem at 0400. Poor to fair with high noise level. Noted again FEB 4 0023-0043 (I think you mean FEB 57 - Jim) with good signal, lively music, SS talk by man mentioned "internacional" and "Radio Clarin presenta ..." and at 0039 something sounding like "internacional de Santo Domingo". Nice to hear this one as its fundamental (860 kHz) is covered by local CJBQ-860. Thanks to Werner Funkenhauser for the tip. [Sorensen-ON]

## QSL INFORMATION

TURKS & CAICOS ISLANDS: Caribbean Christian Radio 1020, sent a full datacard in 3 1/2 months. Although I sent my letter to the Florida address, the card was sent from West Indies Broadcasting Services, Ltd., P.O. Box 200, Grand Turk, Turks and Caicos towers (telephone 809-946-1095). It mentions a 20 kW GE transmitter with a directional tower array. A crude map shows the signal radiating to Hispaniola (100 miles), Bahamas, Puerto Rico and Jamaica (400 miles), Cayman Islands (500 miles), and Miami (575 miles), so perhaps this is an indication of their directionality.  Fairfield, CT 06430-1728  
*Changes in programming status, reported by listeners*

It was bound to happen! Yes, all Traffic Radio! And not in a major radio market! WGN-1150, in Middletown, CT, halfway between Hartford and New Haven is not "Instant Traffic 1150", with continuous traffic updates from 6:00am to 6:00pm. The evening hours, with vastly reduced power is given to local sports. And a few towns away, in Bristol, WBLS-1120 is no more. With a Spanish format, the call has changed to WPRX. WBLS was the flagship station for the New Britain Red Sox. I wonder where the Sox will end up? Possibly on "Instant Traffic 1150, or the other local station, WMMW-1470, in Meriden. Humm!

Noted while DX'ing...CFDR-780 is now carrying country music, dropping the long standing adult contemporary format. The station ID's as "The all new AM 780, Kix". I know nothing about a call change.

Has AM radio sunk to a new low? Full service for 60 plus years WICC-600, in Bridgeport is airing promotions urging anyone to buy time in hour blocks for their own programming. Noted is the hook that one can sell his own commercial time, to make back the cost of the broadcast time!

All is quiet on the format front. The **K Street Journal** is our only contributor this time around. Here we go!

A short list. Do send your area's format changes in to your formats column. Then, as we DX, we will know, or can better guess from what station Greek on 1070, or constant traffic on 880 is coming. Good DX to all!

Thanks to updaters Ron Musso, Gary Froemming, and Russ Edmunds in this edition of IDXA. Thanks to some behind-the-scenes arm twisting by Mr. Tack, someone may be working on an update of the NRC countries list (which, if you can find a copy, you'll note is 29 years old). I'll keep you posted. Next listing in April, by Asia, 73.

## A Simple Anti-Static Device -- by Shawn Axelrod

Pictured below is a diagram of a simple device I use to look after any static that comes towards my receiver. This is not intended as a device to protect you from lightning but it will work well on the static that can build up on any antenna. Also on dry days the static you can produce by walking around could be put through your radio via the antenna if you touch it.

### CONSTRUCTION

There are only three parts for the inside of the metal box. Once you decide which connectors to use mount them onto the metal box at opposite ends. You may wish to put a solder lug on one connector to make it easier to solder on the other parts.

Solder the capacitor to the center of each connector. Solder the neon bulb to the center of one connector and the other lead to the solder lug which is to ground on the box.

This should give you a unit that looks like the one pictured below. Try to keep the leads on the neon bulb and the resistor as short as is possible.

### OPERATION

Mark the box antenna on the end with the bulb and resistor. Mark the other end of the box receiver. The box must be used this way to be effective. I used PL-259 on all of my antennas so the box has two SO-239 female coax connectors on it. The box is attached to my radio via a double male coax connector. If you use a short cable between the static box and your radio keep it very short. Once attached to the radio any antenna can be used with the box with no insertion loss.

### PARTS

- 1- Small metal box(2"x2" will be big enough)
- 2- Connectors (your choice)
- 1- Capacitor .01 Micro Farad 500 volts or higher
- 1- Resistor 10K
- 1- Neon bulb NE-2
- 1- Solder lug (optional but very handy)

ERNEST R. COOPER - 5 ANTHONY STREET - PROVINCETOWN, MA 02657

----- To those of you who are using the SW2 antenna, I wonder if you have the same problem with most 9 volt batteries that I have. When I put in a fresh Duracell, Tru-Value, Eveready or any other make EXCEPT the Radio Shack Red Batteries, I find they overload the receiver, and make it very difficult to tune to each frequency, as many stations are heard which are not on that particular frequency! So, yesterday, I stopped at my nearest Radio Shack (25 miles in Orlean's) and was told that they are no longer being made, that the government in the 'wisdom' had forbidden Radio Shack to continue manufacturing their batteries, because they contain mercury! So, if you find these Shack batteries as invaluable as I do, I suggest you hie away to your nearest Radio Shack and buy as many as you can, before they are all gone! And, no, I don't work for Radio Shack nor do I have stock in their company, and I suggest you hide your thermometers, too! I am getting quite discouraged in the lack of replies to my DX letters, as I am sure many of you are also. It makes me feel like writing a nasty letter to some of these holdouts, but so far I have resisted the urge to do so, and I hope you will also hold your fire. But, a letter to the CEO explaining what it is you see and that you've not had a response to your letters might do the trick. Perhaps JOHN MALICNY might be able to shed some light on this subject, as he has visited more engineers than any of us, I feel sure. He has met their receptionists, announcers, engineers, and perhaps he could tell us how to get those veries. Another fortnight has passed and no veries received, other than a dandy one from WBA5-1480 for their TEST, to whom I merely sent a thank you card. They enclosed a key FOB, coverage map & nice letter, and another card was sent to them as a thank you! DX-1/31 the DX TESTS scheduled for this date were either not needed or were virtually impossible here. I found my 'entertainment' on 1620 with a station which seemed to ID at WNCV, which seems to be around Roosevelt Field on Long Island with bus schedules, etc. Anybody have a mailing address for that? (G. Harley DeLennere noted in a note that it was giving a phone #935-0250, any of our LI members care to follow up on that?-DMS) 2/3 Unneeded W0NRX-1590 atop the spot at 2AM sign off in Spanish and English. 2/5 On 730, an ID sounding like WOSF noted at 3:29PM, I've no idea who this could be. 2/6 good-bye WPM-1390 Sunday silent period, now NSP. 2/7 I think I had the WYWH-950-TEST, only tone periods were noted under WPM/WIBX. WDMJ-1370 not heard, but WIAN would have been nice. They were listed in DX NEWS as 1260, but they're on 1240! That's it for now, Forward-March!

RON MUSCO - BOX 118 - POQUONOCK, CT 06064

----- Well, a lot has happened since last MUSE. I had a conversation with the CE at WNEZ-910. He related that their TEST was not aired due to a death in the family. He got 3 reports! Another conversation with the CE at WOC-1470 discovered that the TEST was 10 minutes late due to their previous TEST receiving questionable reception reports. A conversation with the CE at WYAM-940 revealed that their test was aired on their night pattern and received 3 reception reports. The point I am trying to make, what the heck is going on? Another touchy subject, the 2 PDND columns are revealing a lot of data on DX TESTS! I did not hear the KATL-770 TEST but I could have sent a follow-up report & obtained a verie after reading the data printed in the columns! What's wrong with pinning that the TEST was heard by the following then list them: te! I heard the WYNI-930-TEST & the RDLA-1010 TEST. That one sentence tells you that the TEST was on and that I heard it. I realize that that is a hobby but there are standards that have been set over the years? Another sore point is the Monday morning tests. Why aren't they on week-ends? And a lot of these tests are run during regular schedule with night pattern and power. Why bother? In 32 years of DXing, if I haven't heard it at night or early AM, I'll never hear it, te! I tried for the WOC-1420 test twice only to discover that it was on night pattern/power. A conversation with the CE at WYAM convinced him to run the 1460 Dixon, IL test with 1000 watts day power instead of 14 watts night power. Don't get me wrong, I appreciate the work put forth by the people involved but let's get the most bang for the buck! Veries: WYNI-1160, WYAS-1480 and WMIZ-1270 (#3 signed by the Big Banana!) This MUSING is not an attack on anyone but an attempt to better the DXing hobby! 73

----- As of 2/1, we are no longer servicing cheaper. A nice card has new owner found someone who would do the engineering cheaper. I arrived from the WIB-740 TEST, thanks PETER GEORGE, and it's verie #1095 here, I believe. I'll comment on ERC & RCN's report next DX NEWS = 73 & CUN71
