DUNCAN'S COMMENTS:

Tampa - St. Petersburg is a slightly above average major radio market. Revenues have grown nicely and the number of viable stations has grown only modestly. The amount of listening to unlisted stations is very low. Listening levels overall have held up better than that of most markets.

The most important radio event in Tampa was in the late 80's when WFLZ challenged the legendary CHR WRBQ. In two years WRBQ was destroyed by the Jacor station. This proved to all of us that every station, no matter how strong, was vulnerable to a determined and able competitor. However, that competitor may have to wait a long time to enjoy the rewards of victory. Look at the highest billing station listing for the years 1988 through 1993. WRBQ's revenue went from 18.5 million to \$2.9 million during the period. WFLZ's revenue went from \$2.0 million to \$4.0 million. It was not until the late 90's the WFLZ became one of the highest billing stations in the market. For many years the major beneficiaries of WRBQ's demise was not WFLZ but the other major stations in the market. WRBQ's \$18 million got put into play but the station which slew WRBQ benefited only slightly until many years after the slaying.
