## And The Glory Days Of American Film 1915-1965

*Available now.*  
A must-read  
for anyone  
interested in  
the early days  
of the U.S.  
film industry!

---

Martin J. Quigley's life included the people who built the film industry — people like Barney Balaban, Cecil B. De Mille, Adolph Zukor, Louis B. Mayer, Marcus Loew, Darryl F. Zanuck, Samuel Goldwyn, Spyros Skouras, Irving Thalberg, Harry Cohn, Howard Hughes and Jack and Harry Warner. Quigley was intimate friends and a trusted confidant to all these early moguls. For 25 years the author had the privilege — not often had by a son — of being able to observe the day-to-day business and professional activities of his father. Included are an historical overview of the film business, 40 pages of rarely seen photographs, a history of the origin of motion pictures, the full text of the Production Code co-authored by Quigley (and the forerunner to today's film rating system) and a complete index of people, films and critical issues to the business and art of motion pictures as seen through the life of Martin J. Quigley.

DIRECTOR

The Canadian Audio-Visual Certification Office (CAVCO) and the Canada Revenue Agency (CRA) jointly administer the Canadian Film or Video Production Tax Credit (FTC) and the Film or Video Production Services Tax Credit (PSTC).

The FTC is a refundable tax credit available at a rate of 25% of qualified labour expenditures. Labour expenditures qualifying for the credit may not exceed 48% of production cost at the end of the year, net of assistance, for productions with a commencement time before November 14, 2003, and 60% if the commencement time is on or after that date (there's an election period; to know more about it you can call CAVCO at their toll-free number above). The FTC is available to prescribed taxable Canadian corporations whose activities throughout the year consist primarily of conducting a Canadian film or video production business through a permanent establishment in Canada. CAVCO's role under the FTC program is to certify that a production is a Canadian film or video production and to issue certificates (Part and Part B) so that Canadian producers can claim the FTC. CRA's role is to help applicants, interpret legislative provisions affecting the FTC, review/audit FTC claims, assess corporation income tax returns, and issue timely refund cheques.

The PSTC is a refundable tax credit provided at the rate of 16% (11% before February 19, 2003) of qualified Canadian labour expenditures, net of any assistance, in respect of an accredited production for services rendered in Canada by Canadian residents. There is no cap on the amount of PSTC that can be claimed, and it is available to corporations whose activities throughout the year consist primarily of conducting a film or video production business or a film or video production services business through a permanent establishment in Canada. CAVCO's role under the PSTC program is to determine the eligibility of the production and to issue an Accredited Film or Video Production Certificate on behalf of the Minister of Canadian Heritage. CRA's role is to help applicants, interpret legislative provisions affecting the PSTC, review/audit PSTC claims, assess corporation income tax returns and issue timely refund cheques.

EXECUTIVE DIRECTOR

Alan Brooks

The Alberta Motion Picture Industries Association (AMPIA) is a non-profit professional service association serving the independent motion picture production community in the province of Alberta. AMPIA was founded in 1973 with the single aim of fur-

thering the independent motion picture industry as a viable economic and cultural force within the province.

Historically, AMPIA has been recognized and called upon to serve as a voice for the Alberta film and video industries. In 1994 the Association strengthened this voice by expanding its membership to include a broader base of industry professionals within its voting membership. Likewise, the organization expanded the size and scope of the AMPIA Board of Directors to reflect the various sectors of this dynamic industry.

A monthly newsletter, Keep It Rolling, goes out to more than 500 people in the film industry, both members and non-members of AMPIA. Other Association activities include industry advocacy, professional development and information services.

The Canadian Picture Pioneers was formed in 1940 as an organization dedicated to the welfare of all men and women of the motion picture industry. It has grown to its present-day strength of over 900 members in six branches across the country. Original membership requirements called for 25 years of service in the industry. This period of service has now been reduced to 15 years. Anyone qualifies for membership — doorman, cashier, caretaker, manager, projectionist, booker, etc. Its Trust Fund helps members of the film industry by, for example, frequently paying additional costs not covered by a health insurance plan and providing for wheelchairs and special treatments.

### Aims & Objectives

To create and promote friendly relations among those who have been or are engaged in or connected with the motion picture industry.

To create and promote friendly relations and understanding between the public and those engaged in or connected with the motion picture industry.

To aid those in need who were formerly in the motion picture industry without requiring repayment of any kind from the recipient.

Mason of Springhill, Nova Scotia, Léo-Ernest Ouimet of Montréal and Fred G. Spencer of Saint John, New Brunswick, were honoured as pre-1910 pioneers who had done the most to advance the motion picture as a popular form of entertainment in its early days.

The next year, the Pioneer of the Year Award was inaugurated. The most recent appointees were:  
2005 — Karen Davis

## OFFICE OF COMMUNICATIONS (OFCOM)

OFCOM was designed to be a 'super regulator', required in an age where many media platforms are converging. OFCOM was initially established in the Office of Communications Act 2002 [1], but received its full authority from the Communications Act 2003. On December 29, 2003, OFCOM inherited the duties that had previously been the responsibility of five regulatory bodies: The Broadcasting Standards Commission  
The Independent Television Commission  
The Office of Telecommunications (OfTel)

# SATELLITE AND CABLE SYSTEMS OPERATORS

---

British television broadcasting has a range of different broadcasters, broadcasting multiple channels over a variety of distribution media. Before the advent of digital television in the UK, five main television channels dominated (BBC, ITV, Channel 4, Five, S4C and Teletext) British television. With the increasing popularity of digital television, all are expanding and offering a portfolio of digital-only channels to viewers. Starting in 2008 and ending in 2012, television services in the UK will go completely digital, region by region. Digital UK is the independent, not for profit, organization set up by the broadcasters to lead the UK's switch to digital television.
