## CONSTRUCTION PERMITS ON THE AIR

750 KSEO OK Durant – D1 220/0 is on the air.
790 WBLO NC Thomasville - U – 10000/26, increasing the daytime power.
830 WQZQ TN Goodlettsville – D1 2000/0; ex: 1550 at Clarksville.
930 KNSA AK Unalakleet – U1 4200/4200.
980 KRTX TX Rosenberg-Richmond – U4 5000/4000.
1050 WBQH MD Silver Spring – U1 10000/44.
1170 WLEO PR Ponce – U1 200/200.
1340 KVGC CA Jackson – U1 440/250 from an 85-foot tower at 38-21-21/120-46-08.
1440 WNYG NY Medford – *D1 1000/0 di-plexing into tower #2 of the WLIM-1580 array at 40-47-45/72-59-32. This also includes a move from Babylon. * - Although the narrative of the application states 1000 Watts daytime and 189 Watts nights, the FCC's database indicates no nighttime authorization.
1490 WCHM GA Clarkesville – U1 880/880.
1590 WGBW WI Denmark – U4 10000/50 from four new towers (using 4 by day and 3 at night) at 44-18-50/87-47-16. This also includes a change in City-of-License from Two Rivers. The day pattern is basically a circle to the northeast with a small 'blip' to the southeast. The night pattern sends an 'oval' signal to the north-northeast. They continue to have an application to boost the nighttime power to 500 Watts. If granted, that pattern would duplicate the current night plot, only be larger.
1660 KRZI TX Waco – KRZI has moved to a new tower at 31-31-06/97-05-17 as they remain U1 10000/1000.

## ACTIONS

540 CBEF ON Windsor – Their Construction Permit (CP) deadline to get the nested repeater on 105.5 MHz for CBEF on the air has been extended to May 9, 2012.
560 KBLU AZ Yuma – Coordinate correction to 32-43-24/114-38-47.
570 WQDR NC Raleigh – CP granted for U1 1000/40 as they move to the site of co-owned WPTF-680 at 35-48-35/78-45-41.
570 WNAX SD Yankton – Licensed for U2 5000/5000, WNAX is operating under a Special Temporary Authorization (STA) with U1 5000/1250 as they are rebuilding their tower #1's doghouse and adding an FM antenna on the tower. When finished, the new equipment will accommodate the addition of translator K260BO (99.9 MHz). Their normal night pattern is directed to the north and slightly west, so this may open up DX possibilities to the south and east. No completion date was specified.

- 580 KMJ CA Fresno – Licensed for U3 50000/50000, KMJ is operating under an STA with U1 5000/5000 from their auxiliary site at Kerman, California (36-41-37/120-03-16). The anticipated date to return to licensed operation is 15 October.
- 860 KTRB CA San Francisco – Licensed for U4 50000/50000 from two transmitter/antenna sites, KTRB is operating under an STA with U1 50000/12500 from their day site as it was determined that their night transmitter has been damaged due to the generators (no power grid serves the site) not being able to provide stable, reliable power. Their normal night pattern is directed to the west, so this may open up DX possibilities to the north, east and south. This mode of operation may be in use for several months.
- 990 KTKT AZ Tucson – Licensed for U4 10000/1000, KTKT is operating under an STA with U1 2500/250 after their tower site was vandalized. (See related item under Applications)
- 1060 WLNO LA New Orleans – Licensed for U4 50000/5000, WLNO is operating under an STA with U4 5000/5000 due to problems sustained to their transmitter building. The day pattern remains as it was, only smaller.
- 1120 WPRX CT Bristol – License and call letters reinstated.
- 1140 WCJW NY Warsaw – CP granted for D4 8000/0 CH 2300.
- 1230 KBNH OR Burns – Coordinate correction to 43-33-53/119-03-34.
- 1310 WJUS AL Marion – CP granted for U1 5000/33 (a reduction of 1 Watt at night) as they add a unipole feed system to their radiator which raises the tower height 2 feet to 317'. Thus the need to reduce their night power. The action also corrects their coordinates to 32-38-09/87-18-08.
- 1310 CHLW AB St. Paul – Their CP deadline to move to 97.7 MHz has been extended to April 21, 2012.
- 1330 WBHV PA Somerset – Silent STA issued. Station is up for sale.
- 1340 WKSN NY Jamestown – CP granted for U1 260/520 along with a move to the co-owned WJTN-1240 tower at 42-06-17/79-15-27.
- 1360 WMNY PA McKeesport – Licensed for U2 5000/1000 from two transmitter sites, WMNY is now operating U1 5000/250 from their day site as they experienced failure of their night transmitter.
- 1370 WHYP PA Corry – License and call letters reinstated.
- 1370 CFOK AB Westlock – Their new FM is on 97.9 as CKWB. CFOK has 90 days of life.
- 1380 KRKO WA Everett – Licensed for U2 5000/5000, KRKO was issued a CP for U2 34000/50000 from a new 4-tower site at 47-52-32/122-04-42. They filed for, and now have been granted a further upgrade to become U2 50000/50000 at that new site. Using a four towers both day and night, the patterns are large (almost) circles directed to the northwest.
- 1400 CKGR BC Golden – Their new FM on 106.3 MHz is now on, giving the 1400 outlet a maximum of 90 days left on the air.
- 1410 KCAL CA Grand Terrace – CP granted to move here (ex: Redlands) with U4 3000/2200 moving to the antenna site of KKDD-1290 San Bernardino. The new day pattern is a large circle to the southwest and a smaller circle to the northwest, while the night pattern is a slender plot to the southwest with small 'blips' to the northwest, northeast and southeast.
- 1420 WLET GA Toccoa – Licensed for U1 1000/68, WLET is operating on an STA with D1 1000/0 from a temporary tower at 34-44-33/83-04-16.
- 1460 WKHZ MD Easton – Licensed for U4 1000/500, WKHZ is operating under an STA as D3 1000/0 as it was determined that they could not maintain the nighttime authorized parameters within the licensed limits. Efforts are underway to re-establish nighttime operation.
- 1520 WSVX IN Shelbyville – CP granted to reduce both day and night power and go non-directional, as they become U1 250/4. [Night power correction from last issue]
- 1590 WSMN NH Nashua – CP granted to change antenna designation from U3 to U4 as they move to a new 3-tower site at 42-43-20/71-32-07 as they remain 5 kW day and night. Although the new patterns are basically the same as the old one (large circular plot to the northeast), the new night pattern now additionally directs a small amount of signal to the southeast, southwest and northwest. According to the application, these 'new' additions to the night pattern are to fill in coverage deficiencies where the old pattern failed due to population growth.

APPLICATIONS

- 540 CBGA-1 NB **Grande Anse** – Applies to shut down the 540 signal and launch five FMs: Chandler, QC on 93.5, New Carlisle, QC on 98.7, New Richmond, QC on 104.3, Perce, QC on 104.5 and Port Daniel on 92.5. All FMs would be // CBGA 102.1 Matane, QC.
- 610 WAGG AL **Birmingham** – Applies for U1 5000/610.
- 970 WJMX SC **Florence** – Applies for U1 10000/31.
- 990 KTKT AZ **Tucson** – Applies for U4 10000/500 after repairs are made to their antenna system. (see related item in **Actions**)
- 1240 KWAK AR **Stuttgart** – Applies for U1 960/960.
- 1240 CFOB-1 ON **Atikokan** – Applies to move to 95.9 MHz.
- 1360 WMOB AL **Mobile** – Applies for U4 9000/200.
- 1560 WYZD NC **Dobson** – Applies for U1 4200/0 CH 515.

APPLICATION AMENDMENTS

- 880 APP AK **Wasilla** – Initial application was for U1 250/250. This amendment requests U1 210/210.
- 1020 APP ID **Star** – Initial application was for U2 50000/500, later modified to U2 10000/500. This amendment requests U2 10000/460.
- 1360 APP AK **Tyonek** – Initial application was for U1 10000/10000. This amendment requests U1 20000/20000.
- 1550 KWBC TX **Navasota** – **Licensed for U1 250/26**, KWBC applied to move to College Station with U4 1500/45. This amendment requests U5 1500/24.
- 1560 APP WI **Superior** – Initial application was for U4 1000/250. This amendment requests U4 5000/4000 with a change in City-of-License to Village of Superior.

COMBO PLATTER

- 1150 KRMS MO **Osage Beach** – **Licensed for U1 1000/55**, KRMS was issued a CP for U1 840/55 in August 2008. Now, after three years and no progress, they have petitioned the FCC to **cancel that CP**, and have submitted a new application for the same U1 840/55 facilities, only moving the day transmitter to a new site

APPLICATIONS FOR NEW STATIONS

- 780 APP UT **Draper** – Applies for U4 25000/440.

DISMISSALS AND DELETIONS

- 660 WNFS FL **White Springs** – CP for a new station cancelled.
- 670 WVVT VT **Essex Junction** – CP for a new station cancelled.
- 700 WJWB FL **Gibsonia** – CP for a new station cancelled.
- 730 ----- CO **Grand Junction** – Application for a new station dismissed.
- 760 KEIP NV **Las Vegas** – CP for a new station cancelled.
- 800 ----- OR **Brandon** – Application for a new station dismissed.
- 810 KLVZ CO **Brighton** – CP for U4 10000/430. **KLVZ remains U4 2200/430.**
- 830 WJFA FL **Hilliard** – CP for a new station cancelled.
- 890 ----- FL **Rushmere** – Application for a new station dismissed.
- 900 ----- OR **Bend** – Application for a new station dismissed.
- 1060 KRGA CA **Arroyo Grande** – CP for a new station cancelled.
- 1140 CBI NS **Sydney** – The CBC has put CBI's CP to move to 94.1 MHz on the back burner (if not cancelled altogether). For now, **CBI remains on 1140 with U2 10000/10000.** [Night power corrected from last issue]
- 1180 KORL HI **Honolulu** – CP for a move to 1170 kHz with U1 330/140. **KORL remains here with U1 1000/1000.**
- 1230 WDME ME **Newport** – CP for a new station cancelled.
- 1230 KHUA TX **Presidio** – CP for a new station cancelled.
- 1250 WIPS NY **Ticonderoga** – License cancelled; call deleted per licensee's request
- 1260 ----- AZ **Many Farms** – Application for a new station dismissed.
- 1300 ----- AK **Fairbanks** – Application for a new station dismissed.
- 1300 ----- AZ **Prescott** – Application for a new station dismissed.
- 1300 ----- SC **Gloverville** – Application for a new station dismissed.
- 1330 WBHV PA **Somerset** – License cancelled; call deleted per licensee's request
- 1340 ----- HI **Honaunau** – Application for a new station dismissed.

- 1340 KSSR NM Santa Rosa – License cancelled; call deleted.  
 1340 ----- NM Silver City – License cancelled; call deleted.  
 1350 KTIK ID Nampa – CP for U2 25000/600 has been dismissed per licensee's request. **KTIK remains U2 5000/600.**  
 1380 WGYV AL Greenville – CP for a move to Aurora, Indiana on 1030 kHz is dismissed. WGYV remains here with D1 1000/0.  
 1400 WGHC GA Clayton – Application for D1 2800/0 on 830 kHz dismissed. **WGHC remains U1 1000/1000** here.  
 1400 KTNP NV Tonopah – CP for a new station cancelled.  
 1400 KHTW TX Langtry – CP for a new station cancelled.  
 1410 WOOK VA Midlothian – CP for a new station cancelled.  
 1420 ----- CA Crescent City – Application for a new station cancelled.  
 1430 KCMW ID Boise – CP for a new station cancelled.  
 1440 ----- CO Steamboat Springs – Application for a new station cancelled.  
 1450 KYNN AZ Cameron – CP for a new station cancelled.  
 1450 KETH CO Eads – CP for a new station cancelled.  
 1450 ----- MT Whitefish – Application for a new station cancelled.  
 1450 KIFO NV Hawthorne – CP for a new station cancelled.  
 1450 KOAH TX Comstock – CP for a new station cancelled.  
 1450 ----- WA Waterville – CP for a new station cancelled.  
 1470 KHRX TX Marathon – CP for a new station cancelled.  
 1490 ----- CO Kirk – Application for a new station cancelled.  
 1490 ----- NM Volkswagen – Application for a new station cancelled.  
 1500 WOLY MI Battle Creek – License cancelled; call deleted.  
 1510 ----- AK Delta Junction – Application for a new station cancelled.  
 1530 ----- MT Billings – Application for a new station cancelled.  
 1540 WWGK OH Cleveland – CP for D4 3000/0 CH 1500. **WWGK remains D1 1000/0.**  
 1550 KRPI WA Ferndale – Application dismissed to increase nighttime power to 50 kW. **KRPI remains U4 50000/10000.**  
 1560 ----- WY Mills – Application for a new station cancelled.  
 1590 KEAS TX Eastland – License cancelled; call deleted.  
 1600 WMHZ DE Dover – Application for U4 3900/110 is dismissed, **leaving WMHZ licensed for U4 5000/1000.**

#### AM ON FM

- 580 WGAC GA Augusta – WGAC-FM (95.1) Harlem

 850 WEEI MA Boston – WEEI-FM (93.7) Lawrence  
 1220 KJAN IA Atlantic – K266AN (100.1) Audubon  
 1240 WYGL PA Selinsgrove – WLGL (92.3) Selinsgrove  
 1310 WLOB ME Portland – [no longer // WLOB-FM 95.5 Topsham]  
 1490 WVGB SC Beaufort – W233AW (94.5) Beaufort

#### HEAR AND THAR

- ✿ **Returning to the airwaves:** **WHYF-720 Shiremanstown, Pennsylvania** (with EWTN programming after being off for a few days pending the sale of the station); **KJCB-770 Lafayette, Louisiana** with Black Gospel; **WKBO-1230 Harrisburg, Pennsylvania** after a 5-day silence after a lightning strike reportedly took them off the air; **WHAT-1340 Philadelphia, Pennsylvania** (testing with Spanish música).
- ✿ **Reported as Silent:** **WMTC-730 Vancleve, Kentucky**; **WTGO-1090 Tioga, Minnesota** as they lost their tower site; **WNGM-1230 Hiawassee, Georgia**; **WJDA-1300 Quincy, Massachusetts** due to hurricane damage; **WEBO-1330 Owego, New York** is off due to flooding; **WTOC-1360 Newton, New Jersey** (Clear Channel is donating the station, among others, to minority broadcasters); **KNIT-1480 Dallas, Texas** (due to copper thievery at their new transmitter site; their Silent STA states they will be off the air 'for many months'); and **WTRI-1520 Brunswick, Maryland**. Also off/on due to Hurricane Irene-related winds and rain are dozens of stations along the Eastern Seaboard, too many to detail here..
- ✿ **Fines:** A fine of \$14,000 has been assessed to **KGLA-1540 Gretna, Louisiana**, licensed for D1 1000/0, for operating at after their post-sunset authorization time. When questioned, the general manager admitted the station had been operating 'at low power at night for several

years' as they had assumed that nighttime operation was authorized with the post-sunset power. KGLA is authorized for as much as 500 Watts pre-sunrise and 18 Watts during post-sunset operation.

- ✦ **News Item: The FCC reported** a “notable” drop in the number of complaints it received about radio and television in the third quarter compared to the prior three months. The complaint statistic tends to be volatile, based on factors such as the time of year new TV programs are introduced as well as the timing of coordinated campaigns by advocacy groups. The commission said radio/TV-related complaints decreased from 25,162 in the prior three months to 2,611, a drop of more than 89%. “This decrease appears to be attributable to a substantial volume of complaints received during the second quarter that were a product of campaigns against particular programs,” it stated. The majority of complaints continue to be related to programming.

The FCC reported that in the three-month period, it received the following number of complaints related to radio and TV:

Interference: 127

Digital TV: 288

Programming General Criticisms: 288

Other Programming: 950

Programming: Indecency/Obscenity: 958

“Inquiries,” which it tracks separately, also fell. The number of radio and television broadcasting inquiries decreased by about 29% from 4,883 to 3,490. More than half of those also pertained to broadcast programming. Overall, the number of complaints in the top four reported categories (which also include things like cable and satellite services and unsolicited faxes) fell some 30%.

- ✦ **News Item: Generators Credited for Keeping Radio Signals Pumping**

Technical station personnel along the East Coast are still cleaning up transmitter sites and studios in the wake of Hurricane Irene. The FCC believes about 10 radio stations remained off the air as of Monday (8/29). That number could have been much worse without stations having access to well-maintained generators positioned before the storm, believes Clear Channel Radio SVP Engineering & Capital Management Steve Davis. Simply buying a generator isn't enough, he emphasized: “Our generators came up and worked as intended. That hasn't always been the case. This result is huge and is only possible when the local engineers maintain them, test them and make sure they are topped off with fuel.”

The company conducted a hurricane prep conference call before Irene's landfall to reinforce the generator maintenance message. “But that only goes so far — it wouldn't have undone long-term neglect.” Clear Channel Radio has lots of stations running on generators post-Irene and two off the air as of Tuesday (8/30), according to Davis. WRWD-1370 Ellenville, New York was off the air Tuesday because of a fallen power line. Also in Poughkeepsie, the WKIP-1450 site was off the air because of flooding. “There was three feet of water in the transmitter building. One of the ATUs was completely covered with water,” said Davis, who said the auxiliary transmitter was damaged along with a new 10 kW BE FM transmitter for another station.

In New Haven, Connecticut, the WAVZ-1300 transmitter site flooded and the station was operating on night power as of Tuesday. Davis says Clear Channel was able to return several stations to commercial power Monday, including WSUS, Sussex, New Jersey; the WELI-960 studios and transmitter site in New Haven; and its Nassau, New York operations. Albany, New York stations back on commercial power Monday include WGY-810, WOFX-980, and FM stations WPYX, WRVE and WTRY. Stations remaining on generators Tuesday include on the FM side: WALK, Nassau, New York, WRNQ, Poughkeepsie, New York, WWBB and WSNE in Providence, Rhode Island and WHCY, Sussex, New Jersey. He adds that WWTX-1290 in Wilmington, Delaware was close to running out of fuel so Clear Channel was moving one of its DARP generators there tonight; that type of generator needs less fuel to operate. A power line is down in that location. Those are all Clear Channel stations.

Elsewhere WNYC-820 New York City remains off the air because of flooding in New Jersey. A message on its website states listeners can still hear its signal on WNYC-FM and online at NJPublicRadio.org.

Greater Media stations in New Jersey “took a real hard hit,” with most studios and transmitter sites on generators for extended periods, according to Greater Media VP Radio Engineering Milford Smith. “The main site for WCTC-1450 New Brunswick, New Jersey was inundated by the Raritan River, which was more than 20 feet above flood stage — about equivalent to what we saw with Floyd in 1999.” The main site went down about 8:30 Sunday night when the ATU, which is close to 20 feet above ground, went underwater. Greater Media

has an alternate antenna/transmitter site that took over WCTC transmissions until about 1 p.m. Monday as water receded. The station remained on the air. There was about two feet of water in the transmitter building, with some damage to the WCTC tower, its transmitter building, catwalk and the floor, according to Smith. Greater Media stations in Boston and Philadelphia had various transmitter and studio locations on generator during the storm with no lost airtime.

Entercom reported issues at stations in Norfolk-Virginia Beach, Virginia, Boston and Scranton Wilkes-Barre, Pennsylvania according to Corporate Engineer John Price.

Hearst-owned WBAL-1090 in Baltimore is back on the air after being off the air for about five hours Monday due to storm-related power problems at its transmitter. The signal remained available online and via its iPhone app, according to the Baltimore Sun, which also quoted GM Ed Kiernan's frustration. "The toughest of this is that we have just been through a very difficult weekend. We were running 24/7 in storm coverage, and everything went fine. And now the sun comes out, and we're faced with this."

✿ **News Item:** The CBC has applied to convert CBGA-1 540 in Grande Anse, New Brunswick to the FM band. The unusual thing about this proposal is five new FM signals will be required to (partially) duplicate the coverage currently offered by the one AM station. CBGA-1 is a 10,000 watt repeater of Premiere Chaine CBGA 102.1 Matane, Quebec. Even though it broadcasts from the northern coast of New Brunswick, it's primary purpose is to serve communities in Quebec's Gaspé region on the north side of Chaleur Bay.

The proposed FM stations are (all in Quebec): Chandler - 93.5 with 1,010 watts; New Carlisle - 98.7 with 710 watts; New Richmond - 104.3 with 1,030 watts; Perce - 104.5 with 980 watts; and Port Daniel - 92.5 with 920 watts.

Like so many other CBC AM-to-FM moves in the past, this one will no doubt spark its fair share of controversies, especially from folks in rural areas who will be out of range of the new FM signals who currently receive 540 loud and clear.

✿ **News Item: Museum Will Honor the 'Cincinnati Liars'**

**by Ken Rieser**, president of the board of directors for the National Voice of America Museum of Broadcasting

**The Voice of America Bethany Station** was built in 1944 on a wartime basis under the direction of broadcasting pioneer Powel Crosley. After the attack on Pearl Harbor, President Franklin D. Roosevelt was determined to broadcast radio messages overseas. Powel Crosley committed his innovative team of engineers in Cincinnati to building transmitters and antennae system capable of this. A 640-acre site was selected north of Cincinnati in the rural community of West Chester and not far from neighboring Crosley's powerful WLW transmitter. Here, engineers set about building something that had never been built before. Intricate antennae systems would soon be scattered throughout the property and an impressive art-deco structure resembling a WWII airfield control tower was built to accommodate the six new 200-kilowatt transmitters (10 kW was the standard power at the time). The transmitters were designed and built by Crosley engineers with every component custom-made; and they would remain in service to the U.S. government for the next 50 years. The technology was top secret and perplexed Hitler and others as America's Voice continued to permeate Europe and South America. Frustrated by the inability to block this powerful voice, Hitler referred to the facility as "those Cincinnati Liars."

The structure itself, while built during the shortages of war, was designed to highlight and pay tribute to the powerful technology held within its walls. The art-deco building is made of glazed block with a four-story tower that during time of national crisis held armed guards. The bulk of the building was referred to as the Great Concourse, an open space with a 25-foot ceiling, curved balcony and six transmitters on two podiums. This impressive space in the 1940s would have been a vision of technology and progress. Powel Crosley referred to this concourse as "The Temple of Radio."

Unique American message - While the structure of the building is significant in an architectural sense, it is the story of The Voice of America Bethany Station that speaks to our nation's history. This building represents American ideals in so many ways. In service of their country, a group of innovators united to create technology that had only been imagined. They made it possible for the unique American message of freedom and democracy to be shared with people oppressed by tyrannical leaders yearning for the truth. For the next 50 years, these engineers used their imaginations and their skills to make sure America's message was always heard, defeating jamming efforts and overcoming technological challenges. In times of war and in times of peace, The Voice of America Bethany Station delivered the news and culture of America, including the music of Louis Armstrong and others, to victims of war,

the oppressed, the curious and service men and women serving their country around the globe.

With the advent of newer satellite-based technology, ground stations like VOA's Bethany were no longer needed, and the facility was decommissioned in 1995. Shortly afterward, dozens of radio towers and curtain antennae were razed at the West Chester location, and the facility and about 500 of the surrounding acres were turned over to West Chester Township and Butler County Metro Parks for public use. The VOA Bethany Station and its surrounding 20 acres were given to West Chester Township for historic monument purposes.

Joining efforts - Over the next several years interested citizens worked to convert the Bethany Station into a museum. Most notable among them was the local VFW Post and the West Chester Amateur Radio Association. As the museum took shape it was evident that the space was larger than needed for just the VOA Museum and West Chester Amateur Radio Association, which was operating an amateur radio station out of the building. At the same time two local museums were looking for new homes. They were the Gray History of Wireless Museum and Media Heritage. Both were excellent fits for the VOA Museum. The Gray History of Wireless Museum boasts one of the largest collections of antique radio equipment in the country and was assembled by Jack Gray, a former VOA Bethany Station engineer. Media Heritage is dedicated to the preservation, restoration and maintenance of historic broadcast recordings, photographs, scripts, film, printed text, oral histories and other media related to the history of radio and television in the Greater Cincinnati area, the Midwest and the nation. Both of these museums are now housed in the Bethany Station building. In order to facilitate three museums and an operating radio station (WC8VOA) occupying one building, West Chester Township formed an independent board. Its mission is to develop and operate the National Voice of America Museum of Broadcasting. To determine the best way to merge these entities into a cohesive experience the board commissioned Jack Rouse Associates to develop a Concept Master Plan. Meanwhile West Chester Township, with a grant from the state of Ohio, has spent \$1.5 million restoring the building to its original 1944 exterior façade. This restoration was completed in 2011 and they are planning additional major repairs to the building for 2012.

The National Voice of America Museum of Broadcasting Board has accepted the Rouse Master Plan. The plan can be viewed on the museum website. The fundraising campaign to complete the detail engineering and construction has begun. The goal is to raise \$12 million to convert the Bethany Station into a museum that will preserve the rich history of VOA, wireless radio and Cincinnati broadcast history. Please visit [www.voamuseum.org](http://www.voamuseum.org) for more information on the affiliated organizations. If you are interested in contributing, please click on [www.givevoa.org](http://www.givevoa.org); it links to the West Chester/Liberty Community Foundation, which is collecting the donations.

#### STATION NEWS

- 730 CKAC QC Montreal** – As of 9/6 will flip from sports talk to all-traffic “Circulation 730”. This format (partially subsidized by the Quebec Ministry of Transport) was originally planned for 690, unused in Montreal since the demise of CINF. May be coming soon in English on 940 (ex-CBM/CINW). Now that Montreal has a 50 kw blowtorch TIS/HAR, Toronto will want one too! **(MKB-ON)**
- 1150 WTMP FL Egypt Lake** – This long-time Urban Contemporary format station has flipped to Spanish. Noted mid-morning local on 9/3 with tropical vocals and slogan “la Bahía”. Apparently teasing for gear-up Monday, Sept. 5 as no commercials, also a couple of dead air periods heard. Long, canned SS ID's (mentioning the puny FM signal way, way north of Tampa first, oddly). FM signal is around 4-5 seconds ahead of AM. None of the music segues and with gaps between. This appears to confirm the flip, and it's an LMA: <http://tinyurl.com/3vfaue4> **(TLK-FL)**

#### UNID

- 1010 UNID** - 8/18 0631 – Fair and loud with “Sonrise morning show”, “EWTN”, “Sacred Heart Radio”, generic “19 minutes before the hour” time check, no CFRB. All points to KIHU (Tooele, UT), but WCKW (Garyville, LA) is EWTN too. Should have been here for ToH. Duh! Either would be new! **(JJR-MI)**

#### LOGGINGS

- 530 CIAO ON Brampton** – 8/27 0555 – Ethnic singing, man with station promo in EE: “This is chow (CIAO said as the word chow)... AM 5-40... cultural...Brampton...and all the world at www... ca...”. **(KK-VA)**
- 540 WFLF FL Pine Hills** – 8/23 0155 – In mix with Coast to Coast AM, legal ID and station promo “WFLF Pine Hills Orlando...FM Coco Beach. All Fox news 5-40 WFLA.” into news. **(KK-VA)**
- 580 KUBC CO Montrose** – 8/18 0633 – Fair with mentions of “Montrose”, “Colorado Alzheimer’s”, “Montrose weather: low 60, High: 85”, Norry hosting Coast to Coast. NEW! **(JJR-MI)**
- CFRA ON Ottawa** – 8/27 2133 – Poor but alone with “this is News-Talk 580 CFRA” station promo into ad. **(JJR-MI)**
- 610 WXVA VA Winchester** – 9/5 1646 – Oldies including Janis Joplin’s “Piece of My Heart”, station promo “WXVA community calendar...6-10 WXVA”. **(KK-VA)**
- 620 WSNR NJ Jersey City** – 8/26 1945 – Presumed the one with man spekaing in Russian, atop. **(DY-WV)**
- 630 KHOW CO Denver** – 8/18 0658 – Fair with Coast to Coast AM, local Colorado ads and PSAs, ToH call letter ID, no usual CFCO. Rare! **(JJR-MI)**

- 1590 WHGT MD **Maugensville** – 8/11 2000 – Wiping out Indians game on WAKR with ToH ID and station promo "...up and down the Cumberland Valley, this is Christian Radio 1590 WHGT, Hagerstown, Chambersburg, Maugensville, Where Hearts Get Transformed" into gospel song and anti-abortion talk. **(MKB-ON)**
- +++ - 8/27 0555 – In mix with long station promo: "Your constant companion 24 hour daily. This is FBN radio and FBNradio dot com. This is WHGT Maugensville Maryland 1590 AM. You may wonder what the station call letters mean. In some cases they mean nothing .Other cases they may have sufficient meaning. Like ours. WHGT means 'Where Hearts Get Transformed'... Jesus...". **(KK-VA)**

- 1620 WDND IN **South Bend** – 8/27 0555 – In mix with typical ESPN radio programming, station promo "Your hometown...WDND South Bend...". (KK-VA)
- 1630 KRND WY **Fox Farm** – 8/26 2138 – Usual Spanish programs, poor in and out with KCJJ. (JJR-MI)
- 1650 KCNZ IA **Cedar Falls** – 8/23 0155 – In mix with talk and Hindu type singing (likely CINA), talking sports and university violations, ID as "KCNZ 16-50 Cedar Falls". (KK-VA)

#### DX Loggings (All Times ELT)

- 569.98 KSNM NM **Las Cruces** – 8/14 0734 – "Money Bags for School" promo; then call letter ID and Fox Sports programming. Fair atop 1 or 2 others. They're a tad below nominal now, after spending a few years on 570.04. (JW-CO)
- 570 WSYR NY **Syracuse** – 8/31 2236 – Very good atop CKGL with long ad string and ID's. (NK-WI)
- 580 KUBC CO **Montrose** – 8/19 0300 – "...KUBC and Cherry Creek Radio are Equal Opportunity Employers... Thanks for listening to AM 580 KUBC Montrose The Voice of the Valley" to ABC news over WIBW and SS. (WH-CO)
- 600 WICC CT **Bridgeport** – 8/31 2247 – Fair thru CKAT with WMT phased. Yankees coverage. (NK-WI)
- 620 WVMT VT **Burlington** – 9/7 2131 – Fair peaks thru phased superlocal WTMJ with Canaries 621 (audible in SS at times) het notched. Call ID during break in Fox News during break in Laura Ingraham show. Weak QRM from something with mx (likely unneeded) and briefly presumed WZON(unneeded) with what sounded like Red Sox BB. (NK-WI)
- 730 KINF ID **Boise** – 8/10 0706 – AM/FM ID (730 KINF 99.1 KQLZ) and into "America's Morning News" syndicated program; frequent local inserts for ads, ID's, and program notes. Fair signal with long fades and QRM from one or two XE's. Call change, ex-KBSU. Call letters stand for "Idaho's News First." (JW-CO)
- KYYA MT **Billings** – 9/8 Time? – Local news, weather, sports, and ads; man & woman announcers; ID's as "NewsTalk 730 KYYA". Fair peaks but QRM from several. (JW-CO)
- KKDA TX **Grand Prairie** – 8/12 0725 – Gal with "Soul 73 Traffic" for the Dallas-Fort Worth area. Briefly fair in the mix. (JW-CO)
- 780 WTME ME **Rumford** – 8/29 2124 – Fair-Good over/under phased WBBM on day power with Portland SeaDogs baseball. (NK-WI)

- 800 KQCV OK **Oklahoma City** – 8/19 0600 – Man with ID: "Hear the Bible daily - KQCV Oklahoma City, Bott Radio Network on 800 AM," followed by IRN/USA news, then local weather at 0602. Fair at best and usually in a fade. **(JW-CO)**
- CHAB SK **Moose Jaw** – 8/23 0705 – "We're the Greatest Hits...800 CHAB" and into oldies music; soon faded. **(JW-CO)**
- 810 KGO CA **San Francisco** – 8/11 0658 – Plug for kgoradio.com, followed by ads; faded before top of hour, but heard again coming out of ABC news at 0705 with call ID and PDT time check; area weather followed. Pretty regular with local KLVZ off the air. **(JW-CO)** 8/16 0100 – ABC News followed by "...from the KGO Newsroom" mixed with WHB. Local KLVZ off. **(WH-CO)**
- WHB MO **Kansas City** – 8/14 0728 – "America's largest all-sports station, Sports Radio 810 WHB" and into ads; soon lost to KGO. **(JW-CO)** 8/15 2300 – Out of network spots "You're listening to the most powerful sports station in the country, SportsRadio 810 WHB Kansas City. The Power of Sports" and resume ESPN program. Local KLVZ off. **(WH-CO)**
- KBHB SD **Sturgis** – 8/5 0759 – Legal ID at 0759:50: "...25,000-watt, five-state Farm Radio, KBHB Sturgis- Rapid City," followed by ABC news. In and out over next half-hour with local programming. Local KLVZ was off the air (and still is as of 9/8). **(JW-CO)**
- 950 CKNB NB **Campbellton** – 8/21 2249 – Fair atop with cool weather forecast and 95-CKNB ID into AC/oldie type mx. **(NK-WI)**
- 1060 KYW PA **Philadelphia** – 9/5 2054 – Numerous call letters, mention of business news and CBS, Fair to good over several UNID stations. Sort of a regular visitor but not usually this early in the season. **(JEL-MO)**
- 1070.06 KVKK MN **Verndale** – 9/4 0706 – Call ID, C&W song, then weather from the "Double K Radio Network"; more old C&W music followed past bottom of hour, with occasional ID's and CDT time checks. Surprisingly good in KNX null until 0734 when KATQ powered up and took over. **(JW-CO)**
- 1070 KATQ MT **Plentywood** – 9/4 0735 – Suddenly appeared at 0734, covering KVKK, with NASCAR quiz, then ID and C&W music. Very good signal. Also good next day (9/5) with similar programming and "Radio International" slogans. **(JW-CO)**
- 1130 KTCN MN **Minneapolis** – 9/4 2030 – Fair signals with ID as "Now Twin Cities News Talk" into Fox news. Ex-KFAN. NEW Conditions here have been poor but got one new one. **(SA-MB)**
- 1200 WAMB TN **Nashville** – 8/19 0552 – Poor. America's Best Music jingles, no calls. Luckily, top of hour ID into music. No WOAI, weak WRTO. NOS. NEW! **(JJR-WI)**
- 1210 KOKK SD **Huron** – 8/14 2115 – Poor, over/under UNID station(s), possibly Guymon. Heard commercial for auto parts dealer a few minutes later, but that could have been the UNID. Very rare in spite of their day pattern sending a major lobe in my direction. **(JEL-MO)**
- 1220 WLPO IL **La Salle** – 8/17 0700 – "Broadcasting from the comfort of... AM 1220 WLPO LaSalle Peru..." and CNN News. Some QRM CJRB and no KLDC. New Logging #16 for this season and taped. **(WH-CO)**
- 1230 KEXO CO **Grand Junction** – 8/18 0859 – Up briefly "... on KEXO Grand Junction..." and buried by Kool Gold KSTC Sterling. **(WH-CO)**
- KYVA NM **Gallup** – 8/18 0805 – Up briefly "Kiva Country KYVA" and into C&W music mixed with KSTC. **(WH-CO)**
- 1360 WYOS NY **Binghamton** – 9/7 2100 – Excellent with call ID and soon into ESPN which was very strong for a few minutes. **(NK-WI)**
- 1370 WHYP PA **Corry** – 9/7 2101:30 – Fair/good with a bit o/WSPD w/ID into ABC news.. **(NK-WI)**
- 1400 WSLB NY **Ogdensburg** – 9/7 2158 – Fair-good with peaks atop much of the time with "ESPN 1400 WSLB Ogdensburg" ID on the hour. Another GY record. NEW! **(NK-WI)**
- 1450 WENJ NJ **Atlantic City** – 8/29 2134 – Fair atop for a minute with area ad, NJ Media announcement into ESPN. This one gets out very well. 1st NJ GYer! NEW! **(NK-WI)**
- CHOU PQ **Montreal** – 8/31 2243 – Fair-Good with peaks atop several others with AA mx and singing same as webstream. This has been in and out a few times lately, but this was best reception of it. NEW! **(NK-WI)**

- 1480 WZRC NY **New York** – 9/7 2101 – Fair with EE call ID by man atop WHBC with pest WSLs in a long fade. This, as expected was the source of my Chinese. NEW! (NK-WI)
- 1490 WGCH CT **Greenwich** – 9/6 2038 – Fair atop for a moment with area ads. 1st CT GYer! NEW! (NK-WI)
- WKNY NY **Kingston** – 8/29 2300 – Poor-fair w/ call ID into CBS news and soon lost. NEW! (NK-WI)
- WOLF NY **Syracuse** – 9/7 2102 – Poor-Fair in mess with two Radio Disney ID's. Only one on channel. NEW! (NK-WI)
- KOVC ND **Valley City** – 8/21 0000 – Out of C&W "This is Dakota Country KOVC Valley City, KDDR Oakes and KDAK Carrington" to ABC News. New station #17 for the season and taped! (WH-CO)
- WERE OH **Cleveland Heights** – 9/6 2058 – Very good peaks with ads, calls, "NewsTalk 1490" and then lost as WMRN came up. (NK-WI)
- 1510 KCKK CO **Littleton** – 9/8 2138 – Good to fair, in the clear, with mention of mile high sports and CO Buffalos. Their night pattern is like a figure 8 NE/SW from just West of Denver since they protect Nashville, so they send very little in this direction. (JEL-MO)
- 1520 KOLM MN **Rochester** – 9/1 0000 – Out of ESPN promo's "From the Viking Auto Studio Home of the \$24.99 oil change with service open Saturday Sports Radio 1520 the Ticket KOLM AM Rochester A Cumulus Station" to ESPN Sports Center. Thanks to tips from the NRC's [NRC-AM] list! (WH-CO)
- KMSR ND **Mayville** – 9/1 0800 – Faded up with "You're in tune with ESPN 1520 AM KMSR Mayville Portsmouth Cooperstown ... Grand Forks" to what sounded like news... Taped for a needed call change and the 1st logging of the new season! (WH-CO)
- 1540 KMPC CA **Los Angeles** – 8/26 2230 – Poor signals fading up under CHIN for about 4 minutes with Korean programming. (SA-MB)
- WBNL IN **Booneville** – 8/26 2205 – Poor signals under CHIN with High School Football game. NEW! (SA-MB)
- KXEL IA **Waterloo** – 8/26 2130 – Off air leaving the frequency clear for a change. New ones heard as logged above and below. (SA-MB)
- KLKC KS **Parsons** – 8/27 0703 – Poor signals fading in and out with ESPN programming. NEW! (SA-MB)
- KBOA MO **Kennett** – 8/26 – Good signals on top with programming from China Radio International. (SA-MB) Also see listing below under Tentative/UNID (JDT-WA)
- CHIN ON **Toronto** – 8/26 2135 – Good signals on top with programming from China Radio International. (SA-MB)
- 1580 WHFS MD **Morningside** – 8/18 2206 – Poor but over CKDO, unusually w/"Sept 7 at ...Pavilion...WHFS.com" into Talk. Way more common on SRS. Never, ever heard at night. (JJR-WI)
- 1610 WQIV322 MI **Ludington** – 9/11408 – Fair/good with local TIS (Grafton's Milwaukee area traffic) phased out with Ludington and lighthouse info. New this summer. NEW! (NK-WI)

#### Tentative and UNID

- 540 WLIet NY **Islip** – 9/6 2248-0040 – P-PF occasionally thru CBEF with mostly Indian mx. This really can't be anything else in that direction but I couldn't ID it. I think I had a 2nd speaker in there at times also so perhaps CBGA1 as well. I tried for Spanish pips as low band TA's were OK, but no trace. Local WAUK phased nicely. (NK-WI)
- 1540 UNID 8/26 2347 – Poor signals with Nostalgia music in the mix of stations. No ID heard. (SA-MB) Turned out to be KBOA, Kennett, MO. Third new one heard that night, with KXEL off. Big thanks to Tom and Rick Dau! (SA-MB). Also listed above under regular loggings. (JDT-WA)
- 1540 UNID 8/27 – Poor signals under CHIN with lively Mexican music and Spanish talk. (SA-MB)
- 1710 Pirate MA 9/6 2107 – Very good peaks (best of season) with Creole announcer. Where exactly in MA is this and does it have a slogan? (NK-WI)

Nice turn out for the last issue of volume 78. Volume 79 should be the best yet. Hope everyone had a great summer, and a better DX season. See you next time. (JDT-WA)

- 1053 **UNITED KINGDOM** *TalkSport synchros* AUG 31 0000 – *TalkSport* ID; in WEPN slop. [Connelly\*Y-MA]
- 1089 **UNITED KINGDOM** *TalkSport synchros* AUG 30 2359 – *TalkSport* ID; through WILD slop. [Connelly\*Y-MA]
- 1098 **SPAIN** *RNE5 synchros* AUG 31 0001 – Spanish news by woman; echoey. [Connelly\*Y-MA]
- 1206 **FRANCE** *France Info, Bordeaux* AUG 31 0000 – Easy listening music, fanfare, man in French; fair. [Connelly\*Y-MA] SEP 5 0000 – Fair in lightning noise; pop vocal going immediately into fanfare and news. [Conti-NH]
- 1215 **SPAIN** *COPE synchros* AUG 25 0357 – Man in Spanish; fair, over UK. [Connelly\*B-MA]
- 1215 **UNITED KINGDOM** *Absolute Radio synchros* AUG 25 0423 – English talk, "All Summer Long" by Kid Rock; to good peak. [Connelly\*B-MA] AUG 31 0009 – "More Than a Feeling" by Boston; good. [Connelly\*Y-MA]
- 1377 **FRANCE** *France Info, Lille* AUG 24 0339 – French talk by man, emphasis music; poor to fair. [Connelly\*B-MA]
- 1386 **SPAIN** *Euskadi Irratia, Bilbao* AUG 31 0009 – Man in Spanish; poor. [Connelly\*Y-MA]

- 1422 **GERMANY** *Deutschlandfunk*, Heusweiler SEP 5 0000 – Fair in lightning noise; electronic fanfare with *Deutschlandfunk* ID, then time marker into news. [Conti-NH]  
 1521 **SAUDI ARABIA** *BSKSA* Duba AUG 31 0010 – Woman in Arabic; fair. [Connelly\*Y-MA]  
 1557 **FRANCE** *France Info*, Fontbonne AUG 24 0344 – Vocal, man in French; fair. [Connelly\*B-MA]

### Pan-American DX

- 530 **CUBA** *R.Enciclopedia*, La Habana JUL 21 0108 – Soft Cuban music with classical Spanish guitar. [Connelly\*Y-MA]  
 570 **CUBA** *CMDC R.Reloj*, Santa Clara JUL 21 0109 – Reloj format; briefly over WMCA. [Connelly\*Y-MA] AUG 16 0840 – Man in Spanish, time ticks, "Radio Reloj" voice ID then beep on minute and "RR" in Morse code. Slightly weaker than co-channel WMCA. [Knight-PA]  
 600 **NICARAGUA** *La Nueva Radio Ya*, Managua AUG 20 1051 – Trying for Mexicans on the channel, but this long-time dominator is just too hard to get past. Not that a Nicaraguan isn't bad to hear. Silly computerized chipmunk-like, "ya ya ya ya ya ya ya" drops. [Krueger-FL]  
 610 **MEXICO** *XEGS* Guasave, Sin AUG 23 1201 – "Programa Agropecuario" commencing, with man announcer discussing, presumably, agricultural topics to 1205, then a couple of PSA's. Fair peaks, mixing with KNML which eventually took over. [Wilkins-CO]  
 660 **MEXICO** *XESJC* San José del Cabo, BCS AUG 14 1200 – Tuned in to XE anthem in progress; expected it to be semi-regular XEACB but stayed with it and heard this at 1201:45 by gal: "Somos XESJC, Cabo Seis Sesenta, con 2500 watts... localizada en Blvd Mauricio Castro... las 24 horas del día, los 365 días del año..."; XE music followed; signal soon faded and was replaced by KTNN. A new one here, XE #228 but just #4 from BCS. [Wilkins-CO]  
 660 **MEXICO** *XEZ* Monterrey, NL AUG 17 1103 – Canned ID by male voice: "Está escuchando XEFZ 660 de amplitud modulada, transmitiendo con diez mil wats de potencia, desde Avenida Madero..." and into news or newstalk program. Fair for a few minutes before fading. [Wilkins-CO]  
 660 **MEXICO** *XEAR La Mexicana*, Tampico, Tamps AUG 20 1055 – Yi-yip Mexi-tunes, canned ID by man with FM and AM frequencies and calls, into vocal XE anthem from 1101. This one always dominates 660 here. [Krueger-FL]  
 680 **MEXICO** *XEORO* Guasave, Sin AUG 24 1201 – Out of music with ID containing everything but call letters; "La Mera Jefa" and "La Que Manda" slogans; mentions of 96.7 FM and 680 AM and address, just partly readable; MDT (UTC-6) time check and into "Noticias en punto" at 1202, with man and woman announcers; soon faded. [Wilkins-CO]  
 670 **CUBA** *R.Rebelde*, multiple sites JUL 21 0058 – Rebelde ID's. [Connelly\*Y-MA]  
 690 **CUBA** *R.Progreso*, Jovellanos JUL 21 0059 – Slow talk by man, *R.Progreso* ID; over other Latin American. [Connelly\*Y-MA]  
 700 **MEXICO** unID AUG 27 1103 – Very poor and quickly fading with male talk, lots of mentions of México. [Krueger-FL]  
 700 unID SEP 5 1106 – Suspect *Radio la Poderosa*, Managua (the one the WRTH consistently won't list), strong and alone on the channel with female gospel monologue, mentioning nombre, palabra, Israel etc. Into vocal 1114, female back at 1117 mentioning, "en la voz de la..." (suspect just a passing phrase or program title). Rapidly faded and gone by 1120. If the one, it may still be 1100-ish sign-on as per my loggings last year. [Krueger-FL]  
 710 **CUBA** *R.Rebelde*, multiple sites JUL 21 0100 – Parallel 670 with talk; under WOR. [Connelly\*Y-MA]  
 710 **MEXICO** unIDs AUG 13 1100 – Two here, one with vocal anthem starting at 1103, the other starting near the end of the first, beginning at 1105. Way too weak to catch any ID(s). The next day, only one anthem audible, from 1103 again. Rebelde nulled. The Miami Hispanic also somewhat present as daytime grows. [Krueger-FL]  
 750 **CUBA** *R.Progreso*, Palmira JUL 21 0101 – Parallel 690 with romantic male vocal; dominant. [Connelly\*Y-MA] AUG 27 1050 – Presume the site with "wobbler" variation audio. Not many of these wobblers remain, compared to a couple of years ago: presumably newer, defective Chinese-made transmitters that have mostly been fixed. Typical cheap ChiCom products. [Krueger-FL]  
 750 **VENEZUELA** *YVKS RCR* Caracas JUL 21 0102 – Caracas newstalk; jumbled with Cuba and CBGY. [Connelly\*Y-MA]  
 760 **BRAZIL** *ZYH588 R.Uirapuru*, Fortaleza AUG 31 0000 – Portuguese talk by man with Fortaleza mention, spiritual-sounding vocal; to fair peak. [Connelly\*Y-MA]  
 780 **MEXICO** *XEMTS R.Fórmula*, Tampico, Tamps AUG 6 1059-1105 – Mexi-tunes, male ID, choral anthem 1104, another ID 1105 UTC. [Krueger-FL]

- 790 **MEXICO** unID AUG 6 1106 – Nonstop news items read by female, mostly Mexico topics, sports roundup led off by Monterrey fútbol. Suspect XERC Formato 21, México, DF ("F21 790 de Sur" logo on Fred Cant's site) which appears to be mostly news format (power at 50/1 kW), or XEVA Radio Tabasco, Villahermosa, Tabasco (25/1 kW). Tried the next day before 1100 and Mexi-tunes vocals heard, but everything in the mud by 1100. Follow-up August 8th: partial ID 1102, "XE... Distrito Federal," so presume XERC. But shortly before Mexi-tunes were heard again mixing high, so obviously at least one other XE here. [Krueger-FL]
- 800 **MEXICO** XEZR Zaragoza, Coah AUG 23 1100 – Time check for "Seis en punto" and into program of music, sponsored by a local boot store ("live" ads after every song); frequent time (UTC-5) and temperature (27 degrees) checks. Generally fair in August, with usual blowtorch XEROK seemingly running lower power, allowing this and other stations to be heard more easily. XEZR seems to be a tad off-frequency, around 799.98 kHz or so. [Wilkins-CO]
- 810 **MEXICO** XEFW *R.Estrella*, Tampico, Tamps AUG 20 1047 – Male slogan ID, news items with mentions of Morales, Chihuahua, la República. A few minutes later, obliterated by local 820's power-up and/or pattern switch. Don't think I've heard this one before. [Krueger-FL]
- 810 **MEXICO** XESB Santa Bárbara, Chih SEP 4 1201 – Mexican anthem, then ID at 1204 with call letters, frequency, and "Radio Mexicana" slogan all mentioned several times; power, address, and other typical ID data not given; seemed to go into a health-related talk program at 1202 with female announcer; marginal copy and I tuned out at 1206. Heard several times in late August and early September with local KLVZ still off the air. [Wilkins-CO]
- 820 **MEXICO** XEUDO Los Mochis, Sin AUG 22 1200 – XE anthem, followed by ID, only partially readable, with "Radio Udo" slogan, and a possible full ID as "Radio Universidad del Occidente"; not sure what followed. Heard on other occasions, always very tough copy with WBAP to the southeast and XEABCA to the southwest providing interference. [Wilkins-CO]
- 820 **ST. KITTS & NEVIS** TBN *R.Paradise*, Charlestown JUL 21 0100 – Preaching, ID "This is the Trinity Broadcasting Network.;" over WNYC and *R.Reloj*. [Connelly\*Y-MA]

Decent enough signal today to confirm the latter anthem is Veracruz, though a much snappier choral version than here: [www.youtube.com/watch?v=GuhBwfhQeaM](http://www.youtube.com/watch?v=GuhBwfhQeaM), followed by call letters and slogan at 1105, another *R.Fórmula* ID at 1115. Also, a second briefly bubbled up weakly under with Mexi-tuba tunes. ## **Improving your DX skills – tips from new and veteran members**

Greetings once again from the Heart of the Continent and welcome to the DX Tool Box Column number 32. This month's column is about you and me.

Try to envision the scene. The sun is slowly setting and a lone DXer goes to his radio room to try to do some DXing. He turns on his favourite radio puts on the earphones and starts to listen. On the frequency all he can hear is the lament of a lone piper. The sound of the bagpipes is mournful and full of sorrow. He is not sure what he hears so he tries another frequency. There too is the piper and his lament. The DXer tries another and another and another frequency but all he can get is the mournful sound of a lone piper. No matter what frequency he tunes to all that he hears is the bag piper playing that sorrowful tune. What does it mean? Has there been some great tragedy befallen his country or the world? Has some great man died? No it is just...

Every so often there are hands being wrung and teeth being gnashed over the state of our hobby of DX'ing by the people in our hobby. By people in the hobby I mean all of us who DX all the radio bands, not just the AM or BCB DXers. Over the 40 years I have been in this hobby I have heard people forecast the end of the hobby as often as the end of the world is coming. ("The world will end at 12 noon, 12:30 in Newfoundland" – an inside Canadian joke.) Seemingly the hobby will not end in hellfire and brimstone raining down, but by FM radio taking over the AM band, or SSB (Single Side Band) destroying AM, or that CW (Morse code) will not be part of the licensing requirements for Amateur Radio Operators. It goes on and on; with each new leap in technology the Doomsayers come out of the woodwork. Each time they see the hobby facing an Armageddon from the newest technologies or changes in the rules.

The hobby somehow or another does manage to survive in spite of all of these changes. In fact in some ways it has grown because of them. Amateur Radio is a great example of how the hobby grew in the 1950's and 1960's even though so many things changed technologically and administratively. Shortwave and BCB DXing also grew during these years and into the 1970's and even early 1980's. There were clubs and publications around the world helping both the new and the experienced hobbyist grow and learn how to get the most out of his or her DXing. I am sure many of us old timers will look back to those days as a Golden Age of DX. It might be true that the hobby peaked back then and that it has shrunk in size if you count the number of DX'ers active in the hobby.

That is my point (yes I do have one). ACTIVE in the hobby is not only the key to the hobby but is the biggest threat to the hobby, in my humble opinion. If we in this great hobby of DXing do not stay active and contribute to the hobby in some small way it will die. It will die not from the FCC in the USA or the CRTC or DOC (Department of Communications) in Canada rule changes, or technologies making it different, but from a lack of support from the people in the hobby. I am not, nor will I ever, point fingers at anyone in the hobby. It is a hobby and we should each enjoy it the way we want to. Nobody is going to force you to send in loggings or articles to the club. However, if more and more of us stop actively supporting the hobby by not contributing to it, yes it will fade away. No it won't die out completely, as there will still be folks listening at home or in the car by themselves. I suppose that would still be a hobby as such, but without interacting with others it will stop being the vibrant hobby we still have and love.

I have not only been in this hobby for 40 years but I have been sending in loggings and writing articles or columns for almost that number of years too. To me the sharing of information or just asking questions is a huge part of the hobby. It seems to me that most clubs that have disappeared died from not a lack of radio signals but a lack of interest. Our local club (AMANDX) here died off because although we had about 25 members only 5-6 showed up to monthly meetings. Well, we could get together in those small numbers anytime we wanted to and did not need a club to do it. So it disappeared except for the web site that is still active. The site gives basic information to newer members of the hobby in plain and simple language. I have seen this from some big national clubs too. Banks may be too big to fail. but trust me radio clubs are never too big to disappear.

I do enjoy the NRC's *DX News* when it arrives (on my computer, not my post office box anymore), but if more folks do not come forward with at least logging contributions it will be hard to keep this club going. A club is a group of people working towards a common end with a common interest. Well we all have the common interest but how many of us work towards it. I have

been told that a club is lucky to get 10% of its members to contribute even once a year to its publication. Is this where I get to say ARRGGG? Why such a low number?

So my fellow DXers I have one question for you. Will this hobby die from apathy before it dies from other causes? I feel that the only way this great hobby of our will ever die is because we let it die. Each of us has a responsibility to the hobby to help it survive and flourish. Each of us can do our part to help out in keeping the hobby alive. If each one of us just sent in a couple of loggings or wrote a short piece for our publication, the problem the publisher would have would be how to cram in all the good stuff, instead of what can I fill the pages with.

Yes it has been a bit of a rant on my part, but I do feel passionately about this hobby and would like it to succeed for many years to come. I do not want to see the NRC be added to the list of defunct radio clubs that is already way too long. So if you do not want another rant from me please send in ideas (non-technical ones) and let us see if I can have a better column next go around. And hey, why not send a logging or two to the loggings editors. I would love to see a nice thick *DX News* to start off the new DX season.

Help silence that lone bag piper on the hill. He may be playing for our hobby.

Hello All, For those interested in the full (7-page) transoceanic DX'ing report of the new 8" medium wave Ferrite Sleeve Loop antenna's performance during last month's ocean beach DX'pedition to Lincoln City, OR, it has been uploaded to [the Web]. Detailing the FSL antenna's design, testing and refinements prior to the South Pacific DX'ing trip, various detailed photos are provided showing the antenna's construction and beach setup arrangement. MP3 links are also provided for recordings of 2 Longwave and 17 Medium Wave stations, including the relatively obscure DX loggings of 666-Noumea (an all-time new Ultralight DX country), 603-Waatea, and a presumed 639 kHz National Radio (NZ) relay station (2 kW). Links are also provided for the companion LW DX'pedition report and prior Oregon Beach DX'pedition summaries. For those interested in the new FSL antenna's capability to provide awesome DX'ing gain from an extremely compact space, it should prove to be interesting reading. 73 and Good DX Gary DeBock (in Puyallup, WA, USA) [*The full text of Gary's report will appear soon in DX News. - DY*]

From: Shawn Axelrod [amandx@mymts.net](mailto:amandx@mymts.net) Subject: Special events station

On August 5th, 1921 in Pittsburgh, Pennsylvania, Harold Arlin took his place in history calling the world's first baseball game broadcast on KDKA, the nation's first commercial radio 'station. On that afternoon, Harold sat down in a box seat behind home plate at Forbes Field to watch the Pirates defeat the Phillies, 8-5. He wasn't there just to watch, though; he was also there to tell fans beyond the ballpark what he was seeing. When he opened his mouth to speak into a converted telephone he was holding, Arlin changed the way Americans would enjoy baseball, and indeed, every other sport, forever. The North Hills Amateur Radio Club (NHARC) of Pittsburgh, PA will commemorate the 90th anniversary this historic event with a 24 hour Special Event Station. Using the event call sign K3D, the NHARC will be operating on both 20 meters (14.260) and 40 meters (7.260) on August 5, 2011 from 7am to 7am (EST)(August 6)(UTC 0300 - 0300). (Additional bands or hours may be added.) Just got approval to setup 20/40m at the John Roebling Museum in Saxonburg. Home of one of the original KDKA towers. I just read Shawn's 8-5- post re KDKA's first baseball broadcast in 1921. Interesting since this was live and for many years afterward the only baseball broadcasts in Pittsburgh were away games via tickertape until KQV began bootlegging home games from atop a building across from Forbes Field, then the home of the Pirates. This led to a suit by Pirates ownership but KQV prevailed and from then on home games were allowed to be broadcast. I think WJAS, KQV's sister station then was included. Can you imagine in this day and age if home games weren't allowed to be broadcast locally? The year was 1938. Shawn also mentioned the Saxonburg transmitter complex of KDKA. I visited this in the 1930's when many towers were still being used, both for KDKA and shortwave W8XK. The AM transmitter moved to Allison Park, Pa. in 1939 where I presume they still are used. Along those lines of the early days of baseball games on the radio, I remember either reading or hearing once that the radio station would have a Morse code operator sending basic information of the game such as batter at the plate, the count, the result (ball or strike) to the studio. The announcer back at the studio would then announce the play by play from the studio, and often making up the details as he goes, "deep fly ball into left field, Smith is running and running and makes the catch". Radio is still my favorite way of listening to ball games. BTW, Harold Arlin's grandson was Steve Arlin who played in the major leagues during the 1970's 73 de Joe Miller KJ8O Troy MI

To my knowledge the teletype recreation of ball games last occurred in believe it or not as late as the early 1950s. The Don Lee Network which consisted of west coast affiliates used that method. It only lasted a season or two. Dave Marthouse

Dave's Homemade Radios The web site is at: <http://makearadio.com/index.php>

This is one very interesting site all about making your own radios and antennas. Dave has assembled a huge wealth of information on making your own radios that really do work. He has crystal sets, loop antennas, tube radios and amplifiers. And I don't mean just one or two models. There are over 75 crystal sets you can build and over 25 tube radios. If you are good with your hands or want to learn to be good with them this is a great place to visit. Dave even has the radio marked for degree of difficulty under the crystal sets so you can work your way up the technical ladder. There is a great section on loop antennas made for BCB DX'ing. There are lots of pictures and details to help you along.

Hi All, I realized while listening to my tapes from the night of August 31 that another "Log Year" was behind me and a new DX year has begun. I start my new log on September 1 of each year. I ended 2010 with a new logging of KOLM-1520 Rochester MN and started 2011 with a call change KMSR-1520 Mayville ND. Let's hope the propagation continues! As a reintro I've been a BCB DXer since 1964 and joined the NRC just prior to my 15th birthday in 1965. In the past I've edited columns and currently edit the AM Radio Log and handle the club's membership databases. As Chairman of the Board I lead up the managerial team for the National Radio Club. I used to be an active verification collector but as that aspect of the hobby became less rewarding with dwindling replies and more expensive in terms of time and postage I began taping my catches, first on cassette and now electronically. I started recording back in 2005 and have remained active at the dials since retiring as a real estate appraiser for the Arapahoe County Assessor's office after 27+ years of service in May 2009. My other radio interest is Amateur holding an Extra class license with the call N0POH. I'm active in the Amateur Radio Emergency Service and a few local clubs. I am very active on the bands 6 meters and up, with my main emphasis on meteor propagation on 6 meters and 2 meters.

My current BCB set up consists of a Drake R8B coupled with a pair of flag antennas mounted on our privacy fence fed through a Dual TG-1 Termination Gizmo and Mini DXP5 phasing units. The

last two were constructed from designs created by NRC member Mark Connelly. The setup has served me rather well, having logged over 1800 stations from my two Colorado locations since 1975. I'd like to encourage everyone to pen a note to Dave and let us know your status these days and also contribute to DDXD East or West depending on your location and, if the opportunity arises report to International DX Digest! 'til then 73 from the Rockies...

There is a site <http://nflfootballtv.com/onlineradio.html> that has Internet online radio – streaming audio and video information on each team.

Westwood One will again broadcast NFL games each week with these announcers:

Sunday Afternoon Doubleheaders – Howard David and Tony Boselli; Kevin Kugler and Mark Malone

Sunday Night – Dave Sims and James Lofton

Monday Night – Kevin Harlan and Boomer Esiason (or Dan Fouts)

Thursday and Christmas Night – Ian Eagle and Trent Green

I do not know what the network consists of, and it might vary from week to week.

### **Membership Renewals**

Your subscription expiration date is on the back cover. Renewals go to NRC Headquarters, P.O. Box 473251, Aurora, CO 80047-3251. Rates are also on the back page. You can also order online using PayPal – go to <[www.nrcdxas.org](http://www.nrcdxas.org)>.

Order e-DXN in addition to (or instead of) your subscription to the paper edition, and get DX News in PDF form (and in full living color!) a full week before the masthead publication date.

You can use the opportunity to order publications too – just a single check is necessary.

Notes

- The Vikings' list has "KFAN 100.3" and "KTLK 100.3" as flagships. A wiki article has 1130 KFAN swapping formats with 100.3 KTLK on August 15, 2011. A new call, KTCN, is to replace KFAN. I am not sure what the call letters for the 100.3 frequency are.
- The Cardinals' list has "KDDL/KQNA 94.3 FM Prescott Valley". I am not sure what the call letters are for that frequency.

# NRC Contests

Wayne Heinen [amradiolog@nrcdxas.org](mailto:amradiolog@nrcdxas.org)  
4131 Andes Way  
Aurora, CO 80013-3831

Hi Contest fans...

After input from a number of NRC members, I have developed what I hope will be a contest format that will inspire more members to participate. These will be a series of "DX Sprints" that will allow the contestants to compete in their own time frame and use their skills to create the highest score possible.

Each contestant will choose three frequencies – one Clear, one Regional, and one Graveyard – for each sprint. The time period for the first sprint will be three consecutive days (Midnight ELT to the following Midnight ELT) of their choosing between 0000 ELT October 6 and 0000 ELT October 19. This will allow the contestants to work around their employment, family obligations, and all the activities that may interfere with DXing. The idea is to submit the loggings from the three frequencies that have yielded the highest point totals for the consecutive three days that they have DXed.

Each "Sprint" is a separate contest and the overall Sprint Champion won't be determined until the end, as each sprint is ranked by total point score. Each sprint is scored using 1 point for the stations on the selected clear channel, three points for the stations logged on the selected regional channel and five points for the stations logged on the graveyard channel.

There will be a leader board that ranks the contestants month by month and each month a contestant enters they'll be ranked and awarded an overall point score based on the position the obtained during that month's sprint. The leader board points earned in each of the sprints will be 100 points for 1st place, 97 points for 2nd place 94 points for 3rd place etc. That spread allows for 33 contestants to earn points ... and 1 point for those below.

The monthly Sprint time frames are as follows. Scores need to be submitted by the 15th of the following month!

October 6 through October 18

November 3 through November 15

December 15 through December 27

January 19 through January 31

February 9 through February 21

March 1 through March 13

So get you're rigs and antennas ready to start next month...

## General Rules for National Radio Club Contests

Contest Eligibility – All NRC

Members (DX News, e-DXN.com and DX Audio Service) as long as they remain members.

Location Changes – All stations must be logged within 25 miles of your established QTH.

Log Criteria – You must hear the station call letters, the call sign of an acknowledged AM or FM station that operates in parallel with the station or a universally recognized Station Slogan for stations that are more prone to use these rather than any assigned call signs.

Reporting Criteria – Should be submitted in column form. Logs shall contain (1) Frequency, (2) Call Sign/Slogan, (3) City, (4) State/Province, (5) Country, (6) Date, and (7) Time Heard (Eastern Local Time). When reporting a station that you have identified by a slogan the call sign should also be supplied for stations in the United States, Canada and Mexico. E-mail submissions are encouraged. Please email them in Word, Word Perfect or any other word processor format. If you are using plain text, please submit in tab delimited format. Those using Excel or a compatible spreadsheet application may submit spreadsheet files.

The Contest Manager will make the final decision as to the eligibility of all entrants and entries. Rules may be added, amended or clarified by the Contest Manager as required to ensure a fair contest. The Contest Manager is not eligible to receive any prizes or awards in any of the contests.

## Definitions of Clear / Regional / Graveyard Channels –

"Regional" channels – 550, 560, 570, 580, 590, 600, 610, 620, 630, 790, 910, 920, 930, 950, 960, 970, 980, 1150, 1250, 1260, 1270, 1280, 1290, 1300, 1310, 1320, 1330, 1350, 1360, 1370, 1380, 1390, 1410, 1420, 1430, 1440, 1460, 1470, 1480, 1590 and 1600.

"Graveyard" channels – 1230, 1240, 1340, 1400, 1450, and 1490.

All other channels (including split channels and expanded band channels) are considered clear channels.

# NRC/WTFDA Joint Convention 2011

October 13-16, 2011 – Omaha, NE

October 13-16, 2011

Comfort Inn and Suites  
7007 Grover Street, Omaha NE

This year's convention will be dedicated to the late Bruce Elving.

Your last chance to register for the National Radio Club/WTFDA Convention! The convention will be held at the Comfort Inn and Suites at 7007 Grover Street, Omaha Nebraska 68106. The Inn is located north east of I-80 at the 72nd Street exit number 449.

Activities will begin at 3 P.M. on Thursday, October 13. Tours and demonstrations are scheduled all day Friday. There will also be the business meeting, the Quiz, a speaker of interest, and the banquet – all included in your registration fee. October 13 is the average frost date in Omaha – so the trees will still be green! Mark Durenberger will have a slide program following the banquet on Saturday evening, and Matt Sittel is planning a patio party at his home and a TV demonstration one day at the hotel. Everything ends after breakfast on Sunday morning. Come join us!

## Registration and Hotel Information

Please register by October 1 – the convention fee is US\$45 per person; children (age 11 and under) US\$13. Please make checks payable to: National Radio Club and mail them to Ernest J. Wesolowski, 13312 Westwood Lane, Omaha, NE 68144-3543. You may also register on line, *using Pay Pal Only*, at the National Radio Club website <http://www.nrcdxas.org>. Bring auction items, or send them to Ernie at the address above.

Make your reservations directly with the hotel at *Area Code 402 934-4900; this is the ONLY number to receive our convention rate!* You *MUST mention the NRC/WTFDA Convention Rate* of \$75 plus tax = \$88.62 per night which is for 1 to 4 persons per room.

We have Ballroom "C," a hospitality room on the 3rd floor, an airport and bus shuttle, deluxe continental breakfast, guest laundry, 24 hour fitness room and business center, and a large indoor pool.

## NOAA Space Weather Outlook

Issued September 6 – For the period September 7-October 3, 2011

Solar activity is expected to be low with M-class activity likely and a slight chance for X-class activity through September 11 when Region 1283 rotates off the disk. A decrease to very low to low levels is expected from September 12-17. An increase to low to moderate levels is expected as old Regions 1286 and 1283 return and transit the disk from September 18 through the remainder of the forecast period.

A slight chance for proton events is expected at geosynchronous orbit until September 12.

The greater than 2 MeV electron flux at geosynchronous orbit is expected to be at high levels September 7-8, followed by normal to moderate levels for September 9-12. High levels are expected September 13-14, followed by another decrease to normal to moderate levels for September 15-28. High levels resume September 29-30. Normal to moderate levels are expected October 1-3.

Geomagnetic field activity is expected to be at mostly quiet levels through September 9. Activity is expected to increase to unsettled to active levels September 10-13 with the arrival of a coronal mass ejection coupled with a coronal hole high-speed stream (CH HSS). Mostly quiet levels will prevail from September 14-29. An increase to unsettled is expected September 30-October 1 due to another recurrent CH HSS. Quiet levels will predominate for October 2-3.
