From the Publisher … If all went as planned, you should be holding a DXN which was printed in a different location for the first time in 20 years. In case you haven’t read last month’s DXN, printing has moved from Topeka, KS to Watertown, NY; membership matters are taken care of in Aurora, CO, and other duties have been spread around to kind volunteers who are much appreciated for giving me a break. I’d still like to retire ASAP from publishing DXN, but I can wait for a short time until someone who has some desktop publishing experience is able to step up and take over. Frankly, it’s not rocket science!

As announced last month, the Topeka P. O. Box is no longer, and all letters addressed to “National Radio Club” are being forwarded to the Aurora P. O. Box; if you address correspondence to me, your letters will be returned. Use the address on the back page to send correspondence, including typed and hand-written Musings, to me. Or just get a computer and e-mail me; much easier that way for all concerned, especially if you’re sending information that will see print in DXN.

AM Radio Log … The 29th edition of the Log will ship around September 1. Wayne reminds all who are proofing their chosen areas to have corrections in to him no later than August 1. Check p. 22 for some pricing changes for the Log, also.

NRC 2008: Pittsburgh … John Malicky has ironed out some minor wrinkles with the hotel registrations, and all systems are “go” for the NRC Convention August 29-31 in Pittsburgh. John reminds all that registration checks (made out to “National Radio Club”, of course, come to him as do checks for the Sunday-afternoon Pirates game, but those are to be made out to him, not the NRC. Double -check info printed on p. 23. And don’t forget the IRCA convention in Flagstaff, AZ September 12-14 (for more info, contact Bill Block at billwblock@msn.com or 7716 E. Thelma Dr. - Prescott Valley, AZ 86314), and the Madison-Milwaukee GTG August 16 (Tim Noonan - 414-762-2702 or DXing2@aol.com).

Welcome to these new members … William Piva, Darien, IL (rejoins); Robert Roman, Needham, MA (rejoins); David Allaway, Neshanic Station, NJ; Joseph L. Dattilo - Cheshire, CT; Bruce Kampe, West Hartford, CT; Jerry Ervine, McAllen, TX; Barry Diefenderfer, Andreas, PA; Thomas Brennan, Kokomo, IN; Bryan D. Price, Indianapolis, IN; Rene E. Auvray (rejoins), Henderson, NV.

Wanna be a jock? … Fred Vobbe is still looking for people to audition for WNRC’s airtime during the convention; access http://e-DXN.com; click on “From the Publisher of DXAS” and then “ Casting Call” for more details.

Unfilled positions … We’re still in need of volunteers for the following positions: a DXN publisher, ASAP; replacement editors for languished columns (“The Answerman”, “Memory Dredging”), and one or more persons to edit future NRC publications developed by contributors or the club.

DX Time Machine
From the pages of DX News
50 years ago … from the July 12, 1958 DXN: Ores Wilson, Reading, PA reported the existence of WRDX, Wadesboro, NC, a non-commercial station on 600 kc/s with 5 watts of power that played “music” on a part-time schedule.

25 years ago … from the July 18, 1983 DXN: Gerry Thomas’s article “A Jamaican DX’ing Holiday” detailed the delights of DX’ing from that Caribbean Island.

10 years ago … from the July 20, 1998 DXN: This was the first DXN to be produced 100% electronically, although hard copy was still delivered to the printer at 7:00 am every Monday morning.

CPs ON THE AIR

960 WSVU FL North Palm Beach - U4 1200/1400, consolidating day and night operations to the former two-tower day site at N26-49-01 W80-15-07. The new night pattern is a duplicate of the day kidney-shaped pattern which favors the northwest, only at night the signal favors the southeast.

970 WWJD NJ Hackensack - U4 50000/5000.

1120 WXJO GA Douglasville - D1 1000/0 at N33-45-48 W84-44-28, moving from Gordon, Georgia.

1220 WOEG MS Hazlehurst - U1 164/33.

1440 KTNO TX University Park - U4 50000/350.

ACTIONS

580 WLVA VA Lynchburg - CP granted to move here (from 590) with U1 250/15 and relocate the transmitter to the site of the WBRG-1050 tower at N37-25-15 W79-06-55.

590 WLES VA Bon Air - CP granted to move here (from 580) with U1 600/50. [The two preceding applications were filed jointly with the intent to reduce interference on the two frequencies in their respective coverage areas.]

630 WDGY MN St. Paul - CP granted moving the City-of-License (Col) back from Hudson, Wisconsin with U4 1000/2500 from three towers (3-day and night) at N44-52-01 W92-54-02.

690 CBU BC Vancouver - It's official! CBU-690 will remain on the air after the CRTC amended the station's application to add an FM signal on 88.1 MHz with 19.5 kW at 567.2 metres in Vancouver, which it granted. The CBC had applied to remove CBU-690 from the airwaves, but the CRTC determined that the proposed FM signal could not cover the intended area to the degree the AM does.

780 WJAG NE Norfolk - CP granted to relay their programming (read that as “simulcast”) on K290AT-105.9 MHz in Norfolk. Currently a 10-Watter, K290AT has a CP for 250 Watts. Since WJAG is a daytimer, the FM station will be able to originate its own programming after WJAG's sign-off.

780 WAVA VA Arlington - CP granted to move the transmitter to the tower formally used by WUST-1120 at N38-58-35 W77-06-52. The tower is the site of the WTGB-FM auxiliary facility.

830 WFGM GA Sandy Springs - CP mod granted, for this station yet to be built, for U4
50000/450 from four towers (3-day/4-night) at N33-58-09  W84-22-19. The day pattern shoots large lobes to the NNE and SSW with minor lobes ESE and WNW. The night pattern directs most of the signal to the SSW.

830  KOTC  TN  Memphis - CP granted for D1  10000/0 at 35-15-12  W90-02-51, moving from Kennett, Missouri.

970  WAMD  MD  Aberdeen - CP granted to reduce their daytime power to become U4  300/500. This action coincides with the day power increase of WWDJ to avoid signal overlap.

1180  KYES  MN  Rockville - CP granted for U7  50000/5000  CH 8000 for this station not yet on the air.

1240  KGY  WA  Olympia - Coordinate correction to N47-03-28  W122-54-03.

1300  WGDJ  IN  Rensselaer - CP granted for U4  10000/8000.

1330  KOVE  WY  Lander - CP granted to do away with one of their two towers and reduce their nighttime power to become U1  5000/250. This action slightly adjusts their coordinates to N42-50-34  W108-44-41.

1520  WTOD  OH  Toledo - CP granted for U4  4300/2 from two new towers at N41-37-04/W83-38-03. The day pattern is the same as WTOD's current pattern (north-south) and the new night pattern replicates it, only being smaller.

1550  WTUX  WI  Madison - Coordinate correction to N43-00-08  W89-23-13.

GRANTS FOR NEW STATIONS

800  NEW  OR  Bandon - CP granted for U4  2500/1000 from 3 towers (using #1 & #2 days and #1 & #3 nights) at N43-08-03  W124-21-03. The day pattern is a figure-8 heading ESE/WNW and the night pattern is a virtual circle.

890  KJME  CO  Fountain - CP Mod granted for this, yet, unbuilt station for U4  5000/800, amended from U4  4500/550. 780 (see below) and 890 in Fountain are licensed to the same company and propose to share the same 6-tower array at N38-31-07  W104-36-03.

960  NEW  OR  Junction City - CP granted for U4  50000/2500 from eight (8, count 'em, 8 towers!) daytime and 6 at night at N44-12-36  W123-10-56.

1340  NEW  OR  Bend - CP granted for U1  1000/500 at N44-04-47  W121-16-58.

1430  NEW  ID  Boise - CP granted for U4  50000/1000 from four towers (3-days/4-nights) at N43-32-44  W116-20-41. Both patterns direct a major lobe to the northeast and a minor lobe to the southwest.

AMENDMENTS TO CONSTRUCTION PERMITS

780  KCEG  CO  Fountain - Requests U4  1900/720, changed from U4  1400/490.

940  KDIL  MT  Dillon - Requests to modify their CP for U4  10000/350 to U4  250/250 and move to Twin Falls, Idaho.

1130  KRUD  HI  Honolulu - Applies to modify their CP for U1  330/330 to U1  1000/1000 while swapping tower sites with KORL-1170.

1330  WKTA  IL  Evanston - Requests U4  5000/110, amended from U4  5000/52.

REINSTATMENTS

1420  KJDL  TX  Lubbock - CP for U1  500/140.

APPLICATIONS

590  WWLX  TN  Lawrenceburg - Applies for an STA to simulcast on W287AA-105.3.

860  WWDB  PA  Philadelphia - Applies for D4  10000/0  CH 10000, adding CH operation.

870  KRLA  CA  Glendale - Applies for U4  50000/3200.

900  KTIS  MN  Minneapolis - Applies for an STA using D1  6250/0 as they begin the process of constructing their new U4  50000/500 facilities.

920  WGNU  IL  Granite City - Applies for U4  2000/600.

1010  KXEN  MO  St. Louis - Applies for U4  50000/420, moving their nighttime transmitter to that of the day site at N38-45-58  W90-03-34 and using five of their six towers (vs three at the old site).

1050  KLOH  MN  Pipestone - Applies for U4  9380/420 plus a slight change to the night pattern.

1120  KLIM  CO  Limon - Applies to change their CoL to Black Forest, Colorado.
1170 KORL HI Honolulu - Applies for U1 330/140 while moving to 1170 kHz while swapping tower sites with KRUD-1130.

1230 KLAV NV Las Vegas - Currently operating with 500 Watts from a 60-meter long wire antenna, KLAV proposes to move its transmitter to an abandoned tower at N36-12-52 W115-09-18 and return to its licensed U1 1000/1000 power.

1270 WSPR MA Springfield - Applies to reduce power and go non-DA as U1 1000/350.

1370 WFDR GA Manchester - Applies to upgrade their daytime facilities as U1 2300/28.

1440 WZYX TN Cowan - Applies for an STA to simulcast on W287BK-105.3 (in order to “fill in coverage gaps”).

1450 WACM MA West Springfield - Applies for U1 1000/1000.

1480 WVSG KY Neon - Applies for a ‘silent’ STA extension due to copper thievery at their transmitter site.

1480 KNIT TX Dallas - Applies for U4 45000/1900.

1520 WCVL IN Crawfordsville - Applies to take down three of their four towers and go non-DA as U1 250/5.

1530 WRPM MS Poplarville - Applies for a CP Mod of their application to move to 1170 kHz changing the power to D1 1000/0 CH 1000.

1650 KYHN AR Fort Smith - Has applied for a ‘silent’ STA. Their application states: “Due to heavy spring rains, localized flooding of a nearby waterway placed the transmitter site, and the transmitter itself under several feet of water. Access to the site to determine damage has only recently been allowed, and a casual inspection has revealed tremendous amounts of damage. In order to be allowed time to decide how to best proceed with this facility, the licensee requests special temporary authority to remain silent for up to 1 year.”

**AMENDMENTS TO APPLICATIONS**

550 WSG AL Atmore - Has revised their application to move to Daphne on 540 kHz. This request is for U1 2500/19.

1450 NEW MS Flowood - This application started out in 2004 as a request for U1 1000/1000. It was later changed, moving the CoL to Jackson (Flowood is a Jackson suburb) to a new tower location. The latest amendment requests U4 5000/300 from five new towers, once again with Jackson as the City-of-License.

1590 WGBW WI Two Rivers - Licensed for U1 1000/33, WGBW applied for U4 10000/1000. This amendment requests U4 10000/200. Both requests include a change in CoL to Denmark, Wisconsin.

**APPLICATIONS FOR NEW STATIONS**

1210 NEW IN Osceola - Applies for U4 2400/250.

1370 NEW AL Hefkin - Applies for U1 250/250.

1390 NEW IA Pleasant Hill - Applies for U4 400/500.

1400 NEW AL Excel - Applies for U1 1000/1000.

1550 NEW LA Blanchard - Applies for U4 1000/500.

1560 NEW WI Village of Superior - Applies for U4 5000/4000.

**PETITIONS FOR RECONSIDERATION**

1230 NEW WV Beckley - Application for U1 1000/1000.

1560 NEW LA Richwood - Application for U7 10000/640 CH 10000.

**APPLICATIONS DISMISSED**

980 KICA NM Clovis - CP for U5 50000/172. KICA remains U1 1400/172.

1110 WUAT TN Pikeville - Application for D1 1000/0 CH 500. WUAT remains D1 250/0.

1160 NEW AK Chugiak - Applied for U1 50000/580 and amended to U1 30000/400.

1340 KIKO AZ Miami - Application to move to Queen Creek, Arizona.

**APPLICATIONS FOR RENEWAL APPLICATION RESCINDED**

1390 WRIV NY Riverhead - From the FCC: “Applicant was found to be in non-compliance with rules and regulations regarding EAS tests. The applicant is accused of failing to broadcast EAS tests and EOM (end-of-message code) for six weeks in 2004. The applicant has appealed (sic).”

HEAR AND THAR

☐ Returning to the airwaves: WWIO-1190  St. Marys, Georgia with Contemporary Christian;
☐ Reported as OFF the AIR: KOTC-830  Kennett, Missouri; KNEL-1150  Quanah, Texas, as a result of a windstorm downing its tower; WFPA-1400  Fort Payne, Alabama; KYHN-1650  Fort Smith, Arkansas (see item above in Applications).
☐ The legendary Central Ontario station CKPT-1420  Peterborough (part of the CHUM Group of stations) is now silent, having moved to 99.7 FM and now using the slogan Energy 99 point 7. Shawn Axelrod spoke to the chief engineer for CKPT last Saturday afternoon because their new FM signal is now non-existent at his cottage in Kirkfield, Ontario. He explained that the signal is designed to protect adjacent frequency stations in Huntsville and Haliburton, so the signal is directed north and slightly north-east of Peterborough, ergo his inability to get the station.
☐ The deadline to move of CHLT-630  Sherbrooke Quebec to FM (102.1 MHz) has been extended to Feb 28, 2009 by the CRTC. It seems they realized that they would have problems duplicating the coverage of the AM signal unless they used higher power on FM.
☐ WFRF-1070  Tallahassee, Florida is now simulcasting on WFRU-90.1  Quincy, WFRF-FM-105.7, and W232BO-94.3.
☐ Fines: $12,000 to Capstar TX Limited Partnership (the former owners of KFGO-790  Fargo, North Dakota) for repeated violations Section 73.1206 of the Commission’s rules, which deal with the broadcasting of a telephone conversation without first informing a party to the conversation of its intention to do so; $12,000 to WBSC-1550  Bennettsville, South Carolina for willful and repeated violation of Sections 11.35 (EAS equipment) and 73.3526 (public inspection file) of the Commission’s Rules; $7000 to WFDL-1170  Waupun, Wisconsin for (repeated) tower enclosure violations; $500 to WKDL-1250  Warrenton, Virginia for filing their renewal application late.
☐ Thanks to Shawn Axelrod, Wheeler Conover, Wayne Heinen, and Deane McIntyre.

FROM THE VAST WESTLAND

June 2008 will unfortunately be remembered as a month of tragic flooding in the Upper Midwest. Hardest hit was Iowa, with Cedar Rapids being the subject of headlines for many days in a row, but the floods profoundly affected many states. Despite all the widespread destruction, this reporter has seen very few reports of AM stations forced off the air due to flooding (two notable exceptions: 910 WSUI and 1450 KMRY-- see Station News below).

Dale Park sent along this flood related item: “According to the Minneapolis Star Tribune there was to be a ‘relay race’ among radio stations in Minnesota and Iowa on 6/20, with each station providing an hour to fundraising for the flood victims in the Upper Midwest. Perhaps some NRCers caught this programming and will send in loggings about it.” Thanks, Dale. The relay was to involve 30 stations and run from 7 AM until 7 PM, but I have seen nothing of its results or even if it went off as planned. If you heard any of this relay’s programming, could you please send us info on what you heard?

Thanks to Dale we have a very big “Station News” section this month. The “Regular Loggings” section, however, is on the opposite end of the spectrum. There is still a whole lot out there to hear, as Greg Harris’ six new ones attest to, so please keep listening and sending your loggings in. We look forward to hearing from you!

Station News

580  KMJ  CA  Fresno. Adds “Wall Street Journal this Morning” per website Radio-Info.com, airing at 0700-0800 weekdays. (DP-HI)

780  WJAG  NE  Norfolk. Per northpine.com 6/16, station is now being relayed by FM translator K290AT 105.9 Norfolk. The relay would be able to originate its own programming during night hours. (DP-HI)

910  WSUI  IA  Iowa City. Was forced off the air on 6/13 due to flooding of the transmitter site when the Iowa River overflowed its banks. The station was back on the air by 6/18 after the river receded, but only at low power. As of 7/11 the WSUI website was still reporting that the station was operating at low power, and that it was continuing efforts to bring the signal up to full power. (Ed.-WI)

970  KVWM  AZ  Show Low. This station and its // KDJI 1270 Holbrook AZ add Kim Komando per show 6/28, airing live Saturdays 1000 per show message board, although the stations’ website does not indicate this. Slogan for these stations is “White Mountain Radio.” (DP-HI)

970  KQAQ  MN  Austin. Per northpine.com 6/2, former KNFX came back on the air with these calls, with a classic country format and Fox news on the hour. (DP-HI) (The KQAQ calls, used by this station for many, many years, thus return. The station changed calls to KNFX back in the mid-’90s. Ed.-WI)

980  KMBZ  MO  Kansas City. Per Premiere, Glenn Beck returns to Kansas City 7/14, replacing
local host Darla Kaye on KMBZ at 1007-1200 weekdays. Station also adds “Wall Street Journal this Morning” per Radio-Info.com. (DP-HI)

990 KWAM TN Memphis. Adds Doug Stephan per Radio-Info.com 6/9, airing 0100-0400. (DP-HI)

1050 KTBL NM Los Ranchos. Adds Doug Stephan per Radio-Info.com 6/9, airing 0200-0600. (DP-HI)

1100 KFNX AZ Cave Creek. Adds Don Imus per Radio-Info.com 6/25. (DP-HI)

1100 KAOI HI Kihei. Noted dropping “Online Tonight with David Lawrence” and replacing it 4/5 with “Best of Dave Ramsey” and “Coast to Coast AM.” (DP-HI)

1180 KYES MN Rockville. Currently this station is a new CP, not on air. Per Saint Cloud Times, a local Catholic group will launch Catholic station KYES next spring, but needs county government permission to build seven 200-foot towers. (DP-HI)

1240 WJON MN Saint Cloud. Adds Doug Stephan per Radio-Info.com 6/9, airing 0100-0500. (DP-HI)

1240 KQEN OR Roseburg. Per Roseburg News-Review, KQEN dropped all its sports in June but remains newstalk. The station’s sports programming migrated to the former KRN 1490 Roseburg, which changed calls to KSKR (see 1490 below). (DP-HI)

1260 WXCE WI Amery. Per northpine.com 5/31, station adds Jones Radio’s “The Oldies Station” (now owned by Dial Global) format nights and weekends but continues with newstalk weekdays. (DP-HI)

1270 KDJJ AZ Holbrook. See 970 KVWM “Station News” above. (Ed.-WI)

1270 WKBF IL Rock Island. Per Quad City Times, station has been sold and the new owners replaced the SS Christian programming with an SS music-intensive format. New slogan is “La Jefa” (the female boss). (DP-HI)

1290 WMCS WI Greenfield. Good Karma Broadcasting, owner of WAUK 540 Jackson WI (ESPN) and WRRD 1510 Waukesha WI (ESPN Deportes), has had a long-time LMA with WMCS to broadcast ESPN at night, 6 PM to 6 AM Central. As outlined in DDXD-W #75-19, when the fulltime 540 outlet replaced the 1510 daytimer as the ESPN station for the Milwaukee market, this LMA was to continue, but on a temporary basis. That arrangement ended 6/30. The time on the urban formatted WMCS will be filled with blues and UC gospel programs, plus from midnight to 3 AM a repeat of the Reverend Al Sharpton show. This information comes from Tim Cuprisin’s media column in the Milwaukee Journal Sentinel of 6/25. (Ed.-WI)

1300 KCSF CO Colorado Springs. New calls, ex-KKML. Per Colorado Springs Gazette, station dropped sports 6/29 and switched to classic country. The station uses the slogan “KCS,” recalling one of the market’s former country stations KKCS. KCSF will still carry Colorado Rockies baseball. Station also adds Don Imus. (DP-HI)

1340 KIST CA Santa Barbara. Per website ltradio.blogspot.com, station has been sold to California Lutheran University, which will convert it to non-commercial operation. (DP-HI)

1340 KCFR CO Denver. Per Denver Business Journal, Colorado Public Radio moved the news and information format from 1340 to 90.1 FM on 7/9, while shifting KVOD-FM and its classical music from 90.1 to 88.1 (which was a former K-Love station bought by CPR). CPR is temporarily simulcasting 1340 and 90.1 while putting the 1340 frequency up for sale. (DP-HI)

1350 KDZA CO Pueblo. Per Pueblo Chieftain and Colorado Springs Gazette, station switched from sports to oldies 6/24. (DP-HI)

1350 KTIK ID Nampa. Adds “Costas on the Radio” per Première 6/23. (DP-HI)

1350 WWTL LA New Orleans. Per New Orleans Times-Picayune, in response to WODT 1280 dropping sports (see 1280 above), station on 6/30 ended its format of replaying talk shows from sister station WWL and became “13-50 ESPN,” retaining only an afternoon food show with Tom Fitzmorris. However Jim Rome did not make the shift from WODT to WWTL. (DP-HI)

1360 KMNY TX Hurst. Per “Bill Press Show” and station website, on 7/1 station added Press, Stephanie Miller, Thom Hartmann, Randi Rhodes, Ed Schultz and Lionel.
Station slogan is now “Rational Radio 13-60 AM.” (DP-HI)

1420 KGNB TX New Braunfels. Per New Braunfels Herald-Zeitung, station has dropped Sport- ing News Radio in July and increased the output of classic country music. KGNB will still carry high school games plus Astros baseball and Texans football and will add Texas A&M sports later. (DP-HI)

1450 KMRY IA Cedar Rapids. This station was forced to abandon its transmitter site near the Cedar River on or about 6/11 during the terrible flooding that hit Cedar Rapids. The station managed to stay on the air at reduced power by using its Harris MW-1 auxiliary transmitter located at its studio, plus its auxiliary tower that most of the time serves as its studio-to-transmitter microwave link. KMRY is not currently broadcasting in IBOC because its HD equipment was destroyed in the flood, according to the station’s website. KMRY has posted some dramatic pictures of its flooded transmitter site and temporary equipment at http://www.kmryradio.com/snapshots.htm. Thanks go to Upper Midwest Broadcasting for posting info on this station’s status and redirecting us to the station’s website. (Ed.-WI)

1490 KSKR OR Roseburg. New calls, ex-KRNR, and new sports format, ex-classic country. Station is now / KSKR-FM 101.1 “the Score,” featuring ESPN programming. (DP-HI)

1510 KGA WA Spokane. Adds “Costas on the Radio” per Premiere 6/23. (DP-HI)

1600 KEPN CO Lakewood. This ESPN station is the latest AM in the Denver market to go IBOC, according to 6/16 posts on the IRCA listserv by Patrick Martin and Chris Knight. It is very discouraging to know that when so many AM stations in other markets are holding back on implementing IBOC, or even turning theirs off, those in Denver keep plowing forward. (Ed.-WI)

The IRCA MEXICAN LOG lists all AM stations in Mexico by frequency, including call letters, state, city, day/night power, slogans, schedule in UTC/GMT, formats, networks and notes. The call letter index gives call, frequency, city and state. The city index (listed by state, then city) includes frequency, call and day/night power. The transmitter site index (listed by state, then city) tabulates the latitude and longitude of transmitter sites. This is an indispensable reference for anyone who hears Mexican radio stations. Size is 8 1/2" x 11".

Prices: IRCA/NRC members - $9.50; (US/Canada/Mexico/sea mail), $12.00 (rest of the Americas/Europe airmail), $12.50 (Australia/Japan/New Zealand airmail). Non-IRCA/NRC members - add $2.00. Pay electronically with PayPal - add $1 to the above price. Go to www.PayPal.com then send your funds to phil_tekno@yahoo.com (Phil Bytheway).

Florida Transpacific DX Review

By Ray Moore

A little nudge from Nick Hall-Patch and getting tired of tweaking carriers out of the Sony ICF-2010 setup prompted me to get up a little earlier to feed Pedro out in the shop so I could use my homebrew receiver. If I feed him in the house and go out to the shop he will start barking as soon as he finishes his breakfast resulting in my intolerant next door neighbor reporting me to the front office. Listened 1021-1047 (LSR 1034), found carriers all over the band but mostly mid-band. Not enough time to check all frequencies - must get up about 15 min earlier. Audio none. Carriers: 3 - 738, 1098 with SAH, 1089 kHz; 2 - 1125, 1116, 1008, 963, 702 with SAH, 657, 558, 549, 1296, 1035 kHz; 1 - 567, 1638, 1512, 1503, 891 kHz.

Welcome to the Target DX Column number 3. This column will deal with setting up your targets based on seasonal and auroral conditions. As many of us that have been in the hobby for a while can attest the atmospheric or propagation conditions can dictate what can be heard on any given day.

First a new listener must realize that your targets will be easier to hear on certain days depending on what we will call “conditions” in this column. Conditions can vary not only from season to season but day to day and at times hour to hour.

You will often hear about bad or good conditions on the band. This may be true but good for what or bad for whom? Here in Winnipeg MB as an example, auroral conditions can be both bad and good. How you ask? At times during a strong auroral display the AM radio band can be virtually wiped out. The band can sound like a giant bowl of Rice Krispies...all Snap Crackles and Pop. During such times it is hard to hear stations more than 100 miles away. However during a minor auroral event or the beginning or end of a major one the band can open up. Targets on frequencies usually occupied by close in stations are more easily heard. For example here in Winnipeg on 540 kHz CBK in Regina is a major pest. During auroral conditions CBK is knocked down and XEWA in Mexico is easily heard. The same is true on 760 kHz with WJR and XEABC. The closer in stations (about 500 miles or less) are gone or far weaker than usual and distant stations come rolling in during the aurora. This can make for great DX'ing.

As you can see you can set targets that on a regular day might be hard if not impossible to hear, but when the atmosphere is not doing its regular thing and is disturbed you can benefit by tuning in to see what is happening. I would recommend you start with some larger stations and work your way up to lower powered stations. You can at times see the aurora in the skies but often you can hear it. You will notice that closer stations are gone or weaker than usual. Once you have established that the aurora is on going, go to your list and see what you might find on the radio.

I cannot speak for every location but here in Winnipeg my aurora list is based on the “usual pests” such as the following frequencies: 540,640,720,760,830 etc. Once I see or hear auroral conditions I head for the radio and scan those target frequencies to see what can be heard. This takes some patience as during an auroral event conditions will change almost minute by minute as the atmosphere fluxes and changes. These events can last from a few minutes to 2 or 3 hours. The auroral events seem to be more of a fall /winter phenomena.

Speaking of seasons, you can also develop a seasonal target list. This list would involve stations that are more apt to be heard during a specific season or seasons. Over all winter is the best DX season for the AM band. The extended hours of darkness along with a lack of thunderstorms give you a better chance at catching your targets. Set your target list up and check the frequencies on a regular basis. In this hobby a target list becomes a teacher of patience as you try and try again to catch that new station. You should not forget Spring and Fall either as the sunrise sun set conditions can be great. Sun rise and Sun set targets are a whole other column.

Once again based on my experience I have found that the October through January/February season is best for TP’s (Trans Pacific DX) and TA’s (Trans Atlantic DX). Trying for this type of DX is almost a waste of time outside of this season here in Manitoba. Your conditions will no doubt vary based on your location and experiences.

Summer time is often seen as a “bad” time of year to DX on the AM band. I can say that yes, the number of opportunities to DX are lower due to the lack of hours of darkness and thunderstorms however there are times where your target list may come into play. Summer may be a good chance to try for those closer in targets. The best times for this type of Target DX would be near sunset and sunrise. Conditions at those times can still be good DX times even in the summer.

That is all for this time. If you have any comments about the column or ideas for it please send them in. Ye old editor is open to all sorts of ideas for the column. I am also looking to start a Target DX List. If you have any stations you would like to see on the list please send them in. The list would be a way to let fellow DX’ers know that if they are hearing a certain station they could be trying for others on or near that frequency. I envision an on going list that could be on e-DXN with updates as you send them in not just in the monthly column. This would give the list a more live real time feel to the whole thing;

I am pleased to announce the renewing of my NRC membership. Just before returning to the NRC, I visited Multicultural Radio Broadcasting, Inc., which owns KAZN-1300, KMRB-1430, and KAHZ-1600. From my viewpoint, I have a firm believe wherever I go, I represent not just myself but people I know and work with. My visit to MRB, Inc. was searching for a new band from Taiwan called “Mrs. This.” The two ladies working the reception desk called a gentleman over. I brought my SONY CFMD-1 receiver with tape recorder. All three confirmed the airing (3:00 am 5-8-08) of KAHZ-1600. Prior to going to the office, I saw Studio 4 where KAZN-1300 was on the air. What changes have taken place in radio stations over the years! Gone are the turntables, cart machines, tape decks - now CD’s and the computer are the norm. Prior to saying “thank you” to my new friends, I mentioned my representing the National Radio Club; reception reports noting receiving KAZN-1300 and KAHZ in Las Vegas/Henderson, NV area: request to petition the FCC boosting their signal stronger at night. In closing, I feel that my trip to MRB Inc. will be a time I will always recall representing the NRC. A lady friend from Taiwan will go later this year and pick up the Mrs. This album for me. I look forward to representing the NRC again some day. Thanks and good listening to all!

I’ve had a few conversations with member Roger Winsor of Portage, IN. He tells me IBOC is destroying his interest in this hobby. I can understand that. I have problems here, despite that I like to take the Sangean Sanio portable to a park five blocks south which has good walking paths and bandscan the AM dial. My IBOC headphone frequencies are 620, 670,720,780, 1200, and 1390. Why they need it is beyond reason. I used to hear WTVN-610, Ohio regularly; no more. There’s not much to try for next to the 50 kW Chicago stations. IBOC on 1200 has nearly wiped out any signal of WOWO-1190. And I can still hear WCJK-1380 IL and WRJN/WDWS-1400 next to WGRB-1390 Gospel radio. It’s just a day problem, though. I work at a mortgage company office Monday-Thursday night and Saturday, so I’m just too tired to DX when I get home. I’m an avid White Sox fan and enjoy the broadcast on the drive home. Mon 5/24 Memorial Day I head the Indy 500 on WSPY-107.1 and then left for my first granddaughter’s baptism and party in the afternoon; I was able to hear the race only on WRRD-540, ESPN radio. Chicago’s ESPN was not airing it. For those familiar with him, long-time DXAS member Marc Marino is recovering from heart bypass surgery at a Charleston, SC hospital and recovering at home now. I saw on Radio and Records.com where WLS-890, WABC-770, and another station decided to do a Memorial Day Top 40 rewind, bringing back many jocks and playing some great music. I may be old-fashioned, at 59 years old, but the Top 40 sound on 50 kW U1 AM stations sounds great to my ears. Do others feel the same (Yes!! -pls.) I believe they will repeat it on July 4. In the last issue, I read where dues will rise to $33 annually. I feel it’s reasonable. We get a ton of radio information yearly in DX not found elsewhere. Nothing major in radio going on here. I am surprised a downstate IL station, WINU-870, is carrying White Sox baseball. Seems rare for a Christian station to do that, and also besides WGN-720, I can also hear KKIC-800 days good on the Cubs network. That’s it for now. Enjoy your summer.

The NRC AM Station Antenna Pattern Book
This Sixth-Edition Antenna Pattern Book now includes daytime and “Graveyard” frequency patterns for the first time. Stations in Alaska and Hawaii are listed on separate pages at the end of the book. The basic list of U.S. and Canadian stations comes from the 26th Edition of the National Radio Club’s AM Radio Log. Mexican stations in the states bordering the United States plus those stations elsewhere which are easily heard in the U.S. and Canada are also included. All data is up-to-date as of November 1, 2005. Prices: $16.95 to USA/Canada NRC members, $22.95 USA non-members, $25.95, Canada non-members/all overseas orders. Order from NRC Publications - P.O. Box 473251, Aurora CO - 80047-3251. (CO residents, please add 3.5% sales tax.)
IT’S PITTSBURGH IN 2008!
Friday, August 29 - 31, 2008
Our 75th Anniversary - National Radio Club, founded in 1933
What better way to celebrate our Diamond Anniversary than to get back together in
the familiar surroundings of the birthplace of modern broadcasting. And can you
believe it? The city of Pittsburgh is celebrating its 250 anniversary this year, too!
Our host will be John Malicky, one of our most experienced convention leaders. Just
look at what he’s arranging for us. The Pirates baseball team will play for us on
Sunday afternoon against Milwaukee - very appropriate for our 75th diamond an-
niversary - weather permitting.
Plan to arrive early enough on Friday to take part in studio tour that afternoon, with
a pizza dinner being served in the meeting room that night. The grand opening
will be held at 7 p.m. on Friday with a presentation about the history of Pittsburgh
rounding out the evening.
Saturday morning will feature a tour of the Heinz History Center at 9 a.m., and you
are invited to buy lunch at the Sports Rock Café if you wish. There will be transmit-
ter tours in the afternoon for those who wish to get out and see what broadcasting
in Pittsburgh is all about, and then, at 5 p.m., the annual group photograph at the
hotel. And, of course, there will be lots of time to sit and chat about DX’ing with
other club members in the Hospitality Room.
The banquet this year will be in the Greenery Restaurant at the hotel. A business meet-
ing will follow, and then the world-famous auction will round out the evening.
Sunday will open with the annual NRC DX Examination, and then, at 11 a.m., we’ll
depart for a boat ride to PNC Park, home field of the Pittsburgh Pirates, via the
Gateway Clipper Fleet. The game that afternoon is against the Milwaukee Brewers
at 1:35; tickets are $14 each (payable to John Malicky, NOT the NRC), and please
reserve yours by letting John know that you plan to attend. Seats will be behind
home plate on the 3rd level.
Back at the hotel, the Hospitality Room will re-open around 5 o’clock -- WNRC should
be on the air by then and we’ll sit and chat until everyone is talked out. The con-
vention will end on Sunday evening.
Now, here’s what to do:
1. Reserve your room at the Greentree Holiday Inn, 401 Holiday Drive, Pittsburgh PA
   15220: Call: 1-412-922-8100. Be sure to tell them you want the “NRC Rate” @
   $75 per room (up to 3 occupants) ... and be sure to tell them by August 15.
2. Convention Registration is $45 and that includes the pizza party, the banquet, soft
   drinks and munchies during the three days in the Hospitality Room and, weather
   permitting, a trip to the history center.
3. Send all auction and “free” distribution items to John (PLEASE mark free items
   prominently so that they don’t end up in the auction!): 995 Shadyscrest Rd - Pitts-
   burgh, PA 15216-3046.
4. Send your registration, payable to “National Radio Club” to: John Malicky- 995
   Shadyscrest Rd - Pittsburgh, PA 15216-3046. You can also register online using
   Pay Pal at: www.nrcdxas.org
5. Local Transportation: If you fly into Pittsburgh International Airport (“PIT”), there
   is a free complimentary shuttle service to the hotel. The train station in Pittsburgh
   is only 4 miles away from the hotel; the taxi fee is $25.
