THESE SPECIAL DX'ers and SWL's

David Sharp, Editor

17602 Meadowbridge, Lutz, Florida 33549

Deadline: 12th of month

Hello folks. Amid the summer heat and doldrums are several members, who have earned a place on the top of the page. Let's give a big welcome to fifteen new Full Members!

FORREST BISHOP....NY
MARION BLANCHETTE..FL
WILLIAM CAMPBELL...CT
MIKE DECKMAN.....CA
ANTHONY FALBO.....OR

TED FLEISCHAKER...KY
ROGER GAMMON.....AU
WAYNE HEINEN.....CO
KATE HITSMAN.....IA
MIKE MANDERSCHIED.CA

MIKE NEUVERTH.CO
EVAN NEWLON...NM
NEAL PURDUE...AL
SCOTT SCHMAUTZ.NY
BARRY WARD....NE

Y'all done a great job. Hope you enjoy the Full Membership Certificate!

This month, we say howdy to 35 new and rejoining members.....

Greg Jordan, GASTONIA-NC
Glenn Lynd, WEST COVINA-CA
Jack C. Kennedy, CHESTERFIELD-MO
Joel Goodman, STANWOOD-IA
Richard McNamee, RIVERSIDE-NJ
Melvin Flannagan, CHA-VILLE- VA
Ralph A. Rosere, DARTMOUTH- CAN.
Barton Emanuel, ROCKPORT-ME
Richard Bobinski, AUBURN-NY
Clifford Reiquam, TIBURON-CA
SSgt Harrison Brooks, APO NEW YORK
Dan Morisseau, AUBURN-WA
William Wernly, LANCASTER-TX
Janet E. Ainsworth, NEW ORLEANS-IA
Arthur D. Cobb, NEW HARTFORD-NY
Michael Corcaran, MONTELLIER-OH
Alex Danilescu, CHERTSEY-PQ

R. Shreedhar, MADRAS-INDIA
Al Quaglieri, ALBANY-NY
Alan E. Hills, VANCOUVER-BC
John Pawluk, RIALTO-CA
Ernie House, MT. VIEW-CA
Guy Gilley, MANCHESTER-TN
Jean Boucher, ROCK FOREST-PQ
George Lehner, TAMPA-FL
Herb Shatz, REGO PARK-NY
Joseph Conroy, PITTSBURGH-PA
Clinton Gilbert, SAGINAW-MI
Dan Ortega, GARDEN GROVE-CA
Tom Fleming, SARASOTA-FL
Jeanne Ferrell, PARK RIDGE-NJ
John Gunter, DURHAM-NC
Harvey Miller, NEW ORLEANS-LA
Douglas Zielke, PT. COQUITLAM-BC

Thomas Yingling, BALTIMORE-MD

Once again, congratulations to our 15 new Full Members, and a warm welcome to the 35 new members. By the way, folks, if you'd like to have your name on the top, just start contributing to your favorite columns. Material sent direct to each editor must be in his hands by the 12th of each month. However, if you have better things to do with your money than to spend it on postage, SPEEDX can help. You may send ALL your material and contributions to our Central Distribution Editor, "Perky" Peggy Thompson, whose address is on the back cover. Make sure contributions are sent her way by the SIXTH of each month, so she can forward them to the individual editors. Whichever route you choose, we hope to see your name in SPEEDX. It's really lots of fun!

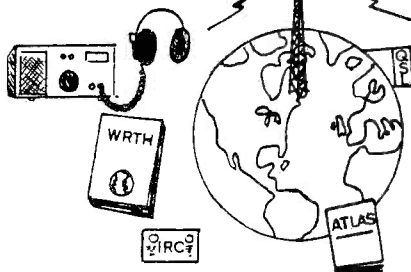

A THOUGHT TO FORGET: Success is the reward to those who put forth an effort.

CUN DX
Montage,

73s, David.

deadline: 12th of the month

SEPTEMBER, 1984

Hello friends, and welcome to another DX Montage. Don't know about you folks up north, but here in Florida, we're still suffering from near 100 degree heat. And the humidity isn't anything to brag about, either. I guess that's what living is all about here in the great Southland. As with last month, Rick has given me an extra page, so I hope to include a few more of your longer articles and contributions. Let's get right to them.....

Western Hemisphere editor John Cereghin is starting work on the Guide to Latin American DXing. We need volunteers to do research, submit information and articles, and to type. If interested in working on this project in one form or another, send an SASE to John. Check his Western Hemisphere column for his current address. For those of you who indulge in Dark Continent DX, yours truly is compiling the Guide to African DXing. It will include station features, and articles on clandestines, languages, and musical instruments common to Africa, plus QSLing and much more. If you can lend a hand, drop me a line. As with both guides, everyone contributing will receive membership points and recognition in the credits. ds.

Latest news from Managing Editor Rick Drollinger is that volunteers willing to do columns are still needed. Remember, those who edit receive a free sub to SPEEDX, plus other freebies. So, if you're interested, drop Rick a line, stating qualifications and columns you are willing to edit. His address is: 9529 West Sarasota Place, Milwaukee, WI 53222.

2nd Annual SPEEDX Shortwave Popularity Poll is in its final months, so if you have not participated, please do so now. Needed is a list of your favorite programs, stations, and personalities. To answer a question from Lori Klosowski of Sarasota, FL...yes, foreign language programs and stations may be nominated. Remember, this is your poll, designed to reflect what SPEEDXers want to hear on shortwave. Whether your favorite station is the VOA or Radio Nibi Nibi, your choices will be welcomed. All who participate will get a membership credit. Final results of the poll will be presented in these pages in November.....ds.

Hobby Meets: The Central KY DX Association is scheduling a meeting for Sept. 22. Open to those who DX SWBC, BCB, and Utilities. If you live in KY, southern OH or IN, you can obtain more information by calling Mark Bryant, at 606-272-7060, or Loy Lee, at 606-622-1657, from 2300 to 0500 GMT. (Thanks for a most enjoyable call, Mark! ds.) For those of you in Colorado, the next CO Shortwave and BCB/MW meeting to be held in the Denver area will be on the 30th of Sept., from 1600 to 2200 GMT. For more information on this meeting, write to: Rob Harrington, P.O. Box 3434, Littleton, CO 80161.

Interesting Development at Radio Sandino: The organization USOCA (US Out of Central America) has cooperated with the Nicaraguan task force, Westside CISPEs (Committee in Solidarity with the People of El Salvador), and radio station KPFF (L.A.) to disassemble and transport a 15 kW xmtr being donated to R. Sandino in Nicaragua. The Archbishop Romero Fund provided trucks to take the xmtr to the OXFAM ship that transports supplies to Nicaragua. (Tks to Doug Ulmer-LA for forwarding this from the June Central America Alert.ds)

Ouagadougou is still there, but Upper Volta isn't: The military leaders of Upper Volta, who seized control of the country last year in a pro-Libyan coup, celebrated their first anniversary of power by changing the national anthem and name of country on August 5th. The country is now known as Bokina-Fosso (this is presumed spelling as taken from a Radio Australia newscast, ds.) As of present, the status of their SW station isn't known.

DXM Station Review: Radio Mayak: The term "hot line" is taken literally by the members of Mayak's staff. News is broadcast two or three minutes after coming across the teletype while the takes are still warm. Information supplied by Mayak correspondents and by TASS pours in from a hundred Soviet cities and from all around the globe. Stenographers are constantly busy taking down phoned-in stories. A three to five minute newscast has to be put together from a huge amount of material. This is the editor's job.

"You can't prepare a broadcast with just the average listener in mind," Marina Shmekova, a senior editor at Mayak said. "You've got to work around a specific audience. The programming is geared to listeners at home. Our editors work around the clock, in shifts. During my shift, when I select material for broadcasts, I try to imagine a warm apartment where the mother is preparing dinner, the father and son are playing a game of chess and our program is on in the background, adding to the home's atmosphere. But when the news comes on, it's up to me to orchestrate the broadcast in such a way that the family turns up the volume and forgets what they were doing for a short while."

After the news items have been selected for a broadcast, they are revised by the editor in chief. I didn't have to ask editor in chief Vladimir Oleinichenko my usual question "What's the most difficult thing about your job?" before I realized what was going to be the most difficult for me—finding a moment when he would be more or less free for an interview.

His office looked like a film running on fast forward. Reporters and editors kept running in and out. Teletype pages several yards long floated over the desks followed by small sheets with writing on them. The newscast was to go on in ten minutes. The imperturbable Oleinichenko looked like an experienced sea captain in a storm. On the dot of 2 P.M. the broadcast began. Oleinichenko had four minutes to spare for my interview.

"So it's captain now? I see. My colleagues and I have been compared to orchestra conductors and stage directors. All are apt comparisons. We coordinate the work of our departments, choose what is most important and order material for the next program. (With the news) we cover both big things and little things. Once I noticed the tiny yellow flowers of a coltsfoot in bloom. So I requested a commentary from a phenologist. The first flowers, the coming of spring. Isn't that an important piece of news?"

At that point, someone broke in with new material that would have to be read on the air. In a few minutes, the announcer on duty, Vladimir Kostylev, would be alone with millions of listeners. For eight years now, I have heard his voice on the radio, and thought he was an elderly gentleman. But the man I met was young and energetic. "What you need at Mayak is a friendly voice and an air of confidence," he told me. "We're not here to read in a dispassionate manner. We have the right and every opportunity to express our feelings about the text."

During every 24 hour period Mayak broadcasts 59 news updates for all 11 time zones in the Soviet Union. Early in the morning there is the International Chronicle, the Pravda Political Observer's Commentary, summaries of news, and in the evening, special programs for commuters can be heard. Although Mayak will soon be 20 years old, many of the original staff members are still here. Does Mayak ever change?

"The program changes just as we change," remarked Nina Skalova, deputy editor in chief. "The arrangement of broadcasts is different now, with the most important information aired in the morning. The treatment of the material has also changed. It's our aim to give our listening audience a sense of participating directly in events." This interview came to an abrupt end when Skalova had to look through material for a new broadcast without further delay. (Obtained from a March, 1984 Soviet Life article by Tatjana Basova. Many thanks to Frank Pagano-DC and Mike Harris-OH, for sending this in. ds.)

Monitors Needed: Peter W. Knightes informs us that the BBC currently needs people to monitor their signals in Alaska, Western Canada, and NW U.S. If you're interested, send your name, address, and geographical coordinates (if known) to Peter at: 2402 Custer Cir., Killeen, TX 76543. Also, Radio RSA is looking for monitors. Write to Colin Miller (P.O. Box 4559, Johannesburg 2000, South Africa) if interested. Tell them SPEEDX sent you their way. (Via Jack Sanderson in Arizona.)

The USPS vs The World, By: Vincent Hevern, SJ-NY: The lovely 450th anniversary- Jacques Cartier QSL card arrived with the RCI J84/S84 sked. You filled it in for verification and, then, got an envelope to mail it off to Montreal. It didn't quite fit. Your envelope is a tad over 4 inc es tall and the QSL is 4 1/4 in. high. Why? Did the same committee which plans the almost indecipheral RCI sked booklet also pick the wrong size for their QSL's? No, as I learned from M. Andre Vermette in a letter from Canada:

"Our QSL card is standard size, negotiated through international agreement. It fits into an international-size envelope, like the one you just opened. Since the U.S. has decided not to adhere to the international system of weights and measurements, our QSL would not fit into your standard size envelope. Your problem is one which is shared by many listeners." Aha! So that's why London Calling may be so long and all sorts of skeds don't fit into a 3-ring binder and so on.....Thanks to RCI's friendly followup to a puzzle. Their QSL isn't 4 1/4 in. high; it's 10.8 cm tall! (Tks, Vincent, for sending this in. Latest score is: USPS 0, the World 1, hi! ds)

The Program Guide, published by Miller Publishing, is now a monthly magazine. Providing excellent features and news for the DXer, The Guide is available for \$19.95 per year. If you have not yet seen this publication, sample copies may be obtained for .37 in the U.S.; .70 or two IRC's in Canada, and 7 IRC's overseas. For additional information, write to Larry Miller at: 424 West Jefferson St., Media, PA 19063.

Pin the Tail on Ye Ed: Last month, I wanted to know the colonial name for Vanuatu. The answer in New Hebrides. Winner of the Clandestine Confidential book is Richard D'Angelo-PA. Now, here's the 17 other winners, who will get a membership credit, plus a consolation prize in the mail: Greg Jordan-NC, Glenn Miller, Jr.-TN, Gayle Van Horn-TX, Steve Leite-MA, Andrew Smith-SC, Dave Robertson-WA, Peter A. Szabo-KS, Robert Adams-MA, Peter Card-MA, Mike Schulsinger-OH, Bryan Sharpe-CA, John Kapinos-MA, Gary Bledsoe-FL, Virginia Macrie-NJ, Lori Klosowski-FL, John Walters-NJ, and Wally Burbank-FL. Whew, quite a list, folks, and certainly a record amount. Almost thought I'd have to steal another page from Rick to list all the names, hi! Since last month's contest was so popular, here's another: Which country was formerly known as Southern Rhodesia? First correct entry to receive a \$10 prize. All who enter will receive a membership credit. ds.

Social Gathering of FL DX'ers: You've waited patiently for over a year, and now the time has come. In late September or early October, situated amongst the beautiful and picturesque orange groves of Lutz, FL, will be the first, and hopefully annual Florida DX Outing. No final plans have been arranged, but if you're interested, drop your friendly editor a line. Or, you can call me at home from 0200 to 0400 GMT at: 813-949-4847 (please, no collect) I hope to hear from you soon! ds.

Part Two in a Series: Communications in Mauritius: In August, we discussed advances made in television broadcasting. This time, we are going to examine the radio services on the island.

Much of the programming on the MBC is produced locally but some special entertainment and educational programs are obtained from sister broadcasting organizations, networks, and producing companies. These include well known serials, dramas, musical entertainment, and the like.

It is the duty of the program section to ensure that a fairly balanced output is maintained on radio to serve the Corporation's important objectives and to meet the varied audience needs and preferences.

Events of national importance are covered live on radio and, on special occasions, even international events are brought live to the listeners in Mauritius through communication-satellite-linked international relays. Important cultural, religious and sporting manifestations are also covered via microwave. The MBC has been encouraging public participation programs like song competitions, quizzes, and community action programs to stimulate mass interest and involvement.

Keeping in mind the fact that a large section of the public speaks oriental languages like Hindi, Urdu, Tamil, Telegu, Gujrati, Marathi and Chinese, the MBC program schedules specially feature several programs in these languages. Such programs emphasize the cultural heritage and richness of each ethnic group.

The Corporation has a special staff of producers and presenters competent in the various languages and also draws upon a panel of free-lance contributors for various types of programs. The MBC allows for commercials on its broadcast services. Besides spot advertising, sponsored programs are also put out. But care is taken that program interests are not adversely affected. (Tks to the MBC for helping make this series possible. We'll continue our discussion next month. ds.)

PROGRAM

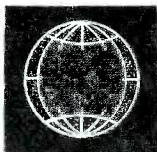

MAY 1983

WOODY SEYMOUR, JR.
P. O. BOX 848
SANFORD, NC 27330

PANORAMA

FROM THE EDITOR'S DESK...Thanks to the many SPEEDXers who responded to my request on the December 1982 issue of Popular Communications in a recent column. A special thank you to Frank Pagano of Washington, DC, who sent a copy of the magazine to your editor. Thanks one and all!...
....Speaking of Washington, DC, I hope that many of you will attend the 1983 ANARC Convention July 15-17 in the Nation's Capital. I plan to attend the convention and look forward to seeing many of you there!

AUSTRALIA...Now that Daylight Savings Time has once again returned to the USA, late risers in the East (like your Editor!) can enjoy the North American beam of Radio Australia's English Service from 0700-0900 EDT (that's still 1100-1300 UTC) on 9580 kHz. Some of the programs that can be enjoyed on weekends are: Fri 1110 AUSTRALIAN INSIGHT 1126 STOCK EXCHANGE 1130 AUSTRALIAN NEWS 1140 LETTERS TO THE EDITOR 1212 FOUR CORNERS; Sat 1110 AUSTRALIAN EDITORIALS 1130 AUSTRALIAN NEWS 1140 PROFILE 1210 DUNSTAN'S DIARY 1240 AUSTRALIAN INVENTOR; Sun 1110 BUSINESS WORLD 1130 AUSTRALIAN NEWS 1140 BODY PROGRAMME 1212 REPORT FROM ASIA 1240 YOU ASKED FOR IT. (Taken from a complete listing of Radio Australia's feature programs in the May 1983 issue (#76) of Review of International Broadcasting. Thanks to Kraig Krist for sending the latest RA schedule to Program Panorama!)

FAKLAND ISLANDS...The Falkland Islands Broadcasting Station has been widely heard recently on 3958 kHz at 0859 UTC sign on. A new Breakfast Show has been introduced, with a relay of the BBC news at 0900, Review of the British Press at 0910 and local weather at 0915. Then follows the latest in British pop music with professional-sounding announcers. The programs are designed to entertain the British forces as well as the local residents. (New Zealand DX Times in Sweden Calling DXers #1731)

FRANCE...Radio France International has begun Daily Newscasts in the English language to the Indian Ocean region and East Africa from 0415 to 0430 and 0445 to 0500 UTC on 7135, 9795, 11735, 11875 and 15155 kHz. (Heard over RFI by SPEEDXer Mike Fisher of WI)

MOZAMBIQUE...The External Service of Radio Maputo broadcasts in English twice daily. A half-hour program can be heard from 1100-1130 UTC on 9525, 11820 and 11835 kHz. The NEWS can be heard daily at 1100, followed by a feature program(s) at 1110: Mon CLOSE-UP Tue POSTBOX 2000 and STOPWATCH Wed ROVUMA TO MAPUTO Thu COMMENTARY and MOZAMBIKAN MUSIC TODAY (to 1140) Fri WEEKLY SERIAL Sat POSTBOX 2000 and THE WORLD IN FOCUS Sun THE CHANGING FACE OF MOZAMBIQUE. CLOSEDOWN is at 1130 except on Thu, when programming extends to 1140.....The second daily transmission begins @ 1800 UTC on 3265, 4855, 9620 kHz. The first item heard is NEWS, followed by: Mon 1810 POSTBOX 2000, 1819 STOPWATCH, 1830 CLOSEDOWN; Tue 1815 SPOTLIGHT SOUTHERN AFRICA, 1830 CLOSEDOWN; Wed 1810 COMMENTARY, 1815 ROVUMA TO MAPUTO, 1835 SONGS OF STRUGGLE, 1852 NEWS ROUNDUP, 1900 CLOSEDOWN; Thu 1810 THE CHANGING FACE OF MOZAMBIQUE, 1830 CLOSEDOWN; Fri 1810 POSTBOX 2000, 1819 THE WORLD IN FOCUS, 1830 MOZAMBIKAN MUSIC TODAY, 1852 NEWS ROUNDUP, 1900 CLOSEDOWN; Sat 1810 BOOKSHELF, 1830 CLOSEDOWN; Sun 1810 CLOSE-UP, 1835 WEEKLY SERIAL, 1852 NEWS ROUNDUP, 1900 CLOSEDOWN. (Thanks to SPEEDXer Michiel Schaay of Doorn, HOLLAND for this information.)

Do you have a favorite station or program? If so, we would like to hear from you at Program Panorama. We would also like to hear from you if there are stations or programs that you find less appealing. Be sure to contribute today!

In July DXM, we carried an article concerning an experimental station in New South Wales, Australia, VL2UV on 1692 kHz. At 500 watts, we noted that this station would be an exceptional catch. Through member Richard D'Angelo-PA we are informed that the station has been heard in North America. The following is an excerpt from Glenn Hauser's Listener's Notebook:

"During a DXpedition to Seven Mile Flats, Alberta, 70 km SW of Rocky Mountain House, using a kilofoot beverage, VL2UV, University of NSW, Sydney, was hrd on 1692 kHz, 16/5 0912, good ID 0957; 1000 lecture/discussion pgm; still in at ST0 242 at 1030, virtually gone by 1100; again 17/5 but no audio." So, that just goes to prove that almost anything can happen on shortwave. By the way, congratulations to Don Moman, who made this extraordinary catch! ds.

Member Ruth Hesck-NY says a source of parts and accessories for JVC, Hitachi, Panasonic, Quasar, Sharp (my favorite brand, hi! ds.) and Sony products is Pan Son Electronics, P.O. Box 6251, 32-70 31st Street, Long Island, NY 11106. (Tks for your continual support, Ruth. ds.)

DXM Receiver Review: RF-B600. By: Jeff Elson-MO: The following represents my view of the RF-B600. I also own an R-2000 and an ICF-2002, so most comments reflect a comparison to them. Features: Keypad and knob tuning, 9 memory channels, 5kHz up/down freq. slewing, white fluorescent digital display; signal/battery meter, meter light on/off, display on/off, 1 kHz/100 hz tuning speeds, bass and treble controls, freq. lock, RF gain control, memory scan and band scanning, FM, SW, MW, and LW coverage; earphone, headphone, record, receiver mute jacks; internal battery and external 12v and AC power capability, antenna coaxial and clip connectors, telescopic antenna, carrying handle, stand-up bail, switchable noise blander, wide/narrow AM filters, 3 1/2 in. speaker; weight 10 lbs. 2.3 oz, size 14 13/16" W x 4 13/16" H x 11 1/2" D.

The RF-B600 is a dual conversion, synthesized, general coverage receiver in the R-1000 and R-2000 class. It offers AM, LSB and USB continuous tuning from LW through 30 MHz. Selectivity, sensitivity and stability are very good. I have noticed no drifting after months of extensive use.

The main advantages of the B600 over the R-2000 are: RF gain control, keypad tuning, multiple scan capability; simple portable operation using 8 "D" cells and separate bass and treble controls. The main disadvantages of the B600 relative to the R-2000 are: high impact plastic cabinet, no clock, no provision for CW crystal filter, small speaker and smaller control knobs and buttons.

The B600 is packed with convenient operational features. Perhaps the most enjoyable is the 4 way scan capability. By pressing a key one may program the B600 to: scan up and down in 5kHz steps until a station is found and stop, scan until a station is found and hold for approx. 2.5 sec. then resume (like the ICF-2002), manually step through a band in 5kHz steps by pressing the "up" or "down" key, or scanning of the preset frequencies contained in the 9 memory channels. All scan functions may be interrupted by pressing the "stop" key. Scanning does not function within the LW, MW or FM bands.

The only complaint I have about the scanning feature is that the scan operates over only a 300 kHz range from the starting freq., i.e. 150 kHz above and below the starting frequency. Since most SW bands exceed 300 kHz this can be a nuisance. Perhaps an example will further illustrate this point. Assume a starting freq. of 5000 kHz. If the "up" key is pressed the receiver will scan up to 5150 kHz then abruptly jump to 4850 kHz (5000 minus 150 kHz), scan to 5150 kHz and repeat the process. (Space limitations restrict printing of entire article; therefore, we will present the second half in October. Tks again to Jeff for sending this to DXM. ds.)

Well friends, this completes another column. As always, I was happy to present your information, and I hope you enjoyed the column. We had another banner month, with 62 contributors. Keep it up, friends! It's your contributions, attaboys and complaints which help to make this a better column. And, before I forget...happy belated birthday to John Trautschold. Hope you had a great day, John! Well, that's it for another month. Hope to find your letters and contributions by the 12th!

CRACKER COUNTRY: Ever wonder why Radio Beijing broadcasts Chinese By Radio? After all, who wants to speak Chinese with a "polar flutter?"

73s and
best,
David

PSST! TIPS 'N' TOPICS

EDITOR John Demmitt
Box A, K0848
Bellefonte, PA 16823

DEADLINE: 12th of the month

THIS IS YOUR COLUMN...As the new editor of Tips & Topics I would like to remind the readers that the column belongs to you. This is your column so please feel free to send in contributions of news clippings, announcements, tips and topics. I will attempt to use as much of the material as possible but it is up to you to supply me with that material so we may share it with the membership.

ABOUT YOUR EDITOR...As early as I can recall, radio has always been of interest to me. My teenage years were spent hanging out in the local TV repair shops. That experience provided me with a background in electronics allowing me not only to repair but to also build electronic equipment. Radio listening provided me with the greatest pleasure. I would love to scan the dial from one end to the other. I would read anything and everything pertaining to radio. I was hooked in a life of radio. While in the Air Force and later working as a police officer, I found myself DX'ing with government issued radio equipment. The DX bug bit me hard. There should be no doubt where my enthusiasm lies...radio...radio...radio. (ed)

FRENCH PUBLICATION. A bi-monthly newsletter devoted to French matters, including program schedules from RFI, RCI and others, newspaper & magazine articles, comments from readers, regular vocabulary columns in French on politics, media and place names and much more is available for only \$3 a year. A subscription may be ordered by sending a check or money order payable to Gail Krozak, 319 N. Yale - #2G, Villa Park, IL 60181.

SPECIAL EVENT HAM RADIO STATION. Nolan Stephany will be operating N2EAW/2 for Ganeodiyo Lodge 417 of the Order of the Arrow (Finger Lakes Council, Boy Scouts of America) in conjunction with the Western NY State Section II-C BSA Order of the Arrow conclave from Camp Dittmar in Phelps, NY which is located in Ontario County. Operation will be in effect Sept. 8 & 9, 1984 from 1200-0200 UTC on the frequencies of; 3910, 7290, 14290 for SSB and 3550, 7050, 14050 on CW at random. There may also be some novice 160 & 30m operations 20 KEZ from band/sub-band edges. Special commemorative QSL cards are available from; Nolan Stephany, N2EAW, 3369 Lake Road, Williamstown, NY 14589 or via the bureau providing a SASE & IRC are sent along with the reception report. (Nolan Stephany, NY)

NEW SECOND EDITION - SHORTWAVE DIRECTORY OFF THE PRESS. Shortwave Directory edited by Bob Grove is now in it's second printing after being completely updated and expanded. The publication contains domestic and foreign frequency lists which include military, diplomatic, foreign broadcasting, spies and lot's more. The publication is available from Grove Enterprises, P.O. Box 98, Brasstown, NC 28902 for \$12.95. (ed)

CLARIFICATION ON RECENT 2-PART ANTENNA ARTICLE.....

Those interested in constructing the antenna project Neal Perdue showed in the July & August SPEEDX should make the following corrections. Part 1, July SPEEDX, Page 7, (2) The last sentence of this paragraph means that the antenna is brought close to a ground rod, the antenna is soldered to the coax center-conductor at the rod and the shield is combed and attached to the rod. THEN, the coax is fed to the rx. Part 2, August SPEEDX, Page 8, (b) The Delta Loop is fed to the tuner or rx in the following manner: The combed coax shield is attached to the bottom leg of the antenna and the center conductor is attached to either of the semi-vertical legs at the lower corner. All three legs must be equal in length. Page 8, 9(C) Addendum: Perhaps the worst part of the possible damage to modern microchip receivers from static buildup is that the rig won't necessarily "blow-up" but the damage can be insidious. That is, deterioration of performance can occur gradually over a long period of time and unless you have another rx with which to compare, you can think "Conditions are poor lately". Indeed they are - in your rx! (Neal Perdue, AL)

KOL ISRAEL GOES BACK IN TIME. Kol Israel announced it was going back to standard time effective August 25th. All Kol Israel transmissions (International) in terms of UTC move back by one hour. (Ralf Munster, GA)

EASTERN EUROPE AND THE GAMES. It is 5a.m. in beautiful sowtown Budapest, Hungary. The morning drivetime DJ for Radio Free Europe, broadcasting from Munich 350 miles to the northwest, interrupts a Barry Manilow tune and cuts to..."Gyula Borbandi in Los Angeles!" Hungarian sports reporter Borbandi and five other Radio Free Europe sportscasters have been delivering 20-22 live reports a day in seven languages to their native East-bloc nations since the 1984 Summer Games began a week ago. Thanks to the Soviet boycott and blackout of the Los Angeles Games, reports from RFE reporters are the only regular live updates that are able to be heard of the LA Games in the Eastern bloc. RFE said that Romania's Radio Bucharest has a contingent covering the Games here, but that Radio Moscow and the other Warsaw Pact nations' broadcast entities are unrepresented. (The Boston Globe...John Fisher, MA)

IMPROVED HIGH FREQUENCY RADIOS. U.S. troops will be able to communicate reliably at extended ranges with a new family of high-frequency tactical radios. Three versions of the improved high frequency radios (IHFR) will operate beyond normal line-of-sight and over rough terrain, including desert, mountain and jungle environments. The radio family is an advanced design that combines totally automatic tuning with high performance in a rugged lightweight package. Units are constructed in modiles, which permits rapid troubleshooting and repair and allows for improvements to be added as new technology is developed. One radio is a 20-watt Manpack unit (AN/PRC-104) that is carried on a soldier's back. The second is a 20-watt radio (AN/GRC-213) deployed on vehicles. The third is a 400-watt high-power mobile command radio that provides communications over longer ranges. Hughes produces the radios for the U.S. Army. (Hughes...Al Smith, WY)

UNIVERSAL SHORTWAVE RADIO, 1280 Aida Drive, Reynoldsburg, OH 43068 is still accepting applications for the DX'ers Directory. (ed)

BACKSCATTER! Robert Horvitz continues to inform the shortwave community about the effects of the over-the-horizon radar system on the HF bands in his July issue of... BACKSCATTER. Issue #4 covers the following material..... Australia's "Jindalee" to be upgraded to an operational system. US Air Force's response to comments published in the Final Environmental Impact Statement for the West Coast system. Request for money to start building the West Coast system dropped from Fiscal 85 budget - perhaps as part of a deal enabling the USAF to finish the East Coast system without having to prove the system will work as claimed. USAF OTH system illuminated Soviet territory for years before appearance of the Woodpecker. Other US OTH systems sketched. BACKSCATTER is an occasional publication consisting of six pages on 8½x11 inch sheets and is devoted to informing the shortwave community about the developments in the field of OTH radar because the effects of some of these systems can cause interference to shortwave reception. An issue of the excellent publication can be secured by sending 30¢ plus a long stamped envelope which is self-addressed to Robert Horvitz, 54 East Manning St., Providence, RI 02906. The 30¢ may be in the form of stamps as long as they are mint US. Back issues of the publication are available at the same cost of 30¢. (John Demmitt, PA)

TECHNICAL INFORMATION FROM RADIO CANADA INTERNATIONAL. RCI has two very helpful information sheets to help the SWL in understanding harmonics and images and how to get rid of some of the unwanted signals. These data sheets contain simple-to-follow instructions in constructing your very own inexpensive PET preselector, low pass filter and two rejection filters. The informative sheets may be obtained free of charge from; The SWL Digest, Radio Canada International, P.O. Box 6000, Montreal, Canada, H3C 3A8. Ask for the sheets, The Problem of Unwanted Signals and Harmonics & Images. It will be of interest to beginners as well as the experienced. (Ruth Hesck, NY)

COMMUNICATIONS ISSUE - RADIO DIAL. This unusual publication contains 36 pages and is in a stapled booklet form which is a photocopy of typewritten pages. Editor Costa L. Constantinides has compiled a handy introduction of the subject of shortwave in general which would be especially useful in bringing those not familiar with shortwave into the hobby. Costa presents charts on frequencies, SINPO code, and one on the phonetic alphabet. He includes a sample log and lot's of addresses. He briefly discusses such topics as; selecting a receiver, writing the SW stations, antennas, interval signals, publications, radio clubs, skip, jamming, radio missionaries, IRC's and a lot of info on commercial radio in Southern Africa. Those interested in getting a copy of this publication should write for details to..... Costa Constantinides, 15 ST John's Road, Houghton 2196, Johannesburg, South Africa. (CI-RD...ed)

RECEIVER SHOPPING LIST & THE BOOKLIST are in their 7th printing, revised as of March 1984. Those having the older editions may wish to update their copies by contacting..... Jonathan Marks, Producer Media Network, English Section, Radio Nederland Wereldomroep, P.O. Box 222, 1200 JG Hilversum, Holland. These booklets contain plenty of handy information and provides for a handy reference for seeking facts about receivers and addresses for the various radio related publications. The booklets are free and should be at every listening post. (RSL&TB...ed)

EMERGENCY! Broadcast involving TMI was a test. A communications test pretending there was a radiation leak at Three Mile Island apparently upset a number of emergency band listeners. The broadcast over the Dauphin County (PA) emergency channel told of 600 millirems of radiation at the source and the need for everyone within two miles to be under shelter. Civil Defense officials in York County said they were advised in advance of the test, billed as a "Unit One Drill" but called TMI just to make sure it was a test. They said the radio test was part of a full scale drill in Dauphin County under the direction of the Pennsylvania Emergency Management Agency. Local officials said they received a number of calls from people who wanted to make sure the "emergency" was not real. (A clipping taken from the York Dispatch...ed.) (TMI uses a number of shortwave frequencies which provide for interesting listening. ed.)

TIME WORLD NEWSRADIO! Listen for it on the air. The world's premier newsmagazine premieres a WORLD NEWSRADIO service. From the Pages of Time, to America and to countries around the world, the Time WORLD NEWSRADIO service is on the air. On Time WORLD NEWSRADIO service, you'll hear cover stories, special reports and special editions. You'll get behind the scenes on a wide range of topics...from international politics to urban design, fine arts to computers, morality to medicine, literature to law. (Time...David Claytor, OH)

WEINBERGER ANSWERS QUERIES OF CALLERS ON BBC TALK SHOW. Some 400 callers from Europe, Africa and Asia as well as Australia jammed phone lines to the BBC World Service to ask Defense Secretary Caspar W. Weinberger about United States policies. Mr. Weinberger was the first foreign official to appear on "It's Your World", a program in which callers phone in questions to be answered by the guest. The program is broadcast worldwide by the British Broadcasting Corporation. (New York Times...Ruth Hesch, NY)

WORK RESUMES ON PROJECT ELF. The United States District Court of Appeals has overturned the injunction filed by environmentalist in Michigan to stop the US Navy from installing a high antenna system which would allow communications with submerged submarines worldwide on the extremely low frequency of 76 Hz. The Navy is now resuming the installation of the wire array strung on 55 foot poles along a 100 foot wide, F-shaped corridor in Marquette and Dickinson counties. (Monitoring Times...Bob Skwirsk, MI)

CUBA VOWS REPRISALS OVER RADIO BROADCASTS! Charging another act of US aggression, Cuba has vowed to respond with powerful counterbroadcasts when the Reagan administration begins beaming anti-Castro messages to Havana over Radio Marti. "We are preparing to respond at the level of the aggression," said Vice President Carlos Rafael Rodriguez. His comments raised the possibility of multiwatt Cuban broadcasts toward the United States with enough signal strength to cause interference to stations from Florida to the midwest. (David Claytor, OH from the Cincinnati Enquirer)

CUBANS SEEM SKEPTICAL ON RADIO MARTI'S AIMS. In a speech broadcast to Cuba over the Voice of America early this year, President Reagan said the object of Radio Marti will be to provide news simple and straightforward, telling the truth to the Cuban people about Cuba. Many Cubans interviewed believed that the station would create anxiety and uncertainty because it would probably transmit, "a lot of lies". Many felt it was simply an anti-Castro station. (New York Times, Julian Kratter)

TWO WAYS TO HEAR THE CHATTER FROM SPACE & ONE IS FREE! While thousands of Americans will pay 50 cents or more for a telephone call to hear the shuttle astronauts, thousands of others will be able to eavesdrop for free. Amateur radio clubs around the country are relaying shuttle chatter on ham frequencies that can be monitored not only on amateur equipment but on shortwave receivers and popular police band scanners, according to Peter O'Dell, a spokesman from the American Radio Relay League, which represents many ham operators. The American Telephone & Telegraph Company is again offering its "Dial-A-Shuttle" service, charging 50 cents for the first minute of conversation between Mission Control in Houston and the shuttle Challenger. Each additional minute will cost 35¢. Callers in the United States can listen in by dialing (900) 410-6272. People hoping to take advantage of the free amateur radio retransmissions will have to hunt the correct frequencies. The Goddard Amateur Radio Club in Greenbelt, Md., is relaying shuttle communications on as many as three of the following frequencies: 3860 KHZ, 7185 KHZ, 14295 KHZ, 21390 KHZ and 28650 KHZ. (New York Times...Mendez, NJ)

RUSSIAN WOODPECKER TO GET A MATE. The United States Air Force is preparing to build two powerful radar installations on the East and West coasts and it plans to build a third on the Gulf coast. These installations, to be built by General Electric Co., will use the so-called over-the-horizon radar systems, which bounce beams off the ionosphere and back down to earth. Now there's an announcement to make the radio hams of the world break out in a cold sweat, imagining that the "Russian woodpecker" may be about to get a mate. The Russian woodpecker is a Soviet over-the-horizon radar signal that chatters up and down the shortwave spectrum disregarding international agreements that go back to 1906 and were designed to avoid interference that threatened the safety of life on the sea and later in the air. To the radio hams as well as the other users of the shortwave spectrum for international communications, the "woodpecker" sounds like a bird rapping on an old barn or perhaps a wood lath being pulled across a picket fence. More familiar forms of radar operate at microwave frequencies that penetrate the ionosphere and continue into space without following the earth's curvature, making them useless for long distance surveillance, hence the assignment of the Russian radar to the high frequency bands. The woodpecker has been raising hob with amateur long distance reception at least as far back as 1978, when Harry J. Dannals, then president of the American Radio Relay League, the hams national society, expressed concern over the Air Force building an American version of the woodpecker at Hanscom Air Force Base in Maine. The installation was to have 21 transmitters using frequencies from 5 to 30 MHz. Seven transmitters each with an output of 100 kilowatts would be on the air at one time. Mr. Dannals wrote a letter to Sen. Barry Goldwater, a radio ham, who was assured by the Air Force that there would be "no significant signal transmitted...in the amateur radio frequency bands... The ERS transmitters have been built and tested to very stringent specifications that have virtually eliminated out-of-band interference...the highest amplitude of any harmonic interference would be...less than four watts." Four watts will travel great distances when conditions are right, but there seems to have been no great fuss over problems with the American experimental installation on which the new radars will be based. The hams may properly wish that the Air Force would pass the blueprints along to the Russians. Their Siberian installation, which keeps a check on the U.S. aircraft and ships, operate in total disregard of the users of the air despite international agreements. The problem has been acute in Alaska and Japan. The Japanese are responding by building a new two thousand dollar ham transceiver with a built-in noise blanker to rid the woodpecker. (Wall Street Journal...Clay Harada, CA)

CLANDESTINE RADIO AIMED AT CHINA. When President Reagan arrived in China, a radio station broadcasting in Chinese likened his visit to "the weasel going to pay his respects to the hen," an old Chinese proverb for treachery. It's broadcast the next day, taking note of Mr. Reagan's smile, warned that "a smiling tiger is the most treacherous." Another broadcast the third day lamented that the Chinese leaders failed to understand the danger of receiving an anti-communist like Mr. Reagan to Hitler. All the broadcasts came from a station calling itself "August First Radio," after the day the People's Liberation Army was founded in China and purporting to speak for disgruntled elements of the Chinese Armed Forces. In fact, its broadcasts have been traced to the Soviet Union and are part of an effort to undermine the policies of China's leader, Deng Xiaoping. A monitoring service of the British Broadcasting Corp. discovered in October, 1982, that when the August First Radio failed to appear one day, its frequency carried Moscow Radio's domestic programming, "Mayak". The station, first heard five years ago, is one of the many clandestine radio stations around the Chinese borders. Another station calling itself "The Voice of Democratic Kampuchea" has reported the successes of Peking-backed guerrillas fighting the Vietnamese in Cambodia. The station itself it belived to be based in southern China. A newer station called "Vietnam Resistance Radio" reports such resistance activities inside Vietnam as the assassination of a Soviet officer at Camranh Bay on March 28th. Hanoi Radio has charged that its broadcast from Thailand. Since last year, other clandestine radio stations pretending to represent China's armed forces have gone on the air with criticisms of Peking. They use such names as "Radio Spark", "Radio October Storm", "The Voice of the PLA" and "The Contingent of Proletarian Fighters." Some references to Nationalist ideology led to speculation that they come from Taiwan, but their signal has prompted theories that they are based in Vietnam. Western diplomats in China say they believe all the stations are Soviet operated. (New York Times...Hesch, NY, Cincinnati Enquirer...David Claytor, OH)

EXPANDED SHORTWAVE LIKELY TO POSE PROBLEMS! It's the voice of democracy in many nations, the only means of long-distance communication in some underdeveloped countries and the source of the news, sporting events and just plain talk for millions of people around the globe. But because of the popularity of shortwave radio, its high-frequency broadcasts are in danger of crowding themselves off the air. In February, 115 nations agreed at the United Nations International Telecommunications Conference to changes that will expand shortwave's capacity-but eventually make existing equipment obsolete. And no direct action was taken on the problem of jamming by governments to block Western programs from their countries. No one knows exactly how many people listen to shortwave broadcasts, which can travel thousands of miles as the signal skips off the ionosphere. Richard Butler, secretary general of the International Telecommunications Union, said in January that more than 1,600 transmitters broadcast 25,000 hours of programs each day. Leonard Marks, a Washington attorney who led the U.S. delegation to the UN conference, estimated that the shortwave changes will effect at least 100 million listeners, many in Third World countries and Eastern Europe. Meeting in Geneva, Switzerland, the delegates to the ITU voted to convert the world standard for SW broadcasts from the current double-sideband transmissions to single-sideband. Communications specialists say the change, for which the Third World nations lobbied heavily, will provide about one-third more broadcasting channels than are now available. The change over will take place over a 20 year period. (San Francisco Chronicle...Clay Harada, CA)

AT RADIO FREE EUROPE, A FEW CHANGES OF PACE. After years of entrenchment and self-effacement, which followed the disclosure in the early 1970's of the Central Intelligence Agency financing, Radio Free Europe and Radio Liberty are being strengthened and expanded by the Reagan administration. Reflecting a \$21.3 million supplemental appropriation by Congress, the once-ramshackled, barracks-like headquarters of the twin radio station is being refurbished. Three correspondents have been sent to Afghanistan to get radio interviews with Soviet defectors, and a full time office will soon be opened in Pakistan to monitor the war. A new correspondent will be based in Hong Kong to keep tabs on Soviet moves in the Pacific. There is a buildup in the sections dealing with the languages spoken by the Islamic empire. The changes appear to have bolstered morale among many of the stations' 1,674 polyglot staffers who broadcast in 21 languages to the Soviet Union and its European allies. But for others, the advent of a conservative, ideologically activist management closely tied to the Reagan administration has caused concern that the stations are losing their political autonomy and professionalism. The trouble saga of the radio stations, which were set up in the early 1950's took a new turn two years ago when Senator Claiborne Pell, Democrat of Rhode Island, pushed through a law designed to make the two radio stations responsible to the semiautonomous Board for International Broadcasting in Washington. The Pell amendment turned out to give the Reagan administration a firmer hold on the station. Frank Shakespeare, chairman of the broadcasting board, also became chairman of the two radio stations, and James L. Buckley, the former New York Senator, was named president. George Bailey, an American who had worked for the right-wing Springer press group in West Germany, became the head of Radio Liberty, which broadcasts solely to the Soviet Union. To lead Radio Free Europe, which beams its programs to Eastern Europe, the board selected George R. Urban, a longtime British radio broadcaster of Hungarian extraction. Like Mr. Bailey, Mr. Urban had no significant managerial experience. One of Mr. Bailey's first innovations was to remove the American supervisors who had traditionally watched over the copy broadcast to the Soviet Union. "It has to be an Uzbek who has to decide what Uzbeks want to hear and not a sunburned American from Iowa," Mr. Bailey said. He also abolished a daily news budget analysis that had recommended some items for broadcast and classified others as "background information only." The Bailey changes were popular with the newly promoted Soviet-born desk editor, who for years had chafed under what one called the semicolonial tutelage of their American supervisors. Some of the sharpest in-house criticism of Radio Liberty comes from Eastern European emigres at Radio Free Europe, who privately air views of "backward Russians" that could be heard in Warsaw, Prague or Budapest. It's like handing over Russia to Solzhenitsyn one aghast Eastern European staffer said. Mr. Buckley said the innovations had "increased the self-confidence" of some services. "Has there been a change of tone?" he asked. "Certainly not at my instigation." "In our broadcasts, we let the Soviet Union speak for itself," he continued, when asked whether President Reagan's "empire of evil" statement had reached Munich. (New York Times...Ruth Hesch, NY)

ADVENTIST RADIO PROGRAMS. The first Adventist radio program was broadcast by Dr. O.S. Parrett over station CHCE in Victoria, Canada. These programs, a series of health lectures, were broadcast in 1921, over a small 10 watt station constructed by a friend. The most notable early broadcaster was H.M.S. Richards, who began his regular broadcasts in 1930. Originally heard in CA. over one station, it is now heard worldwide with the program, "Voice of Prophecy". This is one of the oldest and continuous radio programs. (World of Prophecy News...ed)

EDITOR Terry Lindley
Route 3, Box 1098
Birmingham, AL 35224

DEADLINE: 12th of the month

I'm Terry Lindley your new editor for this column. It will be real hard to fill Sandy's shoes but with your help I'll give it a try. Thanks Sandy for the many years of faithful service to the club. Some of you will remember me as editor of Europe and Asia/Oceania columns in the past. I am a registered Master Plumber here in Birmingham, and also an electronics technician who worked 2 years for the 3M company. I do answer mail and any questions you may have. If you write to me all I require is a 20¢ stamp for a reply. I have a good supply of envelopes so there is no need to send one unless you want too. You can also reach me on Compuserve if you wish. My user ID is 75535,1165 .

As long as I have mentioned computers let me tell you about a program I have that may be of interest to those of you who keep program schedules. When the program is loaded a prompt appears and asks you to type in the country you wish to see a sked for. After doing this it searches through all the countries and skeds it contains and selects the one you asked for and then prints it on the screen. At the bottom of this another prompt appears and you are ready to select another country. If you misspell the country the program tells you " SORRY, THAT COUNTRY IS NOT LISTED, OR THE SPELLING IS NOT CORRECT" The computer has no way of knowing if you have misspelled the country or if it is not listed. It can easily be added too or altered every month as you receive new skeds. At present it contains 105 countries but I have'nt added to it or updated it in 2 months. It runs on a Commodore 64 and contains about 21K of memory. If you have a Vic 20 with enough memory it will also run on it. When you load and run it on the Vic 20 the spacing will be all out of proportion though and will likeky drive you crazy if you try to fix it. Other than the spacing problem on the Vic 20 it will run just as well on it as the 64. If you would like to have the program send me a blank cassette and return postage and I will be glad to copy it for you and return the tape.

[illegible]

I have received a brochure on a nice looking portable made by Kenwood. It is the Kenwood R-11 which will FM/AM and SW 2 to 21.9mhz. No figure is given in the specifications for sensitivity but Kenwood claims that it is "highly sensitive". The receiver is dual conversion superheterodyne, has S meter, electronic bandswitching, carrying case, ect. It's a nice looking portable and would be great when you're away from the shack.

[illegible]

Do you own a Icom R-70? If you are'n't lucky enough to own one then don't feel bad, I don't have one either. If I did though I would not hesitate to make a modification that I have learned about in an article from Jack Somers CA, which was written by Tom Carlson KE4AC. It uses a DPDT switch and 4 short lengths of hook-up wire to cut out some co-channel interference. Physically no components are removed and nothing is done to the receiver that cannot be reversed. I only have one copy of the article and don't have access to a copy machine. So if you would like to have it let me know. Or if you have a copy or can get one of 73 Magazines June, 1984 issue, it is in it.

[illegible]

Whats for sale in the world of shortwave? As many of you know just about everything is, but where do you find it? I recently received a catalog from Galaxy Electronics that contains scanners, SW receivers, CB Radios, directories, 2 Way radio's, microphones, telephones, radar detectors, antennas, rotors, and assorted accessories. This company is owned and operated by Speedx member Robert Leary. If you don't have their latest catalog send \$1.00 which is deductible on your first order to get one. The address is Galaxy Electronics, Box 1202 67 Eber Ave, Akron, Ohio. Even if you aren't looking for something in particular the catalog is good to have in the shack.

At this point the column **greatly** needs your input. As I start this page my ideas are already **exhausted** but Rick our Managing Editor has given me two pages so I must **try** to fill this second page. An idea has come to me stand by or look at the next paragraph.

[illegible]

Do any of you remember the column of Sandy's where he mentioned the CW interface for the Timex Sinclair? It was a kit to be built from scratch and plugged into the back of the Timex and along with the proper software it would print out CW onto the screen. I built this kit and am still using it with the Timex to receive CW. The kit cost about \$30 to build and works fairly well. You must have a good receiver with excellent frequency stability. I use a DX-300 and it is not quite stable enough to stay on frequency all the time. If someone walks in the room or fans air on the receiver it drifts off freq a bit and you lose the copy. Also unless the receiver has been on for a few hours the oscillator drifts just enough to require constant tuning of the receiver via the fine tuning control. If you would like more information on this send me a note and I will tell you where you can obtain info on it.

[illegible]

As I stated at the top of the page my material is a bit short this month. The column greatly needs your support and ideas to continue. If you receive anything that you think might be of interest to the membership then don't hesitate to send it in. I can assure you it will be used. I'm sorry to have to leave a half page blank but if you will bear with me we will get this column moving in the right direction.

S P E E D X A N N U A L F I N A N C I A L R E P O R T

THIS IS A SUMMARY OF THE SPEEDX ACCOUNT FROM THE PERIOD 1 JULY 1983 TO 30 JUNE 1984 INCLUSIVE. A MORE DETAILED FINANCIAL REPORT IS SENT TO EVERY BOARD OF DIRECTORS MEMBER EACH MONTH.

Balance on hand 1 July 1983.....	\$3,971.46
----------------------------------	------------

Receipts	Prepaid Subscriptions	\$7495.00
	Prepaid Renewals	11688.00
	Supplies	5587.70
	Miscellaneous	182.58

Total Receipts	<u>\$24953.28</u>
----------------	-------------------

Disbursements	Publish 12 Issues	\$13687.34
	Postage 12 Issues	6215.92
	HQS Postage	1606.00
	HQS Supplies & Printing	2114.77
	Miscellaneous	1158.16

Total Disbursements	\$24782.19
---------------------	------------

Balance on hand 30 June 1984.....	\$4142.55
-----------------------------------	-----------

I certify this summary of the SPEEDX account is true and accurate to the best of my knowledge.

Jack Sanderson
 Jack Sanderson - Treasurer

[illegible]

NETHERLANDS ANTILLES...Trans World Radio, Bonaire has a daily morning broadcast to North America from 1115 to 1235 UTC on 11815 kHz. The Mon through Fri lineup looks like this: 1115 MUSIC, NEWS SUMMARY 1130 WORLD, CARIBBEAN & U.S. NEWS 1143 MUSIC 1150 INSIGHT FEATURES 1155 MUSIC, NEWS SUMMARY 1200 THRU THE BIBLE 1230 FINAL NEWS SUMMARY 1235 SIGN OFF. All programs are in English. (Don McCants, AL)

NEW ZEALAND...(NZ wire service 3/3 via Barry Hartley in Review of International Broadcasting #76): "RNZ SW service to Pacific has been reprieved. The 35-year old service...has been under threat since the government withdrew \$180,000 a year subsidy 12 months ago. It was thought that the service would be dropped at the end of March 1983, but Broadcasting Chairman Ian Cross says that by making heavy cuts, the service has continued and will now carry on at its present reduced level. He said that the Corporation's finances have picked up in the past 6 months, and though it will cost up to \$170,000 per year to run the SW Service, the Corporation will meet the cost."

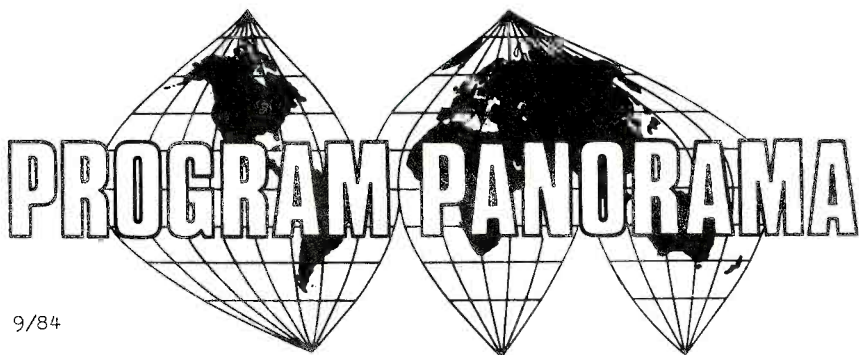

TURKEY...The Voice of Turkey broadcasts in English to Europe, Eastern North America, Middle East, Southeast Asia and Southwest Asia daily at 0300-0400, 1230-1300, 2000-2100 and 2200-2300 UTC. Feature programs are: Mon THE LIVING PAST, TURKISH PANORAMA/CULTURE AND ART; Tue ANATOLIAN SUN, TURKISH MUSIC; Wed LETTERBOX, OLDIES BUT GOODIES; Thu CHANGING TURKEY IN A CHANGING WORLD, ANATOLIAN CIVILIZATIONS; Fri WELCOME TO ANATOLIA, ART IN ANATOLIA; Sat NEWSREEL, DX CORNER; Sun NEWSREEL, ARMENIAN DEPORTATION WITH DOCUMENTS (What a strange program title!-WS). (Thanks to Hiromasa Sato of Japan and former SPEEDX ME Larry Talbot of WI for this schedule..former Managing Editors don't fade away--they just turn into column contributors!)

UNITED KINGDOM...BBC World Service has an excellent lineup of programming for May. Of interest to hobbyists is a program on the 1983 EUROPEAN DX COUNCIL CONFERENCE. A report on the EDXC meeting can be heard May 30th @ 0915, 31st @ 0100, June 1 @ 0430, 1735 UTC..... IN TRUST FOR THE NATION looks at the past, present and future of Britain's National Trust. The Trust administers most of the historic sites/sights that one visits on a trip to the UK. Tune in on the 29th @ 1430, 30th @ 1830, June 3 @ 2330 UTC.....ORIGINS continues its look at what excavations around the world are "turning up" about Early Mankind. Tune in Mon 1030, 2130, Tue 1615, Fri 0230 UTC. On the 16th, the program looks at the Jorvik--Viking York excavations in the English city of York.....WHAT MAKES A MILLIONAIRE? is a question which attracts immediate attention. On the 8th @ 1430, 9th @ 1830 and 13th @ 2330, reporter Christopher Nicholson tries to discover the secret.....Bob Kilbey's CLASSIC ALBUMS for May are "Regatta de Blanc" by The Police, "Live at the Apollo" by James Brown, "Imagine" by John Lennon and "Bridge Over Troubled Water" by Simon and Garfunkel. Tune in Sat 0430, 1330(21st only), Mon 1115, Tue 2315 UTC.(London Calling, 5/83)

USA...AFRTS relays a wide variety of domestic American programming around the world on shortwave. Some of the featured programming suggested by SPEEDXer Don McCants of AL is: Mon to Fri(all times UTC): 1334 ASSIGNMENT HOLLYWOOD 1338 ELMER DAPRON'S GROCERY 1341 CONSUMER'S BUYER GUIDE 1344 POMERANTZ ON MONEY 1534 WHAT'S RIGHT WITH AMERICA; Sun 1424 FBI WASHINGTON, repeated at 1924/2235 FOCUS ON THE FAMILY 2335 UN WEEK IN REVIEW; Mon 0135 UN WEEK IN REVIEW 0335 FOCUS ON THE FAMILY.....AFRTS has a wealth of programming from the 6 networks (NBC, ABC, CBS, MBS, UPI, AP) which you can hear. The center pages of the May 1983 issue of Review of International Broadcasting(#76) are devoted to a complete AFRTS schedule of programs. The listings are too numerous to include here, but if you haven't discovered RIB yet, now would be a good month to do so. A sample issue is \$1.25 in North America or \$2.00 or 8 IRCs for elsewhere. Write to RIB c/o Glenn Hauser, Box 6287, Knoxville, TN 37914. RIB's Glenn Hauser has done an excellent job with this AFRTS feature. (WS)

Thanks to all our contributors for this month. Next month, we will try to work on some backlogged items. Until then, good listening!

PROGRAM PANORAMA

9/84

Woody Seymour, Jr. P.O. Box 848 Sanford, N.C. 27330

CHINA (PEOPLE'S REPUBLIC)...Radio Beijing is scheduling three special series for the 35th anniversary of the founding of the PRC which falls on October 1, 1984. The programs are a series on the history of modern China leading to the founding of the People's Republic (started in August), a month-long special anniversary series with a daily program on every aspect of life in China (scheduled for this month) and a series of 12 programs on CULTURE IN CHINA featuring 12 prominent contemporary artists of the traditional school of painting (scheduled to begin October 4). To help listeners to follow the latter program series, Radio Beijing has prepared a brochure carrying photo reproductions of 12 paintings, one by each of the painters. This brochure is available by writing to Radio Beijing.....Regular feature programs in English are: Sun CHINA ANTHOLOGY, MUSIC ALBUM and LISTENERS LETTERBOX; Mon ACROSS THE LAND, CHINESE COOKING, LEARN TO SPEAK CHINESE; Tue TRAVEL TALK, LISTENERS LETTERBOX (repeat); Wed THE THIRD WORLD MARCHES ON, LEARN TO SPEAK CHINESE (repeat); Thu CHINA IN CONSTRUCTION, CULTURE IN CHINA; Fri PROFILE, THE LAND AND THE PEOPLE, LISTENERS CALLING (latter program every other week); Sat CHINESE SAYINGS AND STORIES, MUSIC FROM CHINA. English to North America is broadcast for one hour beginning at the following times (in UTC): 0000 and 0100 on 11650, 15385, 15520; 0200 on 11650, 15385; 1100 on 15520; 1200 on 11650, 15520; to West Coast, 0300 and 0400 on 17795, 15385 and 15520 (latter not used at 0400 UTC) (All the preceding information came via Radio Beijing)..... (Bruce MacGibbon, OR) "In correspondence from Chen Yu of Radio Beijing's English Department, I have found out the difference between CPBS-1 and CPBS-2 (China People's Broadcasting). CPBS-1 has a preference for NEWS which runs from 2000-1730 UTC (4 AM to 1:30 PM Beijing time). CPBS-2 offers more feature programs from 2100-1600 UTC (5 AM-Midnight local Beijing time)."

ECUADOR...HCJB had its "Open Line to the World" phone-in shows on August 17-18. All four shows were different, and your editor was able to hear one of the programs--the one at 0530 UTC. Caller No. 1 was Jim Conrad of IA. Later in the broadcast, I decided to get into the act. It was my first experience at participating in an international shortwave phone-in and what an experience! Despite a clear connection, I was able to hear everything I said repeated with a one-second delay at the other end. To say that this "echo effect" was distracting was an understatement. However, I had a good chat with Host Ken MacLarg and DX PARTY LINE'S John Beck. Since I was calling late at night and got the direct dial rate, the five-minute phone call cost less than \$5.00--quite a bargain, Mr. Watson!.....A few minutes after I had completed my call, a call came into the program from a gentleman in Mexico City. He had heard my call and had noted that I was from Sanford, NC. It seems that he had live here and visited here often in the course of his textile business. It really is a small world--particularly when shortwave radio is involved! HCJB plans to have some more of these special call-in shows in the future. When we learn their future plans, we'll let you know in the column. There's more to come, so keep reading! (WS)

HELP WANTED...Your editor is in need of some assistance from readers in the Kansas City and Buffalo areas. If you live in these areas, I would appreciate your contacting me at the address listed in the mast-head of the column. Thanks! (WS)

POLAND...Radio Polonia broadcasts daily in English and features a wide selection of programming about Poland. Here is a listing of programs available: NEWS--at the beginning of each broadcast; PANORAMA--current affairs feature covering a wide spectrum of topics; CULTURAL MAGAZINE--reporting latest developments in Polish music, theater, film and literature; JAZZ, POP, ROCK AND FOLK FROM POLAND; POLISH TOP TWENTY; POSTBAG--for listeners in Europe, Fri 1400, 1500, 1730, 2230, repeated Sun 1830, Mon 1600 and Tue 0630///for listeners in Africa, Sun 1630 and 2200///for listeners in North America, Fri 0200 and 0300; THIS WEEK IN POLAND--a review of the week's events--Sat evening and night as well as on Sun; DX-CLUB FEATURE--for listeners in Europe every second and fourth Wed 1400, 1730, 2230 and 0630 the following morning, with repeats at 1500 and 1600 on Fri and 1200 and 2030 on Sat///for listeners in North America, Sun 0200 and 0300, with repeats on Thu 0200; African programs include AFRICAN TIES--a program about the many and varied bonds linking Poland with African countries, heard on Thu at 1530 and 2000 and Sat 1230///Every second and fourth Thu and Sat of the month is reserved for a special feature for and about RADIO POLONIA LISTENER CLUBS IN AFRICA///REVIEW OF POLISH PRESS COMMENTS ON AFRICA AND THE DEVELOPING COUNTRIES(got to be the longest program title ever!--WS) is broadcast on Sun at 1630 and 2000.(Betsy Robinson, TN; R.J. Coleman, MA; Thomas Sable, NY)

UNITED KINGDOM...BBC World Service for September--at the end of the month, the BBCWS will be making some program schedule changes. We don't have the information at press time, but we will have it by next month's column. THIS MONTH tune in LETTER FROM JOHANNESBURG on the 24th at 0315, 1015, 1630 UTC and 26th at 2315 UTC as Graham Leach assesses the current level of integration between blacks and whites in today's Transvaal--and comes to some surprising conclusions.....You wondered when the BBCWS would get around to George Orwell's novel 1984. Well, it took them to September 25, 1984 to take note of this timely literary work of the past. A 15-part version of 1984 begins on that date and can be heard Sun 1330, Mon 0815, Fri 2145 UTC.....THE LAST NIGHT OF THE PROMS can be heard on the 15th at 1830-1945 and 2020-2130 UTC.......THE PLEASURE'S YOURS celebrates its 10th birthday this month. During the past decade, more than 3,500 requests for classical music have been sent to the program. Host Gordon Clyde is joined for the 10th anniversary by fellow music-lover Richard Baker. Tune in Sun 0815, 2115, Thu 1345 UTC.....THE BOUNCING CHECKS is the name of a rather strange musical group. London Calling does not really tell anything about the group, so if you want to have a musical surprise, you ought to tune in and see what this group is all about. Listen Mon 1330, Thu 0730, Fri 0430 UTC for this "rubbery" group.....(Thanks to Clay Harada, CA for sending in BBC program information this month)

USA...Rocker Sammy Hagar's latest album release is called "VOA." Wonder if it is OK for US citizens to listen to the record?.....Radio Earth has added repeats of two popular European DX programs--SWISS SHORTWAVE MERRY-GO-ROUND and SWEDEN CALLING DXERS. The idea is that reception will be better over Radio Earth's WRNO relay. Anyway, here is the latest program schedule for Radio Earth, 0300-0400 UTC on 6185 kHz. Days are local evenings in the Americas...add a day for UTC: Mon A CLOSER LOOK and THE PLATINUM EXPRESS(Canadian rock); Tue DAVID MONSON, WORLDWIDE COOKBOOK and THIS IS THE CARIBBEAN; Wed SWEDEN CALLING DXERS and THIS IS THE CARIBBEAN; Thu SKYLINE(astronomy and radio propagation) and THIS IS THE CARIBBEAN; Fri MAILBAG; Sat DIALOGUE, featuring SPECTRUM and SWISS SHORTWAVE MERRY-GO-ROUND on less than weekly basis(the latter program is on twice per month); Sun SHORTWAVE PANDEMONIUM(folk music from around the world and shortwave comedy, with Dr. Kim Andrew Elliott--soon to depart to a new teaching position--), Max Thomas and Jack Widner in Indianapolis. If you haven't heard Radio Earth, you've missed SW programming at its best!(And it's sure easy to hear SW programming at its worst on other stations--WS)(Thanks to Jeff White of Radio Earth and M.L. Flannagan, Jr., VA) 73!

COMUNICATI NEL CORSO

Hello fellow DXers! Welcome to the month of September. Right about now we should be noticing an improvement in DXing conditions. As the sun begins to set earlier that DX will begin to fade in sooner. The first Sunday in September marks the start of the S84 fall broadcasting period which will run to the first Sunday in November. Just a reminder that all times are in UTC/GMT and unless otherwise indicated the programs are in English.

CAMBODIA. Voice Of The Kampuchean People in Phnom-Penh. Sked dated August 2nd.

0000-0015 9695, 11938
1200-1215 9695, 11938
(BBC MS)

CHINA. Radio Beijing has this J84 sked in effect.

0700-1100\$ " " " 11770
1100-2200 " " " "
\$ = Friday only. (BBC MS)

Well, that wraps up the September edition of station skeds. Sorry we ran short but I'm sure next month we will be back to three full pages.

OCORA CONTEST OVER!!

I am proud to say that we have a winner in the OCORA contest. Several months ago, you will remember I mentioned that a certain style QSL card used by African stations that were former French colonies were called OCORA cards. To answer the contest correctly, all one had to do was tell me what OCORA stood for. Easy, right.

Well, after increasing the stakes to a \$10.00 Gift Certificate to Gilfer as the prize I received several entries and one of them was correct.

The winner is David Robertson of Spokane, Washington. The correct answer is Office de Cooperation Radiophonique Africaine. This was set up by the French to help the newly independent nations with their radio stations. The OCORA then issued QSL cards for all of the stations which needed them. They all had the same map of Africa on the front with a dot for each capital. Each station had its own name on the front but the reverse was identical.

These cards were issued during the 1960s and were still being used into the early 70s. I know of no country which currently uses this design.

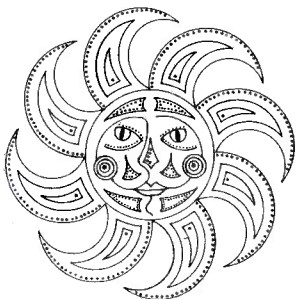

Hope you all had a great summer. The weather here in New England has not been the best. Very damp to say the least.

Let's go over the the suggestions to help reporting to STATION SKEDS easier.

1. First initial and last name on each sked.
2. When putting more than one sked on a single piece of paper put your name next to each one and cut skeds apart.
3. Don't write on both sides of the paper.
4. Don't send skeds which list meter bands instead of frequencies in kHz. They are worthless.
5. When copying skeds off-the-air, please be accurate.
6. Please send only current skeds. I will use outdated skeds only when a new one isn't available.

73/God Bless You All!

Chris

SEPTEMBER 1984

Hello once again from Morningside this time. Schools' back in session, and so am I. So, until June of 1985, everything comes here, and not Charlestown, okey-dokey? If you sent material to Charlestown this month, fear not, for I have them with me. I hate to keep shifting QTHs on you, but what can I do?

A few days ago, I had the pleasure to attend a meeting of the Central Maryland DX Assoc. in Baltimore, thanks to a personal invitation from fellow SPEEDXer Tony Kobylski. It was my first such attendance at any kind of DX get-together, and I wasn't disappointed. I saw a few fellow Maryland DXers, drooled over an assortment of Kenwood receivers and Tony's morse reader, heard a TIS station which I had never heard, and tangled with an enemy agent from NASWA, hi! Being a dedicated SPEEDXer, Tony threatened to report me to our BOD for studying the June issue of FRENDDX. I ain't afraid of you, Tony! (much...hi!!). Seriously, I do recommend that all DXers get together with fellow listeners whenever possible. Maybe in a month or two, I'll be able to highlight some impressive logs from an upcoming DXpedition to the Pennsylvania mountains by CMDXA members, which I may take part in. For Maryland DXers, you can join CMDXA by dropping me a line for more info (that goes for you folks in DC, too.) and also for anyone living within 100 miles of Baltimore.

As I promised last month, I have the complete sign-off text of R. Venceremos via Doug Ulmer in LA...

- (YL) "Con la firma condicion en la victoria popular, RV llega al final de su emision de esta hora.
- (OM) "RV transmite desde Morazan, El Salvador, Centroamerica, territorio en combate contra la opresion y el imperialismo. RV transmite en la banda de los 40 metros en las cercanias de las 7 Mhz con dos senales simultaneas todos los dias a la 6:15 de la manana, 12:30 de la medio dia, 6 de la tarde, y 8 en media de la noche.
- (YL) "En la banda de los 80 metros, en las cercanias de las 3.5 Mhz transmitimos todas las noches a las 8:30.
- (OM) "En frecuencia modulada, FM, transmitimos para las zonas central y oriental del pais en las 98.5 Mhz todas las noches.
- (YL) "Los dias domingos transmitimos por radios especiales a las 8 de la manana, 2 de la tarde, y 8:30 de la noche.
- (OM) "...correspondencia a nuestro apartado postal 7-907, Mexico, DF.
- (YL) "Unidos para combatir, hasta la victoria final..."
- (OM) "Revolucion o Muerte,
- (YL) "Venceremos!"

From above, we can glean the following information on R. Venceremos: They use frequencies in the 3.5 and 7 MHz band, possibly using ham transmitters. They also use 98.5 MHz FM. Their sked would seem to be on 3.5 MHz band, 8:30 PM local...7 MHz band at 6:15 AM, 12:30 PM, 6 PM and 8 PM local. On Sunday, they're on at 8 AM, 2 PM and 8:30 PM. They claim to transmit from Morazan, El Salvador, and have a mailing address in Mexico City. Quite a useful report!

From the July SPEEDXGRAM...

Alaska...The revised sked for KNLS is EE...0700-0930 on 11850, RR...0930-1100 on 11810, 1500-1730 on 11790

CC...1200-1500 on 11940, and more EE...1730-2000 on 11970 (Daniel Lutz TX via Hauser on SWLD 7/5)

Argentina...RAE EE bcsts are 1700-1800 on 15345, 0200-0300 on 11710, 11755, 15345 (RA's Talkback 7/14)

Costa Rica...R. colombiana ia now on new 5010. Noted 0518* (I've noted them off as early as 0400 jc) move from 4840 (MacGibbon)

Surinam...RN Brasil's "A Voz do Brasil" rptd 6/11 than an agreement had been signed between Brazil and

Surinam to plan and implement Surinam's national and international service (BBOMs)

USA...The High Adventure Station in CA will likely be called KHEN and has this tent sked for D84...9525

(1300-1600), 17755 (1600-2200), 15115 (2200-0000), 11930 (0000-0400), 9525 (0400-0600), 6005 (0600-0800) (World of Radio 7/14)

KCBT, Dallas plans to start testing soon to Eur, and LA...17705 (1800-2000) with 50kw

WLK, Bethel PA will bcst in EE,FF,GG,SS on 15110 (1700-1900), 15260 (2200-0000) with 40kw (Tom Zijlstra, Holland, from ISWCI via SDX 6/26)

So, I guess I'll start now. Remember, that no language will be given if the station reported was is SS (PP for Brazil). As usual, we start with

A R G E N T I N A

6060 1001 R. Nacional, LRA31, guitar mx, TC, LA mx, into conversation or interview. Fade out at 1040 (242 7/27 Dillon DC)(fr 8/7 Cereghin MD)

E. V. "SANDY" BLAIZE
417 RIDGEWOOD DRIVE
METAIRIE LA 70001

NEW "GUIDE TO RTTY FREQUENCIES" AVAILABLE: The second edition of O. P. Ferrell's RTTY guide is now available from Gilfer. This book is in the same format and layout of Ferrell's popular "Confidential Frequency List", but caters to the RTTY Utility DXer. The main listing is in ascending frequency order from about 4 to 28 Mhz. Over 4500 entries are listed in the main tabulation. At the end of the frequency listing, as in the CFL book, there is a CALL SIGN list in alpha-numeric order. This feature very helpful when you might be on the lookout for other frequencies for a given station using a common callsign. At the end is the "Z" code commonly used on military circuits and "ham" RTTY and MARS circuits. Following this is a useful explanation of Cyrillic forms used on RTTY and how to decipher some of the information that your "English" machine will print on Russian "TASS" and other news circuits. Ferrell starts the book off with two brief but very useful chapters on interpretation of RTTY signals/information as well as an explanation of the old Hellschreiber system still being used by the Red Chinese. All in all, a MUST HAVE book for the RTTY user and a companion to the Confidential Frequency List (CFL). Available from: Gilfer Associates, P. O. Box 239, Park Ridge, NJ, 07656 at a price of \$9.95 plus \$1.50 postage and handling. Tell them you saw it in SPEEDX! (Highly recommended.)

RTTY INTERFACE FOR IBM "PC": Does anyone have any information on any hardware adaptable to the IBM Personal Computer, that will allow it to receive RTTY and ASCII radio transmissions? This SPEEDXer did not say if he wanted to build something or buy a ready made unit, but if you have info, send it here for inclusion in future issues.

BAYOUTRONICS (at your Editor's address above,) is gearing up for taking over the repairs for the venerable Barlow-Wadley XCR-30 receiver. The XCR-30 is the father of well known sets such as the FRG-7 etc. that used the famous "Wadley Loop" synthesizer system. Also available are several new or near new XCR-30 receivers being gone over by your editor. These are "seconds" and have slight faults that will not impair their utility. Only a few at a bargain price. If you are interested in having a piece of SW history, write to Bayoutronics for information.

RTTY INTERFACE FOR SINCLAIR*TIMEX: Receive only version now undergoing testing here and at the station of NU4V. Results so far very, very promising. I have not gotten my prototype working as of yet due to a blown INS8250 chip. Hope to have it up and running by the time you are reading this. May have prices and availability next issue. Bear with us. it has to be right before we release it. Watch this column for more info.

CW READER for Sinclair still available from METCO, 313 Vaughn, Ft. Walton Beach, FL. 32548. Cliff has had a large response for the units, so if you have ordered yours, please be patient, as he is filling orders as quickly as possible.

FOR SALE: From local SWL's "shack": one near new Kenwood R-1000 receiver and a Drake SW-4 receiver. If you think you are interested, please send the editor (above address on masthead) a reasonable bid that will be passed on to the owner's widow for her consideration. Send SASE for a reply please.

COMMENT: Summer is definitely coming! I have a nasty buzzing line noise again! Hope it will not turn out to be like one of several years ago that wiped out all the weak signals! When sending in your suggestions, comments etc., please include a SASE if you want an answer direct from me. Out of country readers please send stamps of your country for 1 oz. Airmail postage. No IRC's please. See you all next month. Until then best of DXing.

Sandy

Well, got it all in this month for a change. As I'm sure you know, conditions have been lousy for the better part of the summer. We can only hope Autumn will bring that DX back.

With all this space, I guess I can re-introduce myself to you. I'm 19 years old (Nov 29) and am in my 2nd year at the University of Maryland. I graduated from high school from North East, MD an honor student, but no such grades in college yet, hi! My equipment includes a DX-160, DX-302 and a GE World Monitor II. My totals include 422 SW stations from 177 countries and 329 MW stations. Some of my best catches include Laos, Burma, Malawi and Antarctica. My hometown is Camp Springs MD, I've been a DXer for 8 years and a SPEEDXer for 6 years. I hate hot weather, I love snowstorms, and hope to have my degree in meteorology in 4 years. What really kills me that I discovered DXing while living in Idaho back in 1976, but never did any serious DXing from there. Just think of all that good Asian DX I missed!

Work on the Guide to Latin American DXing is progressing at a slow, but steady pace. With school beginning in 3 weeks, my time will become even more limited between school and the column, so now is the time for you to get involved and take some of the load off me. This isn't official, but our DX Montage editor David Sharp told me that he was interested in starting a Guide to African DXing. Hope we can get these projects into high gear, and get more under way.

I have gotten several letters of differing viewpoints concerning my policy on printing pirate stations. My policy right now states that Pirates be printed on a "space-available" basis and be given last priority. Do you agree with me, or do you have another preference? I'm going to conduct a small survey about how you want to see Pirate stations presented in these humble pages. Next month when you report, let me know how you feel. I'll study the results and make a decision on a final policy in a month or two. Majority rules here.

Well, I'm out of space, so next month from Morningside, I'll see you again in 30!!!

I've had a good response in my request for copies of UHN issues numbers 40 & 44. Thank you very much for the copies. I have more than I need, two extra copies are available for anyone who wants them, first come first served. It's possible some more copies may come in by the time this comes to your mailbox so if you want a copy write. These issues of the USSR High Frequency Newsletter have information on Soviet transmitter sites including location, height of mast(s), beams along with other helpful information.

WORLD BROADCASTING INFORMATION

SWEDEN Radio Sweden International announced on 24th July that, because of serious interference from another radio station, it would have to change the frequency announced during the previous week for listeners in Australia & New Zealand. From 28th July the transmission in Swedish at 2330 would be heard on 11960 kHz instead of 15110 kHz. (7/26) That's the only item worth reporting concerning Europe in the BBCMS WBI this month.

ALBANIA

Daniel

CHANGING YOUR ADDRESS with SPEEDX is simple...if you send the address change to the right person and give us enough time to update your records! Send all address changes at least three weeks ahead of time to club headquarters in Tucson, Arizona. Include a mailing label from a previous issue, or be sure to send your name as it appears on your mailing label! This same procedure holds true for name changes. Remember, the address to send your changes to is: SPEEDX

7738 East Hampton Street
 Tucson, AZ 85715
 U.S.A.

SPEEDX

Western Hemisphere

EDITOR THIS MONTH: CHRIS HANSEN, P.O. BOX 1226,
NEW YORK, NY 10159 (212) 549-6613

!!!! NEW EDITOR, BEGINNING NEXT MONTH !!!!!

SEND JUNE LOGS TO: JOHN CEREGHIN
P.O. BOX 119
CHARLESTOWN, MD 21914

Deadline: 12th

All times and dates UTC, All fqs in kHz

/ MAY 1983 /

IN THIS MONTH, completing my tenth year of editing for shortwave clubs, I am extremely pleased (and somewhat relieved!) to announce that my replacement has been found. He is John Cereghin, of the address above. John has been an active SPEEDXer for several years, and has contributed frequently to this and other columns. I welcome John to the staff.

I AM NOT LEAVING THE STAFF, HOWEVER. SPEEDXers should remember that I will, in two months time or so, be writing a questions and answers column under the auspices of Art Getzel. It will be a bi-monthly production of one page or so. Do, then, send me any questions that you would like answered in these pages. I can't guarantee to answer every question posed, but I'll do my best. My address is above. In addition, I have volunteered to be John's back-up editor for Western Hemisphere. Therefore, if he, for any reason, cannot edit, I shall be back in this space, again, doing W/H.

I'D LIKE TO THANK EVERY SPEEDXer who has contributed to my column in the past 5 years +, and every SPEEDXer who has been a member in these past 5 years for supporting the club with their subscriptions and their contributions to the bulletin. I will continue serving SPEEDX as Vice President and a member of the Board until my term runs out and, if renominated and elected, in the future as well. Do remember that SPEEDX needs you as a member and a contributor.

IT SEEMS THAT NEARLY EVERY SPEEDXER EXCEPT ME HAS HEARD THE FALKLANDS. As I grow older, the number of things for which I would wake up at 4 AM grows smaller and smaller. I suppose one day this year or next, I'll find myself awake at 4 AM with a toothache or insomnia, or too many cups of coffee the night before, and I'll log them. In the meantime, I'm printing the Falklands loggings first this month, below, so that those of you who have still not logged them can do so. Do remember, however, that if you send a report you should be prepared for a long wait. They must be snowed under down under!

FALKLAND ISLANDS

3958 *0859 Falkland Islands Broadcasting Service, s/on w/ NA, ID, right to musical potpourri w/ various R&R selections. OM w/ frequent comments, TC's (they are still on GMT -3 hrs), and a couple of wx reports: "winds out of the NNW, cloudy, a little rain towards evening, hill fog, and a temperature of 14°C." Sounds like Los Angeles. IDed as "FIBS," complete with musical version of FIBS. Signal faded by 1010. (232-344@1010; 3/14. Stu Hall, CA)(0859; ham QRM worsened during mission; (I would hope that those of you out there who are ARO's could spread the word that the neighborhood of 3958 is important to us SWLs/DXers from about 0845-1015 GMT. That would be a public service. ch); 323; 3/29; Baxter, KS)(*0900; s/on w/ BBC nx, Review of British Press from BBC, 3/20. Sheedy, CA)(0919-1040; Breakfast show w/ OM DJ, apologized for lack of nx from London, gave local wx. No ARO QRM until after 1040 (Rah, Rah, ARO's!!! ch); fr; 4/5. Hosmer, MI)(0955; ID @1000, brief nx items, wx, 352; 3/29. Jones, MS)(0900; 333; 3/12. Due to a misunderstanding caused by my letter of resignation(as of Nov.) to Rick Drollinger being lost in the mail, we have only 3 pages this month. My last column will be October--help me go out with a bang by swamping me with your reports!! Dave Robertson of WA sends an article dated 8/4 w/ news that UPPER VOLTA has been re-named REPUBLIC OF BURKINA FASSO by leader Army Capt. Thomas Sankara--anyone ID on SW as this?--73s, Mark

ASIA-OCEANIA

EDITOR:

BOB THUNBERG
409 Burt Street
DuBois, PA 15801

DEADLINE: 12th of each month
FREQUENCIES IN KILOHERTZ
TIMES ARE IN GMT
0000=sign on 0000=sign off

Dave Robertson-WA has passed along some followup information on his "Unidentifieds" listed in the June 84 A/O column:

6348kHz: Peggy Thompson told Dave that a Korean friend of hers says this ^{is} a S. Korean regional, possibly transmitting from Seoul.

7185kHz: Dave gave a recording of this transmission to Joe Talbot-ALB, who passed it to an Asian friend. The station was IDed as a Chinese clandestine named "Song of Liberation". "Shen Da Yi" loosely translates as "Attention Please". The announcer is a "leader" who subtly denigrates the Chinese Army. According to Joe's friend, the reported NA is actually the "Internationale". Dave heard the same type of broadcast on 3 June 84 and has a recording available for any interested listener (addr: N. 4208 Calispel Spokane, WA 99205). He wishes to know if anyone else has heard this station. Maybe someone who subscribes to the Clandestine Confidential newsletter could help Dave.

Thank you Dave, Peggy, and Joe for this information. Special thanks also go out this month to Koji Yamada-JP who was kind enough to send me recordings of R. Tanpa's relay of R. Canada Intl's JJ pgm on 9595 kHz, FEN (of AFRTS) on 6155 kHz, and R. Korea's test transmissions on 13670 kHz. The latter's tests were beamed to the ME and Africa during July, and were heard daily in Japan at a 555 level.

Received many interesting logs this month, including rarely reported Cook Island, so let's get to them!

WBI NEWS

AFGHANISTAN: Voice of the United Muslim Fighters of Afghanistan: This station which bcsts material hostile to the govt of Afghanistan is currently heard at 1500 to 1600 on 15050 kHz in parallel with 11630 kHz.

IRAN: Radio Iran Toilers: 0330-0400, 1600-1630, 1630-1700 (rpt xmsn) all on 6230 kHz and all in the Persian lang. Hostile to the Govts of Iran and USA, and supports the Iranian Tudeh Party. This station was first heard on 7 July 84, however it may have been in existence for some months. It is believed to operate from the same xmtr which carries the R. Afghanistan 2nd Pgm for minority-language speakers. Announces a postal addr. of P.O. Box 49034, 10028-Stockholm, Sweden-the same addr. as that used by "R. Iran Courier" (Radyo-ye Peyk-e Iran) which closed down on 30 Nov. 1976.

ISRAEL: The newspaper "Ha'olam Haze" reported on 25 July 84 that a group of ME businessmen was secretly developing plans to set up a radio station which would be operated from a ship off Tel Aviv. The name for the proposed station was the "Voice of the Orient". Probably unrelated is a report by Juan Carlos Codina on the 12 Aug. 84 bcst of "SWL Digest" of a presumed Israeli station heard at 2200 on 6565 USB.

Editor's Note: Rumour has it that the World Broadcasting Information (WBI) is to cease publication as of June 1985. The BBC Monitoring Service which publishes the information states increasing costs as the reason. I for one will be sad to see this excellent source of SW info be discontinued. Usually the first reports of a new SW station or relay can be found in the pages of the WBI. It is also a very good source for info on Clandestine stations. Let's hope this is just another "R. New Zealand to cease SW bcsts" type of rumour and publication continues. RBT

Though not actually A/O news, I heard an interesting segment on the 12 Aug. bcst of "SWL Digest" via RCI. The V. of America is beginning a program devoted to SWLers. The program will be aired as part of their "People Magazine" show each Thursday. The first program is slated for 13 Sept. 84. As of this date, they have no name for the program and are soliciting listeners for ideas.

I'll take this opportunity to welcome two new editors to the SPEEDX staff: Terry Lindley, the new Technical Topics ed. and John Demmitt who is taking over Tips and Topics. Good luck to you both!

The following note is to all A/O direct contributors: Please send all Oct. 84 reports, actually the ones you'll send me in Sept., ASAP. The XYL and I plan on leaving for a vacation to the Outer Banks of NC around 16 Sept; therefore I'll be rushed to finish the Oct. column. Thanks and 73s....

Bob

EDITOR:

Leon Kanopka
139-37 254th Street
Rosedale, New York 11422 U.S.A.

Deadline 12th of the month.

Hello, welcome to the September 1984 QSL report. It seems that my project in last months column was a great success. I have received many requests for a continuation with North, Central and South America. This I will attempt to do in the near future, however, this month I feel that I should try to clear away the two months of contributions that I have received. So before I use up any more space...

Same in 145d for FF rpt and an irc (Robinson-TN).

HONDURAS-La Voz del Junco-6075, f/d postcard in 82d for ms and SS rpt (CO-Wilkins). R. Landia-4965, f/d postcard in 82d for SS rpt and MS. (CC Wilkins). F/d Iglesia Cathedral card in 56d for ms and SS rpt (Parks-FL). V/S-Leonell Andino V. V/S for LVdel Junco was Don Moore, QSL Sec.

NETHERLANDS ANTILLES-R. Netherlands-9715, 6165, 17605, f/d cards in 11-45d from: Bingham, Talbot, Burbank. TWR-Card in 53 (Talbot). Cards in 16d for 1-2 ircs (Dillon-DC, Falbo-OR). Some stickers were sent to reporters.

NICARAGUA-La Voz de Nic.-5950, f/d letter in 150d for 2 ircs, also recd pennant and sticker (Adams-MA).

UNITED STATES OF AMERICA-VOFC via WYFR-5985, f/d card in 51d with pennant (Talbot-ATA). F/d card in 45d with ggodie pack for an irc (Neuverth-CO). WYFR-f/d cards from: Nowicki-CA, Neuverth-CO for an irc, and Macrie-NJ for ms. All in abt 2 mos. WINB-17730, 15185, f/d logo card in 31d for ms (Co-Neuverth). Same in 21d (Burbank-FL). UNR-15120, f/d logo card in 15d for ms (Szabo-KS). VOA-Delano-15375, f/d card (Falbo-OR). 7655, 9455-Greenville-Noak, Dillon. R. Earth via WRNO-F/d Curacao cards in various time for various rp from: Ducos, Talbot, Stephany, Jordan, Szabo. WRNO-Cards from-Talbot, Campbell, Deckman, Bingham, de Cassan.

Well, almost out of room, so no room to start So. America. The info will be held again for next month. If you haven't noticed, we have been having a shortage of editors lately. If you are interested in helping out the club, think about being an editor. It is alot of work, but alot of fun.

Galaxy Electronics, Box 1202-67 Eber Ave, Acron, OH 44309, has their new catalog available, for \$1, refundable on order. It has SW receivers, Scanners and CB radios. Send for it and say SPEEDX sent you.

For pennants, if it's of interest I recently received a pennant from an amateur radio station in Colombia. Try HK1AUX, with RP if you hear him. Also, how about a contest. The first report that I receive from a SPEEDXer for one of my ham QSOs will receive a N2EKL goodie pack. I work mostly 40 and 20m, but no more hints, HI. 73 and best luck!

Don N2EKL

*** Well gang, things are getting complicated. As of this writing, there is no replacement for me. Possibly HQ will make a last minute announcement, elsewhere in this bulletin, about your new editor. If not, you will have a choice as to where to send your loggings.

... The next batch goes to me. (that is the Oct 84 issue)
 Now comes the problem. If an editor is found, you may have to wait until you receive the Oct bulletin, to find out where to send.

The better course is for you to send your submissions to Peggy Thompson, our CDE. To do this, you must mail early enough to meet her deadline of the 6th.... My advice is, if there is no announcement in this bulletin, then mail to the CDE. At least you will receive credit for contributing, if nothing else.

If there is no editor, Speedx might get someone to stand in for the November column. Quite frankly, no editor will probably mean, no column. The utilities are the toughest column in Speedx to edit. It requires use experience and a personal dedication to the task. For many, our personal lives demand just about all of our free time, and therefore such a voluntary job, is out of the question... But I can't believe that everyone of you are in this situation.

It is easy to simply send in your contributions, then sit back and read the column. Editing is a very different ballgame, requiring loads of time and energy, while placing a burden of responsibility on your shoulders. This is not what you're paying your membership fees for, but on the other hand, somebody has to bite the bullet, or else there is no column.

Speedx's back is to the wall. It has no options unless one of you give them one. The next column will be my last. I will bid you all farewell, as I vacate the utc editing post. I hope that my parting words, will not turn out to be, the epitaph for the utility coverage in Speedx....

*** SWLING FROM BEHIND PRISON BARS.... There are a few states which allow prison inmates to own or have access to HF short wave receivers. Many states do not, and therefore a project is in the works, to attempt to have legislation changed, to enable this.

States have rehabilitation programs, which are designed to enable prisoners, once released, to reenter society, and not return to their criminal ways. But what inmates do, while serving their sentence, can greatly affect their morale and outlook.

Some of you are confined to your home, due to physical disability or illness. You therefore know the incalculable value, SWLING has brought into your life. Such can be said/applied to any situation, in which one is confined.

This project is not intended to be another "coddling" measure for criminals. It can boost morale, give individuals a purpose, allow them to interreact with fellow buffs (via club bulletins), plus other intangible, yet positive psychological benefits.

Yes they broke the law, but are now paying the price. If you have never been in prison, you cannot know the full extent it has, on dehumanizing an individual. Any measure that can allow an inmate to retain his or her own personal dignity, is a benefit to society as a whole. For what we want to see walk out of prison, is a human being, with the motivation to be a law abiding citizen, and not a demoralized and disillusioned animal, who will once again, prey on his fellow man. The hobby of SWLING, can be a measure of benefit to all, in or out of prison.

The project intends to write legislators, giving sound reasons why HF SWLING should be allowed behind prison walls.

If you feel this project is a worthy one, and are willing to express your opinions on this subject, simply drop me a note, and I will put you in contact with the individual who is coordinating this project. He will give you the full details.....

NOTE: The foregoing was intended as a public information announcement. It does not imply the endorsement of Speedx.

**** ANTARTICA FANS: Don't forget that September marks the start up of another research season down on the ice.

8997/13251 KHz USB (primary/secondary) are the air/ground freqs, and with improving propagation conditions, should be better received this year. Stations should try between 0400 to 1000 GMT.

11552 KHz USB is a station to station freq. Try 0100-0400 GMT 13974 KHz USB is the USN MANS freq. Try 2300-0300 GMT

Air/ground operations continue until late February. Station to station & MANS are all year active.....
