This section lists the **M Street RADIO MARKETS** in the United States followed by those in Canada. In general, a station is included in a market if it is licensed to a city in that market or if the market is a primary focus of its marketing activities.

For each listing, the market name is followed by all states served, Metro populations, the M Street 2002 market rank (MST), the Arbitron Spring 2002 market rank (ARB), the Eastlan survey dates (if any), followed by AM and FM stations in dial order.

Metro population figures are based on the 12+ population estimates of Arbitron, if an Arbitron-rated market; or M Street, if the market is not rated. M Street rank is based on population estimates for the M Street-defined market area which is defined by postal zip codes, rather than counties. The market definitions of Arbitron and Eastlan are influenced by stations purchasing each company's rating services, and do not necessarily coincide with each other or with M Street.

Audience estimates are for persons 12+ Monday-Sunday, 6am to midnight, average quarter hour shares and persons from the Metro Survey Area. Ratings for each Arbitron market are from the most recent ratings period for that market. Eastlan survey dates are given separately for each market.

This year's directory includes Arbitron trend information. The column headers indicate the rating period, or "book" from which the numbers came. Here are our abbreviations, as well as the survey dates for each book:

"W02"	Winter 2002 Arbitron	January 3 - March 27, 2002
"F01"	Fall 2001 Arbitron	September 20 - December 12, 2001
"U01"	Summer 2001 Arbitron	June 28 - September 19, 2001
"S01"	Spring 2001 Arbitron	March 29 - June 20, 2001

If the market is measured by both Eastlan and Arbitron, the Eastlan share and AQH are listed in the last column. Trend data may not be available for all stations. Arbitron does not release rating information for non-commercial stations.

For more information on ratings and copyright information, see the **ABOUT RATINGS** section at the front of the book. Estimates are Copyrighted and may not be quoted or reproduced without prior written permission of the Copyright owner. For more information on the format descriptions for each station, see the **FORMAT CLASSIFICATIONS** section at the front of the book.

As with other sections of the book, **M Street RADIO MARKETS** are a condensation of data collected and are revised on an ongoing basis by M Street. Please call or write us with updates, corrections, or inquiries for customized applications of our market data.

# Tools to Help You Tell Your Station's Story

Information and Software to Grow Listening,  
Drive Revenue

Your station has a unique story to tell advertisers, and Arbitron can help you tell it. We provide the information you need to understand your audience and communicate your station's power to advertisers. Plus we provide the support to help you make it all happen whenever and wherever you need it—on-site, on the phone and online.

To learn more about how Arbitron can help you achieve your goals, contact your Arbitron account manager.
