1879-1979

HOUCK—

The Niagara Frontier Wireless Association was greatly honored this past August 25th at their meet dedicated to Major Armstrong. The presence of several people made their meet an "event".

Mr. Harry Houck, Major Armstrong's friend, confidant and associate of many years attended their meet and banquet.

They had the honor of meeting Mr. Houck on past occasions, however under rushed circumstances. This time many of them were able to talk to him on a much more personal level. They found it easy to understand why Major Armstrong wanted Harry as an associate.

"Mr. Houck is an absolute delight to be with. He is a warm person with a keen mind and an excellent sense of humor. His knowledge of wireless history and the people who made this history is fantastic."

The above about Mr. Houck was sent to The Horn Speaker through the NFWA Bulletin by Larry Babcock, who is vice-president of the Niagara Frontier Wireless Association.

letters

Dear Jim:

Our club, the NFWA, had a very successful meet last Aug. 25. The biggest highlight was a visit by Mr. Harry Houck who was Major Armstrong's associate for many years.

I'm sending you a couple of our flyers and have circled in red info about Mr. Houck. You

may wish to include some of it in The Horn Speaker. You may of course use any of the info from the flyer that you wish in your excellent paper.

Finally our club would like to offer to send a free issue of our bulletin to anyone who may be a prospective member to our club. If they will send an SASE plus two 15¢ stamps I will send the bulletin. Our address is:
Niagara Frontier Wireless Ass'n.
Box 68, Station H, Buffalo N.Y. 14214.

Cordially,
Larry Babcock
8095 Centre Lane
Amherst N.Y. 14051

P. S. The set in the picture is the AR812. Mr. Houck says that the idea of using the 2nd harmonic of the oscillator was his (Houck's) invention! Our club is selling reprints of the AR812 instruction manual. At the meet Harry autographed a bunch of them for guys who bought the manual from us!

Dear Jim,

Thanks for the reminder card and am sorry that it has taken so long to reply but I am sure you know that I have been in hospital. Am back at work now and feeling much better!

Am enclosing another ad for you to run. You might be interested to know that I have run ads in several Ham journals and other periodicals to do with collecting and have got almost all my success from Horn Speaker ads. I have now a complete set of QST mags from 1924 thanks to your excellent publication.

Also am enclosing a sub for another year. Please keep up the good work.

Kindest Personal Regards,
Dave Medley
6621 Duffield Dr.
Dallas TX 75248

Dear Jim:

I'm glad that you reminded me of "The Horn Speaker" subscription renewal - sure don't want to miss an issue. You have a very fine paper, keep up the good work.

I added a few nice radios to my collection, this past summer and some other components.

Thanks again,
Lyle Scheid
Route 1, Box 14
Icoquois S.D. 57353

Dear Jim;

Please find enclosed a polaroid photo of a DeForest Crosly Clock Radio I acquired this past summer. The cabinet is 59-3/4" high and I believe it to be a 1931 model.

Could you or any readers of THE HORN SPEAKER tell me more about this clock radio.

Many thanks,
David Watson
60 Westminster Ave. N., #1
Montreal West H4X 1Z2
Quebec Canada

Dear Jim:

Enclosed is my check for \$5.50 for another year in receiving a FINE magazine, THE HORN SPEAKER. Would like to hear from any of your readers in the area to form a possible antique radio club here in Eastern North Carolina.

Thanks,
Bill Coleman, Jr./KALDAP
114 Circle Dr.
Rocky Mount N.C. 27801

news

VINTAGE RADIO BOOKS SELL-OFF WILL CONTINUE

Morgan and Gladie McMahon had planned to cease all Vintage Radio book shipments as of July 31, 1979. Thanks to two kind volunteers, shipments will continue until all books are gone.

Gayle McMahon Rowland and Betty McMahon, Morgan's sister and step-mother, will continue to ship books and print sets until they run out. They will also continue the radio circuit diagrams service.

Radio Collector's Guide is already gone. Vintage Radio, 1887-1929 is in short supply but still available. There are enough copies of A Flick of the Switch, 1930-1950 and Gernsback's 1927 Radio Encyclopedia to last for some months, and a good supply of 1926-1938 Radio Diagrams books.

Morgan and Gladie wish to express their sincere appreciation to Gayle and Betty for their courage in becoming Vintage Radio's "operations department". This is a great service to the radio collecting hobby and to the preservation of radio history.

Prices are the same as before. Orders and information requests can be sent to McMahon Vintage Radio, Box 1331, North Highlands CA 95660. Phone number is 916 332-8262.

SOCIETY TO PRESERVE AND ENCOURAGE RADIO DRAMA, VARIETY AND COMEDY RADIO'S TOM MIX FEATURED SPEAKER

Curley Bradley, long-time lead in the "Tom Mix Ralston Straight-shooters" program, was the featured speaker at the October meeting of the Society to Preserve and Encourage Radio Drama, Variety and Comedy (SPERDVAC).

The Tom Mix program provided Western action and adventure to a generation of youngsters who were frequently encouraged to send "ten cents and a boxtop" to the sponsor for a wide variety of radio premiums.

Bradley was also a performer on Don McNeill's "Breakfast Club" and a character actor in the NBC series, "Road To Danger".

The meeting was held Saturday, October 12, at 12 noon in the Buena Park Public Library, 7150 La Palma Avenue, Buena Park. The meeting was open to the public and there was no admission charge. SPERDVAC, America's largest organization devoted to old time radio, maintains three extensive tape lending libraries, publishes a monthly Bulletin and an annual Magazine, and conducts monthly meetings featuring personalities from the radio broadcasting industry.

Persons interested in further information on the Society should write SPERDVAC, P.O. Box 1587, Hollywood, California 90028.

POSTAL IDENTIFICATION STATEMENT
The Horn Speaker (USPS 956120) is published monthly, except July and August by Jim Cranshaw, 9820 Silver Meadow Dr., Dallas, Texas 75217. Subscription rates are \$5.50 per

year, \$11.00 two years. Second-class postage paid at Dallas, Texas. POSTMASTER: Send address changes to The Horn Speaker, P.O. Box 53012, Dallas TX 75253. Subscribers, advertisers, photo-

graphers and writers, please use the following address;

MU-RAD RECEIVER

VINTAGE RADIO HAS GREAT BOOKS FOR YOU!

VINTAGE RADIO 1887-1929

You'll enjoy this fascinating pictorial story of pioneer days in wireless and radio. Relive the days of Marconi, old spark transmitters, and the struggles of early radio broadcasting. It's the radio collector's reference, with over 1,000 pictures on 263 pages.

WHILE THEY LAST!
HARD-COVER \$10.95
HANDBOOK \$8.95

A FLICK OF THE SWITCH 1930-1950

Here's your time trip through the great days of radio broadcasting and the dawn of television. Revisit the Lone Ranger, Philco "cathedral" radios, old "Ham" days and many more. You'll revel in 312 pages of story, old ads and over 1,000 pictures.

WHILE THEY LAST!
HARD-COVER \$10.95, HANDBOOK \$8.95

1927 RADIO ENCYCLOPEDIA

Own this authentic reproduction of Gernsback's classic. Browse through radio's heroes (who's Marconi?) and hardware (what's a coherer?) of the old days. 175 fascinating pages. Our hard-cover version is a serialized limited edition, an ideal gift.

WHILE THEY LAST!
DELUXE HARD-COVER \$14.95 SOFT COVER \$10.95

1921-1932 RADIO COLLECTOR'S GUIDE

This book makes you an "instant expert" as you go prospecting for the old radios. It eliminates guesswork in determining a set's age and "pedigree." The book is 264 pages loaded with over 50,000 facts on 1,000 radio models made by 1,100 manufacturers.

SOLD OUT

WHILE THEY LAST!
HANDBOOK \$6.95

MOST-OFTEN-NEEDED 1926-1938 DIAGRAMS

This reprint of Morris Beitman's Supreme Publications book shows circuit diagrams for 600 radio models. Its 240 pages are valuable for historical circuit information, and are great aids in restoring those old sets. Made from Supreme's original artwork, it is clear and readable.

WHILE THEY LAST!
HANDBOOK \$7.00

CIRCUIT DIAGRAMS

We will research any pre-1951 radio model and send you the circuit diagram and any other available repair information. We'll also tell you the year in which that model was introduced. Your money back if we don't come up with at least a circuit diagram!

We now have Canadian diagrams, too!

ANY RADIO MODEL \$3.50

DISCOVER THE EXCITING RADIO COLLECTOR'S HOBBY!

LIMITED SUPPLY! WE HAVE MADE OUR LAST PRINTING- STOCK UP WHILE YOU CAN!

GOOD NEWS GOOD NEWS GOOD NEWS

Our new friends may not know it, but Vintage Radio was supposed to be out of business by now. We were rescued by two nice ladies who have volunteered to continue shipping Vintage Radio books. Their names are Betty McMahon and Gayle-McMahon Rowland, of North Highlands, California.

Betty and Gayle will continue to ship books until they're gone. Our Radio Collector's Guide is already sold out. Vintage Radio is in short supply. A Flick of the Switch and Radio Encyclopedia can carry on for a few more months, and we have quite a few copies of 1926-1938 Radio Diagrams. Gayle will carry on the circuit diagrams service as long as the book business lasts.

So let's cheer these two gals on with a few kind words and some orders. They deserve it!

Sincerely,

Morgan and Gladie McMahon

MAGNIFICENT COLOR PRINTS FROM ORIGINAL ART

These fine "Progress in Electronics" prints are the most striking artwork we've seen in years. Made from the original painting, each print is 8" x 10" with its own coordinated matte background. Prints are on beautiful heavy stock with high-quality inks. It takes nine passes through the printing press to make each of these four masterpieces!

Originally conceived as executive gifts by Hall-Mark Electronics, these fine pictures are made by special arrangement with the U.S. Postal Service. Now a limited edition, by Government decree. Here's the ideal gift for you, your relatives and friends!

THE ENCYCLOPEDIA OF ANTIQUE RADIO IS A CONTINUATION OF THE TYPE OF REFERENCE MATERIAL FOUND IN THE BOOKS ENTITLED "VINTAGE RADIO" & "A FLICK OF THE SWITCH" BY MORGAN E. McMAHON. THE CONTENT OF THE FIRST VOLUMES OF THE ENCYCLOPEDIA WILL BE LIMITED TO RECEIVERS AND EQUIPMENT WHICH WERE NOT INCLUDED IN THE VINTAGE RADIO BOOKS.

THE ENCYCLOPEDIA IS A COLLECTOR'S REFERENCE WITH HUNDREDS OF PHOTOGRAPHS AND ILLUSTRATIONS OF ANTIQUE RADIO RECEIVERS AND EQUIPMENT. YOU CAN NOW IDENTIFY SETS WHICH HAVE NOT BEEN PREVIOUSLY PUBLISHED IN ANTIQUE RADIO LITERATURE.

THE ENCYCLOPEDIA IS A PANORAMA OF RADIO HISTORY ENCOMPASSING SPARK TRANSMITTERS & RECEIVERS, CRYSTAL SETS, TUBES AND COMPONENTS, AND BATTERY POWERED & AC POWERED RADIOS.

VOLUME I OF THE ENCYCLOPEDIA IS AVAILABLE FOR IMMEDIATE SHIPMENT. VOLUME II WILL BE AVAILABLE IN APPROXIMATELY THREE MONTHS.

\$7.95 POSTPAID

Instructions for removing and inserting of 1 1/4-in. Springs in "His Master's Voice" Double Spring Cages

To insert Springs.

1. Take Spring as figure 5 and drop into Spring Cage (Fig. 6) taking care that the outer hook is in the correct direction to engage the corresponding hook on the Spring Cage (Fig. 7).
2. Pull off Spring Retaining Wire with button hook, holding Spring down as illustrated (Fig. 8).
3. Insert two teaspoonsful of "HIS MASTER'S VOICE" Spring Lubricant between the leaves of this Spring then insert Dividing Plate (Fig. 9).
4. Insert second Spring with hook in correct direction which is opposite direction to first Spring (Fig. 10).
5. Pull off retaining Wire (Fig. 8).
6. Insert one heaped teaspoonful of Spring Lubricant, and replace Spring Cage cap tapping home with raw-hide mallet (Fig. 11). The dismantling ring can now be removed.

7. Replace cap retaining Wire (Fig. 12) observing that it seats itself in correct position.
8. Figure 13 illustrates small lever, figures 14 & 15 show this lever in use for pulling the eye of Springs into position, so that the Bushes may be easily inserted.

Note—Should Springs release with a jerk or jump whilst playing it usually indicates that Springs need re-lubricating. To do this, remove Spring Cage Cap as described in illustration 1, 2 & 3, immerse Spring Cage in petrol or paraffin to remove stale lubricant or foreign matter, dry off and insert 3 teaspoonfuls of "HIS MASTER'S VOICE" Spring Lubricant.

Use dismantling ring when inserting uncoiled springs.

To remove Springs.

1. Withdraw driving Gear and Spring Bushing from Cage. It is merely necessary to pull these out.
2. Release Cap Retaining Wire with small screw driver (Fig. 1).
3. Place Spring Cage cap downwards in dismantling ring with rivet heads on Cage opposite knurled head screw on ring (Fig. 2) then slightly tighten up screw with fingers, having clamped Spring Cage squarely in position place ring face downwards on bench.
4. Place driving tonny through hole in uppermost end of Spring Cage and drive out cap (Fig. 3)
5. Holding the Spring Cage firmly pull out centre of first Spring and allow Spring to uncoil (Fig. 4) then remove Dividing Plate.
6. Dismantle second Spring as instruction 5 (Fig. 4).
7. Thoroughly clean Spring Cage—and Spring if to be used again—in petrol or paraffin to remove stale lubricant or foreign matter.

Instructions for inserting uncoiled Springs.

9. Figures 16 & 17 illustrates the releasing of Spring from retaining Wire. Care should be taken to grip the leaves of the Spring tightly in the left hand when slipping off retaining Wire, as illustrated.
 10. When Spring is uncoiled engage hooked end in lower hook of Spring Cage and coil Spring in spirally (Fig. 18) until it takes up the position illustrated (Fig. 19), care being taken that the Spring is thoroughly cleaned as it is inserted and that no foreign matter is allowed to enter the Spring Cage.
- Note—The illustration of the two positions of the Spring Cages in Figs. 18 & 19 were obtained by reflection in a mirror.
11. Tap Spring home with block and mallet (Fig. 20), insert Lubricant and proceed as previously described.

Important.

THE GRAMOPHONE COMPANY, LTD., HAYES, MIDDX.

INSTRUCTION CARD NO. 2. JUNE, 1921.

Read these instructions right through before attempting any of the operation:

On no account should the Governor be removed for this operation; nor should any part of the mechanism be loosened until the motor is entirely run down. To dismantle the Spring Cages of a Quadruped Motor, it is only necessary to remove the two grub screws from the sleeves of the Spring Cages and withdraw centre arbor. To dismantle Double Spring Motors, remove grub screw from top plate or winding ratchet, withdraw centre arbor and lift out Spring Cages. In all cases, after re-assembly wind up motor and allow to run down 2 or 3 times for the purpose of distributing the Lubricant.

The Home Grand

Type AZ Graphophone
Uses XP records and P blank cylinders

This Graphophone is equipped with new style lyre-shaped reproducer, which gives marvelously sweet and delightful tones.

Specifications.

Tandem Spring Motor, runs about five records each winding.
Handsome Cabinet, with top not shown in cut.
Lyre shaped Reproducer.
14-inch Aluminum Horn.
AZ Graphophone, complete as above, **\$25**

TYPE HG GRAPHOPHONE
Uses Grand (G) records and blank cylinders (8 inches diameter)

Specifications

6-Spring Motor, will run Graphophone about 14-records at each winding.
Very Elaborate Cabinet, with piano finish; has top not shown in cut.
New Style (D) Reproducer.
Recorder.
Shaving Knife.
Recording Horn.
42-inch Brass Horn and No. 1 Horn Stand for reproducing.
HG Graphophone, complete, as above, **\$100**

Types Q and QA Graphophones

Use XP records and P blank cylinders

TYPE QA GRAPHOPHONE

These Graphophones are marvels of simplicity and compactness. The two types differ only in equipment.

Specifications

Type Q—Including new large reproducer and 10-inch japanned tin horn **\$7-50**
Type QA—Including new large reproducer, oak cabinet, and 10-inch nickeled horn with seamless bell **\$10-00**

Type AR Graphophone

Uses all flat records

THE FINEST DISC TALKING MACHINE MADE

Specifications

Powerful Spring Motor; will run ten average 10-inch records at each winding.
Highly Finished Mahogany Cabinet.
Analyzing Reproducer.
30-inch Brass Horn (10 1/4-inch bell) with metal elbow.
Ornamental, Detachable, Horn Supporting Arms.
100 Needles.
Two-part Needle Box.

PRICE, complete, as above, **\$65**

PRICE, equipped with 36-inch aluminum horn, otherwise as above, **\$70**

Type AU Graphophone

Uses all flat records

Specifications

Spring Motor.
Japanned Bed Plate.
Analyzing Reproducer.
10-inch Japanned Horn, with metal elbow.
Horn Supporting Arms.
100 Needles.
Two-part Needle Box.

PRICE, complete as above, **\$12**

PRICE, equipped with 16-inch Horn with polished brass bell, otherwise as above, **\$13.50**

THE "EAGLE" Coin-Slot Graphophone

TYPE BS GRAPHOPHONE

Uses small cylinder records—style XP

The mechanism of this instrument is simple and unlikely to get out of order. Many thousands of machines of this type have been sold, and they give universal satisfaction. The cabinet is suitable for placing on a counter or table.

Specifications

Spring Motor. Reproducer.
Handsome Cabinet. 13-inch Nickeled Horn.
NOTE—Single hearing tube, instead of horn, will be furnished, if desired.
BS Graphophone, complete, as above, **\$20**

STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION (Act of August 12, 1970; Section 3685, Title 39, United States Code).

- Title of publication: THE HORN-SPEAKER.
- Date of filing: Oct. 1, 1979
- Frequency of issue: Monthly except during July and August.
- Location of known office of publication (street, city, county, state, zip code): 9820 Silver Meadow Dr., Dallas, Texas 75217.
- Location of the headquarters or general business offices of the publishers (Not printers): 9820 Silver Meadow Drive, Dallas, Texas 75217.
- Names and addresses of publishers, editor, and managing editor: Publisher: Jim Cranshaw, 9820 Silver Meadow Drive, Dallas, Texas 75217. Editor: Jim Cranshaw, 9820 Silver Meadow Drive, Dallas, Texas 75217. Managing Editor: Jim Cranshaw, 9820 Silver Meadow Drive, Dallas, Texas 75217.

7. Owner (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding 1 percent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a partnership or other unincorporated firm, its name and address, as well as that of each individual must be given.): **Jim Cranshaw 9820 Silver Meadow Drive Dallas, Texas 75217**

The UKO TEST-METER

The UKO Test-Meter makes it possible for you to test your own 1 1/2-90 volt Radio A-B Battery. Simple directions tell you how to test the A and B sections of your battery. See for yourself if it needs replacement. No one, including a Radio Store, can tell you. Save time and money with a UKO Test-Meter.

E. W. EHMANN CO.
Box 182
GENEVA, ILLINOIS

DIRECTIONS FOR TESTING A-B BATTERY

Remove the radio plug from your battery and in its place insert the adapter plug supplied with meter. Turn the A section of your battery about the 2-prong terminal into the adapter plug. If the needle moves to 1.0 or higher on the bottom scale your battery is still good. To test B section insert the 2-prong terminal. If the needle moves to 7.5 or higher on the top scale your battery is still good. If the pointer fails to reach 1.0 or 7.5, a new battery will improve your radio reception.

\$4.95 With the UKO Test-Meter there is no way in which you can learn your radio, your battery, or the Test-Meter.

FOR TRADE: RADIOLA 25 LOOP ANTENNA, WHAT DO YOU HAVE TO TRADE FOR IT?

WANTED: HORN FOR A WESTERN ELECTRIC 10-D DRIVER. Robert Deuel, P.O. BOX 1181, MEDFORD OR 97520.

This summer I found an old man in town who has 3 sheds full of old radios. He pulled out an AK Breadboard and a horn speaker and said he was going to take this to L.A. to get top price, but if you want to pay it, I'll sell for \$40. So I took it and a Radiola #20, a Federal and an Arbophone at \$10 each. There must be 150 more in there, plus parts and tubes galore. I have been hauling out more, but can't get rid of them, so I stopped buying. If some one has some horn phonographs to trade I will dig out more. Charles Seidel 925 Starlite Grants Pass, OR 97526

PUETT ELECTRONICS

PUBLISHERS OF P. O. BOX 28572 DALLAS TEXAS 75228

ANTIQUE RADIO TOPICS & THE CLASSIC RADIO NEWSLETTER

LIST No. 18

how to order: (1) Make all checks or money orders payable to PUETT ELECTRONICS. All payments must be in U. S. funds and negotiable without payment of a bank collection fee. Money orders issued by post offices in certain countries (Canada for example) are acceptable if they can be cashed in a U. S. post office.

(2) ALL ITEMS ARE POSTPAID AND ALL SHIPMENTS ARE INSURED when ordered at the prices listed heretofore (in list No. 18) or in our new catalog No. 18. The scarcity of many antique radio tube types and the increasing cost of paper and printing has made it necessary for us to increase the prices of many items which we regularly stock. We will, however, accept orders from our obsolete price list No. 17 until 30 April 1979. Customers who order from the obsolete list No. 17 or catalog No. 17 must include postage, handling & insurance charges as instructed in the obsolete list or catalog.

(3) TEXAS RESIDENTS ADD 5% STATE SALES TAX.

IN A HURRY! You may call J. W. F. Puett at his residence from 9:00 AM to 10:00 PM Central Standard or Central Standard Daylight Time. We will be glad to help you with free technical consultation 216 - 321-0921 or 327-8721.
