## Space Weather Forecast

Via [NOAA](http://NOAA) web page

Solar activity is expected to be at very low levels throughout the outlook period.

No proton events are expected at geosynchronous orbit.

The greater than 2 MeV electron flux at geosynchronous orbit is expected to reach high levels on 22 Nov through 03 Dec in response to CH HSS influence. Normal to moderate levels are expected for the remainder of the outlook period.

Geomagnetic field activity is expected to reach G1 (Minor) storm levels on 21-23 Nov, with active levels on 20 Nov, due to a recurrent, positive polarity CH HSS. Quiet to isolated unsettled conditions are anticipated throughout the remainder of the outlook period.

KOLT's owners (Legacy Communications, LLC) filed an STA saying: "(Legacy) . . . has entered into an agreement to sell all of its radio stations in the Scottsbluff, Nebraska market to Nebraska Rural Radio Association (NRRA), including station KOLT, the subject of this off-air notice and request for Silent STA. Legacy and NRRA have also entered into an LMA for certain stations in the Scottsbluff market that NRRA is buying from Legacy. The LMA, however, excludes station KOLT, because of FCC multiple ownership rule limits. NRRA has committed in the license assignment application for all of the stations, to alienate or divest KOLT contemporaneously with closing, whether by surrender or divestiture. During the time before the pending sale, because NRRA cannot program station KOLT due to multiple ownership limitations, Legacy has elected to shut down KOLT for financial reasons." It would be a shame if they turn in the license, as the station has been on the air since 1930, according to the FCC's History Cards – Ed.]

- 1460 WJTI WI West Allis – 10/27 – Returns to the air with Regional Mexican: 'La Caliente 97.9' ['97.9' refers to translator W250BN]. (JJR-WI)
- 1490 KZEZ UT Santa Clara – 10/23 2000 – New station is on the air with a bizarre mix of nice adult standards and annoyingly shallow 90s pop music. We listened to it a lot while we were in St. George overnight and the next morning. This station will be very hard for DXers to identify. The operation is completely automated, with almost no announcements between songs. The top-of-hour ID is often 10 minutes or more before or after the top of the hour. Their only sponsor is the Stephen Wade Auto Group. A commercial for this sponsor airs about every 20 minutes. The station gets beat up by KOGN before you even get to Cedar City. It can be heard at the Border Inn, but thankfully is not as much of a pest as nearby KZNU. (TRH-UT)
- 1550 KWRN CA Apple Valley – 10/30 1600 – Noted off the air as we drove through town. Nearby KMPS-910, which has been silent for some time, was still off too. (TRH-CA)

### UNID

- 950 UNID - 10/29 0830 – Very poor, with others. End of C&W or GOS song, into USA Radio News. Then lost. No WNTD or WWJ. With others. (JJR-WI) [My guess: KFSA Fort Smith, AR – Ed.]
- 1480 UNID - 10/29 0856 – Poor, but solid. "Sports . . . will be heard on our sister station, True Country 92.7 FM". (JJR-WI) [My guess: KIOU Shreveport, LA; 92.7 would be KJVC Mansfield, 25 miles to the south – Ed.]
- 1480 UNID - 11/5 0823 – Poor, though steady, with " . . . from the channel 3 Severe Weather Center" right into Black GOS. Lost after two songs. (JJR-WI) [It's difficult to research the television channels these days after all the moves and 'repacking', but cross-referencing 1480s with a similar format from the AM Log vs areas that once had a full-power channel 3, here are a couple of possibilities: KIOU Shreveport and WBBP Memphis – Ed.]

### TIS/HAR

- 1650 WQYZ316 FL Ponce de León FDoT (HAR) FL I-10 Mile Marker 95.7 eastbound median – 11/6 1130 – Local level inside Ponce de León Springs State Park, with the same compu-woman generic loop used on all the other active FDoT HAR transmitters between Tallahassee and Pensacola. [PLSP]

One short break at 0714 with ‘GEICO’ and a life insurance company spots. Mentions an FM on some of the liners, presumably 107.1 K296FC. Holding up until about 0750 daily, but some KYFI co-channel after 0700. The Wiki entry wrongly appends their C&W sister station KVMZ “Magnolia’s Country 99.1” streaming link. Surely running 1000 Watts overnight and not the 30 Watts they’re supposed to be at. Magnolia is just across the Louisiana border. **(TK-FL)**

- 590 WMBS PA Uniontown – 11/11 1850 – Fair, under KXSP (and in some splash from WMT-600), with the Carpenters’ “For All We Know”, then a great liner: “. . . this just in . . . singing will make you young again! . . . 590 AM, 101.1 FM, WMBS”. The things you can learn from listening to AM radio! (RD-IA)
- 620 CKRM SK Regina – 11/7 2310 – Fair with promo for the Lewis & Evans morning show, then into C&W song “Somebody Will” by Bobby Wills; confirmed by webstream. (RD-IA)
- 650 KMTI UT Manti – 10/30 2035 – Out of local spot . . . “Just Country KMTI”. (WH-CO)
- 790 KFGO ND Fargo – 11/10 2259 – Atop briefly, with Minnesota Vikings FB. Play-by-play by Paul Allen // WNAX-570, so it was the actual Vikings Network, rather than the national Sunday night feed from Westwood One. (RD-IA)

- 1110 WBT NC Charlotte – 11/13 2306 – Weak-to-fair, under KFAB and a blatantly cheating, WGNZ with familiar “. . . we have made contact with our leader . . . underground bunker . . .” heard during intro for tape-delayed ‘Mark Levin Show’, then into chatter from the host. Just two Levin stations listed on 1110, but WBT is the only one that carries him at this hour. (RD-IA)
- 1110 WGNZ OH Fairborn – 11/13 2240 – Making mincemeat of KFAB, with clear “Singing News Radio . . . WGNZ . . .” heard in ID following song by southern gospel quartet. Doubt this one was even on its 1.7 kW CH power at the time . . . sure sounded like it was running the full 5 kW day torch. (RD-IA)

- 1160 KCTO MO Cleveland – 11/9 1700 – SS announcements, lots of “La Mega” IDs, mention of Kansas City and 100.1 FM, no EE TOH ID, tho, have heard before but unusually strong, no sign of WYLL, who normally dominates 1160 this time of day in the fall. (JNS-MN)
- 1190 WBHA MN Wabasha – 10/29 1657 – C&W music ending, solid station ID, back to C&W. Mixing with KKOJ, who normally dominates 1190 here during days. (JNS-MN)
- 1210 KOKK SD Huron – 10/29 1708-1711 – Dominating with ads, not normally this strong; no QRM. (JNS-MN)

- 1240 WHIZ OH Zanesville – 11/13 1924 – Fair signal for about a minute or so, with Ohio State University BKB // WKNR-850 and WAKR-1590 on the North Ridgeville, Ohio KiwiSDR. Popped up again at 1938. Only Buckeye affiliate shown on 1240 on the 2019-20 basketball network station list. I hear this one often on the Edinburgh, Indiana SDR, so it's nice to be able to snag it somewhat further west. (RD-IA)

- 1240 WBEJ TN Elizabethton – 11/14 1959 – Atop briefly, with "WBEJ" clearly heard in legal ID. At 574 miles, it's easily my most distant graveyarder logged so far this season. (RD-IA)

- 1250 WKBL TN Covington – 10/26 2001 – Good, with southern gospel music and late legal ID: "You're listening to Singing News Radio, AM 1250 WKBL, Covington", so it runs off the same satellite for music as KAAY-1090, WGNZ-1110, and a host of others. (RD-IA)
- 1260 WNDE IN Indianapolis – 11/13 2010 – Fair under WSDZ, with start of Purdue University BKB pre-game show with play-by-play voice Larry Clisby. (RD-IA)
- 1260 KROX MN Crookston – 11/13 2004 – Briefly over WSDZ with mention of "Northland Ford Dealers" at the start of Minnesota Timberwolves BKB broadcast. Only 1260 on this year's T-Wolves station list. A bit of a surprise, as may have been on day power. (RD-IA)
- 1280 WGBF IN Evansville – 11/10 2119 – Fair, with "... the Tri-States' Best Newstalk ... WGBF" heard during stopset, then back into weekend broadcast (a "best of", maybe?) of 'The Dave Ramsey Show'. Heard again on 11/13 with Purdue University BKB. #20 from the Hoosier State at this QTH. (RD-IA)

" in liner promoting FIVE different ways to hear KGLB's signal, then into C&W oldie "Got No Reason Now For Going Home" by Gene Watson. What a sign of the times -- wasn't all that long ago when over-the-air radio was all there was. (RD-IA)
- 1320 WJAS PA Pittsburgh – 11/10 2221 – Fair, with VERY brief ID in the middle of stopset as "Pittsburgh's Talk Radio". Heard again on 11/12 at 2123 with CLs at the end of a Duquesne University BKB broadcast before joining 'Mark Levin Show' in progress. (RD-IA)
- 1340 WBGN KY Bowling Green – 11/12 2127 – Fair, with C&W oldie "Whatcha Gonna Do With A Cowboy" by Chris LeDoux & Garth Brooks, then liner: "Sometimes it gets a little rowdy around here ... but we like it better that way ... we are Real Country". Heard station's mailing address given out at 2139 during an ad for how to become part of WBGN's sales team. (RD-IA)
- 1340 KWLM MN Willmar – 11/11 2004 – Atop briefly with "... Newstalk 1340, KWLM" heard in station ID during Minnesota Timberwolves BKB. (RD-IA)

- 1370 WQEZ KY Fort Campbell – 11/7 2121 – Over/under WSPD with liner by female: "... WQEZ, EZ 99.9 FM", then into Rod Stewart's 1989 version of "Downtown Train". (RD-IA)
- 1380 WKJG IN Fort Wayne – 11/12 1750 – Poor. Promo for "ESPN 1380 & 100.9 FM". Mention of 'Fort Wayne' in promo. (JJR-MI)
- 1440 WZYX TN Cowan – 11/10 2059 – Weak-to-fair, with modern rock song "My Hero" by The Foo Fighters, then mentions of '1440 AM', '94.5 FM', and '95.3 FM' in the legal ID. Perhaps on day power at the time. (RD-IA)
- 1450 KVSI ID Montpelier – 10/28 1630 – Another nice midday opening as we drove down state highway 318 from MM 40 to Hiko, NV. "The wave 101.7 " slogan and AC music. Several other stations were in midday, including KART-1400, KPXQ-1360, XEWW-690, KFMB-760, and most of the X-banders from the western states. (TRH-NV)
- 1450 WMIQ MI Iron Mountain – 11/12 1718 – Very poor, with "... in Norway", then "Talk 1450" followed by Dave Ramsey. In mess. (JJR-MI)
- 1460 WHIC NY Rochester – 11/12 1700 – Poor. LID into Catholic chatter, discernment and sacraments. Alone. (JJR-MI)

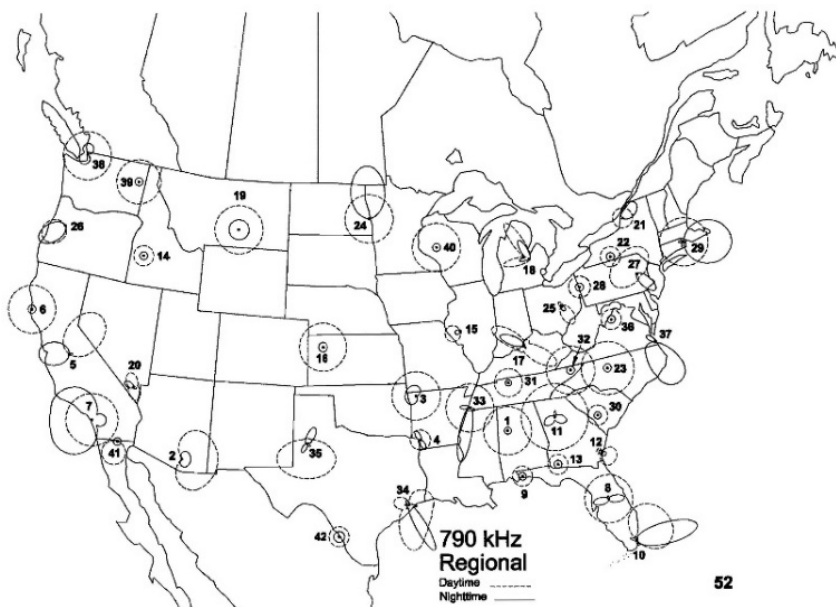

- 1510 WRRD WI Waukesha – 11/8 1700 – On top with ads, good station ID and into political talk. (JNS-MN)
- 1530 WLCO MI Lapeer – 11/9 1715 – Surfaced briefly with C&W song, musical ‘WLCO’ ID, then completely gone (off the air?). All alone. No sign of KQSP or WCKY. Surprisingly empty frequency after it disappeared. (JNS-MN)
- 1530 KQSP MN Shakopee – 11/11 1840 – On day power with Wayne Allyn Root talk show from USA Radio; confirmed via the KiwiSDR in Minneapolis. Thanks to Todd Skaine in the Twin Cities for the tip. (RD-IA)
- 1540 KENT NV Enterprise – 10/18 2100 – Out of SS religious vocals with LID by gal: “KENT Enterprise 1540 AM”, then seemed to disappear, presumably the sunset power drop. New here; NV #27. (JW-CO) [At 2100 they switch from the CH 3.7 kW DA to the nighttime 0.27 kW DA operation (they use 3 DAs! With the exception of power levels, the Day and CH patterns are identical, with a lobe toward Wheat Ridge.) – Ed.]
- 1560 WSLA LA Slidell – 11/14 1855 – Political talk feed, “Hello, I’m . . . President of MAPA Broadcasting . . .” and touting improved coverage (maybe a new translator, but can’t find anything in the New Orleans MSA or across the border in MS) on “96.9 FM”. Also mentioned 93.9 (W230CR), the apparently still existing/listed translator. Into sports talk after the hour, and continuing past well beyond. Parallel station stream. So, assuming they’re still D1, they’re cheating. But KGOW, in Vietnamese, began to smack them down a bit by later in the evening. (TK-FL) [Cheating? Yup. Their November power-off time is 1800 ELT; ‘96.9 FM’? I, too, cannot find any 96.9 FMs (full-power or translator) in either Louisiana or Mississippi that would fit. Unless . . . it’s a very recent add – Ed.]
- 1560 WFME NY New York- 10/24 2100 and on – ‘Family Radio’ IDs and REL programming. Quite strong with some QRM from unidentified stations. (JNS-MN)
- 1560 KGOW TX Belaire – 10/25 2315 – Asian-language programming, in the mix with KNZR Bakersfield. (SD-AZ)
- 1590 WRCY IN Mount Vernon – 11/13 2030 – Briefly over WCGO with Purdue University BKB pre-game show // WNDE-1260 and WGBF-1280, host Larry Clisby interviewing someone about the Boilermakers’ recruiting class for next year. Most definitely on its 500 Watt day stick. (RD-IA)
- 1590 WAKR OH Akron – 11/12 1739 – Poor. “1590 WAKR” ID, then local talk show. In with others. KGFK in earlier. (JJR-MI)
- 1610 CHHA ON Toronto – 11/11 2200 – Very strong with SS and EE. EE ad to advertise over CHHA before good EE station break. Someone way underneath. Have heard this as early as 1600 here lately. One thing nice about Grand Rapids, sky wave almost all day this time of year. (Returning to the DXing desert of Arizona in a couple of days. Was fun to stay in Grand Rapids this late for good DXing but getting too cold and snowy for us here). (JNS-MN)

## TRANS-ATLANTIC DX

- 189 ICELAND** *Ríkisútovarpid*, Gufuskálar NOV 3 0828 - Announcements by man and woman, weak signal just above noise level. [Beu-TX] NOV 3 2202 - Fair; news by woman in Icelandic. [DeLorenzo-MA]
- 198 UNITED KINGDOM** *BBC Radio 4*, Droitwich et al. NOV 3 2154-2200 - Strong with report on Brexit, weather report for Scotland, Big Ben chimes, ID, and into news. [DeLorenzo-MA]
- 216 FRANCE** *RMC Roumoules* NOV 3 0458 - Announcements by man and woman. Peaking to fair signal. [Beu-TX] NOV 3 2152 - Strong with football match in French. [DeLorenzo-MA]
- 234 LUXEMBOURG** *RTL Junglinster* NOV 3 2150 - Fair; animated discussion between two men in French - one via telephone. [DeLorenzo-MA]
- 252 ALGERIA** *R.Algerienne*, Tipaza NOV 2 2205 - Good with woman in French. Second station noted underneath no doubt the rejuvenated *RTE Radio One* from Ireland. [DeLorenzo-MA]

- 549 **ALGERIA** *Jil FM*, Sidi Hamadouche NOV 8 2138 - Good overtaking 550 domestics on car radio; pop music and "Zheel FM" ID by woman. Heard in parking lot of local supermarket. [DeLorenzo-MA]
- 774 **SPAIN** *RNE1* synchros NOV 4 0554 - During carrier search, this is strongest and bearing some audio; at 0601 sounds like Castilian intonation, woman talking and some music; 0628 still talk, 0630 time signal typical on half-hours from *RNE1*. Except for some very low power UK's, the *RNE1* synchros on 774 are the only signals in Western Europe, eight of them ranging from 100 kW Valencia down to 10 kW at four locations, adding up to 270 kW. Since I was hearing a beat, at least one of them must be slightly off-frequency. 774 is also just about the best split, near evenly with nothing big on 770, but plenty splash from 780 WBBM, even tuning LSB. [Hauser-OK]
- 864 **EGYPT** *ERTU Santah* NOV 3 2218 - Fair with man in Arabic slowly reciting the Qu'ran a capella. Live (or recorded live) no doubt at a mosque. [DeLorenzo-MA]
- 909 **UNITED KINGDOM** *BBC Radio 5* synchros NOV 10 2112 - Fair; discussion between a woman and two men all of whom were pop stars. [DeLorenzo-MA]
- 1089 **UNITED KINGDOM** *TalkSport* synchros NOV 3 0509 - Man and woman discussing soccer news. Signal frequently peaking to readable level throughout the evening. [Beu-TX] NOV 3 1955 - Putting in a nice signal during late afternoon. Very readable with some brief fades. Football discussions, ID's, program promo's. [Wood-MA] NOV 10 2108 - Fair; two men discussing football coaches in the UK. [DeLorenzo-MA]
- 1215 **UNITED KINGDOM** *Absolute Radio* synchros NOV 6 2255-2301 - Strong with rock music, promo for National Stress Awareness Day, female DJ, casino ad, ID, "Absolute Radio, where real music matters." At 2301 into Oasis hit "What's the Story Morning Glory?" [DeLorenzo-MA]
- 1467 **FRANCE** *TWR Roumoules* NOV 3 2240-2245 - Fair with man in Arabic. Apparent carrier cut at 2245 UTC. [DeLorenzo-MA]
- 1548 **MOLDOVA** *TWR Grigoriopol* NOV 9 2100 - Tune in to man talking in East European language. A few brief lite musical selections, could have been religious, then into interval signal at 2110 and start of Serbian program. Fair signal with slight splatter but not too bad. Signal is steady with infrequent fades. Audio is pretty clear. No sign of usual *R.Sarwa*. [Wood-MA]

*Transatlantic carrier search:* NOV 4 0550-0600 - TA conditions must be very good, as earlier Mark Connelly in MA reported Syria "inbooming" (where did he get that?) on 783 kHz. Too late for that now, but I decide to perform a carrier search on the R-75 with east/west long wire, and find plenty of them: 531, 549, 558(2), 567, 585(2), 595.9, 621, 639, 684, 693(2), 711, 729, 738, 747, 756, 774(2), 801, 837, 882, 909, 936(2), 954, 963 (both sides of my 960 local), 999, 1053, 1062, 1089, 1125(2), 1134, 1215, 1305, 1566 kHz. NOV 14 0053 - On the NRD-545 with fixed antenna, rig I seldom use for this purpose: 531, 612, 621, 639(2), 657, 684, 693, 702, 711, 855, 909(2), 936, 1044, 1053, and 1503 kHz but nowhere else on top half. NOV 15 0713 - I've had little luck with such high-power DX rather than 25-watt NDB's, but at this time I detect carriers on 189, 198, 216 and 252 kHz, which could be Euro broadcasters rather than beacons or something else: i.e. Iceland, UK, France, Ireland (unless RTE off again audiblizing Algeria). [Hauser-OK]

#### PAN-AMERICAN DX

- 540 **MEXICO** *XETX* Nuevo Casas Grandes, Chih. NOV 14 0731 - Two Mexicans to choose merely by rotating my wrist-mounted DX-398, mutually nullable: *XETX* with frequent full ID, *La Ranchera de Paquimé*, street address in Nuevo Casas Grandes, Chihuahua, also mentioning FM *XHTX* 90.5. *XEWA* *Los Cuarenta*, making fast SAH, indeed off-frequency-minus; as Terry Krueger measured it at 539.966 kHz. [Hauser-OK]
- 539.83 **NICARAGUA** *R.Corporación*, Managua OCT 30 0214 - News talk with male announcer. Peaking to good signal with heavy slop from XE's on 540 kHz. [Beu-TX]
- 710 **MEXICO** *XEMP* *La Nueva* 710, México, DF NOV 5 1150 - Spanish ballads, unabridged choral anthem 1201-1206, man with calls and slogan, back to ballads. Multiple checks before and after this date has the anthem consistently starting about a minute past the hour. [Krueger-FL]
- 760 **MEXICO** *XEABC* *ABC Radio*, Reyes de la Paz, Edo.Méx. NOV 15 1155 - Ads, truncated choral anthem from 1157, man "XEABC, 760 AM, ABC Radio..." [Krueger-FL]
- 810 **MEXICO** *XEFW* *Hits FM*, Tampico, Tamps. NOV 11 1120 - Spanish dance/pop vocals, man "Escuchando... Hits FM." Faded down briefly at 1200, but didn't seem to spin the anthem. Likely not the same as my NOV 10 unID which played exclusively traditional Mexitejano-ish vocals and the truncated choral anthem at 1201 UTC. 2019 WRTH states *XEFW* simulcasts *XHFW* 106.3, while the IRCA Mexican Log 22nd Ed. - published later - says it's now 88.5 (ex-

- 106.3). WCKA up on day power at 1205 and mostly obliterating everything else, but about 10 seconds before, XERI *R.Rey*, Reynosa, Tamaulipas is up and presumably signing on with the instrumental anthem that consistently starts at this time. So for certain, two and probably three Mexicans are audible at my location. [Krueger-FL]
- 810 **MEXICO** unID NOV 10 1202 - The very truncated choral version anthem up at 1202, man with calls and slogan at 1203 but unable to copy either, into Mexi-tune, then clobbered by WCKA abruptly up on day power. Certainly not XERI *R.Rey*, Reynosa, which always signs on at 1205 and always with an instrumental version of the anthem as recently heard several times here. [Krueger-FL]
- 820 **MEXICO** XEABCA Mexicali, BC NOV 13 0308-0315 - Loud at times with continuous Spanish music. "Canal ochocientos veinte, ABC Radio" ID by female at 0315. Listed at 500 watts nights, but IRCA Mexican Log mentions that they are probably running more than that. Sure sounds like it! [Battaglino-CA]
- 980 **CUBA** COCO La Habana-El Sapo NOV 14 2257 - Salsa, female ID with kHz and MHz frequencies. Briefly excellent on sunset line. [Krueger-FL]
- 1000 **CUBA** *R.Artemisa*, Artemisa NOV 14 2304 - Man and woman alternating news, weak and via the presumably ChiCom usual wobbler transmitter. Parallel excellent 1020 kHz. [Krueger-FL]
- 1040 **MEXICO** XECH Toluca, Edo.Méx. NOV 1 0501 - Male with ID, "Escucha XECH Toluca... México," fair signal under WHO. Relog. [Niven-TX]
- 1090 **MEXICO** XEAU Monterrey, NL NOV 9 0553 - I finally tune in before local midnight, Spanish with KAAY from right angle easily nulled, making a slow SAH of exactly 1.0 Hz, advice on how to accomplish e-commerce; 0556 into choral multi-verse national anthem; 0600 a quick ID which dammit I cannot copy, but seems to mention FM, presumably linked to this XEAU Monterrey; mentions milenio.com, and into infomercial for lentes de leer (reading glasses). Now there is a UK TA het interfering from 1089 kHz, which I can't null as long as I do null KAAY. IRCA Mexican log says of XEAU: 5000/500 watts, FM Tu 103.7 (Zona Urbana), 1200-0600 REG ORO parallel XHFMTU 103.7 FM. Moved to FM? (Web stream ID is FM only, but AM is still included in June 19 IFT list). [Hauser-OK]
- 1420 **MEXICO** XEXX Tijuana, BC NOV 6 0313 - Good with sports talk in Spanish. Call in show with male and female hosts. Parallel stream. [Battaglino-CA]
- 1470 **MEXICO** XEAI México, DF NOV 6 0240-0245 - Way under nulled KUTY with Spanish talk both male and female announcers, then into Spanish music. Mention of "programa Fórmula de la noche." Parallel stream. [Battaglino-CA]
- 1520 **MEXICO** XEEH San Luis Rio Colorado, Son. NOV 7 0150-0202 - Loud at times with Spanish music and multiple "La Primera" IDs between songs. "La Primera en San Luis Rio Colorado, México" noted at 0202. Listed at 250 watts nights. [Battaglino-CA]
- 1660 **PUERTO RICO** WGIT Canovanas OCT 31 0058 - Religious program with male speaker. Very good signal. [Beu-TX]

#### TRANS-PACIFIC DX

- 747 **JAPAN** JOIB, NHK2, Sapporo OCT 19 1202 - Weak signal but could detect audio from man and woman in discussion. [Beu-TX]
- Transpacific carrier search:* NOV 11 1259-1308 - As I am awake around local sunrise: 612, 702, 747, 774, 828, 882, 972, 1242, 1503, 1566 kHz, i.e. the usual suspects from Au/NZ and Japan/S.Korea. Most of these were at the very margin of inaudibility. [Hauser-OK]

**Prologue****Nick Hall-Patch** - Victoria, British Columbia

This was my third PEI DX'pedition, and the second to the "Listening Waters" site, this time rejoining the three DX'ers from my original trip to Howe Bay in 2012, PEI's own Brent Taylor, Bruce Conti from New Hampshire, and Niel Wolfish from Toronto. It was great to have Brent as a full time partner in crime again, and to benefit from his local expertise, as he has had a lot of work responsibilities in recent years that have kept him away from the DX'pedition dials. Not to say that there wasn't a lot of "local" expertise from Bruce and Niel as far as the available DX was concerned; I was the outlander here.

Our approach was to do live listening (while recording) when things first started to fade in before 3 p.m. local daylight time (that's 1800 UTC, about 3 hours before local sunset) with occasional hand waving and/or expressions of glee when something worthwhile turned up. Normally, the top of the band would fill up with DX first, with the 9 kHz channels filling in at lower frequencies as time went on. We'd often go on with various breaks until 9 p.m. or later, then reappear before 7 a.m. local (1000 UTC) for any transpacifics, just as the last British TA's faded out. As with the previous two visits, I was overwhelmed by the DX on offer, and really need to do this more often in order to be better prepared for handling the bounty.

We do occasionally get "over the pole" DX from Europe and the Middle East out on the west coast, but because it's usually fleeting, we rarely have the luxury of top of the hour ID's. I'd hoped to research ways of identifying any audio that might be heard back home. That meant investigating things like Iranian web streams (Iranian websites being a fascinating topic in themselves), and looking for parallels, both on site, and through remote SDR's in Europe and Asia.

Also, if we can do over the pole from the west coast, why not from the east coast? In this vein, I'd separately shipped, and brought with me, to the financial benefit of both the post office and the airlines, the makings of a large Delta Flag phased pair, to be aimed due north. The owners of the house had helped the situation by recently clearing a large amount of brush on the property, so there was room for an antenna with a footprint of 250 feet.

Although geomagnetic conditions were not favorable, we did nail several east Asian signals over several mornings, and perhaps there may be one or two more on the saved files. We also logged an Australian on a couple of mornings, 4BC on 1116, my first from PEI. Although not "over the pole" (the path grazes the south edge of the auroral oval), this was fine, very long haul DX, and only possible with the array, as 4BC was in the null of the other two antennas.

**Brent Taylor** - Stratford, Prince Edward Island

Listening Waters 2019 was a stellar experience, and delivered all I wanted to see out of a DX'pedition. This was the first time in many years that I was able to be a full-time participant - taking the week off from work to devote to DX'ing. The only night I missed was Wednesday, as I went back in to Charlottetown for my weekly university class.

The DX'pedition was great fun. It was a pleasure to operate with such a talented and knowledgeable crew in Bruce, Niel, and Nick. Bruce's efforts at noise reduction paid off once again, and we had a very quiet band to listen to. Nick's phased antenna array worked like magic, and Bruce's 2000-ft Beverage delivered MW signals from the other side of the world. Neil's encyclopaedic knowledge of stations and formats never ceases to amaze me.

My long-lasting memories from 2019 will be the catches we made of Rajkot, India on 1071, Urumqi, China on 1521, and Brisbane, Australia on 1116 kHz. Later in the week the ionosphere went quieter and allowed some northern path signals to make it into our listening location. The most fun I had was Thursday and Friday nights knocking off many low-powered local stations in England and

Scotland, as well as the Isle of Man - some transmitting with only a couple of hundred watts on frequencies that had multi-kilowatt competition from the Middle East and continental Europe.

Of course, we had some power outages and some other minor snags, such as a finicky internet connection at times. It reminded me how important an asset a good internet connection is when DX'ing live - allowing real-time checks of web streams from stations to confirm reception.

I'm looking forward to the future. If our rental location is sold (it's now on the market) we may not be able to return here next year - but I am sure we can find a great alternate if we need to. PEI is full of great coastal properties. Maybe we can find something on the north coast with great sea exposure for over-the-pole and deep Asian signals.

### **Niel Wolfish** - Toronto, Ontario

Listening Waters 2019. It was like déjà vu all over again. Another great week of DX'ing and camaraderie. It was especially nice this year to have our host and organizer Brent Taylor be present with us for nearly the entire week. As an added bonus Brent's wife Janice provided us with sustenance in the form of delicious lasagna.

As always, the event would not have been possible without Nick and Bruce's antenna expertise and deployment. And it was handy to have Nick's fishbarrel program and TP/DU proficiency present. For me it was a thrill to hear my very first ever audio from Down Under. And, hearing China on 1521 and India on 1071 never gets old.

No trip to PEI would be complete without a power outage. Fortunately, this time it happened while Nick, Brent and I were ordering lunch at the Montague Pizza Delight restaurant and it seemed to impact the entire town. By the time we had given up on getting lunch and had returned to Listening Waters the power had come on. So no DX was missed.

Hard to believe that this was my 10th visit to PEI going back to 2008 and the 6th visit to Listening Waters in Murray Harbour North. Hopefully if the owner does sell the cottage we will be able to find another suitable location on the island as I think 2020 would be incomplete if I was not able to return to PEI. In the meantime I still have many recordings to review which will keep me entertained on those evenings when I can't stomach the noisy and congested Toronto radio dial. Thank you again to Brent for organizing!

### **Bruce Conti** - Nashua, New Hampshire

It's always great to get together with fellow AM broadcast DX'ers, especially in a spectacular setting like the coastal Listening Waters site, although sad to think about this possibly being the last Listening Waters with the property up for sale. So we made an effort to close this chapter of the Prince Edward Island DX'peditions with some of the best DX yet. Nick was determined to capture over the pole signals with his phased pair of Delta loop antennas aimed north, and it was a successful effort with reception of China, Japan, and transpacific Australia. I wanted to aim for South Africa and tropical transcontinental DX, erecting a terminated Delta loop with its wide cardioid beam aimed east/southeast to capture as much as possible without too much North American interference. It too was a success, adding Ecuador, Paraguay, and South Africa among others to the logbook. Also phasing the Delta with the Beverage helped to null domestic interference, with the exception of Newfoundland signals like VOXM, VOWR, and VOAR in the path of course.

As Brent awkwardly put it, Niel is "the oldest" member of the Prince Edward Island DX'peditions. He's been with the crew since its inception when the first events took place at Miscou, New Brunswick, before moving to the island. I joined the island team in 2009 at Priest Pond, then Savage Harbour and Howe Bay, before we landed at Murray Harbour North. The next chapter of these DX'peditions could return to Listening Waters if under new ownership it remains a rental property, or we may look for a new site, perhaps on the east facing shore of the island's northwest coastal drive. As Sherlock Gnomes said, quoting Dr. Seuss, "Today is your day, you're off to great places, you're off and away, oh the places you'll go!"
