MEDIUM WAVE REPORTS

☑ A quick note from Kent Wrinich relay the DX tidbit! (not his!) "WAVK (which is about 3 miles away (10 kw DA-D 500 w PSRA), got knocked off for a couple of hours, so I took the opportunity to grab about 5 new ones that I couldn't normally get with us on. Also, about three days ago the announcers were talking about a letter they got from Finland, and that this guy had heard them while on PSRA, and that they can hardly get to the next city at that level. Well, they ended up playing this guy's reception tape on the air! I'll be honest, I couldn't hear the ID myself. But it was fun to listen to!!"

☑ Along came Wednesday this week, and I had nothing, nil, zip, nada for issue 16, and was getting worried. But then Thursday through Saturday morning's E-mail, snail mail, and phone calls to make a dandy column. Whew! Thanks, guys.

☑ John Wilkins notes that the "DIA" expedition results printed in issue 12 should have been credited to Chris Knight, John, AND Craig Barnes as a team effort. Since I received individual reports from Chris and John, I took it I would receive the same from Craig. I didn't mean to slight him in the least, and an apology is in order. So ... future DXPosition Team ... one combined report for all concerned, please.

☑ HOT ITEM: DDXD columns are for DX. That means a timely exchange of your DX loggings and tips which maybe of use to other DXers. Loggings should include some "meat", meaning clear as a bell, fighting KDXU for superiority, with ID in EE, amid SS music. First timers were watching for ID from a North Dakota station which would have been a new state for me. Didn't happen. (BM-WI)

☑ TrafFc - Added on 12/31 1400 - With religious program and ID. Called them, was not here. (IT-MO)

SPECIAL

670 KLDC CO Commerce City - 12/19 1255 - New station testing all morning, with OC, occasional ID. This is KDLC Commerce City, Colorado under program tests. Goodbye KPUA, YVLL, and all the other Latins on 660/670/680. Many of the reports below forwarded from Dave Braun ... but please send your loggings directly here from now on. Deadlines are Tuesdays January 23 and 30, then a couple weeks of Monday deadlines February 5, 12, then back to Tuesdays.

**SPECIAL**

1520 WWKB NY Buffalo - Per Tom Leykis show discussion, stayed talk for at least the first week of January, but this was probably the last week before the switch to C&W. (DP-HI)

**DX TESTS**

590 WVLK KY Lexington - 12/18 0230-0300 - Started with test announcement which occurred every ten minutes. ID at 0231 and 0237, what sounded like collegiate marching music in between. Fair on top of co-channel mush. (JL-OH) Test promptly began at 0230. Code noted, much QRM from WOW, WKZO, marching music 0235, then coded signals and more march music. Tape sent and v/l received with refrigerator magnet. WVLK is my regular daytime station here. (RCP-IN)

WARM PA Scranton - 1/8 0130-0200 - Very poor code heard at 0130 under a dominant Cuban; this is a daytime regular here. (DB-DE) Heard 0130-0158 with code, and one clear voice ID by man. Severe QRM from presumed Cuban in SS, and unID EE language station. (MH-NC)

770 WCGW KY Nicholasville - 12/18 0100-0130 - Started with scratchy low-frequency IDs into C&W/bluegrass. Variable pitch and 1 kHz TT heard at 0111 and 0122 for three minutes each, CTD again 0119. Surprisingly good under heavy WJR-760, WABC QRM. (JL-OI)

1020 WBGB NJ Ocean City - 1/7 0200-0600 - Not heard during 0430-0500 check. KDKA dominant on frequency, but unID vocal music selections and possible talk noted weak under KDKA and looping // KDKA. (MH-NC)

1340 WOOO NC Greenville - 1/8 0100-0130 - Not heard, just usual mess including WYCB and possibly WHAT. (DB-DE) Not heard 0100-0120. Greenville is about 60 miles from my QTH, so possibly CE was unable to test due to severe winter storm. Multiple other stations noted, one predominantly with sports, but no ID. (MH-NC)

1550 WGDN MI Gladwin - 12/17 0030-0100 - Not heard, only WTOU and a low frequency rumbling het. (JL-OH) Nothing heard. (RCP-IN)

590 UNID 12/22 2145 - Song “Feliz Navidad,” then SS. (WM-MD) [Probably Cuba. -(JL-OH)]

920 WBAA IN West Lafayette - Probably CS-ON’s unID on 12/4; this station has been the flagship of Purdue men’s basketball, and since a women’s game was heard, a campus station more likely serves as the women’s flagship. (DP-HI)

1310 UNID 1/4 1635 - “Sports call-in, ID as ‘The Score’” (JFNY)

1323 UNID 1/4 1706 - “Hubbard’s Cupboard” NOS show. (JFNY)

UNID 1/5 1735 - Lots of Philadelphia mentions, ID as WFIL, and as “Geeter Gold” (?). (JR-NY) [WPGG-1540 used to ID as “Geeter Gold” until their recent call and format change; maybe this moved to another station in the market, like WSSE-111?] -(JFNY)

1350 UNID 12/21 2059 - In a real mess, 1360/1330 dual ID, also an unID PP station beneath. (JR-NY) [WWLG-MD IDs / WASA-1330. Does WLYN-MA have any PP programming? -(JFNY)]

1480 UNID 12/18 2025 - Call-in talk show, mention of politics. (WM-MD)

1550 KQFN ND West Fargo - Probably RH-ON’s unID; Peter Rose is on the Sports Fan Radio Network. Station is also on the Don Imus network per program’s WWW page. (DP-HI)

UNID After some research, and futile attempts to reach One-on-One Sports, I can think of two stations that may be the mystery sister. (DP-HI)

1600 UNID 12/26 1718 - R. Aahs. (JR-NY) [WOHZ Wheeling? -(DPM)]

(DY-CT)

WINS NY New York – 12/18 2040 – In CFRB null with mentions of paviing work in New York, the George Washington Bridge, and a promo for ‘Shadow Traffic every 10 minutes on WINs.” When you grow up within walking distance of CFRB’s 50 kW transmitters and you hear something behind (even now at a 45 minute drive’s distance) it’s a big deal (RH-ON)

What's going to happen to Dave Braun, now that he's no longer doing DDXD-East? Well, the
reports of his demise are greatly exaggerated, because he's still sending in reports to IDDX, of
course! Congratulations to Dave Yocis, the new DDXD editor. Let's all flood his mail box and
modem with some hot logos! Welcome back to Tom Sanders, who adds MI to our list of
reporting states this season. And, thanks to Dave Yocis, we have first-timer Robert Pote. Where is
Mark Connelly this week of heavy snow, you ask? We believe he's trying to regenerate all the
snow in his yard to water and then phase it away. Others up here in the frozen north are experimenting
with snowmobiles attached to longwire along the driveway, and hoping a moose will wander by to pull
it in the right direction. The idea should work, because moose have a proven attraction to
longwires!

Weekly deadlines are Sundays until March.

TRANS-ATLANTIC DX

558 SPAIN RNE5 Valencia/Ia Coruna/San Sebastian, DEC 31 0046 - Male/ female in animated
SS, brief periods of SS classical music, loud and / 576, 603, etc., 0106 vocal music, still
good and now / RNE1 stns also. This was best this has been heard. This frequency also
has SAH, not sure if caused by Spanish transmitters or someone else. [Merriman-VA]

567 [IRELAND Tullamore, DEC 31 0040+ - 59+20db playing "Whiter Shade of Pale", promo for
National Symphony Orchestra and more lite rock. [Merriman-VA]

576 SPAIN RNE5 Murcia et al, DEC 31 0126 - variety program, several male/female speakers,
brief periods music, some teletalk and / 585, 684 etc. There was good carrier level but
very poor audio. Not sure if Ireland's carrier was still on or just weak audio on RNE.
[Merriman-VA]

576 PORTUGAL (?) R. Renascence, Braga, poor, DEC 31 0113+ - romantic music, female vocal,
seemingly / 594. 0130 man in ?, again seemed / 594, 0136 man in ?, 594 not
readable, 0138 instrumental music and again seemed / 594. This was mixed with
at times over Spain but readability never very good. SAH present at all times. Needless to
say, very tentative. [Merriman-VA]

576 SPAIN / UNID, DEC 31 0055+ - man in ?, poor, 0008 2nd station with woman talking and
speaking / 1235. 0044 good, SS classical music, male/ female voice, several
speakers, / 558 which was much stronger, 576 is RNE5 in Barcelona and this was best this has
ever been hrd. Unid was not Algeria, 153 checked - probably Portugal or Germany.
[Merriman-VA]

603 SPAIN RNE5 Sevilla / Palencia, DEC 31 0015+ - 1 or 2 woman and a man in SS, good on
peaks / 1107, 1125. 0161 59 with romantic SS music, / 564 RNE1. New.
[Merriman-VA]

666 UNID, JAN 5 0350 - Bits of music, too weak to be iDable. [Braun-DE]

675 HOLLAND Lopik, DEC 29 2150+ - loud, light rock music, female DJ taking phone calls,
strongest signal on band. At 2215 this along with 747 and 1008 were roaring in, a regular
pipeline into Holland. Unfortunately band folded shortly after this. [Merriman-VA]

684 SPAIN RNE1 Sevilla, JAN 5 0358 - Female vocal music, fair. [Braun-DE]

711 UNID, DEC 29 2211+ - man in what sounded like FF, DEC 30 - het already in at 2045, 2355
AA music, very loud and was not / 171, 207, 612, 1044 Moscow or 1251 Libya - all in
with good signals, DEC 31 2148+ - man in AA, again loud and no / 564. Guess I'm
gonna have to take another WAG - I think this might be a new station in Morocco
possibly carrying the Medi Un program since 1044 is now carrying the C Program. Only problem is
that this is not // the other Medi Un outlet on 171. Surely someone has to
know what this is! [Merriman-VA]

774 MOROCCO/SPAIN Agadir C., DEC 26 2356+ - AA sounding music, not wild Berber type
heard at times on C Program, 2359:20 brief announcement by a man, 2359:45 what
sounded like anthem and carrier off 0011 on, DEC 27. This was good and // 1044
and confirms that 1044 is now carrying C Program. This was not // A Program on 207, 612.
No sign of Spain and I thought they were off. Earlier at 2310+ there was a strong QSO on
this freq and I assumed this was Spain testing and they had signed off. But, DEC 27 0002
man in SS and definite // 855, signal weak so maybe only some of the Spanish
transmitters were off, or maybe just poor conditions. With this type of music heard here, what I've previously tentatively reported as Egypt could well have been this. Again, DEC 30 and way over Spain. [Merriman-VA]

827 MOROCCO Ouida C, DEC 30 2355+ - AA sounding music, / 1044 which was buried under Spain. 2359-30 man in ?? and 2359:55 anthem (?) / / 774 which was way over Spain. Anthem ended 0001, DEC 31 and carrier cut 0001:20. This answers my question as to where this is on the old band freq. [Merriman-VA]

858 SPAIN RNEL, JAN 5 0403 - Boom in with talk, presumed news. [Braun-DE]

864 EGYPT Santah [JAN 2 0207+ AA music, male vocalist, 0237 male chant, a capella, long pauses, both times fair signal at best, in/out of noise and / / 12050. Fast SAH present. [Merriman-VA]

868 SPAIN Reception, JAN on DEC 24 was at 0543, not 0443. My prefeeding still leaves a lot to be desired. [Braun-DE]

936 MOROCCO / UNID Agadir A, DEC 26 2330+ - I don't believe it, this is on! AA music, female vocalist with very high pitched voice, / / 207, 612. Carrier was over S9 but audio at a very low level. 2335 a bit lower profile AA music and was barely detectable. 2339 2nd station up with unid language, weak and sounded like the same unid heard earlier 2230-2300+. 2345 station mixed, 2348 Agadir back up with AA music and fairly good, / / 207. DEC 27 0001 -0017+ woman in AA, again fairly good and / / 207. First log of this former powerhouse since I started back DXing. Unid may have been Germany. [Merriman-VA]

963 UNID, JAN 9 0500 - Bits of music on evening with good northern conditions, so looking for Finland, but never good enough to get anything IDable. [Braun-DE]

1008 SPAIN SER (3 stations), JAN 2 0125+ - 2 men in SS with teletalk and / / 1044 but neither setting the world on fire. Canaries off after WRTH and no sign of Holland. [Merriman-VA]

1009 UNID (HOLLAND?), DEC 30 2332+ - loud with TT on top of Spain/Canaries. Again, DEC 31 0023 and 0035 still with TT. [Merriman-VA]

1044 MOROCCO Sebaa-Aioun C, DEC 30 2050+ male/female in ??, 2056 wild Berber music, female vocalist, good to fade at 2059. Noted again later at 2356 with AA sounding music bumed under Spain and / / 827. [Merriman-VA]

1048 CROATIA Sebastian / Valladolid, JAN 23 0115+ - noted at various times with men in SS, teletalk and / / 1008, 1116. 0229 SS music, male vocalist. Fair at best. [Merriman-VA]

1088 SPAIN / SLOVAKIA RNE5 (4 stations), JAN 2 0123 - male/female in SS (Teletalk?) good briefly and / / 855, 0124 Nitra, Slovakia on top with quiet music, 0125:30 SS behind and back on top at 0126, still male/female in SS. [Merriman-VA]

1089 FF (4 stations), JAN 2 0134 - fair with SS pop music, / / 855, 0153 male/female in SS. [Merriman-VA]

1106 SPAIN SER (3 5 kw stations), JAN 2 0118+ - 2 men in SS with teletalk, fair signal and / / 1044. [Merriman-VA]

1125 CROATIA Deinovec, JAN 2 0130 - on top of Spain with instrumental music and / / 1134. [Merriman-VA]

1134 CROATIA Zadar, DEC 30 2316+ - woman in EE with news, talk about US operations in Bosnia, story in Wall Street Journal, Bosnian Serbs, return of refugees, etc, 2320 "...News from Croatian Radio" brief musical bridge, man/laded, 2322 instrumental music, 2324 male/female in Croatian. 1125 not in so couldn't if they were also carrying EE news. Signal was its usual loud self. [Merriman-VA]

1298 SPAIN COPE Valencia, DEC 30 2340+ - 2 men in SS, fairly good with teletalk and / / 999. [Merriman-VA]

1299 SUDAN / UNID Rebia, DEC 30 2140+ - AA music, male vocalist, just before hour brief announcement by man in AA and at 2200 instrumental music, very nice signal on peaks and easily / / 7720. At 2149 and again 2152 2nd station briefly with man in unid, didn't sound like SS so maybe BBC which is supposed to be in Polish. Still needed from this QTH. Hard to believe I can't hear BBC due to QRN from Sudan - on the Broadcast Band! [Merriman-VA]

1314 NORWAY NRK Kristosy, JAN 8 0840+ - Presumed the one with signal but no audio, no other hets noticed anywhere on the band, and good Canadian conditions this morning. According to sunrise/sunset maps, this would be about 45 minutes after Kristosy sunrise. [Merriman-VA]

1323 GERMANY 7 of 9 with classical music. [Braun-DE]

1467 FRANCE (MONACO) TWR Romoules, DEC 30 2136 - hymn in unid language, loud. [Merriman-VA]

1512 BELGIUM R Belgium Foreign Service, DEC 30 2207 - woman with news in EE, mention of Belgium, nice signal. [Merriman-VA]

1539 UNID, JAN 1 2300-2330+ - not notated here, several times got strong like it was going to produce audio but never did. This has been noted before. Senegal looks most likely. [Merriman-VA]

1544 ALGERIA (? I L V de Sahara, clandestine, JAN 1 2315+ - nice carrier but very little if any audio, this has been heard with good audio at times in the past. Trying to hear this and IFAD at the same time! [Merriman-VA]

1557 MALTA Deutsche Welle Relay, Cyclops, DEC 30 2213+ - man, 2215:30 woman in GC and / / 6675. SAH present probably from Nice. 2232 man taking over flute music and again / / 6705. Nice signal on peaks and WQEW-1560 slop virtually non-existent. New for me. [Merriman-VA]

1602 SPAIN R. Vitoria (?), DEC 26 2049 - 2 men in SS alternating with light music, some QSB but nice signal on peaks until out at 2058. 99% sure Vitoria mentioned at one point so that's what I base the possible ID on. [Merriman-VA]

PAN-AMERICAN DX

640 CUBA R. Progreso, Havana, DEC 24 0358 - News, then bell tone and ID "Radio Progreso, Cadena Nacional, Habana" at 0400 followed by EE jazz vocals. Good. above WQ until 0630. [Sanders-MI]

650 COLOMBIA HJKH Bogota, JAN 2 0052 - music, 0054 string of recorded announcements/spots, ID as "Antena Dos" and "RCN", 0057 promos with song 'Jingle Bells' in EE and mention of "Ano Nuevo" and again RCN. Nice signal with WSM phased. [Merriman-VA]

690 ECUADOR HCB1 Quito, JAN 8 0802-0813 - TEST logged here at fair levels with tones and three segments of Morse Code at fair level and two sets of Code at a weak level. Interference from CBF, an English speaking religious outfit (Louseiana?) and a Spanish-speaker (Cuba?). Tape sent to Al Merriman for audio cleanup and code deciphering as I don't have Code ID. Tape also sent to Mr. McVicar. This TEST should have been widely heard especially in the east. (Musco-CT) Those other stations might have been Anguilla and Cuba. The Cuba signal is often heard with a wide "buzzzzz" sound - Jim] JAN 8 0802-0815 + With code segments and tone being the only parts heard. Severe QRN from (presumably) CBF in French, UNID Spanish language station (Radio Progresso?) with mentions of Cuba, a station with USA Radio News and possible later into country music format...or another station. A VERY crowded frequency. [Harderst-NJ] JAN 8 0800-0815 + No sign of them on DX test, only VERY loud CBF! [Braun-DE]

705 ST. VINCENT, JAN 9 0924 + Presumed the source of the het here. WRTH says they shouldn't be on at this time, so maybe just left transmitter on. Don't remember the last time I heard a signal here. [Braun-DE]

730 MEXICO XEX Mexico City, DEC 25 0600-0615 - weak but there with SS music and "La X" ID. Heard often here, but not in the last two or three years. [Sanders-MI]

800 MEXICO XEX, Ciudad Juarez, DEC 22 0109 - SS programming very, very good. CKLW not heard. [Pote-NT]

970 VENEZUELA, Mundial Oriente, Barcelona, JAN 9 0133 - SS music, ID "Radio Mundial, la primera de Venezuela.... good over WWJD, WJMX. [Yocis-CT]

1025 TURKS AND CAICOS, TCA, Date? Time? - ID as "Super Power Caribbean Christian Radio," 54 minute hit on a Jet offer, P. O. Box 11797 Baltimore MD. Program in EE, very good in KDKA null. [Pote-NT]

1080 VENEZUELA, YQJ, Barcelona, JAN 9 0211 - SS music, "R. Barcelona" ID, strong but mostly under WTC. [Yocis-CT]

1170 COLOMBIA LNL Cartagena, DEC 3 0157 - Good in WWVA null with SS talk, instrumental music, ID by page booklet offer, P. O. Box 11797 Baltimore MD. Program in EE, very good in KDKA null. [Yocis-CT]

1300 UNID, JAN 4 0242 - SS talk poking briefly through domestic mess, one definite Cartagena mention at this time makes me think possibly HJLG VO de las Antillas, Cartagena. Have to work on this one some more. [Yocis-CT]
153 RUSSIA Komsomolsk FE, JAN 4 1214 - Poor with talk in RR by woman. [Woods-OR]
189 RUSSIA Belagorsk Siberia, JAN 4 1219 - Fair with EZL music, female vocalist, into RR talk. [Woods-OR]
567 JAPAN JOIK Sapporo JAN 4 1159 - Poor with J talk by man, pips on the hour, into J by woman, apparently news. [Woods-OR]
1476 RUSSIA Vladivostok JAN 4 1324 - Actually hear audio here. [Braun-DE]

THE DRIFTERS: Do you have any reports or memory of a station on 1500.4+/-? Heard a bet here JAN 8 all night, as was the bet on 1100 from Colombia. Also had signals JAN 5 0410 on 874.8+/-, and on JAN 9 0542 on 862. [Braun-DE]

UNID BC: I don’t know source of this but following your tip I tuned 1476 and can confirm I heard same here in UK. The BBC audio on 1476 is delayed by more than half a second relative to BBC WS on 648 kHz. I logged tentative BBC WS News on 1476 at 2102 and on JAN 9 0542 on 862.

VENEZUELA: In Mark Connelly’s recent 1090 logging, the president of Venezuela is Rafael Caldera. [Moore-IA]

As I have watched the TV reports on the Blizzard of 1996, I have been so happy to be here in Canada where it goes up to around 72 every day, and down to around 50 every night. That reminds me, my wife and I will be leaving here around March 15 for about 6 to 12 months in the U.S. I hope to do one more column before here before I leave, but after March 1 you ought to mail any reports to me at: Ken MacHarg, Furlough Home, LPTS, 1044 Alta Vista Road, Louisville, KY 40205. I hope to be on e-mail there, but won't know until I get there. Anything which comes here after March 15 will sit here until I return in October. So, with that, on with this month's reports:

**BOB MIELCAREK - 1909 W. RAMSEY - MILWAUKEE, WI 53221**

It's been a long time, guess a reintroduction is in order. I was a member from the late '70s until '87 when I lost interest in DXing. I guess it coincided with my youngest taking his first steps and just not having time to sit down. I'd been away from the hobby that long until I brought out my logbook recently and noticed I hadn't logged a new station since '87. Time Flies. The DX bug bit again and I'm back at the dial. I'm still using the ICOM 707A receiver and have added a Palomar Loop antenna which has exceeded my expectations. The night I bought it I was able to get a dead null on WCN-720 which is only about 90 miles from here and pulled in CHTN. Some other catches of note have been WPBE-1160, CKWY-1970, CKNW-990, WFRN-1560, WBB-1580, and KISU-1010. I've had one station giving me fits and finally got an ID on WZIO-1010, after much listening for a city ID. ID's often were "Super Hits of the 90s" but did catch one "Ohio's Super Hit Music Station, 94.9 FM, WZIO-ID. Having been out of the hobby for 8 years, I've noticed several changes. In the "old days", the only syndicated show was Larry King; now it seems everyone has a show on and it's become rare to find a station with local programming at night. Maker getting an ID tough. I've also noticed the Canadians are all night; most used to sign off after midnight. There doesn't seem to be as many sunset sign-offs as before; everyone must have PSA's. Some questions: What ever happened to Reverend Ike, how long has CPDR-1570 been going (last year, Bob-DWS)? is Paul Kowalski still around?? I'm glad to be back and hope all is well with the everyone I've become familiar with, in DX News. And, on the evening of 12/3, Radio St. Lucia was in the clear on 660 with Caribbean Countdown. See ya. Welcoming back to the NRC and the "old" Bob, we remember your name 'from the past?" And we hope to 'see ya' in the MUSINGS column from time to time-(DWS)

**ERNST COOPER - 5 ANTHONY STREET - PROVINCETOWN, MA 02657**

I reported my verie count as 4486 in my most recent MU9R - that was an error - it should have been 4486. And it has since risen to 4492 with the addition of varies from WDDC-1500, WQCB-1560, WQCV-690, and WDNF-1300. That's 8 varies so far this season, now nearing the half way point. Will I get the "other 8" to bring me to a grand total of 4500? Stay tuned! DX recently: 11/29 WQCN-1579 noted with a new (for them) format - rock. That afternoon, WCSI-820 is already under. 11/30 WQCV-690 and Denmark-1062 obliterating KYY-1960 at 4:55PM. 11/30 KFSD81-1620 CT Dept. of Transportation in weakly 134AM. And the TBS on 1610 in the Albany, NY area also in/out with the Caribbean Beacon, I make the call letters out to be WXL4. They alternate between traffic info and weather info. Anybody have an address for this one? Then in the afternoon, at 2:14PM, unneeded WPST-600 towering over WCKC, WILZ-670 in slyco at 2:16PM, "squaw" between WTNH and WRKO. 12/1 WJDZ noted on regular schedule on 1660, and in Spanish. They are not running all night. 12/14 WFAU-1280 noted running all night, killing off any good chance for any good DX on 1280. Report sent to WDDC-1540, religious programming. 12/15 WCV-1110 wasn't a able to hear WOON's DX TSST, but I did hear them under local WUCK and a report was taken at midnight. WNNW-1540 noted in out with WDDC, seems to sign off at 4:30PM with the Star Spangled Banner, nothng yet for a report. 12/16 found WQPI-1560 on open carrier, and a "Magic 1560" noted, and also the slogan "Your Music Power". I update my NRC Log #15 by writing slogans, etc. reported by others and I find 2 1560s 'er who use "Magic 1560", WXQY and WMRO, neither listed to have night operations. I reasoned that the more likely was WMRO since it's non-directional with a 1500 watts, WXQY is 1000 watts directional. So I sent a tentative report to WMRO. Now I read in DX Monitor (IRCA) that WXQY is all night, so I guess I'll send a tentative to them also. 12/18 I managed a bit of tune on 770 under WABC, and another tentative out to WQGWM-690. Also in there was someone mentioning NE AL, which was probably WVNN, so one more tentative out. 12/20 WQEB-820 not at 1AM with ID, but then lost under WNYC/WBAP/Spanish. And let me conclude by wishing our MUSINGS editors all the success in the world in their new entrepreneurial endeavor - March! (Thanks, Ernie, I need ID-DWS)

**DAVE SCHMIDT - P O BOX 11502 - DE 19980**

Not a lot to report this week, not much ground covered between Christmas and New Years. I hope all those DXing this week will send in reports and let us know what you've heard. DON TRELFORE: I sent you a verie from WA1AV for your 12/94 reception, the last CE set aside. I'm still very surprised to hear WMOM of AMs in this area that are still doing well, or at least sound to be (from the number of ads heard on the air).

**BY LAURIE NILES**

Since 1929, the government has lossed radio transmestion around the world from the opening of the Grand Island. From that day, the Grand Island station was built on the island because of a lack of interference from large ships, among other reasons. "It was centrally located, and the ground conductivity is good," said Re-becca Wilman, a spokesperson for the Grand Island station. "It was a good location to pick up signals from around the world." Nominating stations boost the output of a variety of broadcast signals, including commercial radio stations, lines for violations of FCC and international regulations and make interference problems. The nominating stations have been used to help find ships in distress and downed airplanes.

During World War II, the Grand Island station spread a training ground for 20 people in the Radio Intelligence Division, which was wanted for transmitters relating to espionage ac- tivities.

With the closing of all its monitoring stations, the FCC will build a national automated monitoring network. The Grand Island station, the last of its kind to be replaced by unmanned computers with high frequency dedication.

**Omaha World-Herald (via Ernie Wiesloski)**

Omaha, Neb.

There's still a lot of activity on HF, Colton said. "But we are noticing a drop that we still keep that network but it's not as big."

The site will still have an antenna, but it will be put on the roof rather than up in the country to Maryland," said Jim Berne, engineer in charge of the Grand Island site. The 15 employees at Grand Island will be dismissed or relocated.

As for what will happen to the building and the land around it after the station, "we have no clue," Mr. Wilman said.

After the station closes, the land on the island will be used for the same areas, which are protected as an area of state and federal. Mr. Wilman said. The rest of the land may be used as a buffer for the 15 employees or used to be another police agency.-

Any agency taking over the land will have to work within a number of construc- tions. The building will be preserved because it is on the national historic register.

"You can't build a 300-foot high- rise that replaces our ability to monitor signals," Mr. Wilman said.
