CPC Test Schedule

KICY ...... 850 ...... AK ...... March 2 ...... 0430-0530

KICY-850 - P. O. Box 820 - Nome, AK 99762
<Kicy@dwarfnome.net> will conduct a DX test on Monday morning, March 2, from 12:30 am through 1:30 am (Alaska Standard Time) and will consist of code ID's, with occasional voice ID's at 10 KW non-directional. Reports may be sent to Mr. Tom Guilliam, Chief Engineer. Arranged by Bill Hale for the NRC.

From the publisher... Congrats to Bill for landing his first test... now if he can just get KOA to stand by, hi!

X-Band... Larry Godwin, Pat Martin, and Pete Taylor were the first DXers to report another station on 1620, KRIZ, Renton WA. Pete noted it parallel to 1420 on February 13. Sez Pete: "They always give dual KRIZ/KZIZ ID's even though KZIZ isn't on at night." It will be interesting to see how it competes with WPHG, which dominates the X-band here in Topeka.

Kulpville... The 11th Annual Winter Fest in Kulpville, Pennsylvania is scheduled for March 12 through 14, and anyone who wishes to represent the NRC should coordinate efforts through the NRC's rep, Dave Schmidt.

BBC Audio... Jeffrey Bennett offers the following info, which should be of interest to those who need parallel confirmation: "If you don't have access to a shortwave radio and you like listening to the BBC WORLD SERVICE, well, you are in luck. I was surfing the net, and while looking at the audionet web site, I clicked on the radio link, and the first link brought me to the audio link for this station. To find the direct link for the BBC WORLD SERVICE just go to the following site, http://www.audionet.com. The sound quality is pretty good, although the source is over compressed."

DX Time Machine

From the pages of DXNews:

50 years ago... from the February 21, 1948 DXN: Al Bunsen, Skiloh, Oli, submitted a list of 28 frequencies on which he heard TX's on one recent morning between 1:15 and 2:07 AM, with signal strengths ranging from 5-1 to 5-9.

25 years ago... from the February 11, 1973 DXN: Greg Hardison, Grandan Hill, CA, reported that he went to a 1220 DX gathering at John Clement's place in Newhall, at which those in attendance included Jeff Brase, Jim Critchett, and an "obscure" DXer from Riverside County (Don Erickson), perhaps as far east as Byrnes.

10 years ago... from the February 19, 1988 DXN: In one of the smallest DXN's in recent history (12 pages), César Obijo reported receiving La Voz de la Roma, Dominican Republic, on 1454, recently having moved there from 1540.

**MEDIUM WAVE RAMBLINGS**

- A computer glitch (gotta blame something!) popped up in last week's GW computation of Morris Sorensen's CKNR distance. It is actually 241 miles from Milton. So Den Treford, at 244 miles from Scarborough, claims that one (for now). Joe Kureth also claims another record, and the Johnson's are on the GW crowd. From the "unofficial" NRC Services Department comes word that the Graveyard DX editor is offering a printout of the distance and bearing of every Graveyard station in the AM Log to your location. Post paid to your house . . . $6.00. Your ZIP code is mandatory, as it's from there where I get your coordinates for the computation. No ZIP code? Try to get me close to your QTH.

DX Digest

I already feel like the X-Band is passing me by. I can't get that 1650 station in California due to strong local images, and I missed my chance at Argentina 1620 with WPHG signing on. Let's add another to that list.

The 1400 MHz Band 1700-1800 kHz! I may be out of town next week, so you don’t see IDXD 65-20 that is the reason. In that case, all reports will be held over until IDXD 65-21.

Time for a review of States and Provinces reporting to IDXD so far in Volume 65: NV, PQ, ON, BC (40%), MA, NH, CT, RI, NY, PA, MD, VA, NC, FL, AL, TN, OH, MI, WI, MN, IL, IA, MO, OK, KS, CO, MT, OR, WA (we’ll count the Grayland DXpedition), CA, HI (56%). While we’ve already exceeded the number of states that checked in last season, only two additional provinces will probably win the 1997-98 IDXD North American Reporters’ Cup for Canada, so let’s hear from our members in Nova Scotia and New Brunswick!

Mike says: "It was fun to read about all of the great DX that so many people heard in Christmas but did hear a few hets on the TA frequencies. Mike Maloney, AC5P in Baltimore (50 miles N of Tulsa) did hear audio on Norway 1314 and an unID on 1215. Hope to be able to do some listening in the near future."

Pan-American DX

530 TURKS & CAICOS, R. Vision Cristiana, JAN 31 1205 - SS talk still at a good 59 skip strength at local dawn. Groundwave (day) level is about S5. [Connelly*H-MA]

990 CUBA, R. Progreso, CMXZ, Santiago de Cuba, JAN 31 2350 - // 640 with SS talk, Cuban political speech; loud, way over WPBS. [Connelly*H-MA]

941 unID (likely Cuba), JAN 31 0320 - persistent het against CBM yielded bits of SS talk, not enough for ID. Bruce Conti mentioned that a Cuban has been drifting near this frequency. I'd presume that it would be one of the R. Reloj outlets. [Connelly*H-MA] JAN 31 2301 - weak het still here. [Connelly*H-MA]

1000 MEXICO Radio Mil, FEB 05 0157 - SS music dominates. 0200 clear ID as Radio Mil. [Ziolkowski-NY]

1020 COLOMBIA RCN Cartagena, FEB 05 0120 - heard "Colombia" then anthem like male vocal. 0126 another Radio Mil copy coming up causing a Het, as two men talk with mention of Colombia. 0130 weak signal and ID as "Radio de Colombia". 1170 COLOMBIA HJNW Caracol Cartagena, FEB 05 0100 - 2 IDs "este es Caracol Colombia" then male talk. Way behind WWVA but a pause in talk allowed a clear ID to come through. [Ziolkowski-NY]

1375 ST. PIERRE ET MIQUELON, RPO, FEB 7 0129 - man and woman taking in French and playing pop and MOR music as "San Francisco"; good. Although the het seems to always be strong, usually there isn't much audio. [Wolfsih-ON]

1620 ARGENTINA R. R. Esmeraldas (presumed, FEB 4 0859 - SS preaching, low key music except for a Mahalia Jackson-like selection at 0915. Quite strong, wiping out WPFG; since it looped east from here, I thought it was a new domestic. First SA from Tacoma [Taylor-WA]
