## Foreword

Radio — the satellite operators call it “terrestrial radio” — has thrived and out-lived 15 American presidencies, starting with Woodrow Wilson in 1920, and KDKA’s “call” of the 1920 election win by Warren Harding.

Now there’s “Internet radio”, and “satellite radio” and “cable radio” — but the most familiar kind of “radio” to North Americans is still the one that’s in the kitchen, the bedroom, the bathroom, the garage, the car and even the boat.

M Street’s mission since 1984 is to track radio in the U.S. and Canada — all 14,000+ stations, commercial and non-commercial. Our expertise is sought by major news organizations and small-town papers, and we’re happy to share our information with them, and with you. And thanks for your support.

The M Street Directory added website addresses with the previous 10th edition, and enlarged the size of the publication to accommodate the new information you wanted.

As always, this latest edition encompasses the newest Arbitron-defined metros, plus a few of our own (yes, Arbitron doesn’t quite cover the U.S. with local-market reports).

And featured in this latest 11th Edition —

- Full listings for Mexican stations operating in U.S. Border markets.
- Expanded information on stations that simulcast.
- Updated Format Statistics, including breakouts by format, AM vs. FM, commercial vs. non-commercial, and large vs. small markets.
- The latest Arbitron 12+ numbers for every measured market.
- Eastlan ratings for selected markets.

We also appreciate our advertisers, who make it possible to bring you the Directory at an affordable price.

Contact us any time with changes or questions about radio — 800-248-4242, or [www.MStreet.net](http://www.MStreet.net). The website features news, station information, and the complete list of M Street products.

The M Street Database Format Codes

As the broadcast industry itself evolves, so do radio station formats. Classifications and definitions are amended from time to time to reflect current trends. Here is the current set of format classifications.

<b>AAA</b>	<b>Adult Alternative</b> An eclectic playlist based on rock music but with some other forms of music such as blues, folk and jazz included. The target audience is generally from ages 25 to 54.	<b>CWT</b>	<b>Traditional Country</b> The Traditional Country station aims for a sound that reflects country music before it was made contemporary" through the addition of drums and non-stringed instruments in the 70's. Traditional Country stations play music that's in current release that has this "traditional" sound along with older music with a "traditional" sound.
<b>ACW</b>	<b>AC &amp; Country</b> Just what it says. A near 50/50 blend of music from the two formats.	<b>DNC</b>	<b>Rhythmic-CHR</b> A contemporary hit radio station that focuses on rhythmic music.
<b>ADC</b>	<b>Adult Contemporary</b> An adult oriented pop/rock station. The Adult Contemporary station will play many of the same records as are currently heard on mainstream CHR stations or were part of mainstream CHR in the 80's and 90's but will leave out those that are at the extremes of rock, rhythmic and rap. The target audience runs from 25 to 54 and may skew	<b>EIT</b>	<b>80's Hits</b> A blend of rock and pop music of the late 70's through early 90's with an emphasis on rock and a total absence of any of the dance music that was part of pop music in this period.
<b>AMR</b>	<b>Americana</b> A blending of the rock music played on the AAA station with country and folk music.	<b>ETH</b>	<b>Ethnic</b> Programs primarily in languages other than English and/or directed to groups of specific national origin. These stations often utilize block programming in which programs in one language or of one national group target are followed by programs of a different language or national group target.
<b>BGS</b>	<b>Black Gospel</b> Gospel music and spirituals of the type heard in predominantly black churches. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.	<b>EZY</b>	<b>Easy Listening</b> This format is distinguished by the programming of "lush" orchestral arrangements of standards and popular songs. Recordings of vocal performances of standards and soft sounding pop tunes may also be included in the programming.
<b>BIZ</b>	<b>Business News</b> An all-news or news-talk station focusing on business and financial issues. This can be in the form of news blocks that cover current events in the business world and/or talk shows that dispense financial advice.	<b>FLK</b>	<b>Folk</b> A station whose playlist focuses on Folk music. Some traditional sounding country music and softer rock music may also be included in the programming.
<b>BLG</b>	<b>Bluegrass</b> A station whose playlist focuses on Bluegrass music. Some traditional sounding country music may be included in the programming as well.	<b>FNA</b>	<b>Format Not Available</b> This applies to a station that is involved in program stunting as part of a change to new format.
<b>BLU</b>	<b>Blues</b> A station whose playlist focuses on Blues music. Some older rhythm & blues or soul music may also be included.	<b>FRM</b>	<b>Farm</b> A station that focuses on providing agricultural or agri-business news and information. This could be accomplished through news-blocks, talk shows or information that's interspersed with the airplay of country music.
<b>CCN</b>	<b>Contemporary Christian</b> A station that sounds very much like an ADC-adult contemporary, CHR-contemporary hit radio or HAC-hot adult contemporary station with the significant difference that the records played are all of a religious rather than secular nature. This format includes sub-genres such as Christian rock and Christian dance. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.	<b>GOS</b>	<b>Gospel Music</b> Traditional gospel music and spirituals. The code may also be used as a "catch all" for a station that mixes both black gospel and southern gospel. The format may also include teaching and ministry programs of varying lengths programmed throughout the broadcast day.
<b>CHR</b>	<b>CHR</b> A format that focuses on current popular music, often encompassing a variety of styles from rock through dance, that appears on the mainstream music charts in music industry trade publications such as Billboard and Radio & Records.	<b>HAC</b>	<b>Hot AC</b> Adult CHR might be another way of looking at this format. The Hot Adult Contemporary station plays much of the same music as the CHR station but avoids music that appeals only to the younger CHR listeners.
<b>CLA</b>	<b>Classical</b> Airplay of orchestral music, chamber music, opera and other forms of non-contemporary vocal music.	<b>INF</b>	<b>Surveillance/ Weather/Traffic</b> These are fully licensed radio stations that provide programming that is more commonly associated with Traveler's Information Service (TIS) radio stations. Their programming consists solely of one or more types of information with no other entertainment programming
<b>CLR</b>	<b>Classic Rock</b> Mainstream rock of the 60's, 70's and 80's with little or no current rock music included.	<b>JAZ</b>	<b>Jazz</b> A station that programs music either traditional jazz or smooth jazz or some blend of the two.
<b>CLX</b>	<b>Classic Hits</b> A blend of rock and pop music of the late 60's through early 80's with an emphasis on rock and a total absence of any of the dance music that was part of pop music in this period.	<b>KID</b>	<b>Pre-Teen</b> Although we call this Pre-teen this station can appeal to children ages six through 16. The format is generally manifest as a very young skewing CHR station with high energy disc jockeys, call-ins and a large proportion of novelty records.
<b>CPN</b>	<b>cp-new</b> Assigned to a new station that has been authorized to build its transmitting facility but has never been on the air.	<b>MAC</b>	<b>Modern AC</b> Somewhat analogous to the Hot Adult Contemporary stations in that they take the music that is part of a younger skewing format and make it attractive to an older audience. The Modern AC station takes the current modern rock music at the core of Modern Rock stations and blends it with older modern rock music.
<b>CTY</b>	<b>Country</b> A station playing a variety of country music styles. Although this station will play music currently listed in music industry trade publication charts in Billboard and Radio & Records, the amount of older country music played on the station may vary greatly between 25% and 75% of the playlist.	<b>MOD</b>	<b>Modern Rock</b> A contemporary hit radio station that focuses on modern rock music.
<b>CWO</b>	<b>Classic Country</b> This station plays no country music that's currently on the country charts in music industry trade publications. Exactly how old the music played on the Classic Country station is can vary. Some stations could reach back to the 30's while others might play only selections from the 70's and on.	<b>NTK</b>	<b>News/Talk</b> A talk station with a heavy news and information orientation. The News/Talk station has a news block in one or more dayparts.

## FORMAT CLASSIFICATIONS

<b>OFF</b>	<b>Silent</b> The term "silent" applies to a station that had been operating with a regular format but is now off-the-air. This could be due to a number of circumstances ranging from technical problems through financial difficulties and complexities arising from the sale of the station.	<b>QQQ</b>	<b>French Variety</b> The QQQ code is a catch-all for French language stations whose format we're unable to classify and for those French language stations employing Variety programming wherein three or more format types are being programmed either simultaneously or in blocks. Two nighttime country shows is too many for Jones, so it's dropping "Dallas Live From Nashville." Jones wound up syndicating two competing Nashville-based country music-and-interview shows after firing in Broadcast Programming. It had both Dallas Turner's show and Lia Knight's show. Edie Hillard says it's time to concentrate on just one effort — and Lia is it. Jones says Lia currently airs on 135 stations and reaches 1.7 million listeners a week. Dallas won't be sitting on a bus-bench on "Music Live." She continues as host of GAC's "Country Request Live" cable show after her radio show winds down in August.

Jones' other piece of country news — it's launching the Saturday night "Classic Country Weekend." To be anchored by WSM Nashville morning man Bill Cody, who's got great credentials in classic country. We can't help but note that the 7pm to midnight Jones Radio Networks show essentially covers the timeslot of WSM's Grand Ole Opry — which several owners of WSM have refused to syndicate. Including current owner Gaylord. Format of the Nashville-based "Classic Country Weekend" is music and artist interviews. Jones is squeezing some extra synergy out of this by launching a new daily classic country video show on its co-owned GAC (Great American Country) cable network, also to be hosted by WSM-AM's Bill Cody.

Wall Street may have gone overboard on Spanish radio, says Robertson Stephens. Analyst James Marsh says stocks of Spanish-radio groups like Hispanic Broadcasting and SBS "may be overvalued," based on an extensive performance review of 13 public radio stocks. Did Nat Street get carried away with the Spanish media story, about the 13% growth in Hispanics since 1990 and radio's ability to reach them? Marsh says the outlook is still bright — but HBC, SBS and others now face expensive marketing battles. And they're paying higher prices for recent acquisitions, like SBS' \$250M purchase of L.A.'s KFSG.

Rush Limbaugh's a DJ again — online. Rush — the former "Jeff Christy" at KQV, Pittsburgh in the 1970s — started fooling around with the 30-minute "Grooveyard of Forgotten Favorites" a couple of months ago, reports the New York Post. "Grooveyard" is available online live a half-hour before his Premium syndicated show at RushLimbaugh.com. The paper says Rush's "Internet platter party" pulls as many as 50,000 listeners a day to Rush's favorite oldies with a special over-the-air broadcast of "Grooveyard", following his radio show and just before the Yankees game against the Yankees.

New Orleans has a new format — classic hits. Clear Channel has changed the format of its New Orleans radio station to classic hits. The format change was announced for the staff on Friday night. The station's history, succeeded by a format dubbed "The Fox." New calls are 104.1 FM. It's worth noting that the 104.1 facility is a big full Class C, and consequently pulls numbers north of New Orleans in Baton Rouge. Arbitron market #84.

Clear Channel bangs into ownership limits in Bangor. You don't see this too often: The FCC literally dismissed a sale application because of "noncompliance with the multiple ownership rules." It happened to Clear Channel after it filed to buy "97.1" WWBX (97.1) from Gopher Hill Communications. Remember last Monday we suggested that CC is dealing oldies WGLY to Mark Jorgenson's Concord Media because it wants to acquire CHR WWBX? Sure looks like that's the case: Friday the FCC revealed its dismissal of the transfer app for WWBX. And — Clear Channel filed a Petition for Reconsideration on the sale. Our guess is that it will argue that it's now going to have room for WWBX because it's disposing of WGLY, Dexter, ME (102.1), because it's a rare thing at the FCC.

Estimates of audience share labeled Arbitron are Copyright 2002, The Arbitron Company. Estimates may not be quoted or reproduced without prior written permission of The Arbitron Company.

Estimates of audience share labeled Eastlan are Copyright 2002 by Eastlan Resources. Any reuse of their ratings are subject to approval by Eastlan Resources.

The M Street Radio Directory contains estimates of average-quarter-hour-audience size and market audience share from surveys taken by the above ratings companies. The figures we show are taken from the latest survey published before our deadlines. The particular survey used in each market is shown in **The M Street RADIO MARKETS** section, but not in the individual station listings. Ratings are not shown for stations that did not meet minimum reporting requirements or for stations that show up with ratings in markets outside of their primary market area.

The majority of these estimates were compiled through surveys conducted by The Arbitron Company which reports its estimates on a quarterly basis. A number of radio markets are surveyed by Eastlan Resources. Eastlan's surveys do not always coincide with the Arbitron survey periods. The dates of the Eastlan surveys are given in the **MARKETS** section.

The term "ratings" is used to describe the audience figures published in the M Street Radio Directory. However, "audience share" and "audience estimate" are more accurate terms. The published numbers express the size of a station's

audience in a theoretical "average-quarter-hour" (AQH) between 6:00am and 12:00 midnight in two ways: 1) As a percentage of all radio listeners twelve years old or older (12+) and 2) as a number of persons 12+ listening.

These figures highlight some relative strengths and weaknesses of the stations competing in a market but tell only a small portion of the story of competition in a market.

These 12+ Monday-Sunday 6:00am to 12:00 midnight AQH estimates are not the only audience data that ratings firms provide. Far more specific estimates that report the size of a station's AQH audience at different times of the day and detail how radio listening differs by age and gender are available directly from the ratings firms. Also available are cumulative audience estimates which report how many people listen to a radio station over time periods longer than a quarter-hour. These more specific figures are not included because of their volume and because the ratings firms would have little to sell if they were published. For more information contact the ratings company directly.
