*From the Publisher . . .* We seem to be receiving a lot of last-minute renewals, which, with the slow mail delivery at this time of year, is not such a hot idea. Considering that you receive about a two-month notice (via highlighted text on your label) to get your renewal amount in before your membership expires, Ron and I just don't understand why it takes some members three months to get a check in. Perhaps you need to cough up the extra buck and use PayPal? It's not that I MIND hand-addressing single copies to you after your membership is cancelled for lack of payment . . . I just can't fathom anyone not wanting their DXN waiting in their mailbox 30 times a year, hi! And as Mr. Tact (always) says, YOU can renew for MORE than one year at a time!

Now that the holiday season is upon us, why not send a Log or another fine publication to a fellow DX'er? However, before you send \$ to just ANY address on the back cover, kindly read the (fine) print at the top to discover who gets what. I'm sorry for the (slight) inconvenience, but in a volunteer organization, many people do the work, and we live all across the country . . . so kindly do your part and send your checks to the correct address. It costs the NRC postage to return or forward items sent to the wrong address, which in the long run has an effect on the amount of dues we have to charge you. So if you can help us out and lighten our duties and the NRC's costs by sending your requests and checks to the proper address, we'd appreciate it.

### DX Time Machine

#### *From the pages of DX News:*

50 years ago . . . from the December 13, 1952 DXN: Ernie Cooper, Brooklyn, NY, found PJC-1 722, Curacao, coming in with a beautiful steady S-7 signal, playing popular American tunes with English announcements on 12/10 1901-1930, followed by marches until 1945, for a new country in his log.

25 years ago . . . from the December 19, 1977 DXN: A survey of members revealed the following interesting facts and opinions, as compiled by John Bowker: the age of members was from 15 to 73, with the average age being 36 . . . 63% of all members said DX'ing was their primary hobby . . . favorite columns were DDXD, 74%; Musings, 68%; CPC, 62%; AM Switch, 52%; IDXD, 50% (based on rankings of 1-9) . . . 38% said there were too few technical columns, 14% said too many, 25% declined to respond.

10 years ago . . . from the December 14, 1992 DXN: Dallas Lankford's review of the Drake R8 was less than glowing; he stated that the clarity of signals on the R8 was less than on an R-390A, for example.

### CANCELLED LICENSES

Our resident NRC Computer Guru and Keeper of the Log, Wayne Heinen, after many long hours, has cracked the sorting code of the FCC Database and was able to run a call-by-call comparison between the FCC and NRC Databases. This has turned up a number of stations in the NRC Log that no longer appear in the FCC list. The FCC has historically put this information in the Public Notices on a hit-or-miss basis so this info often falls through the cracks. Each anomaly has been individually checked and the following stations are noted in the FCC Database as LICENSE CANCELLED / CALL DEFERRED:

790 KUTA UT Blanding

## Citadel Southwest Team Radio

900	WSNQ	MI Gaylord
980	KZXX	AK Kenai
1130	WKED	KY Frankfort

1400	WALZ	ME Machias
1430	WBRB	MI Mount Clemens
1430	WLAU	MS Laurel
1520	WKBZ	MI Muskegon Heights
1590	KYDE	AR Pine Bluffs
1590	WMIM	PA Mount Carmel

The FCC Databases are NOT without errors. Some of the Internet DX reflectors are filled with rumors and conjecture disguised as fact, so we're not interested in third-party info. But if you hear any of these stations with your own ears and are positive of the ID, let us know.

Size is 8 1/2" x 11" and three-hole punched for easy binding. Please state your club affiliation when ordering to receive the club discount rate.

### DDXD-West

#### MEDIUM WAVE RAMBLINGS

- For the next DDXD-West Challenge (deadline December 20<sup>th</sup>), 'second-adjacent state' DX is what we're looking for. You have to jump over the state or province adjacent to yours to get eligible DX. The next week we'll be thinking of Season's Greetings, so for the deadline of December 27, the Challenge is to DX stations with an X (XEs are acceptable, but be reasonable), an M, an A, or an S in the call letters. Get it? Then we have our annual Christmas Break, meaning a two-week hiatus between DX Newses. So for the January 10 deadline, let's designate a frequency again. How about a Graveyarder? 1230 kHz. So be it. Remember to keep your reports in the true spirit of DX, not your regular, armchair copy stuff. (reprinted from last week). (Or, Vanity DX -pls.)
- Another wonderful turnout by a great group. Cold temperatures outside mean that DX heats up. So take advantage of the weather conditions and keep listening to the good ol' AM dial. And don't forget to report your loggings to DDXD!! See you next week. 73 to all.

1575 **KUWAIT** Clandestine Iraq? NOV 20 2314 - Good, with Mid East music and announcements in Arabic. First time I've heard this one in a while, if indeed it is the same station. 1548 kHz was also up at the time. [Dangerfield-PA]

*Ben speaks:* Still waiting for a decent TA cycle. The last two weeks has been mostly auroral or rather I should say, signals mostly from the south. On Nov 20 some high-end TAs in the Mid East broke through briefly, most notably on 1548 and 1575 plus one on 1566 I couldn't ID. On Nov 29 (Thanksgiving night) 1557 was quite good. A number of LAs otherwise. Dec 3/4 began quite auroral with several Venezuelans and Colombians, then swung to TAs later on when such as 1134, 1098 1089 and 1521 were in, but not too loudly. What bothers me the most is the lack of sunset and pre-sunset TA DX. In other seasons there could be 20 or more of these signals an hour or more before sunset. It's not happening this year. Yet.

- 670 **VENEZUELA** YVLL *R.Rumbos*, Caracas DEC 4 0342 - *Notirumbos* newscast; good at times with barely a trace from Cuba and possibly WWFE, haven't heard the usual doorbells this time between the items and announcements as usual. [Chiochiu-QC]
- 690 **ANGUILLA** *Caribbean Beacon*, The Valley NOV 23 2336 - Parallel 6090 with country-style

- 710 **CUBA** *R.Rebelde* DEC 4 0341 - Good signal under WOR with monotonous talk by a man (Fidel Castro, I think!), parallel 670 (way under *Rumbos*) and 1180 (under WHAM). I usually hear either *Deportivamente* or monologues on this station before 0400 when the adult contemporary program "Estación" begins. [Chiochiu-QC]
- 720 **MEXICO** XEDE Saltillo, COAH DEC 3 1159 - Full ID with call letters, mentioned 5000 watts, and slogan "La Unica." [Connelly\*A-MA] DEC 4 0041 - Good with South American type pop music, vocals and announcements in Spanish by a man with mentions of Porlamar and nearby Margarita. [Dangerfield-PA] DEC 4 0312 - Very strong with Spanish talk by a woman, no WSB for a moment. + NOV 4 0339 - Schedule notice about some listeners from Oriente that cannot hear the usual programming on this network (Radio Caracas Radio), fair slightly under WSB. [Chiochiu-QC]
- 760 **COLOMBIA** HJAJ RCN Barranquilla DEC 3 0259 - Dominant signal in null of WJR: ads, ID "Cadena Mundial, RCN," time pips, top-of-the-hour time check, then into news. + DEC 4 0314 - Blasting in with a talk show that mentioned several Latin American countries such as Mexico, Nicaragua and Colombia. [Chiochiu-QC]
- 770 **COLOMBIA** HJJX RCN Bogotá NOV 23 2342 - RCN ID; dominant. [Connelly\*A-MA]
- 770 **VENEZUELA** YVKK Valencia DEC 4 0102 - Just below WABC with man in Spanish and *Nacional* IDs. The Bogotá station was heard at the time although the 760 Colombian was OK. [Dangerfield-PA]
- 780 **BRITISH VIRGIN ISLANDS** ZBVI Roadtown, Tortola NOV 23 2344 - Caribbean English talk about sports; over *R.Coro*. [Connelly\*A-MA]
- 780 **VENEZUELA** YVNM *R.Coro*, Coro, Falcón DEC 4 0321 - Very weak with brutal next-to-adjacent splatter from local CJAD 800 in WBBM null, with promos or ads (too weak to determine which of these were aired), *Radio Coro* ID audible at 0322. At 0401 surfaced again very poor in CJAD splat with tropical music, there was another threshold level Spanish station even weaker underneath. YVOD *Ecos del Torbes* goes off at 0400, so most likely HJZG *La Voz del Valle* in Cali. [Chiochiu-QC]
- 800 **NETHERLANDS ANTILLES** PJB *Trans-World Radio*, Bonaire NOV 23 2246 - *Radio Transmundo* ID, Spanish religious talk; good with WSKO-790 slop phased. [Connelly\*A-MA]

- 880 **VENEZUELA** Two Stations NOV 23 2348 - Two stations with news feed of Venezuelan political discussion, about two second delay between the audios. [Connelly\*A-MA]
- 890 **CUBA** CMDZ *R.Progreso*, Chambas DEC 4 0359 - Good to poor, Cuban jingle song (a sort of an anthem?), with canned ID, "Radio Progreso, cadena nacional, la onda del alegría. En ... el sol de la Habana, primer territorio libre en America," and time check, followed by the program "Perspectiva." [Chiochiu-QC]
- 895 **ST. KITTS & NEVIS** VON Bath Village NOV 23 2309 - Soca music; fair to good. [Connelly\*A-MA]
- 900 **MEXICO** XEW México, DF NOV 4 0337 - Fair and slightly atop nulled CHML with Spanish talk by a woman (the voice was similar to what heard on 540), so maybe a satellite delay? [Chiochiu-QC]
- 900 **MEXICO** XEWB Veracruz, VER DEC 3 0140 - Never logged this relay officially before, mostly because it isn't usually as strong as it is this evening. Distinct echo on XEW's programming. Noted while trying to ID XEOK (see below). Anyway, new log. [Stewart-MO]
- 900 **MEXICO** XEOK Monterrey, NL DEC 3 0140-0203 - Well under XEW/XEWB most of the time, with news/talk-type programming, possibly a call in show. Miraculously came up way over XEW at ID time,

though! Full ID 0200 mentioning "Radio Acir, Las Noticias de Hoy" and "Monterrey, Nuevo León." Then a program intro, "XEOK, Grupo Acir, presenta Salusalde" (?) - that's what it sounded like after numerous tape replays anyway), evidently a call-in show because they gave phone numbers that were impossible to decipher through XEW/XEWB echo. New log for me. [Stewart-MO]

960 CUBA R.Reloj, NOV 23 2350 - Reloj program; over probable Venezuelan. [Connelly\*A-MA]

970 VENEZUELA Mundial Oriental, Barcelona NOV 23 2353 - R.Mundial ID; loud, way over WZAN. [Connelly\*A-MA]

1020 VENEZUELA YVRS Mundial Margarita, La Asunción NOV 24 0015 - Margarita ID; good. [Connelly\*A-MA]

1080 VENEZUELA YVQJ R.Barcelona, Barcelona NOV 23 2258 - Radio Barcelona jingle. [Connelly\*A-MA]

1090 VENEZUELA YVSZ Union R., Caracas NOV 23 2257 - Caracas mentions in news, Coca-Cola advert; dominant. [Connelly\*A-MA]

1180 CUBA CMBA R.Rebelde, Villa Maria NOV 23 2359 - Rebelde La Habana ID; way over WHAM and mixed Latin Americans. [Connelly\*A-MA] NOV 28 0118 - Over WHAM with Spanish talk by a man with a "Rebelde" mention; strong at tune-in, but faded away very quickly, under WHAM. [Chiochiu-QC]

1200 VENEZUELA YVOZ R.Tiempo, Caracas NOV 28 0121 - Briefly in with Spanish talk by a young man and "Tiempo" ID; interference from CFGO. Relog. [Chiochiu-QC]

1375.02 ST. PIERRE ET MIQUELON RFO St. Pierre NOV 16 2302 - News mentioning Etats-Unis; excellent. [Connelly\*B-MA]

1500 VENEZUELA YVRZ Dos Mil, Cumaná, Sucre NOV 28 0126 - Presumably the Spanisher with a sports game (beisbol?) under WTOP. Very little understandable due to the WTOP quite huge signal level. [Chiochiu-QC]

*Bogdan speaks:* Congratulations to Saul Chernos for hearing Puerto Cabello on 1290; this is indeed a pretty rare catch, especially inland. I'm afraid CFMB-1280 is too strong where I live, but I will try for YVNG 1380 from the same city, during auroral conditions.

AUSTRALIA: During the Nov 2002 Grayland DXpedition, John Bryant reported 4BC 1116 "as the most reliable Aussie," a great signal for 5 kW. The real reason is because they have a true rarity in Australia; a directional array. Their main lobe is about 25 degrees whereas Grayland is about 44 degrees, so we are close to being directly down the bore. Who knows what their ERP is, but it's surely many times the 5 kW transmitter power. Details are at [http://www.aba.gov.au/radio/services/services/qld/bris\\_ga/planning/final\\_lap/lap\\_brisbane.pdf](http://www.aba.gov.au/radio/services/services/qld/bris_ga/planning/final_lap/lap_brisbane.pdf). [Chuck Hutton, IDXDX]

MEXICO: I listened to XEEBC 730 ID this morning and they are now announcing 5 kW. That explains why so many more people are hearing them now. Slogan is still "Radio Acir, la frecuencia de hoy," sometimes they seemed to say "las noticias de hoy." I did not hear anything like the "Radio Viva" slogan that has been reported. ## Del Rio to honor Wolfman Jack

By John MacCormack  
*San Antonio Express-News*  
 via Greg Hardison

DEL RIO — Nearly four decades later, lawyer Arturo Gonzalez can still clearly picture the polite, dark-haired East Coast disc jockey who showed up without notice at his Pecan Street office back in late 1963.

Wolfman Jack got his start in Del Rio four decades ago on XERF, a super-powerful station that broadcast from Mexico. Seven years after his death, fans and city fathers are planning a statue and museum.

"He introduced himself as Bob Smith, and he wanted to know who was the owner of radio station XERF," recalls Gonzalez, 94, who at the time sold advertising contracts in the United States for the super-powered station in nearby Ciudad Acuña, Mexico.

"I said 'What can you do?' and he said 'I'm a radio announcer and I can sell whatever you have to sell.' And I think he was on the radio station that same night, selling baby chicks — 100 for \$2.98," Gonzalez said, chuckling.

Once on the air, the mild-mannered, clean-cut Smith became howling, growling Wolfman Jack, and the rest, as they say, is rock 'n' roll history.

Now, nearly 40 years after he left XERF for another super-powered station in Tijuana, Mexico, and seven years after his death from a heart attack, the Wolfman is coming back to Del Rio.

If all goes well, at this time next year, a larger-than-life bronze statue of the great caped howler will loom over a downtown intersection. A Wolfman Jack museum and a music festival will be in the works.

During his six months in Del Rio, the late-night XERF DJ mesmerized teenagers across America and beyond with his radio antics, ultra-hip delivery and anything-goes playlist. His border broadcasts were powered by a 250,000-watt transmitter — five times the juice allowed on the U.S. side.

"Wherever ya are, and whatever ya doin', I wancha ta lay ya hands on da raydeeo, lay back wid me, and squeeze ma knobs. We gonna feel it ta-night ... OOOOO WWWWWOOOOoooo. This is Wolfman Jack down here with da donkeys. Gonna get you some soul," he would howl.

"Get naked, blow da evil weed, kiss your teachers. Wolfman play the best records in the business and then he eat 'em," growled the lupine mystery man, according to the book "Border Radio," by Gene Fowler and Bill Crawford.

The Wolfman was an instant sensation. Gonzalez recalls that soon after he hit the airwaves, hawking everything from chickens to virility pills, advertising sales boomed, and he had to hire another dozen young women to handle the flood of orders.

"He was bringing in a lot of money, and when he left, sales went way down," he said.

But in the grand visions that Del Rio mover and shaker Jay Johnson has for this dusty border city, the Wolfman can still make cash registers ring.

"Del Rio deserves to be a hotshot town, and it will be, and Wolfman Jack will seal the deal," he said.

"This thing is going to be flat-out explosive. Wolfman Jack was really the catalyst who pulled together the world of rock 'n' roll. He was heard in Australia, in Asia, in Europe and Canada," said Johnson, who owns a bed and breakfast and several restored buildings here.

So far, all systems are go. A nonprofit foundation is being formed, and Del Rio officials have signed on to the project, as has the Wolfman's widow, Lou Smith of North Carolina.

"I'm just tickled pink that they want to do that. Del Rio is the place where Robert W. Smith became Wolfman Jack," she said.

Michael Maiden, a nationally known sculptor, is already at work on a model, and former Wolfman publicist Mike Venema is looking up old buddies from James Brown to Alice Cooper to help out.

Three weeks ago, Venema and Maiden, who is based in Oregon, came to Del Rio and met with Johnson and other local boosters. Both came away sold on the project.

"We're committed to Del Rio. It's the perfect place, and Acuña was fantastic as well. It was very reminiscent of an earlier time," Venema said.

Maiden, appropriately best known for his wildlife sculptures, grew up on a ranch near Walla Walla, in eastern Washington, and had his first encounter with the Wolfman when he was 13 or 14.

"I'd listen to him late at night on my little Montgomery Ward transistor radio. He would fade in and out," recalled Maiden, 52.

"And I thought he was a black man. Most people did, and he kind of perpetuated that. He was one of the DJs who made black music popular," he said.

"Until late in his career, no one knew what he looked like. I most certainly didn't until 'American Graffiti,'" the 1973 hit movie by George Lucas in which the Wolfman played himself.

The sculptor is coy about exactly what the bronze Wolfman will look like.

"My job is to try and make this icon recognizable. He was a wild and crazy guy, and kind of a whimsical character, and he's not going to be standing straight up and down like Jefferson Davis," he said.

Both Maiden and Venema say they are confident the \$130,000 needed for the sculpture will be easily raised once the word gets out.

For Del Rio, a quiet border city on U.S. 90 known to most travelers as no more than a gas stop

on the way to West Texas and the Big Bend National Park, a hip tourist attraction is sorely needed.

With mild sarcasm, some locals refer to Del Rio as "the gateway to Ciudad Acuña," the much larger Mexican city across the river that offers a more glamorous nightlife.

The Wolfman project has surfaced just as Del Rio is launching a revitalization of Main Street, a dowdy thoroughfare of retail shops and fading classical buildings.

The city recently won backing for the Main Street project from the Texas Historical Commission, and coordinator Ginger Lyons said Wolfman Jack fits right in.

"Including him in our Main Street plan is vital. We could use any tourist attraction we can get. Everyone here knows the story of Wolfman Jack, and we're very proud of him," she said.

If Wolfman Jack does for Del Rio what another rock icon has done for Lubbock, the project could prove a real magnet. Each year, 35,000 to 40,000 people visit the Buddy Holly museum, which opened in 1999.

"Many people come here because Buddy Holly was from here. They make pilgrimages to Lubbock, Texas, for that reason alone. We get people from Britain, Australia and all over Europe," said Connie Gibbons, museum director.

The official launch of the Wolfman Jack project in Del Rio is set for March 15, and at that time a model of the statue of rock 'n' roll's most famous DJ may be unveiled.

The museum would feature Wolfman artifacts and photos to tell his life story. But given the Wolfman's love of invention and hyperbole, exactly what happened here 40 years ago may never be known.

In his autobiography, "Have Mercy," the Wolfman gives a lurid, action-packed account of his arrival at Del Rio and his armed takeover of XERF, later known as "The Wolfman Jack Radio Shootout Saga."

According to this somewhat apocryphal account, the Wolfman and a buddy arrived in Ciudad Acuña to find XERF in receivership, and quickly engineered a coup to reclaim it from hostile hands.

With guns and bribes, lawsuits and hustle, according to the Wolfman's tale, he took over XERF. He then remade its programming from a loony collection of huckster preachers and hillbilly music (the original Carter family, "Johnny Cash's future in-laws," had broadcast to the nation from Ciudad Acuña's high-powered towers) to become the hottest rock station in the world led by the most notorious underground DJ.

## What a Time-saver - the County Cross Reference

"I was truly glowing in those days on XERF, because I was a young buck doing my thing right where I always wanted to be, hitting the airwaves with gale-force blues, rhythm and blues, and the most soulful rock 'n' roll, all sent your way through the treetop tall platinum-coated driver tubes of the most powerful commercial station on the planet," Wolfman wrote.

According to the book, the final battles for XERF were won in a shootout in a cheap Del Rio hotel between the Wolfman and "Montez," the evil Mexican who wanted to reclaim the station, and a follow-up ambush in the Coahuilan desert.

"I've still got a little crease on the end of my nose from that first bullet. The second one dug into the back side of the van's door frame, six inches behind where my head had been," wrote the Wolfman about the late night ambush.

Lou Smith also has vivid memories of Del Rio as a cowboy town with a Spanish flavor. She said the men who met her husband on the Mexican side of the bridge wore guns and cartridge belts criss-crossed on their chests.

And much of what the Wolfman wrote about actually happened, including problems with rival factions and the federales, and a late night on-the-air cry for help from XERF, Smith said.

"We were staying in the Del Rio Hotel, and as we were falling to sleep, listening to the radio, they broke right into the show and started yelling 'pistoleros, pistoleros.' They were calling for the police and for help," she recalled.

"Wolf jumped up and went over there to help those guys, and I don't know exactly what he did."

Arturo Gonzalez only chuckles when told of such accounts.

Forty years later, he remembers no lawsuits, no shootouts and no armed takeovers, only a polite and reliable guy named Bob Smith who, when seated behind the microphone, became a jive-talking crazy man.

"If you met him, you probably wouldn't think that much of him, but on the radio he brought out a lot of excitement, and a lot of people were happy to listen to him," he said.

"He was very impressive, very dedicated and very reliable. We believed everything he would tell us. That's the kind of relationship it was," he said.

And, said Gonzalez, a Del Rio memorial to the Wolfman is long overdue.

"He was my friend, and I think he deserves it. He put Del Rio on the map. And he was a good man. If he could help someone he would. That's the kind of man I remember," he said.

### STAN MORSS - R2 - BOXFORD, MA 01921

Another year coming to an end and now over 60 years in the NRC. I listen occasionally but at 78, I'm still a full-time farmer and running a mail order nursery business, 12 hours a day and pretty much 7 days a week. The all-night DX sessions are just too much and would net few new stations with all the locals on 24 hours. Verified all 50 states when it was possible; now, it's rare to hear west of the MS on a regional channel or a clear. DX and stamp collecting are in the same boat, older members in both groups and fewer younger start ups. In the 30's, XER-XERA were heard at sunset in New England and throughout the US, sparked an interest in trying for other stations. For the old timers, the new edition of "Border Radio", an up-grade of the original book, with 100 more pages and more pictures, is a trip to the past, available through the Texas Press, hard cover with pictures of Doc Brinkley, Paul Kallinger and Wolfman Jack. Local WLYN now repeats WUMB's folk music 24 hours a day for a temporary breath of fresh air on the AM band. The AM band here is pretty well dominated by Spanish and religion mixed with sports, talk and Radio Disney. May get active again when I retire, have the HQ180A, HQ150 and Drake R8A ready and kept in shape, have an SX42 and a couple other sets in various conditions when the time comes.

### HERBERT NEWBERRY - 405 J H WHITAKER ROAD - NEWBORN, GA 30056-3033

Pardon me Paul & Dave, for I have sinned (for not Musing more often!) (And your punishment will be listening to commercials by Howard Lesko!-DWS). Anywho, a brief re-intro for those un-introduced, 47 years old, legally blind and on kidney dialysis, leaving plenty of time for DXing. When I can't sleep due to my conditions, I DX, I sleep when I can and DX when I can't. I was worried about my 600-foot longwire antenna during the early hours of 11/11 (two tornado warnings an hour apart). The antenna, totally homebrew, withstood 60 MPH winds and torrential rain. I witnessed one of the tornados and the 'roar' of the freight train as a funnel cloud passed through. Fortunately, there was only one touchdown in the area. The station in Jasper, Ga was noted on the air so evidently not damaged by the tornado. In closing, if you're not a subscriber to the DX Audio Service, please contact Fred and subscribe; I just received the new tape, and it's a scream! Really entertaining, especially the air talent on WNRC-1710. Hope all have a good DX season! 73

### KEN ONYSCHUK - 331 PINE STREET - JOLIET, IL 60435

After hearing ABC's Paul Harvey mention SCOT FLYBUSH and his radio station transmitter site calendar on his 11/18 broadcast, I thought it has been a long time since an NRC member got national publicity like this! Time will tell on how much national interest he gets on this. Hope it goes well. I'm 54 now, a member for just over 30 years, and married to JoAnn for 7 1/2 years in our rented home. My children are grown, 2 of 3 are married. BOB HARRISON'S recent Muse echoed a lot of my feelings about radio. I use a C Crane, a 22-year-old Superadio II, and a Yacht Boy 304 for DXing. Have done little this year due to changes in radio programming that turn me off. I've also spent enough time to try to find suitable work after one of the best phone jobs closed its doors in April, doing survey work. Currently I'm giving out local newspaper samples, hoping I can get somebody to take a trial offer. On the radio, 1270 has been quiet for a long time as WWCA; it's supposed to return as an EWTN affiliate. WKBF, 150 miles W of here, has been an erratic daytime visitor. I'd really like to get Catholic radio back on; the former WYPA-820 and WAUR-930 is really missed. WKWD-1580 is still simulcasting WONX-1590 with Spanish. I'm waiting for it to switch to a simulcast with WCGO-1600. With the many AM stations adding night power and some changing frequency, can someone provide us with these coverage map additions periodically? I can't afford to buy a lot of radio gear books but I can draw reasonably well. I'd like to help with the new patterns. With local sports talk stations doing poorly in the ratings, someone should get smart, drop the format and bring back live big band music like the old WJJ. I do like the talk show hosts Bill O'Reilly and Chuck Harder when I have time. The new 2002-03 Broadcasting and Cable Yearbook should be out by the time this reaches print, I'll hopefully see this \$180 book at the local library. Good DX!
