DEDICATION

The Pacific Log is dedicated to the memory of Albert Mervyn Branks 1906-1978 who was a good friend to all and an excellent teacher of medium wave DXing Techniques. Merv had over fifty years of experience behind him and was editor of the 'Pacific Asian Log' (PAL) in the fifties. He was a founder and Life Member of the New Zealand Radio DX League. His outstanding achievements will long be remembered.

ACKNOWLEDGEMENTS

The editor would like to thank the members of Southern Cross DX Club and New Zealand Radio DX League for their untiring efforts and co-operation in gathering material for this log.

FORWORD

Pacific Log was born out of the need by North America DXers for a complete list of Pacific changes. It is no secret that the mould has come from the National Radio Club's (U.S.A.) "Domestic Log" which is a magnificent document in its own right.

Accuracy of the Pacific Log cannot be guaranteed as changes by dissatisfied broadcasters of their channel allocation can be expected. The editor cites the examples of 2YZ Napier and ZK1ZC Raratonga on 630 kHz. 2YZ you can be sure will trounce on ZK1ZC's night time signal in the outer Cook Islands. Also the case of 7HO Hobart and 4ZA Invercargill on 864 kHz where daytime interference can be expected in winter months to each others secondary target areas.

Any changes that occur in the Pacific region will be printed in the 'DX POST', publication of the "Southern Cross DX Club", the address of which is printed at the rear of this log.

Your editor wishes you many happy hours at the dial. Here is the PACIFIC LOG use it in good health!

HOW TO USE THE PACIFIC LOG

All times used are in Greenwich mean time.

COLUMN ONE: Gives station call sign where there is one.

For Australian stations numbers indicate state or territory in which the station operates: 2 = New South Wales + Australian Capital Territory, 3 = Victoria, 4 = Queensland, 5 = South Australia, 6 = Western Australia, 7 = Tasmania, 8 = Northern Territory.

For New Zealand stations numbers indicate 1 = Northern Region of North Island, 2 = Southern Region of North Island (except for 2YX, 2ZN & 2ZE which are at the top of South Island), 3 = Northern Region of South Island, 4 = Southern Region of South Island. 'X' call stations are privately owned and have commercials too, except for 4XD 1431.

For U.S. trust territories 'W' calls are government stations run by the Department of Interior or the Military. 'K' calls are privately owned stations.

Symbols in this column are:

@ indicating stations are synchronised and never break except for Japanese NHK stations which give their individual call when S/on and S/off

* Construction permit. Station not yet on air.

COLUMN TWO: Gives town or city for which the station is licenced. In the case of Australian, Hawaiian or U.S. Commonwealth/Territories a "Post Code" or "Zip Code" follows: If no code in this column then stations address is in another town. This is found in the address column.

COLUMN THREE: Gives country from which the station transmits

A = Australia, CH = Christmas Island, CI = Cocos Island, CK = Cook Island, EI = Easter Island via Chile, F = Fiji, GL = Gilbert Islands, GU = Guam, I = Indonesia, J = Japan, LHI = Lord Howe Island, M = Northern Marianas, MID = Midway Island, NA = Nauru, NC = New Caledonia, NI = Norfolk Island, NU = Niue Island, NZ = New Zealand, O = Tonga, PH = Philippines, PNG = Papua & New Guinea, SA = American Samoa, SO = Solomon Islands, SW = Samoa Western, TA = Tahiti, TI = Thursday Island, TT = U.S. Trust Territory of the Pacific, TU = Tu'Valu, V = New Hebrides, W = Wake Island, X = Phoenix Island.

COLUMN FOUR: Power of transmitter in kilowatts, A "d" after this figure indicates a directional radiator used. Major power lobes indicated (where known); eg N/S = pattern is an "8" and power going North & South. No "d" indicates transmission is omnidirectional.

COLUMN FIVE: Network or news service.

A1 = Australian Broadcasting Commission (ABC) Metropolitan "Radio One".
A2 = ABC Metropolitan "Radio Two".

A3 = ABC Regional "Radio Three".

National news at 2000, 2045, 2145, 0300, 0900, Radio 1

COLUMN SIX: Stations mailing address. For New Zealand reports must go to station concerned. For Australian ABC reports may go to station concerned but a verification is most likely to come from the capital city office.

COLUMN SEVEN: Time zone in hours ahead of or behind Greenwich Mean Time. Daylight saving is practiced in Australia & New Zealand during Southern Hemisphere's summer months (not all Australian States participate). Daylight saving starts on the last Sunday in October and ends on the first Sunday in March. New Zealand moves to G.M.T. + 13; New South Wales, Victoria & Tasmania to G.M.T. + 11; South Australia GMT + 10½; Queensland, Northern Territory & Western Australia do not participate in daylight saving and therefore clocks in those states are not advanced. Stations in New Zealand and those Australian States participating in daylight saving sign on one hour earlier and off an hour earlier with the exception of 2MW 973 which extends its schedule by one hour (1800-1400). 2MW broadcasts to Queensland's Gold Coast as well as the Tweed Valley region of New South Wales.

COLUMN EIGHT: Hours of operation in G.M.T.

- e.g. 1900-1400 Monday to Friday
 1900-1500 Saturday
 2000-1300 Sunday
 or 1900-1400 Monday to Saturday

REQUIREMENTS OF A RECEPTION REPORT

88.

To obtain that much valued QSL Verification Card from the logged station you must provide the Chief Engineer with sufficiently detailed material to prove to him that you did indeed catch his signal. He will need to know the following facts:

i. Date of reception

ii. Time of reception in his time or GMT

iii. Frequency

iv. Program details: this is a most important item. Give him as much verifiable material as possible so he can check it against his log. Commercials are most useful in this case. Network information is also

very useful.

Other points to watch are: never demand a QSL Card, avoid using unfamiliar codes such as Shortwave S.I.N.P.O. Be sure to tell the Station Engineer Technical points such as interference, signal quality and fading. The type of receiver and antenna is also of interest. Be sure to include location of reception as you may have created a record in distance. Return postage usually in the form of that countries mint stamps is most appreciated and a prepared card will also give you an edge.

Good hunting

SOUTHERN CROSS DX CLUB (INC.)

OFFICIAL ADDRESS: G.P.O. Box 336, Adelaide, South Australia 5001 Australia

The "SOUTHERN CROSS DX CLUB" (incorporated in South Australia) was formed in June 1973 and has a current membership derived from all Australian states as well as several overseas countries.

The club is affiliated with "The Wireless Institute of Australia" (South Australian Division) and is an observer member of the "European DX Council".

Membership is open to all interested persons. Simply complete the enclosed application form, and send this, together with your subscription to the Membership Secretary (address above). The subscription is \$A5.00 per annum, (Pensioners and Students under 18, pay \$A3.50). In addition, there is a \$A1.00 joining fee for all new members, payable only the once.

When sending your subscription, please remit by Postal note, Money Order or Personal Cheque (if residing in Australia). Overseas members are invited to subscribe their annual fee by Bank Draft, International Cheque or International Money Order.

All new members receive (free of additional charge), a copy of the Copyright publication "English Shortwave Stations Audible in Australia", as well as a copy of the European DX Council's comprehensive "Reporting Guide". A copy of the constitution and other information of interest is also sent upon joining.

The main object of the club is to promote the hobby of Radio DXing in its various forms amongst people who regard a hobby as a means of relaxation. No attempt is made to direct members in their approach to the hobby, but the monthly magazine "DX POST" does carry frequent articles aimed at beginners, in an attempt to increase their understanding and enjoyment of the hobby of DXing.

Each month (except January) the Adelaide members produce "DX POST" which contains a variety of items. Some of the regular features include "Arthur Cushen's DX World"; station news from all sources including the BBC Monitoring Service; Verification information; a Medium Wave section compiled by the best MW DXers in the country; and our major feature the SHORTWAVE SURVEY of members SW loggings as heard during the past month. Contributions are welcomed from all!

Contributions are quite voluntary, but it is hoped that the informal and friendly basis on which the club is run will provide the incentive for members to contribute articles and matters of interest whenever possible. Any contribution on medium wave, utility or the amateur bands as well as commercial - shortwave, are welcome. Original articles are particularly sought, even articles with a semi-technical nature.

Adelaide members hold regular monthly meetings at the Wireless Institute Headquarters building at the Thebarton Council Depot, West Thebarton Road, Thebarton; on the last Friday of each month (except December). Activities of other states will be publicized to ensure a maximum attendance.

We would be pleased to answer any of your questions.
