For reservations, call (775) 348-6371 and request the International Radio Club of America room rate of \$100/night (plus tax).

Registration fee (not including the banquet) is \$25 payable to Mike Sanburn, P.O. Box 1256, Bellflower, CA 90707-1256, or by PayPal (add \$1 fee) to mikesanburn@hotmail.com. Include contact info and club affiliations.

Department of Corrections: Last two issues we had some items for sale by Jim Shaw, and I printed two different e-mail addresses for Jim, both of them incorrect. His correct e-mail address is jshaw1@woh.rr.com – contact him there for more info about any of those items. Apologies!

Web Site: We are still looking for a successor to Kraig Krist as e-DXN and nrcdxas.org webmaster. For more information, contact NRC Board chair Paul Swearingen at plsbcbdxer@aol.com.

From the Publisher: Still some good DX as we move into spring. But if the conditions are not good, you might want to check out the web site of Jay Allen, a retired CBS engineer, who has lots of good AM receiver reviews – check them out at radiojayallen.com.

We'll be back in three weeks, and then monthly for the summer. Don't forget to check the submission deadlines and keep *DX News* filled all summer long!

37th Edition of the National Radio Club's AM Radio Log

The *AM Radio Log* is a source for information on AM radio stations in the United States and Canada. The 37th edition of the Log contains 300 pages of data and cross references and 12 pages of instructions in 8-1/2" x 11" size, 3-hole punched, U.S. looseleaf format. This publication fits nicely into a 1" three-ring binder. 9,000+ updates since last year's 36th Edition of the log! New for this year is a cross reference by State/Province in frequency order. This list is ideal for targeting needed areas. Additional reference lists include call letters of FM simulcasts with the AM Stations listing, listings of regional groups of stations in the groups section (separate section of the log book), a cross reference of those stations that are licensed to use IBOC (In Band On Channel) digital audio, and a comprehensive list of FM translators that are now simulcasting with AM broadcasters.

Order by snail mail by check or money order in US funds to National Radio Club, P.O. Box 473251, Aurora, CO 80047-3251 or order using your Pay Pal account at <http://www.nrcdxas.org>. Prices are: to U.S. addresses by Priority Mail, \$26.95 for NRC members, \$30.95 for nonmembers; to Canada US\$39.25 by Global Priority Mail; outside North America US\$49.75 by Global Priority Mail.

The rest of the top ten rankings stayed the same with iHeartMedia AC "106.7 Lite-FM" WLTW New York rising to \$42 million from \$40 million, CBS News 1010 WINS New York showing a slight gain to \$40 million from \$39.5 million, and iHeartMedia Talk 640 KFI Los Angeles up to \$38 million from \$37.8 million.

From Radio Insight:

FCC Commissioner Michael O'Rielly said the following about the current ownership limits.

"Another issue of interest in the broadcasting area is the FCC's outdated media ownership limits. I accept that only some of you may care about media ownership, but I contend that you all should. Artificially limiting your ability to buy or sell radio stations or combine with television or newspapers affects the valuation of your stations, raises the cost for debt, prevents the exploration of market synergies, and keeps you from best serving your communities. I am not going to suggest that consolidation or aggressive purchasing in your market is appropriate. But, preventing you from even considering such deals is harmful to the long term health of your stations. In the radio sphere, keen interest has focused on the AM/FM subcap limit, which is a part of the Local Radio Ownership Rule.

Specifically, our subcap limits prevent any one entity from owning more than a subset of AM or FM stations in a market, with the number dependent on how many stations there are in that market. I suggest to you that the radio industry and others have made a compelling case that these limits no longer make any sense. While we need to look at raising the overall ownership caps within a market, there is little reason to maintain the subcaps. For some to argue that AM and FM are completely separate and distinct mediums ignores the reality that all media modes, including streaming, satellite and social media, are fighting for the same audience and the same advertising dollars. If the Commission believes that your only competitor is the man or woman sitting next to you, it is sadly mistaken. Essentially, every content distributor is part of one big marketplace. That's great for consumers, but it means we are imposing discriminatory and harmful limitations on your businesses' ability to compete.

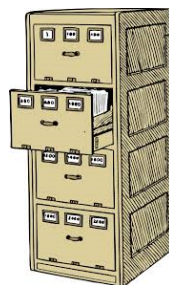

Others will argue that the subcap limits keep existing stronger and larger AM station owners from selling and shifting to FM stations. In other words, the argument is that subcaps force radio owners to buy what some perceive as the weaker technology AM stations because they are maxed out on FM stations in a market. Even if this was once true, the Commission's AM radio revitalization efforts, especially giving AM operators the ability to obtain and use FM translators, have curtailed or completely eliminated this distinction by improving the ability of AM radio stations to cover and serve markets.

Moreover, even if bigger AM owners exited, opting for FM stations, it would only increase the chances for new entrants, like Hispanic radio and others, to serve diverse and niche populations. Since minority ownership has been one of the biggest obstacles to modernizing our media ownership rules in the eyes of some, isn't this potentially a good thing?

Unreported Domestic Stations

One station – WBEC-1420 – was reported to DDXD this issue for the first time since at least 1999-2000 (Volume 67). Another station on our unreported list, WGPC-1450, is now defunct. So that leaves 424 currently licensed stations on our unreported list for this period. The full list was last printed in issue 83-19. Can you hear one and report it next time?

- WPTX MD **Lexington Park** – 4/1 0620 – Tune-in to the late Chuck Berry's "Maybeline" which was WMLB, but also "Swayin' To the Music (Slow Dancing)" by Johnny Rivers overtaking, then male canned "The music you love... right here on WPXT." Into Atlanta Rhythm Section "Spooky" segued to Anita Baker "Giving You the Best I Got" then "Nutbush City Limits" Ike & Tina Turner. The first MD station heard from this QTH, I believe. WBAL-1090 was heard from Casselberry and remote visits to St. Augustine, but not here. In the next day, same hour atop WMLB. Gotta be running day power, the SOP for most stations these days I suppose. **(TLK-FL)**
- CHTO ON **Toronto** – 3/18 0734 – Greek male babble, into Greek vocals. Parallel station stream. Good, but mostly under WMLB. **(TLK-FL)**

- 1550 WDLR OH **Delaware** – 3/24 0311 – Good with jingle ID, then into ZZ Top's "Sharp Dressed Man." (RD-IA)
- 1550 KMRI UT **Valley City** – 4/2 2252 – "La Raza, ciento ... punto uno" after music not // 1570 XERF La Hora Nacional, so two clues this is Unitedstatesian, not Mexican: true dentro-mejicanos don't need to brand themselves as "La Raza." NRC AM Log shows the only SS on 1550 as La Raza is KMRI; nothing there about an FM but web site says "La Raza 107.1 es la mejor estacion de Utah." Soon losing out to soul music in English. I could believe KMRI is really on night power of 340 watts instead of 10 kW day. (GH-OK)

- 1560 KLNG IA **Council Bluffs** – 3/23 2227 – Good with conclusion of REL program from Southwest Radio Ministries. ID at 2228: "Radio that changes the way you live, KLNG," then into 2-minute program "Lighten Up!" with Ken Davis. **(RD-IA)**

Fair/good post-sunrise signal on day power. 2nd call change in as many months, heard as KHEP in March. **(JW-CO)**
- 1590 WAKR OH **Akron** – 3/23 2259 – Good with legal ID that started with "The Indians in Akron ...," then went to a sound byte of play-by-play of a game-winning home run from the 2016 season. **(RD-IA)**
- 1590 KELP TX **El Paso** – 4/1 0859 – Programming note, singing ID, then "Your Story Hour." Poor signal. Seemed a couple of hertz low in frequency. **(JW-CO)**
- 1600 WAOS GA **Austell** – 3/30 0656 – Poor LeMejor sweeper into bouncy, uptempo song. Atop. **(JJR-WI)**
- 1630 WRDW GA **Augusta** – 3/16 0648 – Poor; ESPN content through KCJJ null. Only fit. Steady, no fades. **(JJR-WI)**
- 1640 WTNI MS **Biloxi** – 3/16 0647 – Poor; WSJP nulled. 1640-103.5 The Champ. Sports. **(JJR-WI)**

- 1680 WPRR MI **Ada** – 3/23 2336 – Atop with political discussion about lower and middle classes. Confirmed by webstream. As recently as last September, this frequency had been blocked in the Quad Cities by a local TIS, nice to have it open again. **(RD-IA)**
- 1690 WPTX MD **Lexington Park** – 3/18 0643 – Poor, I'll Never Fall in Love Again, Dionne Warwick AM 1690 WPTX, ad cluster. No sign of WVON. 3/28 0711 – Poor; Michelle, Beatles "AM 1690 WPTX" into another song. WVON in weeds. **(JJR-WI)** 3/23 2328 – Fair in mess with only CLs heard twice, mixing with an unID station in Spanish. MD #2 at this QTH. **(RD-IA)**
- 1690 CHTO ON **Toronto** – 3/24 0110 – Over WPTX with Greek dance music sung by female group. Confirmed by webstream. **(RD-IA)**
- 1700 WRCR NY **Ramapo** – 3/18 0640 – Poor with Indian programming, basically alone on frequency! //web. **(JJR-WI)**

UNID

- 1240 UNID -- 3/27 0706-0734 – ALL instrumentals: No Matter What Shape Your Stomach's In, Wipeout, Telstar, And I Love Her, Hang Em High, The Virginian, A Summer Place. No IDs, slogans. Stunting obviously, but who? **(JJR-WI)**

STATION NEWS/FORMAT CHANGE

- 930 WKY OK **Oklahoma City** – 3/31 2353 – Spanish here is still WKY, but it's sports talk, not music! Long string of promos, jingles from ESPN Deportes, national feed giving times in Pacific and Eastern, and who cares about the Great Center of America, let alone the Mountains?? ToH ID at 0000, says "WKY, Oklahoma City, 930 AM, WKY." The call letters are pronounced in English, although they don't have to be (but doble-ve ka i griega is a bit more cumbersome, less so doble-u ka ye). {There was never a worse callsign for a SS station, all three letters being "foreign" to Spanish!} No mention of "La Indomable" which has been its brand for eight+ years already, and back to ESPND. **(GH-OK)**

Thanks for all your contributions. See you next time. **(JDT-WA)**

- 690 **MEXICO** XEN México, DF APR 2 1058 – Anthem in progress, male "XEN..." then abruptly obliterated by WOKV day power up mid-Fox news. Not in time to hear the recent format shift, as per Raymie Humbert in DXLD 17-13, who reports this is now simulcasting the also DF'er 1150 XEJP *El Fonógrafo*. [Krueger-FL]
- 690 unID MAR 28 0600 – Through CKGM and *R.Progreso*; two cycles of Big Ben chimes. [Conti-NH]
- 720 **COLOMBIA** HJAN *Emisoras Unidas*, Barranquilla MAR 28 0005 – Drum-based music, talk, more rural music, ID at 0005 with echo. [Brandi-NJ]
- 720 **DOMINICAN REPUBLIC** HIAQ *R.Norte*, Santiago de los Caballeros APR 2 0100 – Presumed; on top of frequency with music more tropical than bachata. Announcement by man in Spanish included mentions of Radio Dominicana, Grupo Medrano, a 30-year anniversary and a special concert/event for "semana santa" (which is the week leading up to Easter); website supersemanasanta.com shows logos from all the stations in Grupo Medrano including *Radio Norte*. About an hour later I checked the web stream at <http://norte720.com/am> and heard similar music and an identical sweeper. WRTH lists their power as 1.5 kW and mwlist shows 5 kW, but their web site claims 10 kW. WGN was completely absent at the time. I was hoping there would be other DX that night but, other than the normal Cubans, it wasn't particularly interesting. Looking at the antenna patterns on 720 there isn't much else to compete with HIAQ from the south, so it's not too surprising they came in. [Saylor-PA]

- 830 **DOMINICAN REPUBLIC** HIJB Santo Domingo MAR 29 0115-0205 – Initially occasionally audible; Spanish men with some sports program same as web coming thru WACC (also new) in auroral conditions. WFNO popped in at 0157 with music clobbering the channel but I still could occasionally detect HIJB sports and deportiva mention. South DKAZ used. New country! [Kazaross-IL]

- 970 **CUBA** *R.Guamá*, Los Palacios-Andresia APR 1 1059 – Station theme at 1100, female ID, parallel 1070 kHz. In extremely tight WFLA null while still on night power/pattern. [Krueger-FL]

- 1050 **MEXICO** XEG *La Ranchera*, Monterrey, NL MAR 25 0206 – Weak in mess with ranchera music. Confirmed by webstream, which ran a scant 1 second behind the over-the-air signal. [Dau-IA]
- 1080 **CUBA** *R.Surco*, Ciego de Avila APR 1 0959 – Under WTIC; canned hourly ID parallel 1140 kHz. [Conti-NH]

- 1140 **CUBA** *R.Musical Nacional*, Santa Clara MAR 28 0501 – Under WRVA; violin chamber music, then canned ID with classical harp parallel 590 kHz. [Conti-NH]
- 1190 **CUBA** *CMKC R.Revolución*, Chivirico MAR 26 0958 – End of Cuban vocal, man with headlines/datelines for Angola, Habana and Perú, into news items, one clear "Radio Revolución" ID between items. No trace of normally dominant *R.Sancti Spiritus*. Unable to parallel to 840 kHz thanks to WCEO running illegal D1 50 kW. [Krueger-FL]
- 1200 **COLOMBIA** HJII Medellín MAR 29 1000 – Het against CFGO and WXKS; measured 1200.174 kHz corresponding with listed offset frequency. [Conti-NH]

TRANS-PACIFIC DX

- 1548 **AUSTRALIA** 4QD Emerald MAR 20 1153-1201 – S9+10 peaking signal clobbered by bad slop from KXEL and KMRI (day power left on). Audible Aussie talk much of the time but couldn't copy much. Some of the ABC news trumpet sounder heard at 1200. Using 330 degree DKAZ for this. They remain a bit high at 1548.01 kHz. New! [Kazaross-IL]

Transpacific carrier search: MAR 17 1237-1239 – Finally I awaken two minutes before sunrise here so check it out. 774, 693 and 594 from northwest, presumably Japan; and 702 from west/southwest, presumably Australia. MAR 23 1140-1224 - 684, 702, 774, 828, 1098, 1548 kHz. 684 and 828 likely Australia or New Zealand, no greater than 10 kW. 774 produced Down Under early, then Japan later. 1098 of course is the Marshall Islands carrier. And 1548, 4QD Emerald, Queensland which has been making it with audio as far as Illinois and Michigan lately. Enid sunrise today 1230 UTC. APR 1 1159-1202 - 594, 693, 774, 828, 1314 kHz, all seem from northwest but extremely weak. [Hauser-OK]

INTERNATIONAL NEWS

ALBANIA: *R.Tirana* planned to shutdown all medium wave operations (1215, 1395, and 1458 kHz) on March 31, but several DX'ers reported all three frequencies still active on April 1. "Even today, April 5th, Radio Tirana was broadcasting on 1458 kHz between 2013 and 2027 UTC, but only with music, no talking, except for the station announcements. It's curious to see that their oldest transmitter is the only still working, while the short wave ones, way more modern, have been shut off in March." [Giovanni Battista Ricci, mediumwave.info] Albania would become the latest medium wave radio country to go dark if *R.Tirana* does shutdown.

When I hear a new station, yes, I'm excited to add a new station to my log, but I also enjoy learning about where I'm hearing.

Using maps.bing.com, or any search engine, I find the city of the station. Where is it? History? What is it near? What "Things To Do," "Food," "Activities," population, etc., are in and around the town? Is there a major industry or other interesting item in the town?

By doing some research on the town I'm able to somewhat get an understanding of the town, the people, the community and hopefully the station instead of simply logging a new one in my log book.

Here's an example. I recently heard WHBN Harrodsburg, Kentucky for the first time. Research Harrodsburg, KY and I learn they are a home rule-class city in Mercer County, Kentucky. Another. Recently heard WRSA in Saint Albans, VT, which is not too far from the Canadian border.

I find these things most interesting and informative.

Here is Major League Baseball (MLB) flagship information for the 2017 season from my Internet searches. I also used the newspaper collection at the Chicago Public Library. Please send me announcer information (and corrections), as some of the web pages either did not list the announcer names or were definitely from last season (and maybe did not change for this season, but I have no way of knowing). And sometimes I cannot determine if an announcer is on radio only, TV only, or both. Any copyright statement on an mlb.com page is probably placed there automatically, even if the page content has not changed for the current season.

http://en.wikipedia.org/wiki/List_of_current_Major_League_Baseball_broadcasters

has broadcaster information, and that web site has been updated for the 2017 season (last modified on 7 April 2017, at 18:41).

In some cases I was not sure that the network list was for the 2016 season, as many lists were undated.

If I found a list that had no definite 2017 date but differed from the list I found last year, then I treated the list as one for the 2017 season even though the list might be for last season but changed since I downloaded it at the beginning of the season.

Note that if a station streams its broadcasts over the Internet, I believe that the station cannot stream the baseball broadcasts because the Major League Baseball organization wants listeners to get a paid subscription via mlb.com.

Some of the stations are actually translators, and I might not list the stations' official six-character call letters.

On the mlb.com site for some teams, the announcers are listed under the "Roster" tab.

It is now time to begin collecting Minor League Baseball information; please send me what you can find. Thanks.
